"(III) Professional training in military and civilian institutions.

"(IV) Officer acquisition training.".

## PART C—CIVILIAN PERSONNEL

### SEC. 421. AUTHORIZATION OF END STRENGTHS AND OBLIGATIONAL LIMITS

(a) IN GENERAL.—(1) The Department of Defense is authorized a strength in civilian personnel, as of September 30, 1987, of 1,084,836.

(2) Of the funds appropriated or otherwise made available to the Department of Defense for fiscal year 1987, the total amount that may be obligated for the employment of civilian personnel within the authorization prescribed by paragraph (1) may not exceed $31,811,640,000.

(b) APPORTIONMENT OF PERSONNEL.—The strength for civilian personnel prescribed in subsection (a)(1) shall be apportioned among the Department of the Army, the Department of the Navy, the Department of the Air Force, and the agencies of the Department of Defense (other than the military departments) in such numbers as the Secretary of Defense shall prescribe. The Secretary of Defense shall report to Congress within 60 days after the date of the enactment of this Act on the manner in which the initial allocation of civilian personnel is made among the military departments and the agencies of the Department of Defense (other than the military departments) and shall include the rationale for each allocation.

(c) COUNTING OF PERSONNEL.—(1) In computing the strength for civilian personnel, there shall be included all direct-hire and indirect-hire civilian personnel employed to perform military functions administered by the Department of Defense (other than those performed by the National Security Agency) whether employed on a full-time, part-time, or intermittent basis, but excluding personnel in special employment categories for students and disadvantaged youth (such as the stay-in-school campaign, the temporary summer aid programs, and the Federal junior fellowship program) and personnel participating in the worker-trainee opportunity program.

(2) Personnel employed under a part-time career employment program established by section 3402 of title 5, United States Code, shall be counted as prescribed by section

3404 of that title. Personnel employed in an overseas area on a part-time basis under a nonpermanent local-hire appointment who are dependents accompanying a Federal civilian employee or a member of a uniformed service on official assignment or tour of duty shall also be counted as prescribed by section 3404 of that title.

(3) Whenever a function, power or duty, or activity is transferred or assigned to a military department or an agency of the Department of Defense from a department or agency outside of the Department of Defense, or from another military department or agency within the Department of Defense, the civilian personnel end-strength authorized for each such military department or agency of the Department of Defense affected shall be adjusted to reflect any increases or decreases in civilian personnel required as a result of such transfer or assignment.

SEC. 422. REQUIREMENTS RELATING TO PROPOSED INCREASED UTILIZATION OF CIVILIAN PERSONNEL

(a) IN GENERAL.—No commercial or industrial type function of the Department of Defense that on or after the date of the enactment of this Act is being performed by a private contractor may be converted to performance by Department of Defense civilian employees—

(1) except in time of war, time of national emergency declared by the Congress or the President, or upon a written declaration of the Secretary of Defense (and not a delegate) that such conversion is required in the interests of national security; or

(2) unless the Secretary of Defense provides to the Congress in a timely manner—

(A) notification of any decision to study such commercial or industrial function for possible performance by Department of Defense civilian employees;

(B) a detailed summary of the comparison of the costs of performance of such function by private contractor and by Department of Defense civilian employees which demonstrates that the performance of such function by Department of Defense civilian personnel will result in a cost savings to the Government over the 5-year period following conversion and a certification that the entire cost comparison is available in the Department of Defense;

(C) a certification that the cost estimate for the performance by Department of Defense civilian employees (i) includes an estimate of indirect costs computed on the same basis as those of the private contractor, (ii) includes an estimate of the cost of retirement benefits provided to civilian employees (estimated on the basis of current data), and (iii) is based on an estimate of the organization for performance of such function by such civilian employees that is to be utilized if a decision is made to convert to performance by civilian employees; and

(D) a report, to be submitted with the certification required by subclause (C), showing—

(i) the potential economic effect on contractor employees, and, if more than 50 contractor employees are involved, the potential economic effect on the local community and Federal Government (including the effect on Federal tax revenues and Federal Government expenditures under Federal benefits programs) of converting to performance by Department of Defense civilian employees; and

(ii) the cost of performance of such function by private contractor and the cost of performance by Department of Defense civilian employees, including any incidental or one-time costs and expenditures which the Government will incur because of a decision to convert to performance by civilian employees.

(b) NOTIFICATION REQUIREMENT.—If, after the completion of the studies required for completion of the certification and report required by subclauses (C) and (D) of subsection (a)(2), a decision is made to convert to performance by civilian employees, the Secretary of Defense shall notify Congress of such decision.

PART D—MILITARY TRAINING

SEC. 431. AUTHORIZATION OF TRAINING STUDENT LOADS

(a) IN GENERAL.—For fiscal year 1987, the components of the Armed Forces are authorized average military training student loads as follows:

(1) The Army, 76,758.
(2) The Navy, 72,483.
(3) The Marine Corps, 19,433.
(4) The Air Force, 43,911.
(5) The Army National Guard of the United States, 18,262.
(6) The Army Reserve, 15,858.
(7) The Naval Reserve, 3,493.
(8) The Marine Corps Reserve, 3,944.
(9) The Air National Guard of the United States, 3,566.
(10) The Air Force Reserve, 2,127.

(b) ADJUSTMENT AND APPORTIONMENT.—The average military student loads for the Army, the Navy, the Marine Corps, and the Air Force and the reserve components authorized in subsection (a) for fiscal year 1987 shall be adjusted consistent with the personnel strengths authorized in parts A and B. Such adjustment shall be apportioned among the Army, the Navy, the Marine Corps, and the Air Force and the reserve components in such manner as the Secretary of Defense shall prescribe.

PART E—MANPOWER ANALYSES

SEC. 441. MANPOWER REPORTS ON MAJOR DEFENSE ACQUISITION PROGRAMS

(a) IN GENERAL.—Section 139c of title 10, United States Code, is amended—

(1) by striking out subsection (a) and inserting in lieu thereof the following:

"(a) The Secretary of Defense may not approve the full-scale engineering development or the production and deployment of a major defense acquisition program unless—

"(1) an independent estimate of the cost of the program first has been submitted to (and considered by) the Secretary of Defense; and

"(2) the Secretary of Defense has submitted to the Committees on Armed Services of the Senate and the House of Representatives at least 90 days in advance of such approval a manpower estimate of the program.";

(2) by adding at the end of subsection (b) the following new paragraph:

"(4) 'Manpower estimate' means, with respect to a major defense acquisition program, an estimate of—

"(A) the total number of personnel, including military, civilian, or contractor personnel, expressed both in total personnel and man-years, that will be required to operate, maintain, and support such program upon full operational deployment and to train personnel to operate, maintain, and support such program upon full operational deployment;

"(B) the increases in military and civilian end strengths that will be required for full operational deployment of such program above the end strengths authorized in the fiscal year in which such an estimate is submitted and the fiscal year or years in which such increases will be required; and

"(C) the manner in which such a program would be operationally deployed if no increases in military and civilian end strengths were authorized above the strengths authorized for the fiscal year in which such estimate is submitted."; and

(3) by striking out the section heading and inserting in lieu thereof the following:

"§ 139c. Major defense acquisition programs: independent cost estimates; operational manpower requirements".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 4 is amended by striking out the item relating to section 139c and inserting in lieu thereof the following:

"139c. Major defense acquisition programs: independent cost estimates; operational manpower requirements.".

(c) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect 30 days after the date of the enactment of this Act and shall apply to approvals of full-scale engineering development and approvals of production and deployment of major defense acquisition programs made on or after that date.

TITLE V—MILITARY PERSONNEL POLICY

SEC. 501. ASSIGNMENT OF PERSONNEL OUTSIDE THE UNITED STATES

The text of section 671 of title 10, United States Code, is amended to read as follows:

"A member of the armed forces may not be assigned to active duty on land outside the United States and its territories and possessions until the member has completed the basic training requirements of the armed force of which he is a member. In time of war or a national emergency declared by the Congress or the President, the period of required basic training may not be less than 12 weeks or the equivalent thereof.".

SEC. 502. TREATMENT OF EXCESS LEAVE UPON RE-ENLISTMENT

(a) AUTHORITY TO CARRY OVER EXCESS LEAVE.—Section 701 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(h) A member who has taken leave in excess of that authorized by this section and who is being discharged or released from active duty for the purpose of accepting an appointment or a warrant in an armed force, or of entering into an enlistment or an extension of an enlistment in an armed force, may elect to have excess leave of up to 30 days or the maximum number of days of leave that could be earned in the new term of service, whichever is less, carried over to that new term of service to count against leave that will accrue on the new term of service. A member shall be required, at the time of his discharge or release from active duty, to pay for excess leave not carried over under this subsection.".

(b) AUTHORIZATION FOR PAY AND ALLOWANCES FOR CARRIED OVER EXCESS LEAVE.—Section 502(b) of title 37, United States Code, is amended by inserting "and section 701(h) of title 10" after "subsection (a) of this section".

SEC. 503. EXTENSION OF AUTHORITY FOR THE TEMPORARY PROMOTION OF CERTAIN NAVY LIEUTENANTS

Section 5721(f) of title 10, United States Code, is amended by striking out "Septem-

ber 30, 1986" and inserting in lieu thereof "September 30, 1988".

SEC. 504. CORRECTION OF TECHNICAL ERROR RELATING TO AUTHORITY TO RETAIN UP TO 10 ARMY RESERVE BRIGADIER GENERALS IN AN ACTIVE STATUS UNTIL AGE 60

(a) IN GENERAL.—Subsections (c) and (d) of section 3851 of title 10, United States Code, are amended to read as follows:

"(c) Notwithstanding subsections (a) and (b), the Secretary of the Army may authorize the retention in an active status until age 60 of an officer in the reserve grade of brigadier general who would otherwise be removed from an active status under this section, except that not more than 10 officers may be retained under this subsection at any time.

"(d) Notwithstanding subsections (a) and (b), the Secretary of the Army may authorize the retention in an active status until age 60 of an officer who would otherwise be removed from an active status under this section who—

"(1) is an officer of the Army National Guard of the United States assigned to a headquarters or headquarters detachment of a State or territory, the Commonwealth of Puerto Rico, the Canal Zone, or the District of Columbia; or

"(2) is employed—

"(A) as a technician under section 709 of title 32 in a position for which membership in the National Guard is required as a condition of employment; or

"(B) as a technician of the Army Reserve in a position for which membership in the Army Reserve is required as a condition of employment.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect as of November 8, 1985, and shall apply as if such amendment had been enacted on such date in place of the amendments enacted by section 522(a)(2) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 631).

SEC. 505. INCREASED PRESIDENTIAL AUTHORITY TO AUGMENT ACTIVE FORCES WITH THE SELECTED RESERVE

Section 673b of title 10, United States Code, is amended—

(1) by striking out "100,000" in subsection (c) and inserting in lieu thereof "250,000"; and

(2) by adding at the end the following new subsection:

"(i) In any case in which one or more units of the Selected Reserve, or members of the Selected Reserve not assigned to a unit organized to serve as a unit, have been ordered to active duty under this section and the President determines that such action is necessary in the interests of national security, he may extend the 90-day period prescribed by subsection (a). The President shall immediately notify Congress in any case in which he exercises his authority under this subsection and shall include in the notification a statement of reasons for the extension. Nothing in this subsection shall be construed as amending or limiting the authority of Congress to terminate the service of units or members ordered to active duty under this section pursuant to the provisions of subsection (g).".

SEC. 506. ACTIVE DUTY STATUS OF RESERVE COMPONENT MEMBERS IN A CAPTIVE STATUS

(a) IN GENERAL.—Chapter 39 of title 10, United States Code, is amended—

(1) by adding after section 672 the following new section:

"§ 672a. Reserve components: members in a captive status

"(a) Under uniform regulations prescribed by the Secretary of Defense, a member of a reserve component may, without his consent, be ordered to active duty if it is determined, pursuant to such regulations, that the member is in a captive status. A member ordered to active duty under this section may not be retained on active duty, without his consent, for more than 30 days after his captive status is terminated.

"(b) For purposes of this section, the term 'captive status' means the status of a person who is in a missing status as defined in section 551(2) of title 37 which occurred as the result of hostile action and is related to the member's military status."; and

(2) by inserting in the table of sections at the beginning of such chapter the following new item immediately below the item relating to section 672:

"672a. Reserve components: members in a captive status.".

(b) EXCLUSION FROM END STRENGTHS.—Section 138(c)(1)(B) of such title, as amended by section 413(2)(B) of this Act, is further amended by adding at the end the following new clause:

"(viii) Members of reserve components ordered to active duty under section 672a of this title.".

(c) EXCLUSION FROM OFFICER STRENGTHS.—Chapter 32 of title 10, United States Code, is amended—

(1) by adding at the end the following new section:

"§ 527. Authorized strengths: exclusion of certain reserve officers

"Members ordered to active duty under section 672a of this title shall be excluded in computing and determining authorized strengths under this chapter.";

(2) by adding at the end of the table of sections at the beginning of such chapter the following new item:

"527. Authorized strengths: exclusion of certain reserve officers."; and

(3) in section 523(b)(1)(B), by inserting "672a," after "265,".

(d) EXCLUSION FROM APPLICABILITY OF CERTAIN LAWS.—Section 641(1)(B) of title 10, United States Code, is amended by inserting "672a," after "265,".

(e) EFFECT OF ACTIVE DUTY UPON PROMOTION.—(1) Section 3388 of title 10, United States Code, is amended by inserting "or under section 672a of this title" after "training".

(2) Section 8372(e) of such title is amended by inserting "(other than pursuant to section 672a of this title)" after "active duty".

SEC. 507. TECHNICAL CORRECTION RELATING TO PERSONNEL ADMINISTRATION AT AIR FORCE INSTITUTE OF TECHNOLOGY

Section 9314(b)(2)(B) of title 10, United States Code, is amended by striking out "rates of basic".

SEC. 508. TERMINATION OF GENDER-BASED DISTINCTIONS IN PROMOTIONS OF OFFICERS OF THE NAVAL RESERVE AND MARINE CORPS RESERVE

(a) IN GENERAL.—Chapter 549 of title 10, United States Code, is amended by striking out sections 5896 through 5899 and inserting in lieu thereof the following:

"§ 5896. Recommendations for promotion by selection boards

"(a) A selection board convened under section 5893 of this title shall recommend for promotion to the next higher grade those officers considered by the board whom the board, giving due consideration to the needs of the Navy or Marine Corps for officers with particular skills, considers best qualified for promotion within each competitive category considered by the board.

"(b) A selection board convened under section 5893 of this title may not recommend an officer for promotion unless—

"(1) the officer receives the recommendation of a majority of the members of the board; and

"(2) a majority of the members of the board finds that the officer is fully qualified for promotion.

"(c) Except as otherwise provided by law, an officer of the Naval Reserve or the Marine Corps Reserve may not be promoted to a higher grade under this chapter unless the officer is considered and recommended for promotion to that grade by a selection board convened under this chapter.

"§ 5897. Reports of selection boards

"Each selection board convened under section 5893 of this title shall submit to the Secretary of the Navy a written report, signed by each member of the board, containing a list of the names of the officers recommended for promotion and certifying (1) that the board has carefully considered the record of each officer whose name was furnished to the board under section 5895 of this title, and (2) that, in the opinion of a majority of the members of the board, the officers recommended for promotion by the board are best qualified for promotion to meet the needs of the Navy or the Marine Corps from among those officers whose names were furnished to the selection board.

"§ 5898. Action on reports of selection boards

"(a) If, after reviewing the report of a selection board submitted under section 5897 of this title, the Secretary of the Navy determines that the board has acted contrary to law or regulation, the Secretary shall return the report to the board for further proceedings. Upon receipt of a report returned by the Secretary under this subsection, the selection board (or a subsequent selection board convened under section 5893 of this title for the same grade and competitive category) shall conduct such proceedings as may be necessary in order to revise the report and shall resubmit the report, as revised, to the Secretary in accordance with section 5897 of this title.

"(b) The Secretary of the Navy shall, after final review of the report, submit it, together with the Secretary's recommendations, to the Secretary of Defense for transmittal to the President for approval, modification, or disapproval.

"(c) The name of an officer recommended for promotion by a selection board may be removed from the report of the selection board only by the President. Such action may be taken at any time before the promotion of the officer.

"(d) Upon approval by the President of the report of a selection board, the names of the officers recommended for promotion by the selection board (other than any name removed by the President) may be disseminated to the armed force concerned. If those names have not been sooner disseminated, those names (other than the name of any officer whose promotion the Senate failed to confirm) shall be promptly disseminated to the armed force concerned upon confirmation by the Senate.

"(e) Except as authorized or required by this section, proceedings of a selection board

convened under section 5893 of this title may not be disclosed to any person not a member of the board.

"§ 5899. Eligibility for consideration for promotion: running mates

"An officer is in the promotion zone and is eligible for consideration for promotion to the next higher grade by a selection board convened under section 5893 of this title when that officer's running mate is in or above the promotion zone established for that officer's present grade under chapter 36 of this title.".

(b) CONFORMING AMENDMENTS.—(1) The table of sections of chapter 549 of title 10, United States Code, is amended by striking out the items relating to sections 5896 through 5899 and inserting in lieu thereof the following:

"5896. Recommendations for promotion by selection boards.
"5897. Reports of selection boards.
"5898. Actions on reports of selection boards.
"5899. Eligibility for consideration for promotion: running mates.".

(2) Section 5903 of such title is amended—

(A) by striking out "(a)" at the beginning of such section; and

(B) by striking out subsection (b).

(3) Subsection (a) of section 5905 of such title is amended to read as follows:

"(a) The name of an officer recommended for promotion by a selection board may be removed from the report of the selection board only by the President. Such action may be taken at any time before the promotion of the officer.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or on the date of the enactment of this Act, whichever is later, and shall apply to selection boards convened on or after the effective date.

SEC. 509. SENATE CONFIRMATION OF CERTAIN GENERAL AND FLAG OFFICER POSITIONS

(a) DEAN OF ACADEMIC BOARD OF UNITED STATES MILITARY ACADEMY.—Section 4335 of title 10, United States Code, is amended—

(1) by striking out the last sentence of subsection (b); and

(2) by adding at the end the following new subsection:

"(c) The Dean of the Academic Board has the grade of brigadier general while serving in such position, with the benefits authorized for regular brigadier generals of the Army, if appointed to that grade by the President, by and with the advice and consent of the Senate. However, the retirement age of an officer so appointed is that of a permanent professor of the Academy.".

(b) DEPUTY JUDGE ADVOCATE GENERAL AND ASSISTANT JUDGE ADVOCATES GENERAL OF THE NAVY.—Section 5149 of such title is amended—

(1) in subsection (a), by striking out the second sentence and inserting in lieu thereof the following: "While so serving, a judge advocate who holds a grade lower than rear admiral or major general shall hold the grade of rear admiral or major general, as appropriate, if he is appointed to that grade by the President, by and with the advice and consent of the Senate.";

(2) in subsection (b), by striking out the second sentence and inserting in lieu thereof the following: "While so serving, a judge advocate who holds a grade lower than rear admiral (lower half) shall hold the grade of rear admiral (lower half), if he is appointed to that grade by the President, by and with the advice and consent of the Senate."; and

(3) in subsection (c), by striking out the second sentence and inserting in lieu thereof the following: "While so serving, a judge advocate who holds a grade lower than brigadier general shall hold the grade of brigadier general, if he is appointed to that grade by the President, by and with the advice and consent of the Senate.".

(c) DEAN OF THE FACULTY OF THE UNITED STATES AIR FORCE ACADEMY.—Section 9335(b) of such title is amended to read as follows:

"(b) The Dean has the grade of brigadier general while serving in such position, with the benefits authorized for regular brigadier generals of the Air Force, if appointed to that grade by the President, by and with the advice and consent of the Senate. However, the retirement age of an officer so appointed is that of a permanent professor of the Academy.".

(d) ATTENDING PHYSICIAN TO THE UNITED STATES CONGRESS.—(1) Chapter 34 of such title is amended—

(A) by adding at the end the following new section:

"§ 600a. Attending Physician to the United States Congress

"While serving as Attending Physician to the United States Congress, a Reserve Officer who holds a reserve grade lower than major general or rear admiral shall hold the reserve grade of major general or rear admiral, as appropriate, if he is appointed to that grade by the President, by and with the advice and consent of the Senate."; and

(B) by adding at the end of the table of sections at the beginning of such chapter the following new item:

"600a. Attending Physician to the United States Congress.".

(2) Section 1374 of such title is amended—

(A) by redesignating subsection (e) as subsection (f); and

(B) by inserting after subsection (d) the following new subsection:

"(e) Unless entitled to a higher grade under another provision of law, a reserve commissioned officer who is transferred to the Retired Reserve after having served in the position of Attending Physician to the United States Congress is entitled to be placed on the retired list established by section 1376(a) of this title in the grade held by such officer while serving in such position.".

(e) CONFORMING AMENDMENT.—The second undesignated paragraph relating to the Office of the Attending Physician under the heading "JOINT ITEMS" in chapter V of the Supplemental Appropriations Act, 1973 (Public Law 92-607; 86 Stat. 1509) is repealed.

(f) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act but shall apply only with respect to appointments or details made on or after that date.

SEC. 510. POSITION OF STAFF JUDGE ADVOCATE TO THE COMMANDANT OF THE MARINE CORPS

(a) IN GENERAL.—Chapter 515 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 5205. Staff Judge Advocate to the Commandant of the Marine Corps: qualifications; appointment; retirement

"(a) An officer of the Marine Corps who is a judge advocate and a member of the bar of a Federal court or the highest court of a State or territory and who has had at least eight years of experience in legal duties as a commissioned officer may be detailed as Staff Judge Advocate to the Commandant of the Marine Corps. While so serving, a judge advocate who holds a grade lower than brigadier general shall hold the grade of brigadier general if appointed to that grade by the President, by and with the advice and consent of the Senate.

"(b) An officer retiring from the position of Staff Judge Advocate to the Commandant of the Marine Corps, after serving at least three years in such position, shall be retired in the highest grade in which that officer served on active duty satisfactorily, as determined by the Secretary of the Navy.

"(c) If an officer is retired in the grade of brigadier general pursuant to subsection (b), the officer is entitled to the retired pay of that grade, unless entitled to higher pay under another provision of law.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"5205. Staff Judge Advocate to the Commandant of the Marine Corps: qualifications; appointment; retirement.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act, but shall apply only with respect to appointments as Staff Judge Advocate to the Commandant of the Marine Corps made on or after that date.

(d) TRANSITION PROVISION.—Notwithstanding section 1370(a)(2) of title 10, United States Code, an officer serving in the position of Staff Judge Advocate to the Commandant of the Marine Corps, or an equivalent position, on the day before the effective date of this section, if retired after having served in such position (or equivalent position) at least three years, including any service in such position (or its equivalent) before the effective date of this section, shall be retired in the highest grade in which the officer served on active duty satisfactorily, as determined by the Secretary of the Navy.

SEC. 511. TEMPORARY INCREASE IN THE NUMBER OF GENERAL AND FLAG OFFICERS AUTHORIZED TO BE ON ACTIVE DUTY IN THREE- AND FOUR-STAR GRADES

During fiscal year 1987, the numbers of officers authorized under section 525(b) of title 10, United States Code, to be on active duty in grades above major general and rear admiral are increased as follows:

(1) ARMY LIEUTENANT GENERALS.—The number of officers of the Army authorized to be serving on active duty in grades above major general is increased by one during any period of that fiscal year that an officer of the Army is serving as the Director of the Department of Defense Task Force on Drug Enforcement. An additional officer in a grade above major general by reason of this paragraph may not be in the grade of general.

(2) AIR FORCE GENERALS.—The number of officers of the Air Force authorized to be serving on active duty in the grade of general is increased by one during any period of that fiscal year that a general of the Air Force is serving as Director of the Strategic Defense Initiative Organization.

(3) NAVY VICE ADMIRALS.—The number of officers of the Navy authorized to be serving on active duty in a grade above rear admiral is increased by three. None of the additional officers in grades above rear admiral by reason of this paragraph may be in the grade of admiral.

(4) MARINE CORPS GENERAL OFFICERS.—The number of officers of the Marine Corps authorized to be serving on active duty in grades above major general is increased by one, plus an additional one during any period of that fiscal year that an officer of the Marine Corps is serving as the Commander-in-Chief of the United States Central Command. An additional officer in a grade above major general by reason of this paragraph may not be in the grade of general, unless a Marine Corps officer is serving as the Commander-in-Chief of the United States Central Command, in which case one of the additional officers authorized by this paragraph may serve in the grade of general.

## TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

### PART A—BASIC PAY AND ALLOWANCES

#### SEC. 601. MILITARY PAY RAISE FOR FISCAL YEAR 1987

(a) WAIVER OF SECTION 1009 ADJUSTMENT.—Any adjustment required by section 1009 of title 37, United States Code, in elements of compensation of members of the uniformed services to become effective during fiscal year 1987 shall not be made.

(b) FOUR PERCENT INCREASE IN BASIC PAY AND BASIC ALLOWANCE FOR SUBSISTENCE.—The rates of basic pay and basic allowance for subsistence of members of the uniformed services are increased by 4 percent effective on October 1, 1986.

(c) AVERAGE FOUR PERCENT INCREASE IN BASIC ALLOWANCE FOR QUARTERS.—Effective October 1, 1986, the rates of basic allowance for quarters authorized by section 403(a) of title 37, United States Code, are as follows:

| Pay Grade | Without Dependents | | With Dependents |
|---|---|---|---|
| | Full rate | Partial rate[1] | |
| Commissioned officers: | | | |
| O-10 | $575.70 | $50.70 | $708.00 |
| O-9 | 575.70 | 50.70 | 708.00 |
| O-8 | 575.70 | 50.70 | 708.00 |
| O-7 | 575.70 | 50.70 | 708.00 |
| O-6 | 528.30 | 39.60 | 642.00 |
| O-5 | 498.60 | 33.00 | 591.60 |
| O-4 | 457.20 | 26.70 | 540.60 |
| O-3 | 368.40 | 22.20 | 445.20 |
| O-2 | 297.90 | 17.70 | 377.70 |
| O-1 | 253.20 | 13.20 | 333.30 |
| O-3[2] | 402.30 | 22.20 | 476.40 |
| O-2[2] | 344.40 | 17.70 | 434.70 |
| O-1[2] | 301.50 | 13.20 | 391.20 |
| Warrant officers: | | | |
| W-4 | 419.10 | 25.20 | 486.00 |
| W-3 | 353.70 | 20.70 | 435.00 |
| W-2 | 318.30 | 15.90 | 406.50 |
| W-1 | 269.40 | 13.80 | 354.30 |
| Enlisted members: | | | |
| E-9 | 337.80 | 18.60 | 460.50 |
| E-8 | 312.90 | 15.30 | 429.00 |
| E-7 | 267.00 | 12.00 | 399.00 |
| E-6 | 237.00 | 9.90 | 361.80 |
| E-5 | 219.30 | 8.70 | 321.60 |
| E-4 | 190.20 | 8.10 | 278.10 |
| E-3 | 184.80 | 7.80 | 259.80 |

[1]Payable to a member without dependents who under section 403 (b) or (c) of title 37, United States Code, is not entitled to receive a basic allowance for quarters.

[2]Applies to commissioned officers with over 4 years' active duty as an enlisted member, warrant officer, or both.

(d) FOUR PERCENT INCREASE IN CADET AND MIDSHIPMAN PAY.—Effective October 1, 1986, section 203(c)(1) of title 37, United States Code, is amended by striking out "$461.40" and inserting in lieu thereof "$499.20".

#### SEC. 602. REIMBURSEMENT FOR ACCOMMODATIONS IN PLACE OF QUARTERS

(a) LIMITATION ON AMOUNT AVAILABLE FOR REIMBURSEMENTS DURING FISCAL YEARS 1987 THROUGH 1991.—Section 7572(b)(3) of title 10, United States Code, is amended to read as follows:

"(3) The total amount of reimbursement under this subsection may not exceed $1,421,000 for fiscal year 1986 and $1,657,000 for each of the fiscal years 1987 through 1991.".

(b) EXTENSION OF AUTHORITY.—Section 3 of Public Law 96-357 (10 U.S.C. 7572 note) is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1991".

#### SEC. 603. ADVANCE PAY FOR SENIOR ROTC MEMBERS IN CERTAIN CIRCUMSTANCES

Section 1006 of title 37, United States Code, is amended by adding at the end the following new subsection:

"(j) Under regulations prescribed by the Secretary concerned, not more than one month's pay may be paid in advance to a member enrolled in a program established under chapter 103 of title 10, who is ordered to participate in field training or a practice cruise authorized by section 2109 of title 10.".

#### SEC. 604. TERMINATION OF PAY INEQUITY BETWEEN OFFICERS AND ENLISTED PERSONNEL IN CERTAIN HEALTH PROFESSIONS TRAINING

(a) STUDENTS AT UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES.—Section 2114(b) of title 10, United States Code, is amended by inserting "(but not in pay grade O-1E)" after "pay grade O-1" in the second sentence.

(b) STUDENTS IN HEALTH PROFESSIONS SCHOLARSHIP PROGRAM.—Section 2121(c) of title 10, United States Code, is amended by inserting "(but not in pay grade O-1E)" after "pay grade O-1" in the second sentence.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1987, but shall not apply to any person who on or before that date was attending, or had been selected to attend, the Uniformed Services University of the Health Sciences or who had signed an agreement pursuant to section 2122(2) of title 10, United States Code.

### PART B—TRAVEL AND TRANSPORTATION

#### SEC. 611. IMPROVED DISLOCATION ALLOWANCE

(a) IN GENERAL.—Section 407 of title 37, United States Code, is amended to read as follows:

**"§ 407. Travel and transportation allowances: dislocation allowance**

"(a) Except as provided in subsections (b), (c), and (d) of this section and under regulations prescribed by the Secretary concerned, a member of a uniformed service is entitled to a dislocation allowance equal to the basic allowance for quarters for two months as provided for the member's pay grade and dependency status in section 403 of this title if—

"(1) the member's dependents actually make an authorized move in connection with the member's change of permanent station, including—

"(A) a move to join the member at the member's duty station after an unaccompanied tour of duty when the member's next tour of duty is an accompanied tour at the same station; and

"(B) a move to a location designated by the member after an accompanied tour of duty when the member's next tour of duty is an unaccompanied tour at the same duty station;

"(2) the member's dependents actually move pursuant to section 405a(a), 406(e), 406(h), or 554 of this title;

"(3) the member's dependents actually move from their place of residence under circumstances described in section 406a of this title; or

"(4) the member is without dependents and—

"(A) actually moves to a new permanent station where not assigned to quarters of the United States; or

"(B) actually moves from a place of residence under circumstances described in section 406a of this title.

If a dislocation allowance is paid under clause (3) or (4)(B), the member is not entitled to a dislocation allowance under clause (1).

"(b) Under regulations prescribed by the Secretary concerned, whenever a member is entitled to a dislocation allowance under subsection (a)(3) or (a)(4)(B) of this section, the member is also entitled to a second dislocation allowance equal to the basic allowance for quarters for two months as provided for a member's pay grade and dependency status in section 403 of this title if, subsequent to the member or member's dependents actually moving from their place of residence under circumstances described in section 406a of this title, the member or member's dependents complete that move to a new location and then actually move from that new location to another location also under circumstances described in section 406a of this title. If a second dislocation allowance is paid under this subsection, the member is not entitled to a dislocation allowance under subsection (a)(1) of this section in connection with those moves.

"(c) A member is not entitled to more than one dislocation allowance during a fiscal year unless—

"(1) the Secretary concerned finds that the exigencies of the service require the member to make more than one change of permanent station during the fiscal year;

"(2) the member is ordered to a service school as a change of permanent station;

"(3) the member's dependents are covered by section 405a(a), 406(e), 406(h), or 554 of this title; or

"(4) the member or the member's dependents are covered by subsection (a)(3), (a)(4)(B), or (b) of this section.

This subsection does not apply in time of national emergency declared after April 1, 1975, or in time of war.

"(d) A member is not entitled to payment of a dislocation allowance when ordered from his home to the first duty station or from the last duty station to his home.

"(e) For purposes of this section, a member whose dependents may not make an authorized move in connection with a change of permanent station is considered a member without dependents.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only to moves which commence on or after that effective date.

SEC. 612. OVERSEAS TRANSPORTATION OF PRIVATELY OWNED MOTOR VEHICLES

(a) IN GENERAL.—Section 2634 of title 10, United States Code, is amended—

(1) in subsection (a)—

(A) by striking out "or" at the end of clause (3);

(B) by striking out the period at the end of clause (4) and inserting in lieu thereof "; or"; and

(C) by adding after clause (4) the following new clause:

"(5) in the case of movement to or from Europe by shipping services described in clause (1), (2), or (3), transportation between the ocean port and one or more inland points in Germany, designated by the Secretary concerned, by inland waterway or overland, whichever is most cost effective for the Government considering all operational, travel, and transportation requirements."; and

(2) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively, and inserting after subsection (a) the following new subsection:

"(b) When a member, assigned to a military unit, is ordered to make a change of permanent station incident to the overseas movement of that unit, one motor vehicle, as described in subsection (a), may be transported between the member's permanent stations at the expense of the United States.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only with respect to the transportation of motor vehicles commencing on or after that effective date.

SEC. 613. GOVERNMENT TRANSPORTATION OF PRIVATELY OWNED MOTOR VEHICLES IN UNSAFE CONDITIONS

(a) IN GENERAL.—Section 2634 of title 10, United States Code, as amended by section 612 of this Act, is further amended by adding at the end the following new subsection:

"(e) If the Secretary concerned determines that transportation of a member's motor vehicle between such member's last duty station and the customary ports of embarkation or debarkation is—

"(1) a threat to security or the member's personal safety; or

"(2) dangerous because of hazardous road, terrain, weather, or similar adverse conditions,

such transportation may be provided at the expense of the United States.".

(b) PROHIBITION ON PAYMENT OF MONETARY ALLOWANCE WHEN GOVERNMENT TRANSPORTATION FURNISHED.—Section 406(b)(1)(B) of title 37, United States Code, is amended by adding at the end the following new sentence: "Such monetary allowance may not be paid when the motor vehicle is transported at the expense of the Government under subsection (b) or (e) of section 2634 of title 10.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only with respect to the transportation of motor vehicles commencing on or after that effective date.

SEC. 614. TRANSPORTATION AND STORAGE OF HOUSEHOLD GOODS

(a) ADMINISTRATION OF STORAGE OF EXCESS HOUSEHOLD GOODS.—Section 406(d) of title 37, United States Code, is amended by inserting after the second sentence the following new sentence: "In the event a member's baggage and household effects exceed such maximum weight limitation, the Secretary concerned may pay the costs for the nontemporary storage of that excess weight and collect the amount paid from the member's pay and allowances, or collect the amount in such other manner as the Secretary concerned determines appropriate.".

(b) EARLY RETURN SHIPMENT OF HOUSEHOLD GOODS AND PRIVATELY OWNED MOTOR VEHICLES FROM OVERSEAS.—(1) Section 406 of such title is amended—

(1) by redesignating subsection (l) as subsection (m); and

(2) by inserting after subsection (k) the following new subsection (l):

"(l) Under uniform regulations prescribed by the Secretaries concerned, a member with dependents who is ordered to make an overseas permanent change of station and who, in anticipation of his dependents accompanying him overseas, ships baggage and household effects to that overseas station, may be authorized a return shipment of the baggage and household effects if, subsequent to the shipment, the member's dependents are unable to accompany him overseas and the Secretary concerned determines that such inability was unexpected and uncontrollable.".

(2) Section 2634 of title 10, United States Code, as amended by sections 612 and 613 of this Act, is further amended by adding at the end the following new subsection:

"(f) When the Secretary concerned makes a determination under section 406(l) of title 37 that the dependents of a member on a permanent change of station are unable to accompany the member to an overseas duty station because of unexpected and uncontrollable circumstances, and the member shipped a motor vehicle pursuant to this section in anticipation of a dependent accompanying the member to the new duty station, the member may reship or transship such motor vehicle in accordance with this section.".

(c) EFFECTIVE DATES.—(1) The amendment made by subsection (a) shall apply to members whose baggage and household goods enter nontemporary storage on or after such date.

(2) The amendments made by subsection (b) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply with respect to members whose dependents are unable to accompany them to an overseas permanent duty station because of circumstances arising on or after that effective date.

SEC. 615. CONTINGENT AUTHORIZATION FOR FLAT-RATE PER DIEM SYSTEM

(a) IN GENERAL.—Subsection (d) of section 404 of title 37, United States Code, is amended—

(1) in paragraph (1)(B) by striking out "Transportation" and inserting in lieu thereof "Subject to paragraph (2), transportation";

(2) in paragraph (1)(C), by striking out "clause (1) of this subsection" and inserting in lieu thereof "subparagraph (A) of this paragraph";

(3) by redesignating paragraph (2) as paragraph (3);

(4) by inserting after paragraph (1) the following new paragraph (2):

"(2)(A) With respect to any fiscal year for which a certification has been made by the Secretary of Defense under paragraph (5) of this subsection, the travel and transportation allowance in subparagraph (B) of this paragraph is authorized in the place of the travel and transportation allowance authorized under paragraph (1)(B) of this subsection.

"(B) The travel and transportation allowance authorized under subparagraph (A) of this paragraph with respect to a fiscal year referred to in such subparagraph is transportation in kind, reimbursement therefor, or monetary allowance as provided in paragraph (1)(A) of this subsection, plus a payment in lieu of subsistence as provided in paragraph (4) of this subsection. Such payment shall be sufficient to meet normal and necessary expenses in the area to which travel is performed."; and

(5) in paragraph (3), as redesignated by clause (3)—

(A) by striking out "Under" and inserting in lieu thereof "Except as provided in paragraph (4) of this subsection and under"; and

(B) by adding at the end the following new paragraphs:

"(4)(A) With respect to any fiscal year for which a certification has been made under paragraph (5) of this subsection, the provisions of subparagraphs (B), (C), and (D) of this paragraph shall apply rather than paragraph (3) of this subsection.

"(B) Under regulations prescribed by the Secretary of Defense, a member of a uniformed service entitled to travel and transportation allowances under subsection (a) is entitled to any of the following:

"(i) A per diem allowance at a rate not to exceed that established by the Secretary of Defense.

"(ii) Reimbursement for the actual and necessary expenses of official travel not to exceed an amount established by the Secretary of Defense.

"(iii) A combination of payments described in clauses (i) and (ii) of this subparagraph.

"(C) Any per diem allowance or maximum amount of reimbursement shall be established, to the extent feasible, by locality.

"(D) For travel consuming less than a full day, the payment prescribed by regulations shall be allocated in such manner as the Secretary of Defense may prescribe.

"(5)(A) The travel and transportation allowances authorized by paragraphs (2) and (4) of this subsection shall apply to any fiscal year with respect to which the Secretary of Defense has certified that the overall cost to the United States of the payment of allowances under such paragraphs would not exceed the overall cost to the United States of the payment of allowances under paragraphs (1)(B) and (3) of this subsection.

"(B) A certification by the Secretary of Defense under subparagraph (A) of this paragraph shall—

"(i) include a comparison of the overall costs to the United States under the two methods referred to in such subparagraph of computing allowances; and

"(ii) be transmitted to the Committees on Armed Services of the Senate and the House of Representatives at least 60 days before the beginning of a fiscal year with respect to which a certification is made under such subparagraph.".

(b) APPLICATION TO FISCAL YEAR 1987.—(1) Notwithstanding paragraph (5)(B)(ii) of section 404(d) of title 37, United States Code, as added by subsection (a), a certification under paragraph (5)(A) of such section with respect to fiscal year 1987 may be transmitted to the committees named in such paragraph at any time during such fiscal year.

(2) If a certification is made under paragraph (5)(A) of section 404(d) of title 37,

United States Code, with respect to fiscal year 1987, the amendments made by subsection (a) of this section shall apply to travel and transportation of members of the uniformed services commencing more than 60 days after the date on which the certification is made.

SEC. 616. TRAVEL EXPENSES FOR OVERSEAS DEPENDENTS REQUIRING MEDICAL CARE IN CERTAIN CIRCUMSTANCES

(a) IN GENERAL.—Section 1040(a) of title 10, United States Code, is amended by striking out the comma after "attendants" and all that follows in the third sentence and inserting in lieu thereof a period and the following: "In addition to transportation of a dependent at the expense of the United States authorized under this subsection, reasonable travel expenses incurred in connection with the transportation of the dependent may be paid at the expense of the United States. Travel expenses authorized by this section may include reimbursement for necessary local travel in the vicinity of the medical facility involved. The transportation and travel expenses authorized by this section may be paid in advance.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only to travel performed on or after that effective date.

SEC. 617. AUTHORIZATION LIMIT ON FUNDS FOR PCS TRAVEL

There are authorized to be appropriated for fiscal year 1987 not more than $2,657,553,000 for permanent change of station travel for active duty military personnel.

PART C—BONUSES AND SPECIAL AND INCENTIVE PAYS

SEC. 621. ENHANCED AVIATION OFFICER CONTINUATION PAY

Section 301b(e) of title 37, United States Code, is amended—

(1) in paragraph (1), by inserting "executed before the date of the enactment of the Department of Defense Authorization Act, 1987," after "agreement"; and

(2) in the third sentence of paragraph (3), by striking out "less than seven years" and inserting in lieu thereof "less than eight years".

SEC. 622. INCLUSION OF AVIATION CADETS UNDER AVIATION CAREER INCENTIVE PAY

(a) IN GENERAL.—(1) Section 301a(a)(6) of title 37, United States Code, is amended—

(A) by striking out "and" at the end of clause (A);

(B) by striking out the period at the end of clause (B) and inserting in lieu thereof a semicolon and "and"; and

(C) by inserting after clause (B) the following new clause:

"(C) 'officer' includes an individual enlisted, and designated, as an aviation cadet under section 6911 of title 10.".

(2) Section 301a(b)(1) of such title is amended by striking out "an officer in pay grades O-1 through O-10" and inserting in lieu thereof "a member".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply only with respect to those members of the Armed Forces who are aviation cadets on or after the date of the enactment of this Act. Service as an aviation cadet before that date shall not be counted for any purpose under section 301a of title 37, United States Code.

SEC. 623. SPECIAL AUTHORITY RELATING TO THE PAYMENT OF SELECTED RESERVE ENLISTMENT BONUS

(a) IN GENERAL.—The Secretary concerned may pay an enlistment bonus under section 308c of title 37, United States Code, to any person who enlisted in the Selected Reserve of the Ready Reserve of an Armed Force during the period beginning on October 1, 1985, and ending on November 8, 1985, if such person—

(1) has not been paid an enlistment or reenlistment bonus under section 308c or 308b of title 37, United States Code, since that period; and

(2) enlisted in the good faith belief (as determined by the Secretary concerned) that he would be paid an enlistment bonus under section 308c of title 37, United States Code.

(b) DEFINITION.—As used in subsection (a), the term "Secretary concerned" has the meaning provided in section 101(5) of title 37, United States Code.

SEC. 624. SPECIAL PAY FOR MEMBERS PROFICIENT IN FOREIGN LANGUAGES

(a) AUTHORITY FOR SPECIAL PAY.—Chapter 5 of title 37, United States Code, is amended by adding at the end the following new section:

"§ 316. Special pay: foreign language proficiency pay

"(a) A member of the armed forces who—

"(1) is entitled to basic pay under section 204 of this title;

"(2) has been certified by the Secretary concerned within the past 12 months to be proficient in a foreign language identified by the Secretary of Defense as being a language in which it is necessary to have personnel proficient because of national defense considerations; and

"(3)(A) is qualified in a military specialty requiring such proficiency;

"(B) received training, under regulations prescribed by the Secretary concerned, designed to develop such proficiency;

"(C) is assigned to military duties requiring such a proficiency; or

"(D) is proficient in a foreign language for which the Secretary of Defense may have a critical need,

may be paid special pay under this section in addition to any other pay or allowance to which the member is entitled.

"(b) The monthly rate for special pay under subsection (a) of this section shall not exceed $100 as determined by the Secretary concerned.

"(c)(1) Under regulations prescribed by the Secretary concerned, and to the extent provided for in appropriation Acts, when a member of a reserve component of the armed forces who is entitled to compensation under section 206 of this title meets the requirements for special pay authorized in subsection (a), except the requirement prescribed in subsection (a)(1), the member may be paid an increase in compensation equal to 1/30th of the monthly special pay authorized under subsection (b) for a member who is entitled to basic pay under section 204 of this title.

"(2) A member eligible for increased compensation under paragraph (1) shall be paid such increase—

"(A) for each regular period of instruction, or period of appropriate duty, in which he is engaged for at least two hours, including instruction received or duty performed on a Sunday or holiday; and

"(B) for each period of performance of such other equivalent training, instruction, duty, or appropriate duties, as the Secretary concerned may prescribe.

"(3) This subsection does not apply to a member who is entitled to basic pay under section 204 of this title.

"(d) This section shall be administered under regulations prescribed by the Secretary of Defense for the armed forces under his jurisdiction and by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"316. Special pay: foreign language proficiency pay.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply with respect to pay periods beginning on or after that effective date.

(d) LIMITATIONS ON OBLIGATIONS.—Of the funds appropriated or otherwise made available for military personnel during fiscal year 1987, not more than $7,300,000 may be obligated or expended for the payment of the special pay authorized by section 316 of title 37, United States Code, as added by this section.

SEC. 625. SPECIAL PAY FOR BOARD CERTIFIED PSYCHOLOGISTS

(a) IN GENERAL.—Chapter 5 of title 37, United States Code, is amended by inserting after section 302b the following new section:

"§ 302c. Special pay: psychologists

"(a) A member who is—

"(1) an officer in a corps of the Army Medical Department, an officer in the Bureau of Medicine and Surgery of the Navy, or an officer of the Air Force designated as a psychologist; and

"(2) has been awarded a diploma as a Diplomate in Psychology by the American Board of Professional Psychology,

is entitled to special pay, as provided in subsection (b).

"(b) The rate of special pay to which an officer is entitled pursuant to subsection (a) shall be—

"(1) $2,000 per year, if the officer has less than 10 years of creditable service;

"(2) $2,500 per year, if the officer has at least 10 but less than 12 years of creditable service;

"(3) $3,000 per year, if the officer has at least 12 but less than 14 years of creditable service;

"(4) $4,000 per year, if the officer has at least 14 but less than 18 years of creditable service; or

"(5) $5,000 per year, if the officer has 18 or more years of creditable service.".

(b) CONFORMING AMENDMENTS.—(1) Section 303a of title 37, United States Code, is amended by inserting "302c," after "302b," each place it appears.

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 302b the following new item:

"302c. Special pay: psychologists.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or on the date of the enactment of this Act, whichever is later, and shall apply with respect to pay periods beginning on or after that effective date.

PART D—MISCELLANEOUS BENEFITS

SEC. 631. IMPROVED DEATH GRATUITY

(a) IN GENERAL.—The first sentence of section 1478 of title 10, United States Code, is amended to read as follows: "The death gratuity payable under sections 1475 through 1477 of this title shall be equal to the total of three months' basic pay, basic allowance for quarters, and basic allowance for subsistence at the rates to which the decedent was entitled on the date of death, except that the gratuity may not be less than $3,000 or more than $9,000.".

(b) REPEAL OF HOUSING OCCUPANCY BENEFIT.—Section 403(l) of title 37, United States Code, is repealed.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or on the date of the enactment of this Act, whichever is later, and shall apply with respect to deaths occurring on or after that effective date.

SEC. 632. AUTHORITY TO PAY BANK CHARGES IN THE EVENT OF GOVERNMENT ERROR IN MANDATORY DIRECT DEPOSIT OF MEMBERS' PAY

(a) IN GENERAL.—Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1051. Relief for expenses because of error in mandatory direct deposit of pay

"A member of an armed force who, pursuant to law or regulation, is required to participate in a program for the automatic deposit of pay to a financial institution, as provided by section 3332 of title 31, may be reimbursed, under regulations prescribed by the Secretary concerned, for overdraft charges levied by the financial institution when such charges result from an administrative or mechanical error on the part of the Government that causes such member's pay to be deposited late or in an incorrect amount or manner. Reimbursements made pursuant to this section shall be made from appropriations available for the pay and allowances of members of the armed force concerned.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1051. Relief for expenses because of error in mandatory direct deposit of pay.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only with respect to charges levied as a result of errors occurring on or after that effective date.

SEC. 633. TRANSPORTATION AND MEDICAL CARE FOR DEPENDENTS OF CERTAIN SENTENCED, DISCHARGED, OR DISMISSED MEMBERS

(a) TRAVEL AND TRANSPORTATION ALLOWANCES.—Section 406 of title 37, United States Code, is amended—

(1) in subsection (a), by striking out the text of paragraph (2)(A) and inserting in lieu thereof the following: "Except as provided in subparagraph (B) of this paragraph, a member who—

"(i) is separated from the service or released from active duty; and

"(ii) on the date of his separation from the service or release from active duty, has not served on active duty for a period of time equal to at least 90 percent of the period of time for which he initially enlisted or otherwise initially agreed to serve,

may be provided transportation under this subsection for his dependents only by transportation in kind by the least expensive mode of transportation available or by a monetary allowance that does not exceed the cost to the Government of such transportation in kind."; and

(2) in subsection (h)—

(A) by striking out the first sentence and inserting in lieu thereof the following:

"(1) If the Secretary concerned determines that it is in the best interests of a member described in paragraph (2) or his dependents and the United States, the Secretary may, when orders directing a change of permanent station for the member concerned have not been issued, or when they have been issued but cannot be used as authority for the transportation of the member's dependents, baggage, and household effects—

"(A) authorize the movement of the member's dependents, baggage, and household effects at the station to an appropriate location in the United States or its possessions or, in the event the dependents are foreign nationals, the country of the dependents' origin and prescribe transportation in kind, reimbursement therefor, or a monetary allowance in place thereof, as the case may be, as authorized under subsection (a) or (b) of this section; and

"(B) in the case of a member described in paragraph (2)(A), authorize the transportation of one motor vehicle that is owned by the member (or a dependent of the member) and is for his dependents' personal use to that location by means of transportation authorized under section 2634 of title 10."; and

(B) by adding at the end the following new paragraph:

"(2) A member referred to in paragraph (1) is a member who—

"(A) is serving at a station outside the United States or in Hawaii or Alaska;

"(B) receives an administrative discharge under other than honorable conditions; or

"(C) is sentenced by a court-martial to be confined for a period of more than 30 days, to receive a dishonorable or bad-conduct discharge, or to be dismissed from a uniformed service, if the sentence is approved under section 860(c)(2) of title 10.".

(b) MEDICAL CARE.—(1) Section 1076 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(e)(1) Subject to paragraph (3), if—

"(A) a member of a uniformed service receives a dishonorable or bad-conduct discharge or is dismissed from a uniformed service as a result of a court-martial conviction for an offense involving abuse of a dependent of the member, as determined in accordance with regulations prescribed by the administering Secretary for such uniformed service; and

"(B) the abused dependent needs medical or dental care for an injury or illness resulting from the abuse,

the administering Secretary may, upon request of the abused dependent, furnish medical or dental care to the dependent for the treatment of such injury or illness in facilities of the uniformed services.

"(2) Subject to paragraph (3), upon request of any dependent of a member of a uniformed service punished for an abuse described in paragraph (1)(A), the administering Secretary for such uniformed service may furnish medical care in facilities of the uniformed services to the dependent for the treatment of any adverse health condition resulting from such dependent's knowledge of (A) the abuse, or (B) any injury or illness suffered by the abused person as a result of such abuse.

"(3) Medical and dental care furnished to a dependent of a member of the uniformed services in facilities of the uniformed services under paragraph (1) or (2)—

"(A) shall be limited to the health care prescribed by section 1077 of this title;

"(B) shall be subject to the availability of space and facilities and the capabilities of the medical and dental staff; and

"(C) shall terminate 1 year after the date on which the member is discharged or dismissed from a uniformed service as described in paragraph (1)(A).".

(2) Section 1079 of such title is amended by adding at the end the following new subsection:

"(l)(1) Contracts entered into under subsection (a) shall also provide for medical care for dependents of former members of the uniformed services who are authorized to receive medical and dental care under section 1076(e) of this title in facilities of the uniformed services.

"(2) Except as provided in paragraph (3), medical care in the case of a dependent described in section 1076(e) shall be furnished under the same conditions and subject to the same limitations as medical care furnished under this section to spouses and children of members of the uniformed services described in the first sentence of subsection (a).

"(3) Medical care may be furnished to a dependent pursuant to paragraph (1) only for an injury, illness, or other condition described in section 1076(e) of this title.".

(c) EFFECTIVE DATE.—(1) The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later.

(2) The amendment made by subsection (a)(1) shall apply only with respect to members discharged or released from active duty on or after the effective date of this section.

(3) The amendments made by subsection (a)(2) shall apply with respect to dependents about whom a determination by the Secretary concerned is made on or after the effective date of this section.

(4) The amendment made by subsection (b)(1) shall apply only with respect to dependents who request medical or dental care on or after the effective date of this section.

(5) The amendment made by subsection (b)(2) shall apply only with respect to care furnished under section 1079 of title 10, United States Code, on or after the effective date of this section.

SEC. 634. IMPROVED EMPLOYMENT OPPORTUNITIES FOR MILITARY SPOUSES

(a) IN GENERAL.—Section 806(b)(2) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 680) is amended by striking out "GS-7" and inserting in lieu thereof "GS-4".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1986, or on the date of the enactment of this Act, whichever is later.

SEC. 635. RETIREMENT CREDIT FOR CERTAIN FORMER NATIONAL GUARD TECHNICIANS

(a) IN GENERAL.—(1) Section 8332(b) of title 5, United States Code, is amended by striking out the next to the last sentence.

(2) Section 3(c) of the National Guard Technicians Act of 1968 (32 U.S.C. 709 note) is amended by striking out the last sentence.

(b) APPLICATION OF SUBSECTION (a).—(1) Except as provided in paragraph (2), the

amendment made by subsection (a)(1) applies only with respect to individuals separated from Government employment on or after the date of the enactment of this Act.

(2)(A) In the case of any individual who—

(i) was employed under section 709 of title 32, United States Code, or under any prior corresponding provision of law, before January 1, 1969; and

(ii) was separated from Government employment on or after January 1, 1969, and before the date of the enactment of this Act,

any annuity under subchapter III of chapter 83 of title 5, United States Code, based on such individual's service (as defined in section 8331(12) of such title) shall be redetermined to take into account the amendment made by subsection (a), if application therefor is received by the Office of Personnel Management within one year after the date of the enactment of this Act.

(B) Any change in an annuity resulting from a redetermination under subparagraph (A) shall apply only with respect to monthly payments accruing after the date of the enactment of this Act.

(C) Any individual described in subparagraph (A) or any survivor of such an individual may make a deposit under section 8334(c) of title 5, United States Code, with respect to the service of such individual under section 709 of title 32, United States Code.

(3) Except as provided in paragraph (4), the amendment made by subsection (a)(2) applies only with respect to an individual performing service as an officer or employee of the Government on or after the date of the enactment of this Act and only for the purpose of determining—

(A) any annual leave accruing under section 6303 of title 5, United States Code, to the individual on or after such date; and

(B) the individual's length of service for the purposes of entitlement to Federal employee death and disability compensation, group life insurance and health benefits, severance pay, tenure, and status.

(4)(A) The amendment made by subsection (a)(2) of this section applies with respect to any individual who separated from Government employment after December 31, 1968, and before the date of the enactment of this Act, for the purpose of determining whether such individual satisfies the length of service requirement under section 8901(3)(A) of title 5, United States Code (relating to the definition of the term "annuitant"), for the purposes of chapter 89 of such title.

(B) Any individual who satisfies the length of service requirement referred to in subparagraph (A) as a result of the application of the amendment made by subsection (a)(2) shall be enrolled in a health benefits plan (described in section 8903 of such title) of such individual's choice, if—

(i) application for enrollment is received by the Office of Personnel Management within one year after the date of the enactment of this Act; and

(ii) such individual qualifies under section 8905(b)(1)(A) of such title (taking into account years of service considered pursuant to subparagraph (A)).

**SEC. 636. DEATH AND DISABILITY BENEFITS FOR RESERVE COMPONENT MEMBERS**

(a) MEDICAL AND DENTAL CARE FOR RESERVISTS.—(1) Section 1074a of title 10, United States Code, is amended to read as follows:

**"§ 1074a. Medical and dental care: members performing inactive duty training, active duty for 30 days or less, or other reserve training**

"(a) Under joint regulations prescribed by the Secretary of Defense, the Secretary of Transportation, and the Secretary of Health and Human Services, the following persons are entitled to the benefits described in subsection (b):

"(1) Each member of a uniformed service who incurs, contracts, or aggravates an injury, disease, or illness in line of duty while performing inactive duty training, active duty for a period of 30 days or less, or full-time National Guard duty for a period of 30 days or less.

"(2) Each member of a uniformed service who incurs, contracts, or aggravates an injury, disease, or illness during voluntary participation or other training activities sponsored by a uniform service, but not while on inactive duty training, active duty, or full-time National Guard duty.

"(3) Each member of a uniformed service who incurs, contracts, or aggravates an injury, disease, or illness while traveling directly to or from the place at which he is to perform, or has performed, inactive-duty training, active duty for a period of 30 days or less, or full-time National Guard duty for a period of 30 days or less.

"(b) A person described in subsection (a) is entitled to—

"(1) the medical and dental care appropriate for the treatment of his injury, disease, or illness until the resulting disability cannot be materially improved by further hospitalization or treatment; and

"(2) subsistence during hospitalization.

"(c)(1) For purposes of subsection (a)(2), periods of work or study in connection with a correspondence course of a uniformed service, or attendance in an inactive Reserve status at an educational institution under the sponsorship of a uniformed service, do not constitute training activities.

"(2) An injury, disease, or illness incurred, contracted, or aggravated as a result of the member's own gross negligence or misconduct while performing travel referred to in subsection (a)(3) is not covered under this section.".

(2) The table of sections at the beginning of chapter 55 of such title is amended by striking out the item relating to section 1074a and inserting in lieu thereof the following:

"1074a. Medical and dental care: members performing inactive duty training, active duty for 30 days or less, or other reserve training.".

(b) PAY FOR RESERVISTS WHILE DISABLED.—Section 204 of title 37, United States Code, is amended—

(1) by striking out subsections (g), (h), and (i) and inserting in lieu thereof the following:

"(g) A member of the National Guard or a reserve component of an armed force is entitled to the pay and allowances provided by law or regulation for a member of a regular component of an armed force of corresponding grade and length of service whenever he is called or ordered to active duty for a period of more than 30 days and is physically disabled in line of duty from injury or disease while so employed.

"(h)(1) A member of the National Guard or a reserve component who, while performing active duty under a call or order to active duty for a period of 30 days or less or who, while performing inactive duty training, incurs or aggravates an injury, disease, or illness in line of duty while so employed or while traveling directly to or from that training, is entitled to a portion of the regular compensation provided by law or regulation for a member of a regular component of corresponding grade and length of service for each month such member applies for and demonstrates a loss of earned income (other than pay and allowances under this title) as a consequence of the injury, disease, or illness or aggravation thereof. The portion of the regular compensation shall be an amount which offsets the loss of earned income, but shall not exceed the monthly regular compensation for such member (as described in the preceding sentence) and shall be paid for a period not to exceed 6 months.

"(2) The procedures for determining and paying compensation pursuant to paragraph (1) shall be prescribed by the Secretary of Defense for the armed forces under his jurisdiction and by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.

"(3) The Secretary concerned may continue the pay and allowances a member is receiving under this subsection beyond the 6-month delimiting period if he determines it to be in the interests of fairness and equity to do so."; and

(2) by redesignating subsection (j) as subsection (i).

(c) PAY FOR INACTIVE DUTY TRAINING WHILE DISABLED.—Section 206(a) of title 37, United States Code, is amended by striking out "grade entitled to basic pay," and all that follows through the period and inserting in lieu thereof the following: "grade entitled to basic pay—

"(1) for each regular period of instruction or period of appropriate duty, at which the member is engaged for at least two hours, including that performed on a Sunday or holiday;

"(2) for a regular period of instruction that the member is scheduled to perform but is unable to perform because of a disability resulting from an injury incurred or aggravated or a disease incurred or illness contracted or aggravated in line of duty during a call or order to active duty for a period of 30 days or less or during the performance of inactive duty training or while traveling to or from that training; or

"(3) for the performance of such other equivalent training, instruction, duty, or appropriate duties, as the Secretary concerned may prescribe.".

(d) MEDICAL AND DENTAL CARE FOR SURVIVORS OF CERTAIN RESERVISTS.—(1) Subsection (a) of section 1076 of title 10, United States Code, is amended to read as follows:

"(a) A dependent of a member of a uniformed service who is on active duty for a period of more than 30 days or a dependent who is a survivor of a member of a uniformed service who died—

"(1) while on active duty;

"(2) while performing inactive duty training; or

"(3) as a consequence of an injury, disease, or illness incurred, contracted, or aggravated while on active duty, while performing inactive duty training, or while traveling directly to or from such training,

is entitled, upon request, to the medical and dental care prescribed by section 1077 of this title in facilities of the uniformed services, subject to the availability of space and facilities and the capabilities of the medical and dental staff.".

(2) Paragraph (2) of section 1086(c) of such title is amended to read as follows:

"(2) A dependent (other than a dependent defined in section 1072(2)(E) of this title) who is a survivor of a member of a uniformed service who died—

"(A) while on active duty;

"(B) while performing inactive duty training; or

"(C) as a consequence of an injury incurred or aggravated or a disease or illness contracted or aggravated while on active duty, while performing inactive duty training, or while traveling directly to or from such training.".

(e) RETIREMENT OR SEPARATION OF RESERVISTS FOR DISABILITY.—(1)(A) Section 1204 of such title is amended by inserting "disease, or illness, or the aggravation thereof," after "injury,".

(B) The section heading of section 1204 of such title is amended to read as follows:

**"§ 1204. Members on active duty for 30 days or less; disability from injury, disease, or illness: retirement".**

(C) The table of sections at the beginning of chapter 61 of such title is amended by striking out the item relating to section 1204 and inserting in lieu thereof the following:

"1204. Members on active duty for 30 days or less; disability from injury, disease, or illness: retirement.".

(2)(A) Section 1206 of such title is amended by inserting "disease, or illness, or the aggravation thereof," after "injury,".

(B) The section heading of section 1206 of such title is amended to read as follows:

**"§ 1206. Members on active duty for 30 days or less: separation".**

(C) The table of sections at the beginning of chapter 61 of such title is amended by striking out the item relating to section 1206 and inserting in lieu thereof the following:

"1206. Members on active duty for 30 days or less: separation.".

(f) DEATH BENEFITS FOR RESERVISTS.—Chapter 71 of such title is amended—

(1) in section 1475(a)(3), by inserting "or aggravated or disease or illness contracted or aggravated" after "incurred";

(2) in section 1476, by striking out subsection (a) and inserting in lieu thereof the following:

"(a) Except as provided in section 1480 of this title, the Secretary concerned shall have a death gratuity paid to or for the appropriate survivor or survivors as designated in section 1477 of this title of each person who dies within 120 days after discharge or release from active duty or inactive duty training (other than work or study in connection with a correspondence course of an armed force or attendance, in an inactive status, at an educational institution under the sponsorship of an armed force or the Public Health Service) if the Administrator of Veterans' Affairs determines that the death resulted from an injury incurred or aggravated or a disease or illness contracted or aggravated by such duty or by an injury, disease, or illness incurred or aggravated during travel directly to or from such duty.";

(3) in section 1476, by striking out subsection (b) and redesignating subsections (c) and (d) as subsections (b) and (c), respectively; and

(4) in section 1481, by striking out clauses (2) and (3) of subsection (a) and inserting in lieu thereof the following:

"(2) any Reserve of an armed force under his jurisdiction who dies while (A) on active duty, (B) performing inactive duty training, (C) undergoing treatment or being hospitalized for an injury incurred or aggravated or a disease or illness contracted or aggravated while on active duty or performing inactive duty training, or (D) performing authorized travel directly to or from active duty or inactive duty training,

"(3) any member of the Army National Guard or Air National Guard who dies while entitled to pay from the United States and while (A) on active duty, (B) performing inactive duty training, (C) undergoing treatment or being hospitalized for an injury incurred or aggravated or a disease or illness contracted or aggravated while on active duty or performing inactive duty training, or (D) performing authorized travel directly to or from active duty or inactive duty training,".

(g) CONFORMING AMENDMENTS.—(1)(A) Title 10, United States Code, is amended by striking out sections 3687, 3721, 3722, 6148, 8687, 8721, and 8722.

(B) The table of sections at the beginning of chapter 353 of such title is amended by striking out the item relating to section 3687.

(C) The table of sections at the beginning of chapter 355 of such title is amended by striking out the items relating to sections 3721 and 3722.

(D) The table of sections at the beginning of chapter 561 of such title is amended by striking out the item relating to section 6148.

(E) The table of sections at the beginning of chapter 853 of such title is amended by striking out the item relating to section 8687.

(F) The table of sections at the beginning of chapter 855 of such title is amended by striking out the items relating to sections 8721 and 8722.

(2)(A) Title 32, United States Code, is amended by striking out sections 318, 319, 320, and 321.

(B) The table of sections at the beginning of chapter 3 of such title is amended by striking out the items relating to sections 318, 319, 320, and 321.

(h) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act but shall apply only to persons who become disabled on or after that date or, in the case of death benefits, who die on or after that date.

SEC. 637. LIMITED USE OF COMMISSARY STORES BY MEMBERS OF THE SELECTED RESERVE

(a) IN GENERAL.—Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

**"§ 1051. Limited use of commissary stores by members of the Selected Reserve**

"(a) Under regulations prescribed by the Secretary concerned, members of the Selected Reserve of the Ready Reserve of a reserve component of an armed force shall be permitted to use commissary stores of the Department of Defense one day for each day of active duty for training performed by the member. Under such regulations, a member of the Selected Reserve shall be permitted a period of one year after the date on which the member performs such day of active duty for training to use the day of eligibility for using commissary stores.

"(b) A member may not use commissary stores under this section more than 14 days in any year.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1051. Limited use of commissary stores by members of the Selected Reserve.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only with respect to active duty for training performed on or after that effective date.

(d) REPEAL PROVISION.—Section 1013 of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 665), is repealed effective October 1, 1986, or the date of the enactment of this Act, whichever is later.

PART E—ADMINISTRATION OF PERSONNEL BENEFITS

SEC. 641. ACCOUNTING FOR PAYMENTS OF CLAIMS FOR BENEFITS

Section 1552(c) of title 10, United States Code, is amended—

(1) by striking out ", from applicable current appropriations," in the first sentence; and

(2) by adding at the end the following new sentence: "A payment authorized under this subsection may be paid out of applicable current appropriations or from appropriations (if available) from which the expense would have been paid if payment had been made when due under the corrected record.".

SEC. 642. ENHANCED METHOD FOR DETERMINING TRUE COSTS OF MILITARY RETIREMENT

(a) USE OF DUAL PERCENTAGE DETERMINATIONS.—Section 1465 of title 10, United States Code, is amended—

(1) by striking out subsection (b)(1) and inserting in lieu thereof the following:

"(1) The Secretary of Defense shall determine each year, in sufficient time for inclusion in budget requests for the following fiscal year, the total amount of Department of Defense contributions to be made to the Fund during that fiscal year under section 1466(a) of this title. That amount shall be determined by adding—

"(A) the product of—

"(i) the current estimate of the value of the single level percentage of basic pay to be determined under subsection (c)(1)(A) at the time of the next actuarial valuation under subsection (c); and

"(ii) the total amount of basic pay expected to be paid during that fiscal year to members of the armed forces (other than the Coast Guard) on active duty (other than active duty for training) or full-time National Guard duty (other than full-time National Guard duty for training only); and

"(B) the product of—

"(i) the current estimate of the value of the single level percentage of basic pay and of compensation (paid pursuant to section 206 of title 37) to be determined under subsection (c)(1)(B) at the time of the next actuarial valuation under subsection (c); and

"(ii) the total amount of basic pay and of compensation (paid pursuant to section 206 of title 37) expected to be paid during that fiscal year to members of the Ready Reserve of the armed forces (other than the Coast Guard and other than members on full-time National Guard duty other than for training) who are not otherwise described in subparagraph (A)(ii).''; and

(2) by striking out subsection (c)(1) and inserting in lieu thereof the following:

"(c)(1) Not less often than every four years, the Secretary of Defense shall carry out an actuarial valuation of Department of Defense military retirement and survivor benefit programs. Each actuarial valuation of such programs shall include—

"(A) a determination (using the aggregate entry-age normal cost method) of a single level percentage of basic pay for members of the armed forces (other than the Coast Guard) on active duty (other than active duty for training) or full-time National Guard duty (other than full-time National Guard duty for training only); and

"(B) a determination (using the aggregate entry-age normal cost method) of a single level percentage of basic pay and of compensation (paid pursuant to section 206 of title 37) for members of the Ready Reserve of the armed forces (other than the Coast Guard and other than members on full-time National Guard duty other than for training) who are not otherwise described by subparagraph (A),

to be used for the purposes of subsection (b) and section 1466(a) of this title.".

(b) PAYMENTS INTO MILITARY RETIREMENT FUND BASED ON DUAL DETERMINATIONS.—Subsection (a) of section 1466 of such title is amended to read as follows:

"(a) The Secretary of Defense shall pay into the Fund at the end of each month as the Department of Defense contribution to the Fund for that month the amount that is the sum of—

"(1) the product of—

"(A) the level percentage of basic pay determined using all the methods and assumptions approved for the most recent (as of the first day of the current fiscal year) actuarial valuation under section 1465(c)(1)(A) of this title, except that any statutory changes in the military retirement and survivor benefit systems that became effective subsequent to the date of that valuation and on or before the first day of the current fiscal year shall be used in such determination; and

"(B) the total amount of basic pay paid that month to members of the armed forces (other than the Coast Guard) on active duty (other than active duty for training) or full-time National Guard duty (other than full-time National Guard duty for training only); and

"(2) the product of—

"(A) the level percentage of basic pay and of compensation (paid pursuant to section 206 of title 37) determined using all the methods and assumptions approved for the most recent (as of the first day of the current fiscal year) actuarial valuation under section 1465(c)(1)(B) of this title, except that any statutory changes in the military retirement and survivor benefit systems that became effective subsequent to the date of that valuation and on or before the first day of the current fiscal year shall be used in such determination; and

"(B) the total amount of basic pay and of compensation (paid pursuant to section 206 of title 37) paid that month to members of the Ready Reserve of the armed forces (other than the Coast Guard and other than members on full-time National Guard duty other than for training) who are not otherwise described in paragraph (1)(B).".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply to payments required to be made under section 1466(a) of title 10, United States Code, as amended by this section, for months beginning on or after that effective date.

## TITLE VII—HEALTH CARE

### SEC. 701. ALTERNATIVE HEALTH CARE PLANS

(a) INCENTIVES UNDER ALTERNATIVE PLANS.—Chapter 55 of title 10, United States Code, is amended by adding at the end the following new section:

**"§ 1095. Incentives for participation in cost-effective health benefit plans**

"(a) The Secretary of Defense may waive during any fiscal year or portion of a fiscal year the limitations set out in the second sentence of section 1079(a) of this title and the requirements for payments by the patient set out in section 1079(b) or 1086(b) of this title with respect to any plan contracted for under the authority of section 1079 or 1086 of this title if the Secretary determines and certifies in writing, as provided in subsection (b), that during the period of the waiver such a plan will—

"(1) be less costly to the Government; or

"(2) will provide better services at no additional cost to the Government,

than a plan under which such limitations or payment requirements are in effect.

"(b) The certification required by subsection (a)—

"(1) shall include a comparative analysis of costs of and benefits available under the plan to which a waiver of limitations and payment requirements would apply and under the plan to which the limitations and payment requirements would apply; and

"(2) shall be transmitted to the Committees on Armed Services of the Senate and the House of Representatives not later than 180 days before the beginning of any fiscal year or portion of a fiscal year for which the waiver is to be made.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1095. Incentives for participation in cost-effective health benefit plans.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later.

### SEC. 702. MILITARY-CIVILIAN HEALTH SERVICES COOPERATION

(a) AUTHORITY FOR COOPERATIVE SHARING OF RESOURCES.—Chapter 55 of title 10, United States Code, as amended by section 701, is further amended by adding at the end the following new section:

**"§ 1096. Military-civilian health services partnership program**

"(a) The Secretary of Defense may authorize agreements providing for the sharing of resources between treatment facilities of the uniformed services and civilian health care providers under sections 1079 and 1086 of this title if the Secretary determines that such sharing will result in more effective, efficient, or economical health care for persons authorized care under this chapter.

"(b) Resources that may be shared under an agreement entered into under subsection (a) include personnel (including support personnel), equipment, supplies, and other items and facilities necessary for the provision of health care services.

"(c) With respect to care provided in facilities of the uniformed services under a sharing agreement under this section, a dependent shall pay the charges prescribed by section 1078 of this title and a member or former member entitled to retired or retainer pay shall pay the charges prescribed by section 1075 of this title.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter (as amended by section 701) is amended by adding at the end the following new item:

"1096. Military-civilian health services partnership program.".

### SEC. 703. CONFIDENTIALITY OF MEDICAL QUALITY ASSURANCE RECORDS

(a) IN GENERAL.—Chapter 55 of title 10, United States Code, as amended by sections 701 and 702 of this Act, is further amended by adding at the end the following new section:

**"§ 1097. Confidentiality of medical quality assurance records: qualified immunity for participants**

"(a) Medical quality assurance records created by or for the Department of Defense as part of a medical quality assurance program are confidential and privileged. Such records may not be disclosed to any person or entity, except as provided in subsection (c).

"(b)(1) No part of any medical quality assurance record described in subsection (a) may be subject to discovery or admitted into evidence in any judicial or administrative proceeding, except as provided in subsection (c).

"(2) A person who reviews or creates medical quality assurance records for the Department of Defense or who participates in any proceeding that reviews or creates such records may not be permitted or required to testify in any judicial or administrative proceeding with respect to such records or with respect to any finding, recommendation, evaluation, opinion, or action taken by such person or body in connection with such records except as provided in this section.

"(c)(1) Subject to paragraph (2), a medical quality assurance record described in subsection (a) may be disclosed, and a person referred to in subsection (b) may give testimony in connection with such a record, only as follows:

"(A) To a Federal executive agency or private organization, if such medical quality assurance record or testimony is needed by such agency or organization to perform licensing or accreditation functions related to Department of Defense health care facilities or to perform monitoring, required by law, of Department of Defense health care facilities.

"(B) To an administrative or judicial proceeding commenced by a present or former Department of Defense health care provider concerning the termination, suspension, or limitation of clinical privileges of such health care provider.

"(C) To a governmental board or agency or to a professional health care society or organization, if such medical quality assurance record or testimony is needed by such board, agency, society, or organization to perform licensing, credentialing, or the monitoring of professional standards with respect to any health care provider who is or was a member or an employee of the Department of Defense.

"(D) To a hospital, medical center, or other institution that provides health care services, if such medical quality assurance record or testimony is needed by such institution to assess the professional qualifications of any health care provider who is or was a member or employee of the Depart-

ment of Defense and who has applied for or been granted authority or employment to provide health care services in or on behalf of such institution.

"(E) To an officer, employee, or contractor of the Department of Defense who has a need for such record or testimony to perform official duties.

"(F) To a criminal or civil law enforcement agency or instrumentality charged under applicable law with the protection of the public health or safety, if a qualified representative of such agency or instrumentality makes a written request that such record or testimony be provided for a purpose authorized by law.

"(G) In an administrative or judicial proceeding commenced by a criminal or civil law enforcement agency or instrumentality referred to in subparagraph (F), but only with respect to the subject of such proceeding.

"(2) With the exception of the subject of a quality assurance action, the identity of any person receiving health care services from the Department of Defense or the identity of any other person associated with such department for purposes of a medical quality assurance program that is disclosed in a medical quality assurance record described in subsection (a) shall be deleted from that record or document before any disclosure of such record is made outside the Department of Defense. Such requirement does not apply to the release of information pursuant to section 552a of title 5, United States Code.

"(d)(1) Nothing in this section shall be construed as authorizing or requiring the withholding from any person or entity aggregate statistical information regarding the results of Department of Defense medical quality assurance programs.

"(2) Nothing in this section shall be construed as authority to withhold any medical quality assurance record from a committee of either House of Congress, any joint committee of Congress, or the General Accounting Office if such record pertains to any matter within their respective jurisdictions.

"(e) A person or entity having possession of or access to a record or testimony described by this section may not disclose the contents of such record or testimony in any manner or for any purpose except as provided in this section.

"(f) Medical quality assurance records described in subsection (a) may not be made available to any person under section 552 of title 5, United States Code.

"(g) A person who participates in or provides information to a person or body that reviews or creates medical quality assurance records described in subsection (a) shall not be civilly liable for such participation or for providing such information if the participation or provision of information was in good faith based on prevailing professional standards at the time the medical quality assurance program activity took place.

"(h) Nothing in this section shall be construed as limiting access to the information in a record created and maintained outside a medical quality assurance program, including a patient's medical records, on the grounds that the information was presented during meetings of a review body that are part of a medical quality assurance program.

"(i) The Secretary of Defense shall prescribe regulations to implement this section.

"(j) In this section:

"(1) The term 'medical quality assurance program' means any activity carried out before, on, or after the date of the enactment of this section by or for the Department of Defense to assess the quality of medical care, including activities conducted by individuals, military medical or dental treatment facility committees, or other review bodies responsible for quality assurance, credentials, infection control, patient care assessment (including treatment procedures, blood, drugs, and therapeutics), medical records, health resources management review and identification and prevention of medical or dental incidents and risks.

"(2) The term 'medical quality assurance record' means the proceedings, records, minutes, and reports that emanate from quality assurance program activities described in paragraph (1) and are produced or compiled by the Department of Defense as part of a medical quality assurance program.

"(3) The term 'health care provider' means any military or civilian health care professional who, under regulations of a military department, is granted clinical practice privileges to provide health care services in a military medical or dental treatment facility or who is licensed or certified to perform health care services by a governmental board or agency or professional health care society or organization.

"(k) Any person who willfully discloses a medical quality assurance record other than as provided in this section, knowing that such record is a medical quality assurance record, shall be fined not more than $3,000 in the case of a first offense and not more than $20,000 in the case of a subsequent offense.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended (as amended by sections 701 and 702) by adding at the end the following new item:

"1097. Confidentiality of medical quality assurance records: qualified immunity for participants.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to all records created before, on, or after the date of the enactment of this Act by or for the Department of Defense as part of a medical quality assurance program.

SEC. 704. AUTHORIZATION OF FUNDS FOR DENTAL INSURANCE PROGRAM

(a) AUTHORIZATION OF FUNDS FOR FISCAL YEAR 1987.—There are authorized to be appropriated for fiscal year 1987 not more than $18,000,000 for the purpose of providing a dental insurance program for dependents of active duty military personnel.

(b) PROGRAM REQUIREMENTS.—Notwithstanding subsection (a) or any other provision of law, none of the funds appropriated pursuant to an authorization in this Act may be used by the Department of Defense for the purpose of providing dental insurance for dependents of active duty military personnel unless such program of insurance—

(1) provides for voluntary enrollment of dependents of active duty military personnel;

(2) provides coverage for 100 percent of charges for preventive, diagnostic, and emergency services;

(3) provides coverage for at least 80 percent of charges for composite and amalgam fillings and dental appliance repair services;

(4) is available to families of active duty military personnel at a premium cost of not more than $10 per month per family;

(5) is structured so that the Department of Defense does not pay more than 60 percent of the total program costs; and

(6) is structured so that the total costs to the Department of Defense do not exceed an annual cost of $105,000,000 (in fiscal year 1986 dollars).

SEC. 705. ACQUISITION OF COMPOSITE HEALTH CARE SYSTEM

(a) Section 1203 of the Department of Defense Authorization Act, 1986 (Public Law 99-145) is repealed.

(b) The Secretary of Defense shall immediately undertake the acquisition of the Composite Health Care System utilizing the acquisition strategy described in Department of the Army Request for Proposal Number DAH 26-85-R-0009.

## TITLE VIII—MILITARY JUSTICE

SEC. 801. SHORT TITLE; REFERENCES TO UNIFORM CODE OF MILITARY JUSTICE

(a) SHORT TITLE.—This title may be cited as the "Military Justice Amendments of 1986".

(b) REFERENCES TO UCMJ.—Except as otherwise expressly provided in this title, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of chapter 47 of title 10, United States Code (the Uniform Code of Military Justice).

SEC. 802. LACK OF MENTAL RESPONSIBILITY AS A DEFENSE IN CRIMINAL OFFENSES

(a) IN GENERAL.—Subchapter VII is amended by inserting after section 850 (article 50) the following new section (article):

"§ 850a. Art. 50a. Defense of lack of mental responsibility

"(a) It is an affirmative defense in a trial by court-martial that, at the time of the commission of the acts constituting the offense, the accused, as a result of a severe mental disease or defect, was unable to appreciate the nature and quality or the wrongfulness of the acts. Mental disease or defect does not otherwise constitute a defense.

"(b) The accused has the burden of proving the defense of lack of mental responsibility by clear and convincing evidence.

"(c) Notwithstanding section 852 of this title (article 52), the accused must be found not guilty under this section if—

"(1) a majority of the members of the court-martial present at the time the vote is taken determines that the defense of lack of mental responsibility has been established; or

"(2) in the case of a court-martial composed of a military judge only, the military judge determines that the defense of lack of mental responsibility has been established.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such subchapter is amended by inserting after the item relating to section 850 (article 50) the following new item:

"850a. 50a. Defense of lack of mental responsibility.".

(c) EFFECTIVE DATE.—Section 850a of title 10, United States Code, as added by subsection (a), shall apply only to offenses committed on or after the date of the enactment of this Act.

SEC. 803. APPLICATION FOR ENLISTED MEMBERS TO SERVE ON COURT-MARTIAL

(a) IN GENERAL.—Section 825(c)(1) (article 25(c)(1)) is amended by striking out "has requested in writing" in the first sentence and inserting in lieu thereof "has requested orally on the record or in writing".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply only in cases in which arraignment has been completed on or after the effective date provided in section 808 of this Act.

SEC. 804. AUTHORITY OF RESERVE MEMBERS TO ADMINISTER OATHS

(a) IN GENERAL.—Section 936 (article 136) is amended by inserting "or performing inactive-duty training" in subsections (a) and (b) after "active duty".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on the date of the enactment of this Act.

SEC. 805. STATUTE OF LIMITATIONS

(a) REVISION OF STATUTE OF LIMITATION.—Subsections (a), (b), and (c) of section 843 (article 43) are amended to read as follows:

"(a) A person charged with absence without leave in time of war or missing movement in time of war, or with any offense punishable by death, may be tried and punished at any time without limitation.

"(b)(1) Except as otherwise provided in this section (article), a person charged with an offense is not liable to be tried by court-martial if the offense was committed more than five years before the receipt of sworn charges and specifications by an officer exercising summary court-martial jurisdiction over the command.

"(2) A person charged with an offense is not liable to be punished under section 815 of this title (article 15) if the offense was committed more than two years before the imposition of punishment.

"(c) Periods in which the accused is absent without authority or fleeing from justice shall be excluded in computing the period of limitation prescribed in this section (article).".

(b) TIME FOR REINSTATEMENT OF CHARGES.—Such section (article) is further amended by adding at the end the following new subsection:

"(g) If charges or specifications are dismissed as defective or insufficient for any cause and the period prescribed by the applicable statute of limitations—

"(1) has expired; or

"(2) will expire within 180 days after the date of the dismissal of the charges or specifications,

trial and punishment under new charges and specifications are not barred by a statute of limitations if new charges and specifications are received by an officer exercising summary court-martial jurisdiction over the command within 180 days after the date of the dismissal of the charges or specifications and the new charges and specifications allege the same acts or omissions that were alleged in the dismissed charges or specifications or allege acts or omissions that were included in the dismissed charges or specifications.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply only to offenses committed on or after the date of the enactment of this Act.

SEC. 806. TIME FOR DEFENSE POST-TRIAL SUBMISSIONS

(a) SIMPLIFICATION OF TIME FOR SUBMISSION.—Subsection (b) of section 860 (article 60) is amended—

(1) by striking out paragraph (3);

(2) by redesignating paragraph (2) as paragraph (3) and inserting a comma in that paragraph after "case"; and

(3) by striking out paragraph (1) and inserting in lieu thereof the following:

"(1) The accused may submit to the convening authority matters for consideration by the convening authority with respect to the findings and the sentence. Except in a summary court-martial case, such a submission shall be made within 10 days after the accused has been given an authenticated record of trial and, if applicable, the recommendation of the staff judge advocate or legal officer under subsection (d). In a summary court-martial case, such a submission shall be made within 7 days after the sentence is announced.

"(2) If the accused shows that, for good cause, additional time is required for the accused to submit such matters, the convening authority or other person taking action under this section may extend the applicable period under paragraph (1) for not more than an additional 20 days.".

(b) RECOMMENDATIONS OF STAFF JUDGE ADVOCATE.—Subsection (c)(2) of such section is amended by striking out "and, if applicable under subsection (d),".

(c) CONFORMING AMENDMENTS.—Subsection (d) of such section is amended—

(1) in the third sentence, by striking out "who shall have 5 days after the date of receipt in which to submit any matter in response" and inserting in lieu thereof "who may submit any matter in response under subsection (b)"; and

(2) by striking out the fourth sentence.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply in cases in which the sentence is adjudged on or after the effective date provided in section 808.

SEC. 807. DETAIL OF JUDGE ADVOCATES

(a) REPRESENTATION OF UNITED STATES INTERESTS.—Section 806(a) (article 6(a)) is amended by inserting after the second sentence the following: "A judge advocate who is assigned or detailed to perform the functions of a civil office in the Government of the United States under section 973(b)(2)(B) of this title may perform such duties as may be requested by the agency concerned, including representation of the United States in civil and criminal cases.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a)—

(1) shall take effect on the date of the enactment of this Act; and

(2) may not be construed to invalidate an action taken by a judge advocate, pursuant to an assignment or detail under section 973(b)(2)(B) of title 10, United States Code, before the date of the enactment of this Act.

SEC. 808. EFFECTIVE DATE

The amendments made by sections 803 and 806 of this Act shall take effect on the earlier of—

(1) the last day of the 120-day period beginning on the date of the enactment of this Act; or

(2) the date specified in an Executive order for such amendments to take effect.

## TITLE IX—PROCUREMENT IMPROVEMENTS AND OTHER PROCUREMENT MATTERS

SEC. 901. SHORT TITLE

This title may be cited as the "Defense Acquisition Reorganization and Improvements Act of 1986".

### PART A—UNDER SECRETARY OF DEFENSE FOR ACQUISITION

SEC. 911. ESTABLISHMENT OF POSITION OF UNDER SECRETARY OF DEFENSE FOR ACQUISITION

(a) IN GENERAL.—Section 135 of title 10, United States Code, is amended to read as follows:

"§ 135. Under Secretaries of Defense: appointment; powers and duties; precedence

"(a) There are two Under Secretaries of Defense, one of whom shall be the Under Secretary of Defense for Acquisition and one of whom shall be the Under Secretary of Defense for Policy. The Under Secretaries of Defense shall be appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b)(1) The Under Secretary of Defense for Acquisition shall be a person who is well qualified by reason of education, training, and experience in industry. He shall perform such duties and exercise such powers relating to acquisition as the Secretary of Defense may prescribe, including—

"(A) supervising the performance of the entire Department of Defense acquisition system;

"(B) establishing all policies for acquisition, procurement, research and development, logistics, testing, contract audit, and contract administration for all entities of the Department of Defense;

"(C) establishing all policies for maintenance of the defense industrial base of the United States;

"(D) serving as the acquisition executive of the Department of Defense;

"(E) serving as the senior procurement executive of the Department of Defense (as provided in section 16 of the Office of Federal Procurement Policy Act (41 U.S.C. 414(3));

"(F) supervising all personnel (civilian and military) in the Office of the Secretary of Defense with regard to matters for which the Under Secretary has responsibility, unless otherwise provided by law; and

"(G) the authority to direct the Secretaries of the military departments and the heads of all other entities of the Department of Defense with regard to matters for which the Under Secretary has responsibility.

"(2) The Under Secretary of Defense for Policy shall perform such duties and exercise such powers as the Secretary of Defense may prescribe.

"(c)(1)(A) The Under Secretary of Defense for Acquisition takes precedence in the Department of Defense with regard to—

"(i) all matters for which he has responsibility as set forth by law, and

"(ii) all matters for which he has responsibility as prescribed by the Secretary of Defense,

after the Secretary of Defense and the Deputy Secretary of Defense.

"(B) In all matters not described in subparagraph (A), the Under Secretary of Defense for Acquisition takes precedence in the Department of Defense after the Secretary of Defense, the Deputy Secretary of Defense, and the Secretaries of the military departments.

"(2) The Under Secretary of Defense for Policy takes precedence in the Department of Defense after the Secretary of Defense, the Deputy Secretary of Defense, the Secretaries of the military departments, and the Under Secretary of Defense for Acquisition.".

(b) EXECUTIVE SCHEDULE II PAY GRADE FOR UNDER SECRETARY OF DEFENSE FOR ACQUISITION.—Section 5313 of title 5, United States Code, is amended by adding at the end the following new item:

"Under Secretary of Defense for Acquisition.".

SEC. 912. ESTABLISHMENT OF POSITION OF DEPUTY UNDER SECRETARY OF DEFENSE FOR ACQUISITION

Chapter 4 of title 10, United States Code, is further amended by inserting after section 135 the following new section:

**"§ 135a. Deputy Under Secretary of Defense for Acquisition**

"There is a Deputy Under Secretary of Defense for Acquisition, appointed from civilian life, by the Secretary of Defense. The Deputy Under Secretary of Defense for Acquisition shall perform such duties and exercise such powers with respect to acquisition as the Secretary of Defense may prescribe.".

SEC. 913. ESTABLISHMENT OF POSITION OF DIRECTOR OF DEFENSE RESEARCH AND ENGINEERING

(a) IN GENERAL.—Chapter 4 of title 10, United States Code, is amended by inserting after section 136a the following new section:

**"§ 136b. Director of Defense Research and Engineering**

"(a) There is a Director of Research and Engineering in the Department of Defense, appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b) The Director of Defense Research and Engineering shall perform such duties relating to research and engineering as the Under Secretary of Defense for Acquisition may prescribe.

"(c) The Director of Defense Research and Engineering shall take precedence in the Department of Defense as prescribed by the Secretary of Defense.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 4 of such title is amended by adding at the end the following new item:

"136b. Director of Defense Research and Engineering.".

(c) EXECUTIVE SCHEDULE III PAY GRADE FOR UNDER SECRETARY OF DEFENSE FOR POLICY AND DIRECTOR OF DEFENSE RESEARCH AND ENGINEERING.—Section 5314 of title 5, United States Code, is amended by striking out "Under Secretaries of Defense (2)." and inserting in lieu thereof the following:

"Under Secretary of Defense for Policy.

"Director of Defense Research and Engineering.".

SEC. 914. DIRECTOR OF OPERATIONAL TEST AND EVALUATION TO REPORT TO UNDER SECRETARY OF DEFENSE FOR ACQUISITION

Section 136a of title 10, United States Code, is amended—

(1) in subsection (b)—

(A) by striking out "Secretary of Defense" in the matter preceding clause (1) and inserting in lieu thereof "Under Secretary of Defense for Acquisition";

(B) in clauses (1), (2), and (6), by striking out "Secretary of Defense" and inserting in lieu thereof "Under Secretary of Defense for Acquisition"; and

(C) in clause (5), by striking out "Secretary of Defense and to" and inserting in lieu thereof "Secretary of Defense, the Under Secretary of Defense for Acquisition, and";

(2) by striking out subsections (c) and (d) and inserting in lieu thereof the following:

"(c) Each report of the Director required under subsection (b)(5) shall be submitted to the Secretary of Defense, the Under Secretary of Defense for Acquisition, and the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives without intervening review or approval and without any change or revision by any other officer or employee. The Under Secretary of Defense for Acquisition may submit such comments regarding the report as he considers appropriate to the Secretary of Defense and the Committees referred to in the preceding sentence.

"(d) The Director reports directly to the Under Secretary of Defense for Acquisition. The Director shall consult closely with, but the Director and the Director's staff are independent of, the Director of Defense Research and Engineering and all other officers and entities of the Department of Defense responsible for research and development.";

(3) in subsection (f)(2), by inserting "and the Under Secretary of Defense for Acquisition" after "Secretary of Defense"; and

(4) in subsection (g)(1)—

(A) by inserting ", through the Under Secretary of Defense for Acquisition," after "concurrently" in the second sentence; and

(B) by striking out "Secretary" in the last sentence and inserting in lieu thereof "Under Secretary of Defense for Acquisition".

SEC. 915. AMENDMENT TO THE SMALL BUSINESS ACT

Section 15(k)(3) of the Small Business Act (15 U.S.C. 644(k)(3)) is amended by inserting ", except in the case of the Department of Defense the Director of the office of Small and Disadvantaged Business shall be responsible only to, and report directly to, the Under Secretary of Defense for Acquisition".

PART B—MANAGEMENT AND AUTHORIZATION PROCEDURES FOR CERTAIN ACQUISITION PROGRAMS

SEC. 921. DEFENSE ENTERPRISE PROGRAMS

(a) IN GENERAL.—Part IV of subtitle A of title 10, United States Code, is amended by inserting after chapter 131 the following new chapter:

**"CHAPTER 132—DEFENSE ENTERPRISE PROGRAMS**

"Sec.
"2221. Definitions.
"2222. Defense enterprise programs; designation and management of programs.
"2223. Defense enterprise program managers.
"2224. Defense enterprise program staff.
"2225. Milestone authorizations.

**"§ 2221. Definitions**

"In this chapter:

"(1) 'Agency' means an agency named in clause (1), (2), (3), or (4) of section 2303(a) of this title.

"(2) 'Defense enterprise program' is any defense acquisition program designated as a defense enterprise program by the head of an agency under section 2222 of this title.

"(3) 'Head of an agency' means the Secretary of the Army, the Secretary of the Navy, and the Secretary of the Air Force.

**"§ 2222. Defense enterprise programs; designation and management of programs**

"(a) The head of an agency, with the approval of the Secretary of Defense, may designate any defense acquisition program conducted by such agency as a defense enterprise program.

"(b)(1) A defense enterprise program shall be managed by a program manager appointed as provided in section 2223 of this title.

"(2)(A) A defense enterprise program manager of an agency shall report to and be subject to the authority, direction, and control of the acquisition executive of the agency or his delegate who meets the requirements under subparagraph (B). A defense enterprise program manager shall not be subject to or be required to report to any other officer or employee of the agency.

"(B) An acquisition executive may delegate his functions under subparagraph (A) only to a person who is (i) subject to the authority, direction, and control of the acquisition executive, and (ii) reports only to such acquisition executive on defense enterprise programs.

"(c)(1) Except as specified by the acquisition executive of the agency, a defense enterprise program shall not be subject to any regulation, policy, directive, or administrative rule or guideline relating to the acquisition activities of the Department of Defense other than the Federal Acquisition Regulation and the Department of Defense supplement to the Federal Acquisition Regulation.

"(2) Paragraph (1) shall not be construed to limit or modify the application of Federal legislation relating to the acquisition activities of the Department of Defense.

**"§ 2223. Defense enterprise program managers**

"(a) The head of an agency conducting a defense enterprise program shall appoint a program manager for such program.

"(b)(1) The head of an agency shall select for appointment as a defense enterprise program manager a person from among (A) civilian employees of the agency who meet the requirements of paragraph (2), or (B) members of the armed forces who meet such requirements.

"(2) To be eligible for appointment as a defense enterprise program manager, a person shall have had (at the time of his appointment) at least 8 years of experience in acquisition, support, and maintenance of weapon systems.

"(3) A member of the armed forces who meets the requirements of paragraph (2) may be selected to serve as a defense enterprise program manager without regard to the grade of the member or any administrative policy relating to the duty assignments of members of the armed forces.

"(c)(1) The term of service of a defense enterprise program manager shall be not less than—

"(A) 4 years; or

"(B) the period beginning on the date of the appointment and ending on the first date (after such date of appointment) on which the defense enterprise program reaches a milestone established for the program by the defense systems acquisition review council or a similar review board, whichever period is shorter.

"(2) A defense enterprise program manager of an agency may be removed by the head of the agency only for inadequate job performance, misconduct, or to be appointed defense enterprise program manager of a more important or higher priority defense enterprise program (as determined by the head of such agency).

"(d)(1) Under regulations prescribed by the Secretary of Defense, the person to whom a defense enterprise program manager reports pursuant to section 2222(b)(2) of this title shall evaluate the job performance of such manager each year.

"(2) In evaluating the performance of a defense enterprise program manager, the person making the evaluation shall take into consideration (A) the extent to which the manager has been able to achieve the objectives of the program for which the manager is responsible, including quality, timeliness, and cost objectives, and (B) comments (if any) received pursuant to paragraph (3).

"(3) Under regulations prescribed by the Secretary of Defense, each officer or employee of an agency and each member of

the armed forces who, except for section 2222(b)(2) of this title, would supervise a defense enterprise program manager, would receive reports from such manager on the program managed by such manager, or would have the authority to approve or disapprove the decisions of such manager regarding the conduct of the program may submit comments on the performance of such manager to the person evaluating such manager.

**"§ 2224. Defense enterprise program staff**

"(a)(1) The manager of a defense enterprise program may establish a senior staff to assist in the management of the program. The manager may select the members of the senior staff from among employees of an agency and members of the armed forces.

"(2) A member of the armed forces selected for a position in the senior staff of a defense enterprise program shall be assigned to such position without regard to any administrative policy relating to the assignment of members of the armed forces.

"(b) The manager of a defense enterprise program may appoint a technical staff, including experts in business management, contracting, auditing, engineering, testing, and logistics.

**"§ 2225. Milestone authorizations**

"(a)(1) Not later than 90 days after the date on which a defense acquisition program is designated a defense enterprise program, the Secretary of Defense shall—

"(A) submit to Congress a program management baseline (as provided in subsection (b)) for the current acquisition phase of such program that is uncompleted on the date of the submission of the report; and

"(B) request from Congress the authority to obligate, in the fiscal year or years following the fiscal year in which such report is submitted, funds required to complete such phase.

"(2) For each subsequent acquisition phase of the defense enterprise program, the Secretary of Defense shall (A) submit a program management baseline for such phase at the same time the President submits the budget under section 1105(a) of title 31 for the fiscal year in which the new acquisition phase is to begin, and (B) request authority to obligate the funds required to complete such new phase for such fiscal year and for each subsequent fiscal year during which such phase is to be conducted.

"(b) For each acquisition phase described in paragraphs (1), (2), and (3), a program management baseline shall contain the following information described for the phase:

"(1) For the development phase before full-scale engineering development:

"(A) A schedule of development milestones.

"(B) The development costs of such phase, by fiscal year.

"(2) For the full-scale engineering development phase:

"(A) A schedule of development milestones.

"(B) The development costs of such phase, by fiscal year.

"(C) The performance goals for the system under development and the technical characteristics and configuration of such system.

"(3) For the procurement phase:

"(A) A schedule of procurement milestones.

"(B) The procurement costs, by fiscal year.

"(C) The performance goals for the system under procurement and the technical characteristics and configuration of such system.

"(D) The quantity of the system to be procured each fiscal year.

"(c) If Congress authorizes the appropriation of funds for completion of an acquisition phase of the defense enterprise program for which a program baseline has been submitted, the Secretary of Defense may, without further authorization, obligate such funds as are appropriated for the completion of that phase.

"(d)(1) If the manager of a defense enterprise program determines at any time during an acquisition phase that there is reasonable cause to believe that—

"(A) such acquisition phase cannot be completed with the funds authorized for such phase;

"(B) any milestone identified in the program management baseline cannot be accomplished within 270 days after the date specified for that milestone in the baseline; or

"(C) the performance or technical characteristics or the configuration of the system under acquisition is significantly different from the performance goals, technical characteristics, or configuration specified in such baseline,

the manager shall immediately submit a performance deficiency report for such program to the acquisition executive of the agency responsible for the program.

"(2) Upon receiving a performance deficiency report under paragraph (1), an acquisition executive of an agency shall immediately transmit a copy of the report to the head of the agency.

"(e)(1) Within 30 days after the date on which an acquisition executive of an agency receives a performance deficiency report on a defense enterprise program, the head of such agency shall conduct and complete a review of the program.

"(2)(A) Within 45 days after the date referred to in paragraph (1), the head of the agency shall notify the Secretary of Defense of the performance deficiency report and the results of the review conducted under paragraph (1).

"(B) If the review of the defense enterprise program required by paragraph (1) confirms any determination described in subsection (d)(1), the Secretary of Defense shall, within 60 days after the date referred to in paragraph (1), notify Congress of the performance deficiency report. The Secretary of Defense shall state in the notification whether or not he intends to continue the program. If the Secretary decides to continue the program he shall—

"(i) convene a board to formally review the program;

"(ii) submit a revised program management baseline for the defense enterprise program at the same time the President submits a budget under section 1105(a) of title 31 for the next fiscal year; and

"(iii) submit with the revised program management baseline referred to in clause (ii) the recommendations of the review board which was convened pursuant to clause (i).

"(C) If the Secretary of Defense is required to notify Congress of a performance deficiency report on a defense enterprise program under subparagraph (B) and the Secretary determines that it is necessary to continue to obligate funds for such program in order to preserve the option to continue the program in a subsequent fiscal year or years, the Secretary shall certify that determination in the notification to Congress.".

(b) CONFORMING AMENDMENT.—The table of chapters at the beginning of subtitle A and at the beginning of part IV of such subtitle is amended by inserting after the item relating to chapter 131 the following new item:

**"132. Defense Enterprise Programs ..... 2221".**

**PART C—PRIVATE EMPLOYMENT CONTACTS BY CERTAIN SENIOR DEPARTMENT OF DEFENSE OFFICIALS**

**SEC. 931. PROHIBITION OF CERTAIN PRIVATE EMPLOYMENT CONTACTS**

(a) IN GENERAL.—Chapter 141 of title 10, United States Code, is amended by inserting after section 2397a the following new section:

**"§ 2397b. Prohibition of private employment contacts between certain Department of Defense officials and defense contractors**

"(a) In this section:

"(1) 'Covered senior defense official' means—

"(A) the Secretary of Defense;

"(B) the Deputy Secretary of Defense;

"(C) the Under Secretary of Defense for Acquisition;

"(D) the Director of Defense Research and Engineering;

"(E) the Assistant Secretary of Defense for Acquisition and Logistics;

"(F) the Secretary of the Army;

"(G) the Secretary of the Navy;

"(H) the Secretary of the Air Force;

"(I) the Under Secretary of each military department;

"(J) the Assistant Secretary of the Army for Research, Development and Acquisition;

"(K) the Assistant Secretary of the Navy for Shipbuilding and Logistics;

"(L) the Assistant Secretary of the Navy for Research, Engineering and Systems;

"(M) the Assistant Secretary of the Air Force for Research, Development, and Logistics; and

"(N) any other official in the Department of Defense who is appointed by the President to a position which has been designated by the President for purposes of this section in an Executive order issued not less than 180 days before the date on which the official is appointed to such position by the President.

"(2) 'Defense contractor' has the same meaning provided in section 2397(a)(2) of this title.

"(3) 'Employment' has the same meaning provided in section 2397a(a)(5) of this title.

"(b) A covered senior defense official may not contact a defense contractor regarding future employment opportunities with the defense contractor.

"(c) A covered senior defense official shall immediately terminate any contact made by a defense contractor with the official regarding future employment opportunities with the defense contractor.

"(d)(1) Except as provided in paragraph (3), a covered senior defense official who, at the time of terminating Federal Government employment, has served in the position of such official for a period of not less than 24 consecutive months immediately preceding the date of the termination shall be entitled to receive as severance pay the lesser of—

"(A) the amount determined under paragraph (2); or

"(B) the greater of—

"(i) the amount determined by multiplying the number of days between the date on

which the covered senior defense official terminates such employment and the date on which he commences employment outside the Federal Government by the daily equivalent of the annual rate of basic pay for the position of the covered senior defense official on the day before the termination of his Federal Government employment; or

"(ii) an amount equal to one-twelfth of the annual rate of basic pay for the position of the covered senior defense official on the day before the termination of his Federal Government employment.

"(2) The amount referred to in paragraph (1)(A) is—

"(A) in the case of a covered senior defense official who has served in his position for at least 2 consecutive 12-month periods, but less than 3 consecutive 12-month periods, the amount equal to one-fourth of the annual rate of basic pay for such position on the day before the termination of his Federal Government employment;

"(B) in the case of a covered senior defense official who has served in the position of such official for at least 3 consecutive 12-month periods, but less than 4 consecutive 12-month periods, the amount equal to one-third of the annual rate of basic pay for such position on the day before the termination of his Federal Government employment; and

"(C) in the case of a covered senior defense official who has served in the position of such official for at least 4 consecutive 12-month periods, the amount equal to five-twelfths of the annual rate of basic pay for such position on the day before the termination of his Federal Government employment.

For the purpose of this paragraph, if the service of a person in the position of a covered senior defense official is terminated (voluntarily or involuntarily) by reason of a change of Presidents, as determined by the Director of the Office of Management and Budget, and the number of months of service as such an official is not divisible by 12, the number of months of such service shall be increased to the next higher number of months that is divisible by 12.

"(3) A covered senior defense official shall not be entitled to receive severance pay under this subsection if, on the day after the date of the termination of Federal Government employment, such official will be entitled to retired or retainer pay under this title, other than retired or retainer pay for nonregular service under chapter 67 of this title, or to an annuity under subchapter III of chapter 83 of title 5 or under any other retirement system for Federal Government employees.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2397a the following new item:

"2397b. Prohibition of private employment contacts between certain Department of Defense officials and defense contractors.".

(c) REPEAL PROVISION.—Section 921 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 693), is repealed.

SEC. 932. REQUIREMENTS RELATING TO CERTAIN PRIVATE EMPLOYMENT CONTACTS

Section 2397a of title 10, United States Code, is amended—

(1) in subsection (a)—

(A) by striking out "any individual" in paragraph (2) and inserting in lieu thereof "a covered senior defense official and any other individual"; and

(B) by inserting at the end the following:

"(7) 'Covered senior defense official' has the same meaning provided in section 2397b(a)(1) of this title."; and

(2) in subsection (b)(1)—

(A) by striking out "the official (except as provided in paragraph (2)) shall" in the matter before clause (A) and by inserting in lieu thereof "or a covered senior defense official makes or receives such a contact from a defense contractor (or an agent of such contractor) regarding such an opportunity";

(B) by inserting "the official (except as provided in paragraph (2)) shall" in clause (A) after "(A)"; and

(C) by inserting "except in the case of a covered senior defense official, the official shall," after "(B)" in clause (B).

SEC. 933. PROHIBITION ON FELONS CONVICTED OF DEFENSE CONTRACT RELATED FELONIES AND PENALTY ON EMPLOYMENT OF SUCH PERSONS BY DEFENSE CONTRACTORS.

Subsection (a) of section 932 of the Department of Defense Authorization Act, 1986 (Public Law 99-145) is amended by—

(1) inserting after "management or supervisory capacity" the following: ", including the capacity of service on the board of directors,"; and

(2) striking out "one year" and inserting in lieu thereof "three years".

PART D—ACQUISITION OF COMMERCIAL AND OTHER DEVELOPED EQUIPMENT AND SUPPLIES

SEC. 941. COMMERCIAL PRICING FOR SPARE OR REPAIR PARTS

(a) IN GENERAL.—Section 2323 of title 10, United States Code, is amended to read as follows:

"§ 2323. Commercial pricing for spare or repair parts

"In this section:

"(1) 'Agency' means an agency named in section 2303(a) of this title.

"(2) 'Spare or repair part' means any individual piece, part, subassembly, or component which is furnished for the logistic support or repair of an end item and not as an end item itself.

"(3) 'Lowest commercial price', with respect to a spare or repair part to be supplied by a contractor, does not include the price for which the contractor sells such part—

"(A) to any person for resale by such person after such person performs some service or function in connection with such part which adds to the cost of the part, unless the agency procuring the part can demonstrate that the agency is procuring the part before such service or function has been performed by any such person;

"(B) to any of the contractor's subsidiaries, affiliates, parent business organizations, or other branches of the same business entity;

"(C) to any person at a price which has been substantially discounted below the fair market or regular price for the purpose of making a donation; or

"(D) to any customer located outside the United States.

"(b) Except in the case of an offer submitted with a written statement and justification under subsection (c)(2) and except as provided in subsection (d), if an agency uses procurement procedures other than competitive procedures to award a contract for the purchase of spare or repair parts to a contractor who also offers such parts for sale to the general public, the price charged the United States for such parts under the contract may not exceed the lowest commercial price charged by the contractor in sales of such parts to the general public during the period specified in subsection (c)(1).

"(c) In any case in which a contractor submits an offer to an agency to enter into a contract for the supply of spare or repair parts to that agency, the contract is to be entered into under procurement procedures other than competitive procurement procedures, and the contractor also offers such spare or repair parts to the general public, then the contractor shall be required—

"(1) to certify in the offer that, to the best of the contractor's knowledge and belief, the price offered does not exceed the lowest commercial price at which the contractor sold such parts during the most recent regular monthly, quarterly, or other longer period for which sales data are reasonably available; or

"(2) to submit with the offer a written statement specifying the amount of the difference between its lowest commercial price for the parts and the price offered and providing a justification for that difference.

"(d) Subsections (b) and (c) do not apply to a contract awarded by an agency if the contracting officer determines, in a written finding maintained by the agency for at least 6 years, that the use of the price otherwise required by subsection (b) for such contract is not appropriate because of—

"(1) national security considerations; or

"(2) significant differences in quantity, quality, delivery, or other terms and conditions of the contract from commercial contract terms.

"(e)(1) In order to verify any certificate or statement made in accordance with subsection (c) in connection with a contract for the supply of spare or repair parts, the contracting officer who awards the contract (or any representative of the contracting officer who is an employee of the Federal Government) shall have the right, during the period specified in paragraph (2), to examine and audit all records of sales maintained by or for the contractor that are directly pertinent to the contractor's sales of such spare or repair parts for the period covered by such certificate or statement, including any books, data, or other documents maintained by or for the contractor that are directly pertinent to such sales records.

"(2) During the 3-year period beginning on the date a contractor submits a certificate or statement to an agency pursuant to subsection (c), the contractor shall make available to the contracting officer (or his representative) for examination, audit, or reproduction for the purposes of paragraph (1) all records, books, data, and documents referred to in such paragraph.

"(3) Nothing in this subsection shall require a contractor to disclose or submit data relating to the underlying elements of the prices of commercial products.".

(b) TEMPORARY EXCEPTION TO "LOWEST COMMERCIAL PRICE".—As used in section 2323 of title 10, United States Code (as amended by subsection (a) of this section), during the 1-year period beginning on the date of the implementation of such section 2323, the term "lowest commercial price", with respect to a spare or repair part to be supplied by a contractor, does not include the price for which the contractor sells such part to any agency or instrumentality of the Federal Government.

(c) CONFORMING AMENDMENT.—The item relating to section 2323 in the table of sections at the beginning of chapter 137 of such title is amended to read as follows:

"2323. Commercial pricing for spare or repair parts.".

SEC. 942. REGULATIONS FOR ALLOCATING OVERHEAD TO PARTS TO WHICH THE CONTRACTOR HAS ADDED LITTLE VALUE

Section 1245 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2609) is amended to read as follows:

"REGULATIONS FOR ALLOCATING OVERHEAD TO PARTS TO WHICH THE CONTRACTOR HAS ADDED LITTLE VALUE.

"SEC. 1245. (a) Not later than 180 days after the date of the enactment of the Department of Defense Authorization Act, 1987, the Secretary of Defense shall prescribe by regulation the manner in which the Department of Defense negotiates prices for supplies to be obtained through the use of procedures other than competitive procedures, as defined in section 4(6) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(6)).

"(b) The regulations required by subsection (a) shall—

"(1) specify the incurred overhead a contractor may appropriately allocate to supplies referred to in such subsection; and

"(2) require the contractor to identify those supplies which it did not manufacture or to which it did not contribute significant value.

"(c) The regulations issued pursuant to subsection (a) shall not apply to any items of supply included in contracts or subcontracts for which the price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public.

"(d) This section does not require the submission of cost or pricing data not otherwise required by law to be submitted.".

SEC. 943. REPEAL OF COST AND PRICE MANAGEMENT PROVISIONS

(a) IN GENERAL.—Section 2406 of title 10, United States Code, is repealed.

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 141 of such title is amended by striking out the item relating to section 2406.

SEC. 944. APPLICATION OF REQUIREMENTS TO MARK SUPPLIES TO IDENTIFY SUPPLIERS AND SOURCES

(a) IN GENERAL.—Section 2384 of title 10, United States Code, is amended—

(1) by redesignating subsection (c) as subsection (d); and

(2) by inserting after subsection (b) the following new subsection (c):

"(c) This subsection shall not apply to any items of supply included in contracts for which the price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect 180 days after the date of the enactment of this Act.

SEC. 945. PROCUREMENT OF NONDEVELOPMENT ITEMS

(a) PRIORITY REQUIREMENT FOR PROCUREMENT OF NONDEVELOPMENT ITEMS.—(1) Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2325. Procurement of nondevelopment items

"(a) In this section, the term 'nondevelopment item' means—

"(1) any item readily available in the commercial marketplace;

"(2) any item developed and in use by another department or agency of the Federal Government; or

"(3) any item described in clause (1) or (2) which requires only minor modification in order to meet the requirements of the procuring department or agency.

"(b) The Secretary of Defense, the Secretary of each military department, and the head of each Defense Agency, when procuring any item for the Department of Defense, shall, to the maximum extent practicable—

"(1) define the requirements for such item so that nondevelopment items may be used to fulfill the requirements; and

"(2) fulfill such requirements through the procurement of nondevelopment items rather than through the procurement of items made or manufactured to Department of Defense specifications.

"(c) The Secretary of Defense shall designate an officer or employee of the Department of Defense to be responsible for ensuring the effective implementation of this section.

"(d) The Secretary of Defense shall prescribe regulations to carry out subsection (b).".

(2) The table of sections at the beginning of chapter 137 of such title is amended by adding at the end the following new item:

"2325. Procurement of nondevelopment items.".

(b) DESIGNATION OF RESPONSIBLE OFFICIAL.—The Secretary of Defense shall make the designation required by section 2325(c) of title 10, United States Code (as added by subsection (a)(1) of this section), not later than 90 days after the date of the enactment of this Act.

(c) REPORT.—(1) The Secretary of Defense shall submit to Congress, not later than one year after the date of the enactment of this Act, a report on the actions that have been taken, including personnel training and changes in regulations and procurement procedures, to implement the requirements of section 2325 of title 10, United States Code (as added by subsection (a)(1) of this section).

(2) The report shall include recommendations for additional legislation that the Secretary considers desirable to increase procurement of nondevelopment items to meet the requirements of the Department of Defense.

SEC. 946. REQUIREMENTS RELATING TO OTHER THAN COMPETITIVE PROCEDURES

(a) CONTRACT FOR PROPERTY OR SERVICES.—Clause (A) of section 2304(d)(1) of title 10, United States Code, is amended by striking out "that demonstrates a unique and innovative concept" and inserting in lieu thereof "that, in the case of a product, demonstrates a unique and innovative concept or, in the case of a service, demonstrates a unique and innovative concept or a unique capability,".

(b) FOLLOW-ON CONTRACTS.—Clause (B) of such section is amended—

(1) by striking out "equipment" and inserting in lieu thereof "equipment, or the continued provision of highly specialized services,"; and

(2) by inserting "or services" after "such property" in subclause (ii).

SEC. 947. EVALUATION FACTORS IN AWARD OF CONTRACTS

Section 2305(a) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(3) In prescribing the evaluation factors to be included in each solicitation for sealed bids or competitive proposals, the relative importance of the quality of the services to be provided (including technical capability, management capability, and prior experience of the offeror), cost or price factors, and other factors should be clearly established. If, in the case of any contract to be awarded by an agency, the agency determines that the quality of the services, rather than the cost or price factors or other factors, is the highest priority, the agency should reflect that determination through appropriate weighting and evaluation factors.".

SEC. 948. OFFSETS FOR CONTRACT ADJUSTMENTS RELATING TO DEFECTIVE COST AND PRICING DATA

Section 2306(f)(2) of title 10, United States Code, is amended—

(1) by inserting "(A)" after "(2)"; and

(2) by adding at the end the following new subparagraph (B):

"(B) Cost or pricing data include only that data which are factual and verifiable and do not include judgmental data. No judgmental data or intentional understatement of cost or pricing data may be used as an offset to an adjustment under a contract provision required by subparagraph (A).".

PART E—MISCELLANEOUS PROCUREMENT POLICY MATTERS

SEC. 951. REQUIREMENT FOR A CONTRACTOR TO INFORM THE HEAD OF AN AGENCY THE EXTENT TO WHICH THE CONTRACTOR IS OWNED OR CONTROLLED BY A FOREIGN GOVERNMENT OR AGENT OR INSTRUMENTALITY OF A FOREIGN GOVERNMENT

(a) IN GENERAL.—Chapter 137 of title 10, United States Code (as amended by section 945(a)(1) of this Act), is amended by adding at the end the following new section:

"§ 2326. Disclosure of ownership or control by foreign government

"The head of an agency shall require a firm that submits a bid or proposal in response to a solicitation described in section 2305(a)(1) of this title to disclose in that bid or proposal, on the basis of the firm's best information and belief, whether, and to what extent, all or any part of such firm is owned or controlled by a foreign government or by an agent or instrumentality of a foreign government.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter (as amended by section 945(a)(2) of this Act) is amended by adding at the end the following new item:

"2326. Disclosure of ownership or control by foreign government.".

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall be effective with respect to solicitations for bids and proposals issued under chapter 137 of title 10, United States Code) on and after the date of the enactment of this Act.

SEC. 952. FOREIGN POLICY AND NATIONAL SECURITY CONSIDERATIONS IN DEFENSE CONTRACTING

(a) IN GENERAL.—Chapter 141 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2408. Foreign policy and national security considerations in defense contracting

"(a)(1) An agency named in clause (1), (2), (3), or (4) of section 2303(a) of this title may not enter into, modify, or extend a contract under chapter 137 of this title in an amount in excess of $100,000 with any contractor owned or controlled, in whole or in significant part, by a foreign government or an

agent or instrumentality of a foreign government if the head of the agency determines that such contract (or the award, modification, or extension of such contract) is inconsistent with the foreign policy or national security objectives of the United States. Any such determination shall be made with the concurrence of the Secretary of State.

"(2) In making a determination under paragraph (1), the head of the agency shall consider, among other things, the following:

"(A) The relationship of the United States with the foreign government and with the agent or instrumentality, if any, of a foreign government referred to in paragraph (1).

"(B) The obligations of the United States under international agreements.

"(C) The extent of the ownership and control of the contractor by the foreign government or the agent or instrumentality.

"(D) Whether proceeds of or payments under the contract or proposed contract or information which would be made available to the contractor under the contract could be used for purposes inimical to the interests of the United States.

"(3) The head of the agency shall report to Congress regarding his determination to deny a contract award, modification, or extension under the authority of paragraph (1). The report shall identify the foreign government, the agent (if any) or instrumentality (if any) of such foreign government, the nature of the contract, and the reasons for denying the contract award, modification, or extension.

"(b)(1) Before an agency referred to in subsection (a)(1) enters into, modifies, or extends a contract with a contractor owned or controlled, in whole or in significant part, by a foreign government (or an agent or instrumentality of a foreign government) that the Secretary of State has determined, pursuant to section 6(j) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)), has repeatedly provided support for acts of international terrorism, the head of the agency shall submit to Congress a report on the proposed contract, modification, or extension, as the case may be. The head of the agency shall include in such report the identity of the foreign government, agent, or instrumentality, as the case may be, the nature of the contract, modification, or extension, as the case may be, the extent of ownership or control of the foreign government, agent, or instrumentality, and the reasons for the agency entering into, modifying, or extending the contract.

"(2) After the head of an agency has submitted a report to Congress pursuant to paragraph (1) with regard to a contractor, the head of the agency is not required to submit an additional report before entering into any subsequent contract with such contractor or before modifying or extending a contract with such contractor unless the information required to be reported by such paragraph is materially different from the information previously submitted.

"(c) The Secretary of Defense, in consultation with the Secretary of State, shall prescribe regulations to carry out this section. Section 22 of the Office of Federal Procurement Policy Act (41 U.S.C. 418b) shall not apply to such regulations.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 141 of such title is amended by inserting at the end the following new item:

"2408. Foreign policy and national security considerations in defense contracting.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect with respect to contracts awarded, modified, or extended on or after the date of the enactment of this Act.

SEC. 953. RIGHTS RELATING TO THE USE, RELEASE, AND DISCLOSURE OF TECHNICAL DATA

(a) Rights in Technical Data.—Subsection (a) of section 2320 of title 10, United States Code, is amended to read as follows:

"(a)(1) The Secretary of Defense shall prescribe regulations to define the legitimate interest of the United States and of a contractor or subcontractor in technical data pertaining to a product or process. Such regulations shall be included in regulations of the Department of Defense prescribed as part of the Federal Acquisition Regulation. Such regulations may not impair any right of the United States or of any contractor or subcontractor with respect to patents or copyrights or any other right in technical data otherwise established by law.

"(2) Such regulations shall include the following provisions:

"(A) In the case of a product or process that is developed by a contractor or subcontractor exclusively with Federal funds, the United States shall have the unlimited right to use, release, or disclose technical data pertaining to the product or process.

"(B) In the case of a product or process that is developed by a contractor or subcontractor exclusively at private expense, the contractor or subcontractor may limit the right of the government to use, for other than internal operations and maintenance purpose, release, or disclose to persons outside the Government technical data pertaining to the product or process.

"(C) Notwithstanding subparagraph (B), the Government may use, release, or disclose technical data pertaining to a product or process to persons outside the Government if such technical data is otherwise publicly available or if—

"(i) such use, release, or disclosure—

"(I) is necessary for emergency repair and overhaul; or

"(II) is a use, release, or disclosure to a foreign government that is in the interest of the United States and is required for evaluational or informational purposes;

"(ii) such use, release, or disclosure is made subject to a prohibition that the person to whom the data is released or disclosed may not further use, release, or disclose such data; and

"(iii) the contractor or subcontractor asserting the restriction is notified of such use, release, or disclosure.

"(D) In the case of a product or process that is developed in part with Federal funds and in part at private expense, rights in technical data pertaining to such product or process shall be negotiated as early in the acquisition process as practicable (preferably during contract negotiations), based upon consideration of the following factors:

"(i) The statement of congressional policy and objectives in section 200 of title 35, the statement of purposes in section 2(b) of the Small Business Innovation Development Act of 1982 (15 U.S.C. 638 note), and the declaration of policy in section 2 of the Small Business Act (15 U.S.C. 631).

"(ii) The interest of the United States in increasing competition and lowering costs by developing and locating alternative sources of supply and manufacture.

"(iii) The interest of the United States in encouraging contractors to develop at private expense items for use by the Government.

"(E) A contractor or subcontractor, or a prospective contractor or subcontractor, that develops a product or process exclusively at private expense may not be required, as a condition of being responsive to a solicitation or as a condition for the award of a contract, to sell or otherwise relinquish to the United States any rights in technical data that would permit the use by, or release or disclosure of, such data to persons outside the Government except under the conditions described in paragraph (2)(C).

"(F) The Secretary of Defense may—

"(i) negotiate with a contractor or subcontractor to contract for the acquisition of rights in technical data pertaining to a product or process developed by such contractor or subcontractor exclusively at private expense if necessary to develop alternative sources of supply and manufacture; or

"(ii) agree to limit rights of the United States in technical data pertaining to a product or process developed entirely or in part with Federal funds if the United States receives a royalty-free license to use, release, or disclose the data for purposes of the United States (including purposes of competitive procurement).

"(2) In this subsection, the term 'Federal Acquisition Regulation' means the single system of Government-wide procurement regulations as defined in section 4(4) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(4)).".

(b) VALIDATION OF PROPRIETARY DATA RESTRICTIONS.—Section 2321 of title 10, United States Code, is amended—

(1) in subsection (a)(2), by inserting ", at any time before the end of the 3-year period beginning on the date the final payment is made on the contract," after "may review"; and

(2) in subsection (b)—

(A) by inserting "specific" after "state the" in clause (1); and

(B) by striking out "and" at the end of clause (1);

(C) by striking out the period at the end of clause (2) and inserting in lieu thereof "; and"; and

(C) by adding at the end the following new clause:

"(3) state that evidence of acceptance by any Federal agency of a restriction identical to the asserted restriction within the 3-year period preceding the challenge shall serve as justification for the asserted restriction if—

"(A) the acceptance occurred after a review of the accepted restriction under this section; and

"(B) the accepted restriction was asserted by the same contractor or subcontractor to whom such notice is being provided.".

(c) CONFORMING AMENDMENTS.—Section 1202 of the Department of Defense Authorization Act, 1985 (10 U.S.C. 2301 note), is amended—

(1) by inserting "and" at the end of paragraph (4);

(2) by striking out "; and" at the end of paragraph (5) and inserting in lieu thereof a period; and

(3) by striking out paragraph (6).

(d) DEADLINE FOR REVISION OF REGULATIONS.—The regulations required by section 2320(a)(1) of title 10, United States Code (as amended by subsection (a)), shall be prescribed not later than 180 days after the date of the enactment of this Act.

SEC. 954. GOALS FOR INCREASED USE OF MULTIYEAR CONTRACTING AUTHORITY IN FISCAL YEAR 1988.

(a) IN GENERAL.—The Secretary of Defense shall take appropriate actions to ensure that the Department of Defense increases the use of multiyear contracting authority in fiscal year 1988.

(b) MULTIYEAR PROCUREMENT GOAL.—The total amount obligated under multiyear contracts (authorized by section 2306(h) of title 10, United States Code) for Department of Defense procurement program eligible for multiyear contracting during fiscal year 1988 should be an amount that is not less than 10 percent of the total obligational authority used by the Department of Defense for procurement programs of the Department during such fiscal year.

(c) APPORTIONMENT OF GOAL.—The Secretary of Defense shall specify the percentage of obligational authority of each military department and Defense Agency that is to be used for multiyear contracts to achieve the goal prescribed in subsection (b).

(d) BASELINE REPORT.—Not later than January 1, 1987, the Secretary of Defense shall submit to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a written report which contains (1) a list of all procurement programs which the Secretary determines to be Defense SAR procurement programs eligible for multiyear contracting, (2) the Secretary's assessment of the feasibility and desirability of the multiyear procurement goal prescribed in subsection (b), and (3) whether the Secretary expects to achieve the goal prescribed in subsection (b) for fiscal year 1988 and, if the Secretary does not expect to achieve such goal, the reasons why such goal will not be achieved.

(e) DEFINITIONS.—As used in this section:

(1) The term "SAR" means Selected Acquisition Report as defined in section 139a(b)(1) of title 10, United States Code.

(2) The term "Defense procurement program eligible for multiyear contracting" means a procurement program of the Department of Defense (A) which satisfies the conditions of clauses (A) through (F) of section 2306(H)(1) of title 10, United States Code, and (B) under which production of fully configured end items is planned for a period exceeding 3 fiscal years.

## TITLE X—DEPARTMENT OF DEFENSE EFFICIENCY AND ECONOMY MATTERS

SEC. 1001. SHORT TITLE

This title may be cited as the "Department of Defense Efficiency and Economy Act of 1986".

SEC. 1002. APPLICATION OF THE DAVIS-BACON ACT TO MILITARY CONSTRUCTION CONTRACTS

(a) IN GENERAL.—Subsection (a) of the first section of the Act entitled "An Act relating to the rate of wages for laborers and mechanics employed on public buildings of the United States and the District of Columbia by contractors and subcontractors, and for other purposes", approved March 3, 1931 (40 U.S.C. 276a(a)), commonly known as the Davis-Bacon Act, is amended—

(1) by inserting "(1)" after "(a)";

(2) by inserting "or, in the case of contracts awarded by the Department of Defense, every contract in excess of $250,000" after "$2,000" in the first sentence; and

(3) by adding at the end the following new paragraph:

"(2) A person contracting on behalf of the United States or the District of Columbia may not divide projects for construction, alteration, or repair into contracts of less than $250,000 for the purpose of avoiding the application of this Act to such contracts.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to solicitations for bids or proposals made on and after the date of the enactment of this Act.

SEC. 1003. INCREASE IN THRESHOLD APPLICABLE TO STATUTORY CONTRACTING-OUT PROCEDURES

(a) IN GENERAL.—Section 502(d) of the Department of Defense Authorization Act, 1981 (10 U.S.C. 2304 note) is amended by striking out "40 or fewer" and inserting in lieu thereof "50 or fewer".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on January 1, 1987.

SEC. 1004. CONTRACTING OUT THE PERFORMANCE OF CERTAIN DEPARTMENT OF DEFENSE FUNCTIONS

(a) IN GENERAL.—Notwithstanding any other provision of law and except as provided in subsection (b), the Department of Defense shall procure from a private sector source each supply and service necessary for or beneficial to the accomplishment of the Department's authorized functions (other than military functions performed by the military departments) if a private sector source can provide such supply or service to the Department at a cost that is lower than the cost at which the Department can provide the same supply or service.

(b) EXCEPTIONS.—(1) Subsection (a) shall not apply to—

(A) firefighting functions until after September 30, 1987, and such functions may not be contracted out to the private sector before that date; or

(B) core logistics functions—

(i) identified by the Secretary of Defense pursuant to section 307 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2514); or

(ii) specified in section 1231 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 731).

(2) The prohibition on contracting out firefighting functions before September 30, 1987, under paragraph (1)(A) shall not apply to a contract described in section 1221(b) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 691).

(c) REPORTS.—Not later than January 15, 1987, the Secretary of Defense and the Administrator of the United States Fire Administration shall each submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the contracting out of firefighting functions, including the following information:

(1) Standards required to perform the activities of the firefighting functions, for activities performed by the Department of Defense personnel and by private contract.

(2) Determinations of those activities within the firefighting function that are inherently governmental and those that are not.

(3) A cost estimate of the savings, if any, over a five-year period that would be realized from contracting out those activities within the firefighting function not determined to be inherently governmental.

SEC. 1005. REALISTIC AND FAIR COST COMPARISONS IN DETERMINATIONS RELATING TO CONTRACTING OUT THE PERFORMANCE OF CERTAIN DEPARTMENT OF DEFENSE FUNCTIONS

For the purpose of determining whether to contract with private sector sources for the performance of any Department of Defense function on the basis of a comparison of the costs of procuring supplies or services from such sources with the costs of providing the same supplies or services by the Department of Defense, the Secretary of Defense should ensure that all costs considered, including the costs of quality assurance, technical monitoring of the performance of such function, liability insurance, employee retirement and disability benefits, and all other overhead costs, are realistic and fair.

## TITLE XI—NATIONAL DEFENSE STOCKPILE

SEC. 1101. EXTENSION OF PROHIBITION ON REDUCTIONS IN STOCKPILE GOALS

Section 1612(a)(1) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 776), as amended by striking out "October 1, 1986" and inserting in lieu thereof "April 1, 1987".

SEC. 1102. SPECIAL AUTHORIZATION FOR DISPOSAL

(a) IN GENERAL.—(1) Notwithstanding section 5(b)(2) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d(b)(2)), the Administrator of General Services is authorized to dispose of the following quantities of materials currently held in the National Defense Stockpile (established by section 3 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b)), that are hereby determined to be excess to the current requirements of the stockpile:

| | |
|---|---|
| Aluminum Oxide, A.G | 5,700 short tons |
| Antimony | 1,500 short tons |
| Bismuth | 136,000 pounds |
| Cadmium | 265,000 pounds |
| Diamonds, Industrial Stone. | 1,125,000 carats |
| Graphite, Malagasy C.F. | 1,000 short tons |
| Iodine | 800,000 pounds |
| Lead | 30,000 short tons |
| Manganese, Battery Grade Natural. | 2,500 short dry tons |
| Manganese, Ore | 50,000 short dry tons |
| Manganese, Electrolytic Metal. | 1,000 short tons |
| Mercury | 3,700 flasks |
| Mica, Muscovite Film | 3,000 pounds |
| Mica, Muscovite Splittings. | 262,000 pounds |
| Mica, Phlogopite Splittings. | 100,000 pounds |
| Nickel | 3,750 short tons |
| Rutile | 10,300 short dry tons |
| Silicon Carbide | 7,600 short tons |
| Silver (Coinage Program Only). | 3,000,000 troy ounces |
| Tannin, Chestnut | 1,000 long tons |
| Tannin, Quebracho | 4,000 long tons |
| Thorium Nitrate | 10,000 pounds |
| Tin | 4,000 metric tons |
| Titanium, Non-Stockpile Grade. | 900 short tons |
| Tungsten | 1,900,000 pounds of tungsten metal equivalent |
| Zinc | 33,750 short tons |

(2) The Administrator of General Services may not dispose of any quantity of any material under subsection (a) if the disposal would cause the total receipts from disposals made under such subsection to exceed $120,000,000.

SEC. 1103. AUTHORIZATION OF APPROPRIATIONS

(a) IN GENERAL.—Notwithstanding section 5(a)(2) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d(a)(2)), there is authorized to be appropriated $120,000,000 for fiscal year 1987 for the acquisition of strategic and critical materials for the National Defense Stockpile.

(b) ACQUISITION OF GERMANIUM.—The Administrator of General Services shall acquire not less than 30,000 kilograms of germanium during fiscal year 1987 with funds

appropriated pursuant to the authorization in this section or under the authority of section 6(c) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98e(c)).

SEC. 1104. EXTENSION OF USES OF STOCKPILE TRANSACTION FUND

Paragraph (2) of section 9(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(b)) is amended to read as follows:

"(2) Subject to section 5(a)(1), moneys covered into the fund under paragraph (1) shall be available for the following purposes when appropriated therefor:

"(A) The acquisition of strategic and critical materials under section 6(a)(1).

"(B) Transportation, storage, and other incidental expenses related to such acquisition.

"(C) Development of current specifications of stockpile materials and the upgrading of existing stockpile materials to meet current specifications (including transportation, when economical, related to such upgrading).

"(D) Testing and quality studies of stockpile materials.

"(E) Studying future material and mobilization requirements for the stockpile.

"(F) Other reasonable requirements for management of the stockpile.".

SEC. 1105. DEFINITION

As used in this title, the term "National Defense Stockpile" has the meaning provided in section 3 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b).

SEC. 1106. CONVERSION OF CHROMIUM AND MANGANESE ORE TO HIGH CARBON FERROCHROMIUM AND HIGH CARBON FERROMANGANESE

(a) IN GENERAL.—During fiscal year 1987 and during each of the six succeeding fiscal years, the Administrator of General Services shall obtain bids from domestic producers of high carbon ferrochromium and of high carbon ferromanganese and award contracts for the conversion of chromium and manganese ores held in the National Defense Stockpile into high carbon ferrochromium and high carbon ferromanganese, respectively.

(b) STOCKPILE GOALS.—(1) Contracts awarded under subsection (a) shall provide for the addition of not less than 53,500 short tons of high carbon ferrochromium and 67,500 short tons of high carbon ferromanganese to the National Defense Stockpile in each of the fiscal years referred to in the preceding sentence.

(2) If, in any fiscal year referred to in subsection (a), the minimum quality of high carbon ferrochromium or high carbon ferromanganese to be added to the National Defense Stockpile, as prescribed in paragraph (1), is not met, the quantity of such material to be added to such stockpile in the succeeding fiscal year shall be increased by the quantity of the deficiency.

(c) SEVEN-YEAR MINIMUM QUANTITIES.—The total quantities of high carbon ferrochromium and high carbon ferromanganese to be added to the National Defense Stockpile over the seven fiscal years referred to in subsection (a) shall be as follows:

(1) High carbon ferrochromium, 374,000 short tons.

(2) High carbon ferromanganese, 472,000 short tons.

(d) In this section, the term "National Defense Stockpile" means the stockpile provided for in section 4 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c).

## TITLE XII—GENERAL PROVISIONS

SEC. 1201. AUTHORIZATION OF APPROPRIATIONS FOR CIVILIAN PAY AND CONTINGENCIES

There are authorized to be appropriated for fiscal year 1987, in addition to other amounts authorized to be appropriated in this Act, such sums as may be necessary—

(1) for unbudgeted increases in fuel costs;

(2) for unbudgeted increases as a result of inflation in the cost of activities authorized in this Act; and

(3) for unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for civilian employees of the Department of Defense whose compensation is provided for by funds authorized to be appropriated in this Act.

SEC. 1202. DATES FOR REPORTING ON UNOBLIGATED BALANCES

Subsection (b) of section 1407 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 745), is amended to read as follows:

"(d) SUBMISSION OF REPORTS.—The reports shall be submitted to Congress each year not later than March 1, April 25, and September 1.".

SEC. 1203. SELECTED ACQUISITION REPORTS

(a) REVISION OF REPORTING REQUIREMENTS.—Section 139a of title 10, United States Code, is amended—

(1) by adding at the end of subsection (a)(3) the following new sentence: "When the appropriated funds and quantities differ from those programmed, the procurement unit cost will be revised to reflect the appropriated amounts.";

(2) in subsection (a)(4), by striking out "$2,000,000" and inserting in lieu thereof "$40,000,000";

(3) in subsection (b)(2)(A), by striking out "5" and inserting in lieu thereof "10";

(4) in subsection (b)(2)(B), by striking out "three-month" and inserting in lieu thereof "six-month";

(5) by striking out paragraph (2) of subsection (c) and inserting in lieu thereof the following:

"(2) Each Selected Acquisition Report for the first quarter of a fiscal year shall be designed to provide the Committees on Armed Services of the Senate and the House of Representatives with the information such Committees need to perform their oversight functions. No change in the content of the Selected Acquisition Report from the content as reported for the first quarter of the previous year may be made until appropriate officials of the Department of Defense have consulted with such Committees regarding the proposed changes.";

(6) in subsection (c)(3)(C), by inserting "which is produced at a rate of six units or more per year," after "report," in the matter preceding subclause (i); and

(7) by adding at the end the following new subsection:

"(h) Total program reporting under this section shall apply without exception to a program when funds have been appropriated for such acquisition program and the Department of Defense has made the decision to proceed to full-scale engineering development on such program. Reporting may be limited to the development program before a Department of Defense decision is made to proceed to full-scale engineering development, subject to approval by the Committees on Armed Services of the Senate and the House of Representatives. A limited report under this subsection shall include:

"(1) The same information, in detail and summarized form, as is provided in reports submitted under subsections (c)(1) and (c)(3) of section 139 of this title.

"(2) Reasons for any change in the development cost and schedule.

"(3) The major contracts under the development program and the reasons for any cost or schedule variances under those contracts since the last Selected Acquisition Report.

"(4) The completion status of the development program (A) expressed as a percentage that the number of years for which funds have been appropriated for the development program is of the number of years for which it is planned that funds will be appropriated for the program, and (B) expressed as the percentage that the amount of funds that have been appropriated for the development program is of the total amount of funds which it is planned will be appropriated for the program.

"(5) Program highlights since the last Selected Acquisition Report.

"(6) Other information as the Secretary of Defense considers appropriate.

The submission requirements for quarterly Selected Acquisition Reports for development programs shall be governed by the same criteria as for quarterly Selected Acquisition Reports for total program reporting.".

(b) UNIT COST REPORTS.—Section 139b of title 10, United States Code, is amended—

(1) in subsection (b), by inserting "(excluding Saturdays, Sundays, and holidays)" after "days" each time it appears in the second sentence; and

(2) by adding at the end the following new subsection:

"(h) Reporting under this section shall not apply if a program has received a limited reporting waiver under section 139a(h) of this title.".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect on January 1, 1987.

SEC. 1204. EXTENSION OF EXEMPTION FOR DOD POLYGRAPH TEST PROGRAM

Section 1221(e) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 727), is amended—

(1) in clause (2), by striking out "or" at the end of such clause;

(2) in clause (3)—

(A) by striking out "cryptologic" and inserting in lieu thereof "cryptographic"; and

(B) by striking out the period at the end and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end the following new clause:

"(4) to any polygraph examination conducted under the authorization granted by the Secretary of Defense on August 31, 1982, on a person who is participating in a national program—

"(A) which has as its purpose the collection of specialized intelligence through reconnaissance;

"(B) which is under the purview of the Director of Central Intelligence; and

"(C) for which a polygraph examination was established on or before October 1, 1985, as a condition for participation in such program.

The number of examinations that may be conducted pursuant to such authorization in fiscal year 1987 may not exceed the number conducted pursuant to such authorization in fiscal year 1986.".

SEC. 1205. MODERNIZATION OF DEFENSE CAPABILITIES OF COUNTRIES OF NATO'S SOUTHERN FLANK

(a) AUTHORITY TO TRANSFER EQUIPMENT.—Notwithstanding any other provision of law and subject to subsection (b), the President may transfer to those member nations of the North Atlantic Treaty Organization (NATO) on the southern flank of NATO which are eligible for United States security assistance and which are integrated into NATO's military structure such defense equipment as the President determines necessary to help modernize the defense capabilities of such nations. Such equipment may be transferred without cost to the recipient nations.

(b) LIMITATIONS ON TRANSFERS.—The President may transfer defense equipment under this section only if—

(1) the equipment is drawn from existing stocks of the Department of Defense;

(2) no funds available to the Department of Defense for the procurement of defense equipment are expended in connection with the transfer; and

(3) the President determines that the transfer of the equipment will not have an adverse impact on the Armed Forces of the United States.

(c) NOTIFICATION TO COMMITTEES OF CONGRESS.—The President may not transfer defense equipment under this section until—

(1) he has notified the Committees on Armed Services of the Senate and the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives of the proposed transfer and included in such notification a certification of the need for the transfer and an assessment of the impact of the transfer on the Armed Forces of the United States; and

(2) a period of 30 days has elapsed following the date on which such notification is received by the committees named in clause (1).

(d) DEFINITION.—In subsection (a), the term "member nations of the North Atlantic Treaty Organization (NATO) on the southern flank of NATO" means Greece, Italy, Portugal, Spain, and Turkey.

SEC. 1206. NATO COOPERATIVE LOGISTIC SUPPORT AGREEMENTS

(a) GENERAL AUTHORITY.—The Secretary of Defense may enter into bilateral or multilateral Weapon System Partnership Agreements with one or more governments of other member nations of the North Atlantic Treaty Organization (NATO) for the purpose of providing cooperative logistics support for the armed forces of the countries which are parties to the agreements. Such agreements may include provision for the transfer of logistics support, supplies, and services by the United States to the NATO Maintenance and Supply Organization and for the acquisition of logistics support, supplies, and services by the United States from such organization.

(b) AUTHORITY OF SECRETARY OF DEFENSE.—Under the terms of a Weapon System Partnership Agreement entered into under subsection (a), the Secretary of Defense may—

(1) agree that the NATO Maintenance and Supply Organization may make contracts for supply and acquisition of logistics support in Europe for requirements of the United States, to the extent the Secretary determines that the procedures of that organization governing such supply and acquisition are appropriate; and

(2) share the costs of set-up charges of facilities for use by the NATO Maintenance and Supply Organization to provide cooperative logistics support and share in the costs of establishing a revolving fund for initial acquisition and replenishment of supply stocks to be used by the NATO Maintenance and Supply Organization to provide cooperative logistics support.

(c) SHARING OF ADMINISTRATIVE EXPENSES.—Each Weapon System Partnership Agreement shall provide for joint management by the participating nations and for the equitable sharing of the administrative costs incident to such agreement.

(d) APPLICATION OF CHAPTER 137.—Except as provided in this section, the provisions of chapter 137 of title 10, United States Code, shall apply to contracts entered into by the Secretary of Defense for the acquisition of logistics support under a Weapon System Partnership Agreement.

(e) APPLICATION OF ARMS EXPORT CONTROL ACT.—The transfer of defense articles or defense services to the NATO Maintenance and Supply Organization for the purposes of a Weapon System Partnership Agreement shall be in accordance with the provisions of the Arms Export Control Act (22 U.S.C. 2751 et seq.).

(f) SUPPLEMENTAL AUTHORITY.—The authority of the Secretary of Defense under this section is in addition to the authority of the Secretary under chapter 138 of title 10, United States Code, or under any other provision of law.

(g) DEFINITION.—For the purpose of this section, the term "Weapon System Partnership Agreement" means an agreement between the United States and one or more other NATO nations participating in the operation of the NATO Maintenance and Supply Organization, entered into pursuant to the terms of the charter of such Maintenance and Supply Organization, for the common logistic support of a specific weapon system common to the participating nations.

SEC. 1207. COOPERATIVE PROJECTS

(a) ARMS EXPORT CONTROL ACT.—(1) Section 27 of the Arms Export Control Act (22 U.S.C. 2767) is amended—

(A) in subsection (b)—

(i) by inserting ", in the case of an agreement with the North Atlantic Treaty Organization or with one or more member countries of that Organization," after "project' " in paragraph (1);

(ii) by striking out "and" at the end of paragraph (1);

(iii) by redesignating paragraph (2) as paragraph (3); and

(iv) by inserting after paragraph (1) the following new paragraph:

"(2) the term 'cooperative project', in the case of an agreement entered into under subsection (j), means a jointly managed arrangement, described in a written agreement among the parties, which is undertaken in order to enhance the ongoing multinational effort of the participants to improve the conventional defense capabilities of the participants and which provides—

"(A) for one or more of the other participants to share with the United States the costs of research on and development, testing, evaluation, or joint production (including follow-on support) of certain defense articles;

"(B) for concurrent production in the United States and in the country of another participant of a defense article jointly developed in accordance with subparagraph (A); or

"(C) for procurement by the United States of a defense article or defense service from another participant to the agreement; and";

and

(B) by adding at the end the following new subsection:

"(j) The President may enter into a cooperative project agreement with any friendly foreign country not a member of the North Atlantic Treaty Organization under the same general terms and conditions as the President is authorized to enter into such an agreement with one or more member countries of the North Atlantic Treaty Organization if the President determines that the cooperative project agreement with such country would be in the foreign policy or national security interests of the United States.".

(2) The section heading for such section is amended to read as follows:

"SEC. 27. AUTHORITY OF PRESIDENT TO ENTER INTO COOPERATIVE PROJECTS WITH FRIENDLY FOREIGN COUNTRIES.—".

(b) TITLE 10, UNITED STATES CODE.—(1) Section 2407 of title 10, United States Code, is amended—

(A) in subsection (a)(1), by striking out "North Atlantic Treaty Organization (NATO)";

(B) in subsection (c)(2), by striking out "NATO";

(C) in paragraphs (1) and (2) of subsection (e), by striking out "NATO" each place it appears; and

(D) by striking out the section heading and inserting in lieu thereof the following:

**"§ 2407. Acquisition of defense equipment under cooperative projects".**

(2) The table of sections at the beginning of chapter 141 of such title is amended by striking out the item relating to section 2407 and inserting in lieu thereof the following:

"2407. Acquisition of defense equipment under cooperative projects.".

SEC. 1208. ACQUISITION AND CROSS-SERVICING AGREEMENTS

(a) AUTHORITY TO ENTER INTO AGREEMENTS WITH COUNTRIES OUTSIDE EUROPE.—Section 2341 of title 10, United States Code, is amended to read as follows:

**"§ 2341. Authority to acquire logistic support, supplies, and services for armed forces of the United States deployed outside the United States**

"Subject to section 2343 of this title and subject to the availability of appropriations, the Secretary of Defense may—

"(1) acquire from the Governments of North Atlantic Treaty Organization countries and from North Atlantic Treaty Organization subsidiary bodies logistic support, supplies, and services for elements of the armed forces deployed in Europe and adjacent waters; and

"(2) acquire from any government not a member of the North Atlantic Treaty Organization in which armed forces of the United States are deployed, or are to be deployed, logistic support, supplies, and services for elements of the armed forces deployed (or to be deployed) in such country or in the military region in which such country is located if such country—

"(A) has a defense alliance with the United States;

"(B) permits the stationing of members of the armed forces of the United States in such country or the homeporting of Naval vessels of the United States in such country;

"(C) has agreed to pre-position materiel of the United States in such country; or

"(D) serves as the host country to military exercises which include the armed forces of the United States or permits other military operations by the armed forces of the United States in such country.".

(b) CROSS-SERVICING AGREEMENTS.—Section 2342 of such title is amended to read as follows:

"§ 2342. CROSS-SERVICING AGREEMENTS

"(a) Subject to section 2343 of this title and to the availability of appropriations, and after consultation with the Secretary of State, the Secretary of Defense may—

"(1) enter into agreements with the government of any North Atlantic Treaty Organization country and with any North Atlantic Treaty Organization subsidiary body under which the United States agrees to provide logistic support, supplies, and services to military forces of such country or subsidiary body deployed in Europe and adjacent waters in return for the reciprocal provision of logistic support, supplies, and services by such country or subsidiary body to elements of the armed forces deployed in Europe and adjacent waters;

"(2) enter into agreements with the government of any country designated by the Secretary of Defense which is not a member of the North Atlantic Treaty Organization under which the United States agrees to provide logistic support, supplies, and services to the armed forces of such country in return for the reciprocal provision of logistic support, supplies, and services by such country to elements of the armed forces of the United States deployed in such country or in the military region in which such country is located; and

"(3) enter into agreements with the government of any country referred to in clause (1) or (2) under which the United States agrees to provide logistic support, supplies, and services to the armed forces of such country in return for the reciprocal provision of support, supplies, and services for the armed forces of the United States from such country while the armed forces of such country are stationed in North America or are performing military exercises or training in North America.

"(b) A country may not be designated by the Secretary of Defense for cross-servicing agreements under this section unless the Secretary, after consultation with the Secretary of State, has determined that the designation of such country for such purpose is in the interest of the national security of the United States.

"(c) The Secretary of Defense may not use the authority of this chapter to procure from any foreign government as a routine or normal source any goods or services reasonably available from United States commercial sources.

"(d) The Secretary of Defense shall prescribe such regulations as may be necessary to ensure that contracts entered into under this chapter are free from self-dealing, bribery, and conflict of interests.".

(c) METHODS OF PAYMENT.—Section 2344(b) of such title is amended—

(1) in paragraph (1), by inserting "or other foreign country" after "country" in the material preceding subparagraph (A); and

(2) in paragraph (3), by inserting "or other foreign country" after "country".

(d) LIQUIDATION OF ACCRUED CREDITS AND LIABILITIES.—Section 2345 of such title is amended—

(1) by inserting "(a)" before "Credits" at the beginning of such section; and

(2) by adding at the end the following new subsection:

"(b) Payment-in-kind or exchange entitlements shall be satisfied within 12 months after the date of the delivery of the logistic support, supplies, or services.".

(e) LIMITATIONS ON AMOUNTS THAT MAY BE OBLIGATED OR ACCRUED BY THE UNITED STATES.—Section 2347 of such title is amended—

(1) in subsection (a)—

(A) by inserting "(1)" after "(a)"; and

(B) by adding at the end the following new paragraph:

"(2) Except during a period of active hostilities in the military region affecting a country which is not a member of the North Atlantic Treaty Organization, but with which the United States has one or more acquisition or cross-servicing agreements, the total amount of reimbursable liabilities that the United States may accrue under this chapter (before the computation of offsetting balances) with such country may not exceed $10,000,000 in any fiscal year, and of such amount not more than $2,500,000 in liabilities may be accrued for the acquisition of supplies (other than petroleum, oils, and lubricants). The $10,000,000 limitation specified in this paragraph is in addition to the limitation specified in paragraph (1).";

(2) in subsection (b), by inserting "(1)" after "(b)"; and

(3) by adding at the end the following new paragraph:

"(2) Except during a period of active hostilities in the military region affecting a country referred to in paragraph (1), the total amount of reimbursable credits that the United States may accrue under this chapter from such country (before computation of offsetting balances) may not exceed $10,000,000 in any fiscal year. The $10,000,000 limitation specified in this paragraph is in addition to the limitation specified in paragraph (1).".

(f) INVENTORIES OF SUPPLIES NOT TO BE INCREASED.—Section 2348 of such title is amended by striking out "to military forces of any North Atlantic Treaty Organization country or any North Atlantic Treaty Organization subsidiary body".

(g) DEFINITION.—Section 2350 of such title is amended by adding at the end the following new paragraph:

"(3) 'Military region' means the geographical area of responsibility assigned to the Commander of a Unified Command of the armed forces of the United States excluding Europe and adjacent waters.".

(h) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 138 of such title is amended by striking out the item relating to section 2341 and inserting in lieu thereof the following:

"2341. Authority to acquire logistic support, supplies, and services for armed forces of the United States deployed outside the United States.".

SEC. 1209. COOPERATIVE RESEARCH AND DEVELOPMENT WITH NON-NATO ALLIES AND OTHER FRIENDLY COUNTRIES

(a) FINDINGS.—The Congress finds—

(1) that the North Atlantic Treaty Organization Cooperative Research and Development program instituted during fiscal year 1986 has served to increase cooperation in research and development among NATO nations; and

(2) that additional benefits of cooperation in research and development might ensue from an extension of the program to include countries which have mutual security or mutual assistance treaties with the United States or which share with the United States a commitment to freedom and individual liberties.

(b) CONGRESSIONAL REQUEST FOR COOPERATION ON RESEARCH AND DEVELOPMENT.—The Congress urges and requests the President and the Secretary of Defense to pursue diligently opportunities for the United States and our major non-NATO allies to cooperate—

(1) in research and development on defense equipment and munitions; and

(2) in the production of defense equipment.

(c) FUNDS FOR COOPERATIVE PROJECTS.—Of the funds appropriated pursuant to the authorizations in section 201, not more than $40,000,000 shall be available only for cooperative research and development projects with major non-NATO allies.

(d) RESTRICTIONS.—(1) A memorandum of understanding (or other formal agreement) to conduct a cooperative research and development project may not be entered into under this section unless the Secretary of Defense determines that the proposed project enhances the ongoing multinational effort to improve conventional defense capabilities through the application of emerging technology.

(2) Each cooperative project shall require sharing of the costs of research between the participants on an equitable basis.

(3) The Secretary may not delegate the authority to make a determination under paragraph (1) except to the Deputy Secretary of Defense or the Under Secretary of Defense for Acquisition.

(e) RESTRICTIONS ON PROCUREMENT OF EQUIPMENT AND SERVICES.—(1) In order to assure substantial participation on the part of major non-NATO allies in cooperative research and development projects, funds made available under subsection (c) for such projects may not be used to procure equipment or services from any foreign government, foreign research organization, or other foreign entity.

(2) A major non-NATO ally may not utilize any United States military or economic assistance funds, grants, or loans for the purpose of making its contribution to a cooperative research and development program entered into with the United States under this section.

(f) NOTICE TO CONGRESS.—The Secretary of Defense and the Secretary of State shall jointly submit a letter to Congress not later than January 1 of each year enumerating those countries eligible for participation with the United States in a cooperative research and development program authorized by this section.

(g) DEFINITIONS.—As used in this section:

(1) The term "major non-NATO ally" means a country with which the United States has a mutual security treaty or mutual security assistance treaty or a country which shares with the United States a mutual commitment to freedom and individual freedoms.

(2) The term "cooperative research and development project" means a project involving joint participation by the United States and one or more major non-NATO allies under a memorandum of understanding (or other formal agreement) to carry out a joint research and development program—

(A) to develop new conventional equipment and munitions; or

(B) to modify existing military equipment to meet United States military requirements.

SEC. 1210. SENSE OF THE SENATE RELATING TO SALT II COMPLIANCE

It is the sense of the Senate that it is in the national security interests of the United States to continue voluntary compliance with strategic offensive arms agreements with the Soviet Union by recognizing the central numerical sublimits on strategic nuclear delivery systems contained in such agreements so long as the Soviet Union complies with such sublimits.

SEC. 1211. SENSE OF THE SENATE RELATING TO STRATEGIC ARMS AGREEMENTS

It is the sense of the Senate that, consistent with international law, it is not in the national interest of the United States to continue compliance with any strategic arms agreement that the Soviet Union has clearly violated.

SEC. 1212. LIMITATION ON OBLIGATION OF FUNDS FOR ESTABLISHING A FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTER FOR THE STRATEGIC DEFENSE INITIATIVE

(a) PROHIBITION ON USE OF FUNDS.—None of the funds authorized to be appropriated in this or any other Act may be obligated or expended for the purpose of establishing or operating a Federally Funded Research and Development Center for the support of the Strategic Defense Initiative Organization until Congress has received the reports described in subsection (b) and thirty (30) legislative days have elapsed following the date on which the Congress has received both reports.

(b) REPORT REQUIREMENT.— In order for Congress to make an informed decision on the need for the establishment of a Federally Funded Research and Development Center for the support of the Strategic Defense Initative Organization and on the ability of such an entity to function as an independent and objective source of technical support, the Secretary of Defense and the Comptroller General of the United States shall each submit to Congess a report that includes the following:

(1) An evaluation of alternative means of providing the stated objective of technical support and the comparative costs of the alternative means.

(2) A discussion of the competitive aspects pertaining to contract award for such technical support.

(3) A discussion of the process for evaluating technical support proposals which includes consideration of peer review procedures.

(4) A discussion of the steps being taken in the design of the proposed Federally Funded Research and Development Center to prevent conflicts of interest and the appearance of conflicts of interest.

(5) A discussion of procedures for staff selection, including the role of the sponsoring organization in that selection process.

SEC. 1213. SPECIAL DEFENSE ACQUISITION FUND

Section 138(g) of title 10, United States Code, is amended by striking out "$1,000,000,000" and inserting in lieu thereof "$1,100,000,000".

SEC. 1214. EXTENSION OF AUTHORITY OF SECRETARY OF DEFENSE TO TRANSPORT HUMANITARIAN RELIEF SUPPLIES TO CERTAIN COUNTRIES

Section 1540(a) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2637), is amended by striking out "fiscal years 1985 and 1986" and inserting in lieu thereof "fiscal years 1986 and 1987".

SEC. 1215. HUMANITARIAN AND CIVIC ASSISTANCE PROVIDED IN CONJUNCTION WITH A MILITARY OPERATION

(a) IN GENERAL.—Part I of subtitle A of title 10, United States Code, is amended by adding at the end the following new chapter:

"CHAPTER 20—HUMANITARIAN AND CIVIC ASSISTANCE PROVIDED IN CONJUNCTION WITH MILITARY OPERATIONS

"Sec.
"401. Armed forces participation in humanitarian and civic assistance activities.
"402. Approval of the Secretary of State.
"403. Payment of expenses.
"404. Report to Congress.
"405. Definition.

"§ 401. Armed forces participation in humanitarian and civic assistance activities

"(a) Under regulations prescribed by the Secretary of Defense, the Secretary of a military department may carry out humanitarian and civic assistance activities in conjunction with authorized military operations of the armed forces of the United States in countries in which it is determined, by the Secretary of the military department concerned, that the activities will promote—

"(1) both the security interests of the United States and the country in which the activities are to be carried out; and

"(2) the specific operational readiness skills of the members of the armed forces of the United States who participate in the activities.

"(b) Humanitarian and civic assistance activities carried out under this chapter shall fully complement, and may not duplicate, any other form of social or economic assistance which may be provided to the country concerned by any other department or agency of the United States. Such activities shall serve the basic economic and social needs of the people of the country concerned.

"(c) Humanitarian and civic assistance may not be provided under this chapter, directly or indirectly, to any individual, group, or organization engaged in military or paramilitary activity.

"§ 402. Approval of the Secretary of State

"Humanitarian and civic assistance may not be provided under this chapter to any foreign country unless the Secretary of State has specifically approved such assistance.

"§ 403. Payment of expenses

"Expenses incurred as a direct result of providing humanitarian and civic assistance under this chapter to any foreign country shall be paid for out of funds specifically appropriated for such purpose.

"§ 404. REPORT TO CONGRESS

"The Secretary of Defense shall report to Congress each year, not later than March 1, on activities carried out under this chapter during the preceding fiscal year. The Secretary shall include in each such report a list of the countries in which humanitarian and civic assistance activities were carried out in the preceding fiscal year, the type of such activities carried out in each country in the preceding fiscal year, and the amount expended in carrying out such activities in each such country in the preceding fiscal year.

"§ 405. Definition

"In this chapter, the term 'humanitarian and civic assistance' means—

"(1) medical, dental, and veterinary care provided in rural areas of a country;

"(2) construction of rudimentary transportation systems;

"(3) well drilling and construction of basic sanitation facilities;

"(4) rudimentary construction and repair of public facilities; and

"(5) similar or related types of assistance.".

(b) CONFORMING AMENDMENTS.—The tables of chapters at the beginning of subtitle A of such title and at the beginning of part I of such subtitle are each amended by adding at the end the following new item:

"20. Humanitarian and Civic Assistance Provided in Conjunction With Military Operations ..... 401".

SEC. 1216. AUTHORITY TO PAY EXPENSES OF DEVELOPING COUNTRIES FOR PARTICIPATION IN COMBINED MILITARY EXERCISES

(a) AUTHORITY TO PAY EXPENSES.—Chapter 101 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2010. Participation of developing foreign countries in combined exercises: payment of incremental expenses

"(a) The Secretary of Defense, after consultation with the Secretary of State, may pay the incremental expenses of a developing foreign country incurred by that country as the direct result of participation in a bilateral or multilateral military exercise if—

"(1) the exercise is undertaken primarily to enhance the security interests of the United States; and

"(2) the Secretary of Defense determines that the participation by such country is necessary to the achievement of fundamental exercise objectives and that those objectives cannot be achieved unless the United States provides the incremental expenses incurred by such country.

"(b) The Secretary of Defense shall submit a report to Congress each year, not later than March 1, containing a list of the developing countries for which expenses have been paid by the United States under this section during the preceding year and the amounts expended on behalf of each government.

"(c) The Secretary of Defense shall establish by regulation such accounting procedures as may be necessary to ensure that funds expended under the authority of this section are properly expended.

"(d) In this section, the term 'incremental expenses' means the reasonable and proper cost of the goods and services that are consumed by a developing foreign country as a direct result of that country's participation in a bilateral or multilateral military exercise with the United States, including but not limited to rations, fuel, training ammunition, and transportation. Such term does not include pay, allowance, and normal costs of host country personnel.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2010. Participation of developing foreign countries in combined exercises: payment of incremental expenses.".

SEC. 1217. AUTHORITY TO PAY CERTAIN EXPENSES OF DEFENSE PERSONNEL OF FOREIGN COUNTRIES

(a) IN GENERAL.—Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1051. Bilateral or regional cooperation programs: payment of personnel expenses

"(a) The Secretary of Defense may pay the travel, subsistence, and similar personal expenses of defense personnel of developing countries in connection with the attendance of such personnel at a bilateral or regional conference, seminar, or similar meeting if the Secretary determines that the attendance of such personnel at such conference, seminar, or similar meeting is in the national security interests of the United States.

"(b)(1) Except as provided in paragraph (2), expenses authorized to be paid under subsection (a) may be paid on behalf of personnel from a developing country only in connection with travel within the area of responsibility of the unified command in which the developing country is located.

"(2) In any case in which the headquarters of a unified command is located within the United States, expenses authorized to be paid under subsection (a) may be paid in connection with travel of personnel to the United States to attend a bilateral or regional conference, seminar, or similar meeting.

"(3) Expenses authorized to be paid under subsection (a) may not, in the case of any individual, exceed the amount that would be paid under chapter 7 of title 37 to a member of the armed forces of the United States (of a comparable grade) for authorized travel of a similar nature.

"(c) In addition to the expenses authorized to be paid under subsection (a), the Secretary of Defense may pay such other expenses in connection with any such conference, seminar, or similar meeting as the Secretary considers in the national security interests of the United States.

"(d) The authority to pay expenses under this section is in addition to the authority to pay certain expenses and compensation of officers and students of Latin American countries under section 1050 of this title.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1051. Bilateral or regional cooperation programs: payment of personnel expenses.".

SEC. 1218. DRUG INTERDICTION EFFORTS BY DOD

(a) REPORT.—The National Drug Enforcement Policy Board shall submit a report to the Committees on Armed Services of the Senate and the House of Representatives on the manner and the extent to which the Department of Defense should be involved in United States drug enforcement activities. The Board shall include in such report its recommendations for a 5-year funding plan for Department of Defense participation in United States drug enforcement activities.

(b) DRUG EDUCATIONAL AND COUNSELING REPORT.—The Secretary of Defense, in consultation with the National Drug Enforcement Policy Board and the Department of Education, shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report, not later than December 1, 1986, discussing (i) the extent to which youth in schools operated by the Department of Defense for dependent members of the Armed Forces are receiving education on drug and substance abuse, (ii) the types of drug education programs that are currently being provided, (iii) whether additional drug education programs are needed, and (iv) the extent to which drug education programs for youth in grades K through 12 include or should include preventive peer counseling classes.

(c) REPORT DEADLINE.—The report required by subsection (a) shall be submitted not later than December 1, 1986.

SEC. 1219. REPORTING OF TERRORIST THREATS

(a) IN GENERAL.—(1) Subject to subsection (b), the Secretary of Defense shall instruct all appropriate officials of the Department of Defense to take such action as may be necessary to ensure that all credible, time-sensitive intelligence concerning potential terrorist threats is promptly reported to the headquarters or office of the Department of Defense concerned.

(2) The Secretary shall also instruct such officials that such intelligence is to be reported through the most appropriate and expeditious communications networks available to the Department of Defense.

(b) WAIVER.—The Secretary of Defense shall not be required to issue the instructions referred to in subsection (a) if he determines that such instructions would be inappropriate or unwise and notifies Congress of that determination before March 1, 1987, and includes with the notification an explanation of the basis for such determination.

SEC. 1220. MILITARY IMPACT STATEMENT BY THE JOINT CHIEFS OF STAFF ON UNITED STATES NON-COMPLIANCE WITH EXISTING STRATEGIC OFFENSIVE ARMS AGREEMENTS

(a) Not later than October 1, 1986, the Chairman of the Joint Chiefs of Staff of the Armed Forces of the United States shall submit to Congress a report, in both classifed and unclassified versions, containing, a detailed assessment, including the individual views of each of the chiefs, of the military impacts on the national security of the United States, of the possible military responses of the Soviet Union to an American decision to no longer comply with major provisions of existing strategic offensive arms limitation agreements, including the central numerical sublimits on strategic nuclear delivery vehicles contained in the SALT II accord. This assessment shall concentrate on possible Soviet military responses during the period between fiscal year 1987 and fiscal year 1996, inclusive and shall address, among other considerations, the following:

(1) the impact on the ability of United States strategic forces to accomplish their nuclear deterrent mission, including the impacts on the survivability of United States strategic forces and on the ability of United States strategic forces to achieve required damage expectancies against Soviet targets, of any expansion of Soviet military capabilities undertaken in response to a United States decision to abandon compliance with existing strategic offensive arms agreements;

(2) the additional cost to the United States, above currently projected military expenditures for those periods for which such budget projections are available, of research, development, production, deployment, and annual operations and support for any additional strategic forces required to counter any expansion in Soviet military capabilities undertaken in response to a United States decision to abandon compliance with existing strategic offensive arms agreements;

(3) under average annual real growth projections in defense spending of 0 percent, 1 percent, 2 percent, and 3 percent, the percent of the annual defense budget in each year between fiscal year 1987 and fiscal year 1996 which would be consumed by increased United States strategic forces needed to counter the Soviet force expansions;

(4) the military impacts on United States national security of the diversion of the funds identified in subsection (a)(2) away from nonstrategic defense programs and to strategic programs to counter expanded Soviet strategic capabilities, including the military impacts of such a diversion on the ability of United States conventional forces to meet the Nation's specific non-nuclear defense commitments as a member of the North Atlantic Treaty Organization, and under the 1960 Treaty of Mutual Cooperation and Security with Japan;

(5) in addition, this report shall address the military implications for the United States of determined Soviet violations of offensive arms control agreements.

(b) Notwithstanding any other provision of law, none of the funds authorized or appropriated by this or any other Act may be obligated or expended, directly or indirectly, by the Organization of the Joint Chiefs of Staff for prospective studies and analyses to be accomplished by individual civilian contractors or civilian contractor entities, after October 1, 1986, if the report mandated in subsection (a) has not been received by the Congress; and

(c) The prohibition contained in subsection (b) on the obligation or expenditure of funds after October 1, 1986, shall cease to have effect upon the receipt by Congress of the report mandated in subsection (a).

SEC. 1221. CHEMICAL WEAPONS, AGENTS OR COMPONENT

(a) No chemical weapons, agents, or components used in chemical weapons may be shipped by any means into the Lexington-Bluegrass Depot in Richmond, Kentucky, for any purpose, including disposal;

(B) Following disposal of the chemical weapons stockpile stored at the Lexington-Bluegrass Depot, as required by PL 99-145, the facility may not be used for assembly, construction, testing, storage, or disposal of any chemical or biological weapon;

(c) The Secretary of Defense shall have the authority to waive these provisions in the event that he determines it is in the national security interest.

SEC. 1222. COAST GUARD

(a) Of the amounts authorized to be appropriated for the Department of Defense in fiscal year 1987:

(1) $200,000,000 shall be for the acquisition and maintenance of United States Coast Guard inventories related to the national defense; and

(2) $100,000,000 in operating funds for the performance of defense readiness responsibilities of the United States Coast Guard. Funds made available pursuant to the authorizations specified in this section shall be attributed to functional category 050 (National Defense) of the Budget of the Government of the United States.

(3) Of these amounts authorized, $15,000,000 shall be available for transfer to the Secretary of Transportation and shall be available only for the program described in paragraph (b).

(b) ENHANCED DRUG-INTERDICTION ASSISTANCE—

(1) ASSIGNMENT OF COAST GUARD PERSONNEL ON NAVAL VESSELS.—Chapter 18 of title 10, United States Code, is amended by

adding after section 378 the following new section:

"SEC. 379. ASSIGNMENT OF PERSONNEL TO NAVAL VESSELS FOR DRUG ENFORCEMENT PURPOSES

"(a) The Secretary of Defense and the Secretary of Transportation may provide that there be assigned on board surface naval vessels at sea in a drug-interdiction area members of the Coast Guard who are trained in law enforcement and have power to arrest, search, and seize property and persons suspected of violations of law.

"(b) Members of the Coast Guard assigned to duty on board naval vessels under this section shall perform such law enforcement functions (including drug-interdiction functions)—

"(1) as may be agreed upon by the Secretary of Defense and the Secretary of Transportation; and

"(2) as are otherwise within the jurisdiction of the Coast Guard.

"(c) No fewer than five hunderd active duty personnel of the Coast Guard shall be assigned each fiscal year to duty as provided in subsection (a).

"(d) As used in this section, the term 'drug-interdiction area' means an area outside the land area of the United States in which the Secretary of Defense (in consultation with the Attorney General) determines that activities involving smuggling of drugs into the United States are ongoing.".

(c) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting immediately below the item relating to section 378 the following new item:

"378. Assignment of personnel to naval vessels for drug enforcement purposes.".

SEC. 1223. FACILITIES FOR THE DETENTION OF CERTAIN ALIENS

(a) Not later than 60 days after the date of the enactment of this Act, the Secretary of Defense shall transmit to the Attorney General of the United States—

(1) a list of facilities under the jurisdiction of the Department of Defense which are suitable for use for the detention of Marielito criminal aliens;

(2) a statement of the estimated costs of using such facilities for the detention of such aliens; and

(3) a statement identifying the agencies of the Federal Government which would bear such costs.

(b) A copy of this report shall be made available, upon request to the Attorney General, to Members of the United States Senate and the United States House of Representatives.

SEC. 1224. SPECIAL OPERATIONS FORCES

(a) CONGRESSIONAL FINDINGS.—The Congress finds—

(1) that the threat to the United States and its allies from unconventional warfare, including terrorism and insurgency, continues to increase at an alarming rate;

(2) that, although the United States must continue to maintain and improve its strategic and conventional force capabilities in order to deter aggression and to protect the security of the United States and its allies, the use of armed force by the United States since the end of the Korean conflict has principally been in response to insurgencies against allies of the United States and to terrorist attacks directed at the United States and American citizens;

(3) that the most likely use of armed force by the United States in the foreseeable future will be counterterrorist, counterinsurgency, and other unconventional operations;

(4) that the capabilities needed to response to threats from unconventional warfare are not those traditionally fostered by the armed forces of the United States;

(5) that the Department of Defense has failed to recognize that conventional force capabilities can seldom be effectively employed in unconventional warfare missions;

(6) that conventional force commanders have a limited understanding of special operations forces capabilities and have misemployed such forces;

(7) that the Department of Defense has not given sufficient emphasis to the planning and preparation for unconventional warfare missions or to the appropriate integration of special operations forces capabilities into the national security strategy of the United States;

(8) that the National Security Council and the Office of the Secretary of Defense have not given sufficient attention to the formulation of policies to guide the development of special operations forces capabilities;

(9) that the Department of Defense has not provided adequate resources or support for special operations forces, particularly in airlift capability;

(10) that the Department of Defense has not given sufficient attention to ensuring the provision of adequate intelligence support for unconventional warfare missions;

(11) that the Department of Defense has not given sufficient attention to the tactics, doctrines, and training associated with unconventional warfare missions;

(12) that problems of command and control have repeatedly beset military forces of the United States engaged in unconventional warfare operations;

(13) that such problems were evident during the Mayaguez incident, the Iranian hostage rescue mission, the Grenada operation, and the Beirut peacekeeping mission;

(14) that the cooperation and coordination among the special operations forces of the Army, Navy, and Air Force are seriously deficient; and

(15) that the Department of Defense has not given sufficient attention to personnel policies, practices, and procedures to ensure the availability of sufficient numbers of officers with the skills required for unconventional warfare.

(b) ESTABLISHMENT OF SPECIAL OPERATIONS FORCES.—(1) The President shall establish, not later than 180 days after the date of the enactment of this Act, a unified combatant command for special operations forces.

(2)(A) The commander of the unified combatant command established pursuant to paragraph (1) shall hold the grade of general or, in the case of an officer of the Navy, admiral if appointed to that grade by the President, by and with the advice and consent of the Senate.

(B) The commander of such command shall be responsible for and shall have the authority necessary to conduct all affairs of such command relating to special operations forces, including the following matters:

(i) Developing strategy, doctrine, and tactics.

(ii) Training of assigned forces.

(iii) Prescribing professional military education.

(iv) Planning resources (including validating requirements).

(v) Ensuring combat readiness.

(vi) Developing special equipment.

(vii) Ensuring the interoperability of equipments and forces.

(viii) Tasking of intelligence support.

(ix) Monitoring the promotions, assignments, rention, training, and professional military education of special operations forces officers.

(C) The commander of such command shall be fully prepared to assume operational command of selected special operations missions if directed to do so by the National Command Authority.

(3) Unless otherwise directed by the National Command Authorities (NCA), all active and reserve special operations forces of the Army, Navy and Air Force based in the United States shall be assigned to the unified combatant command established pursuant to paragraph (1).

(4) The President shall assign special operations forces located outside the United States to the unified combatant command in whose geographic area such forces are stationed.

(5) Unless otherwise directed by the NCA, special operations missions shall be conducted under the operational command of the unified combatant commands in whose geographic areas such missions are to be conducted.

(6) The Secretary of Defense shall create for the special operations forces a major force program category for the Five-Year Defense Plan of the Department of Defense.

(7) The Secretary of Defense shall substantially augment the capabilities of the Office of the Secretary of Defense to provide effective policy and resource oversight of special operations forces.

(c) MINIMUM GRADE FOR COMMANDERS OF SPECIAL OPERATIONS COMMANDS.—Commanders of the special operations command assigned to the United States European Command and the United States Pacific Command shall be of general or flag officer grade.

(d) BOARD FOR UNCONVENTIONAL WARFARE.—The President shall establish within the National Security Council a board to be known as the "Board for Unconventional Warfare". The principal duty of such board shall be to coordinate the unconventional warfare policies of the United States.

(e) ASSISTANT SECRETARY OF DEFENSE FOR SPECIAL OPERATIONS AND LOW INTENSITY CONFLICT AND DEPUTY ASSISTANT TO THE PRESIDENT FOR NATIONAL SECURITY AFFAIRS FOR UNCONVENTIONAL WARFARE.—(1) Section 136(b) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(7) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict. He shall have full responsibility for policy and resource oversight of special operations forces.".

(2) It is the sense of the Congress that the President should designate within the Office of the President a Deputy Assistant to the President for National Security Affairs for Unconventional Warfare.

(f) FUNDING.—Programs and activities under the Special Operations Forces Master Plan shall be paid for with funds appropriated to the Department of Defense for such purposes.

(g) REPORT.—(1) The President shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the actions that the President and the Secretary of Defense have taken to correct the deficiencies identified in subsection (a) and to implement the provisions of subsections (b) through (e).

(2) Such report shall be submitted not later than March 1, 1987.

SEC. 1225. TAXATION ON MILITARY BENEFITS

It is the sense of the Senate with respect to the tax treatment of Military Benefits, that for purposes of paragraph (1) of section 61(a) of the Internal Revenue Code of 1954 (defining gross income), the term "fringe benefits" does not include the following military benefits;

(a) Subsistence and uniform allowances granted a member of the uniformed services (as defined in title 37) and amounts received by them as commutation of quarters.

(b) Any in-kind benefit received by a member or former member of the uniformed services and his family resulting from his status or service as a member of the Armed Forces of the United States other than those received as a result of such status or service being considered that of an "officer" or "employee" of the Government.

SEC. 1226. STRATEGIC DEFENSE INITIATIVE DEPLOYMENT

(a) The Department of Defense shall provide Congress on or before March 15, 1987, a report detailing what Strategic Defense Initiative technologies can be developed or deployed within the next 5 to 10 years to defend against significant military threats and help accomplish critical military missions including—

(1) defending our troops and allies abroad against tactical ballistic missiles particularly new and highly accurate Soviet shorter range ballistic missiles armed with conventional, chemical, or nuclear warheads,

(2) defending against a limited but militarily effective Soviet attack aimed at disrupting our National Command Authority and other valuable military assets,

(3) providing sufficient warning and tracking information to defend or effectively evade possible Soviet attacks against our military satellites including those in high orbits,

(4) providing early warning and attack assessment information and the necessary survivable command, control and communication to defend against possible Soviet conventional or strategic attacks.

(b) This report shall also—

(1) identify any other significant near-term military missions that the application of Strategic Defense Initiative technologies might help accomplish;

(2) list what specific program elements of the Strategic Defense Initiative are pertinent to these applications;

(3) estimate initial operating capability dates for the systems needed to accomplish these missions;

(4) estimate the level of funding necessary for each program to reach these operating capability dates;

(5) estimate the survivability and cost effectiveness at the margin of these systems against current and projected Soviet threats.

(c) The Department of Defense will provide the Senate and House Armed Services Committees an interim report of its findings not later than December 31, 1986.

SEC. 1227. AUTHORIZATION OF APPROPRIATIONS FOR ENHANCED DRUG INTERDICTION ACTIVITIES

(a) In General.—Funds are hereby authorized to be appropriated to the Department of Defense for fiscal year 1987 for enhancement of drug interdiction assistance activities of the Department as follows:

(1) For procurement of aircraft for the Navy, $138,000,000 to be available for refurbishment and upgrading of four existing E2C Hawkeye surveillance aircraft for drug interdiction purposes, and the procurement of four replacement E2C Hawkeye aircraft and related spares for the Navy.

(2) For procurement for the Air Force, $49,500,000, to be available for procurement of 3 aerostat radar systems, 3 aerostat radar spares for such system, and 1 aerostat radar spare for an aerostat radar system authorized and funded for location in the Bahamas by section 5(b) of the Urgent Supplemental Appropriations Act, 1986 (Public Law 99-349; 100 Stat. 723).

(3) For operation and maintenance for the Air Force, $12,615,000 to be available for the transfer of 6 Air Force helicopters to Davis-Monthan Air Force Base for use in carrying out drug interdiction missions.

(4) For the Secretary of Defense, $12,000,000 for enhanced intelligence collection activities concerning illegal importation into the United States of drugs originating in South America.

(b) Loans to the United States Customs Service.—The Secretary of Defense shall make available the refurbished, upgraded, and modified aircraft, using funds appropriated pursuant to authorizations in subsection (a)(1) to the United States Customs Service in accordance with chapter 18 of title 10, United States Code, except that the four replacement E2C Hawkeye aircraft procured using funds appropriated pursuant to authorizations in subsection (a)(1) shall be delivered to the Navy.

(c) Responsibilities of the United States Customs Service.—(1) The United States Customs Service shall have the responsibility for operation and maintenance costs attributable to the aircraft refurbished, upgraded, or modified using funds appropriated pursuant to authorizations in subsection (a)(1) and the aerostat radar systems using funds appropriated pursuant to authorizations in subsection (a)(2), except that responsibility for the operation and maintenance costs by the United States Customs Service shall commence upon receipt of the modified, refurbished, and upgraded aircraft authorized in subsection (a)(1) and upon completion of the installation of the aerostat radar systems authorized in subsection (a)(2).

(2) Upon enactment of this Act, the Commissioner of Customs shall immediately commence consultations with the Commandant of the United States Coast Guard regarding coordination of the deployment of the aircraft authorized in subsection (a)(1) and on loan to the United States Customs Service under subsection (b) in order to maximize the detection, surveillance, and intelligence gathering capabilities of the drug surveillance aircraft on loan to the United States Customs Service. The Commissioner of Customs shall make quarterly reports to the Committees on Appropriations and the Committees on Armed Services of the Senate and the House of Representatives regarding drug interdiction plans developed under this paragraph.

(d) Amounts in Addition to Other Amounts.—The amounts authorized by subsection (a) are in addition to any other amounts authorized to be appropriated to the Department of Defense in this Act for fiscal year 1987.

SEC. 1228. REPORT ON THE ANTI-BALLISTIC MISSILE TREATY

The Secretary of Defense shall, not later than February 1, 1987, transmit to Congress a report concerning the impact of the less restrictive interpretation of the Anti-Ballistic Missile Treaty. Such report shall include, but not be limited to the following:

(1) an analysis of the ramifications of the less restrictive interpretation on the development under the Strategic Defense Initiative program, of strategic defenses, including comprehensive strategic defense systems, and more limited defenses designed to protect vital U.S. military and command and control assets, based on "other physical principles". This analysis should compare research and development programs pursued under both the restrictive and less restrictive interpretations of the ABM Treaty, including a comparative analysis of—

(A) the overall cost of the research and development programs

(B) the schedule of the research and development programs, and

(C) the level of confidence attained in the research and development programs with respect to supporting a full-scale engineering development decision in the early 1990's; and

(2) a list of options under the less restrictive interpretation of the ABM Treaty that meet one or more of the following objectives: (a) reduce the overall development cost, (b) to advance the schedule for a full-scale engineering development decisions, or (c) to increase the level of confidence in the results of the research by the original full-scale development date.

SEC. 1229. AUTHORIZATION OF APPROPRIATIONS FOR THE AIR FORCE

Notwithstanding any other provision of this Act, funds are hereby authorized to be appropriated for fiscal year 1987 for the Air Force as follows:

For missiles, $8,370,800,000.

For research, development, test, and evaluation, $14,908,873,000.

For expenses, not otherwise provided for, for operation and maintenance, $19,304,871,000.

Of the funds authorized to be appropriated under this section, not less than $556,300,000 shall be available for the purpose of payment to the National Aeronautics and Space Administration to reimburse such agency for launch services and related expenses of the space shuttle system as agreed to between such agencies.

SEC. 1230. SENSE OF THE CONGRESS ON NUCLEAR EXPLOSIVE TESTING.

(a) Findings.—The Congress finds that—

(1) the United States is committed in the Limited Test Ban Treaty of 1963 and in the Non-Proliferation Treaty of 1968 to seek to achieve the discontinuance of all test explosions of nuclear weapons for all time;

(2) a comprehensive test ban treaty would promote the security of the United States by constraining the United States-Soviet nuclear arms competition and by strengthening efforts to prevent the proliferation of nuclear weapons;

(3) the Threshold Test Ban Treaty was signed in 1974 and the Peaceful Nuclear Explosions Treaty was signed in 1976, and both have yet to be considered by the full Senate for its advice and consent to ratification;

(4) the entry into force of the Peaceful Nuclear Explosions Treaty and the Threshold Test Ban Treaty will ensure full implementation of significant new verification procedures and so make completion of a comprehensive test ban treaty more probable;

(5) a comprehensive test ban treaty must be adequately verifiable, and significant progress has been made in methods for detection of underground nuclear explosions by seismological and other means;

(6) at present, negotiations are not being pursued by the United States and the Soviet Union toward completion of a comprehensive test ban treaty; and

(7) the past five administrations have supported the achievement of a comprehensive test ban treaty.

(b) Sense of Congress.—It is the sense of Congress that at the earliest possible date, the President of the United States should—

(1) request advice and consent of the Senate to ratification (with a report containing any plans the President may have to negotiate supplemental verification procedures, of if the President believes it necessary, any understanding or reservation on the subject of verification which should be attached to the treaty) of the Threshold Test Ban and Peaceful Nuclear Explosions Treaties, signed in 1974 and 1976, respectively; and

(2) propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty.

In accordance with international law, the United States shall have no obligation to comply with any bilateral arms control agreement with the Soviet Union that the Soviet Union is violating.

SEC. 1231. NUCLEAR NON-PROLIFERATION INFORMATION

Section 602 of the Nuclear Non-Proliferation Act of 1978 (22 U.S.C. 3281) is amended—

(1) in subsection (c), by inserting "the Department of Defense," after "Department of State,"; and

(2) by adding at the end the following new subsection:

"(f) Upon request, the Secretary of Defense shall have access to all information regarding nuclear proliferation matters which the Secretary of State or the Secretary of Energy has or is entitled to have, including all communications, materials, documents, and records relating to such matters, including cables from United States diplomatic missions.".

SEC. 1232. MINUTEMAN EDUCATION PROGRAM

Notwithstanding any other provision of this Act, none of the funds appropriated pursuant to an authorization contained in this or any other Act may be obligated or expended by the Air Force to award a contract for the conduct of the graduate Minuteman Education Program unless the contract requires the contractor—

(1) to integrate class schedules under the program with fulltime missile crew duty schedules;

(2) to provide a resident faculty, at each Air Force installation where the program is conducted, each member of which has obtained the terminal educational degree provided in the field the faculty member teaches under the program; and

(3) to provide library resources, at each such installation, adequate to support the program at such installation, including a fulltime librarian who has obtained degree in library science.

SEC. 1233. TREATMENT OF COMMUNIST COUNTRIES

(a) the Foreign Missions Act is amended by adding at the end thereof the following new section:

"APPLICATION TO CERTAIN COMMUNIST COUNTRIES

"SEC. 214. (a) Notwithstanding any other provision of this title, the Secretary shall apply to each foreign mission in the United States of the German Democratic Republic, Hungary, Czechoslovakia, Poland, Bulgaria, Rumania, and Cuba the same terms limitations, restrictions, and conditions which are applied under this title to the foreign mission in the United States of the Soviet Union unless the Secretary determines and so reports to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives that national security and foreign policy circumstances require that this section be waived in specific circumstances with respect to such country.

"(b) The Secretary shall prepare and transmit to the Select Committee on Intelligence and the committee on foreign relations of the Senate and the Permanent Select Committee on Intelligence and the committee on Foreign Affairs, of the House of Representatives a report describing—

"(1) not later than thirty days after date of the enactment of this section, the plans of the Secretary for implementing this section; and

"(2) not later than six months thereafter, the actions taken pursuant to these plans.".

(b) Section 202(a)(4) of the Foreign Missions Act is amended—

(1) in the text above clause (A) by inserting", including Government activities involving international trade," after "governmental activities"; and

(2) in clause (A), by inserting "or any instrumentality thereof" after "foreign government".

SEC. 1234. LIMITATION ON NEW SPENDING AUTHORITY.

(a) IN GENERAL.—Any new spending authority (as defined in section 401(c)(2) of the Congressional Budget Act of 1974) provided by—

(1) any of the sections of this Act specified in subsection (b), or

(2) any amendment made by any such section.

shall be effective for any fiscal year only to such extent or in such amounts as are provided in appropriation Acts.

(b) SECTIONS SPECIFIED.—The sections to which subsection (a) applies are sections 611, 625, 631, 635, 636(f), 931, 1006, 1214, 2172, 2175, and 2183 of this Act, and those provisions contained in amendments numbered 2597, 2641, 2645, 2654, and 2655.

SEC. 1235. SUBMARINE OVERHAUL STUDY

The Secretary of the Navy shall conduct a detail study and investigation on the desirability and feasibility of applying production line techniques for the overhaul of Los Angeles class submarines. The Secretary shall submit the results of such study and investigation, together with such comments and recommendations as he determines appropriate, to Congress not later than May 1, 1987.

SEC. 1236. CORRECTIONAL FACILITIES AT FORT RILEY, KANSAS

The correctional facilities at Fort Riley, Kansas, may not be closed, transferred, or relocated unless—

(1) the Secretary of Defense has transmitted to Congress a written notice of the intent to close, transfer, or relocate such facilities, as the case may be; and

(2) the 180-day period beginning on the date on which Congress received such notice has expired.

SEC. 1237. PROHIBITION AGAINST USING FUNDS AUTHORIZED FOR THE ADVANCED TECHNOLOGY BOMBER AND THE ADVANCED CRUISE MISSILE PROGRAMS FOR ANY OTHER PURPOSE; AND LIMITATION OF THE B-1B BOMBER FLEET TO 100 AIRCRAFT.

(a) It is the sense of Congress that—

(1) the capabilities inherent in the technologies associated with the Advanced Technology Bomber and the Advanced Cruise Missile program are a critical national security asset for maintaining an adequate and credible deterrent posture;

(2) such technologies and programs should be developed as rapidly as feasible in order to produce and deploy advanced systems which will complicate the military planning of the Soviet Union and as a consequence enhance the deterrant posture of the United States;

(3) such technologies and programs should be funded at the levels authorized in this Act; and

(4) all the funds appropriated for such programs should be fully used for such programs.

(b) None of the funds appropriated pursuant to an authorization of appropriations in this Act to carry out the Advanced Technology Bomber program or the Advanced Cruise Missile program may be used for any other purpose.

(c) None of the funds appropriated pursuant to an authorization of appropriations in this or any other Act may be used for research, development, demonstration, procurement or any other purpose related to B-1B bombers beyond the 100 such bombers previously authorized.

SEC. 1238. ARMY NATIONAL GUARD REPORTING

The Secretary of Defense shall require the Chief of the National Guard Bureau to develop and implement procedures to monitor the backlog of maintenance and repair projects of Army National Guard armories.

## DIVISION B—MILITARY CONSTRUCTION

SEC. 2000. SHORT TITLE

This division may be cited as the "Military Construction Authorization Act, 1987".

## TITLE I—ARMY

SEC. 2101. AUTHORIZED ARMY CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES ARMY FORCES COMMAND

Camp Dawson, West Virginia, $8,700,000.
Fort Bragg, North Carolina, $11,700,000.
Fort Campbell, Kentucky, $4,500,000.
Fort Carson, Colorado, $11,300,000.
Fort Devens, Massachusetts, $20,800,000.
Fort Drum, New York, $615,000,000.
Fort Hood, Texas, $10,600,000.
Fort Lewis, Washington, $20,500,000.
Fort McPherson, Georgia, $2,900,000.
Fort Ord, California, $6,550,000.
Fort Polk, Louisiana, $27,000,000.
Fort Richardson, Alaska, $11,200,000.
Fort Riley, Kansas, $8,250,000.
Fort Sheridan, Illinois, $2,050,000.
Fort Wainwright, Alaska, $96,700,000.
Presidio of San Francisco, California, $5,100,000.

UNITED STATES ARMY WESTERN COMMAND

Hawaii Various, $12,000,000.
Wheeler Army Air Field, Hawaii, $2,900,000.

UNITED STATES ARMY TRAINING AND DOCTRINE COMMAND

Fort Eustis, Virginia, $2,050,000.
Fort Jackson, South Carolina, $9,100,000.
Fort Lee, Virginia, $17,600,000.
Fort Leonard Wood, Missouri, $27,200,000.
Fort Rucker, Alabama, $44,500,000.

71-059 O-87-32 (Pt. 14)

MILITARY DISTRICT OF WASHINGTON

Fort Myer, Virginia, $3,800,000.

UNITED STATES ARMY MATERIEL COMMAND

Aberdeen Proving Ground, Maryland, $19,000,000.
Corpus Christi Army Depot, Texas, $9,350,000.
Dugway Proving Ground, Utah, $9,700,000.
Fort Monmouth, New Jersey, $4,900,000.
Navajo Depot Activity, Arizona, $3,900,000.
Redstone Arsenal, Alabama, $19,500,000.
Sierra Army Depot, California, $2,450,000.

UNITED STATES ARMY INFORMATION SYSTEMS COMMAND

Fort Huachuca, Arizona, $17,200,000.

UNITED STATES MILITARY ACADEMY

United States Military Academy, New York, $28,500,000.

ASSISTANT CHIEF OF ENGINEERS

Classified, United States, $7,400,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

EIGHTH UNITED STATES ARMY

Camp Casey, Korea, $22,500,000.
Camp Castle, Korea, $2,850,000.
Camp Greaves, Korea, $2,350,000.
Camp Hovey, Korea, $9,000,000.
Camp Howze, Korea, $4,050,000.
Camp Humphreys, Korea, $15,300,000.
Camp Laguardia, Korea, $2,650,000.
Camp Long, Korea, $5,600,000.
Camp Red Cloud, Korea, $4,550,000.
Camp Stanley, Korea, $4,700,000.
H220, Korea, $2,750,000.
Pusan, Korea, $9,700,000.
Second Infantry, Korea, $5,150,000.
Taegu, Korea, $4,900,000.
Yongsan, Korea, $5,000,000.

UNITED STATES ARMY STRATEGIC DEFENSE COMMAND

Kwajalein, $20,600,000.

UNITED STATES ARMY FORCES COMMAND, OVERSEAS

Classified, $4,000,000.
Various, $4,900,000.

UNITED STATES ARMY EUROPE AND SEVENTH ARMY

Aschaffenburg, Germany, $7,000,000.
Baumholder, Germany, $28,850,000.
Bitburg, Germany, $16,350,000.
Einsiedlerhof, Germany, $4,750,000.
Frankfurt, Germany, $3,500,000.
Giessen, Germany, $5,600,000.
Hanau, Germany, $17,200,000.
Heilbronn, Germany, $2,100,000.
Hohenfels, Germany, $8,800,000.
Karlsruhe, Germany, $10,000,000.
Mannheim, Germany, $2,450,000.
Neu Ulm, Germany, $26,050,000.
Nuernberg, Germany, $5,500,000.
Rheinberg, Germany, $33,600,000.
Schweinfurt, Germany, $22,100,000.
Various, Germany, $17,500,000.
Vilseck, Germany, $50,300,000.
Wildflecken, Germany, $3,800,000.

UNITED STATES ARMY INTELLIGENCE AND SECURITY COMMAND, OVERSEAS

Location 276, $3,700,000.
Location 280, $2,100,000.

SEC. 2102. FAMILY HOUSING

The Secretary of the Army may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Fort Wainwright, Alaska, one hundred and fifty units, $33,000,000.
Fort Irwin, California, thirty-eight manufactured home spaces, $730,000.
Fort Ord, California, three hundred and eighty-five units, $34,000,000.
Crailsheim, Germany, forty units, $4,100,000.
Darmstadt, Germany, forty units, $3,150,000.
Erlangen, Germany, one hundred and six units, $9,400,000.
Herzo Base, Germany, thirty-four units, $3,300,000.
Schweinfurt, Germany, ninety units, $8,400,000.
Vilseck, Germany, two hundred and twenty-four units, $21,000,000.
Wildflecken, Germany, twenty-four units, $2,050,000.
Various Locations, Germany, one hundred and twenty units, funded under section 2103.
Fort Polk, Louisiana, five hundred and eighty-three units, $37,000,000.
Kwajalein, Marshall Island, one hundred and thirty-six units, $23,000,000.
Aberdeen Proving Ground, Maryland, one hundred and forty units and seventy manufactured home spaces, $10,800,000.
Fort Drum, New York, one thousand and two hundred units, $91,000,000.
Seneca Army Depot, New York, thirty units, $2,900,000.

SEC. 2103. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Army may make expenditures—

(1) to improve existing military family housing units in an amount not to exceed $79,500,000; and

(2) for energy conservation projects in an amount not to exceed $15,671,000 from funds which remain available for obligation from savings from prior years.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Army may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Aschaffenburg, Germany, one hundred and forty-four units, $5,120,000.
Aschaffenburg, Germany, forty-eight units, $2,800,000.
Bremerhaven, Germany, twenty-four units, $1,400,000.
Karlsruhe, Germany, twenty-four units, $1,400,000.
Kitzingen, Germany, one hundred and two units, $5,950,000.
Mainz, Germany, one unit, $69,000.
Worms, Germany, six units, $350,000.
Fort Benjamin Harrison, Indiana, one hundred and sixty-six units, $6,000,000.
Pusan, Korea, forty-eight units, $2,237,000.
Yongsan, Korea, one unit, $70,000.
Fort Indiantown Gap, Pennsylvania, six units, $166,000.
Fort Sam Houston, Texas, twenty-three units, $930,000.
Fort Myer, Virginia, three units, $140,000.

(c) WAIVER OF SPACE LIMITATION FOR GENERAL OFFICER'S QUARTERS AT YONGSAN, KOREA.—(1) Notwithstanding the maximum space limitations under section 2826(a) of title 10, United States Code, the Secretary of the Army may carry out an improvement project to increase the net floor area of the housing unit for one general officer at the United States Army Garrison, Yongsan, Korea, to not more than 3,574 square feet.

(2) For purposes of this subsection, the term "net floor area" has the same meaning given that term by section 2626(f) of title 10, United States Code.

SEC. 2104. FORT DRUM, NEW YORK

The Secretary of the Army may enter into one or more contracts, in advance of appropriations therefor, for the military construction projects authorized by section 2101 to be accomplished at Fort Drum, New York, if such contracts limit the Government's liability to the amount of funds available for obligation at the time each contract is entered into. Such construction may be accomplished by using one-step turn-key selection procedures, or other competitive contracting methods.

SEC. 2105. COMMUNITY PLANNING ASSISTANCE

The Secretary of the Army may not use more than $400,000 from funds appropriated to the Department of the Army for fiscal year 1987 for planning and design purposes to provide planning assistance to local communities located near newly established Light Infantry Division Posts at Fort Drum, New York, and Fort Wainwright, Alaska, if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate.

SEC. 2106. CLEANUP OF CONTAMINATED WATER SUPPLIES ADJACENT TO ROCKY MOUNTAIN ARSENAL

(a) TRANSFER OF FUNDS TO THE ENVIRONMENTAL PROTECTION AGENCY.—(1) The Secretary of the Army (hereinafter in this section) referred to as the "Secretary") shall transfer funds available to the Department of Defense for military construction for fiscal year 1987 to the Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the "Administrator") such sums, not to exceed $6,000,000, as may be necessary to enable the Administrator to continue with the selection, design, and implementation of response measures (consistent with the National Contingency Plan) with respect to the contamination of drinking water supplies in south Adams County, Colorado, to the west of the Rocky Mountain Arsenal and south of 80th Avenue. The Secretary may transfer funds under this section only if the Administrator has certified to the Secretary that the Army is a responsible party for the contamination in the area referred to in the preceding sentence.

(b) INTERAGENCY AGREEMENT.—(1) The transfer of funds under this section shall be carried out in accordance with the agreement between Environmental Protection Agency and the Department of the Army entered into on March 20, 1986. Funds transferred under this section shall be in addition to funds previously transferred to the Environmental Protection Agency for such purposes.

(2) The Secretary and the Administrator may enter into an agreement supplemental to the agreement referred to in paragraph (1) if the supplemental agreement can be concluded within seven days after the date of the enactment of the Act. A supplemental agreement entered into under this paragraph may not require the Secretary to transfer funds for the purpose of carrying out the response action described in subsec-

tion (a) after the date on which adequate funds become available to the Environmental Protection Agency for such purposes pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.).

(3) A supplemental agreement entered into under paragraph (2) shall contain provisions regarding the repayment of amounts transferred pursuant to subsection (a). If such provisions are not agreed to before the expiration of the seven-day period referred to in paragraph (1), repayment shall be made in accordance with the provisions of the agreement between the Environmental Protection Agency and Department of the Army entered into on March 20, 1986.

(c) CONTAMINATION NORTH OF 80TH AVENUE.—The Secretary shall, promptly after enactment of this Act, continue response action with respect to hazardous substances, pollutants, and contaminants affecting water supplies in south Adams County, Colorado, to the west and north of the Rocky Mountain Arsenal and north of 80th Avenue. The cost of such response action shall be paid for out of funds appropriated to the Department of Defense for purposes of the Environmental Restoration Program of the Department of the Army. Such response action shall be carried out in accordance with the recommendations of the Administrator and in consultation with the Colorado Department of Health.

(d) LIABILITY OF ARMY NOT AFFECTED.—Nothing in this subsection shall affect the liability of the Department of the Army or of any other potentially responsible person under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 or under the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.).

(e) LIABILITY OF OTHER PARTIES UNDER SUPERFUND.—Nothing in this section shall be construed to affect the rights of the Secretary to obtain reimbursement under section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 from any potentially responsible party of any amount expended by the Secretary for response action referred to in subsection (a).

SEC. 2107. AUTHORIZATION OF APPROPRIATIONS, ARMY; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Army in the total amount of $2,949,746,000 as follows:

(1) For military construction projects inside the United States authorized by section 2101(a), $691,500,000.

(2) For military construction projects outside the United States authorized by section 2101(b), $401,800,000.

(3) For military construction projects inside the United States authorized by section 101 of the Military Construction Authorization Act, 1986, $51,000,000.

(4) For military construction projects outside the United States authorized by section 101 of the Military Construction Authorization Act, 1986, $17,000,000.

(5) For minor construction projects under section 2805 of title 10, United States Code, $99,070,000.

(6) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $130,580,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $387,330,000, of which $24,000,000 is available for planning and design;

(B) for support of military family housing (including the functions described in section 2833 of title 10, United States Code), $1,265,266,000, of which not more than $31,246,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $142,639,000 may be obligated or expended for the leasing of military family housing units in foreign countries, and

(C) for the Homeowners Assistance Program as authorized by section 2832 of title 10, United States Code, $5,500,000.

(8)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)–(6) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such paragraphs is $1,326,910,000.

(B) Notwithstanding the amounts authorized to be appropriated by subparagraphs (A) and (B) of paragraph (7) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such subparagraphs is $1,618,396,000.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS FOR ENERGY CONSERVATION PROJECTS.—Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects for existing military family housing units of the Department of the Army that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects for military family housing of the Army in an amount not to exceed $15,671,000.

(c) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE I.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2101 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsections (a) and (b).

SEC. 2108. EXTENSION OF CERTAIN AUTHORIZATIONS

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1984 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1984 (Public Law 98-115; 97 Stat. 780), authorizations for the following projects authorized in section 101 of that Act, as extended by section 606(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 983) shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied personnel housing in the amount of $1,400,000 at Argyroupolis, Greece.

(2) Operations building in the amount of $370,000 at Argyroupolis, Greece.

(3) Multipurpose recreation facility in the amount of $480,000 at Argyroupolis, Greece.

(4) Unaccompanied officer housing in the amount of $600,000 at Perivolaki, Greece.

(5) Operations building in the amount of $410,000 at Perivolaki, Greece.

(6) Multipurpose recreation facility in the amount of $620,000 at Perivolaki, Greece.

(7) Physical fitness training center in the amount of $1,000,000 at Elefsis, Greece.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), authorizations for the following projects authorized in sections 101 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Barracks with dining facility in the amount of $11,400,000 at Presidio of San Francisco, California.

(2) Child care center in the amount of $1,980,000 at Presidio of San Francisco, California.

(3) Barracks in the amount of $6,600,000 at Presidio of San Francisco, California.

(4) Multipurpose recreation facility in the amount of $1,150,000 at Koropi, Greece.

(5) Multipurpose recreation facility in the amount of $960,000 at Katsimidi, Greece.

(6) Barracks modernization in the amount of $660,000 at Argyroupolis, Greece.

(7) Barracks modernization in the amount of $660,000 at Perivolaki, Greece.

(8) Barracks with dining facility in the amount of $2,350,00 at Elefsis, Greece.

(9) Contingency Facility in the amount of $4,300,000 at Palmerola, Honduras.

## TITLE II—NAVY

SEC. 2111. AUTHORIZED NAVY CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES MARINE CORPS

Headquarters Marine Corps, Arlington, Virginia, $3,020,000.

Marine Corps Base, Camp Lejeune, North Carolina, $33,220,000.

Marine Corps Air Station, Camp Pendleton, California, $8,440,000.

Marine Corps Base, Camp Pendleton, California, $26,730,000.

Marine Corps Air Station, Cherry Point, North Carolina, $12,660,000.

Marine Corps Air Station, El Toro, California, $26,280,000.

Marine Corps Air Station, Kaneohe Bay, Hawaii, $31,580,000.

Marine Corps Air Station, New River, North Carolina, $20,020,000.

Marine Corps Recruit Depot, Parris Island, South Carolina, $7,250,000.

Marine Corps Air Station, Tustin, California, $13,250,000.

Marine Corps Air-Ground Combat Center, Twentynine Palms, California, $36,350,000.

Marine Corps Air Station, Yuma, Arizona, $5,600,000.

CHIEF OF NAVAL OPERATIONS

Naval Academy, Annapolis, Maryland, $2,260,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Air Station, Brunswick, Maine, $2,160,000.

Naval Air Station, Cecil Field, Florida, $3,730,000.

Naval Air Station, Jacksonville, Florida, $4,810,000.

Naval Amphibious Base, Little Creek, Virginia, $5,890,000.

Naval Supply Center Detachment, Mayport, Florida, $3,730,000.

Naval Submarine Base, New London, Connecticut, $3,160,000.
Naval Station, New York, New York, $56,200,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Naval Air Station, Adak, Alaska, $24,400,000.
Naval Facility, Adak, Alaska, $5,700,000.
Naval Air Station, Alameda, California, $17,675,000.
Naval Submarine Base, Bangor, Washington, $10,500,000.
Naval Amphibious Base, Coronado, California, $17,450,000.
Naval Station, Everett, Washington, $85,400,000.
Naval Air Station, Fallon, Nevada, $31,200,000.
Naval Station, Long Beach, California, $7,050,000.
Naval Magazine, Lualualei, Hawaii, $2,850,000.
Naval Air Station, Miramar, California, $21,550,000.
Naval Station, Pearl Harbor, Hawaii, $3,240,000.
Naval Station, San Diego, California, $18,200,000.
Naval Submarine Base, San Diego, California, $9,100,000.
Naval Station, Seattle, Washington, $2,950,000.
Naval Air Station, Whidbey Island, Washington, $3,510,000.

CHIEF OF NAVAL EDUCATION AND TRAINING

Naval Guided Missile School, Dam Neck, Virginia, $3,140,000.
Naval Training Center, Great Lakes, Illinois, $5,300,000.
Naval Air Station, Kingsville, Texas, $3,140,000.
Combat Systems Technical Schools Command, Mare Island, California, $5,200,000.
Naval Air Station, Memphis, Tennessee, $15,550,000.
Naval Air Station, Meridian, Mississippi, $3,170,000.
Naval Submarine School, New London, Connecticut, $9,540,000.
Naval Education and Training Center, Newport, Rhode Island, $11,700,000.
Fleet Training Center, Norfolk, Virginia, $5,400,000.
Naval Training Center, Orlando, Florida, $8,440,000.
Naval Diving and Salvage Training Center, Panama City, Florida, $2,850,000.
Naval Technical Training Center, Pensacola, Florida, $4,610,000.
Fleet Intelligence Training Center, Pacific, San Diego, California, $4,220,000.
Fleet Training Center, San Diego, California, $3,930,000.
Naval Training Center, San Diego, California, $18,170,000.
Naval Air Station, Whiting Field, Florida, $2,120,000.

NAVAL TELECOMMUNICATIONS COMMAND

Naval Communications Station, Stockton, California, $2,750,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Adak, Alaska, $13,400,000.

NAVAL SUPPLY SYSTEMS COMMAND

Naval Supply Center, Norfolk, Virginia, $3,140,000.

NAVAL AIR SYSTEMS COMMAND

Pacific Missile Range Facility, Barking Sands, Kauai, Hawaii, $8,260,000.
Naval Air Rework Facility, Cherry Point, North Carolina, $37,200,000.
Naval Air Test Center, Patuxent River, Maryland, $19,780,000.
Naval Air Rework Facility, Pensacola, Florida, $8,050,000.

NAVAL FACILITIES ENGINEERING COMMAND

Naval Construction Battalion Center, Gulfport, Mississippi, $14,200,000.
Navy Public Works Center, Norfolk, Virginia, $8,050,000.
Navy Public Works Center, Pearl Harbor, Hawaii, $24,900,000.
Naval Construction Battalion Center, Port Hueneme, California, $3,040,000.

NAVAL SEA SYSTEMS COMMAND

Charleston Naval Shipyard, Charleston, South Carolina, $10,810,000.
Naval Weapons Station, Charleston, South Carolina, $6,130,000.
Naval Weapons Support Center, Crane, Indiana, $6,880,000.
Naval Weapons Station, Earle, New Jersey, $52,500,000.
Long Beach Naval Shipyard, Long Beach, California, $2,450,000.
Norfolk Naval Shipyard, Portsmouth, Virginia, $5,900,000.
Supervisor of Shipbuilding, Pascagoula, Mississippi, $4,120,000.
Portsmouth Naval Shipyard, Kittery, Maine, $22,190,000.
Naval Weapons Station, Seal Beach, California, $6,100,000.
Mare Island Naval Shipyard, Vallejo, California, $5,100,000.
Naval Weapons Station, Yorktown, Virginia, $4,220,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Weapons Center, China Lake, California, $12,750,000.
Naval Surface Weapons Center, Dahlgren, Virginia, $15,960,000.
Naval Research Laboratory, Washington, District of Columbia, $8,730,000.

STRATEGIC SYSTEMS PROJECT OFFICE

Naval Submarine Base, Kings Bay, Georgia, $122,390,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MARINE CORPS

Marine Corps Air Station, Futenma, Okinawa, Japan, $3,440,000.
Marine Corps Base, Camp Smedley D. Butler, Okinawa, Japan, $8,950,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Station, Guantanamo Bay, Cuba, $2,600,000.
Naval Air Station, Keflavik, Iceland, $13,490,000.
Atlantic Fleet Weapons Training Facility, Roosevelt Roads, Puerto Rico, $4,220,000.
Naval Station, Roosevelt Roads, Puerto Rico, $6,290,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Naval Air Facility, Atsugi, Japan, $5,300,000.
Administrative Support Unit, Bahrain Island, $2,550,000.
Naval Air Station, Cubi Point, Republic of the Philippines, $5,300,000.
Mobile Construction Battalion, Camp Covington, Guam, $15,500,000.

COMMANDER IN CHIEF, UNITED STATES NAVAL FORCES EUROPE

Naval Support Activity, Naples, Italy, $5,500,000.
Naval Station, Rota, Spain, $4,600,000.
Classified Locations, $15,700,000.

NAVAL TELECOMMUNICATIONS COMMAND

Naval Communications Area Master Station, Mediterranean, Naples, Italy, $8,250,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Edzell, Scotland, $2,250,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Underwater Systems Center, Andros Island, Bahamas, $3,730,000.

SEC. 2112. FAMILY HOUSING

The Secretary of the Navy may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:
Naval Station, Long Beach, California, three hundred units, $22,900,000.
Naval Air Station, Moffett Field, California, one hundred and twenty-six units, $11,600,000.
Navy Public Works Center, San Francisco, California, three hundred units, $26,450,000.
Marine Corps Air-Ground Combat Center, Twentynine Palms, California, three hundred and ninety-two units and seventy-five mobile home spaces, $35,300,000.
Marine Corps Base, Camp Pendleton, California, one hundred mobile home spaces, $1,800,000.
Marine Corps Base, Camp Lejeune, North Carolina, seventy-five mobile home spaces, $930,000.
Marine Corps Development and Education Command, Quantico, Virginia, fifty mobile home spaces, $790,000.
Naval Station, Keflavik, Iceland, two hundred and fifty units, $48,642,000.

SEC. 2113. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Navy may make expenditures to improve existing military family housing units in an amount not to exceed $26,580,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under 2825(b) of title 10, United States Code, the Secretary of the Navy may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:
Naval Station, Mare Island, Vallejo, California, one hundred units, $5,200,000.
Marine Corps Logistics Base, Albany, Georgia, one unit, $33,300.
Navy Public Works Center, Great Lakes, Illinois, two hundred and ten units, $9,400,000.
Naval Air Station, Brunswick, Maine, forty-four units, $1,274,600.
Naval Construction Battalion Center, Gulfport, Mississippi, one unit, $28,700.
Naval Air Station, Fallon, Nevada, forty-four units, $1,868,500.
Naval Station, New York, New York, one hundred and twenty units, $9,600,000.
Naval Air Development Center, Warminster, Pennsylvania, six units, $256,800.
Naval Education and Training Center, Newport, Rhode Island, one hundred and eighty-six units, $10,200,000.
Navy Public Works Center, Guam, one unit, $64,700.
Navy Public Works Center, Guam, one hundred and nine units, $10,360,000.

Naval Air Station, Agana, Guam, one hundred units, $9,517,000.

Naval Air Station, Agana, Guam, one unit, $58,600.

SEC. 2114. ACQUISITION OF EXISTING HOUSING UNITS ON GUAM

The Secretary of the Navy may acquire, without reimbursement, eighty-nine existing family housing units constructed and used by the Federal Aviation Agency on land in Finegayan, Guam, held by the Navy under the provisions of section 9 of the International Aviation Facilities Act (49 U.S.C. 1158).

SEC. 2115. AUTHORIZATION OF APPROPRIATIONS, NAVY; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Navy in the total amount of $2,161,343,000 as follows:

(1) For military construction projects inside the United States authorized by section 2111(a), $1,082,595,000.

(2) For military construction projects outside the United States authorized by section 2111(b), $107,670,000.

(3) For military construction projects at Kings Bay, Georgia, authorized by section 201(a) of the Military Construction Authorization Act, 1986, $45,450,000.

(4) For minor construction projects under section 2805 of title 10, United States Code, $114,375,000.

(5) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $143,770,000.

(6) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $5,400,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $176,992,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $560,591,000 of which not more than $5,214,100 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $17,244,900 may be obligated or expended for the leasing of military family housing units in foreign countries.

(8)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)-(6) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such paragraphs is $1,437,160,000.

(B) Notwithstanding the amount authorized to be appropriated by subparagraphs (A) and (B) of paragraph (7) of this subsection, the total amount authorized by this subsection for the purposes described by such subparagraphs is $724,183,000.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE II.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2111 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

SEC. 2116. EXTENSION OF AUTHORIZATION FOR CERTAIN FISCAL YEAR 1984 PROJECTS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), authorizations for the following projects authorized in section 201 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied enlisted personnel housing in the amount of $10,740,000 at the Marine Corps Air Station, Yuma, Arizona.

(2) Antenna support facility in the amount of $320,000 at the Naval Security Group Activity, Adak, Alaska.

(3) Data processing center in the amount of $6,160,000 at the Naval Supply Center, Bremerton, Washington.

(4) Unaccompanied enlisted personnel housing in the amount of $12,130,000 at the Naval Air Station, Whidbey Island, Washington.

(5) Unaccompanied enlisted personnel housing in the amount of $6,600,000 at the Naval Station, Mare Island, Vallejo, California.

(6) Mountain Warfare Training Facility (Bridgeport) in the amount of $1,480,000 for the Marine Corps Base, Camp Pendleton, California.

(7) Medical/Dental Clinic (Bridgeport) in the amount of $1,410,000 for the Naval Hospital, Camp Pendleton, California.

(8) Hospital Modernization in the amount of $29,140,000 at the Naval Hospital, Oakland, California.

(9) Facility Energy Improvements in the amount of $5,770,000 at the Navy Public Works Center, San Francisco, California.

## TITLE III—AIR FORCE

SEC. 2121. AUTHORIZED AIR FORCE CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amount shown for each of the following installations and locations inside the United States:

AIR FORCE LOGISTICS COMMAND

Hill Air Force Base, Utah, $4,000,000.

Kelly Air Force Base, Texas, $39,000,000.

McClellan Air Force Base, California, $19,500,000.

Newark Air Force Station, Ohio, $3,000,000.

Robins Air Force Base, Georgia, $12,955,000.

Tinker Air Force Base, Oklahoma, $17,300,000.

Wright-Patterson Air Force Base, Ohio, $16,200,000.

AIR FORCE SYSTEM COMMAND

Arnold Air Force Station, Tennessee, $2,800,000.

Edwards Air Force Base, California, $15,000,000.

Hanscom Air Force Base, Massachusetts, $2,700,000.

Patrick Air Force Base, Florida, $2,600,000.

AIR TRAINING COMMAND

Chanute Air Force Base, Illinois, $11,300,000.

Goodfellow Air Force Base, Texas, $10,000,000.

Lackland Air Force Base, Texas, $21,500,000.

Laughlin Air Force Base, Texas, $3,700,000.

Williams Air Force Base, Arizona, $4,900,000.

AIR UNIVERSITY

Gunter Air Force Station, Alabama, $2,900,000.

ALASKAN AIR COMMAND

Eielson Air Force Base, Alaska, $11,600,000.

Galena Airport, Alaska, $11,600,000.

King Salmon Airport, Alaska, $4,050,000.

Shemya Air Force Base, Alaska, $22,300,000.

MILITARY AIRLIFT COMMAND

Andrews Air Force Base, Maryland, $25,000,000.

Charleston Air Force Base, South Carolina, $5,000,000.

Kirtland Air Force Base, New Mexico, $8,700,000.

McChord Air Force Base, Washington, $6,400,000.

McGuire Air Force Base, New Jersey, $7,000,000.

Pope Air Force Base, North Carolina, $2,300,000.

Travis Air Force Base, California, $4,700,000.

SPACE COMMAND

Cape Cod Air Force Station, Massachusetts, $4,300,000.

Falcon Air Force Station, Colorado, $6,400,000.

Peterson Air Force Base, Colorado, $3,050,000.

SPECIAL PROJECT

Various Locations, $37,056,000.

STRATEGIC AIR COMMAND

Beale Air Force Base, California, $7,516,000.

Ellsworth Air Force Base, South Dakota, $7,650,000.

Fairchild Air Force Base, Washington, $2,900,000.

F.E. Warren Air Force Base, Wyoming, $6,000,000.

Grand Forks Air Force Base, North Dakota, $17,040,000.

Grissom Air Force Base, Indiana, $3,000,000.

La Junta Radar Bomb Scoring Site, Colorado, $2,150,000.

Loring Air Force Base, Maine, $12,200,000.

Malmstrom Air Force Base, Montana, $30,770,000.

March Air Force Base, California, $13,600,000.

McConnell Air Force Base, Kansas, $32,760,000.

Minot Air Force Base, North Dakota, $26,660,000.

Offutt Air Force Base, Nebraska, $21,770,000.

Vandenburg Air Force Base, California, $2,700,000.

Whiteman Air Force Base, Missouri, $9,500,000.

Wurtsmith Air Force Base, Michigan, $9,550,000.

TACTICAL AIR COMMAND

Base 39, Classified Location, $2,300,000.

Bergstrom Air Force Base, Texas, $3,390,000.

Cannon Air Force Base, New Mexico, $7,250,000.

Davis-Monthan Air Force Base, Arizona, $11,100,000.

George Air Force Base, California, $7,650,000.

Holloman Air Force Base, New Mexico, $14,160,000.

Homestead Air Force Base, Florida, $3,400,000.

Langley Air Force Base, Virginia, $8,000,000.
Luke Air Force Base, Arizona, $19,480,000.
Mountain Home Air Force Base, Idaho, $12,700,000.
Myrtle Beach Air Force Base, South Carolina, $3,000,000.
Nellis Air Force Base, Nevada, $16,100,000.
Shaw Air Force Base, South Carolina, $3,700,000.
Tyndall Air Force Base, Florida, $13,950,000.
WESTCONUS, $10,300,000.

UNITED STATES AIR FORCE ACADEMY

Air Force Academy, Colorado, $4,000,000.

VARIOUS LOCATIONS

Various Energy Conservation Investment Projects, $9,470,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MILITARY AIRLIFT COMMAND

Lajes Field, Portugal, $15,750,000.

PACIFIC AIR FORCES

Kadena Air Base, Japan, $7,100,000.
Misawa Air Base, Japan, $10,300,000.
Kimhae Air Base, Korea, $3,050,000.
Kunsan Air Base, Korea, $4,650,000.
Osan Air Base, Korea, $14,350,000.
Suwon Air Base, Korea, $3,250,000.
Taegu Air Base, Korea, $2,350,000.
Clark Air Base, Republic of the Philippines, $55,350,000.
Saipan, $5,200,000.

SPACE COMMAND

Sondrestrom Air Base, Greenland, $5,860,000.
Thule Air Base, Greenland, $8,250,000.
Woomera Air Station, Australia, $2,300,000.

TACTICAL AIR COMMAND

Masirah, Oman, $3,500,000.
Thumrait, Oman, $3,400,000.

UNITED STATES AIR FORCES IN EUROPE

Hahn Air Base, Germany, $6,300,000.
Ramstein Air Base, Germany, $31,500,000.
Sembach Air Base, Germany, $7,100,000.
Spangdahlem Air Base, Germany, $6,050,000.
Zweibrucken Air Base, Germany, $2,750,000.
Aviano Air Base, Italy, $4,200,000.
San Vito Air Station, Italy, $3,300,000.
Woensdrecht Air Base, The Netherlands, $22,830,000.
Ankara Air Station, Turkey, $3,050,000.
Incirlik Air Base, Turkey, $9,400,000.
Pirinclik Air Station, Turkey, $3,000,000.
RAF Alconbury, United Kingdom, $13,350,000.
RAF Bentwaters, United Kingdom, $3,700,000.
RAF Fairford, United Kingdom, $2,750,000.
RAF Mildenhall, United Kingdom, $4,700,000.
RAF Upper Heyford, United Kingdom, $12,800,000.
Morocco, various locations, $25,400,000.
Base 30, Classified Location, $2,950,000.
Overseas Classified Location, $11,500,000.
Various Locations, Europe, $3,953,000.

SEC. 2122. FAMILY HOUSING

(a) IN GENERAL.—The Secretary of the Air Force may construct or acquire family housing units (including land acquisition) at the following installations, in the number of units shown, and in the amount shown, for each installation:

Bitburg Air Base, Germany, three hundred and thirty-two units, $26,415,000.
Hahn Air Base, Germany, one hundred and fifty units, $11,300,000.
Osan Air Base, Korea, one unit, $160,000.
La Junta Air Force Station, Colorado, forty units, $4,000,000.
Beale Air Force Base, California, family housing maintenance shop, $180,000.
Davis-Monthan Air Force Base, Arizona, family housing management office, $300,000.
McGuire Air Force Base, New Jersey, family housing management office, $325,000.
Pope Air Force Base, North Carolina, family housing management office, $300,000.
Edwards Air Force Base, California, twenty-four mobile home spaces, $376,000.

(b) OSAN AIR BASE, KOREA.—Notwithstanding the space limitations of section 2826 of title 10, United States Code, the Secretary of the Air Force may construct one family housing unit at Osan Air Base, Korea, with a maximum net floor area of 3,000 square feet at a cost not to exceed $160,000.

SEC. 2123. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Air Force may make expenditures to improve existing military family housing units, including energy conservation projects, in an amount not to exceed $52,644,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Air Force may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Eielson Air Force Base, Alaska, eighty-eight units, $6,186,000.
Elmendorf Air Force Base, Alaska, twelve units, $760,000.
Air Force Academy, Colorado, one unit, $120,000.
Peterson Air Force Base, Colorado, four units, $149,000.
MacDill Air Force Base, Florida, one hundred and fifty-eight units, $4,430,000; seven units, $553,000; seventy-one units, $2,103,000.
Scott Air Force Base, Illinois, one hundred and twelve units, $4,690,000.
Barksdale Air Force Base, Louisiana, one hundred and fourteen units, $5,342,000.
Bangor Air Force Station, Maine, one unit, $30,000.
Andrews Air Force Base, Maryland, seven units, $518,000.
Pease Air Force Base, New Hampshire, two hundred units, $7,177,000.
Plattsburgh Air Force Base, New York, twenty-nine units, $2,272,000.
Shaw Air Force Base, South Carolina, one hundred and twenty-five units, $4,385,000; seventy-four units, $2,598,000.
Carswell Air Force Base, Texas, two hundred and three units, $7,478,000.
Lackland Air Force Base, Texas, sixty-four units, $1,920,000.
Randolph Air Force Base, Texas, five units, $402,000.
Reese Air Force Base, Texas, one hundred units, $2,895,000.
Langley Air Force Base, Virginia, five units, $441,000.
Andersen Air Force Base, Guam, two hundred units, $14,517,000.
Kadena Air Base, Japan, one hundred units, $5,054,000; three units, $240,000.

SEC. 2124. AUTHORIZATION OF APPROPRIATIONS, AIR FORCE; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Air Force in the total amount of $2,149,749,000 as follows:

(1) For military construction projects inside the United States authorized by section 2121(a), $695,057,000.

(2) For military construction projects outside the United States authorized by section 2121(b), $321,243,000.

(3) For minor construction projects under section 2805 of title 10, United States Code, $210,280,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $117,260,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $32,700,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $103,000,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $751,409,000, of which not more than $5,600,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $74,176,000 may be obligated or expended for the leasing of military family housing units in the foreign countries.

(7)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)–(5) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such paragraphs is $1,313,280,000.

(B) Notwithstanding the amounts authorized to be appropriated by subparagraphs (A) and (B) of paragraph (6) of this subsection, the total amount authorized to be appropriated for the purposes described by such subparagraphs is $835,409,000.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS FOR ENERGY CONSERVATION PROJECTS.—Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects of the Department of the Air Force that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects authorized in section 2121(a) in an amount not to exceed $9,470,000.

(c) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE III.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2121 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a) and the amount specified in subsection (b).

SEC. 2125. EXTENSION OF CERTAIN AUTHORIZATIONS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), authorizations for the following projects authorized in section 302 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Cadet Gymnasium in the amount of $10,000,000 at the United States Air Force Academy, Colorado.

(2) GLCM—Clothing Sales Store in the amount of $300,000 at Comiso Air Base, Italy.

(3) GLCM—Library in the amount of $570,000 at Florennes Air Base, Belgium.

(4) Anti-Satellite Facilities in the total amount of $16,500,000 at Langley Air Force Base, Virginia, to include: Integrated Maintenance Facility for $9,870,000; Missile and Motor Storage Facility for $3,870,000; Administrative Building for $645,000; Hydrazine Storage for $370,000; Control Center for $860,000; and Cryogen Storage and Procurement Facility for $955,000.

## TITLE IV—DEFENSE AGENCIES

SEC. 2131. AUTHORIZED CONSTRUCTION PROJECTS AND LAND ACQUISITION FOR THE DEFENSE AGENCIES

(a) INSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

DEFENSE COMMUNICATIONS AGENCY

Scott Air Force Base, Illinois, $7,600,000.
Pentagon, Virginia, $2,300,000.

DEFENSE LANGUAGE INSTITUTE

Defense Language Institute, Monterey, California, $5,400,000.

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Naval Supply Center, Charleston, South Carolina, $5,130,000.
Defense Depot, Ogden, Utah, $9,780,000.
Defense Fuel Support Point, Mukilteo, Washington, $6,360,000.

DEFENSE MAPPING AGENCY

Aerospace Center, St. Louis, Missouri, $16,700,000.

DEFENSE MEDICAL FACILITIES OFFICE

Edwards Air Force Base, California, $3,950,000.
Pearl Harbor, Hawaii, $9,700,000.
Mountain Home Air Force Base, Idaho, $30,500,000.
Fort Polk, Louisiana, $2,650,000.
Keesler Air Force Base, Mississippi, $3,100,000.
McGuire Air Force Base, New Jersey, $3,800,000.
Kirtland Air Force Base, New Mexico, $16,000,000.
Camp Lejeune, North Carolina, $3,900,000.
Brooke Army Medical Center, San Antonio, Texas, $129,000,000.
Fort Hood, Texas, $3,450,000.
Randolph Air Force Base, Texas, $13,700,000.

DEFENSE NUCLEAR AGENCY

Naval Research Laboratory, Washington, District of Columbia, $3,200,000.

JOINT TACTICAL COMMAND, CONTROL, AND COMMUNICATIONS AGENCY

Fort Huachucha, Arizona, $9,890,000.

NATIONAL SECURITY AGENCY

Fort Meade, Maryland, $9,570,000.
Classified Location, $3,000,000.
Classified Location, $4,000,000.

OFFICE OF THE SECRETARY OF DEFENSE

Classified Location, $3,000,000.
Environmental Restoration, $6,000,000.

STRATEGIC DEFENSE INITIATIVE

Edwards Air Force Base, California, $4,140,000.
Pacific Missile Range, Kaui, Hawaii, $2,890,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Chimu Wan, Japan, $6,640,000.
Defense Fuel Support Point, Tsurumi, Japan, $3,520,000.

DEFENSE MEDICAL FACILITIES OFFICE

Boeblingen, Germany, $3,650,000.
Grafenwoehr, Germany, $3,950,000.
Karlsruhe, Germany, $6,800,000.
Vilseck, Germany, $5,600,000.
Camp New Amsterdam, The Netherlands, $6,000,000.

DEPARTMENT OF DEFENSE DEPENDENT SCHOOLS

Naval Air Station, Bermuda, $4,280,000.
Aschaffenburg, Germany, $6,600,000.
Dexheim, Germany, $2,430,000.
Erlangen, Germany, $3,220,000.
Grafenwoehr, Germany, $2,500,000.
Hahn, Germany, $3,470,000.
Heidelberg, Germany, $3,190,000.
Hessisch-Oldendorf, Germany, $2,310,000.
Kaiserslautern, Germany, $7,880,000.
Nuernberg, Germany, $8,580,000.
Stuttgart, Germany, $4,530,000.
Wuerzburg, Germany, $7,760,000.
Woensdrecht, The Netherlands, $7,420,000.

(c) VARIOUS LOCATIONS.—The Secretary of Defense may acquire real property and may carry out military construction projects not otherwise authorized by law for the construction of hazardous waste storage facilities.

SEC. 2132. FAMILY HOUSING

The Secretary of Defense may construct or acquire three family housing units (including land acquisition) at classified locations in the total amount of $270,000.

SEC. 2133. BROOKE ARMY MEDICAL CENTER

(a) AUTHORIZATION TO CONTRACT IN ADVANCE OF APPROPRIATIONS.—The Secretary of Defense may enter into one or more contracts, in advance of appropriations therefor, for the design and construction of the military construction project authorized by section 2131 to be accomplished at Brooke Army Medical Center, San Antonio, Texas, if such contracts limit the Government's liability to the amount of funds available for obligation at the time each contract is entered into. Such design and construction may be accomplished by using one-step turn-key selection procedures, or other competitive contracting methods.

(b) REPEAL PROVISION.—Section 104 of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1498), is repealed.

SEC. 2134. PROHIBITION ON DESIGN OF PENTAGON ANNEX

None of the funds appropriated pursuant to an authorization contained in this or any other Act may be used for the purpose of designing an administrative complex on the property known as the Pentagon Reservation, Arlington, Virginia, for the purpose of supporting the headquarters of the Department of Defense or the military departments or the support functions of such headquarters.

SEC. 2135. AUTHORIZATION OF APPROPRIATIONS, DEFENSE AGENCIES; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986 for military construction, land acquisition, and military family housing functions of the Department of Defense (other than the military departments), in the total amount of $568,500,000 as follows:

(1) For military construction projects inside the United States authorized by section 2131(a), $189,710,000.

(2) For military construction projects outside the United States authorized by section 2131(b), $100,330,000.

(3) For military construction projects at Fort Meade, Maryland, authorized by section 401(a) of the Military Construction Authorization Act, 1986, $53,700,000.

(4) For military construction projects at Fort Lewis, Washington, authorized by section 101(a) of the Military Construction Authorization Act, 1985, $72,100,000.

(5) For minor construction projects under section 2805 of title 10, United States Code, $30,760,000.

(6) For construction projects under the contingency construction authority of the Secretary of Defense under section 2804 of title 10, United States Code, $5,000,000.

(7) For Conforming Storage Facilities at various locations authorized by section 2131(c), $21,400,000.

(8) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $100,700,000.

(9) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $270,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $17,330,000, of which not more than $14,027,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(10) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)-(8) of this subsection the total amount authorized to be appropriated by this subsection for the purposes described by such paragraphs is $550,900,000.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE IV.—Notwithstanding the cost variations authorized by section 2858 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2131 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

SEC. 2136. EXTENSION OF AUTHORIZATIONS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), the authorizations for the construction or acquisition of 6 family housing units in section 402 of such Act shall remain in effect until October 1, 1987, or the date of the Military Construction Authorization Act for fiscal year 1988, whichever is later.

## TITLE V—NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

### SEC. 2141. AUTHORITY OF THE SECRETARY OF DEFENSE TO MAKE CONTRIBUTIONS

The Secretary of Defense may make contributions for the North Atlantic Treaty Organization infrastructure program as provided in section 2806 of title 10, United States Code, in an amount not to exceed the sum of the amount authorized to be appropriated for this purpose in section 2142 of this Act and the amount collected from the North Atlantic Treaty Organization as a result of projects previously financed by the United States.

### SEC. 2142. AUTHORIZATION OF APPROPRIATIONS, NATO

Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for contributions by the Secretary of Defense under section 2806 of title 10, United States Code, for the share of the United States of the cost of projects for the North Atlantic Treaty Organization Infrastructure Program as authorized by section 2041 of this Act, in the amount of $239,000,000.

## TITLE VI—GUARD AND RESERVE FORCES FACILITIES

### SEC. 2151. AUTHORIZATION FOR GUARD AND RESERVE FACILITIES

There are authorized to be appropriated for fiscal years beginning after September 30, 1986, for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 133 of title 10, United States Code (including the cost of acquisition of land for those facilities), the following amounts:

(1) For the Department of the Army—

(A) for the Army National Guard of the United States, $118,700,000, and

(B) for the Army Reserve, $83,200,000.

(2) For the Department of the Navy, for the Naval and Marine Corps Reserves, $43,800,000.

(3) For the Department of the Air Force—

(A) for the Air National Guard of the United States, $137,000,000, and

(B) for the Air Force Reserve, $55,400,000.

## TITLE VII—GENERAL PROVISIONS

### PART A—EXPIRATION OF AUTHORIZATIONS AND AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

### SEC. 2161. EXPIRATION OF AUTHORIZATIONS AND AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

(a) EXPIRATION OF AUTHORIZATIONS AFTER TWO YEARS.—(1) Except as provided in subsection (b), all authorizations contained in titles I, II, III, IV, and V for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor) shall expire on October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later.

(b) EXCEPTION.—The provisions of paragraph (1) do not apply to authorizations for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor), for which appropriated funds have been obligated before October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later, for construction contracts, land acquisition, family housing projects and facilities, or contributions to the NATO Infrastructure Program.

### SEC. 2162. ESTABLISHMENT OF CERTAIN AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

For projects or contracts initiated during the period beginning on the date of enactment of this Act and ending on the date of the enactment of the Military Construction Authorization Act for fiscal year 1988 or October 1, 1987, whichever is later, the following amounts apply:

(1) The maximum amount for a minor military construction project under section 2805 of title 10, United States Code, is $2,000,000.

(2) The amount of a contract for architectural and engineering services or construction design that makes such a contract subject to the reporting requirement under section 2807 of title 10, United States Code, is $300,000.

(3) The maximum amount per unit for an improvement project for family housing units under section 2825 of title 10, United States Code, is $30,000.

(4) The maximum annual rental for a family housing unit leased in the United States, Puerto Rico, or Guam under section 2828(b) of title 10, United States Code, is $10,000.

(5)(A) The maximum annual rental for a family housing unit leased in a foreign country under section 2828(e)(1) of title 10, United States Code, is $16,800.

(B) The maximum number of family housing units that may be leased at any one time in foreign countries under section 2828(e)(2) of title 10, United States Code, is 34,500.

(6) The maximum rental per year for family housing facilities, or for real property related to family housing facilities, leased in a foreign country under section 2828(f) of title 10, United States Code, is $250,000.

### PART B—MILITARY CONSTRUCTION PROGRAM PROVISIONS

### SEC. 2171. MINOR CONSTRUCTION

(a) IN GENERAL.—Section 2805 of title 10, United States Code, is amended—

(1) in subsection (b)—

(A) by striking out paragraph (1) and inserting in lieu thereof the following:

"(1) A minor military construction project not identified in the Department of Defense annual budget request for a fiscal year may not be constructed if the estimated cost of such project exceeds 50 percent of the amount specified by law as the maximum amount for a minor military construction project unless the Secretary concerned has notified in writing the appropriate committees of Congress of that decision, of the justification for the project, and of the estimated cost of the project. The project may then be carried out only after the expiration of 21 days following the date on which the notification is received by the committees.";

(B) by striking out paragraph (2); and

(C) by redesignating paragraph (3) as paragraph (2);

(2) by striking out subsection (c) and inserting in lieu thereof the following:

"(c) The Secretary concerned may spend from funds available for operation and maintenance amounts necessary to carry out a minor construction project costing not more than 20 percent of the amount specified by law as the maximum amount for a minor military construction project."; and

(3) by striking out the section heading and inserting in lieu thereof the following:

"§ 2805. Minor construction".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 169 of such title is amended by striking out the item relating to section 2805 and inserting in lieu thereof the following:

"2805. Minor construction.".

### SEC. 2172. RENOVATION OF FACILITIES

(a) IN GENERAL.—Chapter 169 of title 10, United States Code, is amended by adding at the end of subchapter I the following new section:

"§ 2810. Renovation of facilities

"(a) The Secretary concerned may carry out renovation projects that combine maintenance, repair, and minor construction projects for an entire single-purpose facility or for one or more functional areas of a multipurpose facility. In carrying out such projects, the Secretary concerned may use funds available for operations and maintenance.

"(b) The maximum amount that may be obligated on such a renovation project is the maximum amount specified by law for a minor construction project.

"(c) The construction of a new facility or an addition to an existing facility may not be carried out under the authority of this section.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such subchapter is amended by adding at the end the following new item:

"2810. Renovation of Facilities.".

### SEC. 2173. TEST PROGRAM FOR MILITARY INSTALLATION MASTER PLANNING

In order to provide Congress with information necessary to determine the desirability and feasibility of using installation master plans as a basis for determining long-term military construction requirements, the Secretary of Defense shall, at the same time he submits the annual request for military construction authorization pursuant to section 2859 of title 10, United States Code, for fiscal year 1988, include in such request—

(1) master plans for at least two military installations of each military department; and

(2) a request for the authorization of those construction projects included in the installation master plans referred to in clause (1) that are scheduled to be constructed within five fiscal years after the fiscal year in which the request is submitted.

### SEC. 2174. TEST OF LONG-TERM FACILITIES CONTRACTS

Paragraph (1) of section 2809(a) of title 10, United States Code, is amended to read as follows:

"(1)(A) The Secretary concerned may enter into contracts for the construction, management, and/or operation of a facility on or near a military installation for the provision of an activity or service named in subparagraph (B) if the Secretary concerned has identified the proposed project in the budget proposal submitted to Congress and has determined that the facility can be more economically provided under a long-term contract than by conventional means.

"(B) The activities and services referred to in subparagraph (A) are as follows:

"(i) Child care services.

"(ii) Potable and waste water treatment services.

"(iii) Depot supply activities.

"(iv) Troop housing.

"(v) Transient quarters.

"(vi) Other logistic and administrative services, other than depot maintenance.".

SEC. 2175. PLANNING AND DESIGN

(a) IN GENERAL.—Section 2807 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(d) The Secretary of a military department may obtain architectural and engineering services and carry out construction design in connection with any military construction project in any fiscal year with any funds appropriated for such purpose for any previous fiscal year to the extent that such funds are available.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to funds appropriated for military construction projects after the date of the enactment of Public Law 99-103 (99 Stat. 471).

SEC. 2176. SPACE LIMITATIONS ON OFFICER HOUSING

Subsection (b) of section 2826 of title 10, United States Code, is amended to read as follows:

"(b) The applicable maximum net floor area prescribed by subsection (a)—

"(1) may be increased to 3,000 square feet for the housing unit of—

"(A) an officer holding a special command position (as designated by the Secretary of Defense);

"(B) a general or flag officer holding a position of commander; or

"(C) a general or flag officer holding a key and essential staff position which requires extensive official representational duties (as designated by the Secretary of the military department concerned);

"(2) may be increased to 2,100 square feet for the housing unit of the commanding officer of a military installation in the pay grade of O-6 or above; or

"(3) may be increased by 10 percent for the housing unit of the senior noncommissioned officer of a military installation, but an increase may not be made under this clause in the case of any housing unit if an increase is made for such housing unit under subsection (c).".

SEC. 2177. HAZARDOUS WASTE STORAGE

(a) AUTHORITY TO CONSTRUCT.—In order to meet the pressing need for the storage of hazardous and toxic materials and wastes on military installations, the Secretary of Defense may, using funds available for military construction, carry out military construction projects not otherwise authorized by law for the construction of hazardous waste storage facilities.

(b) NOTIFICATION TO CONGRESS.—When a decision is made to carry out a project under this section, the Secretary of Defense shall notify in writing the appropriate committees of Congress of that decision, of the justification for the project, and of the estimated cost of the project. The project may not be initiated until a period of 21 days has elapsed after the date on which the notification is received by the committees.

(c) INCREASE IN COST OF PROJECT.—The cost of a hazardous waste storage facility project carried out under this section may be increased by not more than 25 percent of the estimated cost of the project as contained in the notification provided to the committees pursuant to subsection (b) if the Secretary of Defense determines (A) that such an increase is required for the sole purpose of meeting unusual variations in cost, and (B) that such variations in cost could not have been reasonably anticipated at the time the project justification was originally submitted to the committees.

(d) DEFINITION.—As used in this section, the term "hazardous waste" includes both excess hazardous materials and hazardous wastes as defined by applicable laws and regulations.

(e) EXPIRATION OF AUTHORITY.—A military construction project for the erection of a hazardous waste storage facility may not be commenced under this section after September 30, 1991.

SEC. 2178. BUILD-TO-LEASE AND RENTAL GUARANTEE PILOT PROGRAMS

(a) RENTAL GUARANTEE PROGRAM.—(1) Subsection (b) of section 802 of the Military Construction Authorization Act, 1984 (10 U.S.C. 2821 note), is amended—

(A) by striking out "and" at the end of clause (10);

(B) by striking out the period at the end of clause (11) and inserting in lieu thereof "; and"; and

(C) by adding at the end the following new clause:

"(12) may provide in the agreement for the rental of a child care center, civic center building, and similar type buildings constructed for the support of family housing.".

(2) Subsection (h) of such section is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1990".

(3) Subsection (b) of such section is amended—

(A) in paragraph (2), by striking out "for operation and maintenance costs which shall (if included) be effective for the term of agreement";

(B) in paragraph (4), by adding "or, at the discretion of the Secretary of the military department concerned, in compliance with the local building codes" after "specifications"; and

(C) in paragraph (5), by striking out "15 years" and inserting in lieu thereof "25 years".

(b) BUILD-TO-LEASE PROGRAM.—Section 2828(g) of title 10, United States Code, is amended—

(1) in paragraph (8)(B), by striking out "600" and inserting in lieu thereof "3,600";

(2) in paragraph (9), by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1988"; and

(3) by adding at the end the following new paragraph:

"(10) A contract for the lease of family housing under this subsection may include provision for the lease of a child care center, civic center building, and similar type buildings constructed for the support of family housing.".

SEC. 2179. FOREIGN LEASES FOR PERSONNEL HOLDING SPECIAL POSITIONS

Subsection (e)(1) of section 2828 of title 10, United States Code, is amended by striking out "200" and inserting in lieu thereof "220".

PART C—MISCELLANEOUS PROVISIONS

SEC. 2181. RESTRICTIONS ON CONVERSION OF HEATING FACILITIES AT UNITED STATES MILITARY INSTALLATION IN EUROPE

(a) IN GENERAL.—The Secretary of a military department may not convert a heating facility at any United States military installation in Europe from a coal-fired facility to an oil-fired facility, or to any other energy source facility, unless the Secretary of the military department concerned—

(1) determines that the conversion (A) is required by the government of the country in which the facility is located, or (B) is life cycle cost effective; and

(2) has notified Congress of the proposed conversion and a period of 30 days has elapsed following the date on which Congress received the notice.

(b) USE OF COAL.—(1)(A) The Secretary of Defense shall, in each case in which the Secretary determines such action would be cost effective, provide for the use of coal produced in the United States to operate heating facilities at military installations in the United States.

(B) The Secretary of Defense shall take such action as may be necessary to implement, at the earliest practicable date and with funds provided for such purpose by section 8110 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat 1222), the program proposed by the Department of Defense in a letter dated August 30, 1985, from the Assistant Secretary of Defense for Acquisition and Logistics to rehabilitate and convert current steam generating plants at defense facilities in the United States to coal burning facilities in order to achieve a coal consumption target of 1,600,000 short tons of coal per year (including at least 300,000 short tons of anthracite coal) above current consumption levels at Department of Defense facilities in the United States by fiscal year 1994: *Provided further*, That during fiscal year 1987, the amount of anthracite coal purchased by the Department shall be at least 300,000 short tons.

(2) In carrying out the actions referred to in paragraph (1), the Secretary shall make maximum use of private venture capital and long-term contracting.

(3) The Secretary shall report to Congress not later than March 1 of each year on the actions taken by the Secretary in carrying out paragraph (1).

(c) REPEAL OF CERTAIN RESTRICTIONS.—Sections 8022 and 8070 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat. 1207, 1214, and 1222), are repealed.

SEC. 2182. BASE CLOSURE TASK GROUP

(a) ESTABLISHMENT OF TASK GROUP.—The President shall establish a study group to be known as the "Blue Ribbon Task Group on Military Base Closures" (hereinafter in this section referred to as the "Task Group").

(b) FUNCTION OF TASK GROUP.—It shall be the function of the Task Group to study and evaluate military installations with a view to determining and recommending which installations should be closed.

(c) APPOINTMENT OF MEMBERS.—The Task Group shall be composed of 9 members appointed as follows:

(1) Five members appointed by the President.

(2) One member appointed by the majority leader of the Senate.

(3) One member appointed by the minority leader of the Senate.

(4) One member appointed by the Speaker of the House of Representatives.

(5) One member appointed by the minority leader of the House of Representatives.

(d) CHAIRMAN.—The President shall designate one of the members of the Task Group to serve as Chairman.

(e) QUORUM.—Five members of the Task Group shall constitute a quorum, but a lesser number may hold hearings. The Task Group shall meet at the call of the Chairman.

(f) VACANCIES.—A vacancy in the Task Group shall be filled in the manner in which the original appointment was made. Appointments may be made under subsec-

tion (c) without regard to section 5311(b) of title 5, United States Code. Members shall be appointed for the life of the Task Group.

(g) COMPENSATION OF MEMBERS.—Members of the Task Group may each be paid at a rate equal to the daily equivalent of the rate of basic pay payable for level IV of the Executive Schedule for each day (including travel time) during which they are engaged in the actual performance of the business of the Task Group.

(h) STAFF.—(1) The Task Group may appoint such staff as it considers appropriate. Such personnel shall be paid at a rate not to exceed the rate of basic pay payable for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code.

(2) The Task Group may procure temporary and intermittent services under section 3109(b) of title 5, United States Code.

(3) The Secretary of Defense may detail personnel of the Department of Defense to the Task Group to assist the Task Group in carrying out its duties under this section.

(4) The Secretary of Defense may provide the Task Group such administrative support services as the Task Group may require.

(i) REPORT DEADLINE.—Not later than July 31, 1987, the Task Group shall submit to the President and to Congress a report containing the results of its study together with a list of military installations the Task Group recommends be closed. The report shall be prepared and submitted without any prior review or approval by any official of the executive branch.

(j) TERMINATION OF TASK GROUP.—The Task Group shall cease to exist 90 days after the date on which the report referred to in subsection (i) is submitted to the President and Congress.

(k) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated for fiscal years 1986 and 1987 a total of $1,000,000 to carry out this section. Any amount appropriated under this subsection shall remain available until the termination of the Task Group except that no amount shall remain available until the Secretary of the Navy (hereinafter in this section referred to as the "Secretary") transfers to the United States Postal Service (hereinafter in this section referred to as the "Postal Service") jurisdiction over approximately 3.2 acres of land, together with improvements thereon, located in Aiea, Hawaii, and the Postal Service pays, out of any funds available to the Postal Service, to the Secretary of the Navy an amount equal to the greater of the following:

(1) The approved fair market value of the property over which jurisdiction is to be transferred (as determined by the Secretary).

(2) The cost of providing to the Navy fleet laundry and dry cleaning facilities to replace facilities located on the land over which jurisdiction is to be transferred pursuant to this subsection.

(l) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the land over which jurisdiction is to be transferred under this section shall be determined by surveys that are satisfactory to the Secretary. The cost of the surveys shall be borne by the Postal Service.

(m) ADDITIONAL TERMS.—(1) The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interest of the Navy.

(2) If the fair market value of the property over which jurisdiction is to be transferred to the Postal Service under subsection (k) exceeds the cost of the replacement fleet laundry and dry cleaning facilities, the Secretary shall deposit the exccess into the general fund of the Treasury.

SEC. 2183. DEVELOPMENT OF THE NAVY BROADWAY COMPLEX, SAN DIEGO, CALIFORNIA

(a) IN GENERAL.—(1) The Secretary of the Navy (hereinafter in this section referred to as the "Secretary") may enter into long-term leases or other arrangements for the construction of office and other administrative facilities on land under the jurisdiction of the Secretary in San Diego, California, known as the "Broadway Complex".

(2) The Broadway Complex shall be developed in accordance with detailed plans and terms of development which have been duly formulated by the Navy and the San Diego community through the San Diego Association of Governments' Broadway Complex Coordinating Group.

(3) Long-term leases or other arrangements entered into under this section may provide that facilities constructed on the Broadway Complex be privately owned, jointly owned by the Navy and private developers, or wholly owned by the Navy.

(4) Demolishment of existing facilities and construction of new facilities on the Broadway Complex may be carried out in whole or in part at the expense of private developers.

(5) The Secretary may—

(A) lease land at the Broadway Complex to private developers on a long-term basis; or

(B) enter into leases or other arrangements for provision by private developers of low cost office facilities for use by the Navy.

(6) The Secretary may also receive, obligate, and disburse any funds received from the lease of Navy land at the Broadway Complex for the construction and management of facilities constructed under this section.

(b) AWARD OF CONTRACT.—Contracts entered into by the Secretary under this section shall be awarded through the use of publicly advertised, competitively bid, or competitively negotiated contracting procedures.

(c) TERMS OF CONTRACTS.—(1) The Secretary may require as a condition for the award of a long-term lease of land at the Broadway Complex that the Navy be given the right of first refusal for the purchase of any facilities constructed on the land by or for the lessee.

(2) A long-term lease or other arrangement entered into by the Secretary under this section under which offices or other facilities are constructed by a private developer and leased to the Navy may provide for the operation and maintenance of such facilities by the private developer.

(3) The Secretary may require such additional terms and conditions in connection with any contract or other arrangement entered into under this section as the Secretary considers appropriate to protect the interests of the United States.

(d) PRECONDITION TO CONTRACT.—The Secretary may not enter into a long-term lease or other arrangement under this section until—

(1) a comprehensive plan for the proposed development of the Broadway Complex has been prepared and such plan clearly demonstrates that development under the proposed plan is more economically advantageous to the United States than development of the Complex by the Navy with appropriated funds;

(2) a copy of the proposed plan has been submitted to the appropriate committees of Congress; and

(3) a period of 21 days has elapsed following the date on which the plan is received by the committees referred to in clause (2).

SEC. 2184. SELECTION OF SITE FOR MILITARY FAMILY HOUSING AT SAN PEDRO, CALIFORNIA

(a) IN GENERAL.—(1) The Secretary of the Air Force (hereinafter in this section referred to as the "Secretary") shall consider appropriate sites in San Pedro, California, for the location and construction of 170 military family housing units for members of the Air Force assigned to duty in the area of San Pedro.

(2) The Secretary shall consider as an appropriate site for such housing only land in the San Pedro area in which the United States has a reversionary interest for national defense purposes or land which would be conveyed to the United States without charge.

(3) After the Secretary has selected one or more sites for such housing, he shall file a final environmental impact statement as required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) on each site determined by the Secretary to be appropriate for the purpose stated in paragraph (1). Within 10 days after the expiration of the 30-day period referred to in section 1506.10(b)(2) of title 40 of the Code of Federal Regulations, the Secretary shall select as a site for the location of the housing units referred to in subsection (a) one of the sites considered appropriate for such purpose.

(b) EXERCISE OF REVERSIONARY RIGHT.—(1) If the land selected as the site for the housing units is subject to a reversionary right on behalf of the United States, the Secretary shall notify the Attorney General of the United States or other appropriate official that the site selected is needed for national defense purposes.

(2) The Attorney General or other appropriate official shall, within 15 days after receiving the notification referred to in paragraph (1), take such action as may be necessary to exercise the reversionary right held by the United States in the land selected as the site for the housing.

(3) Within 15 days after the United States resumes ownership over the land, the Attorney General or other appropriate official shall transfer jurisdiction of such land to the Secretary.

(c) CONSTRUCTION OF MILITARY FAMILY HOUSING.—The Secretary shall use any land made available pursuant to this section as the site for the construction of the 170 military family housing units referred to in subsection (a).

SEC. 2185. GRANTING OF EASEMENTS AND REPLACEMENT OF FAMILY HOUSING UNITS AND OTHER FACILITIES AT MARINE CORPS AIR STATION, EL TORO, CALIFORNIA

(a) AUTHORITY TO GRANT EASEMENTS.—Subject to subsection (b) and other conditions the Secretary may specify in the agreements entered into for the purpose of carrying out this section, the Secretary of the Navy (hereafter in this section referred to as the "Secretary") may grant to Orange County, California, one or more easements through the Marine Corps Air Station, El Toro, California, for street, sidewalk, and related purposes.

(b) MANDATE TO REPLACE FAMILY HOUSING AND OTHER FACILITIES.—(1) Subject to subsection (c), the Secretary shall provide for

the replacement of all family housing units and other facilities that are to be demolished as a result of any easement granted under subsection (a).

(2) An easement granted under subsection (a) shall not become effective until the Secretary determines that—

(A) family housing units have been constructed to replace all the family housing units to be demolished as a result of such easement; and

(B) such replacement units meet the applicable requirements specified in the agreements referred to in subsection (a).

(3) Until the determination referred to in paragraph (2) is made, the Secretary shall continue to use, as military family housing, the housing units that are to be demolished as a result of an easement becoming effective.

(c) FUNDING.—(1) The Secretary may use not more than $2,300,000 of the amount appropriated pursuant to the authorization contained in section 2115(a)(7)(A) for payment in connection with the construction of replacement family housing units required by subsection (b).

(2) The Secretary may make available amounts for the construction of such replacement family housing units at the times specified in the agreements referred to in subsection (a).

(3) The Secretary may not make any funds available under this section for the demolition of existing facilities on the land on which easements are granted or for the replacement of any facilities other than family housing facilities.

SEC. 2186. POSTAL FACILITIES

Sections 4779 and 9779 of title 10, United States Code, are each amended—

(1) by striking out subsection (b); and

(2) by redesignating subsection (c) as subsection (b).

SEC. 2186A. STUDY OF NEEDS OF DEPENDENTS' EDUCATIONAL FACILITIES ON MILITARY INSTALLATIONS

(A) IN GENERAL.—The Secretary of Defense and the Secretary of Education shall conduct a joint study for the purposes of determining the needs for construction, extension, remodeling, and rehabilitation of dependent's educational facilities on military installations in the United States and shall develop a joint policy to meet those needs.

(b) REPORT.—(1) Not later than April 1, 1987, the Secretaries of Defense and Education shall submit to Congress a report containing—

(1) a description of the needs determined under subsection (a);

(2) the joint policy developed to meet such needs; and

(3) any recommendations for legislation the Secretaries consider necessary or appropriate to meet such needs.

SEC. 2186B. MULTIFUEL SOURCES FOR NEW HEATING SYSTEMS AT MILITARY INSTALLATIONS

(a) IN GENERAL.—Section 2690 of title 10, United States Code, is amended to read as follows:

"§ 2690. Multifuel sources for new heating systems.

"(a) Except as provided in subsection (b), each new heating or cogeneration system which is installed or constructed at any military installation located on lands under the jurisdiction of a military department and which requires 100 million British thermal units input per hour or more shall have multiple fuel capability. The primary and secondary fuel capability of any such system shall be a fuel from the solid fuel group or the liquid and gas hydrocarbon group (petroleum and natural gas). The fuel capability of a new heating or cogeneration system shall be determined on the basis of life cycle costs and availability of fuels.

"(b) In any case in which local restrictions or costs make the installation or construction of solid or dual fuel equipment infeasible, the Secretary concerned may waive the requirement of subsection (a), but such waiver shall not become effective until after the Secretary concerned has notified the appropriate committees of Congress in writing of the waiver and the reasons for exercising such waiver authority.

"(c) In this section, the term 'multiple fuel capability' means the capability of using two or more types of fuel.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of Chapter 159 of such title is amended by striking out the item relating to section 2690 and inserting in lieu thereof the following:

"2690. Multifuel sources for new heating systems.".

PART D—REAL PROPERTY TRANSACTIONS

SEC. 2187. LAND CONVEYANCE, FORT HUACHUCA, ARIZONA

(a) AUTHORITY TO CONVEY.—The Secretary of the Army (hereinafter in this section referred to as the "Secretary") is authorized to convey to the State of Arizona all right, title, and interest of the United States in and to approximately 26 acres of land which comprise a portion of Fort Huachuca, Arizona, and which border on State Highway 90 at Fort Huachuca. Such acres are located in the East half of Township 21 South, Range 20 East, Gila and Salt River Meridian.

(b) CONSIDERATION.—(1) In consideration for the conveyance authorized by subsection (a), the State of Arizona shall convey to the United States all right, title, and interest of the State in and to 1,536.47 acres of land owned by the State within the East Range at Fort Huachuca and to all mineral rights owned by the State in 12,943 acres located within the East Range at Fort Huachuca. Title to such land and mineral rights shall be conveyed free and clear of encumbrances and third party interests except to the extent waived by the Secretary.

(2) If the fair market value of the lands conveyed by the Secretary under subsection (a) exceeds the fair market value of the lands and mineral interests conveyed to the United States under subsection (b), as determined by the Secretary, the State shall pay the difference to the United States. Any funds received under this subsection shall be covered into the general fund of the Treasury.

(c) AUTHORITY TO SELL ADDITIONAL ACREAGE.—(1) In addition to the acreage authorized to be conveyed under subsection (a), the Secretary is authorized to sell, subject to paragraphs (2) and (3), all right, title, and interest of the United States in and to approximately 203 acres of land (designated by the Secretary) comprising a portion of Fort Huachuca, Arizona.

(2) The sale of the land referred to in paragraph (1) shall be conducted in accordance with competitive bidding procedures prescribed in section 2304 of title 10, United States Code. In no event may the land be sold for less than the fair market value thereof. The fair market value of the property shall be established by an appraisal approved by the Secretary.

(3) If the fair market value of the lands and mineral rights conveyed to the United States pursuant to subsection (b) exceeds the fair market value of the lands conveyed by the United States pursuant to subsection (a), the Secretary may use the proceeds of the sale under paragraph (1) to pay the difference in value to the State of Arizona. Any proceeds of the sale not used for such purposes shall be covered into the general fund of the Treasury.

(d) LEGAL DESCRIPTION OF LANDS.—The exact acreage and legal descriptions of any property conveyed or acquired under this section shall be based upon surveys which are satisfactory to the Secretary.

(e) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions in connection with the transactions authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2188. LAND CONVEYANCE, MARCH AIR FORCE BASE, CALIFORNIA

(a) AUTHORITY TO SELL.—Subject to subsections (b) through (g), the Secretary of the Air Force (hereafter in this section referred to as the "Secretary") may sell all or any portion of a tract of land (together with improvements thereon), comprising a portion of March Air Force Base, California, known as West March and consisting of 845 acres, more or less.

(b) CONDITIONS OF SALE.—The Secretary shall require as a condition of the sale of the property referred to in subsection (a) that the purchaser—

(1) agree to construct on Government-owned land at March Air Force Base, at the expense of the purchaser, in accordance with standards and specifications prescribed by the Secretary, a noncommissioned officers professional education center, a band center, and an addition to, or an alteration of, a combat operations center; and

(2) submit to the Secretary a master plan for the development of the land referred to in subsection (a) that (A) is consistent (as determined by the Secretary) with the Air Installations Compatible Use Zone recommendations of the Air Force, (B) is consistent (as determined by the Secretary) with the future plans of the Air Force for March Air Force Base and the plan for development of Air Force Village West; and (C) is acceptable to the appropriate local government officials of the city and county of Riverside, California.

(c) COMPETITIVE BID REQUIREMENT; MINIMUM SALE PRICE.—(1) The sale of any of the land referred to in subsection (a) shall be carried out under competitive contracting procedures.

(2) In no event may property referred to in subsection (a) be sold for less than fair market value of such property. The value of the property to be conveyed and the consideration to be received shall be determined by appraisals approved by the Secretary. Such appraisals may, in the Secretary's discretion, be paid for from any deposit made by the prospective purchaser or be reimbursed out of such deposit to the fund available for such purposes in the fiscal year reimbursement is made. Any portion of the deposit used to fund or reimburse the cost of appraisals shall be nonrefundable.

(d) REPORT REQUIREMENTS.—(1) The Secretary may not enter into any contract for the sale of any or all of the land referred to in subsection (a) unless—

(A) the Secretary has submitted a report to the appropriate committees of Congress containing the information required in section 2667a(b) of title 10, United States Code; and

(B) a period of 21 days has expired following the date on which the report referred to in such section is received by those committees.

(2) Any report submitted under paragraph (1) shall include—

(A) a description of the price and terms agreed to with the successful bidder; and

(B) a description of the procedures used in selecting a buyer for the land.

(e) USE OF EXCESS FUNDS.—If the fair market value of the property to be conveyed to a purchaser is greater than the fair market value of the facilities to be constructed by the purchaser for the United States, the difference in cash shall be deposited into the general fund of the Treasury.

(f) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the land to be conveyed under this section shall be determined by surveys approved by the Secretary. Such surveys shall be provided by the purchaser or paid for by the Secretary from a deposit made by the prospective purchaser at the time of award. Any portion of the deposit used for surveys shall be nonrefundable.

(g) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions in connection with any transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

(h) ADDITIONAL AUTHORITY.—The military construction authorized under this section is in addition to any other construction authorized by law.

SEC. 2189. LAND EXCHANGE, LONG BEACH NAVAL STATION, CALIFORNIA

(a) AUTHORITY TO EXCHANGE.—Subject to subsections (b) through (d), the Secretary of the Navy may exchange approximately 16 acres of real property (and improvements thereon) adjacent to Admiral Kidd Park which constitute a portion of the Long Beach Naval Station, California, to the city of Long Beach, California, in exchange for real property (and improvements thereon) located on Hill Street, between Webster Avenue and the Terminal Island Freeway, in Long Beach, California.

(b) CONDITION.—If the fair market value of the real property and improvements conveyed to the city under subsection (a) exceeds the fair market value of the real property and improvements conveyed to the United States, the city shall pay the difference to the United States, and the Secretary shall deposit any funds received under this subsection into the general fund of the Treasury.

(c) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the real property exchanged under this section shall be in accordance with surveys that are satisfactory to the Secretary. The cost of such surveys shall be borne by the city of Long Beach.

(d) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2190. LAND CONVEYANCE, WHITTIER NARROWS DAM, LOS ANGELES COUNTY, CALIFORNIA

(a) AUTHORITY TO SELL OR EXCHANGE LAND.—The Secretary of the Army (hereafter in this section referred to as the "Secretary") is authorized to sell or exchange approximately 7.44 acres of land within the Whittier Narrows Flood Control Basin and located north of Rush Street and east of Walnut Grove Avenue in Los Angeles County, California.

(b) SALE OR EXCHANGE REQUIREMENT.—In no event may the land described in subsection (a) and more fully described in subsection (e) be sold or exchanged for less than the fair market value thereof.

(c) CONSIDERATION.—In consideration for the sale or exchange authorized in subsection (a), the Secretary may accept cash or may accept land in the Los Angeles area, or both.

(d) PROCEEDS OF SALE.—Any funds received by the Secretary under this section shall be deposited into the general fund of the Treasury.

(e) LEGAL DESCRIPTION OF LAND.—The real property referred to in subsection (a) is a tract of land containing approximately 7.44 acres, more or less, located on Whittier Narrows Flood Control Basin, Los Angeles County, California. The property comprises those portions of Lot A of Tract No. 3260, as per the map recorded in Book 34 of Maps, page 21, in the office of the Los Angeles County Recorder and that portion of Lots 27 and 28 of Tract No. 830, as per the map recorded in Book 16 of Maps, page 117, in the office of the County Recorder and more particularly described as follows:

Beginning at the Southeast corner of such Lot A; thence along the south line of such lot North 89° 50′ 27″ West (northerly line of Rush Avenue) 184.93 feet; thence North 17° 25′ 47″ East 439.37 feet; thence North 36° 48′ 56″ East 366.03 feet; thence South 0° 04′ 01″ East 868.23 feet more or less to the northerly line of Rush Avenue; thence westerly along the north line of Rush Avenue to the point of beginning.

(f) RESERVATIONS.—(1) The land shall be conveyed subject to a perpetual flowage easement in favor of the United States.

(2) The Secretary shall convey the land subject to an agreement by the purchaser to permit the County of Los Angeles to utilize the conveyed premises for the parking of automobiles in connection with recreation activities at Whittier Narrows Golf Course on weekends, holidays, and on such other days as may be specified from time to time by the Secretary.

(g) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions with respect to the conveyance as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2191. LAND EXCHANGE, SANTA FE, NEW MEXICO

(a) AUTHORITY TO CONVEY.—(1) Subject to subsections (b) through (f), the Secretary of the Army (hereinafter in this section referred to as the "Secretary") is authorized to make the conveyances described in paragraphs (2) and (3).

(2) The Secretary is authorized to convey to the city of Santa Fe, New Mexico (hereinafter in this section referred to as the "City"), all right, title, and interest of the United States in and to the southernmost 27.88 acres, more or less, of the parcel of land conveyed to the State of New Mexico in accordance with the Act of June 19, 1956 (70 Stat. 296). Such 27.88 acre parcel is currently being leased to the City as a public park.

(3) The Secretary is also authorized to convey to the New Mexico State Armory Board (hereinafter in this section referred to as the "Board"), all right, title, and interest of the United States in and to the northernmost 21.61 acres, more or less, of the parcel of land conveyed to the State of New Mexico in accordance with the Act of June 19, 1956 (70 Stat. 296). Such 21.61 acre parcel currently comprises the State headquarters and other facilities of the New Mexico National Guard.

(b) CONDITIONS.—The lands conveyed by the Secretary under subsection (a) shall be subject to the following conditions:

(1) That the City shall, in accordance with the agreement entered into under subsection (d), provide to the Board a site of not less than 250 acres determined by the Board to be acceptable for the construction of—

(A) an armory for all New Mexico National Guard units located in Santa Fe, New Mexico;

(B) an organizational maintenance shop;

(C) a United States property and fiscal office building and warehouse;

(D) a headquarters complex for the New Mexico National Guard;

(E) a local training area for the New Mexico National Guard units;

(F) a complex for the New Mexico Army National Guard officer candidate school and noncommissioned officer academy; and

(G) additional facilities specified by the National Guard Bureau or the New Mexico State Armory Board.

(2) That the Board shall use the land provided to it by the City pursuant to paragraph (1) for the training and support of the National Guard of New Mexico, and for other military purposes, and that if the site ever ceases to be used for such purposes, all right, title, and interest in and to such property shall revert to and become the property of the United States which shall have the immediate right of entry thereon.

(c) MINERAL RIGHTS.—The conveyances made by the Secretary under subsection (a) shall reserve all mineral rights, including oil and gas, to the United States in accordance with the Act of June 19, 1956 (70 Stat. 296).

(d) GENERAL AUTHORITY.—In order to implement the land exchange authorized by this section, the Secretary is authorized to enter into agreements with the City, the Board, and such other parties the Secretary determines are necessary to effectuate the purpose of this section.

(e) LEGAL DESCRIPTION OF LANDS.—The exact acreage and legal description of the site provided by the City to the Board in accordance with subsection (b) shall be determined by surveys that are satisfactory to the Secretary. The cost of any such surveys shall be borne by the City or the Board.

(f) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such other terms and conditions with respect to the transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2192. COMMUNITY PLANNING ASSISTANCE

The Secretary of Defense may use funds appropriated to the Department of Defense for fiscal year 1987 to provide planning assistance to local communities if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate. The Secretary may use such funds to assist communities located near homeports proposed under the Naval Strategic Dispersal Program at Ingleside, Texas, and other Gulf Coast sites. For fiscal year 1987, not to exceed $200,000 may be used for this purpose at Gulf Coast sites.

SEC. 2193. RELEASE OF CERTAIN USE RIGHTS HELD BY THE UNITED STATES

(a) IN GENERAL.—The Administrator of General Services shall release to the Virginia Port Authority, an instrumentality of the Commonwealth of Virginia, all residuary rights of use held by the United States in three warehouses located in the city of Norfolk, Virginia, within the area operated as a public port facility and known as the Norfolk International Terminals.

(b) TIME LIMITATION; COMPENSATION.—The Administrator of General Services shall execute such documents and take such other actions as may be necessary to release, within 180 days after the date of the enactment of this Act, the rights referred to in subsection (a). The release shall be made without any compensation in addition to compensation paid to the United States for such warehouses and other facilities by the city of Norfolk, Virginia, in 1968.

SEC. 2194. LEASE OF PROPERTY AT THE NAVAL WEAPONS STATION, CHARLESTON, SOUTH CAROLINA

(a) IN GENERAL.—The Secretary of the Navy is authorized to lease to the South Carolina Ports Authority approximately 118 acres of land, together with improvements thereon, at the Naval Weapons Station, Charleston, South Carolina.

(b) TERM OF LEASE.—The lease entered into under subsection (a) may be for such term as the Secretary determines appropriate, but in no event to exceed 25 years.

(c) CONSIDERATION.—In addition to the fair rental value to be paid by the South Carolina Ports Authority for the premises leased pursuant to this section, such Authority shall pay for the cost of replacing certain facilities on the leased premises. The replacement facilities shall be constructed in a manner and at a site determined by the Secretary.

(d) AUTHORITY TO DEMOLISH AND CONSTRUCT FACILITIES.—The Secretary may, under the terms of the lease, authorize the South Carolina Ports Authority to demolish existing facilities on the leased land and to construct new facilities on such land for the use of such Authority.

## DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AND MILITARY APPLICATIONS OF NUCLEAR ENERGY AUTHORIZATION

SEC. 3101. SHORT TITLE

This division may be cited as the "National Security Programs Authorization Act for Fiscal Year 1987".

## TITLE I—NATIONAL SECURITY PROGRAMS

SEC. 3111. OPERATING EXPENSES

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for operating expenses incurred in carrying out national security programs (including scientific research and development in support of the Armed Forces, strategic and critical materials necessary for the common defense, and military applications of nuclear energy and related management and support activities) as follows:

(1) For weapons activities, $3,603,379,000.

(2) For materials production, $1,563,390,000.

(3) For defense waste and byproducts management, $455,050,000.

(4) For verification and control technology, $95,500,000.

(5) For nuclear safeguards and security, $61,100,000.

(6) For security investigations, $33,300,000.

(7) For naval reactors development, $509,800,000.

SEC. 3112. PLANT AND CAPITAL EQUIPMENT

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for plant and capital equipment (including planning, construction, acquisition, and modification of facilities, land acquisition related thereto, and acquisition and fabrication of capital equipment not related to construction) necessary for national security programs as follows:

(1) For weapons activities:

Project 87-D-101, general plant projects, various locations, $29,000,000.

Project 87-D-121, general plant projects, various locations, $32,000,000.

Project 87-D-104, safeguards and security enhancements, phase II, Lawrence Livermore National Laboratory, Livermore, California, $2,000,000.

Project 87-D-123, protective clothing decontamination facility, Rocky Flats Plant, Golden, Colorado, $500,000.

Project 87-D-130, receiving and shipping facility, Pinellas Plant, Saint Petersburg, Florida, $300,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, $0, for a total project authorization of $3,700,000.

Project 86-D-104, strategic defense facility, Sandia National Laboratories, Albuquerque, New Mexico, $13,000,000, for a total project authorization of $17,000,000.

Project 86-D-105, instrumentation systems laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $5,800,000, for a total project authorization of $12,000,000.

Project 86-D-106, laboratory data communications center, Los Alamos National Laboratory, Los Alamos, New Mexico, $12,000,000, for a total project authorization of $15,000,000.

Project 86-D-122, structural upgrade of existing plutonium facilities, Rocky Flats Plant, Golden, Colorado, $0, for a total project authorization of $3,000,000.

Project 86-D-123, environmental hazards elimination, various locations, $0, for a total project authorization of $8,700,000.

Project 86-D-124, safeguards and site security upgrading, phase II, Mound Plant, Miamisburg, Ohio, $1,880,000, for a total project authorization of $4,880,000.

Project 86-D-125, safeguards and site security upgrade, phase II, Pantex Plant, Amarillo, Texas, $8,410,000, for a total project authorization of $9,910,000.

Project 86-D-130, Tritium loading facility replacement, Savannah River Plant, Aiken, South Carolina, $29,700,000, for a total project authorization of $34,700,000.

Project 85-D-102, nuclear weapons research, development, and testing facilities revitalization, phase I, various locations, $29,950,000, for a total project authorization of $130,750,000.

Project 85-D-103, safeguards and security enhancements, Lawrence Livermore National Laboratory and Sandia National Laboratories, Livermore, California, $6,500,000, for a total project authorization of $27,600,000.

Project 85-D-105, combined device assembly facility, Nevada Test Site, Las Vegas, Nevada, $9,400,000, for a total project authorization of $24,000,000.

Project 85-D-106, hardened engineering test building, Lawrence Livermore National Laboratory, Livermore, California, $330,000, for a total project authorization of $3,030,000.

Project 85-D-112, enriched uranium recovery improvements, Y-12 Plant, Oak Ridge, Tennessee, $19,000,000, for a total project authorization of $38,800,000.

Project 85-D-113, powerplant and steam distribution system, Pantex Plant, Amarillo, Texas, $1,790,000, for a total project authorization of $24,790,000.

Project 85-D-115, renovate plutonium building utility systems, Rocky Flats Plant, Golden, Colorado, $13,440,000, for a total project authorization of $34,040,000.

Project 85-D-121, air and water pollution control facilities, Y-12 Plant, Oak Ridge, Tennessee, $0, for a total project authorization of $19,000,000.

Project 85-D-125, tactical bomb production facilities, various locations, $12,800,000, for a total project authorization of $28,800,000.

Project 84-D-102, radiation-hardened integrated circuit laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $3,000,000, for a total project authorization of $40,500,000.

Project 84-D-107, nuclear testing facilities revitalization, various locations, $13,300,000, for a total project authorization of $79,240,000.

Project 84-D-112, Trident II warhead production facilities, various locations, $14,500,000, for a total project authorization of $155,200,000.

Project 84-D-113, Antisubmarine Warfare/Standoff Weapon Warhead production facilities, various locations, $0, and not more than $5,000,000 of the funds authorized for such project in fiscal year 1986 may be obligated or expended for such project, for a total project authorization of $5,000,000.

Project 84-D-124, environmental improvements, Y-12 Plant, Oak Ridge, Tennessee, $0, for a total project authorization of $29,000,000.

Project 84-D-211, safeguards and site security upgrading, Y-12 Plant, Oak Ridge, Tennessee, $27,220,000, for a total project authorization of $50,220,000.

Project 82-D-107, utilities and equipment restoration, replacement, and upgrade, phase III, various locations, $97,904,000, for a total project authorization of $838,304,000.

Project 82-D-144, simulation technology laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $6,000,000, for a total project authorization of $40,000,000.

(2) For materials production:

Project 87-D-146, general plant projects, various locations, $35,980,000.

Project 87-D-149, reduced chemical discharges to process sewers, Richland, Washington, $3,150,000.

Project 87-D-159, environmental, health, and safety improvements, phase I, Feed Materials Production Center, Fernald, Ohio, $10,000,000.

Project 86-D-149, productivity retention program, phases I and II, various locations, $71,625,000, for a total project authorization of $95,825,000.

Project 86-D-150, in-core neutron monitoring system, N reactor, Richland, Washington, $2,760,000, for a total project authorization of $7,220,000.

Project 86-D-151, PUREX electrical system upgrade, Richland, Washington, $3,780,000, for a total project authorization of $6,280,000.

Project 86-D-152, reactor electrical distribution system, Savannah River, South Carolina, $8,410,000, for a total project authorization of $10,410,000.

Project 86-D-153, additional line III furnace, Savannah River, South Carolina,

$7,605,000, for a total project authorization of $9,105,000.

Project 86-D-154, effluent treatment facility, Savannah River, South Carolina, $0, for a total project authorization of $2,500,000.

Project 86-D-156, plantwide safeguards systems, Savannah River, South Carolina, $13,610,000, for a total project authorization of $16,610,000.

Project 86-D-157, hydrofluorination system—FB-line, Savannah River, South Carolina, $2,310,000, for a total project authorization of $4,510,000.

Project 85-D-139, fuel processing restoration, Idaho Fuels Processing Facility, Idaho National Engineering Laboratory (INEL), Idaho, $36,530,000, for a total project authorization of $58,530,000.

Project 85-D-140, productivity and radiological improvements, Feed Materials Production Center, Fernald, Ohio, $23,500,000, for a total project authorization of $41,500,000.

Project 85-D-145, fuel production facility, Savannah River, South Carolina, $33,500,000, for a total project authorization of $59,300,000.

Project 84-D-134, safeguards and security improvements, plantwide, Savannah River, South Carolina, $7,515,000, for a total project authorization of $34,415,000.

Project 84-D-135, process facility modifications, Richland, Washington, $34,475,000, for a total project authorization of $66,975,000.

Project 84-D-136, enriched uranium conversion facility modifications, Y-12 Plant, Oak Ridge, Tennessee, $1,000,000, for a total project authorization of $20,600,000.

Project 82-D-124, restoration of production capabilities, phases II, III, IV, and V, various locations, $3,511,000, for a total project authorization of $352,045,000.

(3) For defense waste and byproducts management:

Project 87-D-171, general plant projects, interim waste operations and long-term waste management technology, various locations, $26,535,000.

Project 87-D-172, WESF K-3 filter upgrade, Richland, Washington, $500,000.

Project 87-D-173, 242-A evaporator crystallizer upgrade, Richland, Washington, $2,800,000.

Project 87-D-174, 241-AQ tank farm, Richland, Washington, $2,100,000.

Project 87-D-175, steam system rehabilitation, phase I, Richland, Washington, $900,000.

Project 87-D-177, test reactor area liquid radioactive waste cleanup system, phase III, Idaho National Engineering Laboratory (INEL), Idaho, $700,000.

Project 87-D-180, burial ground expansion, Savannah River, South Carolina, $6,300,000.

Project 87-D-181, diversion box and pump pit containment buildings, Savannah River, South Carolina, $1,360,000.

Project 86-D-172, B-plant F-filter, Richland, Washington, $2,949,000, for a total project authorization of $3,949,000.

Project 86-D-174, low-level waste processing and shipping system, Feed Materials Production Center, Fernald, Ohio, $9,872,000, for a total authorization of $12,372,000.

Project 86-D-175, Idaho National Engineering Laboratory security upgrade, Idaho National Engineering Laboratory (INEL), Idaho, $7,258,000, for a total project authorization of $9,258,000.

Project 85-D-158, central warehouse upgrade, Richland, Washington, $1,044,000, for a total project authorization of $6,744,000.

Project 85-D-159, new waste transfer facilities, Savannah River, South Carolina, $7,318,000, for a total project authorization of $27,318,000.

Project 85-D-160, test reactor area security system upgrade, Idaho National Engineering Laboratory (INEL), Idaho, $2,703,000, for a total project authorization of $6,953,000.

Project 81-T-105, defense waste processing facility, Savannah River, South Carolina, $123,967,000, for a total project authorization of $721,467,000.

(4) For verification and control technology:

Project 85-D-171, space science laboratory, Los Alamos, New Mexico, $2,000,000, for a total project authorization of $7,500,000.

(5) For naval reactors development:

Project 87-N-101, general plant projects, various locations, $4,800,000.

Project 87-N-102, Kesselring site facilities upgrade, Knolls Atomic Power Laboratory, West Milton, New York, $5,000,000.

Project 87-N-103, computation laboratory addition, Bettis Atomic Power Laboratory, West Mifflin, Pennsylvania, $2,300,000.

(6) For capital equipment not related to construction—

(A) for weapons activities, $287,870,000;

(B) for materials production, $126,090,000;

(C) for defense waste and byproducts management, $37,805,000;

(D) for verification and control technology, $4,200,000;

(E) for nuclear safeguards and security, $4,800,000; and

(F) for naval reactors development, $51,700,000.

SEC. 3113. UNDISTRIBUTED REDUCTIONS

(a) TOTAL AUTHORIZATION.—Notwithstanding sections 3111 and 3112, the total amount authorized to be appropriated to the Department of Energy in this division for national security programs is $7,425,225,000.

(b) REQUIREMENT FOR PROJECT REDUCTIONS.—The Secretary of Energy shall reduce such projects listed in sections 3111 and 3112 in such amounts as he determines appropriate to achieve a total reduction of $300,000,000.

SEC. 3114. BALANCED TECHNOLOGY INITIATIVE

(a) LIMITATION ON FUNDS FOR SDI.—Of the funds authorized to be appropriated in sections 3111 and 3112, not more than $356,000,000 shall be available for research, development, test, and evaluation, and other purposes, in connection with the Strategic Defense Initiative program.

(b) CONVENTIONAL MUNITIONS.—(1) Of the funds authorized to be appropriated in section 3111—

(A) $24,000,000 shall be available to Department of Energy laboratories only for research on advanced conventional munitions and warhead concepts; and

(B) $10,000,000 shall be available only to provide methodological support to the Office of Munitions of the Department of Defense.

(2) In achieving the reduction required to be made under section 3113(b), the Secretary of Energy may not apply any reduction to the amount of funds made available for the purposes specified in paragraph (1) of this subsection.

## TITLE II—GENERAL PROVISIONS

### PART A—RECURRING GENERAL PROVISIONS

SEC. 3121. REPROGRAMMING

(a) NOTICE TO CONGRESS.—Except as otherwise provided in this division—

(1) no amount appropriated pursuant to this division may be used for any program in excess of 105 percent of the amount authorized for that program by this division or $10,000,000 more than the amount authorized for that program by this division, whichever is the lesser, and

(2) no amount appropriated pursuant to this division may be used for any program which has not been presented to, or requested of, the Congress,

unless a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the appropriate committees of Congress of notice from the Secretary of Energy (hereinafter in this title referred to as the "Secretary") containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or unless each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.

(b) LIMITATION ON AMOUNT OBLIGATED.—In no event may the total amount of funds obligated pursuant to this division exceed the total amount authorized to be appropriated by this title.

SEC. 3122. LIMITS ON GENERAL PLANT PROJECTS

(a) IN GENERAL.—The Secretary may carry out any construction project under the general plant projects provisions authorized by this division if the total estimated cost of the construction project does not exceed $1,200,000.

(b) REPORT TO CONGRESS.—If at any time during the construction of any general plant project authorized by this division, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds $1,200,000, the Secretary shall immediately furnish a complete report to the appropriate committees of Congress explaining the reasons for the cost variation.

SEC. 3123. LIMITS ON CONSTRUCTION PROJECTS

(a) IN GENERAL.—Whenever the current estimated cost of a construction project, which is authorized by section 3112 of this division, or which is in support of national security programs of the Department of Energy and was authorized by any previous Act, exceeds by more than 25 percent the higher of—

(1) the amount authorized for the project; or

(2) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress,

construction may not be started or additional obligations incurred in connection with the project above the total estimated cost, as the case may be, unless a period of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three days to a day certain) has passed after receipt by the appropriate committees of the Congress of written notice from the Secretary containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of the action, or unless each committee before the expiration of such period has notified the Secretary it has no objection to the proposed action.

(b) EXCEPTION.—Subsection (a) shall not apply to any construction project which has

a current estimated cost of less than $5,000,000.

SEC. 3124. FUND TRANSFER AUTHORITY

To the extent specified in appropriation Acts, funds appropriated pursuant to this division may be transferred to other agencies of the Government for the performance of the work for which the funds were appropriated, and funds so transferred may be merged with the appropriations of the agency to which the funds are transferred.

SEC. 3125. AUTHORITY FOR EMERGENCY CONSTRUCTION DESIGN

In addition to the advance planning and construction design authorized by section 3112 of this division, the Secretary may perform planning and design utilizing available funds for any Department of Energy national security program construction project whenever the Secretary determines that the design must proceed expeditiously in order to meet the needs of national defense or to protect property or human life.

SEC. 3126. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY

Subject to the provisions of appropriation Acts, amounts appropriated pursuant to this division for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 3127. AVAILABILITY OF FUNDS

When so specified in an appropriation Act, amounts appropriated for "Operating Expenses" or for "Plant and Capital Equipment" may remain available until expended.

PART B—MISCELLANEOUS PROVISION

SEC. 3131. COMPLIANCE WITH ENVIRONMENTAL REQUIREMENTS

Notwithstanding any other provision of law, none of the funds appropriated pursuant to an authorization in this or any other Act may be used to pay any penalty, fine, forfeiture, or settlement, or to perform any work or services requested by another department or agency of the Federal Government or of any agency of a State or local government for any failure by the Department of Energy to comply with an environmental requirement in connection with any defense activity or any defense related facility in excess of the amount specifically appropriated to the Department of Energy to comply with such environmental requirement.

SEC. 3132. IMPLEMENTATION OF THE RECOMMENDATIONS OF THE PRESIDENT'S BLUE RIBBON TASK GROUP ON NUCLEAR WEAPONS PROGRAM MANAGEMENT

(a) ESTABLISHMENT OF COUNCIL.—Chapter 7 of title 10, United States Code, is amended by adding at the end the following new section:

"(2) The Vice Chairman of the Joint Chiefs of Staff.

"(3) One senior representative of the Department of Energy appointed by the Secretary of Energy.

"(b)(1) Except as provided in paragraph (2), the Chairman of the Council shall be the member appointed under subsection (a)(1).

"(2) A meeting of the Council shall be chaired by the representative appointed under subsection (a)(3) whenever the matter under consideration is within the primary responsibility or concern of the Department of Energy, as determined by majority vote of the Council.

"(c)(1) The Secretary of Defense and the Secretary of Energy shall enter into an agreement with the Council to furnish necessary staff and administrative services to the Council.

"(2) The Assistant to the Secretary of Defense for Atomic Energy shall be the Staff Director of the Council.

"(d)(1) The Council shall be responsible for the following matters:

"(A) Preparing the annual Nuclear Weapons Stockpile Memorandum.

"(B) Developing nuclear weapons stockpiles options and the costs of such options.

"(C) Coordinating programming and budget matters pertaining to nuclear weapons programs between the Department of Defense and the Department of Energy.

"(D) Identifying various options for cost-effective schedules for nuclear weapons production.

"(E) Considering safety, security, and control issues for existing weapons and for proposed new weapon program starts.

"(F) Ensuring that adequate consideration is given to design, performance, and cost tradeoffs for all proposed new nuclear weapons programs.

"(G) Providing broad guidance regarding priorities for research on nuclear weapons.

"(H) Preparing comments on annual proposals for budget levels for research on nuclear weapons and transmitting those comments to the Secretary of Defense and the Secretary of Energy before the preparation of the annual budget requests by the Secretaries of those departments.

"(I) Providing—

"(i) broad guidance regarding priorities for research on improved conventional weapons, and

"(ii) comments on annual proposals for budget levels for research on improved conventional weapons,

"and transmitting such guidance and comments to the Secretary of Defense before the preparation of the annual budget request of the Department of Defense.

"(e) The Council shall submit to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report on the actions that have been taken by the Department of Defense and the Department of Energy to implement the recommendations of the President's Blue Ribbon Task Group on Nuclear Weapons Program Management. The Council shall include in such report its recommendations on the role and composition of the staff of the Council. The Council shall submit such report to the Committees not later than March 1, 1987.".

(f) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"179. The Nuclear Weapons Council.".

(g) CHAIRMAN OF JCS TO SERVE ON COUNCIL IF THERE IS NO VICE CHAIRMAN OF JCS.—If on the date of the enactment of this section the position of Vice Chairman of the Joint Chiefs of Staff, or comparable position, has not been established by law, the Chairman of the Joint Chiefs of Staff shall be a member of the Nuclear Weapons Council established by section 179 of title 10, United States Code, as added by subsection (a). If the position of Vice Chairman of the Joint Chiefs of Staff (or comparable position) is established by law after the date of the enactment of this section, the Chairman of the Joint Chiefs of Staff shall remain a member of such Council only until an individual has been appointed Vice Chairman of the Joint Chiefs of Staff.

(h) REPEAL.—Section 26 of the Atomic Energy Act of 1946 (42 U.S.C. 2037) is repealed.

SEC. 3133. REPORT BY SECRETARY OF ENERGY

The Secretary of Energy shall submit a report to the Committees on Armed Services of the Senate and the House of Representatives on the costs and safety factors involved in constructing adequate containment facilities for nuclear reactors of the Department of Energy compared with the costs and safety factors involved in constructing a new production reactor.

SEC. 3134. EXTENSION OF DATE FOR CERTAIN CONTRACT AUTHORITY

Section 94 of the Atomic Energy Community Act of 1955 (42 U.S.C. 2394) is amended by striking out "June 30, 1986" and inserting in lieu thereof "June 30, 1996".

## DIVISION E—BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION PROGRAM

SEC. 5100. SHORT TITLE

This division may be cited as the "Barry Goldwater Scholarship and Excellence in Education Act".

SEC. 5101. STATEMENT OF PURPOSES

The Congress finds that—

(1) Senator Barry Goldwater has served his country for 56 years as a soldier and statesman, including service in the United States Senate for a period of 30 years;

(2) Senator Goldwater has a distinguished record as Chairman of the Select Committee on Intelligence of the Senate and as Chairman of the Committee on Armed Services of the Senate; and

(3) Senator Goldwater has long maintained a special interest in the education of America's youth, particularly in the fields of science and mathematics; and

(4) it would, therefore, be a fitting tribute to the leadership, courage, and vision of Senator Goldwater to establish in his name a scholarship program to foster and encourage excellence in science and mathematics.

SEC. 5102. DEFINITIONS

In this division:

(1) The term "Foundation" means the Barry Goldwater Scholarship and Excellence in Education Foundation established under section 5103(a).

(2) The term "Board" means the Board of Trustees of the Barry Goldwater Scholarship and Excellence in Education Foundation established under section 5103(b).

(3) The term "fund" means the Barry Goldwater Scholarship and Excellence in Education Fund provided for under section 5108.

(4) The term "institution of higher education" means any such institution as defined by section 1201(a) of the Higher Education Act of 1965.

(5) The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, and, considered as a single entity, Guam, the Virgin Islands, American Samoa, the Trust Territories of the Pacific Islands, and the Commonwealth of the Northern Marianas.

(6) The term "eligible person" means a citizen or national of the United States or a permanent resident alien of the United States.

SEC. 5103. ESTABLISHMENT OF THE BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION FOUNDATION

(a) There is established, as an independent establishment of the executive branch of the United States Government, the Barry

Goldwater Scholarship and Excellence in Education Foundation.

(b) The Foundation shall be subject to the supervision and direction of the Board of Trustees. The Board shall be composed of 13 members, as follows:

(1) Two members from the Senate, one appointed by the majority leader and one appointed by the minority leader of the Senate.

(2) Two members of the House of Representatives, one appointed by the majority leader and one appointed by the minority leader of the House of Representatives.

(3) Eight members, not more than four of whom shall be of the same political party, to be appointed by the President, by and with the advice and consent of the Senate, at least one of whom shall be a representative of the aerospace industry and at least one of whom shall be a representative of a private foundation concerned with aerospace education.

(4) The Secretary of Education, or his designee, who shall serve ex officio as a member of the Board but shall not be eligible to serve as Chairman.

(c) The term of office of each member of the Board shall be six years, except that (1) the members first taking office shall serve as designated by the President, four for terms of two years, five for terms of four years, and four for terms of six years, and (2) any member appointed to fill a vacancy shall serve for the remainder of the term for which his predecessor was appointed and shall be appointed in the same manner as the original appointment for that vacancy was made.

(d) Members of the Board shall serve without pay, but shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred in the performance of their duties.

SEC. 5104. BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION AWARDS

(a)(1) The Foundation is authorized to award scholarships and fellowships to eligible persons for study in the fields of science and mathematics. Such scholarships and fellowships shall be awarded to persons as provided in this division who meet the minimum criteria established by the Foundation.

(2) Scholarships shall be awarded to outstanding undergraduate students who intend to pursue careers in mathematics and the natural sciences.

(3) Fellowships shall be awarded to outstanding graduate students who intend to pursue advanced degrees in mathematics and the natural sciences.

(4) The Foundation shall also award scholarships to eligible persons selected on the basis of nationwide competition.

(b) Recipients of scholarships and fellowships under this division shall be known as "Barry Goldwater Scholars".

(c)(1) The Foundation is authorized to award honoraria to outstanding educators, teachers, and persons who have volunteered to assist in secondary schools who have made significant contributions to improve the quality of instruction in mathematics and sciences in the secondary school as follows:

(a) To two such persons selected at large from each State.

(B) To one such person selected from each county in each State.

(2) The Board shall establish a schedule of honoraria to be awarded under paragraph (1).

(3) The Board shall adopt regulations which provide that persons affiliated with secondary schools on military reservations and with the dependent overseas school system shall be appropriately represented among those persons who receive awards under this division.

SEC. 5106. STIPENDS.

Each person awarded a scholarship or fellowship under this division shall receive a stipend which shall not exceed the cost to such person for tuition, fees, books, room and board, or such lesser amount as may be prescribed by the Board.

SEC. 5107. SCHOLARSHIP CONDITIONS

(a) A person awarded a scholarship under this division may receive payments authorized under this division only during such periods as the Foundation finds that the person is maintaining satisfactory proficiency and devoting full time to study or research and is not engaging in gainful employment other than employment approved by the Foundation pursuant to regulations of the Board.

(b) The Foundation is authorized to require reports containing such information in such form and to be filed at such times as the Foundation determines to be necessary from any person awarded a scholarship under this division. Such reports shall be accompanied by a certificate from an appropriate official at the institution of higher education, approved by the Foundation, stating that such person is making satisfactory progress in, and is devoting essentially full time to, study or research, except as otherwise provided in subsection (a).

SEC. 5108. BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION FUND

(a) There is established in the Treasury of the United States a trust fund to be known as the Barry Goldwater Scholarship and Excellence and Education Fund. The fund shall consist of amounts appropriated to it pursuant to section 5112.

(b) It shall be the duty of the Secretary of the Treasury to invest in full the amounts appropriated to the fund. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired (1) on original issue at the issue price, or (2) by purchase of outstanding obligations at the market place. The purposes for which obligations of the United States may be issued under the Second Liberty Bond Act are hereby extended to authorize the issuance at par of special obligations exclusively to the fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month next preceding the date of such issue, borne by all marketable interest-bearing obligations of the United States then forming a part of the public debt, except that where such average rate is not a multiple of ⅛ of 1 percent, the rate of interest of such special obligations shall be the multiple of ⅛ of 1 percent next lower than such average rate. Such special obligations shall be issued only if the Secretary determines that the purchases of other interest-bearing obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States or original issue or at the market price, is not in the public interest.

(c) Any obligation acquired by the fund (except special obligations issued exclusively to the fund) may be sold by the Secretary at the market price, and such special obligations may be redeemed at par plus accrued interest.

(d) The interest on, and the proceeds from the sale or redemption of, any obligations held in the fund shall be credited to and form a part of the fund.

SEC. 5109. EXPENDITURES FROM THE FUND

(a) The Secretary of the Treasury is authorized to pay to the Foundation from the interest and earnings of the fund such sums as the Board determines are necessary and appropriate to enable the Foundation to carry out the purposes of this division.

(b) The activities of the Foundation under this division may be audited by the General Accounting Office under such rules and regulations as may be prescribed by the Comptroller General of the United States. Representatives of the General Accounting Office shall have access to all books, accounts, records, reports, and files and all other papers, things, or property belonging to or in use by the Foundation pertaining to such activities and necessary to facilitate the audit.

SEC. 5110. EXECUTIVE SECRETARY

(a) There shall be an Executive Secretary of the Foundation who shall be appointed by the Board. The Executive Secretary shall be the chief executive officer of the Foundation and shall carry out the functions of the Foundation subject to the supervision and direction of the Board. The Executive Secretary shall carry out such other functions consistent with the provisions of this division as the Board shall prescribe.

(b) The Executive Secretary of the Foundation shall be compensated at the rate specified for employees in grade GS-18 of the General Schedule under section 5332 of title 5, United States Code.

SEC. 5111. ADMINISTRATIVE PROVISIONS

(a) In order to carry out the provisions of this division, the Foundation is authorized to—

(1) appoint and fix the compensation of such personnel as may be necessary to carry out the provisions of this division, except that in no case may an employee other than the Executive Secretary be compensated at a rate to exceed the maximum rate provided for employees in grade GS-15 of the General Schedule under section 5332 of title 5, United States Code;

(2) procure temporary and intermittent services of experts and consultants as are necessary to the extent authorized by section 3109 of title 5, United States Code, but at rates not to exceed the rate specified at the time of such service for grade GS-18 under section 5332 of such title;

(3) prescribe such regulations as it considers necessary governing the manner in which its functions shall be carried out;

(4) receive money and other property donated, bequeathed, or devised, without condition or restriction other than it be used for the purposes of the Foundation, and to use, sell, or otherwise dispose of such property for the purpose of carrying out its functions;

(5) accept and utilize the services of voluntary and noncompensated personnel and for travel expenses, including per diem, as authorized by section 5703 of title 5, United States Code;

(6) enter into contracts or other arrangements, or make grants, to carry out the provisions of this division, and enter into such contracts or other arrangements, or make such grants, with the concurrence of two-thirds of the members of the Board, with-

out performance or other bonds and without regard to section 3709 of the Revised Statutes (41 U.S.C. 5);

(7) make advances, progress, and other payments which the Board considers necessary under this division without regard to the provisions of section 3324 of title 31, United States Code;

(8) rent office space in the District of Columbia; and

(9) make other necessary expenditures.

(b) The Foundation shall submit to the President and to Congress an annual report of its operations under this division.

SEC. 5112. APPROPRIATIONS AUTHORIZED

There are authorized to be appropriated to the Department of Defense $40,000,000 to be transferred to the Treasury for the fund.

## DIVISION F—CHILD NUTRITION

## TITLE I REAUTHORIZATION OF CHILD NUTRITION PROGRAMS

SEC. 6101. SUMMER FOOD SERVICE PROGRAM FOR CHILDREN

Section 13(p) of the National School Lunch Act (42 U.S.C. 1761(p)) is amended by striking out "1984" and inserting in lieu thereof "1989".

SEC. 6102 COMMODITY DISTRIBUTION PROGRAM

Section 14(a) of the National School Lunch Act (42 U.S.C. 1762a(a)) is amended by striking out "1984" and inserting in lieu thereof "1989".

SEC. 6103. STATE ADMINISTRATIVE EXPENSES

Section 17(i) of the Child Nutrition Act of 1966 (42 U.S.C. 1776(i)) is amended by striking out "1984" and inserting in lieu thereof "1989".

SEC. 6104. SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS, AND CHILDREN

Section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786) is amended—

(1) in subsection (c)(2) by striking out "Subject to" and all that follows through "1984" and inserting in lieu thereof "Subject to amounts appropriated to carry out this section under subsection (g)";

(2) in subsection (g)—

(A) by designating the first and second sentences as paragraphs (1) and (3), respectively; and

(B) by amending paragraph (1) (as so designated) to read as follows:

"(1) There are authorized to be appropriated to carry out this section $1,570,000,000 for the fiscal year ending September 30, 1986, such sums as may be necessary for each of the fiscal years ending September 30, 1987, and September 30, 1988, and $1,782,000,000 for the fiscal year ending September 30, 1989."; and

(3) in subsection (h)(2), by striking out "1984" and inserting in lieu thereof "1989".

SEC. 6105 NUTRITION EDUCATION AND TRAINING PROGRAM

The first sentence of section 19(j)(2) of the Child Nutrition Act of 1966 (42 U.S.C. 1788(j)(2)) is amended by striking out "1984" and inserting in lieu thereof "1989".

## TITLE II—SCHOOL LUNCH AND BREAKFAST PROGRAMS

SEC. 6201. BASIS OF COMMODITY ASSISTANCE

Section 6(b) of the National School Lunch Act (42 U.S.C. 1755(b)) is amended—

(1) in the first sentence, by striking out "May 15" and inserting in lieu thereof "June 1"; and

(2) in the second sentence, by striking out "June 15" and inserting in lieu thereof "July 1".

SEC. 6202. INCLUSION OF WHOLE MILK AS A SCHOOL LUNCH BEVERAGE.

Effective July 1, 1986, section 9(a) of the National School Lunch Act (42 U.S.C. 1758(a)) is amended—

(1) by designating the first, second, and third sentences as paragraphs (1), (3), and (4), respectively; and

(2) by inserting after paragraph (1) (as so designated) the following new paragraph:

"(2) In addition to such other forms of milk as the Secretary may determine, the lunches shall offer whole milk as a beverage.".

SEC. 6203. AUTOMATIC ELIGIBILITY FOR CERTAIN PROGRAMS.

Effective July 1, 1986, section 9(b) of the National School Lunch Act (42 U.S.C. 1758(b)) is amended by adding at the end thereof the following new paragraph:

"(6)(A) A child shall be considered automatically eligible for a free lunch and breakfast under this Act and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.), respectively, without further application or eligibility determination, if the child is a member of—

"(i) a household receiving assistance under the food stamp program authorized under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.); or

"(ii) an AFDC assistance unit (under the aid to families with dependent children program authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.)), in a State where the standard of eligibility for the assistance does not exceed 130 percent of the poverty line (as defined in section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))).

"(B) Proof of receipt of food stamps or aid to families with dependent children shall be sufficient to satisfy any verification requirement imposed under paragraph (2)(C).".

SEC. 6204. LIMITATION ON MEAL CONTRACTING.

Effective July 1, 1986, section 9 of the National School Lunch Act (42 U.S.C. 1758) is amended by adding at the end thereof the following new subsection:

"(e) A school or school food authority participating in a program under this Act may not contract with a food service company to provide a la carte food service unless the company agrees to offer free, reduced-price, and full-price reimbursable meals to all eligible children.".

SEC. 6205 CHANGE IN TUITION LIMITATION FOR PRIVATE SCHOOLS.

(a) SCHOOL LUNCH PROGRAMS.—Section 12(d)(5) of the National School Lunch Act (42 U.S.C. 1760(d)(5)) is amended—

(1) in clause (A) of the first sentence, by striking out "$1,500" and inserting in lieu thereof "$2,000"; and

(2) by adding at the end thereof the following new sentence: "On July 1, 1988, and each July 1 thereafter, the Secretary shall adjust the tuition limitation amount prescribed in clause (A) of the first sentence of this paragraph to reflect changes in the Consumer Price Index for All Urban Consumers during the most recent 12-month period for which the data is available.".

(b) SCHOOL BREAKFAST PROGRAMS.—Section 15(c) of the Child Nutrition Act of 1966 (42 U.S.C. 1784(c)) is amended—

(1) in clause (A) of the first sentence, by striking out "$1,500" and inserting in lieu thereof "$2,000"; and

(2) by adding at the end thereof the following new sentence: "On July 1, 1988, and each July 1 thereafter, the Secretary shall adjust the tuition limitation amount prescribed in clause (A) of the first sentence of this paragraph to reflect changes in the Consumer Price Index for All Urban Consumers during the most recent 12-month period for which the data is available.".

(c) APPLICATION.—(1) The amendments made by subsections (a)(1) and (b)(1) shall apply for the fiscal year beginning on October 1, 1986, and each school year thereafter.

(2) The amendments made by subsections (a)(2) and (b)(2) shall apply for the school year beginning on July 1, 1988, and each school year thereafter.

SEC. 6206. USE OF SCHOOL LUNCH FACILITIES FOR ELDERLY PROGRAMS

Section 12 of the National School Lunch Act (42 U.S.C. 1760) is amended by adding at the end thereof the following new subsection:

"(i) Facilities, equipment, and personnel provided to a school food authority for a program authorized under this Act or the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) may be used, as determined by a local educational agency, to support a nonprofit nutrition program for the elderly, including a program funded under the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).".

SEC. 6207. PILOT PROJECTS FOR ADMINISTRATION OF CHILD NUTRITION PROGRAMS BY CONTRACT OR DIRECT DISBURSEMENT

(a) PILOT PROJECTS.—Section 20 of the National School Lunch Act (42 U.S.C. 1769) is amended by striking out subsection (d) and inserting in lieu thereof the following new subsection:

"(d) The Secretary may conduct pilot projects in not more than three States in which the Secretary is currently administering programs to evaluate the effects of the Secretary contracting with private profit and nonprofit organizations to act as a State agency under this Act and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) for schools, institutions, or service institutions referred to in section 10 of this Act and section 5 of the Child Nutrition Act of 1966 (42 U.S.C. 1774).".

(b) CONFORMING AMENDMENT.—The first sentence of section 20(c) of the National School Lunch Act is amended by striking out "except for the pilot projects conducted under subsection (d) of this section,".

SEC. 6208. DEPARTMENT OF DEFENSE OVERSEAS DEPENDENTS' SCHOOLS

(a) SCHOOL LUNCHES.—Section 22(d) of the National School Lunch Act (42 U.S.C. 1769b(d)) (as added by section 1408(a) of the Education Amendments of 1978 (92 Stat. 2368)) is amended by striking out "and for" and all that follows through "reduced-price lunch".

(b) SCHOOL BREAKFASTS.—Section 20(d) of the Child Nutrition Act of 1966 (42 U.S.C. 1789) is amended by striking out "and for" and all that follows through "reduced-price breakfast".

SEC. 6209. RESTORATION OF CERTAIN KINDERGARTENS TO THE SPECIAL MILK PROGRAM.

Effective October 1, 1986, section 3(a) of the Child Nutrition Act of 1966 (42 U.S.C. 1772(a)) is amended—

(1) in the first sentence—

(A) by inserting "(1)" after the subsection designation;

(B) by redesignating clauses (1) and (2) as subparagraphs (A) and (B), respectively; and

(C) in subparagraph (A) (as so redesignated), by inserting "except as provided in paragraph (2)," after "and under,";

(2) by designating the second through eighth sentences as paragraphs (3) through (9), respectively; and

(3) by inserting after paragraph (1) (as so designated) the following new paragraph:

"(2) The limitation imposed under paragraph (1)(A) for participation of nonprofit schools in the special milk program shall not apply to split-session kindergarten programs conducted in schools in which children do not have access to the meal service program operating in schools the children attend as authorized under this Act or the National School Lunch Act (42 U.S.C. 1751 et seq.).".

SEC. 6210. IMPROVEMENT OF BREAKFAST PROGRAM MEAL PATTERN.

(a) ADDITIONAL ASSISTANCE.—Effective October 1, 1986, section 4(b) of the Child Nutrition Act of 1966 (42 U.S.C. 1773(b)) is amended by adding at the end thereof the following new paragraphs:

"(3) The Secretary shall increase by 3 cents the annually adjusted payment for each breakfast served under this Act and section 17 of the National School Lunch Act (42 U.S.C. 1776). These funds shall be used to assist States, to the extent feasible, in improving the nutritional quality of the breakfasts.

"(4) Notwithstanding any other provision of law, whenever stocks of agricultural commodities are acquired by the Secretary or the Commodity Credit Corporation and are not likely to be sold by the Secretary or the Commodity Credit Corporation or otherwise used in programs of commodity sale or distribution, the Secretary shall make such commodities available to school food authorities and eligible institutions serving breakfasts under this Act in a quantity equal in value to not less than 3 cents for each breakfast served under this Act and section 17 of the National School Lunch Act.

"(5) Expenditures of funds from State and local sources for the maintenance of the breakfast program shall not be diminished as a result of funds or commodities received under paragraph (3) or (4).".

(b) NUTRITION REQUIREMENTS.—(1) The Secretary of Agriculture shall review and revise the nutrition requirements for meals served under the breakfast program authorized under the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) and section 17 of the National School Lunch Act (42 U.S.C. 1766) to improve the nutritional quality of the meals, taking into consideration both the findings of the National Evaluation of School Nutrition Programs and the need to provide increased flexibility in meal planning to local food authorities.

(2) Not later than 180 days after the date of enactment of this Act, the Secretary of Agriculture shall promulgate regulations to implement the revisions.

SEC. 6211. EXTENSION OF OFFER VERSUS SERVE PROVISION TO THE SCHOOL BREAKFAST PROGRAM.

Section 4(e) of the Child Nutrition Act of 1966 (42 U.S.C. 1773 (e)) is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) At the option of a local school food authority, a student in a school under the authority that participates in the school breakfast program under this Act may be allowed to refuse not more than one item of a breakfast that the student does not intend to consume. A refusal of an offered food item shall not affect the full charge to the student for a breakfast meeting the requirements of this section or the amount of payments made under this Act to a school for the breakfast.".

SEC. 6212. STAFFING STANDARDS.

Section 7 of the Child Nutrition Act of 1966 (42 U.S.C. 1776) (as amended by section 103) is further amended—

(1) by striking out subsection (b); and

(2) by redesignating subsections (c) through (i) as subsections (b) through (h), respectively.

## TITLE III—SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS, AND CHILDREN

SEC. 6301. COSTS FOR NUTRITION SERVICES AND ADMINISTRATION.

(a) DEFINITIONS.—Section 17(b) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)) is amended—

(1) by striking out paragraph (1);

(2) by redesignating paragraphs (2), (3), and (4) as paragraphs (1), (2), and (3), respectively; and

(3) by inserting after paragraph (3) (as so redesignated) the following new paragraph:

"(4) 'Costs for nutrition services and administration' means costs that shall include, but not be limited to, costs for certification of eligibility of persons for participation in the program (including centrifuges, measuring boards, spectrophotometers, and scales used for the certification), food delivery, monitoring, nutrition education, outreach, startup costs, and general administration applicable to implementation of the program under this section, such as the cost of staff, transportation, insurance, developing and printing food instruments, and administration of State and local agency offices.".

(b) CONFORMING AMENDMENTS.— Section 17 of such Act is amended—

(1) by striking out "administrative funds" each place it appears in subsections (f)(11), (h)(2), (h)(3), and (h)(4) and inserting in lieu thereof "funds for nutrition services and administration"; and

(2) by striking out "administrative costs" each place it appears in subsection (h) and inserting in lieu thereof "costs for nutrition services and administration".

SEC. 6302. STATE ELIGIBILITY FOR WIC FUNDS

(a) ELIGIBILITY.—Section 17(c) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(c)) is amended by adding at the end thereof the following new paragraph:

"(4) A State shall be ineligible to participate in programs authorized under this section if the Secretary determines that State or local sales taxes are collected within the State on purchases of food made to carry out this section.".

(b) APPLICATION.— The amendment made by subsection (a) shall apply to a State beginning with the fiscal year that commences after the end of the first regular session of the State legislature following the date of the enactment of this Act.

SEC. 6303. PARTICIPATION REPORT

(a) BIENNIAL REPORT.— Section 17(d) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(d)) is amended by adding at the end thereof the following new paragraph:

"(4) The Secretary shall report biennially to Congress on—

"(A) the income and nutritional risk characteristics of participants in the program;

"(B) participation in the program by members of families of migrant farmworkers; and

"(C) such other matters relating to participation in the program as the Secretary considers appropriate.".

(b) USE OF EVALUATION FUNDS FOR REPORT.—Section 17(g)(3) of such Act (as amended by section 104(2)(A)) is further amended by inserting "preparing the report required under subsection (d)(4)," after "health benefits,".

SEC. 6304. PLAN OF OPERATION AND ADMINISTRATION

(a) PLAN.— Paragraph (1) of section 17(f) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(f)(1)) is amended to read as follows:

"(1)(A) Each State agency shall submit annually to the Secretary, by a date specified by the Secretary, a plan of operation and administration for a fiscal year.

"(B) To be eligible to receive funds under this section for a fiscal year, a State agency must receive the approval of the Secretary for the plan submitted for the fiscal year.

"(C) The plan shall include—

"(i) a description of the food delivery system of the State agency and the method of enabling participants to receive supplemental foods under the program, to be administered in accordance with standards developed by the Secretary;

"(ii) a description of the financial management system of the State agency;

"(iii) a plan to coordinate operations under the program with special counseling services, such as the expanded food and nutrition education program, immunization programs, prenatal care, well-child care, family planning, alcohol and drug abuse counseling, child abuse counseling, and with the aid to families with dependent children, food stamp, and maternal and child health care programs;

"(iv) a plan to provide program benefits under this section to, and to meet the special nutrition education needs of, eligible migrants and Indians;

"(v) a plan to expend funds to carry out the program during the relevant fiscal year;

"(vi) a plan to provide program benefits under this section to unserved and underserved areas in the State, if sufficient funds are available to carry out this clause;

"(vii) a plan to provide program benefits under this section to eligible persons most in need of the benefits and to enroll eligible women in the early months of pregnancy, to the maximum extent practicable; and

"(viii) such other information as the Secretary may require.

"(D) The Secretary may permit a State agency to submit only those parts of a plan that differ from plans submitted for previouis fiscal years.

"(E) The Secretary may not approve any plan that permits a person to participate simultaneously in both the program authorized under this section and the commodity supplemental food program authorized under sections 4 and 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note).".

(b) APPLICATION.—The amendment made by subseciton (a) shall apply to a plan submitted by a State agency under section 17(f)(1) of the Child Nutrition Act of 1966 for the fiscal year ending Septemer 30, 1987, and each fiscal year thereafter.

SEC. 6305. PUBLIC COMMENT.

Paragraph (2) of section 17(f) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(f)(2)) is amended to read as follows:

"(2) A State agency shall establish a procedure under which members of the general public are provided an opportunity to comment on the development of the State agency plan.".

SEC. 6306. AVAILABILITY OF PROGRAM BENEFITS.

Paragraph (8) of section 17(f) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(f)(8)) is amended to read as follows:

"(8)(A) The State agency shall, in cooperation with participating local agencies, publicly announce and distribute information on the availability of program benefits (including the eligibility criteria for participation and the location of local agencies operating the program) to offices and organizations that deal with significant numbers of potentially eligible persons (including health and medical organizations, hospitals and clinics, welfare and unemployment offices, social service agencies, farmworkers organizations, Indian tribal organizations, and religious and community organizations in low income areas).

"(B) The information shall be publicly announced by the State agency and by local agencies at least annually.

"(C) The State agency and local agencies shall distribute the information in a manner designed to provide the information to potentially eligible persons who are most in need of the benefits, including pregnant women in the early months of pregnancy.".

SEC. 6307. REPAYMENT OF CERTAIN BENEFITS BY RECIPIENTS.

Effective October 1, 1986, section 17(f) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(f)) is amended by adding at the end thereof the following new paragraph:

"(15) If a State agency determines that a member of a family has received an overissuance of food benefits under the program authorized by this section as the result of such member intentionally making a false or misleading statement or intentionally misrepresenting, concealing, or withholding facts, the State agency shall recover, in cash, from such member an amount that the State agency determines is equal to the value of the overissued food benefits, unless the State agency determines that the recovery of the benefits would not be cost effective.".

SEC. 6308. PRIORITY FUNDS FOR WIC MIGRANT PROGRAMS.

(a) PRIORITY FUNDING.—Effective October 1, 1986, section 17(g) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(g)) (as amended by section 104(2)(A)) is further amended by inserting after paragraph (1) the following new paragraph:

"(2) Of the sums appropriated for any fiscal year for programs authorized under this section, not less than nine-tenths of 1 percent shall be available first for services to eligible members of migrant populations. The migrant services shall be provided in a manner consistent with the priority system of a State for program participation.".

(b) ACCOUNTABILITY.—To the extent possible, accountability for migrant services under section 17(g)(2) of the Child Nutrition Act of 1966 (as added by subsection (a)) shall be conducted under regulations in effect on the date of the enactment of this Act.

SEC. 6309. IMPROVING STATE AGENCY ADMINISTRATIVE SYSTEMS.

Section 17(g)(3) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(g)(3)) (as amended by sections 104(2)(A) and 303(b)) is further amended by inserting "providing technical assistance to improve State agency administrative systems," after "subsection (d)(4),".

SEC. 6310. PAPERWORK REDUCTION.

Section 17(h)(1) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(h)(1)) is amended by adding at the end thereof the following new sentence: "The Secretary shall limit to a minimal level any documentation required under the preceding sentence.".

SEC. 6311. ALLOCATION STANDARDS.

Section 17(h)(3) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(h)(3)) is amended—

(1) in the second sentence, by striking out ", which satisfy allocation guidelines established by the Secretary"; and

(2) by striking out the last sentence.

SEC. 6312. ADVANCE PAYMENTS.

Effective October 1, 1986, section 17(h)(4) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(h)(4)) is amended by striking out "shall" and inserting in lieu thereof "may".

SEC. 6313. AVAILABILITY OF FUNDS.

(a) AVAILABILITY.—Section 17(i) of the Child Nutrition Act of 1966 (42 U.S.C. 1788(i)) is amended—

(1) by designating the first, second, third, fourth, and fifth sentences as paragraphs (1), (2), (4), (5), and (6), respectively; and

(2) by inserting after paragraph (2) (as so designated) the following new paragraph:

"(3)(A) Notwithstanding paragraph (2)—

"(i) not more than 1 percent of the amount of funds allocated to a State agency under this section for supplemental foods for a fiscal year may be expended by the State agency for expenses incurred under this section for supplemental foods during the preceding fiscal year; or

"(ii) not more than 1 percent of the amount of funds allocated to a State agency for a fiscal year under this section may be expended by the State agency during the subsequent fiscal year.

"(B) Any funds made available to a State agency in accordance with subparagraph (A)(ii) for a fiscal year shall not affect the amount of funds allocated to the State agency for such year.".

(b) APPLICATION.—Section 17(i)(3)(A)(i) of the Child Nutrition Act of 1966 (as amended by subsection (a)) shall not apply to appropriations made before the date of enactment of this Act.

## TITLE IV—OTHER NUTRITION PROGRAMS

SEC. 6401. HEARINGS ON FEDERAL AUDIT ACTIONS UNDER THE CHILD CARE FOOD PROGRAM.

Section 17(e) of the National School Lunch Act (42 U.S.C. 1766(e)) is amended—

(1) by striking out "The" and inserting in lieu thereof "(1) Except as provided in paragraph (2), the"; and

(2) by adding at the end thereof the following new paragraphs:

"(2) A State is not required to provide a hearing to an institution concerning a State action taken on the basis of a Federal audit determination.

"(3) If a State does not provide a hearing to an institution concerning a State action taken on the basis of a Federal audit determination, the Secretary, on request, shall afford a hearing to the institution concerning the action.".

SEC. 6402. BASIS FOR NUTRITION EDUCATION GRANTS.

Section 19(j)(2) of the Child Nutrition Act of 1966 (42 U.S.C. 1788(j)(2)) is amended by striking out "$75,000" each place it appears and inserting in lieu thereof "$50,000".

SEC. 6403. EXTENSION OF ALTERNATIVE MEANS OF ASSISTANCE.

Section 14 of the National School Lunch Act (42 U.S.C. 1762a) is amended by adding at the end thereof the following new subsection:

"(g)(1) As used in this subsection, the term 'eligible school district' has the same meaning given such term in section 1581(a) of the food Security Act of 1985.

"(2) In accordance with the terms and conditions of section 1581 of such Act, the Secretary shall permit an eligible school district to continue to receive assistance in the form of cash or commodity letters of credit assistance, in lieu of commodities, to carry out the school lunch program operated in the district.

"(3)(A) On request of a participating school district (and after consultation with the Comptroller General of the United States with respect to accounting procedures used to determine any losses) and subject to the availability of funds, the Secretary shall provide cash compensation to an eligible school district for losses sustained by the district as a result of the alteration of the methodology used to conduct the study referred to in section 1581(a) of such Act during the school year ending June 30, 1983.

"(B) There are authorized to be appropriated $50,000 to carry out out this paragraph, to be available without fiscal year limitation.".

SEC. 6404. NATIONAL DONATED COMMODITY PROCESSING PROGRAMS.

In accordance with the terms and conditions of section 1114(a)(2) of the Agriculture and Food Act of 1981 (7 U.S.C. 1431e(a)(2)), whenever a commodity is made available without charge or credit under any nutrition program administered by the Secretary of Agriculture, the Secretary shall encourage consumption of the commodity through agreements with private companies under which the commodity is reprocessed into end-food products for use by eligible recipient agencies.

## *TITLE V—TECHNICAL CORRECTIONS*

SEC. 6501 OBSOLETE PROVISIONS.

(a) NUTRITION PROGRAM STAFF STUDY; TRUST TERRITORY APPROPRIATIONS.—(1) Sections 18 and 19 of the National School Lunch Act (42 U.S.C. 1767 and 1768) are repealed.

(2) The first sentence of section 3 of such Act (42 U.S.C. 1752) is amended by striking out "sections 13, 17, and 19" and inserting in lieu thereof "sections 13 and 17".

(b) STUDY OF MENU CHOICE.—Section 22 of such Act (42 U.S.C. 1769(c) (as added by section 9 of the Child Nutrition Amendments of 1978 (92 Stat. 3623)) is repealed.

(c) CONFORMING AMENDMENTS.—(1) The National School Lunch Act (as amended by sections 207 and 208(a) and subsection (b)) is further amended by redesignating sections 20, 21, and 22 (42 U.S.C. 1769, 1769a, and 1769(b) as sections 18, 19, and 20, respectively.

(2) Clause (3) of the first sentence of section 6(a) of such Act (42 U.S.C. 1755(a)) is amended by striking out "section 20" and inserting in lieu thereof "section 18".

SEC. 6502. OBSOLETE REFERENCES TO HEALTH, EDUCATION, AND WELFARE.

(a) REFERENCES IN NATIONAL SCHOOL LUNCH ACT.—Clause (1) of the sixth sentence of section 17(a) of the National School Lunch Act (42 U.S.C., 1766(a)) is amended by striking out "Health, Education, and Welfare" and inserting in lieu thereof "Health and Human Services".

(b) REFERENCES IN CHILD NUTRITION ACT OF 1966.—(1) The Child Nutrition Act of 1966 is amended by striking out "Health, Education, and Welfare" each place it appears in section 4(a) (42 U.S.C. 1773(a)), subsections (b)(6), (b)(13), (e)(2), (k)(2) of sec-

tion 17 (42 U.S.C. 1788) and inserting in lieu thereof "Health and Human Services".

(2) Section 19(j)(3) of the Child Nutrition Act of 1966 (42 U.S.C. 1788(j)(3)) is amended by striking out "Office of Education of the Department of Health, Education, and Welfare" and inserting in lieu thereof "Department of Education".

SEC. 6503. CONFORMING AMENDMENTS.

(a) DEFEINITION OF SECRETARY.—Section 12(d) of the National School Lunch Act (42 U.S.C. 1760(d)) is amended by adding at the end thereof the following new paragraph:

"(8) 'Secretary' means the Secretary of Agriculture.".

(b) REDESIGNATION OF SUBSECTION.—Section 19 of the Child Nutrition Act of 1966 (42 U.S.C. 1788) (as amended by sections 105, 402, and 502(d)(2)) is future amended by redesignating subsection (j) as subsection (i).

DIVISION D—CIVIL DEFENSE

SEC. 4101. AUTHORIZATION OF APPROPRIATIONS FOR CIVIL DEFENSE

There is hereby authorized to be appropriated for fiscal year 1987 to carry out provisions of the Federal Civil Defense Act of 1950 (50 U.S.C. App. 251 et seq.) the sum of $111,565,000.

□ 2110

Mr. GOLDWATER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. NUNN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. GOLDWATER. Mr. President, I ask unanimous consent that the bill be printed in full as passed.

The PRESIDING OFFICER. Without objection, it is so ordered.

CHILD NUTRITION AMENDMENT TO DOD REAUTHORIZATION

Mrs. HAWKINS. Mr. President, the amendment at the desk reauthorizes the major Federal child nutrition programs. These programs are the School Lunch and Breakfast Programs, the Summer Food Service Program, the Special Supplemental Food Program and Women, Infants, and Children, known as the WIC Program, and the Commodity Distribution Program.

This amendment reflects an agreement reached in the House-Senate conference on child nutrition programs that met earlier this year. Essentially, it is a cost-neutral amendment. However, the amendment does allow for program growth of 1 percent over current services. The amendment is consistent with the authorization levels in the fiscal year 1987 budget resolution for these programs. Furthermore, the Senate Agriculture Committee has met and reported out a measure that meets its reconciliation instructions under the budget resolution. Those reconciliation instructions do not include any reductions in these programs.

In sum, all of the secondary requirements for passage of this legislation to extend the child nutrition programs have been met.

Mr. President, some Senators may wonder why we are offering this amendment on child nutrition to the DOD authorization bill.

First of all let me say that we are offering this amendment at this time to insure that the child nutrition programs are acted on and sent to the President before the end of this Congress.

Furthermore, the extension of these programs is, in its own way, just as important to our Nation's future as are our defense capabilities. Let me remind Senators that the first of the Federal child nutrition programs, the National School Lunch Act, was enacted in 1946. The School Lunch Program was enacted in direct response to a problem that plagued the U.S. Armed Forces during World War II. During the war, 25 to 30 percent of the recruits were unable to pass their physical examinations because they were malnourished. Congress' response was the creation of a Federal Lunch Program. Let me read from the "Declaration of Congressional Policy" included in the 1946 act. This is a section that remains in the statute today.

§ 1751. Congressional declaration of policy

It is declared to be the policy of Congress, as a measure of national security, to safeguard the health and well-being of the Nation's children and to encourage the domestic consumption of nutritious agricultural commodities and other food, by assisting the States, through grants-in-aid and other means, in providing an adequate supply of foods and other facilities for the establishment, maintenance, operation, and expansion of nonprofit school-lunch programs. June 4, 1946, c. 218 § 2, 60 Stat. 230.

Today, the School Lunch Program provides millions of hot lunches in both public and private schools across the Nation. In my State alone, this program provides almost 170 million lunches a year.

In the years since, several smaller supplemental feeding programs have been created including the School Breakfast Program.

The other major component of this amendment is the WIC Program. Under this program, the people who are helped by the program are those most in need of good nutrition. These are pregnant women and new born infants. Now this is not a traditional "welfare" program. In fact, this is a tightly structured program based on a two-tiered standard of need. The first standard is income. To receive help under this program a person must have income below the 18.5 percent of the poverty line. The second standard is nutritional deficiency. Before the assistance can be provided the pregnant woman or new baby must also be found by a medical doctor to be nutritionally deficient.

When both these standards have been met, then the mother receives a voucher for exactly the foods that will supply the necessary nutritional supplement. Finally, since the WIC Program is not considered an entitlement program it is subject to appropriations. This has led to the development of a priority list that ensures that those most in need of nutritional assistance receive help first.

So the WIC Program is a tight program. It is not a income support program with lots of loopholes. It is, however, a vitally important program that should be extended along with the School Lunch and Breakfast Programs.

Mr. President, let me briefly summarize.

This amendment falls within the budget. Its spending levels are specifically identified in the fiscal year 1987 budget resolution.

These are popular and well-known programs and have broad support. The last major vote on these programs took place during the debate on the fiscal year 1986 budget resolution. An overwhelming majority of Senators supported the programs at that time.

The provisions of the amendment reflect a conference agreement reached between the House and Senate in May and a large majority of members of the Senate Agriculture Committee are cosponsors of the amendment.

We have been working for months to bring this legislation to the floor. Scheduling problems, work in the Agriculture Committee and in other committees, as well as the many important subjects such as aid to the Contras, South Africa, the tax bill, the farm bill technical corrections, have come before the Senate or are being discussed.

But now time is running out. This amendment needs to be acted on before the clock runs out on us. Since it meets the budetary requirements and the programs themselves are relatively noncontroversial it is my hope that we can go ahead with this amendment.

CHILD NUTRITION AMENDMENT ON DOD AUTHORIZATION BILL

Mr. HELMS. Mr. President, while I do not agree with the amendment, or with using this bill as a vehicle for it, I want to be sure we have a thorough explanation of the amendment's provisions regarding child nutrition programs.

I ask unanimous consent that a summary of provisions be printed at the conclusion of my remarks.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SUMMARY OF PROVISIONS

AUTHORIZATION OF APPROPRIATIONS UNDER THE NATIONAL SCHOOL LUNCH ACT

(a) Summer food service program: The amendment extends the authorization of appropriations for the summer food service program through fiscal year 1989.

(b) Commodity distribution program: The amendment extends authority for the commodity distribution program through fiscal year 1989.

AUTHORIZATION OF APPROPRIATIONS UNDER THE CHILD NUTRITION ACT OF 1966

(a) State administrative expenses [SAE]: The amendment extends the authorization of appropriations for the SAE provision through fiscal year 1989.

(b) Special supplemental food program for women, infants, and children [WIC]: The amendment extends the authorization of appropriations for the WIC program through fiscal year 1989 at a level of $1.57 billion for fiscal year 1986, such sums as may be necessary for fiscal years 1987 and 1988, and $1.782 billion for fiscal year 1989.

(c) Nutrition education and training [NET]: The amendment extends the authorization of appropriations for the NET program (at $5 million annually) through fiscal year 1989.

BASIS FOR COMMODITY ASSISTANCE

The amendment changes the dates specified in current law by which the Secretary is to make an estimate of the value of agricultural commodities to be delivered to schools and by which he must provide cash payments for any difference between the estimates of available commodities and the amount of commodity support mandated by law.

Specifically, the amendment requires that the Secretary make estimates of the amount of commodity support available by June 1, instead of May 15; and requires the Secretary to make cash payments for the difference between these estimates and the mandated commodity level by July 1, instead of June 14, of each school year.

INCLUSION OF WHOLE MILK AS A SCHOOL LUNCH BEVERAGE

The amendment requires that schools participating in the school lunch program offer whole milk as a beverage, along with such other forms of milk as the Secretary might require to meet the nutritional requirements of the program.

AUTOMATIC ELIGIBILITY FOR CERTAIN PROGRAMS

The amendment requires that a child who is a member of a household receiving food stamps, or who is a member of an AFDC assistance unit in a State where the income standard of eligibility does not exceed 130 percent of poverty, be served a free lunch and breakfast without further application or eligibility determinations.

Under this amendment, a parent or guardian is still required to complete an application, the local school authorities are still required to determine the applicant's eligibility, and the Secretary, States, and local school for authorities may continue to verify the data contained in the application. However, it is the intent that the application procedure under section 109(b)(2)(B) and the eligibility determination and verification procedures under section 109(b)(2)(C) be simplified by substantially reducing the number of type of inquires made by the applicable agency.

More specifically, indication on the application of receipt of food stamps or AFDC (under the circumstances in the amendment) would be sufficient to satisfy the eligibility requirement and proof of receipt of food stamps or AFDC would be sufficient to satisfy the verification requirement.

LIMITATION OF MEAL CONTRACTING

The amendment prohibits a school or school food authority participating in the school lunch program from contracting with a food service company to provide a la carte meal service unless such company offers free, reduced-price, and full price reimbursable meals to all eligible children.

CHANGE IN TUITION LIMITATION FOR PRIVATE SCHOOLS

The amendment raises from $1500 to $2000 the maximum tuition that a private school may charge and be eligible to participate in federally-assisted child nutrition programs—effective October 1, 1986. The amendment also indexes this limit to inflation by requiring an annual adjustment each July 1, beginning July 1, 1988, to reflect changes in the Consumer Price Index for All Urban Consumers for the most recent 12-month period for which data is available.

USE OF SCHOOL LUNCH FACILITIES FOR ELDERLY PROGRAMS

The amendment provides for local education agencies to use school lunch program facilities, equipment, and personnel to support a nonprofit nutrition program for the elderly.

ADMINISTRATION OF CHILD NUTRITION PROGRAMS BY CONTRACT OR DIRECT DISBURSEMENT

The amendment revised the current requirement for the Secretary of Agriculture to administer directly child nutrition programs in certain schools, institutions, and service institutions by allowing the Secretary to meet this requirement by contracting with an organization to administer such programs in not more than three States on a pilot project basis to test the concept of contracting with private nonprofit and profit organizations to administer the child nutrition programs currently administered by the Secretary. The direct administration of such programs by either the Secretary, or through a contract between the Secretary and an organization, is applicable to cases where such programs have been directly administered by the Secretary continuously since October 1, 1980, or where a State educational agency is prohibited by law from doing so. The amendment maintains current law authority for States to assume direct administration of programs. It also expands current law provisions regarding the appropriate withholding, disbursal and use of program and administrative funds in cases where the Secretary directly administers programs to include situations where the program is administered by a contracting organization.

(NOTE.—The Department of Agriculture has reported that 19 States do not directly administer one or more of the child nutrition programs, thus requiring the Secretary to operate such progams in those States. According to the Department, those States are Alaska, California, Colorado, Delaware, Georgia, Hawaii, Kansas, Michigan, Minnesota, Missouri, Nebraska, New York, North Dakota, Oregon, South Carolina, Tennessee, Virginia, Washington, and Wyoming.)

The Comptroller General should monitor the making and implementation of contracts under the pilot projects and make a report to the Senate Committee on Agriculture, Nutrition, and Forestry and the House Committee on Education and Labor concerning the pilot projects. Concerns have been expressed with the continued reluctance of some States to operate various child nutrition programs. The States should assume operation of these programs.

DEPARTMENT OF DEFENSE OVERSEAS DEPENDENTS' SCHOOLS

The amendment deletes the authorization of appropriations for the higher Federal payment required for free and reduced-price meals served in such schools when the cost of such meals is higher than the amount provided by the regular free and reduced-price meal reimbursement rates.

RESTORATION OF CERTAIN KINDERGARTENS TO SPECIAL MILK PROGRAM

The amendment extends eligibility for the special milk program to kindergarten children who do not have access to either the school breakfast or school lunch program.

The provision intends that children attending partial day kindergartens (so-called "split sessions") and not having access to either the school breakfast or school lunch programs currently operating in schools they attend be permitted to participate in the special milk program. Full day kindergartens and other programs where children receive either breakfast or lunch would continue to be ineligible to participate in the special milk program.

ADDITIONAL FUNDING TO IMPROVE SCHOOL BREAKFAST PROGRAM MEAL PATTERN

(1) Additional breakfast reimbursement: The amendment provides an additional 3 cents in cash in each reimbursement for each breakfast served in schools or in the child care food program. Additionally, the amendment provides that, subject to availability, the Secretary shall make available at least 3 cents per breakfast in commodities acquired by the Secretary or the Commodity Credit Corporation. These provisions are effective October 1, 1986.

It should be emphasized that commodities to be made available under this provision are to include only those that the Secretary has acquired for price support and surplus removal reasons, and that are not necessary for other domestic and foreign support programs or activities. This commodity support provision does not require the Secretary to make purchases for the specific purposes of meeting the needs of breakfast programs.

The provision envisions that both the cash and commodity assistance be used to supplement existing levels of Federal, State, and local assistance. The Secretary is expected to ensure a maintenance of effort by State and local sources so that the additional Federal reimbursements are not used to displace existing levels of support.

The provision also envisions that eligible institutions would not be required to accept any or all of the full value of commodities. In order to minimize reporting and recordkeeping burdens, the Department would not require a separate accounting of commodities ordered for use in breakfasts.

(b) Nutrition requirements for breakfasts: The amendment requires the Secretary of Agriculture to review and revise the nutritional requirements for breakfasts to improve their nutritional quality and to promulgate regulations implementing such revisions within 180 days after enactment of the bill. In reviewing the program requirements, the Secretary is to take into consideration the findings of the National Evaluation of School Nutrition Programs and the need to provide increased flexibility in meal planning to local school food authorities.

EXTENSION OF OFFER VERSUS SERVE PROVISION TO THE SCHOOL BREAKFAST PROGRAM

The amendment permits local school food authorities to allow students to refuse up to one item in each school breakfast. Any such refusal may not affect the charge to students, or the amount of Federal reimbursement for the breakfast.

STATE ADMINISTRATIVE EXPENSE STAFFING STANDARDS

The amendment deletes the requirement that the Secretary of Agriculture develop State staffing standards for the administration of the school lunch, school breakfast, child care food, and special milk programs.

SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS, AND CHILDREN [WIC]

(a) Costs for nutrition services and administration: The amendment maintains the current law definition of the types of costs for which WIC administrative funds are to be used, but changes the term "administrative costs" to "costs for nutrition services and administration" in this definition. Additionally, the amendment deletes the costs of warehouse facilities from the list of items defining the types of costs for which WIC administrative funds are to be used.

(b) State eligibility for WIC funds: The amendment makes a State ineligible to participate in the WIC program if State or local sales taxes are collected on food purchased under the WIC program. The amendment makes the State sales tax provision applicable to a State beginning with the fiscal year beginning after the end of the first regular session of the State legislature after enactment of the bill.

(c) Participation report: The amendment requires the Secretary of Agriculture to report biennially to Congress on the income and nutritional risk characteristics of participants; migrant participation in the program; and such other matters relating to participation in the program as the Secretary deems appropriate. The amendment also authorizes the Secretary to use WIC evaluation funds to pay for the costs of preparing this report.

(d) Plan of operation and administration: The amendment deletes from the current list of State plan requirements the following: (1) a description of how administrative funds are distributed and budgeted; (2) a description of methods for determining nutritional risk; (3) staffing patterns; (4) nutrition education goals; (5) plans for informing persons of eligibility; (6) a copy of the State procedure manual; (7) a list of all areas and special populations in need; and (8) plans to initiate or expand operations in areas most in need. The amendment also adds new requirements that the State plan include a plan to provide program benefits to underserved areas if sufficient funds are available, to provide program benefits to those most in need, and to enroll eligible women in the early months of pregnancy.

The amendment adds a requirement that a State plan describe how both the AFDC and maternal and child health care programs are coordinated with WIC program operations. The amendment also authorizes the Secretary to permit States to submit only those portions of their State plans which differ from previous years.

(e) Public comment: The amendment deletes specific State requirements for public hearings on the State plan one month prior to submission to the Governor, and replaces this with a general requirement that State agencies establish procedures to assure that the public has an opportunity to comment on the development of the State plan.

(f) Availability of program benefits: The amendment adds a requirement that State and local agencies distribute information in a manner designed to provide such information to potentially eligible persons most in need of benefits.

(g) Repayment of benefits by recipients: The amendment requires a State agency to recover from a person making an intentional misrepresentation the amount that the State agency determines is equal to the value of the overissued food benefits, unless the State agency determines that the recovery of the benefits would not be cost effective.

It is intended that this provision impose no new requirement on the States, and that State agencies would be expected to provide a hearing where necessary, and to provide procedural protections, including proper notice and opportunity to be heard.

(h) Priority funds for the WIC Migrant Program: The amendment requires that not less than nine-tenths of 1 percent of the funds appropriated for the WIC program be first made available for services to eligible migrant populations and that migrant services be provided in a manner consistent with a State's priority system for participation. Additionally, the amendment provides that to the extent possible, accountability for migrant services be conducted under regulations in effect on the date of enactment of the bill.

(i) Improving State agency administrative systems: The amendment adds the provision of technical assistance to improve State agency administrative systems to the types of activities the Secretary of Agriculture may conduct with WIC evaluation funds.

(j) Paperwork reduction: The amendment requires the Secretary of Agriculture to keep to a minimum the documentation that States provide to be exempted from the requirement that not less than one-sixth of their WIC administrative funds be used for nutrition education activities.

(k) Allocation standards: The amendment deletes the requirement that a State agency satisfy allocation guidelines established by the Secretary of Agriculture when distributing administrative funds to local agencies under allocation standards developed by the State agency in cooperation with local agencies. The amendment also deletes the requirement that the State allocation standards be included in the required State plan of operation and administation.

(l) *Advance payments:* The amendment allows, instead of requires, State agencies to forward advance administrative funds to local agencies initiating WIC program operations.

(m) Expenditure of funds for the Special Supplemental Food Program: The amendment allows a State to use up to 1 percent of the amount of funds allocated to the State for supplemental foods in a fiscal year to cover expenses incurred for supplemental foods in the preceding fiscal year, and specifies that this provision is not to apply to appropriations made before enactment of the bill. The amendment further allows a State agency to keep up to 1 percent of the amount of funds allocated to the agency in a fiscal year for use during the subsequent fiscal year, and specifies that use of such funds in a subsequent year may not affect the amount of funds allocated to the State agency for that year.

It is not the intent of the provision that States overspend or underspend their allocations year after year. Further, it is the intent of the provision that States should use the provision as a tool to enable the States to spend as close to 100 percent of their respective allocation as possible. Funds available for carryover to the next fiscal year are available for food and administrative expenses, while funds used to cover expenses for previous year costs are only applicable for food costs.

CHILD CARE FOOD PROGRAM

The amendment permits a hearing at the Federal level in cases where the State does not provide such a hearing, and eliminates the requirement that States provide such a hearing.

NUTRITION EDUCATION AND TRAINING PROGRAMS

The amendment lowers from $75,000 to $50,000 the minimum grant provided to States for the nutrition education and training programs.

(NOTE.—The provision reflects language included in the fiscal year 1982 appropriations law (P.L. 97-370) that permanently lowered the minimum grant amount a State could receive from $75,000 to $50,000. This change followed the enactment of the Omnibus Budget Reconciliation Act of 1981, P.L. 97-35, which reduced the authorization for annual NET grants from $15 million to $5 million, but did not lower the $75,000 minimum grant States could receive if their allocation did not provide that amount. State grant allocations are based on student enrollment. Had the fiscal year 1982 appropriations law not reduced the minimum grant amount, States with small student enrollments which were receiving the minimum $75,000 grants would have continued to receive that amount while other States with larger student enrollments would have had to bear the full loss of funding resulting from P.L. 97-35.)

EXTENSION OF ALTERNATIVE MEANS OF ASSISTANCE

(a) Pilot projects: The amendment references section 1581 of Public Law 99-198 with respect to the ability of school districts that participated in the pilot project on cash or commodity letters of credit in lieu of commodities to continue to receive entitlement commodity support in this alternative form through the school year ending June 30, 1987.

(NOTE.—Section 1581 also provides that such school districts can receive bonus commodities to the same extent as other school districts, but only in the form of commodities (no cash or letter of credit).)

(b) Compensation to pilot projects: The amendment requires the Secretary of Agriculture to provide cash compensation, subject to availability of funds, and not to exceed $50,000, to school lunch pilot project school districts for losses they incurred as a result of a change in the methodology used to conduct the study on cash or commodity letters of credit in lieu of commodities during the school year ending June 30, 1983. The Comptroller General is to be consulted with respect to the accounting procedures used to determine such losses, and such sums as may be necessary to carry out this provision are authorized to be appropriated.

(NOTE.—The change in methodology was related to a change in the form of bonus commodity assistance offered to the schools participating in the pilot project during the 1982-83 school year.)

NATIONAL COMMODITY PROCESSING SYSTEM

(a) *Extension*: The amendment references section 1114(a)(2) of the Agriculture and Food Act of 1981, as amended by Public Law 99-198, with respect to processing agreements.

(NOTE.—Section 1114(a)(2) provides that for the period July 1, 1985 through June 30, 1987, whenever a commodity is made available without charge or credit under any nutrition program administered by the Secretary of Agriculture, the Secretary must encourage consumption of the commodity through agreements with private companies under which the commodity is reprocessed into end food products for use by eligible recipient agencies. The expense of the reprocessing would be paid by the eligible agencies.)

(b) *Annual settlement of accounts*: The amendment references section 1114(a)(2) of the Agriculture and Food Act of 1981, as amended by Public Law 99-198, with respect to annual settlement of accounts.

(NOTE.—Section 1114(a)(2) of the Agriculture and Food Act of 1981, as amended by Public Law 99-198, requires private companies participating in processing agreements to annually settle all accounts with the Secretary and appropriate State agencies regarding commodities processed under such agreements in order to enter into and continue agreements with the Secretary.)

TECHNICAL AND CONFORMING AMENDMENTS

(a) The amendment repeals misdesignated section 22 in the National School Lunch Act (Study of Menu Choice) as an obsolete provision.

(b) The amendment strikes out "Health, Education, and Welfare" each place it appears in sections 4(a), 17(e)(2), 17(k) (1) and (2), and 19(d) (2) and (3) of the Child Nutrition Act of 1966, and inserts in lieu thereof "Health and Human Services". The amendment also makes the same change to sections 17(b)(6) and 17(b)(13) of the Child Nutrition Act of 1966 and to section 17(a) of the National School Lunch Act.

(c) The amendment strikes out "Office of Education of the Department of Health, Education, and Welfare" and inserts in lieu thereof "Department of Education" in section 19(j)(3) of the Child Nutrition Act of 1966.

(d) The amendment defines the Secretary to mean the Secretary of Agriculture.

(e) The amendment redesignates section 19(j) of the Child Nutrition Act of 1966 in proper alphabetical sequence as section 19(i).

OBSOLETE PROVISIONS AND REFERENCES

(a) The amendment repeals sections 18 (Nutrition Program Staff Study) and 19 (Appropriations for the Trust Territory of the Pacific Islands) of the National School Lunch Act and deletes the reference to section 19 in section 3 of such Act.

(b) The amendment redesignates sections 20, 21, and 22 of the National School Lunch Act as sections 18, 19, and 20, respectively, to conform to the amendment's repeal of sections 18 and 19, and conforms references to section 20 in current law as section 18 accordingly.

(c) The amendment deletes the provision and reference in section 20 of the National School Lunch Act relating to the authorization for the Secretary of Agriculture to conduct pilot projects during the 1979-1980 school year to determine the feasibility, cost, and consequences of providing lunches free to all children.

EFFECTIVE DATES

The amendment specifies that the provisions of the bill take effect as follows:

| Provisions | Effective date |
|---|---|
| Summer Food Service Program for children | Enactment. |
| Commodity Distribution Program | Do. |
| State administrative expenses | Do. |
| Special Supplemental Food Program | Do. |
| Nutrition Education and Training Program | Do. |
| Basis for commodity assistance | Do. |
| Inclusion of whole milk as a school lunch beverage | July 1, 1986. |
| Automatic eligibility for certain programs | Do. |
| Limitation on meal contracting | Do. |
| Change in tuition limitation for private schools | Oct. 1, 1986. |
| Use of school lunch facilities for elderly programs | Enactment. |
| Pilot projects for administration of child nutrition programs by contract or direct disbursement. | Do. |
| Department of Defense overseas dependents' school | Do. |
| Restoration of certain kindergartens to Special Milk Program | Oct. 1, 1986. |
| Improvement of School Breakfast Program meal pattern | Do. |
| Extension of offer versus serve provision to the School Breakfast Program. | Do. |
| Staffing standards | Do. |
| Costs for nutrition services and administration | Do. |
| State eligibility for WIC funds | [1] |
| Participation report | Enactment. |
| Plan of operation and administration | Do. |
| Public comment | Do. |
| Availability of program benefits | Enactment. |
| Repayment of certain benefits by recipients | Oct. 1, 1986. |
| Priority funds for WIC migrant programs | Do. |
| Improving State agency administrative systems | Enactment. |
| Paperwork reduction | Do. |
| Allocation standards | Do. |
| Advance payments | Oct. 1, 1986. |
| Availability of funds (WIC) | Enactment. |
| Hearings on Federal audit actions under the child care food program. | Do. |
| Basis for nutrition education grants | Do. |
| Extension of alternative means of assistance | Do. |
| National donated commodity processing programs | Do. |
| Obsolete provisions | Do. |
| Obsolete references to Health, Education, and Welfare | Do. |
| Conforming amendments | Do. |

[1] The fiscal year beginning after the end of the first regular session of the State legislature following the date of enactment of this Act.

## MILITARY CONSTRUCTION AUTHORIZATION ACT FISCAL YEAR 1987

Mr. GOLDWATER. Mr. President, I ask unanimous consent that the Senate proceed to Calendar Order No. 719, S. 2641, the Military Construction Authorization Act of 1987.

The PRESIDING OFFICER. Without objection, the clerk will report.

The legislative clerk read as follows:

A bill (S. 2641) to authorize certain construction at military installations for fiscal year 1987, and for other purposes.

There being no objection, the Senate proceeded to the immediate consideration of the bill.

Mr. GOLDWATER. Mr. President, I ask unanimous consent to strike all after the enacting clause of S. 2641, and insert in lieu thereof the text of division B of S. 2638, as passed by the Senate, and that the bill be considered to have been engrossed for third reading, to have been read a third time, and to be passed.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GOLDWATER. Mr. President, I ask unanimous consent that S. 2641 be printed in full as passed.

The PRESIDING OFFICER. Without objection it is so ordered.

The text of the bill (S. 2641), being the text of division B of S. 2638, is as follows:

S. 2641

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE

This Act may be cited as the "Military Construction Authorization Act, 1987".

TITLE I—ARMY

SEC. 101. AUTHORIZED ARMY CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES ARMY FORCES COMMAND

Camp Dawson, West Virginia, $8,700,000.
Fort Bragg, North Carolina, $11,700,000.
Fort Campbell, Kentucky, $4,500,000.
Fort Carson, Colorado, $11,300,000.
Fort Devens, Massachusetts, $20,800,000.
Fort Drum, New York, $615,000,000.
Fort Hood, Texas, $10,600,000.
Fort Lewis, Washington, $20,500,000.
Fort McPherson, Georgia, $2,900,000.
Fort Ord, California, $6,550,000.
Fort Polk, Louisiana, $27,000,000.
Fort Richardson, Alaska, $11,200,000.
Fort Riley, Kansas, $8,250,000.
Fort Sheridan, Illinois, $2,050,000.
Fort Wainwright, Alaska, $96,700,000.
Presidio of San Francisco, California, $5,100,000.

UNITED STATES ARMY WESTERN COMMAND

Hawaii Various, $12,000,000.
Wheeler Army Air Field, Hawaii, $2,900,000.

UNITED STATES ARMY TRAINING AND DOCTRINE COMMAND

Fort Benning, Georgia, $9,100,000.
Fort Eustis, Virginia, $2,050,000.
Fort Jackson, South Carolina, $9,100,000.
Fort Lee, Virginia, $17,600,000.
Fort Leonard Wood, Missouri, $27,200,000.
Fort Rucker, Alabama, $44,500,000.

MILITARY DISTRICT OF WASHINGTON

Fort Myer, Virginia, $3,800,000.

UNITED STATES ARMY MATERIEL COMMAND

Aberdeen Proving Ground, Maryland, $19,000,000.
Corpus Christi Army Depot, Texas, $9,350,000.
Dugway Proving Ground, Utah, $9,700,000.
Fort Monmouth, New Jersey, $4,900,000.
Navajo Depot Activity, Arizona, $3,900,000.
Redstone Arsenal, Alabama, $19,500,000.
Sierra Army Depot, California, $2,450,000.

UNITED STATES ARMY INFORMATION SYSTEMS COMMAND

Fort Huachuca, Arizona, $17,200,000.

UNITED STATES MILITARY ACADEMY

United States Military Academy, New York, $28,500,000.

ASSISTANT CHIEF OF ENGINEERS

Classified, United States, $7,400,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

EIGHTH UNITED STATES ARMY

Camp Casey, Korea, $22,500,000.
Camp Castle, Korea, $2,850,000.
Camp Greaves, Korea, $2,350,000.
Camp Hovey, Korea, $9,000,000.
Camp Howze, Korea, $4,050,000.
Camp Humphreys, Korea, $15,300,000.
Camp Laguardia, Korea, $2,650,000.
Camp Long, Korea, $5,600,000.
Camp Red Cloud, Korea, $4,550,000.
Camp Stanley, Korea, $4,700,000.
H220, Korea, $2,750,000.
Pusan, Korea, $9,700,000.
Second Infantry, Korea, $5,150,000.
Taegu, Korea, $4,900,000.
Yongsan, Korea, $5,000,000.

UNITED STATES ARMY STRATEGIC DEFENSE COMMAND

Kwajalein, $20,600,000.

UNITED STATES ARMY FORCES COMMAND, OVERSEAS

Classified, $4,000,000.
Various, $4,900,000.

UNITED STATES ARMY EUROPE AND SEVENTH ARMY

Aschaffenburg, Germany, $7,000,000.
Baumholder, Germany, $28,850,000.
Bitburg, Germany, $16,350,000.
Einsiedlerhof, Germany, $4,750,000.
Frankfurt, Germany, $3,500,000.
Giessen, Germany, $5,600,000.
Hanau, Germany, $17,200,000.
Heilbronn, Germany, $2,100,000.
Hohenfels, Germany, $8,800,000.
Karlsruhe, Germany, $10,000,000.
Mannheim, Germany, $2,450,000.
Neu Ulm, Germany, $26,050,000.
Nuernberg, Germany, $5,500,000.
Rheinberg, Germany, $33,600,000.
Schweinfurt, Germany, $22,100,000.
Various, Germany, $17,500,000.
Vilseck, Germany, $50,300,000.
Wildflecken, Germany, $3,800,000.

UNITED STATES ARMY INTELLIGENCE AND SECURITY COMMAND, OVERSEAS

Location 276, $3,700,000.
Location 280, $2,100,000.

SEC. 102. FAMILY HOUSING

The Secretary of the Army may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Fort Wainwright, Alaska, one hundred and fifty units, $33,000,000.

Fort Irwin, California, thirty-eight manufactured home spaces, $730,000.

Fort Ord, California, three hundred and eighty-five units, $34,000,000.

Crailsheim, Germany, forty units, $4,100,000.

Darmstadt, Germany, forty units, $3,150,000.

Erlangen, Germany, one hundred and six units, $9,400,000.

Herzo Base, Germany, thirty-four units, $3,300,000.

Schweinfurt, Germany, ninety units, $8,400,000.

Vilseck, Germany, two hundred and twenty-four units, $21,000,000.

Wildflecken, Germany, twenty-four units, $2,050,000.

Various Locations, Germany, one hundred and twenty units, funded under section 103.

Fort Polk, Louisiana, five hundred and eighty-three units, $37,000,000.

Kwajalein, Marshall Island, one hundred and thirty-six units, $23,000,000.

Aberdeen Proving Ground, Maryland, one hundred and forty units and seventy manufactured home spaces, $10,800,000.

Fort Drum, New York, one thousand and two hundred units, $91,000,000.

Seneca Army Depot, New York, thirty units, $2,900,000.

SEC. 103. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Army may make expenditures—

(1) to improve existing military family housing units in an amount not to exceed $79,500,000; and

(2) for energy conservation projects in an amount not to exceed $15,671,000 from funds which remain available for obligation from savings from prior years.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Army may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Aschaffenburg, Germany, one hundred and forty-four units, $5,120,000.

Aschaffenburg, Germany, forty-eight units, $2,800,000.

Bremerhaven, Germany, twenty-four units, $1,400,000.

Karlsruhe, Germany, twenty-four units, $1,400,000.

Kitzingen, Germany, one hundred and two units, $5,950,000.

Mainz, Germany, one unit, $69,000.

Worms, Germany, six units, $350,000.

Fort Benjamin Harrison, Indiana, one hundred and sixty-six units, $6,000,000.

Pusan, Korea, forty-eight units, $2,237,000.

Yongsan, Korea, one unit, $70,000.

Fort Indiantown Gap, Pennsylvania, six units, $166,000.

Fort Sam Houston, Texas, twenty-three units, $930,000.

Fort Myer, Virginia, three units, $140,000.

(c) WAIVER OF SPACE LIMITATION FOR GENERAL OFFICER'S QUARTERS AT YONGSAN, KOREA.—(1) Notwithstanding the maximum space limitations under section 2826(a) of title 10, United States Code, the Secretary of the Army may carry out an improvement project to increase the net floor area of the housing unit for one general officer at the United States Army Garrison, Yongsan, Korea, to not more than 3,574 square feet.

(2) For purposes of this subsection, the term "net floor area" has the same meaning given that term by section 2626(f) of title 10, United States Code.

SEC. 104. FORT DRUM, NEW YORK

The Secretary of the Army may enter into one or more contracts, in advance of appropriations therefor, for the military construction projects authorized by section 2101 to be accomplished at Fort Drum, New York, if such contracts limit the Government's liability to the amount of funds available for obligation at the time each contract is entered into. Such construction may be accomplished by using one-step turn-key selection procedures, or other competitive contracting methods.

SEC. 105. COMMUNITY PLANNING ASSISTANCE

The Secretary of the Army may not use more than $400,000 from funds appropriated to the Department of the Army for fiscal year 1987 for planning and design purposes to provide planning assistance to local communities located near newly established Light Infantry Division Posts at Fort Drum, New York, and Fort Wainwright, Alaska, if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate.

SEC. 106. CLEANUP OF CONTAMINATED WATER SUPPLIES ADJACENT TO ROCKY MOUNTAIN ARSENAL

(a) TRANSFER OF FUNDS TO THE ENVIRONMENTAL PROTECTION AGENCY.—(1) The Secretary of the Army (hereinafter in this section) referred to as the "Secretary") shall transfer funds available to the Department of Defense for military construction for fiscal year 1987 to the Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the "Administrator") such sums, not to exceed $6,000,000, as may be necessary to enable the Administrator to continue with the selection, design, and implementation of response measures (consistent with the National Contingency Plan) with respect to the contamination of drinking water supplies in south Adams County, Colorado, to the west of the Rocky Mountain Arsenal and south of 80th Avenue. The Secretary may transfer funds under this section only if the Administrator has certified to the Secretary that the Army is a responsible party for the contamination in the area referred to in the preceding sentence.

(b) INTERAGENCY AGREEMENT.—(1) The transfer of funds under this section shall be carried out in accordance with the agreement between Environmental Protection Agency and the Department of the Army entered into on March 20, 1986. Funds transferred under this section shall be in addition to funds previously transferred to the Environmental Protection Agency for such purposes.

(2) The Secretary and the Administrator may enter into an agreement supplemental to the agreement referred to in paragraph (1) if the supplemental agreement can be concluded within seven days after the date of the enactment of the Act. A supplemental agreement entered into under this paragraph may not require the Secretary to transfer funds for the purpose of carrying out the response action described in subsection (a) after the date on which adequate funds become available to the Environmental Protection Agency for such purposes pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.).

(3) A supplemental agreement entered into under paragraph (2) shall contain provisions regarding the repayment of amounts transferred pursuant to subsection (a). If such provisions are not agreed to before the expiration of the seven-day period referred to in paragraph (1), repayment shall be made in accordance with the provisions of the agreement between the Environmental Protection Agency and Department of the Army entered into on March 20, 1986.

(c) CONTAMINATION NORTH OF 80TH AVENUE.—The Secretary shall, promptly after enactment of this Act, continue response action with respect to hazardous substances, pollutants, and contaminants affecting water supplies in south Adams County, Colorado, to the west and north of the Rocky Mountain Arsenal and north of 80th Avenue. The cost of such response action shall be paid for out of funds appropriated to the Department of Defense for purposes of the Environmental Restoration Program of the Department of the Army. Such response action shall be carried out in accordance with the recommendations of

the Administrator and in consultation with the Colorado Department of Health.

(d) LIABILITY OF ARMY NOT AFFECTED.—Nothing in this subsection shall affect the liability of the Department of the Army or of any other potentially responsible person under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 or under the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.).

(e) LIABILITY OF OTHER PARTIES UNDER SUPERFUND.—Nothing in this section shall be construed to affect the rights of the Secretary to obtain reimbursement under section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 from any potentially responsible party of any amount expended by the Secretary for response action referred to in subsection (a).

SEC. 107. AUTHORIZATION OF APPROPRIATIONS, ARMY; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Army in the total amount of $2,949,746,000 as follows:

(1) For military construction projects inside the United States authorized by section 2101(a), $691,500,000.

(2) For military construction projects outside the United States authorized by section 2101(b), $401,800,000.

(3) For military construction projects inside the United States authorized by section 101 of the Military Construction Authorization Act, 1986, $51,000,000.

(4) For military construction projects outside the United States authorized by section 101 of the Military Construction Authorization Act, 1986, $17,000,000.

(5) For minor construction projects under section 2805 of title 10, United States Code, $99,070,000.

(6) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $130,580,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $387,330,000, of which $24,000,000 is available for planning and design;

(B) for support of military family housing (including the functions described in section 2833 of title 10, United States Code), $1,265,266,000, of which not more than $31,246,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $142,639,000 may be obligated or expended for the leasing of military family housing units in foreign countries, and

(C) for the Homeowners Assistance Program as authorized by section 2832 of title 10, United States Code, $5,500,000.

(8)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)-(6) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such paragraphs is $1,326,910,000.

(B) Notwithstanding the amounts authorized to be appropriated by subparagraphs (A) and (B) of paragraph (7) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such subparagraphs is $1,618,396,000.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS FOR ENERGY CONSERVATION PROJECTS.—Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects for existing military family housing units of the Department of the Army that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects for military family housing of the Army in an amount not to exceed $15,671,000.

(c) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE I.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2101 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsections (a) and (b).

SEC. 108. EXTENSION OF CERTAIN AUTHORIZATIONS

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1984 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1984 (Public Law 98-115; 97 Stat. 780), authorizations for the following projects authorized in section 101 of that Act, as extended by section 606(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 983) shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied personnel housing in the amount of $1,400,000 at Argyroupolis, Greece.

(2) Operations building in the amount of $370,000 at Argyroupolis, Greece.

(3) Multipurpose recreation facility in the amount of $480,000 at Argyroupolis, Greece.

(4) Unaccompanied officer housing in the amount of $600,000 at Perivolaki, Greece.

(5) Operations building in the amount of $410,000 at Perivolaki, Greece.

(6) Multipurpose recreation facility in the amount of $620,000 at Perivolaki, Greece.

(7) Physical fitness training center in the amount of $1,000,000 at Elefsis, Greece.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), authorizations for the following projects authorized in sections 101 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Barracks with dining facility in the amount of $11,400,000 at Presidio of San Francisco, California.

(2) Child care center in the amount of $1,980,000 at Presidio of San Francisco, California.

(3) Barracks in the amount of $6,600,000 at Presidio of San Francisco, California.

(4) Multipurpose recreation facility in the amount of $1,150,000 at Koropi, Greece.

(5) Multipurpose recreation facility in the amount of $960,000 at Katsimidi, Greece.

(6) Barracks modernization in the amount of $660,000 at Argyroupolis, Greece.

(7) Barracks modernization in the amount of $660,000 at Perivolaki, Greece.

(8) Barracks with dining facility in the amount of $2,350,00 at Elefsis, Greece.

(9) Contingency Facility in the amount of $4,300,000 at Palmerola, Honduras.

## TITLE II—NAVY

SEC. 201. AUTHORIZED NAVY CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES MARINE CORPS

Headquarters Marine Corps, Arlington, Virginia, $3,020,000.

Marine Corps Base, Camp Lejeune, North Carolina, $33,220,000.

Marine Corps Air Station, Camp Pendleton, California, $8,440,000.

Marine Corps Base, Camp Pendleton, California, $26,730,000.

Marine Corps Air Station, Cherry Point, North Carolina, $12,660,000.

Marine Corps Air Station, El Toro, California, $26,280,000.

Marine Corps Air Station, Kaneohe Bay, Hawaii, $31,580,000.

Marine Corps Air Station, New River, North Carolina, $20,020,000.

Marine Corps Recruit Depot, Parris Island, South Carolina, $7,250,000.

Marine Corps Air Station, Tustin, California, $13,250,000.

Marine Corps Air-Ground Combat Center, Twentynine Palms, California, $36,350,000.

Marine Corps Air Station, Yuma, Arizona, $5,600,000.

CHIEF OF NAVAL OPERATIONS

Naval Academy, Annapolis, Maryland, $2,260,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Air Station, Brunswick, Maine, $2,160,000.

Naval Air Station, Cecil Field, Florida, $3,730,000.

Naval Air Station, Jacksonville, Florida, $4,810,000.

Naval Amphibious Base, Little Creek, Virginia, $5,890,000.

Naval Supply Center Detachment, Mayport, Florida, $3,730,000.

Naval Submarine Base, New London, Connecticut, $3,160,000.

Naval Station, New York, New York, $56,200,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Naval Air Station, Adak, Alaska, $24,400,000.

Naval Facility, Adak, Alaska, $5,700,000.

Naval Air Station, Alameda, California, $17,675,000.

Naval Submarine Base, Bangor, Washington, $10,500,000.

Naval Amphibious Base, Coronado, California, $17,450,000.

Naval Station, Everett, Washington, $85,400,000.

Naval Air Station, Fallon, Nevada, $31,200,000.

Naval Station, Long Beach, California, $7,050,000.

Naval Magazine, Lualualei, Hawaii, $2,850,000.

Naval Air Station, Miramar, California, $21,550,000.

Naval Station, Pearl Harbor, Hawaii, $3,240,000.

Naval Station, San Diego, California, $18,200,000.

Naval Submarine Base, San Diego, California, $9,100,000.

Naval Station, Seattle, Washington, $2,950,000.
Naval Air Station, Whidbey Island, Washington, $3,510,000.

CHIEF OF NAVAL EDUCATION AND TRAINING

Naval Guided Missile School, Dam Neck, Virginia, $3,140,000.
Naval Training Center, Great Lakes, Illinois, $5,300,000.
Naval Air Station, Kingsville, Texas, $3,140,000.
Combat Systems Technical Schools Command, Mare Island, California, $5,200,000.
Naval Air Station, Memphis, Tennessee, $15,550,000.
Naval Air Station, Meridian, Mississippi, $3,170,000.
Naval Submarine School, New London, Connecticut, $9,540,000.
Naval Education and Training Center, Newport, Rhode Island, $11,700,000.
Fleet Training Center, Norfolk, Virginia, $5,400,000.
Naval Training Center, Orlando, Florida, $8,440,000.
Naval Diving and Salvage Training Center, Panama City, Florida, $2,850,000.
Naval Technical Training Center, Pensacola, Florida, $4,610,000.
Fleet Intelligence Training Center, Pacific, San Diego, California, $4,220,000.
Fleet Training Center, San Diego, California, $3,930,000.
Naval Training Center, San Diego, California, $18,170,000.
Naval Air Station, Whiting Field, Florida, $2,120,000.

NAVAL TELECOMMUNICATIONS COMMAND

Naval Communication Station, Stockton, California, $2,750,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Adak, Alaska, $13,400,000.

NAVAL SUPPLY SYSTEMS COMMAND

Naval Supply Center, Norfolk, Virginia, $3,140,000.

NAVAL AIR SYSTEMS COMMAND

Pacific Missile Range Facility, Barking Sands, Kauai, Hawaii, $8,260,000.
Naval Air Rework Facility, Cherry Point, North Carolina, $37,200,000.
Naval Air Test Center, Patuxent River, Maryland, $19,780,000.
Naval Air Rework Facility, Pensacola, Florida, $8,050,000.

NAVAL FACILITIES ENGINEERING COMMAND

Naval Construction Battalion Center, Gulfport, Mississippi, $14,200,000.
Navy Public Works Center, Norfolk, Virginia, $8,050,000.
Navy Public Works Center, Pearl Harbor, Hawaii, $24,900,000.
Naval Construction Battalion Center, Port Hueneme, California, $3,040,000.

NAVAL SEA SYSTEMS COMMAND

Charleston Naval Shipyard, Charleston, South Carolina, $10,810,000.
Naval Weapons Station, Charleston, South Carolina, $6,130,000.
Naval Weapons Support Center, Crane, Indiana, $6,880,000.
Naval Weapons Station, Earle, New Jersey, $52,500,000.
Long Beach Naval Shipyard, Long Beach, California, $2,450,000.
Norfolk Naval Shipyard, Portsmouth, Virginia, $5,900,000.
Supervisor of Shipbuilding, Pascagoula, Mississippi, $4,120,000.
Portsmouth Naval Shipyard, Kittery, Maine, $22,190,000.
Naval Weapons Station, Seal Beach, California, $6,100,000.
Mare Island Naval Shipyard, Vallejo, California, $5,100,000.
Naval Weapons Station, Yorktown, Virginia, $4,220,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Weapons Center, China Lake, California, $12,750,000.
Naval Surface Weapons Center, Dahlgren, Virginia, $15,960,000.
Naval Research Laboratory, Washington, District of Columbia, $8,730,000.

STRATEGIC SYSTEMS PROJECT OFFICE

Naval Submarine Base, Kings Bay, Georgia, $122,390,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MARINE CORPS

Marine Corps Air Station, Futenma, Okinawa, Japan, $3,440,000.
Marine Corps Base, Camp Smedley D. Butler, Okinawa, Japan, $8,950,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Station, Guantanamo Bay, Cuba, $2,600,000.
Naval Air Station, Keflavik, Iceland, $13,490,000.
Atlantic Fleet Weapons Training Facility, Roosevelt Roads, Puerto Rico, $4,220,000.
Naval Station, Roosevelt Roads, Puerto Rico, $6,290,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Naval Air Facility, Atsugi, Japan, $5,300,000.
Administrative Support Unit, Bahrain Island, $2,550,000.
Naval Air Station, Cubi Point, Republic of the Philippines, $5,300,000.
Mobile Construction Battalion, Camp Covington, Guam, $15,500,000.

COMMANDER IN CHIEF, UNITED STATES NAVAL FORCES EUROPE

Naval Support Activity, Naples, Italy, $5,500,000.
Naval Station, Rota, Spain, $4,600,000.
Classified Locations, $15,700,000.

NAVAL TELECOMMUNICATIONS COMMAND

Naval Communications Area Master Station, Mediterranean, Naples, Italy, $8,250,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Edzell, Scotland, $2,250,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Underwater Systems Center, Andros Island, Bahamas, $3,730,000.

SEC. 202. FAMILY HOUSING

The Secretary of the Navy may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Naval Station, Long Beach, California, three hundred units, $22,900,000.
Naval Air Station, Moffett Field, California, one hundred and twenty-six units, $11,600,000.
Navy Public Works Center, San Francisco, California, three hundred units, $26,450,000.
Marine Corps Air-Ground Combat Center, Twentynine Palms, California, three hundred and ninety-two units and seventy-five mobile home spaces, $35,300,000.
Marine Corps Base, Camp Pendleton, California, one hundred mobile home spaces, $1,800,000.
Marine Corps Base, Camp Lejeune, North Carolina, seventy-five mobile home spaces, $930,000.
Marine Corps Development and Education Command, Quantico, Virginia, fifty mobile home spaces, $790,000.
Naval Station, Keflavik, Iceland, two hundred and fifty units, $48,642,000.

SEC. 203. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Navy may make expenditures to improve existing military family housing units in an amount not to exceed $26,580,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under 2825(b) of title 10, United States Code, the Secretary of the Navy may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Naval Station, Mare Island, Vallejo, California, one hundred units, $5,200,000.
Marine Corps Logistics Base, Albany, Georgia, one unit, $33,300.
Navy Public Works Center, Great Lakes, Illinois, two hundred and ten units, $9,400,000.
Naval Air Station, Brunswick, Maine, forty-four units, $1,274,600.
Naval Construction Battalion Center, Gulfport, Mississippi, one unit, $28,700.
Naval Air Station, Fallon, Nevada, forty-four units, $1,868,500.
Naval Station, New York, New York, one hundred and twenty units, $9,600,000.
Naval Air Development Center, Warminster, Pennsylvania, six units, $256,800.
Naval Education and Training Center, Newport, Rhode Island, one hundred and eighty-six units, $10,200,000.
Navy Public Works Center, Guam, one unit, $64,700.
Navy Public Works Center, Guam, one hundred and nine units, $10,360,000.
Naval Air Station, Agana, Guam, one hundred units, $9,517,000.
Naval Air Station, Agana, Guam, one unit, $58,600.

SEC. 204. ACQUISITION OF EXISTING HOUSING UNITS ON GUAM

The Secretary of the Navy may acquire, without reimbursement, eighty-nine existing family housing units constructed and used by the Federal Aviation Agency on land in Finegayan, Guam, held by the Navy under the provisions of section 9 of the International Aviation Facilities Act (49 U.S.C. 1158).

SEC. 205. AUTHORIZATION OF APPROPRIATIONS, NAVY; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Navy in the total amount of $2,161,343,000 as follows:

(1) For military construction projects inside the United States authorized by section 2111(a), $1,082,595,000.

(2) For military construction projects outside the United States authorized by section 2111(b), $107,670,000.

(3) For military construction projects at Kings Bay, Georgia, authorized by section 201(a) of the Military Construction Authorization Act, 1986, $45,450,000.

(4) For minor construction projects under section 2805 of title 10, United States Code, $114,375,000.

(5) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $143,770,000.

(6) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $5,400,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $176,992,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $560,591,000 of which not more than $5,214,100 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $17,244,900 may be obligated or expended for the leasing of military family housing units in foreign countries.

(8)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)–(6) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such paragraphs is $1,437,160,000.

(B) Notwithstanding the amounts authorized to be appropriated by subparagraphs (A) and (B) of paragraph (7) of this subsection, the total amount authorized by this subsection for the purposes described by such subparagraphs is $724,183,000.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE II.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2111 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

SEC. 2116. EXTENSION OF AUTHORIZATION FOR CERTAIN FISCAL YEAR 1984 PROJECTS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98–407; 98 Stat. 1515), authorizations for the following projects authorized in section 201 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied enlisted personnel housing in the amount of $10,740,000 at the Marine Corps Air Station, Yuma, Arizona.

(2) Antenna support facility in the amount of $320,000 at the Naval Security Group Activity, Adak, Alaska.

(3) Data processing center in the amount of $6,160,000 at the Naval Supply Center, Bremerton, Washington.

(4) Unaccompanied enlisted personnel housing in the amount of $12,130,000 at the Naval Air Station, Whidbey Island, Washington.

(5) Unaccompanied enlisted personnel housing in the amount of $6,600,000 at the Naval Station, Mare Island, Vallejo, California.

(6) Mountain Warfare Training Facility (Bridgeport) in the amount of $1,480,000 for the Marine Corps Base, Camp Pendleton, California.

(7) Medical/Dental Clinic (Bridgeport) in the amount of $1,410,000 for the Naval Hospital, Camp Pendleton, California.

(8) Hospital Modernization in the amount of $29,140,000 at the Naval Hospital, Oakland, California.

(9) Facility Energy Improvements in the amount of $5,770,000 at the Navy Public Works Center, San Francisco, California.

## TITLE III—AIR FORCE

SEC. 301. AUTHORIZED AIR FORCE CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amount shown for each of the following installations and locations inside the United States:

AIR FORCE LOGISTICS COMMAND

Hill Air Force Base, Utah, $4,000,000.
Kelly Air Force Base, Texas, $39,000,000.
McClellan Air Force Base, California, $19,500,000.
Newark Air Force Station, Ohio, $3,000,000.
Robins Air Force Base, Georgia, $12,955,000.
Tinker Air Force Base, Oklahoma, $17,300,000.
Wright-Patterson Air Force Base, Ohio, $16,200,000.

AIR FORCE SYSTEM COMMAND

Arnold Air Force Station, Tennessee, $2,800,000.
Edwards Air Force Base, California, $15,000,000.
Hanscom Air Force Base, Massachusetts, $2,700,000.
Patrick Air Force Base, Florida, $2,600,000.

AIR TRAINING COMMAND

Chanute Air Force Base, Illinois, $11,300,000.
Goodfellow Air Force Base, Texas, $10,000,000.
Lackland Air Force Base, Texas, $21,500,000.
Laughlin Air Force Base, Texas, $3,700,000.
Williams Air Force Base, Arizona, $4,900,000.

AIR UNIVERSITY

Gunter Air Force Station, Alabama, $2,900,000.

ALASKAN AIR COMMAND

Eielson Air Force Base, Alaska, $11,600,000.
Galena Airport, Alaska, $11,600,000.
King Salmon Airport, Alaska, $4,050,000.
Shemya Air Force Base, Alaska, $22,300,000.

MILITARY AIRLIFT COMMAND

Andrews Air Force Base, Maryland, $25,000,000.
Charleston Air Force Base, South Carolina, $5,000,000.
Kirtland Air Force Base, New Mexico, $8,700,000.
McChord Air Force Base, Washington, $6,400,000.
McGuire Air Force Base, New Jersey, $7,000,000.
Pope Air Force Base, North Carolina, $2,300,000.
Travis Air Force Base, California, $4,700,000.

SPACE COMMAND

Cape Cod Air Force Station, Massachusetts, $4,300,000.
Falcon Air Force Station, Colorado, $6,400,000.
Peterson Air Force Base, Colorado, $3,050,000.

SPECIAL PROJECT

Various Locations, $37,056,000.

STRATEGIC AIR COMMAND

Beale Air Force Base, California, $7,516,000.
Ellsworth Air Force Base, South Dakota, $7,650,000.
Fairchild Air Force Base, Washington, $2,900,000.
F.E. Warren Air Force Base, Wyoming, $6,000,000.
Grand Forks Air Force Base, North Dakota, $17,040,000.
Grissom Air Force Base, Indiana, $3,000,000.
La Junta Radar Bomb Scoring Site, Colorado, $2,150,000.
Loring Air Force Base, Maine, $12,200,000.
Malmstrom Air Force Base, Montana, $30,770,000.
March Air Force Base, California, $13,600,000.
McConnell Air Force Base, Kansas, $32,760,000.
Minot Air Force Base, North Dakota, $26,660,000.
Offutt Air Force Base, Nebraska, $21,770,000.
Vandenburg Air Force Base, California, $2,700,000.
Whiteman Air Force Base, Missouri, $9,500,000.
Wurtsmith Air Force Base, Michigan, $9,550,000.

TACTICAL AIR COMMAND

Base 39, Classified Location, $2,300,000.
Bergstrom Air Force Base, Texas, $3,390,000.
Cannon Air Force Base, New Mexico, $7,250,000.
Davis-Monthan Air Force Base, Arizona, $11,100,000.
George Air Force Base, California, $7,650,000.
Holloman Air Force Base, New Mexico, $14,160,000.
Homestead Air Force Base, Florida, $3,400,000.
Langley Air Force Base, Virginia, $8,000,000.
Luke Air Force Base, Arizona, $19,480,000.
Mountain Home Air Force Base, Idaho, $12,700,000.
Myrtle Beach Air Force Base, South Carolina, $3,000,000.
Nellis Air Force Base, Nevada, $16,100,000.
Shaw Air Force Base, South Carolina, $3,700,000.
Tyndall Air Force Base, Florida, $13,950,000.
WESTCONUS, $10,300,000.

UNITED STATES AIR FORCE ACADEMY

Air Force Academy, Colorado, $4,000,000.

VARIOUS LOCATIONS

Various Energy Conservation Investment Projects, $9,470,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MILITARY AIRLIFT COMMAND

Lajes Field, Portugal, $15,750,000.

PACIFIC AIR FORCES

Kadena Air Base, Japan, $7,100,000.

Misawa Air Base, Japan, $10,300,000.
Kimhae Air Base, Korea, $3,050,000.
Kunsan Air Base, Korea, $4,650,000.
Osan Air Base, Korea, $14,350,000.
Suwon Air Base, Korea, $3,250,000.
Taegu Air Base, Korea, $2,350,000.
Clark Air Base, Republic of the Philippines, $55,350,000.
Saipan, $5,200,000.

SPACE COMMAND

Sondrestrom Air Base, Greenland, $5,860,000.
Thule Air Base, Greenland, $8,250,000.
Woomera Air Station, Australia, $2,300,000.

TACTICAL AIR COMMAND

Masirah, Oman, $3,500,000.
Thumrait, Oman, $3,400,000.

UNITED STATES AIR FORCES IN EUROPE

Hahn Air Base, Germany, $6,300,000.
Ramstein Air Base, Germany, $31,500,000.
Sembach Air Base, Germany, $7,100,000.
Spangdahlem Air Base, Germany, $6,050,000.
Zweibrucken Air Base, Germany, $2,750,000.
Aviano Air Base, Italy, $4,200,000.
San Vito Air Station, Italy, $3,300,000.
Woensdrecht Air Base, The Netherlands, $22,830,000.
Ankara Air Station, Turkey, $3,050,000.
Incirlik Air Base, Turkey, $9,400,000.
Pirinclik Air Station, Turkey, $3,000,000.
RAF Alconbury, United Kingdom, $13,350,000.
RAF Bentwaters, United Kingdom, $3,700,000.
RAF Fairford, United Kingdom, $2,750,000.
RAF Mildenhall, United Kingdom, $4,700,000.
RAF Upper Heyford, United Kingdom, $12,800,000.
Morocco, various locations, $25,400,000.
Base 30, Classified Location, $2,950,000.
Overseas Classified Location, $11,500,000.
Various Locations, Europe, $3,953,000.

SEC. 302. FAMILY HOUSING

(a) IN GENERAL.—The Secretary of the Air Force may construct or acquire family housing units (including land acquisition) at the following installations, in the number of units shown, and in the amount shown, for each installation:

Bitburg Air Base, Germany, three hundred and thirty-two units, $26,415,000.
Hahn Air Base, Germany, one hundred and fifty units, $11,300,000.
Osan Air Base, Korea, one unit, $160,000.
La Junta Air Force Station, Colorado, forty units, $4,000,000.
Beale Air Force Base, California, family housing maintenance shop, $180,000.
Davis-Monthan Air Force Base, Arizona, family housing management office, $300,000.
McGuire Air Force Base, New Jersey, family housing management office, $325,000.
Pope Air Force Base, North Carolina, family housing management office, $300,000.
Edwards Air Force Base, California, twenty-four mobile home spaces, $376,000.

(b) OSAN AIR BASE, KOREA.—Notwithstanding the space limitations of section 2826 of title 10, United States Code, the Secretary of the Air Force may construct one family housing unit at Osan Air Base, Korea, with a maximum net floor area of 3,000 square feet at a cost not to exceed $160,000.

SEC. 303. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Air Force may make expenditures to improve existing military family housing units, including energy conservation projects, in an amount not to exceed $52,644,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Air Force may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Eielson Air Force Base, Alaska, eighty-eight units, $6,186,000.
Elmendorf Air Force Base, Alaska, twelve units, $760,000.
Air Force Academy, Colorado, one unit, $120,000.
Peterson Air Force Base, Colorado, four units, $149,000.
MacDill Air Force Base, Florida, one hundred and fifty-eight units, $4,430,000; seven units, $553,000; seventy-one units, $2,103,000.
Scott Air Force Base, Illinois, one hundred and twelve units, $4,690,000.
Barksdale Air Force Base, Louisiana, one hundred and fourteen units, $5,342,000.
Bangor Air Force Station, Maine, one unit, $30,000.
Andrews Air Force Base, Maryland, seven units, $518,000.
Pease Air Force Base, New Hampshire, two hundred units, $7,177,000.
Plattsburgh Air Force Base, New York, twenty-nine units, $2,272,000.
Shaw Air Force Base, South Carolina, one hundred and twenty-five units, $4,385,000; seventy-four units, $2,598,000.
Carswell Air Force Base, Texas, two hundred and three units, $7,478,000.
Lackland Air Force Base, Texas, sixty-four units, $1,920,000.
Randolph Air Force Base, Texas, five units, $402,000.
Reese Air Force Base, Texas, one hundred units, $2,895,000.
Langley Air Force Base, Virginia, five units, $441,000.
Andersen Air Force Base, Guam, two hundred units, $14,517,000.
Kadena Air Base, Japan, one hundred units, $5,054,000; three units, $240,000.

SEC. 304. AUTHORIZATION OF APPROPRIATIONS, AIR FORCE; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Air Force in the total amount of $2,149,749,000 as follows:

(1) For military construction projects inside the United States authorized by section 2121(a), $695,057,000.

(2) For military construction projects outside the United States authorized by section 2121(b), $321,243,000.

(3) For minor construction projects under section 2805 of title 10, United States Code, $210,280,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $117,260,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $32,700,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $103,000,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $751,409,000, of which not more than $5,600,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $74,176,000 may be obligated or expended for the leasing of military family housing units in the foreign countries.

(7)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)–(5) of this subsection, the total amount authorized to be appropriated by this subection for the purposes described in such paragraphs is $1,313,280,000.

(B) Notwithstanding the amounts authorized to be appropriated by subparagraphs (A) and (B) of paragraph (6) of this subsection, the total amount authorized to be appropriated for the purposes described by such subparagraphs is $835,409,000.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS FOR ENERGY CONSERVATION PROJECTS.—Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects of the Department of the Air Force that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects authorized in section 2121(a) in an amount not to exceed $9,470,000.

(c) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE III.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2121 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a) and the amount specified in subsection (b).

SEC. 305. EXTENSION OF CERTAIN AUTHORIZATIONS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), authorizations for the following projects authorized in section 302 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Cadet Gymnasium in the amount of $10,000,000 at the United States Air Force Academy, Colorado.

(2) GLCM—Clothing Sales Store in the amount of $300,000 at Comiso Air Base, Italy.

(3) GLCM—Library in the amount of $570,000 at Florennes Air Base, Belgium.

(4) Anti-Satellite Facilities in the total amount of $16,500,000 at Langley Air Force Base, Virginia, to include: Integrated Maintenance Facility for $9,870,000; Missile and Motor Storage Facility for $3,870,000; Administrative Building for $645,000; Hydrazine Storage for $370,000; Control Center for $860,000; and Cryogen Storage and Procurement Facility for $955,000.

## TITLE IV—DEFENSE AGENCIES

### SEC. 401. AUTHORIZED CONSTRUCTION PROJECTS AND LAND ACQUISITION FOR THE DEFENSE AGENCIES

(a) INSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

DEFENSE COMMUNICATIONS AGENCY

Scott Air Force Base, Illinois, $7,600,000.
Pentagon, Virginia, $2,300,000.

DEFENSE LANGUAGE INSTITUTE

Defense Language Institute, Monterey, California, $5,400,000.

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Naval Supply Center, Charleston, South Carolina, $5,130,000.
Defense Depot, Ogden, Utah, $9,780,000.
Defense Fuel Support Point, Mukilteo, Washington, $6,360,000.

DEFENSE MAPPING AGENCY

Aerospace Center, St. Louis, Missouri, $16,700,000.

DEFENSE MEDICAL FACILITIES OFFICE

Edwards Air Force Base, California, $3,950,000.
Pearl Harbor, Hawaii, $9,700,000.
Mountain Home Air Force Base, Idaho, $30,500,000.
Fort Polk, Louisiana, $2,650,000.
Keesler Air Force Base, Mississippi, $3,100,000.
McGuire Air Force Base, New Jersey, $3,800,000.
Kirtland Air Force Base, New Mexico, $16,000,000.
Camp Lejeune, North Carolina, $3,900,000.
Brooks Army Medical Center, San Antonio, Texas, $127,000,000.
Fort Hood, Texas, $3,450,000.
Randolph Air Force Base, Texas, $13,700,000.

DEFENSE NUCLEAR AGENCY

Naval Research Laboratory, Washington, District of Columbia, $3,200,000.

JOINT TACTICAL COMMAND, CONTROL, AND COMMUNICATIONS AGENCY

Fort Huachucha, Arizona, $9,890,000.

NATIONAL SECURITY AGENCY

Fort Meade, Maryland, $9,570,000.
Classified Location, $3,000,000.
Classified Location, $4,000,000.

OFFICE OF THE SECRETARY OF DEFENSE

Classified Location, $3,000,000.
Environmental Restoration, $6,000,000.

STRATEGIC DEFENSE INITIATIVE

Edwards Air Force Base, California, $4,140,000.
Pacific Missile Range, Kaui, Hawaii, $2,890,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Chimu Wan, Japan, $6,640,000.
Defense Fuel Support Point, Tsurumi, Japan, $3,520,000.

DEFENSE MEDICAL FACILITIES OFFICE

Boeblingen, Germany, $3,650,000.
Grafenwoehr, Germany, $3,950,000.
Karlsruhe, Germany, $6,800,000.
Vilseck, Germany, $5,600,000.
Camp New Amsterdam, The Netherlands, $6,000,000.

DEPARTMENT OF DEFENSE DEPENDENT SCHOOLS

Naval Air Station, Bermuda, $4,280,000.
Aschaffenburg, Germany, $6,600,000.
Dexheim, Germany, $2,430,000.
Erlangen, Germany, $3,220,000.
Grafenwoehr, Germany, $2,500,000.
Hahn, Germany, $3,470,000.
Heidelberg, Germany, $3,190,000.
Hessisch-Oldendorf, Germany, $2,310,000.
Kaiserslautern, Germany, $7,880,000.
Nuernberg, Germany, $8,580,000.
Stuttgart, Germany, $4,530,000.
Wuerzburg, Germany, $7,760,000.
Woensdrecht, The Netherlands, $7,420,000.

(c) VARIOUS LOCATIONS.—The Secretary of Defense may acquire real property and may carry out military construction projects not otherwise authorized by law for the construction of hazardous waste storage facilities.

### SEC. 402. FAMILY HOUSING

The Secretary of Defense may construct or acquire three family housing units (including land acquisition) at classified locations in the total amount of $270,000.

### SEC. 403. BROOKE ARMY MEDICAL CENTER

(a) AUTHORIZATION TO CONTRACT IN ADVANCE OF APPROPRIATIONS.—The Secretary of Defense may enter into one or more contracts, in advance of appropriations therefor, for the design and construction of the military construction project authorized by section 2131 to be accomplished at Brooke Army Medical Center, San Antonio, Texas, if such contracts limit the Government's liability to the amount of funds available for obligation at the time each contract is entered into. Such design and contruction may be accomplished by using one-step turn-key selection procedures, or other competitive contracting methods.

(b) REPEAL PROVISION.—Section 104 of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1498), is repealed.

### SEC. 404. PROHIBITION ON DESIGN OF PENTAGON ANNEX

None of the funds appropriated pursuant to an authorization contained in this or any other Act may be used for the purpose of designing an administrative complex on the property known as the Pentagon Reservation, Arlington, Virginia, for the purpose of supporting the headquarters of the Department of Defense or the military departments or the support functions of such headquarters.

### SEC. 405. AUTHORIZATION OF APPROPRIATIONS, DEFENSE AGENCIES; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986 for military construction, land acquisition, and military family housing functions of the Department of Defense (other than the military departments), in the total amount of $568,500,000 as follows:

(1) For military construction projects inside the United States authorized by section 2131(a), $189,710,000.

(2) For military construction projects outside the United States authorized by section 2131(b), $100,330,000.

(3) For military construction projects at Fort Meade, Maryland, authorized by section 401(a) of the Military Construction Authorization Act, 1986, $53,700,000.

(4) For military construction projects at Fort Lewis, Washington, authorized by section 101(a) of the Military Construction Authorization Act, 1985, $72,100,000.

(5) For minor construction projects under section 2805 of title 10, United States Code, $30,760,000.

(6) For construction projects under the contingency construction authority of the Secretary of Defense under section 2804 of title 10, United States Code, $5,000,000.

(7) For Conforming Storage Facilities at various locations authorized by section 2131(c), $21,400,000.

(8) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $100,700,000.

(9) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $270,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $17,330,000, of which not more than $14,027,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(10) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)-(8) of this subsection the total amount authorized to be appropriated by this subsection for the purposes described by such paragraphs is $550,900,000.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE IV.—Notwithstanding the cost variations authorized by section 2858 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2131 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

### SEC. 406. EXTENSION OF AUTHORIZATIONS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), the authorizations for the construction or acquisition of 6 family housing units in section 402 of such Act shall remain in effect until October 1, 1987, or the date of the Military Construction Authorization Act for fiscal year 1988, whichever is later.

## TITLE V—NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

### SEC. 501. AUTHORITY OF THE SECRETARY OF DEFENSE TO MAKE CONTRIBUTIONS

The Secretary of Defense may make contributions for the North Atlantic Treaty Organization infrastructure program as provided in section 2806 of title 10, United States Code, in an amount not to exceed the sum of the amount authorized to be appropriated for this purpose in section 2142 of this Act and the amount collected from the North Atlantic Treaty Organization as a result of projects previously financed by the United States.

### SEC. 502. AUTHORIZATION OF APPROPRIATIONS, NATO

Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for contributions by the Secretary of Defense under section 2806 of title 10, United States Code, for the share of the United States of the cost of projects for the North Atlantic Treaty Organization Infrastructure Program as authorized by section 2041 of this Act, in the amount of $239,000,000.

## TITLE VI—GUARD AND RESERVE FORCES FACILITIES

### SEC. 601. AUTHORIZATION FOR GUARD AND RESERVE FACILITIES

There are authorized to be appropriated for fiscal years beginning after September 30, 1986, for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 133 of title 10, United States Code (including the cost of acquisition of land for those facilities), the following amounts:

(1) For the Department of the Army—

(A) for the Army National Guard of the United States, $118,700,000, and

(B) for the Army Reserve, $83,200,000.

(2) For the Department of the Navy, for the Naval and Marine Corps Reserves, $43,800,000.

(3) For the Department of the Air Force—

(A) for the Air National Guard of the United States, $137,000,000, and

(B) for the Air Force Reserve, $55,400,000.

## TITLE VII—GENERAL PROVISIONS

### PART A—EXPIRATION OF AUTHORIZATIONS AND AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

### SEC. 701. EXPIRATION OF AUTHORIZATIONS AND AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

(a) EXPIRATION OF AUTHORIZATIONS AFTER TWO YEARS.—(1) Except as provided in subsection (b), all authorizations contained in titles I, II, III, IV, and V for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor) shall expire on October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later.

(b) EXCEPTION.—The provisions of paragraph (1) do not apply to authorizations for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor), for which appropriated funds have been obligated before October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later, for construction contracts, land acquisition, family housing projects and facilities, or contributions to the NATO Infrastructure Program.

### SEC. 702. ESTABLISHMENT OF CERTAIN AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

For projects or contracts initiated during the period beginning on the date of enactment of this Act and ending on the date of the enactment of the Military Construction Authorization Act for fiscal year 1988 or October 1, 1987, whichever is later, the following amounts apply:

(1) The maximum amount for a minor military construction project under section 2805 of title 10, United States Code, is $2,000,000.

(2) The amount of a contract for architectural and engineering services or construction design that makes such a contract subject to the reporting requirement under section 2807 of title 10, United States Code, is $300,000.

(3) The maximum amount per unit for an improvement project for family housing units under section 2825 of title 10, United States Code, is $30,000.

(4) The maximum annual rental for a family housing unit leased in the United States, Puerto Rico, or Guam under section 2828(b) of title 10, United States Code, is $10,000.

(5)(A) The maximum annual rental for a family housing unit leased in a foreign country under section 2828(e)(1) of title 10, United States Code, is $16,800.

(B) The maximum number of family housing units that may be leased at any one time in foreign countries under section 2828(e)(2) of title 10, United States Code, is 34,500.

(6) The maximum rental per year for family housing facilities, or for real property related to family housing facilities, leased in a foreign country under section 2828(f) of title 10, United States Code, is $250,000.

### PART B—MILITARY CONSTRUCTION PROGRAM PROVISIONS

### SEC. 711. MINOR CONSTRUCTION

(a) IN GENERAL.—Section 2805 of title 10, United States Code, is amended—

(1) in subsection (b)—

(A) by striking out paragraph (1) and inserting in lieu thereof the following:

"(1) A minor military construction project not identified in the Department of Defense annual budget request for a fiscal year may not be constructed if the estimated cost of such project exceeds 50 percent of the amount specified by law as the maximum amount for a minor military construction project unless the Secretary concerned has notified in writing the appropriate committees of Congress of that decision, of the justification for the project, and of the estimated cost of the project. The project may then be carried out only after the expiration of 21 days following the date on which the notification is received by the committees.";

(B) by striking out paragraph (2); and

(C) by redesignating paragraph (3) as paragraph (2);

(2) by striking out subsection (c) and inserting in lieu thereof the following:

"(c) The Secretary concerned may spend from funds available for operation and maintenance amounts necessary to carry out a minor construction project costing not more than 20 percent of the amount specified by law as the maximum amount for a minor military construction project."; and

(3) by striking out the section heading and inserting in lieu thereof the following:

"§ 2805. Minor construction".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 169 of such title is amended by striking out the item relating to section 2805 and inserting in lieu thereof the following:

"2805. Minor construction.".

### SEC. 712. RENOVATION OF FACILITIES

(a) IN GENERAL.—Chapter 169 of title 10, United States Code, is amended by adding at the end of subchapter I the following new section:

"§ 2810. Renovation of facilities

"(a) The Secretary concerned may carry out renovation projects that combine maintenance, repair, and minor construction projects for an entire single-purpose facility or for one or more functional areas of a multipurpose facility. In carrying out such projects, the Secretary concerned may use funds available for operations and maintenance.

"(b) The maximum amount that may be obligated on such a renovation project is the maximum amount specified by law for a minor construction project.

"(c) The construction of a new facility or an addition to an existing facility may not be carried out under the authority of this section.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such subchapter is amended by adding at the end the following new item:

"2810. Renovation of Facilities.".

### SEC. 713. TEST PROGRAM FOR MILITARY INSTALLATION MASTER PLANNING

In order to provide Congress with information necessary to determine the desirability and feasibility of using installation master plans as a basis for determining long-term military construction requirements, the Secretary of Defense shall, at the same time he submits the annual request for military construction authorization pursuant to section 2859 of title 10, United States Code, for fiscal year 1988, include in such request—

(1) master plans for at least two military installations of each military department; and

(2) a request for the authorization of those construction projects included in the installation master plans referred to in clause (1) that are scheduled to be constructed within five fiscal years after the fiscal year in which the request is submitted.

### SEC. 714. TEST OF LONG-TERM FACILITIES CONTRACTS

Paragraph (1) of section 2809(a) of title 10, United States Code, is amended to read as follows:

"(1)(A) The Secretary concerned may enter into contracts for the construction, management, and/or operation of a facility on or near a military installation for the provision of an activity or service named in subparagraph (B) if the Secretary concerned has identified the proposed project in the budget proposal submitted to Congress and has determined that the facility can be more economically provided under a long-term contract than by conventional means.

"(B) The activities and services referred to in subparagraph (A) are as follows:

"(i) Child care services.

"(ii) Potable and waste water treatment services.

"(iii) Depot supply activities.

"(iv) Troop housing.

"(v) Transient quarters.

"(vi) Other logistic and administrative services, other than depot maintenance.".

### SEC. 715. PLANNING AND DESIGN

(a) IN GENERAL.—Section 2807 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(d) The Secretary of a military department may obtain architectural and engineering services and carry out construction design in connection with any military construction project in any fiscal year with any funds appropriated for such purpose for any previous fiscal year to the extent that such funds are available.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to funds appropriated for military construction projects after the date of the enactment of Public Law 99-103 (99 Stat. 471).

### SEC. 716. SPACE LIMITATIONS ON OFFICER HOUSING

Subsection (b) of section 2826 of title 10, United States Code, is amended to read as follows:

"(b) The applicable maximum net floor area prescribed by subsection (a)—

"(1) may be increased to 3,000 square feet for the housing unit of—

"(A) an officer holding a special command position (as designated by the Secretary of Defense);

"(B) a general or flag officer holding a position of commander; or

"(C) a general or flag officer holding a key and essential staff position which requires extensive official representational duties (as designated by the Secretary of the military department concerned);

"(2) may be increased to 2,100 square feet for the housing unit of the commanding officer of a military installation in the pay grade of O-6 or above; or

"(3) may be increased by 10 percent for the housing unit of the senior noncommissioned officer of a military installation, but an increase may not be made under this clause in the case of any housing unit if an increase is made for such housing unit under subsection (c).".

SEC. 717. HAZARDOUS WASTE STORAGE

(a) AUTHORITY TO CONSTRUCT.—In order to meet the pressing need for the storage of hazardous and toxic materials and wastes on military installations, the Secretary of Defense may, using funds available for military construction, carry out military construction projects not otherwise authorized by law for the construction of hazardous waste storage facilities.

(b) NOTIFICATION TO CONGRESS.—When a decision is made to carry out a project under this section, the Secretary of Defense shall notify in writing the appropriate committees of Congress of that decision, of the justification for the project, and of the estimated cost of the project. The project may not be initiated until a period of 21 days has elapsed after the date on which the notification is received by the committees.

(c) INCREASE IN COST OF PROJECT.—The cost of a hazardous waste storage facility project carried out under this section may be increased by not more than 25 percent of the estimated cost of the project as contained in the notification provided to the committees pursuant to subsection (b) if the Secretary of Defense determines (A) that such an increase is required for the sole purpose of meeting unusual variations in cost, and (B) that such variations in cost could not have been reasonably anticipated at the time the project justification was originally submitted to the committees.

(d) DEFINITION.—As used in this section, the term "hazardous waste" includes both excess hazardous materials and hazardous wastes as defined by applicable laws and regulations.

(e) EXPIRATION OF AUTHORITY.—A military construction project for the erection of a hazardous waste storage facility may not be commenced under this section after September 30, 1991.

SEC. 718. BUILD-TO-LEASE AND RENTAL GUARANTEE PILOT PROGRAMS

(a) RENTAL GUARANTEE PROGRAM.—(1) Subsection (b) of section 802 of the Military Construction Authorization Act, 1984 (10 U.S.C. 2821 note), is amended—

(A) by striking out "and" at the end of clause (10);

(B) by striking out the period at the end of clause (11) and inserting in lieu thereof "; and"; and

(C) by adding at the end the following new clause:

"(12) may provide in the agreement for the rental of a child care center, civic center building, and similar type buildings constructed for the support of family housing.".

(2) Subsection (h) of such section is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1990".

(3) Subsection (b) of such section is amended—

(A) in paragraph (2), by striking out "for operation and maintenance costs which shall (if included) be effective for the term of agreement";

(B) in paragraph (4), by adding "or, at the discretion of the Secretary of the military department concerned, in compliance with the local building codes" after "specifications"; and

(C) in paragraph (5), by striking out "15 years" and inserting in lieu thereof "25 years".

(b) BUILD-TO-LEASE PROGRAM.—Section 2828(g) of title 10, United States Code, is amended—

(1) in paragraph (8)(B), by striking out "600" and inserting in lieu thereof "3,600";

(2) in paragraph (9), by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1988"; and

(3) by adding at the end the following new paragraph:

"(10) A contract for the lease of family housing under this subsection may include provision for the lease of a child care center, civic center building, and similar type buildings constructed for the support of family housing.".

SEC. 719. FOREIGN LEASES FOR PERSONNEL HOLDING SPECIAL POSITIONS

Subsection (e)(1) of section 2828 of title 10, United States Code, is amended by striking out "200" and inserting in lieu thereof "220".

PART C—MISCELLANEOUS PROVISIONS

SEC. 720. RESTRICTIONS ON CONVERSION OF HEATING FACILITIES AT UNITED STATES MILITARY INSTALLATION IN EUROPE

(a) IN GENERAL.—The Secretary of a military department may not convert a heating facility at any United States military installation in Europe from a coal-fired facility to an oil-fired facility, or to any other energy source facility, unless the Secretary of the military department concerned—

(1) determines that the conversion (A) is required by the government of the country in which the facility is located, or (B) is life cycle cost effective; and

(2) has notified Congress of the proposed conversion and a period of 30 days has elapsed following the date on which Congress received the notice.

(b) USE OF COAL.—(1)(A) The Secretary of Defense shall, in each case in which the Secretary determines such action would be cost effective, provide for the use of coal produced in the United States to operate heating facilities at military installations in the United States.

(B) The Secretary of Defense shall take such action as may be necessary to implement, at the earliest practicable date and with funds provided for such purpose by section 8110 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat. 1222), the program proposed by the Department of Defense in a letter dated August 30, 1985, from the Assistant Secretary of Defense for Acquisition and Logistics to rehabilitate and convert current steam generating plants at defense facilities in the United States to coal burning facilities in order to achieve a coal consumption target of 1,600,000 short tons of coal per year (including at least 300,000 short tons of anthracite coal) above current consumption levels at Department of Defense facilities in the United States by fiscal year 1994: *Provided further,* That during fiscal year 1987, the amount of anthracite coal purchased by the Department shall be at least 300,000 short tons.

(2) In carrying out the actions referred to in paragraph (1), the Secretary shall make maximum use of private venture capital and long-term contracting.

(3) The Secretary shall report to Congress not later than March 1 of each year on the actions taken by the Secretary in carrying out paragraph (1).

(c) REPEAL OF CERTAIN RESTRICTIONS.—Sections 8022 and 8070 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat. 1207, 1214, and 1222), are repealed.

SEC. 721. BASE CLOSURE TASK GROUP

(a) ESTABLISHMENT OF TASK GROUP.—The President shall establish a study group to be known as the "Blue Ribbon Task Group on Military Base Closures" (hereinafter in this section referred to as the "Task Group").

(b) FUNCTION OF TASK GROUP.—It shall be the function of the Task Group to study and evaluate military installations with a view to determining and recommending which installations should be closed.

(c) APPOINTMENT OF MEMBERS.—The Task Group shall be composed of 9 members appointed as follows:

(1) Five members appointed by the President.

(2) One member appointed by the majority leader of the Senate.

(3) One member appointed by the minority leader of the Senate.

(4) One member appointed by the speaker of the House of Representatives.

(5) One member appointed by the minority leader of the House of Representatives.

(d) CHAIRMAN.—The President shall designate one of the members of the Task Group to serve as Chairman.

(e) QUORUM.—Five members of the Task Group shall constitute a quorum, but a lesser number may hold hearings. The Task Group shall meet at the call of the Chairman.

(f) VACANCIES.—A vacancy in the Task Group shall be filled in the manner in which the original appointment was made. Appointments may be made under subsection (c) without regard to section 5311(b) of title 5, United States Code. Members shall be appointed for the life of the Task Group.

(g) COMPENSATION OF MEMBERS.—Members of the Task Group may each be paid at a rate equal to the daily equivalent of the rate of basic pay payable for level IV of the Executive Schedule for each day (including travel time) during which they are engaged in the actual performance of the business of the Task Group.

(h) STAFF.—(1) The Task Group may appoint such staff as it considers appropriate. Such personnel shall be paid at a rate not to exceed the rate of basic pay payable for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code.

(2) The Task Group may procure temporary and intermittent services under section 3109(b) of title 5, United States Code.

(3) The Secretary of Defense may detail personnel of the Department of Defense to the Task Group to assist the Task Group in carrying out its duties under this section.

(4) The Secretary of Defense may provide the Task Group such administrative support services as the Task Group may require.

(i) REPORT DEADLINE.—Not later than July 31, 1987, the Task Group shall submit to the President and to Congress a report containing the results of its study together with a list of military installations the Task Group recommends be closed. The report shall be prepared and submitted without any prior review or approval by any official of the executive branch.

(j) TERMINATION OF TASK GROUP.—The Task Group shall cease to exist 90 days after the date on which the report referred to in subsection (i) is submitted to the President and Congress.

(k) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated for fiscal years 1986 and 1987 a total of $1,000,000 to carry out this section. Any amount appropriated under this subsection shall remain available until the termination of the Task Group, except that no amount shall remain available until the Secretary of the Navy (hereinafter in this section referred to as the "Secretary") transfers to the United States Postal Service (hereinafter in this section referred to as the "Postal Service") jurisdiction over approximately 3.2 acres of land, together with improvements thereon, located in Aiea, Hawaii, and the Postal Service pays, out of any funds available to the Postal Service, to the Secretary of the Navy an amount equal to the greater of the following:

(1) The approved fair market value of the property over which jurisdiction is to be transferred (as determined by the Secretary).

(2) The cost of providing to the Navy fleet laundry and dry cleaning facilities to replace facilities located on the land over which jurisdiction is to be transferred pursuant to this subsection.

(l) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the land over which jurisdiction is to be transferred under this section shall be determined by surveys that are satisfactory to the Secretary. The cost of the surveys shall be borne by the Postal Service.

(m) ADDITIONAL TERMS.—(1) The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interest of the Navy.

(2) If the fair market value of the property over which jurisdiction is to be transferred to the Postal Service under subsection (k) exceeds the cost of the replacement fleet laundry and dry cleaning facilities, the Secretary shall deposit the excess into the general fund of the Treasury.

SEC. 722. DEVELOPMENT OF THE NAVY BROADWAY COMPLEX, SAN DIEGO, CALIFORNIA

(a) IN GENERAL.—(1) The Secretary of the Navy (hereinafter in this section referred to as the "Secretary") may enter into long-term leases or other arrangements for the construction of office and other administrative facilities on land under the jurisdiction of the Secretary in San Diego, California, known as the "Broadway Complex".

(2) The Broadway Complex shall be developed in accordance with detailed plans and terms of development which have been duly formulated by the Navy and the San Diego community through the San Diego Association of Governments' Broadway Complex Coordinating Group.

(3) Long-term leases or other arrangements entered into under this section may provide that facilities constructed on the Broadway Complex be privately owned, jointly owned by the Navy and private developers, or wholly owned by the Navy.

(4) Demolishment of existing facilities and construction of new facilities on the Broadway Complex may be carried out in whole or in part at the expense of private developers.

(5) The Secretary may—

(A) lease land at the Broadway Complex to private developers on a long-term basis; or

(B) enter into leases or other arrangements for provision by private developers of low cost office facilities for use by the Navy.

(6) The Secretary may also receive, obligate, and disburse any funds received from the lease of Navy land at the Broadway Complex for the construction and management of facilities constructed under this section.

(b) AWARD OF CONTRACT.—Contracts entered into by the Secretary under this section shall be awarded through the use of publicly advertised, competitively bid, or competitively negotiated contracting procedures.

(c) TERMS OF CONTRACTS.—(1) The Secretary may require as a condition for the award of a long-term lease of land at the Broadway Complex that the Navy be given the right of first refusal for the purchase of any facilities constructed on the land by or for the lessee.

(2) A long-term lease or other arrangement entered into by the Secretary under this section under which offices or other facilities are constructed by a private developer and leased to the Navy may provide for the operation and maintenance of such facilities by the private developer.

(3) The Secretary may require such additional terms and conditions in connection with any contract or other arrangement entered into under this section as the Secretary considers appropriate to protect the interests of the United States.

(d) PRECONDITION TO CONTRACT.—The Secretary may not enter into a long-term lease or other arrangement under this section until—

(1) a comprehensive plan for the proposed development of the Broadway Complex has been prepared and such plan clearly demonstrates that development under the proposed plan is more economically advantageous to the United States than development of the Complex by the Navy with appropriated funds;

(2) a copy of the proposed plan has been submitted to the appropriate committees of Congress; and

(3) a period of 21 days has elapsed following the date on which the plan is received by the committees referred to in clause (2).

SEC. 723. SELECTION OF SITE FOR MILITARY FAMILY HOUSING AT SAN PEDRO, CALIFORNIA

(a) IN GENERAL.—(1) The Secretary of the Air Force (hereinafter in this section referred to as the "Secretary") shall consider appropriate sites in San Pedro, California, for the location and construction of 170 military family housing units for members of the Air Force assigned to duty in the area of San Pedro.

(2) The Secretary shall consider as an appropriate site for such housing only land in the San Pedro area in which the United States has a reversionary interest for national defense purposes or land which would be conveyed to the United States without charge.

(3) After the Secretary has selected one or more sites for such housing, he shall file a final environmental impact statement as required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) on each site determined by the Secretary to be appropriate for the purpose stated in paragraph (1). Within 10 days after the expiration of the 30-day period referred to in section 1506.10(b)(2) of title 40 of the Code of Federal Regulations, the Secretary shall select as a site for the location of the housing units referred to in subsection (a) one of the sites considered appropriate for such purpose.

(b) EXERCISE OF REVERSIONARY RIGHT.—(1) If the land selected as the site for the housing units is subject to a reversionary right on behalf of the United States, the Secretary shall notify the Attorney General of the United States or other appropriate official that the site selected is needed for national defense purposes.

(2) The Attorney General or other appropriate official shall, within 15 days after receiving the notification referred to in paragraph (1), take such action as may be necessary to exercise the reversionary right held by the United States in the land selected as the site for the housing.

(3) Within 15 days after the United States resumes ownership over the land, the Attorney General or other appropriate official shall transfer jurisdiction of such land to the Secretary.

(c) CONSTRUCTION OF MILITARY FAMILY HOUSING.—The Secretary shall use any land made available pursuant to this section as the site for the construction of the 170 military family housing units referred to in subsection (a).

SEC. 724. GRANTING OF EASEMENTS AND REPLACEMENT OF FAMILY HOUSING UNITS AND OTHER FACILITIES AT MARINE CORPS AIR STATION, EL TORO, CALIFORNIA

(a) AUTHORITY TO GRANT EASEMENTS.—Subject to subsection (b) and other conditions the Secretary may specify in the agreements entered into for the purpose of carrying out this section, the Secretary of the Navy (hereafter in this section referred to as the "Secretary") may grant to Orange County, California, one or more easements through the Marine Corps Air Station, El Toro, California, for street, sidewalk, and related purposes.

(b) MANDATE TO REPLACE FAMILY HOUSING AND OTHER FACILITIES.—(1) Subject to subsection (c), the Secretary shall provide for the replacement of all family housing units and other facilities that are to be demolished as a result of any easement granted under subsection (a).

(2) An easement granted under subsection (a) shall not become effective until the Secretary determines that—

(A) family housing units have been constructed to replace all the family housing units to be demolished as a result of such easement; and

(B) such replacement units meet the applicable requirements specified in the agreements referred to in subsection (a).

(3) Until the determination referred to in paragraph (2) is made, the Secretary shall continue to use, as military family housing, the housing units that are to be demolished as a result of an easement becoming effective.

(c) FUNDING.—(1) The Secretary may use not more than $2,300,000 of the amount appropriated pursuant to the authorization contained in section 2115(a)(7)(A) for pay-

ment in connection with the construction of replacement family housing units required by subsection (b).

(2) The Secretary may make available amounts for the construction of such replacement family housing units at the times specified in the agreements referred to in subsection (a).

(3) The Secretary may not make any funds available under this section for the demolition of existing facilities on the land on which easements are granted or for the replacement of any facilities other than family housing facilities.

SEC. 725. POSTAL FACILITIES

Sections 4779 and 9779 of title 10, United States Code, are each amended—

(1) by striking out subsection (b); and

(2) by redesignating subsection (c) as subsection (b).

SEC. 726. STUDY OF NEEDS OF DEPENDENTS' EDUCATIONAL FACILITIES ON MILITARY INSTALLATIONS

(A) IN GENERAL.—The Secretary of Defense and the Secretary of Education shall conduct a joint study for the purpose of determining the needs for construction, extension, remodeling, and rehabilitation of dependents' educational facilities on military installations in the United States and shall develop a joint policy to meet those needs.

(b) REPORT.—(1) Not later than April 1, 1987, the Secretaries of Defense and Education shall submit to Congress a report containing—

(1) a description of the needs determined under subsection (a);

(2) the joint policy developed to meet such needs; and

(3) any recommendations for legislation the Secretaries consider necessary or appropriate to meet such needs.

SEC. 727. MULTIFUEL SOURCES FOR NEW HEATING SYSTEMS AT MILITARY INSTALLATIONS

(a) IN GENERAL.—Section 2690 of title 10, United States Code, is amended to read as follows:

"§ 2690. MULTIFUEL SOURCES FOR NEW HEATING SYSTEMS

"(a) Except as provided in subsection (b), each new heating or cogeneration system which is installed or constructed at any military installation located on lands under the jurisdiction of a military department and which requires 100 million British thermal units input per hour or more shall have multiple fuel capability. The primary and secondary fuel capability of any such system shall be a fuel from the solid fuel group or the liquid and gas hydrocarbon group (petroleum and natural gas). The fuel capability of a new heating or cogeneration system shall be determined on the basis of life cycle costs and availability of fuels.

"(b) In any case in which local restrictions or costs make the installation or construction of solid or dual fuel equipment infeasible, the Secretary concerned may waive the requirement of subsection (a), but such waiver shall not become effective until after the Secretary concerned has notified the appropriate committees of Congress in writing of the waiver and the reasons for exercising such waiver authority.

"(c) In this section, the term 'multiple fuel capability' means the capability of using two or more types of fuel.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of Chapter 159 of such title is amended by striking out the item relating to section 2690 and inserting in lieu thereof the following:

"2690. Multifuel sources for new heating systems.".

PART D—REAL PROPERTY TRANSACTIONS

SEC. 731. LAND CONVEYANCE, FORT HUACHUCA, ARIZONA

(a) AUTHORITY TO CONVEY.—The Secretary of the Army (hereinafter in this section referred to as the "Secretary") is authorized to convey to the State of Arizona all right, title, and interest of the United States in and to approximately 26 acres of land which comprise a portion of Fort Huachuca, Arizona, and which border on State Highway 90 at Fort Huachuca. Such acres are located in the East half of Township 21 South, Range 20 East, Gila and Salt River Meridian.

(b) CONSIDERATION.—(1) In consideration for the conveyance authorized by subsection (a), the State of Arizona shall convey to the United States all right, title, and interest of the State in and to 1,536.47 acres of land owned by the State within the East Range at Fort Huachuca and to all mineral rights owned by the State in 12,943 acres located within the East Range at Fort Huachuca. Title to such land and mineral rights shall be conveyed free and clear of encumbrances and third party interests except to the extent waived by the Secretary.

(2) If the fair market value of the lands conveyed by the Secretary under subsection (a) exceeds the fair market value of the lands and mineral interests conveyed to the United States under subsection (b), as determined by the Secretary, the State shall pay the difference to the United States. Any funds received under this subsection shall be covered into the general fund of the Treasury.

(c) AUTHORITY TO SELL ADDITIONAL ACREAGE.—(1) In addition to the acreage authorized to be conveyed under subsection (a), the Secretary is authorized to sell, subject to paragraphs (2) and (3), all right, title, and interest of the United States in and to approximately 203 acres of land (designated by the Secretary) comprising a portion of Fort Huachuca, Arizona.

(2) The sale of the land referred to in paragraph (1) shall be conducted in accordance with competitive bidding procedures prescribed in section 2304 of title 10, United States Code. In no event may the land be sold for less than the fair market value thereof. The fair market value of the property shall be established by an appraisal approved by the Secretary.

(3) If the fair market value of the lands and mineral rights conveyed to the United States pursuant to subsection (b) exceeds the fair market value of the lands conveyed by the United States pursuant to subsection (a), the Secretary may use the proceeds of the sale under paragraph (1) to pay the difference in value to the State of Arizona. Any proceeds of the sale not used for such purposes shall be covered into the general fund of the Treasury.

(d) LEGAL DESCRIPTION OF LANDS.—The exact acreage and legal descriptions of any property conveyed or acquired under this section shall be based upon surveys which are satisfactory to the Secretary.

(e) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions in connection with the transactions authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 732. LAND CONVEYANCE, MARCH AIR FORCE BASE, CALIFORNIA

(a) AUTHORITY TO SELL.—Subject to subsections (b) through (g), the Secretary of the Air Force (hereafter in this section referred to as the "Secretary") may sell all or any portion of a tract of land (together with improvements thereon), comprising a portion of March Air Force Base, California, known as West March and consisting of 845 acres, more or less.

(b) CONDITIONS OF SALE.—The Secretary shall require as a condition of the sale of the property referred to in subsection (a) that the purchaser—

(1) agree to construct on Government-owned land at March Air Force Base, at the expense of the purchaser, in accordance with standards and specifications prescribed by the Secretary, a noncommissioned officers professional education center, a band center, and an addition to, or an alteration of, a combat operations center; and

(2) submit to the Secretary a master plan for the development of the land referred to in subsection (a) that (A) is consistent (as determined by the Secretary) with the Air Installations Compatible Use Zone recommendations of the Air Force, (B) is consistent (as determined by the Secretary) with the future plans of the Air Force for March Air Force Base and the plan for development of Air Force Village West; and (C) is acceptable to the appropriate local government officials of the city and county of Riverside, California.

(c) COMPETITIVE BID REQUIREMENT; MINIMUM SALE PRICE.—(1) The sale of any of the land referred to in subsection (a) shall be carried out under competitive contracting procedures.

(2) In no event may property referred to in subsection (a) be sold for less than fair market value of such property. The value of the property to be conveyed and the consideration to be received shall be determined by appraisals approved by the Secretary. Such appraisals may, in the Secretary's discretion, be paid for from any deposit made by the prospective purchaser or be reimbursed out of such deposit to the fund available for such purposes in the fiscal year reimbursement is made. Any portion of the deposit used to fund or reimburse the cost of appraisals shall be nonrefundable.

(d) REPORT REQUIREMENTS.—(1) The Secretary may not enter into any contract for the sale of any or all of the land referred to in subsection (a) unless—

(A) the Secretary has submitted a report to the appropriate committees of Congress containing the information required in section 2667a(b) of title 10, United States Code; and

(B) a period of 21 days has expired following the date on which the report referred to in such section is received by those committees.

(2) Any report submitted under paragraph (1) shall include—

(A) a description of the price and terms agreed to with the successful bidder; and

(B) a description of the procedures used in selecting a buyer for the land.

(e) USE OF EXCESS FUNDS.—If the fair market value of the property to be conveyed to a purchaser is greater than the fair market value of the facilities to be constructed by the purchaser for the United States, the difference in cash shall be deposited into the general fund of the Treasury.

(f) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the land to be conveyed under this section shall be determined by surveys approved by the Secretary. Such surveys shall be provided by the purchaser or paid for by the Secretary from a deposit made by the prospective purchaser at the time of award. Any portion

of the deposit used for surveys shall be nonrefundable.

(g) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions in connection with any transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

(h) ADDITIONAL AUTHORITY.—The military construction authorized under this section is in addition to any other construction authorized by law.

SEC. 733. LAND EXCHANGE, LONG BEACH NAVAL STATION, CALIFORNIA

(a) AUTHORITY TO EXCHANGE.—Subject to subsections (b) through (d), the Secretary of the Navy may exchange approximately 16 acres of real property (and improvements thereon) adjacent to Admiral Kidd Park which constitute a portion of the Long Beach Naval Station, California, to the city of Long Beach, California, in exchange for real property (and improvements thereon) located on Hill Street, between Webster Avenue and the Terminal Island Freeway, in Long Beach, California.

(b) CONDITION.—If the fair market value of the real property and improvements conveyed to the city under subsection (a) exceeds the fair market value of the real property and improvements conveyed to the United States, the city shall pay the difference to the United States, and the Secretary shall deposit any funds received under this subsection into the general fund of the Treasury.

(c) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the real property exchanged under this section shall be in accordance with surveys that are satisfactory to the Secretary. The cost of such surveys shall be borne by the city of Long Beach.

(d) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 734. LAND CONVEYANCE, WHITTIER NARROWS DAM, LOS ANGELES COUNTY, CALIFORNIA

(a) AUTHORITY TO SELL OR EXCHANGE LAND.—The Secretary of the Army (hereafter in this section referred to as the "Secretary") is authorized to sell or exchange approximately 7.44 acres of land within the Whittier Narrows Flood Control Basin and located north of Rush Street and east of Walnut Grove Avenue in Los Angeles County, California.

(b) SALE OR EXCHANGE REQUIREMENT.—In no event may the land described in subsection (a) and more fully described in subsection (e) be sold or exchanged for less than the fair market value thereof.

(c) CONSIDERATION.—In consideration for the sale or exchange authorized in subsection (a), the Secretary may accept cash or may accept land in the Los Angeles area, or both.

(d) PROCEEDS OF SALE.—Any funds received by the Secretary under this section shall be deposited into the general fund of the Treasury.

(e) LEGAL DESCRIPTION OF LAND.—The real property referred to in subsection (a) is a tract of land containing approximately 7.44 acres, more or less, located on Whittier Narrows Flood Control Basin, Los Angeles County, California. The property comprises those portions of Lot A of Tract No. 3260, as per the map recorded in Book 34 of Maps, page 21, in the office of the Los Angeles County Recorder and that portion of Lots 27 and 28 of Tract No. 830, as per the map recorded in Book 16 of Maps, page 117, in the office of the County Recorder and more particularly described as follows:

Beginning at the Southeast corner of such Lot A; thence along the south line of such lot North 89° 50' 27" West (northerly line of Rush Avenue) 184.93 feet; thence North 17° 25' 47" East 439.37 feet; thence North 36° 48' 56" East 366.03 feet; thence South 0° 04' 01" East 868.23 feet more or less to the northerly line of Rush Avenue; thence westerly along the north line of Rush Avenue to the point of beginning.

(f) RESERVATIONS.—(1) The land shall be conveyed subject to a perpetual flowage easement in favor of the United States.

(2) The Secretary shall convey the land subject to an agreement by the purchaser to permit the County of Los Angeles to utilize the conveyed premises for the parking of automobiles in connection with recreation activities at Whittier Narrows Golf Course on weekends, holidays, and on such other days as may be specified from time to time by the Secretary.

(g) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions with respect to the conveyance as the Secretary considers appropriate to protect the interests of the United States.

SEC. 735. LAND EXCHANGE, SANTA FE, NEW MEXICO

(a) AUTHORITY TO CONVEY.—(1) Subject to subsections (b) through (f), the Secretary of the Army (hereinafter in this section referred to as the "Secretary") is authorized to make the conveyances described in paragraphs (2) and (3).

(2) The Secretary is authorized to convey to the city of Santa Fe, New Mexico (hereinafter in this section referred to as the "City"), all right, title, and interest of the United States in and to the southernmost 27.88 acres, more or less, of the parcel of land conveyed to the State of New Mexico in accordance with the Act of June 19, 1956 (70 Stat. 296). Such 27.88 acre parcel is currently being leased to the City as a public park.

(3) The Secretary is also authorized to convey to the New Mexico State Armory Board (hereinafter in this section referred to as the "Board"), all right, title, and interest of the United States in and to the northernmost 21.61 acres, more or less, of the parcel of land conveyed to the State of New Mexico in accordance with the Act of June 19, 1956 (70 Stat. 296). Such 21.61 acre parcel currently comprises the State headquarters and other facilities of the New Mexico National Guard.

(b) CONDITIONS.—The lands conveyed by the Secretary under subsection (a) shall be subject to the following conditions:

(1) That the City shall, in accordance with the agreement entered into under subsection (d), provide to the Board a site of not less than 250 acres determined by the Board to be acceptable for the construction of—

(A) an armory for all New Mexico National Guard units located in Santa Fe, New Mexico;

(B) an organizational maintenance shop;

(C) a United States property and fiscal office building and warehouse;

(D) a headquarters complex for the New Mexico National Guard;

(E) a local training area for the New Mexico National Guard units;

(F) a complex for the New Mexico Army National Guard officer candidate school and noncommissioned officer academy; and

(G) additional facilities specified by the National Guard Bureau or the New Mexico State Armory Board.

(2) That the Board shall use the land provided to it by the City pursuant to paragraph (1) for the training and support of the National Guard of New Mexico, and for other military purposes, and that if the site ever ceases to be used for such purposes, all right, title, and interest in and to such property shall revert to and become the property of the United States which shall have the immediate right of entry thereon.

(c) MINERAL RIGHTS.—The conveyances made by the Secretary under subsection (a) shall reserve all mineral rights, including oil and gas, to the United States in accordance with the Act of June 19, 1956 (70 Stat. 296).

(d) GENERAL AUTHORITY.—In order to implement the land exchange authorized by this section, the Secretary is authorized to enter into agreements with the City, the Board, and such other parties the Secretary determines are necessary to effectuate the purpose of this section.

(e) LEGAL DESCRIPTION OF LANDS.—The exact acreage and legal description of the site provided by the City to the Board in accordance with subsection (b) shall be determined by surveys that are satisfactory to the Secretary. The cost of any such surveys shall be borne by the City or the Board.

(f) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such other terms and conditions with respect to the transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 736. COMMUNITY PLANNING ASSISTANCE

The Secretary of Defense may use funds appropriated to the Department of Defense for fiscal year 1987 to provide planning assistance to local communities if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate. The Secretary may use such funds to assist communities located near homeports proposed under the Naval Strategic Dispersal Program at Ingleside, Texas, and other Gulf Coast sites. For fiscal year 1987, not to exceed $200,000 may be used for this purpose at Gulf Coast sites.

SEC. 737. RELEASE OF CERTAIN USE RIGHTS HELD BY THE UNITED STATES

(a) IN GENERAL.—The Administrator of General Services shall release to the Virginia Port Authority, an instrumentality of the Commonwealth of Virginia, all residuary rights of use held by the United States in three warehouses located in the city of Norfolk, Virginia, within the area operated as a public port facility and known as the Norfolk International Terminals.

(b) TIME LIMITATION; COMPENSATION.—The Administrator of General Services shall execute such documents and take such other actions as may be necessary to release, within 180 days after the date of the enactment of this Act, the rights referred to in subsection (a). The release shall be made without any compensation in addition to compensation paid to the United States for such warehouses and other facilities by the city of Norfolk, Virginia, in 1968.

SEC. 738. LEASE OF PROPERTY AT THE NAVAL WEAPONS STATION, CHARLESTON, SOUTH CAROLINA

(a) IN GENERAL.—The Secretary of the Navy is authorized to lease to the South Carolina Ports Authority approximately 118 acres of land, together with improvements thereon, at the Naval Weapons Station, Charleston, South Carolina.

(b) TERM OF LEASE.—The lease entered into under subsection (a) may be for such term as the Secretary determines appropriate, but in no event to exceed 25 years.

(c) CONSIDERATION.—In addition to the fair rental value to be paid by the South Carolina Ports Authority for the premises leased pursuant to this section, such Authority shall pay for the cost of replacing certain facilities on the leased premises. The replacement facilities shall be constructed in a manner and at a site determined by the Secretary.

(d) AUTHORITY TO DEMOLISH AND CONSTRUCT FACILITIES.—The Secretary may, under the terms of the lease, authorize the South Carolina Ports Authority to demolish existing facilities on the leased land and to construct new facilities on such land for the use of such Authority.

Mr. GOLDWATER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. THURMOND. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

---

## AUTHORIZATION FOR NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY FOR FISCAL YEAR 1987

Mr. GOLDWATER. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar Order No. 720, S. 2642, the Department of Energy National Security Programs Authorization Act of 1987.

The PRESIDING OFFICER. Without objection, the clerk will report.

The legislative clerk read as follows:

Calendar Order No. 720, a bill (S. 2642) to authorize appropriations or the Department of Energy for national security programs for fiscal year 1987, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. GOLDWATER. Mr. President, I ask unanimous consent to strike all after the enacting clause of S. 2642, and to insert in lieu thereof the text of division C of S. 2638, as passed by the Senate, and that the bill be considered to have been engrossed for third reading, be read a third time, and passed.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GOLDWATER. Mr. President, I ask unanimous consent that S. 2642 be printed in full as passed.

The PRESIDING OFFICER. Without objection, it is so ordered.

The text of the bill (S. 2642) being the text of division C of S. 2638, is as follows:

S. 2642

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SEC. 1. SHORT TITLE

This Act may be cited as the "National Security Programs Authorization Act for Fiscal Year 1987".

TITLE I—NATIONAL SECURITY PROGRAMS

SEC. 101. OPERATING EXPENSES

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for operating expenses incurred in carrying out national security programs (including scientific research and development in support of the Armed Forces, strategic and critical materials necessary for the common defense, and military applications of nuclear energy and related management and support activities) as follows:

(1) For weapons activities, $3,603,379,000.

(2) For materials production, $1,563,390,000.

(3) For defense waste and byproducts management, $455,050,000.

(4) For verification and control technology, $95,500,000.

(5) For nuclear safeguards and security, $61,100,000.

(6) For security investigations, $33,300,000.

(7) For naval reactors development, $509,800,000.

SEC. 102. PLANT AND CAPITAL EQUIPMENT

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for plant and capital equipment (including planning, construction, acquisition, and modification of facilities, land acquisition related thereto, and acquisition and fabrication of capital equipment not related to construction) necessary for national security programs as follows:

(1) For weapons activities:

Project 87-D-101, general plant projects, various locations, $29,000,000.

Project 87-D-121, general plant projects, various locations, $32,000,000.

Project 87-D-104, safeguards and security enhancements, phase II, Lawrence Livermore National Laboratory, Livermore, California, $2,000,000.

Project 87-D-123, protective clothing decontamination facility, Rocky Flats Plant, Golden, Colorado, $500,000.

Project 87-D-130, receiving and shipping facility, Pinellas Plant, Saint Petersburg, Florida, $300,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, $0, for a total project authorization of $3,700,000.

Project 86-D-104, strategic defense facility, Sandia National Laboratories, Albuquerque, New Mexico, $13,000,000, for a total project authorization of $17,000,000.

Project 86-D-105, instrumentation systems laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $5,800,000, for a total project authorization of $12,000,000.

Project 86-D-106, laboratory data communications center, Los Alamos National Laboratory, Los Alamos, New Mexico, $12,000,000, for a total project authorization of $15,000,000.

Project 86-D-122, structural upgrade of existing plutonium facilities, Rocky Flats Plant, Golden, Colorado, $0, for a total project authorization of $3,000,000.

Project 86-D-123, environmental hazards elimination, various locations, $0, for a total project authorization of $8,700,000.

Project 86-D-124, safeguards and site security upgrading, phase II, Mound Plant, Miamisburg, Ohio, $1,880,000, for a total project authorization of $4,880,000.

Project 86-D-125, safeguards and site security upgrade, phase II, Pantex Plant, Amarillo, Texas, $8,410,000, for a total project authorization of $9,910,000.

Project 86-D-130, Tritium loading facility replacement, Savannah River Plant, Aiken, South Carolina, $29,700,000, for a total project authorization of $34,700,000.

Project 85-D-102, nuclear weapons research, development, and testing facilities revitalization, phase I, various locations, $29,950,000, for a total project authorization of $130,750,000.

Project 85-D-103, safeguards and security enhancements, Lawrence Livermore National Laboratory and Sandia National Laboratories, Livermore, California, $6,500,000, for a total project authorization of $27,600,000.

Project 85-D-105, combined device assembly facility, Nevada Test Site, Las Vegas, Nevada, $9,400,000, for a total project authorization of $24,000,000.

Project 85-D-106, hardened engineering test building, Lawrence Livermore National Laboratory, Livermore, California, $330,000, for a total project authorization of $3,030,000.

Project 85-D-112, enriched uranium recovery improvements, Y-12 Plant, Oak Ridge, Tennessee, $19,000,000, for a total project authorization of $38,800,000.

Project 85-D-113, powerplant and steam distribution system, Pantex Plant, Amarillo, Texas, $1,790,000, for a total project authorization of $24,790,000.

Project 85-D-115, renovate plutonium building utility systems, Rocky Flats Plant, Golden, Colorado, $13,440,000, for a total project authorization of $34,040,000.

Project 85-D-121, air and water pollution control facilities, Y-12 Plant, Oak Ridge, Tennessee, $0, for a total project authorization of $19,000,000.

Project 85-D-125, tactical bomb production facilities, various locations, $12,800,000, for a total project authorization of $28,800,000.

Project 84-D-102, radiation-hardened integrated circuit laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $3,000,000, for a total project authorization of $40,500,000.

Project 84-D-107, nuclear testing facilities revitalization, various locations, $13,300,000, for a total project authorization of $79,240,000.

Project 84-D-112, Trident II warhead production facilities, various locations, $14,500,000, for a total project authorization of $155,200,000.

Project 84-D-113, Antisubmarine Warfare/Standoff Weapon Warhead production facilities, various locations, $0, and not more than $5,000,000 of the funds authorized for such project in fiscal year 1986 may be obligated or expended for such project, for a total project authorization of $5,000,000.

Project 84-D-124, environmental improvements, Y-12 Plant, Oak Ridge, Tennessee, $0, for a total project authorization of $29,000,000.

Project 84-D-211, safeguards and site security upgrading, Y-12 Plant, Oak Ridge, Tennessee, $27,220,000, for a total project authorization of $50,220,000.

Project 82-D-107, utilities and equipment restoration, replacement, and upgrade, phase III, various locations, $97,904,000, for a total project authorization of $838,304,000.

Project 82-D-144, simulation technology laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $6,000,000, for a total project authorization of $40,000,000.

(2) For materials production:

Project 87-D-146, general plant projects, various locations, $35,980,000.

Project 87-D-149, reduced chemical discharges to process sewers, Richland, Washington, $3,150,000.

Project 87-D-159, environmental, health, and safety improvements, phase I, Feed Materials Production Center, Fernald, Ohio, $10,000,000.

Project 86-D-149, productivity retention program, phases I and II, various locations, $71,625,000, for a total project authorization of $95,825,000.

Project 86-D-150, in-core neutron monitoring system, N reactor, Richland, Washington, $2,760,000, for a total project authorization of $7,220,000.

Project 86-D-151, PUREX electrical system upgrade, Richland, Washington, $3,780,000, for a total project authorization of $6,280,000.

Project 86-D-152, reactor electrical distribution system, Savannah River, South Carolina, $8,410,000, for a total project authorization of $10,410,000.

Project 86-D-153, additional line III furnace, Savannah River, South Carolina, $7,605,000, for a total project authorization of $9,105,000.

Project 86-D-154, effluent treatment facility, Savannah River, South Carolina, $0, for a total project authorization of $2,500,000.

Project 86-D-156, plantwide safeguards systems, Savannah River, South Carolina, $13,610,000, for a total project authorization of $16,610,000.

Project 86-D-157, hydrofluorination system—FB-line, Savannah River, South Carolina, $2,310,000, for a total project authorization of $4,510,000.

Project 85-D-139, fuel processing restoration, Idaho Fuels Processing Facility, Idaho National Engineering Laboratory (INEL), Idaho, $36,530,000, for a total project authorization of $58,530,000.

Project 85-D-140, productivity and radiological improvements, Feed Materials Production Center, Fernald, Ohio, $23,500,000, for a total project authorization of $41,500,000.

Project 85-D-145, fuel production facility, Savannah River, South Carolina, $33,500,000, for a total project authorization of $59,300,000.

Project 84-D-134, safeguards and security improvements, plantwide, Savannah River, South Carolina, $7,515,000, for a total project authorization of $34,415,000.

Project 84-D-135, process facility modifications, Richland, Washington, $34,475,000, for a total project authorization of $66,975,000.

Project 84-D-136, enriched uranium conversion facility modifications, Y-12 Plant, Oak Ridge, Tennessee, $1,000,000, for a total project authorization of $20,600,000.

Project 82-D-124, restoration of production capabilities, phases II, III, IV, and V, various locations, $3,511,000, for a total project authorization of $352,045,000.

(3) For defense waste and byproducts management:

Project 87-D-171, general plant projects, interim waste operations and long-term waste management technology, various locations, $26,535,000.

Project 87-D-172, WESF K-3 filter upgrade, Richland, Washington, $500,000.

Project 87-D-173, 242-A evaporator crystallizer upgrade, Richland, Washington, $2,800,000.

Project 87-D-174, 241-AQ tank farm, Richland, Washington, $2,100,000.

Project 87-D-175, steam system rehabilitation, phase I, Richland, Washington, $900,000.

Project 87-D-177, test reactor area liquid radioactive waste cleanup system, phase III, Idaho National Engineering Laboratory (INEL), Idaho, $700,000.

Project 87-D-180, burial ground expansion, Savannah River, South Carolina, $6,300,000.

Project 87-D-181, diversion box and pump pit containment buildings, Savannah River, South Carolina, $1,360,000.

Project 86-D-172, B-plant F-filter, Richland, Washington, $2,949,000, for a total project authorization of $3,949,000.

Project 86-D-174, low-level waste processing and shipping system, Feed Materials Production Center, Fernald, Ohio, $9,872,000, for a total authorization of $12,372,000.

Project 86-D-175, Idaho National Engineering Laboratory security upgrade, Idaho National Engineering Laboratory (INEL), Idaho, $7,258,000, for a total project authorization of $9,258,000.

Project 85-D-158, central warehouse upgrade, Richland, Washington, $1,044,000, for a total project authorization of $6,744,000.

Project 85-D-159, new waste transfer facilities, Savannah River, South Carolina, $7,318,000, for a total project authorization of $27,318,000.

Project 85-D-160, test reactor area security system upgrade, Idaho National Engineering Laboratory (INEL), Idaho, $2,703,000, for a total project authorization of $6,953,000.

Project 81-T-105, defense waste processing facility, Savannah River, South Carolina, $123,967,000, for a total project authorization of $721,467,000.

(4) For verification and control technology:

Project 85-D-171, space science laboratory, Los Alamos, New Mexico, $2,000,000, for a total project authorization of $7,500,000.

(5) For naval reactors development:

Project 87-N-101, general plant projects, various locations, $4,800,000.

Project 87-N-102, Kesselring site facilities upgrade, Knolls Atomic Power Laboratory, West Milton, New York, $5,000,000.

Project 87-N-103, computation laboratory addition, Bettis Atomic Power Laboratory, West Mifflin, Pennsylvania, $2,300,000.

(6) For capital equipment not related to construction—

(A) for weapons activities, $287,870,000;

(B) for materials production, $126,090,000;

(C) for defense waste and byproducts management, $37,805,000;

(D) for verification and control technology, $4,200,000;

(E) for nuclear safeguards and security, $4,800,000; and

(F) for naval reactors development, $51,700,000.

SEC. 3103. UNDISTRIBUTED REDUCTIONS

(a) TOTAL AUTHORIZATION.—Notwithstanding sections 3111 and 3112, the total amount authorized to be appropriated to the Department of Energy in this division for national security programs is $7,425,225,000.

(b) REQUIREMENT FOR PROJECT REDUCTIONS.—The Secretary of Energy shall reduce such projects listed in sections 3111 and 3112 in such amounts as he determines appropriate to achieve a total reduction of $300,000,000.

SEC. 3104. BALANCED TECHNOLOGY INITIATIVE

(a) LIMITATION ON FUNDS FOR SDI.—Of the funds authorized to be appropriated in sections 3111 and 3112, not more than $356,000,000 shall be available for research, development, test, and evaluation, and other purposes, in connection with the Strategic Defense Initiative program.

(b) CONVENTIONAL MUNITIONS.—(1) Of the funds authorized to be appropriated in section 3111—

(A) $24,000,000 shall be available to Department of Energy laboratories only for research on advanced conventional munitions and warhead concepts; and

(B) $10,000,000 shall be available only to provide methodological support to the Office of Munitions of the Department of Defense.

(2) In achieving the reduction required to be made under section 3113(b), the Secretary of Energy may not apply any reduction to the amount of funds made available for the purposes specified in paragraph (1) of this subsection.

## TITLE II—GENERAL PROVISIONS

### PART A—Recurring General Provisions

SEC. 3201. REPROGRAMMING

(a) NOTICE TO CONGRESS.—Except as otherwise provided in this division—

(1) no amount appropriated pursuant to this division may be used for any program in excess of 105 percent of the amount authorized for that program by this division or $10,000,000 more than the amount authorized for that program by this division, whichever is the lesser, and

(2) no amount appropriated pursuant to this division may be used for any program which has not been presented to, or requested of, the Congress, unless a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the appropriate committees of Congress of notice from the Secretary of Energy (hereinafter in this title referred to as the "Secretary") containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or unless each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.

(b) LIMITATION ON AMOUNT OBLIGATED.—In no event may the total amount of funds obligated pursuant to this division exceed the total amount authorized to be appropriated by this title.

SEC. 3202. LIMITS ON GENERAL PLANT PROJECTS

(a) IN GENERAL.—The Secretary may carry out any construction project under the general plant projects provisions authorized by this division if the total estimated cost of the construction project does not exceed $1,200,000.

(b) REPORT TO CONGRESS.—If at any time during the construction of any general plant project authorized by this division, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds $1,200,000, the Secretary shall immediately furnish a complete report to the appropriate committees of Congress explaining the reasons for the cost variation.

SEC. 3203. LIMITS ON CONSTRUCTION PROJECTS

(a) IN GENERAL.—Whenever the current estimated cost of a construction project, which is authorized by section 3112 of this division, or which is in support of national security programs of the Department of Energy and was authorized by any previous

Act, exceeds by more than 25 percent the higher of—

(1) the amount authorized for the project; or

(2) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress,

construction may not be started or additional obligations incurred in connection with the project above the total estimated cost, as the case may be, unless a period of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three days to a day certain) has passed after receipt by the appropriate committees of the Congress of written notice from the Secretary containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of the action, or unless each committee before the expiration of such period has notified the Secretary it has no objection to the proposed action.

(b) EXCEPTION.—Subsection (a) shall not apply to any construction project which has a current estimated cost of less than $5,000,000.

SEC. 3204. FUND TRANSFER AUTHORITY

To the extent specified in appropriation Acts, funds appropriated pursuant to this division may be transferred to other agencies of the Government for the performance of the work for which the funds were appropriated, and funds so transferred may be merged with the appropriations of the agency to which the funds are transferred.

SEC. 3205. AUTHORITY FOR EMERGENCY CONSTRUCTION DESIGN

In addition to the advance planning and construction design authorized by section 3112 of this division, the Secretary may perform planning and design utilizing available funds for any Department of Energy national security program construction project whenever the Secretary determines that the design must proceed expeditiously in order to meet the needs of national defense or to protect property or human life.

SEC. 3206. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY

Subject to the provisions of appropriation Acts, amounts appropriated pursuant to this division for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 3207. AVAILABILITY OF FUNDS

When so specified in an appropriation Act, amounts appropriated for "Operating Expenses" or for "Plant and Capital Equipment" may remain available until expended.

PART B—MISCELLANEOUS PROVISION

SEC. 3211. COMPLIANCE WITH ENVIRONMENTAL REQUIREMENTS

Notwithstanding any other provision of law, none of the funds appropriated pursuant to an authorization in this or any other Act may be used to pay any penalty, fine, forfeiture, or settlement, or to perform any work or services requested by another department or agency of the Federal Government or of any agency of a State or local government for any failure by the Department of Energy to comply with an environmental requirement in connection with any defense activity or any defense related facility in excess of the amount specifically appropriated to the Department of Energy to comply with such environmental requirement.

SEC. 3212. IMPLEMENTATION OF THE RECOMMENDATIONS OF THE PRESIDENT'S BLUE RIBBON TASK GROUP ON NUCLEAR WEAPONS PROGRAM MANAGEMENT

(A) ESTABLISHMENT OF COUNCIL.—Chapter 7 of title 10, United States Code, is amending by adding at the end the following new section:

"§ 172. The Nuclear Weapons Council

"(a) There is a Joint Nuclear Weapons Council (hereinafter in this section referred to as the 'Council') composed of three members as follows:

"(1) The Director of Defense Research and Engineering.

"(2) The Vice Chairman of the Joint Chiefs of Staff.

"(3) One senior representative of the Department of Energy appointed by the Secretary of Energy.

"(b)(1) Except as provided in paragraph (2), the Chairman of the Council shall be the member appointed under subsection (a)(1).

"(2) A meeting of the Council shall be chaired by the representative appointed under subsection (a)(3) whenever the matter under consideration is within the primary responsibility or concern of the Department of Energy, as determined by majority vote of the Council.

"(c)(1) The Secretary of Defense and the Secretary of Energy shall enter into an agreement with the Council to furnish necessary staff and administrative services to the Council.

"(2) The Assistant to the Secretary of Defense for Atomic Energy shall be the Staff Director of the Council.

"(d)(1) The Council shall be responsible for the following matters:

"(A) Preparing the annual Nuclear Weapons Stockpile Memorandum.

"(B) Developing nuclear weapons stockpiles options and the costs of such options.

"(C) Coordinating programming and budget matters pertaining to nuclear weapons programs between the Department of Defense and the Department of Energy.

"(D) Identifying various options for cost-effective schedules for nuclear weapons production.

"(E) Considering safety, security; and control issues for existing weapons and for proposed new weapon program starts.

"(F) Ensuring that adequate consideration is given to design, performance, and cost tradeoffs for all proposed new nuclear weapons programs.

"(G) Providing broad guidance regarding priorities for research on neclear weapons.

"(H) Preparing comments on annual proposals for budget levels for research on nuclear weapons and transmitting those comments to the Secretary of Defense and the Secretary of Energy before the preparation of the annual budget requests by the Secretaries of those departments.

"(I) Providing—

"(i) broad guidance regarding priorities for research on improved conventional weapons, and

"(ii) comments on annual proposals for budget levels for research on improved conventional weapons,

"and transmitting such guidance and comments to the Secretary of Defense before the preparation of the annual budget request of the Department of Defense.

"(e) The Council shall submit to the Committees on Armed Services and Appropriations of the Senate and the House of Representatives a report on the actions that have been taken by the Department of Defense and the Department of Energy to implement the recommendations of the President's Blue Ribbon Task Group on Nuclear Weapons Program Management. The Council shall include in such report its recommendations on the role and composition of the staff of the Council. The Council shall submit such report to the Committees not later than March 1, 1987.".

(f) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"179. THE NUCLEAR WEAPONS COUNCIL.".

(g) CHAIRMAN OF JCS TO SERVE ON COUNCIL IF THERE IS NO VICE CHAIRMAN OF JCS.—If on the date of the enactment of this section the position of Vice Chairman of the Joint Chiefs of Staff, or comparable position, has not been established by law, the Chairman of the Joint Chiefs of Staff shall be a member of the Nuclear Weapons Council established by section 179 of title 10, United States Code, as added by subsection (a). If the position of Vice Chairman of the Joint Chiefs of Staff (or comparable position) is established by law after the date of the enactment of this section, the Chairman of the Joint Chiefs of Staff shall remain a member of such council only until an individual has been appointed Vice Chairman of the Joint Chiefs of Staff.

(h) REPEAL.—Section 26 of the Atomic Energy Act of 1946 (42 U.S.C. 2037) is repealed.

SEC. 213. REPORT BY SECRETARY OF ENERGY

The Secretary of Energy shall submit a report to the Committees on Armed Services of the Senate and the House of Representatives on the costs and safety factors involved in constructing adequate containment facilities for nuclear reactors of the Department of Energy compared with the costs and safety factors involved in constructing a new production reactor.

SEC. 214. EXTENSION OF DATE FOR CERTAIN CONTRACT AUTHORITY

Section 94 of the Atomic Energy Community Act of 1955 (42 U.S.C. 2394) is amended by striking out "June 30, 1986" and inserting in lieu thereof "June 30, 1996".

Mr. GOLDWATER. I yield to my good friend from Georgia, Senator NUNN.

Mr. NUNN. Mr. President, very briefly, I thank the chairman for a splendid job. I think the chairman and I will both join together in thanking our staff, the majority and minority staff, and the staff headed by Jim McGovern on the majority side.

[Applause and Senators rising.]

□ 2120

Mr. NUNN. I must add, Mr. President, that our own side and our minority staff have worked together in great fashion. I believe we have had great bipartisan support this week on the bill and in the whole year under the guidance of a great American, the Honorable BARRY GOLDWATER.

Mr. GOLDWATER. Mr. President, it would be impossible for me to enumerate those to whom both sides and I are indebted in the passage of this bill. It is impossible to describe the amount of

work that goes into the preparation and presentation of a bill pertaining to the military. We have had unusual cooperation from both sides. There has never been a feeling of partisanship at any point in our consideration.

Mr. President, I just want to close by once again thanking my good friend from Georgia, Senator SAM NUNN. I am not going to say publicly what I would like to say, but if you ask me sometime, I will tell you.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. McCLURE. Mr. President, I cannot help but make a comment, and I apologize to my friends in the Senate, particularly the Senator from Arizona.

Twenty-two years ago this summer, I was a young alternate to the Republican Convention in San Francisco. Many Americans were saying what many of us were saying at that time, "In your heart, you know he is right."

What a difference it would have made to this country and to the world had that election turned out differently in 1964.

The PRESIDING OFFICER. The majority leader.

Mr. DOLE. Mr. President, let me give a quick rundown.

We considered this bill for 7 days. We consumed, as of 9:09 p.m., 66 hours, 25 minutes. There were 32 rollcall votes.

I am reminded by the chairman that we probably lost almost 4 hours on overtime on each of those votes.

There were 84 amendments and motions considered. Fifty-four were agreed to, 7 rejected, 14 tabled, 6 withdrawn, and 2 were not acted upon.

If that does not count up to 84, the others were lost.

That is an indication of the work that has been going on here for the past week.

I would also indicate to my colleagues that I wish to thank them very much.

They talk about whether or not we work around here. This week it has been about 75 hours, 30 minutes in session. So we have had a good week's work.

What we would like to do now, as quickly as we can, is to get the unanimous-consent agreement. I want to submit additions.

Additional amendments to title 1 of H.R. 5052 by Senator BENTSEN, earmarking funds for homeporting community assistance.

Excuse me. Let me withhold until the distinguished minority leader comes to the floor.

I can say, while waiting for Senator BYRD, that if we get the agreement, there will be a vote on the debt limit. Under the debt limit, there will be 1 hour of time equally divided. I am advised by Senator PACKWOOD he does not want any time. He is prepared to yield it back.

I do not know whether Senator LONG wants any time.

Mr. LONG. Mr. President, I will be happy not to make a speech if everybody else will not make a speech.

Mr. DOLE. Good. If that is the case, we can get the agreement.

## UNANIMOUS-CONSENT AGREEMENT

Mr. DOLE. Mr. President, I ask unanimous consent to review my unanimous-consent agreement, as previously stated, with respect to S. 655, H.R. 5052, S. 2701, H.R. 4868, and H.J. 668, with the following changes:

Additional amendment to title I., of H.R. 5052, by Senator BENTSEN, earmarking funds for homeporting community assistance from plan and design account within available funds; additional amendment to S. 2701, by Senator HEINZ, directing the President to work to multilateralize any sanctions enacted; and to replace the Murkowski amendment to S. 2701, with a substitute amendment clarifying the definition of Parastatles, (organizations owned or controlled by South Africa.

Mr. President, I wish to make those modifications.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. No objection.

The PRESIDING OFFICER. Hearing no objection, the agreement that the majority leader has requested is agreed to.

Mr. DOLE. Just the modifications.

The PRESIDING OFFICER. Just the modifications.

Mr. BYRD. Mr. President, I have some modifications also. This pertains to the arrangement for Senators LEAHY, KERRY, and HARKIN to reserve a portion of their time for Tuesday to be incorporated, and that 30 minutes for Mr. DODD from the overall 10 hours on the bill, the Contra aid bill, will be made part of the agreement.

The PRESIDING OFFICER. Is there objection to the modification of the minority leader? Without objection, it is so modified.

Is there objection to the basic request by the majority leader for the overall time agreement as previously stated and as modified by the majority leader and the minority leader?

Mr. BYRD. Mr. President, I think there are one or two other modifications we better have understood.

## CLOTURE MOTIONS

Mr. DOLE. Mr. President, I send a cloture motion to the desk on H.R. 5052 and ask unanimous consent that one cloture motion on H.R. 5052 serve as both motions.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. May I combine with the majority leader's request a similar request with respect to a cloture motion on S. 2701?

The PRESIDING OFFICER. Both motions will be stated and each counts for two.

The cloture motions having been presented under rule XXII, the Chair directs the clerk to read the motions.

The bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of Rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on Titles II and III, en bloc, to H.R. 5052, the Military Construction Appropriations Bill.

Bob Dole, Bill Cohen, Strom Thurmond, Dan Quayle, Pete Wilson, John Warner, John Heinz, Paul Laxalt, Pete V. Domenici, Lowell Weicker, Mack Mattingly, Ted Stevens, Phil Gramm, John Danforth, Mitch McConnell, Frank Murkowski, Al Simpson, Don Nickles, Richard G. Lugar, and Paula Hawkins.

---

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of Rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on S. 2701.

Edward M. Kennedy, Don Riegle, Howard Metzenbaum, Paul Sarbanes, John F. Kerry, Jeff Bingaman, Jay Randolph, Carl Levin, Lowell Weicker, Christopher Dodd, Frank R. Lautenberg, Alan Cranston, Spark Matsunaga, John Glenn, Claiborne Pell, Jim Sasser, Robert C. Byrd, Bob Dole, Bill Cohen, Strom Thurmond, Dan Quayle, Peter Wilson, John Warner, Paul Laxalt, Peter V. Domenici, Richard Lugar, Mack Mattingly, Ted Stevens, Phil Gramm, John C. Danforth, Mitch McConnell, Frank Murkowski, Al Simpson, Don Nickles, and Paula Hawkins.

Mr. DOLE. Mr. President, I also ask unanimous consent that no provisions of rule XXII be in effect if only one issue is clotured and the "timely filed" provision of rule XXII be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Mr. President, I was also reminded earlier by the now Presiding Officer that we may need to interrupt for brief periods during the week to take care of matters that may come before the Senate, as long as there is an understanding of that on the part of all parties.

Mr. BYRD. I will be happy to work with the distinguished majority leader in that event.

The PRESIDING OFFICER. Is there objection to the basic agreement?

Mr. BYRD. Mr. President, I have two other modifications. There are a number of substitute amendments that we heard read.

□ 2130

Mr. BYRD. Mr. President, I wonder if the majority leader would put in the request to provide that in the event a substitute amendment is offered and adopted prior to the opportunity for the other first-degree amendments to be called up, the substitute be considered as original text for the purposes of further amendments so that no amendment would be offered in the second degree.

Mr. DOLE. I have no objection.

Mr. BYRD. Mr. President, I have a request that any rollcall votes that are ordered on Monday not occur before 6:30 p.m. on Monday. Would that be agreeable?

Mr. DOLE. I have no objection. Also, I think I need to announce that we are not going to be able to observe the no-vote-after-6 p.m. rule on Monday because of the tight agreement we have. So I have no objection to the request.

Mr. BYRD. I thank the majority leader.

The PRESIDING OFFICER. It is the Chair's understanding that all these requests modify the basic original unanimous-consent request presented by the majority leader. That is modified by the statements of the two leaders at this time. Is there any objection to this renewed request for unanimous consent covering both of these bills with all of the details that have been laid out?

Mr. BYRD. Mr. President, reserving the right to object only for the purpose that we can understand that the majority leader's reference to the interruption of action on this measure to take up other bills in the event that they are very urgent is not a part of this request. That is an understanding on the part of all.

Mr. DOLE. That is correct. Just a notice to Members that we may have to do that.

Mr. BYRD. We will try to work together.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. I withdraw my reservation.

The PRESIDING OFFICER. Without objection, the majority leader's overall request is agreed on.

## EXPLANATION OF UNANIMOUS-CONSENT AGREEMENT

Mr. DOLE. At 10 a.m., on Monday, August 11, the Senate will begin 3 hours of debate on the Boren PAC issue to S. 655, only two amendments are in order, the Boren amendment, and the Boschwitz amendment relating to campaign financing. Tuesday, August 12, prior to 12 noon, the Senate will vote on both the Boren and the Boschwitz amendment.

At 1 p.m., on Monday, the Senate will consider the military construction part (title I) of the military construction appropriations bill, with a limited number of germane amendments in order. After conclusion of title I, the title in effect will be closed off from further amendments.

The Senate will then begin Contra aid, title II, and III, and 10 hours will be equally divided, with 2 hours to each of the following Senators: Senators LEAHY, KERRY, and HARKIN. Also, during this time, amendments are in order, which are listed and germane or relevant, and limited to 1 hour each.

On Wednesday, of next week, at 10 a.m., the Senate will vote on cloture on Contra aid. Then, the Senate will vote cloture on South Africa. Assuming both fail, but regardless of the outcome, the Senate will have another cloture vote on Contra aid and South Africa, thereby giving all Senators two options for cloture on the two issues. There will be 30 minutes of debate between cloture votes, to be equally divided.

Cloture must be invoked on each issue—South Africa, and Contra aid, or the agreement falls. Once cloture is invoked, there will be 4 more hours for debate on Contras and to finish the amendments which have been identified. Then, at the end of the 4 hours, if anyone still has an amendment not disposed of, they will have 2 minutes for debate. Following the amendments, and debate, the Senate will vote passage of the military construction appropriations bill, and then appoint conferees.

After Contras, the Senate will begin the 8 hours for South Africa, with 2 additional hours for Senators WALLOP and DENTON to debate. At this point amendments may be called up that have been previously identified, and 2 minutes for the amendments not disposed of if the time expires. Then the Senate votes on passage on the South Africa House bill, after a strike and insert, and the Chair appoints conferees, no later than 6 p.m. next Friday.

Also, if the agreement is entered, debt limit will be advanced to third reading, and passed after 1 hour of debate tonight.

Under the unanimous-consent request, Mr. President, I believe the next order of business would be the debt limit extension. Is that correct?

The PRESIDING OFFICER. The majority leader is correct.

## INCREASE IN THE STATUTORY LIMIT ON THE PUBLIC DEBT

The PRESIDING OFFICER. The clerk will state the unfinished business.

The assistant legislative clerk read as follows:

A joint resolution (H.J. Res. 668) increasing the statutory limit on the public debt.

The Senate resumed consideration of the joint resolution.

The PRESIDING OFFICER. Under this agreement, there is a 1-hour time limitation equally divided between the distinguished Senator from Oregon [Mr. PACKWOOD] and the distinguished Senator from Louisiana [Mr. LONG].

Mr. PACKWOOD. Mr. President, I believe I understood the distinguished Senator from Louisiana to say he is prepared to yield back his time. I am prepared to yield back the half hour I have and vote.

Mr. BYRD. Mr. President, I ask unanimous consent that all Senators who may wish to insert statements in the RECORD as though read be permitted to do so.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. BYRD. Mr. President, the bill before us represents the 13th time since January 1981 that the debt limit has been raised. This is a national tragedy. We are living far beyond our means. And in the process, we are damaging our economy and mortgaging our children's future.

A few weeks after his first inauguration, the President stated in a national address, "We may, in spite of our best efforts see a national debt in excess of a trillion dollars. Now, this is a figure that's literally beyond our comprehension."

Shortly afterward, he illustrated the enormity of such an amount by explaining, "If you had a stack of thousand-dollar bills in your hand only 4-inches high, you'd be a millionaire. A trillion dollars would be a stack of thousand-dollar bills 67 miles high. Later, that figure was amended to a stack only 64 miles high.

In September 1981, President Reagan signed into law a debt ceiling that topped $1 trillion. At that time he said, "The $1 trillion debt figure can stand as a monument to the policies of the past that brought it about—policies which as of today are reversed."

That was the rhetoric in 1981. Today, the reality is that the debt has more than doubled since that statement was made. And it continues to grow. Far from reversing the trend in budget deficits that account for the growth in the public debt, this administration has accelerated it.

In 3 of the past 4 years, this administration has produced record budget deficits. It is now on its way to yet another record deficit this year, currently estimated at some $224 billion.

Since 1981, those deficits have added over $1 trillion to the public debt. And they have added another 64 miles to that stack of thousand-dollar bills.

What took 39 previous administrations the entire history of the U.S. Government to do, this administration has accomplished in just 5 years.

The President was right in one regard. A trillion dollars is beyond

comprehension. What is more understandable is the amount of interest the Nation must pay on that $2 trillion debt. This finance charge is paid each and every year. This year, the carrying charge for the public debt will be about $137 billion. That is a stack of thousand-dollar bills nearly 9 miles high—every year.

Just to pay the interest on the debt consumes 37 cents out of every dollar paid in individual income taxes. Just 20 years ago, $137 billion would have run the entire Government for a year.

The enormous debt, and the interest costs to finace it, are mortgaging our future. We are borrowing for today's consumption against future generations, lowering their standard of living and saddling them with a mountain of bills to be paid.

The budget deficits and the resulting debt has helped exacerbate another record deficit—the trade deficit—which saps our manufacturing base, sends jobs overseas, and seriously erodes our future economic competitiveness.

As responsible legislators, we should not continue to allow these huge budget deficits to keep sapping the strength from our economy—hurting our people, our industry, and our country.

Unfortunately, the frustration that many feel at the seeming inability to reduce those deficits led to a supposed cure—the Gramm-Rudman process—that I believe is worse than the disease. That was true last year when the process was conceived, and it remains true today, despite the changes that have been made in it. In fact, since the changes have given virtual complete authority to the Office of Management and Budget to determine whether a sequester will occur, and its amount, it is even more flawed than the original procedure.

While Gramm-Rudman would reduce the deficit—a proposition with which I am in complete agreement—it would do so in an irresponsible and potentially dangerous way. For example, the current estimate for the fiscal year 1987 deficit is about $174 billion—$30 billion above the limit set by Gramm-Rudman. Thus, unless the process is changed, Congress must vote next month on a resolution which will reduce Pentagon spending by about 8 percent and domestic spending by about 11 percent.

Those across-the-board cuts could translate into a reduction in budget authority of some $30 billion for military spending and perhaps $40 billion, or more, for domestic programs. And as I would remind my colleagues, we cannot make any changes in that resolution. Gramm-Rudman prohibits any amendments.

What would a $30 billion cut in defense spending mean? It would bring total budget authority for next year to about $256 billion, $36 billion below the amount contained in the congressional budget resolution and $64 billion below the level requested by the President.

Such a cut in defense spending could be devastating to our military preparedness. I do not believe that the Congress would agree to such a cut. Speaking as one Senator, I know that I could not.

Likewise for domestic programs. Is it truly in the national interest to cut funds for drug enforcement by 11 percent when the Nation faces an epidemic of illegal drug use, especially among our children? Is it wise to reduce funds for air traffic control and related activities by 11 percent when the margin of safety in air travel has been declining recently? Similarly for cancer research, or flood control, or drought relief.

Mr. President, our responsibility is not to wield an across-the-board budget ax without regard to the consequences. If deficits are to be reduced, as I believe they must be, then the Congress must face up to the difficult task of setting priorities—and sticking by them.

The budget resolution adopted by Congress in June did just that. While it was not perfect, the budget resolution was a good start at establishing budget priorities for the coming year. The task now is to implement the priorities set forth in that resolution. It will not be easy. But it is far preferable to the alternative of a Gramm-Rudman process that will cut all programs equally, regardless of merit.

This debt limit bill compounds the fundamental flaws in the original Gramm-Rudman process. Rather than keeping a check and balance in the process by having the GAO arbitrate any differences in estimates between the OMB and CBO, the latest changes would effectively turn the entire process over to OMB. The potential for turning the process into a political football are obvious. And it is a further abdication of congressional responsibility.

The bill also would once again raise the limit on the public debt, this time to over $2.3 trillion. For these reasons, I will vote against this measure.

The PRESIDING OFFICER. Does the Senator from Louisiana yield back the time allotted to him under this agreement?

Mr. LONG. I yield back the time, Mr. President.

Mr. DOLE. Mr. President, this will be the last vote this week, but I will say that there is still about an hour and a half of work here to do with the wrap-up.

The PRESIDING OFFICER. Is there a desire for the yeas and nays?

Mr. DOLE. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. DOLE. Mr. President, I might say to my colleagues, do not get too far away in case we need your vote on this debt limit extension.

The PRESIDING OFFICER. If there be no further amendment to be proposed, the question is on the engrossment of the amendments and third reading of the joint resolution.

The amendments were ordered to be engrossed and the joint resolution to be read a third time.

The joint resolution (H.J. Res. 668) was read the third time.

The PRESIDING OFFICER. The question is, Shall the joint resolution pass?

The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Maine [Mr. COHEN], the Senator from Arizona [Mr. GOLDWATER], the Senator from Oregon [Mr. HATFIELD], the Senator from Pennsylvania [Mr. HEINZ] the Senator from Kansas [Mrs. KASSEBAUM], the Senator from Nevada [Mr. LAXALT], the Senator from Vermont [Mr. STAFFORD], the Senator from Connecticut [Mr. WEICKER] are necessarily absent.

I further announce that, if present and voting, the Senator from Pennsylvania [Mr. HEINZ], would vote "yea."

Mr. CRANSTON. I announce that the Senator from Montana [Mr. BAUCUS], the Senator from New Jersey [Mr. BRADLEY], the Senator from Missouri [Mr. EAGLETON], the Senator from Louisiana [Mr. JOHNSTON], the Senator from Arkansas [Mr. PRYOR], are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 47, nays 40, as follows:

[Rollcall Vote No. 208 Leg.]

YEAS—47

| | | |
|---|---|---|
| Abdnor | Gorton | Nickles |
| Bentsen | Gramm | Packwood |
| Biden | Hawkins | Pell |
| Boren | Hecht | Quayle |
| Boschwitz | Heflin | Roth |
| Chafee | Hollings | Rudman |
| Chiles | Inouye | Sasser |
| Cochran | Kennedy | Simon |
| D'Amato | Levin | Simpson |
| Danforth | Long | Specter |
| Dodd | Lugar | Stennis |
| Dole | Mathias | Stevens |
| Domenici | Matsunaga | Thurmond |
| Durenberger | McConnell | Wallop |
| Evans | Moynihan | Wilson |
| Gore | Murkowski | |

NAYS—40

| | | |
|---|---|---|
| Andrews | Denton | Hatch |
| Armstrong | Dixon | Helms |
| Bingaman | Exon | Humphrey |
| Broyhill | Ford | Kasten |
| Bumpers | Garn | Kerry |

NOT VOTING—13

| | | |
|---|---|---|
| Baucus | Hatfield | Pryor |
| Bradley | Heinz | Stafford |
| Cohen | Johnston | Weicker |
| Eagleton | Kassebaum | |
| Goldwater | Laxalt | |

So the joint resolution (H.J. Res. 668) was passed.

□ 2150

Mr. DOLE. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. PACKWOOD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. PACKWOOD. Mr. President, I move that the Senate insist upon its amendments and request a conference with the House, and that the Chair be authorized to appoint the conferees on the part of the Senate.

The motion was agreed to, and the Chair appointed the following Senators as conferees on the part of the Senate:

For all purposes and sections: Mr. Packwood, Mr. Dole, Mr. Roth, Mr. Chafee, Mr. Heinz, Mr. Long, Mr. Moynihan, Mr. Baucus, and Mr. Boren.

As conferees on Title III and Sections 604 and 611 of Title VI only: Mr. Domenici, Mr. Rudman, Mr. Gramm, Mr. Chiles, and Mr. Hollings.

Mr. PACKWOOD. Mr. President, I ask unanimous consent that House Joint Resolution 668, the debt limit bill, as amended and passed by the Senate, be printed in full.

The PRESIDING OFFICER. Without objection, it is so ordered.

House Joint Resolution 668 as amended is as follows:

*H.J. RES. 668*

*TITLE II—SOCIAL SECURITY TRUST FUNDS*

*SEC. 201. SHORT TITLE.*

*This title may be cited as the "Social Security Trust Funds Management Act of 1986".*

*SEC. 202. INVESTMENT AND RESTORATION OF TRUST FUNDS.*

*(a) Subsection (d) of section 201 of the Social Security Act (42 U.S.C. 401(d)) is amended—*

*(1) by striking out "(1) on original issue" and inserting in lieu thereof "(A) on original issue",*

*(2) by striking out "(2) by purchase" and inserting in lieu thereof "(B) by purchase";*

*(3) by striking out "It shall be" and inserting in lieu thereof "(1) It shall be", and*

*(4) by adding at the end thereof the following new paragraphs:*

*"(2) If—*

*"(A) any amounts in the Trust Funds have not been invested solely by reason of the public debt limit, and*

*"(B) the taxes described in clause (3) or (4) of subsection (a) with respect to which such amounts were appropriated to the Trust Funds have actually been received into the general fund of the Treasury of the United States,*

*such amounts shall be invested by the Managing Trustee as soon as such investments can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title.*

*"(3)(A) Upon expiration of any debt limit impact period, the Managing Trustee shall immediately—*

*"(i) reissue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations held by such Trust Fund that—*

*"(I) were redeemed during the debt limit impact period, and*

*"(II) as determined by the Managing Trustee on the basis of standard investment procedures for such Trust Fund in effect on the day before the date on which the debt limit impact period began, would not have been redeemed if the debt limit impact period had not occurred, and*

*"(ii) issue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations which—*

*"(I) were not issued during the debt limit impact period, and*

*"(II) as determined by the Managing Trustee on the basis of such standard investment procedures, would have been issued if the debt limit impact period had not occurred.*

*"(B) Obligations issued or reissued under subparagraph (A) shall be substituted for obligations that are held by the Trust Fund, and for amounts in the Trust Fund that have not been invested, on the date on which the debt limit impact period ends in a manner that will ensure that, after such substitution, the holdings of the Trust Fund will replicate to the maximum extent practicable the obligations that would be held by such Trust Fund if the debt limit impact period had not occurred.*

*"(C) In determining, for purposes of this paragraph, the obligations that would be held by a Trust Fund if the debt limit impact period had not occurred, any amounts in the Trust Fund which have not been invested, and any amounts required to be invested under paragraph (2), shall be treated as amounts which were required to be invested upon transfer to the Trust Fund.*

*"(4) The Managing Trustee shall pay, on the first normal interest payment date that occurs on or after the date on which any debt limit impact period ends, to each of the Trust Funds, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Managing Trustee to be equal to the excess of—*

*"(A) the net amount of interest that would have been earned by such Trust Fund during such debt limit impact period if—*

*"(i) amounts in such Trust Fund that were not invested during such debt limit impact period solely by reason of the public debt limit had been invested, and*

*"(ii) redemptions and disinvestments with respect to such Trust Fund which occurred during such debt limit impact period solely by reason of the public debt limit had not occurred, over*

*"(B) the sum of—*

*"(i) the net amount of interest actually earned by such Trust Fund during such debt limit impact period, plus*

*"(ii) the total amount of the principal of all obligations issued or reissued under paragraph (3)(A) at the end of such debt limit impact period that is attributable to interest that would have been earned by such Trust Fund during such debt limit impact period but for the public debt limit.*

*"(5) For purposes of this section—*

*"(A) The term 'public debt limit' means the limitation imposed by subsection (b) of section 3101 of title 31, United States Code.*

*"(B) The term 'debt limit impact period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".*

*(b) Subsection (a) of section 201 of the Social Security Act is amended by adding at the end thereof the following new sentence: "All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under any other provisions of law directly related to the programs established by this title.".*

*SEC. 203. REPEAL OF NORMALIZED TAX TRANSFER.*

*(a) Subsection (a) of section 201 of the Social Security Act is amended by striking out the matter following clause (4) and inserting in lieu thereof the following: "The amounts appropriated by clauses (3) and (4) shall be transferred from the general fund of the Treasury of the United States to the Federal Old-Age and Survivors Insurance Trust Fund, and the amounts appropriated by clauses (1) and (2) of subsection (b) shall be transferred from the general fund of the Treasury to the Federal Disability Insurance Trust Fund, upon receipt by the general fund of taxes specified in clauses (3) and (4) of this subsection (as estimated by the Secretary). Proper adjustments shall be made in amounts subsequently transferred to the extent amounts previously transferred were in excess of, or were less than, the taxes specified in such clauses (3) and (4). All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under other provisions of law directly related to the programs established by this title.".*

*(b) The amendment made by subsection (a) shall take effect on July 1, 1990.*

*SEC. 204. FAITHFUL EXECUTION OF DUTIES BY MEMBERS OF BOARD OF TRUSTEES OF TRUST FUNDS.*

*Section 201(c) of the Social Security Act is amended by striking the last sentence and inserting the following: "A person serving on the Board of Trustees (including the Managing Trustee) shall not be considered to be a fiduciary, but each such person shall faithfully execute the duties imposed on such person by this section. A person serving on the Board of Trustees (including the Managing Trustee) shall not be personally liable for actions taken in such capacity with respect to the Trust Funds.".*

*SEC. 205. REPORTS REGARDING THE OPERATION AND STATUS OF THE TRUST FUNDS.*

*Subsection (c) of section 201 of the Social Security Act is amended—*

*(1) by striking "once" in the fourth sentence and inserting "twice",*

*(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively,*

*(3) by redesignating paragraphs (3), (4), and (5) as subparagraphs (D), (E), and (F), respectively,*

(4) by inserting after subparagraph (B) (as redesignated by paragraph (2) of this section) the following:

"(C) Report to the Congress as soon as possible, but not later than the date that is 30 days after the first normal interest payment date occurring on or after the date on which any debt limit impact period for which the Managing Trustee is required to take action under paragraph (3) or (4) of subsection (d) ends, on—

"(i) the operation and status of the Trust Funds during such debt limit impact period, and

"(ii) the actions taken under paragraphs (3) and (4) of subsection (d) with respect to such debt limit impact period;",

(5) by striking out "in paragraph (2) above" and inserting in lieu thereof "in subparagraph (B) above",

(6) by inserting "(1)" after "(c)", and

(7) by adding at the end thereof the following:

"(2) The Managing Trustee shall report monthly to the Board of Trustees concerning the operation and status of the Trust Funds and shall report to Congress and to the Board of Trustees not less than 15 days prior to the date on which, by reason of the public debt limit, the Managing Trustee expects to be unable to fully comply with the provisions of subsection (a) or (d)(1), and shall include in such report an estimate of the expected consequences to the Trust Funds of such inability.".

SEC. 206. ELIMINATION OF UNDUE DISCRETION IN THE INVESTMENT OF TRUST FUNDS.

(a) Section 201(d) of the Social Security Act is amended, in the first sentence—

(1) by inserting "immediately" after "to invest"; and

(2) by striking ", in his judgment,".

(b)(1) Paragraph (2) of section 201(d) of the Social Security Act, as added by section 202 of this Act, is amended to read as follows:

"(2) If any amount in either of the Trust Funds is not invested solely by reason of the public debt limit, such amount shall be invested as soon as such investment can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title."

(2) The amendment made by paragraph (1) shall take effect on July 1, 1990.

SEC. 207. SALES AND REDEMPTIONS BY TRUST FUNDS.

Section 201(e) of the Social Security Act is amended—

(1) by inserting "(1)" after "(e)"; and

(2) by adding at the end the following:

"(2)(A) The Managing Trustee may effect any such sale or redemption with respect to either Trust Fund only for the purpose of enabling such Trust Fund to make payments authorized by this title or under any other provisions of law directly related to the programs established by this title. If either of the Trust Funds holds any amounts which are not invested by reason of the public debt limit, the Managing Trustee is nevertheless directed to make such sales and redemptions if, and only to the extent, necessary to assure timely payment of benefits and other payments authorized by this title or by any other provisions of law directly related to the programs established by this title, but the principal amount of obligations sold or redeemed pursuant to this sentence shall not exceed the principal amount of obligations that would have been sold or redeemed under normal operating procedures in order to make such payments.".

SEC. 208. EFFECTIVE DATE.

Except as otherwise provided by this title, the amendments made by this title shall take effect on the date of enactment of this Act.

## TITLE III—BALANCED BUDGET AND EMERGENCY DEFICIT CONTROL

SEC. 301. SHORT TITLE.

This title may be cited as the "Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1986".

SEC. 302. REVISION OF PROCEDURES.

(a) REFERENCE.—Except as otherwise specifically provided, whenever in this section an amendment is expressed in terms of an amendment to a section or other provision, the reference shall be considered to be a reference to a section or other provision of the Balanced Budget and Emergency Deficit Control Act of 1985.

(b) REVISION OF REPORTING RESPONSIBILITIES.—(1) Section 251(b) is amended to read as follows:

"(b) REPORTS BY THE COMPTROLLER GENERAL AND THE DIRECTOR OF OMB.—

"(1) REPORT TO THE DIRECTOR OF OMB AND THE CONGRESS BY THE COMPTROLLER GENERAL.—

"(A) REPORT TO BE BASED ON OMB–CBO REPORT.—The Comptroller General shall review and consider the report issued under subsection (a) by the Directors for the fiscal year and, with due regard for the data, assumptions, and methodologies used in reaching the conclusions set forth therein, shall issue a report to the Director of the Office of Management and Budget and the Congress on August 25 of the calendar year in which such fiscal year begins, estimating the budget base levels of total revenues and total budget outlays for such fiscal year, stating whether such deficit excess will be greater than $10,000,000,000 (zero in the case of fiscal year 1991), specifying the estimated rate of real economic growth for such fiscal year, for each quarter of such fiscal year, and for each of the last two quarters of the preceding fiscal year, indicating whether the estimate includes two or more consecutive quarters of negative economic growth, and specifying (if the excess is greater than $10,000,000,000, or zero in the case of fiscal year 1991) the percentages by which defense and non-defense accounts must be reduced during such fiscal year in order to eliminate such deficit excess. Such report shall be based on the estimates, determinations, and specifications contained in the report submitted by the Directors under subsection (a) and shall utilize the budget base, criteria, and guidelines set forth in subsection (a)(6) and in sections 255, 256, and 257.

"(B) CONTENTS OF REPORT.—The report of the Comptroller General under this paragraph shall contain such views as the Comptroller General considers appropriate concerning the estimates, determinations, and specifications contained in the report submitted by the Directors under subsection (a). The report of the Comptroller General shall explain fully any differences between the contents of such report and the report of the Directors under subsection (a).

"(2) REPORT TO PRESIDENT AND CONGRESS BY THE DIRECTOR OF OMB.—

"(A) REPORT TO BE BASED ON GAO REPORT.—The Director of the Office of Management and Budget shall review and consider the report issued by the Comptroller General under paragraph (1) of this subsection for the fiscal year and, with due regard for the data, assumptions, and methodologies used in reaching the conclusions set forth therein, shall issue a report to the President and the Congress on September 1 of the calendar year in which such fiscal year begins, estimating the budget base levels of total revenues and total budget outlays for such fiscal year, identifying the amount of any deficit excess for such fiscal year, stating whether such deficit excess will be greater than $10,000,000,000 (zero in the case of fiscal year 1991), specifying the estimated rate of real economic growth for such fiscal year, for each quarter of such fiscal year, and for each of the last two quarters of the preceding fiscal year, indicating whether the estimate includes two or more consecutive quarters of negative economic growth, and specifying (if the excess is greater than $10,000,000,000, or zero in the case of fiscal year 1991), by account, for non-defense programs, and by account and programs, projects, and activities within each account, for defense programs, the base from which reductions are taken and the amounts and percentages by which such accounts must be reduced during such fiscal year in order to eliminate such deficit excess. Such report shall be based on the estimates, determinations, and specifications, and views of the Comptroller General under paragraph (1) and shall utilize the budget base, criteria, and guidelines set forth in subsection (a)(6) and in sections 255, 256, and 257.

"(B) CONTENTS OF REPORT.—The report of the Director of the Office of Management and Budget under this paragraph shall—

"(i) provide for the determination of reductions in the manner specified in subsection (a)(3);

"(ii) contain estimates, determinations, and specifications for all of the items contained in the report submitted by the Directors under subsection (a); and

"(iii) state whether the estimates, determinations, and specifications contained therein are consistent with the views contained in the report of the Comptroller General under paragraph (1)(B), and, if not, shall justify the reasons for any deviation.".

(2) Section 251(c) is amended—

(A) by striking out "President" in subparagraph (A) of paragraph (2) and inserting in lieu thereof "Director of the Office of Management and Budget";

(B) by striking out "subsection (b)" in such subparagraph and inserting in lieu thereof "subsection (b)(1)";

(C) by striking out subparagraph (B) of such paragraph and inserting in lieu thereof the following new subparagraph:

"(B) The report of the Comptroller General under this paragraph shall revise (to the extent necessary) the views contained in the report submitted pursuant to subsection (b)(1)(B).."; and

(D) by adding at the end thereof the following new paragraph:

"(3) REPORT BY THE DIRECTOR OF OMB.—

"(A) On October 15 of the fiscal year, the Director of the Office of Management and Budget shall submit to the President and the Congress a report revising the report submitted by the Director of the Office of Management and Budget under subsection (b)(2), adjusting the estimates, determinations, and specifications contained in that report to the extent necessary in the light of the revised report submitted to the Director of the Office of Management and Budget by the Comptroller General under paragraph (2) of this subsection.

"(B) The revised report of the Director of the Office of Management and Budget under this paragraph shall provide for the determination of reductions as specified in subsection (a)(3), shall contain all of the estimates, determinations, and specifications

required (in the case of the report submitted under subsection (b)(2)) pursuant to subsection (b)(2)(B)(ii), and shall justify any deviation between the revised report of the Director under this paragraph and the report of the Comptroller General under paragraph (2).

"(C) The revised report of the Director under this paragraph shall contain estimates, determinations, and specifications for all of the items contained in the initial report and shall be based on the same economic and technical assumptions, employ the same methodologies, and utilize the same definition of the budget base and the same criteria and guidelines as those used in the report submitted by the Director under subsection (b)(2), and shall provide for the determination of reductions in the manner specified in subsection (a)(3).

"(D) The revised report of the Director under this paragraph for a fiscal year shall not contain, with respect to any item, an amount of budget authority, outlays, spending authority (as defined in section 401(c)(2) of the Congressional Budget Act of 1974), revenues, obligation limitation, obligated balances, unobligated balances, loan guarantee commitments, or direct loan obligations, which is different than the amount of budget authority, outlays, spending authority (as so defined), obligation limitation, obligated balances, unobligated balances, loan guarantee commitments, or direct loan obligations specified for such item in the report of the Director under subsection (b)(2) for such fiscal year unless, after the Director submits the report required under such subsection (b)(2)—

"(i) legislation is enacted,

"(ii) a final regulation is promulgated, or

"(iii) a sale of assets is announced,

which requires a change in the estimate of such budget authority, outlays, spending authority (as so defined), obligation limitation, obligated balances, unobligated balances, loan guarantee commitments, or direct loan obligations for such item.".

(3)(A) Section 251(e) is amended by striking out "Directors or the Comptroller General" and inserting in lieu thereof "Directors, the Comptroller General, or the Director of the Office of Management and Budget".

(B) Section 251(f) is amended by striking out "subsections (b) and (c)(2)" and inserting in lieu thereof "subsections (b)(1) and (c)(2), and the reports of the Director of the Office of Management and Budget submitted to the Congress under subsections (b)(2) and (c)(3),".

(c) PRESIDENTIAL ORDERS.—(1) Section 252(a) is amended—

(A) by striking out "Comptroller General" the first place it appears in paragraph (1) and inserting in lieu thereof "Director of the Office of Management and Budget";

(B) by striking out "section 251(b)" each place it appears in paragraphs (1) and (3) and inserting in lieu thereof "section 251(b)(2)";

(C) by striking out "September 1" in paragraph (1) and inserting in lieu thereof "September 3"; and

(D) by striking out "COMPTROLLER GENERAL'S" in the heading for paragraph (3) and inserting in lieu thereof "DIRECTOR'S".

(2) Section 252(b) is amended—

(A) by striking out "Comptroller General" each place it appears and inserting in lieu thereof "Director of the Office of Management and Budget";

(B) by striking out "section 251(b)" each place it appears and inserting in lieu thereof "section 251(b)(2)";

(C) by striking out "section 251(c)(2)" each place it appears and inserting in lieu thereof "section 251(c)(3)"; and

(D) by striking out "October 15" in paragraph (1) and inserting in lieu thereof "October 17".

(d) TERMINATION OR MODIFICATION PROCEDURES.—(1) Section 251(d) is amended by striking out paragraph (3).

(2) The last sentence of section 251(c)(1) is amended by striking out "and authorized under subsection (d)(3)(D)(i)".

(3) Section 256(l)(2) is amended by striking out ", in accordance with section 251(d)(3),".

(e) TECHNICAL AMENDMENTS.—(1) Section 254(b)(1)(A) is amended by striking out "Comptroller General under section 251(c)(2)" and inserting in lieu thereof "Director of the Office of Management and Budget under section 251(c)(3)".

(2) Section 274(f)(5) is amended by striking out "section 251 (b) or (c)(2)" and inserting in lieu thereof "section 251 (b)(2) or (c)(3)".

(3) Section 274(h) is amended—

(A) by striking out "Comptroller General" the first place it appears and inserting in lieu thereof "Director of the Office of Management and Budget"; and

(B) by striking out "Comptroller General under section 251 (b) or (c)(2)" and inserting in lieu thereof "Director of the Office of Management and Budget under section 251 (b)(2) or (c)(3)".

(f) ECONOMIC ASSUMPTIONS; METHODOLOGY.—(1) Section 251 is amended by adding at the end thereof the following new subsections:

"(h) ECONOMIC ASSUMPTIONS.—

"(1) REQUIRED ECONOMIC ASSUMPTIONS FOR FISCAL YEAR 1987.—In preparing each report required under this section for fiscal year 1987, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall use the following economic assumptions:

"The average level of the nominal gross national product is $4,438,000,000,000 for fiscal year 1987.

"The average level of the real gross national product is $3,788,600,000,000 for fiscal year 1987.

"The average level of the gross national product deflator is 117.15 for fiscal year 1987.

"The average level of the CPI-U index is 334.8 for fiscal year 1987.

"The average level of the CPI-W index is 330.0 for fiscal year 1987.

"The average level of the civilian unemployment rate is 6.8 percent for fiscal year 1987.

"The average level of the three-month Treasury bill rate is 6.2 percent for fiscal year 1987.

"The average level of the ten-year government bond rate is 7.6 percent for fiscal year 1987.

"The average level of corporate profits (economic) is $332,600,000,000 for fiscal year 1987.

"The average level of wage and salary disbursements is $2,184,200,000,000 for fiscal year 1987.

"The average level of other taxable income is $893,000,000,000 for fiscal year 1987.

"The average level of the capital consumption allowance is $55,600,000,000 for fiscal year 1987.

"The average level of the inventory valuation adjustment is negative $6,600,000,000 for fiscal year 1987.

"The average level of oil prices is $12.90 for fiscal year 1987.

"(2) FISCAL YEARS 1988 THROUGH 1991.—

"(A) REPORTS BY THE DIRECTORS AND THE COMPTROLLER GENERAL.—By July 15 of the calendar year in which a fiscal year begins (beginning with fiscal year 1988), the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall each submit to the Temporary Joint Committee on Deficit Reduction established by section 274 a report proposing economic assumptions (for each of the items specified in paragraph (1)) for use by the Directors and the Comptroller General in preparing each report required by subsections (a), (b), and (c) for such fiscal year.

"(B) REPORTING OF JOINT RESOLUTION.—The Temporary Joint Committee on Deficit Reduction established under section 274 may, at any time before September 15 of a fiscal year (beginning with fiscal year 1988), report to the Senate and the House of Representatives a joint resolution for such fiscal year which—

"(i) specifies, for one or more economic assumptions, the amount (within the range of the amounts proposed for each such economic assumption by the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General in the reports required under subparagraph (A)) for such economic assumption for such fiscal year;

"(ii) directs the Directors and the Comptroller General to use the amount specified in such joint resolution for each such economic assumption in preparing each report required under subsections (a), (b), and (c) or such fiscal year; and

"(iii) directs the President to modify the most recent order issued under section 252 for such fiscal year in a manner which implements the amount specified in such joint resolution for each such economic assumption.

"(C) PROCEDURES.—The provisions relating to the consideration of joint resolutions under section 254(a)(4) shall apply to the consideration of a joint resolution reported pursuant to subparagraph (A), except that debate in each House shall be limited to two hours.

"(D) ACTION IF ECONOMIC ASSUMPTION IS NOT SPECIFIED BY JOINT RESOLUTION.—In any case in which a joint resolution is not enacted under this paragraph specifying an amount for an economic assumption for a fiscal year, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall use the amount for such economic assumption proposed by such Director or Comptroller General in the report required under subparagraph (A) for a fiscal year.

"(E) DEFINITION.—For purposes of this paragraph, the term 'range of amounts' means, with respect to an economic assumption, any of the amounts for such economic assumption which is—

"(i) not less than the lesser of the amounts proposed for such economic assumption by either Director or by the Comptroller General in the reports required by subparagraph (A) for a fiscal year; or

"(ii) not more than the higher of the amounts proposed for such economic assumption used by either Director or the Comptroller General in such reports.

"(i) BUDGETARY RESOURCE-OUTLAY RATIOS.—

"(1) IN GENERAL.—

"(A) BASIC RULE.—Except as provided in paragraph (2) and in subparagraph (E), in preparing each report required under this section for a fiscal year, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall calculate budget outlays resulting from each item of budgetary resources (specified in subclauses (I) through (VI) of subparagraph (F)(i)) for an account in accordance with this subsection, for purposes of—

"(i) determining under subsection (a) budget base levels of budget outlays for such fiscal year;

"(ii) determining the amount of budget outlays for such fiscal year for defense programs to which subsections (a)(3)(E)(ii) and (d) apply; and

"(iii) determining the amount of budget outlays for such fiscal year for non-defense programs to which subsection (a)(3)(F)(iv) applies.

"(B) COMPUTATION RULES.—For purposes of subparagraph (A), in order to determine the amount of budget outlays for a fiscal year resulting from an item of budgetary resources for each account to which clause (i), (ii), or (iii) of such subparagraph applies, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall make the following determinations:

"(i) The amount of such item of budgetary resources for such account for such fiscal year shall be determined.

"(ii) The ratio described in subparagraph (C) shall be determined for such item of budgetary resources for such account.

"(iii) The amount of budget outlays resulting from such item of budgetary resources for such account for such fiscal year shall be equal to the product of the amount determined under clause (i) of this subparagraph for such item of budgetary resources multiplied by the ratio determined under clause (ii) of this subparagraph for such item of budgetary resources.

"(C) DETERMINATION OF RATIO.—For each item of budgetary resources for each account, the ratio referred to in clause (ii) of such paragraph (B) shall be equal to the quotient of—

"(i) the amount of budget outlays specified as the average of the amounts of budget outlays proposed by each of the Directors for fiscal year 1986 for such account in the first appendix of the report submitted by the Directors under subsection (a) for fiscal year 1986 (as such report was modified by the report of the Comptroller General under subsection (b) for such fiscal year and reaffirmed by H. J. Res. 672, as adopted on July 17, 1986), except as provided by subparagraph (D) of this paragraph, divided by

"(ii) the amount for such item of budgetary resources specified as the average of the amounts for such item proposed by each of the Directors for fiscal year 1986 for such account in such appendix.

"(D) ACCOUNTS WITH MORE THAN ONE ITEM OF BUDGETARY RESOURCES.—In any case in which, in the appendix described in subparagraph (C)(i), there is—

"(i) more than one item of budgetary resources for an account to which clause (i), (ii), or (iii) of subparagraph (A) applies;

"(ii) or an excluded budgetary resource for such an account,

the amount of budget outlays for each such item of budgetary resources, for purposes of subparagraph (C)(i), shall be the amount of budget outlays determined by the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, or the Comptroller General, as the case may be, that was associated with such item of budgetary resources for fiscal year 1986 in the preparation of such appendix.

"(E) EXCEPTION.—Subparagraph (A) shall not apply to the calculation of budget outlays resulting from an item of budgetary resources for an account if the appendix described in clause (i) of subparagraph (C) does not specify the amount of budget outlays described in such subparagraph or the amount for an item of budgetary resources described in clause (ii) of such subparagraph.

"(F) DEFINITION.—For purposes of this subsection—

"(i) the term 'item of budgetary resources' means—

"(I) budget authority;

"(II) spending authority (as defined in section 401(c)(2) of the Congressional Budget Act of 1974);

"(III) offsetting collection amounts for spending authority (as so defined);

"(IV) direct loan limitations;

"(V) obligation limitations; and

"(VI) unobligated balances for defense programs; and

"(ii) the term 'excluded budgetary resource' means—

"(I) spending authority (as defined in section 401(c)(2) of the Congressional Budget Act of 1974) for automatic spending increases;

"(II) direct loan floors;

"(III) guaranteed loan limitations;

"(IV) guaranteed loan floors;

"(V) unobligated balances for administrative expenses;

"(VI) budget authority for automatic spending increases; and

"(VII) budget authority for programs subject to special sequestration rules.

"(2) PROPOSAL OF ALTERNATIVE RATIOS.—

"(A) IN GENERAL.—By June 20 of the calendar year in which a fiscal year begins (beginning with fiscal year 1988), the Directors may submit a joint report to the Temporary Joint Committee on Deficit Reduction established under section 274(f) which proposes, for one or more items of budgetary resources, the use, for purposes of paragraph (1), of a ratio for such fiscal year which is different than the ratio prescribed by subparagraph (C) of such paragraph. The report shall include, for each such item for which a different ratio is recommended, an explanation of the reasons why the ratio prescribed by paragraph (1)(C) is no longer adequate for purposes of paragraph (1) and a justification for the ratio proposed for such account.

"(B) REPORTING OF JOINT RESOLUTION.—Within 5 days after receiving a report under subparagraph (A), the Temporary Joint Committee may report to the Senate and the House of Representatives a joint resolution affirming the report submitted under subparagraph (A). The provisions relating to the consideration of joint resolutions under section 254(a)(4) shall apply to the consideration of a joint resolution reported pursuant to this subparagraph, except that debate in each House shall be limited to two hours.

"(C) EFFECT OF JOINT RESOLUTION.—If a joint resolution is enacted under subparagraph (B) for a fiscal year, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall each, in preparing each report required under subsections (a) and (b) and for purposes of paragraph (1), use for each item of budgetary resources for which a ratio is contained in the report submitted under subparagraph (A), the ratio contained in such report (as affirmed pursuant to such joint resolution).

"(j) COMPUTATION OF BUDGET BASE OUTLAYS RESULTING FROM OBLIGATED BALANCES.—In determining the amount of budget base outlays resulting from obligated balances for defense programs and non-defense programs for a fiscal year—

"(1) the Director of the Office of Management and Budget shall use the methodology used by such Director in determining such budget base outlays in the report required under subsection (a) for fiscal year 1986; and

"(2) the Director of the Congressional Budget Office shall use the methodology used by such Director in determining such budget base outlays in the report required under subsection (a) for fiscal year 1986.

"(k) FEDERAL REGULATIONS.—Except as provided in subsection (a)(6)(D)(ii), in preparing each report required under this section for a fiscal year, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall assume that only regulations which have been promulgated as final regulations by August 15 of the calendar year in which the fiscal year begins (with respect to reports required under subsection (a) or (b) for such fiscal year), or by October 5 of the fiscal year (with respect to reports required under subsection (c) for such fiscal year), shall be in effect during such fiscal year.

"(l) ASSET SALES.—In preparing each report required under this section for a fiscal year, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall assume that only those sales of assets by the Federal Government which are announced for such fiscal year by August 15 of a calendar year in which such fiscal year begins (with respect to reports required under subsection (a) or (b) for such fiscal year), or by October 5 of the fiscal year (with respect to reports required under subsection (c) for such fiscal year), will occur during such fiscal year.

"(m) PAY INCREASES.—

"(1) IN GENERAL.—In preparing each report required under this section for a fiscal year, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall—

"(A) include amounts of budget authority and budget outlays necessary to pay for any Federal pay adjustments for statutory pay systems if such adjustments have been recommended by the President or, notwithstanding subsection (a)(6)(D)(i), have been enacted by law;

"(B) include amounts of budget authority and budget outlays necessary to pay for any pay adjustments for elements of military pay if such adjustments occur pursuant to law or are specifically enacted by law; and

"(C) assume that the percentage of the amounts of budget authority and budget outlays necessary to pay for such adjustments that will be absorbed by all Federal agencies will not exceed the average of the percentages of such amounts absorbed by all Federal agencies for the three most recently completed fiscal years for which such adjustments were made.

"(2) DEFINITION.—For purposes of this paragraph—

"(A) the term 'statutory pay system' has the same meaning as in section 256(g)(2)(A); and

"(B) the term 'elements of military pay' has the same meaning as in section 256(g)(2)(B).

"(n) FARM DEFICIENCY PAYMENTS.—In preparing each report required under this section for fiscal year 1987, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, and the Comptroller General shall assume that advance deficiency payments shall be made available to producers who agree to participate in an acreage limitation or set-aside program for the crop year relating to such fiscal year based on an amount under section 107C(a)(2)(F)(iii) of the Agricultural Act of 1949 (7 U.S.C. 1445b-2(a)(2)(F)(iii)) of—

"(A) in the case of wheat and feed grains, 40 percent of the projected payment rate, as determined by the Secretary of Agriculture; and

"(B) in the case of upland cotton and rice, 30 percent of the projected payment rate, as determined by such Secretary.".

(g) ENTITLEMENTS.—Section 251(a)(6)(A) is amended by inserting before the semicolon a comma and "including the continuation of current law with respect to entitlements funded through annual appropriation Acts and with respect to the Food Stamp Act of 1977".

(h) COMPLIANCE REPORT.—Section 253 is amended to read as follows:

"SEC. 253. COMPLIANCE REPORT BY COMPTROLLER GENERAL.

"On or before November 15 of each fiscal year, the Comptroller General shall submit to the Congress and the President a report on—

"(1) the extent to which the President's order issued under section 252(b) for such fiscal year complies with all of the requirements contained in section 252, either certifying that the order fully and accurately complies with such requirements or indicating the respects in which it does not;

"(2) the extent to which each report of the Director of the Office and Management and Budget under section 251 (b)(2) and (c)(3) for such fiscal year complies with all of the requirements contained in this part, either certifying that the order fully and accurately complies with such requirements or indicating the respects in which it does not; and

"(3) any recommendations of the Comptroller General for improving the procedures set forth in this part.".

(i) EXEMPT PROGRAM.—Section 255(g)(1) is amended by inserting before the first item relating to the Western Area Power Administration the following new item:

"Washington Metropolitan Area Transit Authority, Interest payments (46-0300-0-1-401);".

(j) TEMPORARY JOINT COMMITTEE.—Section 274(f)(2) is amended—

(1) by striking out "Upon the invalidation of any such procedure there" in the first sentence and inserting in lieu thereof "There";

(2) by striking out "and" before "to report" in the third sentence and inserting in lieu thereof a comma; and

(3) by inserting before the period in the third sentence a comma and "and to carry out the functions specified in subsections (h) and (i) of section 251".

(k) APPLICABILITY.—The amendments made by this section shall apply with respect to any report required to be submitted, and any order issued, after the date of enactment of this Act under part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

SEC. 303. RESTORATION OF AUTHORITY OF COMPTROLLER GENERAL.

(a) If, at any time after the date of enactment of this Act, provisions of law are enacted which—

(1) establish the Comptroller General of the United States as an officer of the executive branch of the Government; or

(2) establish an independent agency in the executive branch of the Government to carry out the functions of the Comptroller General which are executive in nature,

the provisions of the Balanced Budget and Emergency Deficit Control Act of 1985 (as in effect on the date of enactment of such Act) shall be restored or revived and shall be effective as if this Act, and the amendments made by this Act, had not been enacted.

(b) If, pursuant to subsection (a), the provisions of the Balanced Budget and Emergency Deficit Control Act of 1985 are restored and revived, the responsibilities assigned by such Act (as so revived and restored) to the Comptroller General shall be carried out by—

(1) the Comptroller General (if provisions of law described in subsection (a)(1) have been enacted); or

(2) the head of the agency established pursuant to provisions of law described in subsection (a)(2),

as the case may be.

SEC. 304. MODIFICATION OF DEADLINE FOR SUBMISSION OF PRESIDENT'S BUDGET.

(a) Section 1105(a) of title 31, United States Code, is amended by striking out "first Monday after January 3 of each year (or on or before February 5 in 1986)" and inserting in lieu thereof "first Tuesday in February of each year".

(b) Section 300 of the Congressional Budget Act of 1974 is amended by striking out "First Monday after January 3" and inserting in lieu thereof "First Tuesday in February".

## TITLE IV—UNLAWFUL LAUNDERING OF MONEY

SEC. 401. This title may be cited as the "Money Laundering Crimes Act of 1986".

SEC. 402. (a) Chapter 95 of title 18, United States Code, is amended by adding at the end thereof the following new section:

"§ 1956. Laundering of monetary instruments

"(a)(1) Whoever, knowing that the property involved in a financial transaction represents the proceeds of some form of unlawful activity, conducts or attempts to conduct such a financial transaction which in fact involves the proceeds of specified unlawful activity—

"(A) with the intent to facilitate the carrying on of specified unlawful activity; or

"(B) knowing that the transaction is designed in whole or in part—

"(i) to conceal or disguise the nature, the location, the source, the ownership, or the control of the proceeds of specified unlawful activity; or

"(ii) to avoid a transaction reporting requirement under State or Federal law,

shall be sentenced to a fine of not more than $250,000 or twice the value of the property involved in the transaction, whichever is greater, or imprisonment for not more than twenty years, or both.

"(2) Whoever transports or attempts to transport a monetary instrument or funds from a place in the United States to or through a place outside the United States or to a place in the United States from or through a place outside the United States—

"(A) with the intent to facilitate the carrying on of specified unlawful activity; or

"(B) knowing that the monetary instrument or funds involved in the transportation represent the proceeds of some form of unlawful activity and knowing that such transportation is designed in whole or in part—

"(i) to conceal or disguise the nature, the location, the source, the ownership, or the control of the proceeds of specified unlawful activity; or

"(ii) to avoid a transaction reporting requirement under State or Federal law,

shall be sentenced to a fine of $250,000 or twice the value of the monetary instrument or funds involved in the transportation, whichever is greater, or imprisonment for not more than twenty years, or both.

"(3) Whoever conducts or attempts to conduct a financial transaction that in whole or in part involves the proceeds of specified unlawful activity with intent to violate or facilitate a violation of section 7201 or 7206 of the Internal Revenue Code of 1954 shall be sentenced to a fine of not more than $250,000 or twice the value of the monetary instrument or funds involved in the transaction, whichever is greater, or imprisonment for not more than twenty years, or both.

"(b) Whoever conducts or attempts to conduct a transaction described in subsection (a)(1) or (a)(3) or a transportation described in subsection (a)(2) is liable to the United States for a civil penalty of not more than the greater of—

"(1) the value of the property, funds, or monetary instruments involved in the transaction; or

"(2) $10,000.

"(c) As used in this section—

"(1) the phrase 'knowing that the property involved in a financial transaction represents the proceeds of some form of unlawful activity' means that the person knew the property involved in the transaction represented proceeds from some form, though not necessarily which form, of activity that constitutes a felony under State or Federal law, regardless of whether or not such activity is specified in paragraph (7);

"(2) the term 'conducts' includes but is not limited to initiating, concluding, or participating in initiating, or concluding a transaction;

"(3) the term 'transaction' includes but is not limited to a purchase, sale, loan, pledge, gift, transfer, delivery, or other disposition, and with respect to a financial institution includes but is not limited to a deposit, withdrawal, transfer between accounts, exchange of currency, loan, extension of credit, purchase or sale of any stock, bond, certificate of deposit, or other monetary instrument, or any other payment, transfer, or delivery by, through, or to a financial institution, by whatever means effected;

"(4) the term 'financial transaction' means a transaction involving the movement of funds by wire or other means or involving one or more monetary instruments, which in any way or degree affects interstate or foreign commerce, or a transaction involving the use of a financial institution which is engaged in, or the activities of which affect, interstate or foreign commerce in any way or degree;

"(5) the term 'monetary instruments' means coin or currency of the United States or of any other country, travelers' checks, personal checks, bank checks, money orders, investment securities in bearer form or otherwise in such form that title thereto passes upon delivery, and negotiable instruments

in bearer form or otherwise in such form that title thereto passes upon delivery;

"(6) the term 'financial institution' has the definition given that term in section 5312(a)(2) of title 31, United States Code, and the regulations promulgated thereunder;

"(7) the term 'specified unlawful activity' means—

"(A) any act or activity occurring in whole or in part in, or directed at, the United States, and constituting an offense listed in section 1961(1) of this title except an act which is indictable under the Currency and Foreign Transactions Reporting Act;

"(B) with respect to a financial transaction occurring in whole or in part in the United States, an offense against a foreign nation involving the manufacture, importation, sale, or distribution of a controlled substance (as such term is defined for the purposes of the Controlled Substances Act);

"(C) any act or acts constituting a continuing criminal enterprise, as that term is defined in section 408 of the Controlled Substances Act (21 U.S.C. 848); or

"(D) an offense under section 152 (relating to concealment of assets; false oaths and claims; bribery), section 215 (relating to commissions or gifts for procuring loans), sections 500 through 503 (relating to certain counterfeiting offenses), section 511 (relating to securities of States and private entities), section 545 (relating to smuggling goods into the United States), section 641 (relating to public money, property, or records), section 656 (relating to theft, embezzlement, or misapplication by bank officer or employee), section 666 (relating to theft or bribery concerning programs receiving Federal funds), section 793, 794, or 798 (relating to espionage), section 875 (relating to interstate communications), section 1201 (relating to kidnaping), section 1203 (relating to hostage taking), section 1344 (relating to bank fraud), or section 2113 or 2114 (relating to bank and postal robbery and theft) of this title, section 38 of the Arms Export Control Act (22 U.S.C. 2778), the Export Administration Act of 1979 (50 U.S.C. App. 2401 et seq.), the International Emergency Economic Powers Act (50 U.S.C. 1702 et seq.), and the Trading with the Enemy Act (50 U.S.C. App. 1 et seq.).

"(d) Nothing in this section shall supersede any provision of Federal, State, or other law imposing criminal penalties or affording civil remedies in addition to those provided for in this section.

"(e) Violations of this section may be investigated by such components of the Department of Justice as the Attorney General may direct, and by such components of the Department of the Treasury as the Secretary of the Treasury may direct, as appropriate.

"(f) There is extraterritorial jurisdiction over the conduct prohibited by this section if—

"(1) the conduct is by a United States citizen or, in the case of a non-United States citizen, the conduct occurs in substantial part in the United States; and

"(2) the transaction or series of related transactions involves funds or monetary instruments of a value exceeding $10,000.".

(b) The table of sections at the beginning of chapter 95 of title 18 is amended by adding at the end the following new item:

"1956. Laundering of monetary instruments".

SEC. 403. (a) Subsection 1103(c) of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3403(c)) is amended by adding at the end thereof the following: "Such information may include only the name or names of and other identifying information concerning the individuals and accounts involved in and the nature of the suspected illegal activity. Such information may be disclosed notwithstanding any law or regulation of any State or political subdivision thereof to the contrary. Any financial institution, or officer, employee, or agent thereof, making a disclosure of information pursuant to this subsection in good faith, shall not be liable to the customer under any law or regulation of the United States or any State or political subdivision thereof, for such disclosure or for any failure to notify the customer of such disclosure.".

(b) Section 1113(i) of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3413(i)) is amended by inserting immediately before the period at the end thereof a comma and the following: "except that a court shall have authority to order a financial institution, on which a grand jury subpoena for customer records has been served, to delay notifying the customer of the existence of the subpoena or information that has been furnished to the grand jury, under the circumstances specified and pursuant to the procedures established in section 1109 of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3409)".

SEC. 404. (a) Section 5318 of title 31, United States Code, is amended to read as follows:

"§ 5318. Compliance, exemptions, and summons authority

"(a) The Secretary of the Treasury may (except under section 5315 of this title and regulations prescribed under section 5315)—

"(1) delegate duties and powers under this subchapter to an appropriate supervising agency, except as provided in subsection (c);

"(2) require a class of domestic financial institutions to maintain appropriate procedures to ensure compliance with this subchapter and regulations prescribed under this subchapter;

"(3) examine any books, papers, records, or other data of domestic financial institutions relevant to the recordkeeping or reporting requirements of this subchapter;

"(4) summon a financial institution or an officer or employee of a financial institution, or a former officer or employee, or any person having possession, custody, or care of the reports and records required under this subchapter, to appear before the Secretary of the Treasury or his delegate at a time and place named in the summons and to produce such books, papers, records, or other data, and to give testimony, under oath, as may be relevant or material to an investigation described in subsection (c); and

"(5) prescribe an appropriate exemption from a requirement under this subchapter and regulations prescribed under this subchapter. The Secretary may revoke an exemption by actually or constructively notifying the parties affected. A revocation is effective during judicial review.

"(b) The purposes for which the Secretary of the Treasury may take any action described in paragraph (3) of subsection (a) include the purpose of civil and criminal enforcement of the provisions of this subchapter, section 21 of the Federal Deposit Insurance Act (12 U.S.C. 1829b), section 411 of the National Housing Act (12 U.S.C. 1730d), or chapter 2 of Public Law 91-508.

"(c) The purpose for which the Secretary of the Treasury may take any action described in paragraph (4) of subsection (a) is limited to investigating violations of this subchapter, violations of section 21 of the Federal Insurance Act (12 U.S.C. 1829b), violations of section 411 of the National Housing Act (12 U.S.C. 1730d), or violations of chapter 2 of Public Law 91-508 for the purpose solely of civil enforcement of these provisions or any regulation issued thereunder. A summons may be issued under paragraph (4) of subsection (a) only by, or with the approval of, the Secretary of the Treasury or a supervisory level delegate of the Secretary of the Treasury.

"(d) A summons pursuant to this section may require that books, papers, records, or other data stored or maintained at any place be produced at any designated location in any State or in any territory or other place subject to the jurisdiction of the United States not more than five hundred miles distant from any place where the financial institution operates or conducts business in the United States. Persons summoned under this section shall be paid the same fees and mileage for travel in the United States that are paid witnesses in the courts of the United States. The United States shall not be liable for any other expenses incurred in connection with the production of books, papers, records, or other data pursuant to the provisions of this section.

"(e) Service of a summons issued under this section may be by registered mail or in such other manner calculated to give actual notice as the Secretary may provide by regulation.

"(f) In the case of contumacy by or refusal to obey a summons issued to any person under this section, the Secretary shall refer the matter to the Attorney General. The Attorney General may invoke the aid of any court of the United States within the jurisdiction of which the investigation which gave rise to the summons is being or has been carried on or of which the person summoned is an inhabitant, or in which he carries on business or may be found, to compel compliance with the summons. The court may issue an order requiring the person summoned to appear before the Secretary or his delegate to produce books, papers, records, and other data, to give testimony as may be necessary to explain how such material was compiled and maintained, and to pay the costs of the proceeding. Any failure to obey the order of the court may be punished by the court as a contempt thereof. All process in any such case may be served in any judicial district in which such person may be found.".

(b)(1) Paragraph (1) of subsection (a) of section 5321 of title 31, United States Code, is amended to read as follows:

"(1) A domestic financial institution, and a partner, director, officer, or employee of a domestic financial institution, willfully violating this subchapter or a regulation prescribed under this subchapter (except sections 5314 and 5315 of this title or a regulation prescribed under sections 5314 and 5315), or any person causing such a violation, is liable to the United States Government for a civil penalty of not more than the amount of the transaction (but not more than $1,000,000) or $25,000, whichever is greater. For a willful violation of section 5318(a)(2) of this title, or a regulation prescribed under section 5318(a)(2), a separate violation occurs for each day the violation continues and at such office, branch, or place of business at which a violation occurs or continues.".

(2) Paragraph (2) of subsection (a) of section 5321 of title 31, United States Code, is amended to read as follows:

"(2) A civil penalty under paragraph (1) is reduced by an amount forfeited under section 5317(b).".

(3) Subsection (a) of section 5321 of title 31, United States Code, is amended by adding at the end thereof the following new paragraphs:

"(4) A person willfully violating the provisions of section 5314 of this title or of a regulation prescribed under section 5314 is liable to the United States Government for a civil penalty of not more than—

"(A) where the violation involves a transaction, the amount of the transaction or $25,000, whichever is greater, or

"(B) where the violation involves the failure to report the existence of an account or any required identifying data pertaining to the account, the amount of the account (but not more than $250,000) or $25,000, whichever is greater.

"(5) Any financial institution negligently violating any provision of this subchapter or a regulation prescribed under this subchapter is liable to the United States for a civil penalty of not more than $1,000.

"(6) A civil penalty assessed pursuant to this section is in addition to any criminal penalty under section 5322 of this title based on the same transaction.".

(c) Subsection (b) of section 5321 of title 31, United States Code, is amended to read as follows:

"(b) The Secretary may assess a civil penalty under this section within six years from the date of the transaction in which the penalty is based. The Secretary may bring a civil action to recover a civil penalty under this section within two years from the date of a penalty assessment or the conclusion of a criminal action under section 5322 of this title based on the same transaction, whichever is later.".

(d) Subsection (c) of section 5321 of title 31 is amended to read as follows:

"(c) The Secretary of the Treasury may remit any part of a forfeiture under subsection 5317(b) of this title or may mitigate any civil penalty under subsection (a) of this section.".

(e) Subsection (b) of section 5322 of title 31, United States Code, is amended by striking out "pattern of illegal activity involving transactions of more than $100,000" and inserting in lieu thereof "pattern of any illegal activity involving more than $100,000", and by striking out "5" and inserting in lieu thereof "10".

(f) Section 5312(a)(3)(B) of title 31, United States Code, is amended by striking the period at the end thereof and inserting in lieu thereof: "payable to a fictitious payee.".

(g) Section 5312(a)(5) of title 31, United States Code, is amended to read as follows:

"(5) 'United States' means the States of the United States, the District of Columbia, and, when the Secretary prescribes by regulation, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, American Samoa, the Trust Territory of the Pacific Islands, any other territory or possession of the United States, or a military or diplomatic establishment.".

(h) Subsection (a) of section 5313 of title 31, United States Code, is amended by adding at the end thereof the following: "No person shall, for the purpose of evading the reporting requirements of this subsection—

"(1) cause or attempt to cause a domestic financial institution to fail to file a report required by this subsection;

"(2) cause or attempt to cause a domestic financial institution to file a report required by this subsection that contains a material omission or misstatement of fact; or

"(3) structure or attempt to structure or assist in structuring a transaction.".

SEC. 405. (a) Subsection (b) of section 1952 of title 18, United States Code, is amended by striking out "or" before "(2)", and by striking out the period at the end thereof and inserting in lieu thereof the following: ", or (3) any act which is indictable under subchapter II of chapter 53 of title 31, United States Code, or under section 1956 of this title.".

(b) Subsection (l) of section 1961 of title 18, United States Code, is amended by inserting "section 1956 (relating to the laundering of monetary instruments)," after "section 1955 (relating to the prohibition of illegal gambling businesses),".

(c) Subsection (l) of section 2516 of title 18, United States Code, is amended in paragraph (c) by inserting "section 1956 (laundering of monetary instruments)," after "section 1955 (prohibition of business enterprises of gambling),".

SEC. 406. (a) Title 18 of the United States Code is amended by adding after chapter 45 a new chapter 46 as follows:

"CHAPTER 46—FORFEITURE

"Sec.
"981. Civil Forfeiture.
"982. Criminal Forfeiture.

"§ 981. Civil forfeiture

"(a)(1) Except as provided in paragraph (2), the following property is subject to forfeiture to the United States:

"(A) Any property, real or personal, which represents the gross receipts a person obtains, directly or indirectly, as a result of a violation of section 1956 of this title, or which is traceable to such gross receipts.

"(B) Any property involved in a financial transaction (as such term is defined in section 1956(c) of this title) within the jurisdiction of the United States, which represents the proceeds of an offense against a foreign nation involving the manufacture, importation, sale, or distribution of a controlled substance (as such term is defined for the purposes of the Controlled Substances Act), within whose jurisdiction such offense or activity would be punishable by death or imprisonment for a term exceeding one year and which would be punishable by imprisonment for a term exceeding one year if such act or activity had occurred within the jurisdiction of the United States.

"(C) Any property involved in a transaction which the owner of the property knows to be conducted in violation of section 5313(a) or 5316 of title 31, except that no property shall be seized or forfeited under this subparagraph if the property is owned by a domestic financial institution examined by a Federal bank supervisory agency or a financial institution regulated by the Securities and Exchange Commission.

"(2) No property shall be forfeited under this section to the extent of the interest of an owner by reason of any act or omission established by that owner to have been committed without the knowledge of that owner.

"(b) Any property subject to forfeiture to the United States under subsection (a)(1)(A) or (a)(1)(B) of this section may be seized by the Attorney General, and any property subject to forfeiture under subsection (a)(1)(C) of this section may be seized by the Secretary of the Treasury, in each case upon process issued pursuant to the Supplemental Rules for certain Admiralty and Maritime Claims by any district court of the United States having jurisdiction over the property, except that seizure without such process may be made when—

"(1) the seizure is pursuant to a lawful arrest or search; or

"(2) the Attorney General or the Secretary of the Treasury, as the case may be, has obtained a warrant for such seizure pursuant to the Federal Rules of Criminal Procedure, in which event proceedings under subsection (d) of this section shall be instituted promptly.

"(c) Property taken or detained under this section shall not be repleviable, but shall be deemed to be in the custody of the Attorney General or the Secretary of the Treasury, as the case may be, subject only to the orders and decrees of the court or the official having jurisdiction thereof. Whenever property is seized under this subsection, the Attorney General or the Secretary of the Treasury, as the case may be, may—

"(1) place the property under seal;

"(2) remove the property to a place designated by him; or

"(3) require that the General Services Administration take custody of the property and remove it, if practicable, to an appropriate location for disposition in accordance with law.

"(d) For purposes of this section, the provisions of the customs laws relating to the seizure, summary and judicial forfeiture, condemnation of property for violation of the customs laws, the disposition of such property or the proceeds from the sale of this section, the remission or mitigation of such forfeitures, and the compromise of claims (19 U.S.C. 1602 et seq.), insofar as they are applicable and not inconsistent with the provisions of this section or of title 31, shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under this section, except that such duties as are imposed upon the customs officer or any other person with respect to the seizure and forfeiture of property under the customs laws shall be performed with respect to seizures and forfeitures of property under this section by such officers, agents, or other persons as may be authorized or designated for that purpose by the Attorney General or the Secretary of the Treasury, as the case may be.

"(e) Notwithstanding any other provision of the law, the Attorney General or the Secretary of the Treasury, as the case may be, is authorized to retain property forfeited pursuant to this section, or to transfer such property on such terms and conditions as he may determine to—

"(1) any other Federal agency; or

"(2) any State or local law enforcement agency which participated directly in any of the acts which led to the seizure or forfeiture of the property.

The Attorney General or the Secretary of the Treasury, as the case may be, shall ensure the equitable transfer pursuant to paragraph (2) of any forfeited property to the appropriate State or local law enforcement agency so as to reflect generally the contribution of any such agency participating directly in any of the acts which led to the seizure or forfeiture of such property. A decision by the Attorney General or the Secretary of the Treasury pursuant to paragraph (2) shall not be subject to review. The United States shall not be liable in any action arising out of the use of any property the custody of which was transferred pursuant to this section to any non-Federal agency. The Attorney General or the Secretary of the Treasury may order the discontinuance of any

*forfeiture proceedings under this section in favor of the institution of forfeiture proceedings by State or local authorities under an appropriate State or local statute. After the filing of a complaint for forfeiture under this section, the Attorney General may seek dismissal of the complaint in favor of forfeiture proceedings under State or local law. Whenever forfeiture proceedings are discontinued by the United States in favor of State or local proceedings, the United States may transfer custody and possession of the seized property to the appropriate State or local official immediately upon the initiation of the proper actions by such officials. Whenever forfeiture proceedings are discontinued by the United States in favor of State or local proceedings, notice shall be sent to all known interested parties advising them of the discontinuance or dismissal. The United States shall not be liable in any action arising out of the seizure, detention, and transfer of seized property to State or local officials.*

*"(f) All right, title, and interest in property described in subsection (a) of this section shall vest in the United States upon commission of the act giving rise to forfeiture under this section.*

*"(g) The filing of an indictment or information alleging a violation of law which is also related to a forfeiture proceeding under this section shall, upon motion of the United States and for good cause shown, stay the forfeiture proceeding.*

*"(h) In addition to the venue provided for in section 1395 of title 28 or any other provision of law, in the case of property of a defendant charged with a violation that is the basis for forfeiture of the property under this section, a proceeding for forfeiture under this section may be brought in the judicial district in which the defendant owning such property is found or in the judicial district in which the criminal prosecution is brought.*

*"(i) In the case of property subject to forfeiture under subsection (a)(1)(B), the following additional provisions shall apply:*

*"(1) Notwithstanding any other provision of law, whenever property is civilly or criminally forfeited under this subchapter, the Attorney General may equitably transfer any conveyance, currency, and any other type of personal property which the Attorney General may designate by regulation for equitable transfer, or any amounts realized by the United States from the sale of any real or personal property forfeited under this subchapter to an appropriate foreign country to reflect generally the contribution of any such foreign country participating directly or indirectly in any acts which led to the seizure or forfeiture of such property. Such property when forfeited pursuant to subsection (a)(1)(B) of this section may also be transferred to a foreign country pursuant to a treaty providing for the transfer of forfeited property to such foreign country. A decision by the Attorney General pursuant to this paragraph shall not be subject to review. The foreign country shall, in the event of a transfer of property or proceeds of sale of property under this subchapter, bear all expenses incurred by the United States in the seizure, maintenance, inventory, storage, forfeiture, and disposition of the property, and all transfer costs. The payment of all such expenses, and the transfer of assets pursuant to this paragraph, shall be upon such terms and conditions as the Attorney General may, in his discretion, set.*

*"(2) The provisions of this section shall not be construed as limiting or superseding any other authority of the United States to provide assistance to a foreign country in obtaining property related to a crime committed in the foreign country, including, but not limited to, property which is sought as evidence of a crime committed in the foreign country.*

*"(3) A certified order or judgment of forfeiture by a court of competent jurisdiction of a foreign country concerning property which is the subject of forfeiture under this section and was determined by such court to be the type of property described in subsection (a)(1)(B) of this section, and any certified recordings or transcripts of testimony taken in a foreign judicial proceeding concerning such order or judgment of forfeiture, shall be admissible in evidence in a proceeding brought pursuant to this section. Such certified order or judgment of forfeiture, when admitted into evidence, shall constitute probable cause that the property forfeited by such order or judgment of forfeiture is subject to forfeiture under this section and creates a rebuttable presumption of the forfeitability of such property under this section.*

*"(4) A certified order or judgment of conviction by a court of competent jurisdiction of a foreign country concerning an unlawful drug activity which gives rise to forfeiture under this section and any certified recordings or transcripts of testimony taken in a foreign judicial proceeding concerning such order or judgment of conviction shall be admissible in evidence in a proceeding brought pursuant to this section. Such certified order or judgment of conviction, when admitted into evidence, creates a rebuttable presumption that the unlawful drug activity giving rise to forfeiture under this section has occurred.*

*"(5) The provisions of paragraphs (3) and (4) of this subsection shall not be construed as limiting the admissibility of any evidence otherwise admissible, nor shall they limit the ability of the United States to establish probable cause that property is subject to forfeiture by any evidence otherwise admissible.*

*"(k) For purposes of this section—*

*"(1) the term 'Attorney General' means the Attorney General or his delegate; and*

*"(2) the term 'Secretary of the Treasury' means the Secretary of the Treasury or his delegate.*

*"§ 982. Criminal forfeiture*

*"(a) The court, in imposing sentence on a person convicted of an offense under section 1956 of this title shall order that the person forfeit to the United States any property, real or personal, which represents the gross receipts the person obtained, directly or indirectly, as a result of such offense, or which is traceable to such gross receipts.*

*"(b) The provisions of subsections 413 (c) and (e) through (o) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 853 (c) and (e)–(o)) shall apply to property subject to forfeiture under this section, to any seizure or disposition thereof, and to any administrative or judicial proceeding in relation thereto, if not inconsistent with this section.".*

*(b) The chapter analysis of part I of title 18, United States Code, is amended by inserting after the item for chapter 45 the following:*

*"46. Forfeiture ..... 981".*

## *TITLE V—FARMERS AND RANCHERS DISASTER ASSISTANCE*

*SEC. 501. EMERGENCY DISASTER ASSISTANCE.*

*(a) Notwithstanding any other provision of law, the President and the Secretary of Agriculture shall make emergency disaster assistance available, as provided in this title, to farmers and ranchers in drought disaster areas.*

*SEC. 502. DEFINITIONS.*

*For the purposes of this title—*

*(1) the term "drought disaster areas" includes any area in the United States in which farming and ranching operations have been adversely affected by a drought or excessively hot weather disaster such that assistance is available in the area under subtitle C of the Consolidated Farm and Rural Development Act for such disaster; and*

*(2) the term "livestock" includes all classes of beef and dairy cattle, sheep, goats, and swine.*

*SEC. 503. EMERGENCY FEED DONATIONS.*

*Notwithstanding any other provision of law:*

*(a) The Secretary of Agriculture shall make available to farmers and ranchers in each drought disaster area, at no cost, surplus stocks of commodities held by the Commodity Credit Corporation (in the area or in the State in which the area is located or an adjoining State), for the purpose of, and under the conditions set out in, subsection (b) of this section.*

*(b)(1) The Secretary shall make such commodities available, in any drought disaster area in which the Secretary determines there is a critical need for livestock or poultry feed, in amounts necessary to preserve livestock herds and poultry flocks in the area. For purposes of this section, the phrase "critical need for livestock or poultry feed" means that (A) the total supply of feed grains and forage available to livestock and poultry producers in the area involved is insufficient to cover the combined feed needs of such producers for more than seventy-two hours or such other period, determined by the Secretary, reasonably needed for supplies of feed to arrive in the area for commercial use from feed surplus areas, whichever is a longer period; and (B) as a result of such deficient supply levels, it reasonably can be expected that, without the assistance made available under this section, farmers and ranchers in the area will suffer significant losses of livestock or poultry due to mortality.*

*(2) Subject to section 8(b), the Secretary shall cover any costs involved in transporting such surplus commodities to the drought disaster area, using the funds, facilities, and authorities of the Commodity Credit Corporation for such purposes.*

*(3) The Secretary shall continue to make commodities available under this section until there no longer is a critical need for livestock or poultry feed, as determined by the Secretary.*

*(4) In determining the feed needs of producers in an area and the amount of commodities to be made available in the area under this section, the Secretary shall use the regulations issued under section 1105 of the Food and Agriculture Act of 1977 (7 C.F.R. 1475.52(n) and 1475.55(f)(1)) and comparable rules for poultry.*

*(5) Donations under this section shall be made available during the period beginning three days after the date of enactment of this Act and ending March 31, 1987, or the date, as determined by the Secretary, on which the*

emergency created by the drought, excessively hot weather no longer exists, whichever is earlier.

SEC. 504. EMERGENCY LIVESTOCK FEED ASSISTANCE.

(a) Notwithstanding any other provision of law:

(1) The Secretary of Agriculture shall make emergency livestock and poultry feed assistance under section 1105 of the Food and Agriculture Act of 1977 to farmers and ranchers in drought disaster areas. Reimbursement for purchased feed provided to such farmers and ranchers under section 1105 shall be made in kind, as provided in section 508(a) of this Act, using surplus stocks of commodities held by the Commodity Credit Corporation. Whenever, under any export development program conducted by the Secretary of Agriculture, a feed grain or other commodity used for animal feed is made available to foreign purchasers at prices less than the average domestic market price for the commodity, as determined by the Secretary, reimbursement under this paragraph for purchases of such commodity shall be made at a level in excess of 50 percent of the cost of the purchased commodity if necessary to ensure that the net cost to the producer for such commodity (taking into account the reimbursement under this paragraph) is not in excess of the average price at which the commodity is made available to foreign purchasers under such export development program.

(2) The Secretary of Agriculture shall permit any producer of the 1986 crop of wheat, feed grains, upland cotton, or rice (A) who is participating in the program under the Agricultural Act of 1949 for such crop, and (B) whose farm is located in a drought disaster area, to devote acreage on the farm diverted from the production of the crop under such program to hay or grazing without regard to limitations on when haying or grazing may take place otherwise imposed under the Agricultural Act of 1949.

(3)(A) In carrying out any emergency assistance program, for farmers and ranchers in a drought disaster area under the Disaster Relief Act of 1974, subject to subparagraph (B), the President shall direct the Secretary of Agriculture to implement an emergency hay program to assist such farmers and ranchers in obtaining hay to feed their livestock. Under such program, the Secretary, subject to section 508(b), shall pay 80 percent of the cost of transporting hay from areas in which hay is in plentiful supply to the area in which the farmers and ranchers are located.

(B) The President shall take the action required under subparagraph (A) only if the Secretary of Agriculture reports to the President that—

(i) as a result of the drought or excessively hot weather, the amount of hay readily available to such farmers and ranchers at reasonable prices to feed their livestock is substantially below the amount normally available; and

(ii) the assistance to be made available under paragraph (1) and haying or grazing permitted under paragraph (2) together will be insufficient to prevent substantial losses of livestock or liquidation of herds by such farmers and ranchers in such area.

(C) The Secretary of Agriculture shall determine whether the conditions described in clauses (i) and (ii) of subparagraph (B) exist for each drought disaster area, and if such conditions exist to report to the President, within thirty days after the date of enactment of this Act and after reasonable intervals of time thereafter.

(D) Prior to making any determination under subparagraph (B), the Secretary of Agriculture shall consult with the Governor and the Secretary of Agriculture (or comparable official) of the State involved, and give due consideration to the views of such persons.

(4) Paragraphs (1) and (3) shall become effective fifteen days after the date of enactment; and assistance under such subsections shall be available until March 30, 1987, or the date, as determined by the Secretary of Agriculture, on which the emergency created by the drought or excessively hot weather no longer exists, whichever is earlier.

(b) Effective October 1, 1986, section 1105 of the Food and Agriculture Act of 1977 (7 U.S.C. 2267) is amended by adding at the end thereof the following:

"(h) If—

"(1) The Secretary of Agriculture makes emergency livestock or poultry feed assistance available to producers in a county under section 407 of the Agricultural Act of 1949, or comparable law; but

"(2) surplus commodities of adequate nutritive value are not made available under such program for distribution to such producers within ten days after the announcement of the program for such county,

the Secretary shall make assistance available to such producers under this section until such time as surplus commodities are made available under the announced program.".

SEC. 505. DISASTER PAYMENT PROGRAM.

Notwithstanding any other provision of law:

(a) The Secretary of Agriculture shall make disaster payments available, at the request of the producer, on the 1986 crops of wheat, feed grains, upland cotton, rice, and soybeans and peanuts under sections 107D(c)(2)(D), 105C(c)(2)(D), 103A(c)(2)(D), 101A(c)(2)(D), and 201(k) of the Agricultural Act of 1949, respectively, to producers located in drought disaster areas.

(b) For the purposes of this section, the conditions set out in sections 107D(c)(2)(D)(i), 105C(c)(2)(D)(i), 103A(c)(2)(D)(i), and 101A(c)(2)(D)(i) of the Agricultural Act of 1949 shall be considered as having been met.

(c) Payments under this section shall be made in kind, as provided in section 508(a) of this Act, using surplus stocks held by the Commodity Credit Corporation.

(d) The total amount of in kind payments that a producer shall be entitled to receive for the producer's crops of wheat, feed grains, upland cotton, rice, peanuts, and soybeans under this section shall not exceed an amount of commodities of a combined value of more than $100,000.

SEC. 506. MILK PROGRAM PRODUCER ASSESSMENTS.

Notwithstanding any other provision of law:

(a)(1) At the option of the producer, no reductions in the price received by producers for milk marketed for commercial use under section 201(d)(2)(A) of the Agricultural Act of 1949 shall be made on milk produced by producers in drought disaster areas and marketed for commercial use during the period beginning October 1, 1986, and ending December 31, 1986.

(2) The reductions in the price of milk required under section 10 of the Food Security Improvements Act of 1987 shall not be increased as a result of the implementation of the temporary prohibition on reduction in the price of milk provided for under paragraph (1).

(b) The Secretary of Agriculture shall increase the amount of the reduction in the price received by producers in drought disaster areas for milk produced and marketed by such producers for commercial use under section 201(d)(2)(A) of the Agricultural Act of 1949 during the period beginning January 1, 1987, and ending September 30, 1987, by an amount that will ensure that, to the extent practicable, the aggregate amount of reductions applicable to milk of such producers for the period beginning October 1, 1986, and ending September 30, 1987, will be the same aggregate amount of reductions that would have been made if the prohibition on reductions under subsection (a) had not been in force.

SEC. 507. COST-SHARING FOR SOIL CONSERVATION MEASURES AND TIMBER STAND RESEEDING EXPENSES.

Notwithstanding any other provision of law:

(a) The Secretary of Agriculture shall make available—

(1) cost-share payments under the agricultural conservation program to producers in drought disaster areas for conservation measures designed to prevent anticipated soil erosion due to loss of vegetative cover; and

(2) cost-share payments under the forestry incentives program to forest landowners in drought disaster areas for the reestablishment of stands of pine trees lost to drought conditions.

(b) The Secretary shall share not less than 50 percent of the cost of such measures or reestablishment of timber stands; and such cost-share payments shall be made in kind, as provided in section 508(a) of this title, using surplus stocks of commodities held by the Commodity Credit Corporation.

(c) Payments made under this section shall be in addition to, and not in lieu of, payments made under the Soil Conservation and Domestic Allotment Act or the Cooperative Forestry Assistance Act of 1978 using funds appropriated for such purposes.

(d) Assistance under this section shall be made available to persons in drought disaster areas during the period beginning fifteen days after the date of enactment of this Act and ending March 30, 1987.

SEC. 508. PAYMENTS.

Notwithstanding any other provision of law:

(a)(1) In making in-kind payments under section 504(a)(1), 505, or 507, or subsection (b) of this section, the Secretary of Agriculture may—

(A) acquire and use commodities that have been pledged to the Commodity Credit Corporation as security for price support loans under the Agricultural Act of 1949, including loans made to producers under section 110 of such Act; and

(B) use other commodities owned by the Commodity Credit Corporation.

(2) The Secretary may make in-kind payments by—

(A) if requested by the producer, delivery of the commodity to the producer at a warehouse or other similar facility, as determined by the Secretary; or

(B)(i) the transfer of negotiable warehouse receipts;

(ii) the issuance of negotiable certificates that the Commodity Credit Corporation shall redeem for a commodity in accordance with regulations prescribed by the Secretary; or

(iii) such other methods as the Secretary determines appropriate to enable the pro-

ducer to receive payments in an efficient, equitable, and expeditious manner so as to ensure that the producer receives the same total return as if the payments had been made in cash.

(3) In carrying out this subsection, the Secretary, to the maximum extent practicable, shall use Commodity Credit Corporation commodities stored in storage deficient areas such as the midwestern United States.

(b) Transportation cost payments made under section 503(b)(2) or 504(a)(3) of this title prior to October 1, 1986, shall be made in kind, as provided in subsection (a), using surplus stocks of commodities held by the Commodity Credit Corporation. Such payments made after September 30, 1986, may be made in kind or in cash. The Secretary of Agriculture shall assist recipients of in-kind payments in marketing warehouse receipts, certificates, or other documents representing such in-kind payments.

SEC. 509. CREDIT FORBEARANCE.

It is the sense of Congress that, with respect to farm borrowers who are adversely affected by drought disaster conditions in 1986—

(1) the Secretary of Agriculture should exercise the authority provided under section 331A of the Consolidated Farm and Rural Development Act and instruct the Farmers Home Administration to defer loan repayments and forgo foreclosures in cases where such farm borrowers are unable to make loan payments in full due to no fault of their own; and

(2) the lending institutions of the Farm Credit System and commercial lending institutions are encouraged, insofar as practicable, to adopt lenient lending, forbearance, and foreclosure policies, and to the maximum extent possible participate and cooperate with Federal and State lenders in assistance programs, with respect to such borrowers who are under financial stress due to no fault of their own.

SEC. 510. COORDINATION OF ASSISTANCE EFFORTS.

It is the sense of Congress that, with respect to the provision of Federal assistance to farmers and ranchers in drought disaster areas, the Secretary of Agriculture should take steps immediately to—

(1) establish an overall coordinating mechanism within the Department of Agriculture to ensure that the assistance provided by each agency within the executive branch is coordinated with, and complements, the assistance provided by other agencies;

(2) ensure that government and voluntary agencies, and the farmers and ranchers, in each drought disaster area are provided a single contact person or unit for Federal assistance, and that a similar such Federal contact person or unit is provided for government and voluntary agencies, farmers and ranchers, and other persons outside drought disaster areas who wish to contribute additional assistance to drought disaster areas; and

(3) consult with the Governors, Secretaries of Agriculture (or comparable officials), and the State disaster relief agency in each State in which a drought disaster area is located, on the disaster assistance needs of farmers and ranchers located in the State.

SEC. 511. ASSISTANCE UNDER DISASTER RELIEF ACT.

Title IV of the Disaster Relief Act of 1974 (42 U.S.C. 5121 et seq.) is amended by adding at the end the following new section:

"FEDERAL SHARE OF ASSISTANCE

"SEC. 420. (a)(1) The Federal share of assistance under section 402 or 403 of this Act—

"(A) shall be at least 75 percent of the actual cost of providing assistance under such section, and

"(B) shall be made only on condition that the remaining portion of such cost is paid from funds made available by a State or local government.

"(2) Where a State or local government is unable immediately to pay its share the President is authorized to advance to such government such 25 percent share, and any such advance shall be repaid to the United States.

"(b) The Federal share of assistance under sections 404, 407, and 413 shall be equal to 100 percent of the actual cost of providing assistance under such sections.

"(c) No State shall be ruled ineligible to receive assistance under subsections (a) and (b) of this section by virtue of an arithmetic formula based on income or population if such State has qualified for Federal disaster assistance within the past twenty-four months.".

## TITLE VI—MISCELLANEOUS PROVISIONS

SEC. 601. ADVANCE DEFICIENCY PAYMENTS.

Notwithstanding any other provision of law, the Secretary of Agriculture shall, in accordance with the criteria in section 107C of the Agriculture Act of 1949, make advance deficiency payments available for the 1987 crops of wheat, feed grains, upland cotton, and rice: Provided, That the percentage of the projected payment rate used in computing such payments shall not be less than (1) 40 percent in the case of wheat and feed grains, or (2) 30 percent in the case of rice and upland cotton.

SEC. 602. AIR TRANSPORTATION SYSTEM SAFETY.

(a) The Congress finds that—

(1) safe and efficient air transportation is essential to the flow of interstate commerce in this Nation;

(2) airline traffic is estimated to increase to a record 400,000,000 passengers aboard United States commercial aircraft in 1986 and the number of aircraft operations is projected by the Federal Aviation Administration to increase by 46 percent through the coming decade;

(3) recent studies by the National Transportation Safety Board and the General Accounting Office have indicated serious concerns with the Federal Aviation Administration's safety-related air traffic control and aircraft inspection and surveillance programs, particularly with respect to the need for additional trained and experienced personnel;

(4) the effect of air traffic controller staffing shortages, increased numbers of aircraft operations, and delays in the installation of automated systems has been a reduction in aviation safety, as evidenced by a record number of near-misses between aircraft, including fourteen near-misses recorded thus far this year at Chicago O'Hare Airport, the Nation's busiest airport; and

(5) the growth of the United States commercial airline industry since deregulation and the inability of the Federal Aviation Administration to impose and enforce compliance of airline industry standards for operations and maintenance have further diminished the margin of aviation safety.

(b) It is therefore declared to be the sense of the Congress that the Secretary of Transportation—

(1) should undertake immediate action to ensure the safety of the Nation's air transportation system by increasing the number of qualified air traffic controllers and supervisors to a minimum level of sixteen thousand two hundred and fifty, consistent with the number employed prior to 1981;

(2) should undertake immediate action to ensure the safe operation of aircraft by expanding further the Federal Aviation Administration's workforce for inspection and enforcement of aircraft operations, maintenance and reporting procedures;

(3) should consider, if necessary, restricting air traffic under the control of the Federal Aviation Administration at certain airports, or limiting the certification of new airlines, if such actions would improve aviation safety; and

(4) shall report to the Congress within ninety days after the date on which this joint resolution is enacted regarding what action will be undertaken to achieve increased air traffic safety staffing levels, the proposed timeframe for completing such actions, and any required additional funding which the Secretary considers necessary to carry out such action.

SEC. 603. REPEAL OF THE WINDFALL PROFIT TAX.

(a) IN GENERAL.—Chapter 45 of the Internal Revenue Code of 1954 (relating to windfall profit tax on domestic crude oil) is hereby repealed.

(b) EFFECTIVE DATE.—The repeal made by subsection (a) shall apply to oil removed from the premises after October 1, 1987.

(c) Provided further, That reports or filings required under chapter 45 of the Internal Revenue Code of 1954 relating to Windfall Profit Tax on domestic crude oil for oil removed from the premises after the date of enactment shall not be required as provided in the Act from and after the date of enactment of this Act unless and until the wellhead price of domestic crude oil reaches or exceeds the tier one base price as defined in the Crude Oil Windfall Profit Tax Act of 1980.

SEC. 604. POINT OF ORDER.

(a) IN GENERAL.—Section 310(f) of the Congressional Budget Act of 1974 is amended by adding at the end thereof the following new paragraph:

"(3) It shall not be in order in either the House of Representatives or the Senate to consider any resolution providing for the adjournment sine die of either House unless action has been completed on the concurrent resolution on the budget required to be reported under section 301(a) for the fiscal year beginning on October 1 of such year, and, if a reconciliation bill or resolution, or both, is required to be reported under subsection (b) of this section for such fiscal year, unless the Congress has completed action on that bill or resolution, or both.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date of the enactment of this joint resolution.

SEC. 605. REMOVAL OF THREE PERCENT THRESHOLD FOR COST-OF-LIVING ADJUSTMENTS.

(a) SHORT TITLE.—This section may be cited as the "Cost-of-Living Adjustment Reform Act of 1986".

(b) IN GENERAL.—

(1) Section 215(i) of the Social Security Act is amended by striking out "is 3 percent or more" in paragraph (1)(B) and inserting in lieu thereof "is greater than zero".

(2) Section 215(i)(1)(B) of such Act, as in effect in December 1978 and applied in certain cases under the provisions of such Act as in effect after December 1978, is amended by striking out "exceeds, by not less than 3 per centum, such Index" and inserting in lieu thereof "exceeds such Index".

(3) Section 215(i)(2)(C) of such Act is amended—

(A) by striking out clause (i) and redesignating clauses (ii) and (iii) as clauses (i) and (ii), respectively; and

(B) by striking out "under clause (ii)" in clause (ii) as so redesignated and inserting in lieu thereof "under clause (i)".

(4) Section 215(i)(2)(C) of such Act, as in effect in December 1978 and applied in certain cases under the provisions of such Act as in effect after December 1978, is amended by striking out clause (i) and by striking out "(ii)".

(5) Section 215(i)(4) of such Act is amended by inserting "and by the Cost-of-Living Adjustment Reform Act of 1986" after "Social Security Amendments of 1983".

(6) Section 215(i)(5)(A)(i) of such Act is amended by striking out "because the wage percentage increase was less than 3 percent" and inserting in lieu thereof "because there was no wage percentage increase greater than zero".

(c) EFFECTIVE DATE.—

(1) Except as otherwise provided in this subsection, the amendments made by this section shall apply with respect to cost-of-living increases determined in 1986 and all subsequent years.

(2) The amendments made by paragraphs (3) and (4) of subsection (b) shall apply with respect to months beginning after September 1986.

SEC. 606. INDIAN FISHING RIGHTS.

(a) Notwithstanding any other provision of law—

(1) income derived by an Indian from fishing, whether for commercial or subsistence purposes, shall not be subject to, or taken into account in determining, any income tax imposed by the Internal Revenue Code of 1954, by any other provision of Federal law, or by any law of a State or political subdivision of a State, and

(2) any activities conducted by any Indian in connection with fishing shall not be subject to any tax imposed by the Internal Revenue Code of 1954, by any other Federal law, or by any law of a State or political subdivision of a State,

if the rights of such Indian to fish are provided for, or secured by, any treaty or other provision of Federal law, regardless of whether such rights are limited to subsistence or commercial fishing.

(b) The provisions of subsection (a) shall apply notwithstanding any other provision of Federal law that may be enacted on or after the date of enactment of this Act, unless such subsequent provision of Federal law specifically cites this section.

SEC. 607. FOOD BANK SPECIAL NUTRITION PROJECTS.

The first sentence of section 211(d) of the Agricultural Act of 1980 (7 U.S.C. 4004(d)) is amended by striking out "a progress report on July 1, 1983, and a final report on January 1, 1984," and inserting in lieu thereof "an annual report".

SEC. 608. CONTRIBUTIONS OF AGRICULTURAL PROPERTY FOR VICTIMS OF NATURAL DISASTERS.

(a) IN GENERAL.—Subsection (e) of section 170 of the Internal Revenue Code of 1954 (relating to contributions of ordinary income and capital gain property) is amended by adding at the end thereof the following new paragraph:

"(6) SPECIAL RULE FOR CONTRIBUTIONS OF AGRICULTURAL PRODUCTS FOR VICTIMS OF NATURAL DISASTERS.—

"(A) IN GENERAL.—For purposes of this paragraph, a qualified contribution means a charitable contribution of an agricultural product by a taxpayer who produced such agricultural product, if such taxpayer is actively and regularly engaged in the trade or business of farming, but only if—

"(i) the donee is a State, political subdivision of a State, or an agency of such State or political subdivision,

"(ii) the agricultural product is to be used by the donee within the 3-month period beginning on the date on which such contribution is made for the care of individuals who have been adversely affected by a drought, flood, or other major natural disaster that occurred during the 6-month period ending on such date,

"(iii) the agricultural product is not transferred by the donee in exchange for money, other property, or services,

"(iv) the taxpayer receives from the donee a written statement certifying that the donee's use and disposition of the agricultural product will be in accordance with the provisions of clauses (ii) and (iii), and

"(v) in the case in which the agricultural product is subject to regulation under the Federal Food, Drug, and Cosmetic Act, such product fully satisfies the applicable requirements of such Act and regulations promulgated thereunder for 180 days before the date of contribution.

"(B) AMOUNT OF DEDUCTION.—Notwithstanding any other provision of this subsection, the amount allowable as a deduction under subsection (a) for any qualified contribution (as defined in subparagraph (A)) shall be an amount equal to the wholesale market value of the agricultural product reduced by the amount of any costs or expenses incurred in the production of such product and for which a deduction has been taken by the taxpayer.

"(C) DEFINITIONS.—For purposes of this paragraph—

"(i) FAIR MARKET VALUE.—The term 'fair market value' means, with respect to any agricultural product, the lowest wholesale market price for such product in the regional market nearest the taxpayer during the month in which the contribution is made.

"(ii) AGRICULTURAL PRODUCT.—The term 'agricultural product' means any hay, feed, crop, livestock, poultry, or product thereof, which is not subject to any excise tax imposed under chapters 51 and 52.".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to contributions made after June 30, 1986, in taxable years ending after June 30, 1986.

SEC. 609. DENIAL OF CERTAIN TAX BENEFITS WITH RESPECT TO ACTIVITIES IN CERTAIN FOREIGN COUNTRIES.

(a) DENIAL OF FOREIGN TAX CREDIT.—Section 901 (relating to taxes of foreign countries and of possessions of the United States) is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

"(i) DENIAL OF FOREIGN TAX CREDIT, ETC. WITH RESPECT TO CERTAIN FOREIGN COUNTRIES.—

"(1) IN GENERAL.—Notwithstanding any other provision of this part—

"(A) no credit shall be allowed under subsection (a) for any income, war profits, or excess profits taxes paid or accrued (or deemed paid under section 902 or 960) during the taxable year to any country to which this subsection applies, and

"(B) subsections (a), (b), and (c) of section 904 and sections 902 and 960 shall be applied separately with respect to income for such taxable year from sources within any country so identified.

"(2) COUNTRIES TO WHICH SUBSECTION APPLIES.—

"(A) IN GENERAL.—This subsection shall apply to any foreign country—

"(i) the government of which the United States does not recognize, unless such government is otherwise eligible to purchase defense articles or services under the Arms Export Control Act,

"(ii) with respect to which the United States has severed diplomatic relations,

"(iii) with respect to which the United States has not severed diplomatic relations but does not conduct such relations, or

"(iv) which the Secretary of State has, pursuant to section 6(j) of the Export Administration Act of 1979, as amended, designated as a foreign country which repeatedly provides support for acts of international terrorisms.

"(B) PERIOD FOR WHICH SUBSECTION APPLIES.—This subsection shall apply to any foreign country described in subparagraph (A) during the period—

"(i) beginning on the later of—

"(I) January 1, 1987, or

"(II) 6 months after such country becomes a country described in subparagraph (A), and

"(ii) ending on the date the Secretary of State certifies to the Secretary of the Treasury that such country is no longer described in subparagraph (A).

"(3) PART-YEAR RULE.—If this subsection applies to any foreign country for any period less than an entire taxable year, paragraph (1) shall be applied by taking into account only that proportion of the taxes and income described in paragraph (1) for the taxable year as the portion of the taxable year which includes such period bears to the entire taxable year.".

(b) DENIAL OF DEFERRAL OF INCOME.—

(1) GENERAL RULE.—Section 952(a) (defining subpart F income) is amended by striking out "and" at the end of paragraph (3), by striking out the period at the end of paragraph (4) and inserting in lieu thereof ", and", and by inserting immediately after paragraph (4) the following new paragraph:

"(5) the income of such corporation derived from any foreign country during any period during which section 904(i) applies to such foreign country.".

(2) INCOME DERIVED FROM FOREIGN COUNTRY.—Section 952 (defining subpart F income) is amended by adding at the end thereof the following new subsection:

"(e) INCOME DERIVED FROM FOREIGN COUNTRY.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of subsection (a)(5), including regulations which treat income paid through 1 or more entities as derived from a foreign country to which section 904(i) applies if such income was, without regard to such entities, derived from such country.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1987.

SEC. 610. DISAPPROVAL OF ACTION OF THE DISTRICT OF COLUMBIA COUNCIL.

The Congress disapproves of the action of the District of Columbia Council described as follows: The Prohibition of Discrimination in the Provision of Insurance Act of 1986 (D.C. Law 6-170); and, notwithstanding any other provision of law, D.C. Law 6-170 shall be null and void effective from June 6, 1986.

SEC. 611. MODIFICATION OF SCHEDULE UNDER "FALLBACK" PROCEDURE.

(a) IN GENERAL.—

(1) Section 274 of the Balanced Budget and Emergency Deficit Control Act (2 U.S.C. 922) is amended by striking subsection (f) and redesignating subsections (g) and (h) as subsections (f) and (g), respectively.

(2) Part E of the Balanced Budget and Emergency Deficit Control Act is amended by redesignating section 275 as section 276 and inserting after section 274 the following new section:

"SEC. 275. ALTERNATIVE SEQUESTRATION PROCEDURES.

"(a) REPORTS TO JOINT COMMITTEE.—In the event that any of the reporting procedures described in section 251 are invalidated, then any report of the Comptroller General under subsection (b) or (c)(2) of section 251 shall be transmitted to the Speaker of the House of Representatives (in this section referred to as the 'Speaker') and the President of the Senate, who shall refer the report to the Temporary Joint Committee on Deficit Reduction in accordance with subsection (c).

"(b) ESTABLISHMENT OF TEMPORARY JOINT COMMITTEE.—

"(1) Upon the invalidation of any such procedure, there is established a Temporary Joint Committee on Deficit Reduction (in this section referred to as the 'Joint Committee'), composed of the entire membership of the Committees on the Budget of the House of Representatives and the Senate. The Chairmen of such committees shall act as Co-Chairmen of the Joint Committee.

"(2) Actions taken by the Joint Committee shall be determined by a majority vote of the members representing each House.

"(3) The purposes of the Joint Committee are to receive any report referred to it pursuant to paragraph (3) or (7) of subsection (c) and to report (with respect to each such report) a joint resolution under paragraph (1) or (2) of subsection (d).

"(c) ALTERNATIVE SCHEDULE.—Notwithstanding any other provision of this Act, in the event that the reports of the Comptroller General for a fiscal year are to be transmitted to the Speaker and the President of the Senate pursuant to subsection (a)—

"(1) the Directors shall transmit the report under section 251(a)(2) for such fiscal year to the Comptroller General on August 20 of the calendar year in which the fiscal year begins (as provided in such section),

"(2) the Comptroller General shall transmit the report under section 251(b) for such fiscal year to the Speaker and the President of the Senate on August 25 of the calendar year in which the fiscal year begins (as provided in such section);

"(3) the Speaker and the President of the Senate shall refer the report of the Comptroller General under section 251(b) to the Joint Committee—

"(A) on August 25 of the calendar year in which the fiscal year begins, or

"(B) if August 25 of such year falls during an adjournment of the Congress for a period of more than three days, on the day after the last day on which either House of the Congress stands adjourned pursuant to the concurrent resolution providing for such adjournment;

"(4) the President shall issue an initial order under section 252(a) for the fiscal year after a joint resolution reported pursuant to subsection (d)(1) becomes law and before the later of—

"(A) September 2 of the calendar year in which the fiscal year begins, or

"(B) two calendar days after the day on which the joint resolution becomes law;

"(5) the Directors shall transmit the report under section 251(c)(1) for such fiscal year to the Comptroller General on the second calendar day of the fiscal year;

"(6) the Comptroller General shall transmit the report under section 251(c)(2) for such fiscal year to the Speaker and the President of the Senate on the third calendar day of such fiscal year;

"(7) the Speaker and the President of the Senate shall refer the report of the Comptroller General under section 251(c)(2) to the Joint Committee on the third calendar day of such fiscal year; and

"(8) the President shall issue a final order under section 252(b) for the fiscal year within one calendar day after a joint resolution reported pursuant to subsection (d)(2) becomes law.

"(d) JOINT RESOLUTION.—

"(1) Not later than two calendar days after the date on which the Speaker and the President of the Senate refer a report of the Comptroller General under section 251(b) to the Joint Committee (pursuant to subsection (c)(3) of this section), the Joint Committee shall report a joint resolution certifying the contents of the report.

"(2) Not later than one calendar day after the date on which the Speaker and the President of the Senate refer a report of the Comptroller General under section 251(c)(2) to the Joint Committee (pursuant to subsection (c)(7) of this section), the Joint Committee shall report a joint resolution certifying the contents of the report.

"(3)(A) In the event that any of the reporting procedures described in section 251 are invalidated, the Joint Committee may report a joint resolution affirming as law any order issued by the President under section 252 that was rendered invalid by the invalidation of such procedures.

"(B) Any joint resolution reported pursuant to this paragraph shall provide that—

"(i) the order is affirmed as of the date on which the order was issued, and

"(ii) the joint resolution affirming the order does not supersede any laws enacted after the date on which the order was issued and before the date on which the joint resolution becomes law.

"(e) PROCEDURES FOR CONSIDERATION OF JOINT RESOLUTION.—

"(1) Except as provided in paragraph (2), the provisions of section 254(a)(4) shall apply to consideration of a joint resolution reported pursuant to subsection (d).

"(2)(A) In the case of any joint resolution reported pursuant to subsection (d), debate in each House of the Congress shall be limited to two hours.

"(B)(i) In the case of a joint resolution reported to a House of the Congress pursuant to paragraph (1) or (3) of subsection (d), a vote on final passage shall be taken by such House on or before the second calendar day of session after the date on which the joint resolution is reported to that House.

"(ii) In the case of a joint resolution reported to a House of the Congress pursuant to paragraph (2) of subsection (d), a vote on final passage shall be taken by such House within one calendar day after the date on which the joint resolution is reported to that House.

"(f) DISCHARGE OF JOINT RESOLUTIONS.—Any joint resolution of the type described in paragraph (1) or (2) of subsection (d) that is introduced in either House of the Congress shall be referred to the Joint Committee. If the Joint Committee fails to report a joint resolution under such paragraph by the requisite date, any joint resolution referred to the Joint Committee pursuant to the preceding sentence shall be automatically discharged to the House in which it was introduced and shall be placed upon the appropriate calendar.

"(g) EFFECT OF ENACTMENT OF JOINT RESOLUTION.—Upon the enactment of a joint resolution under paragraph (1) or (2) of subsection (d), such joint resolution shall be deemed to be the report received by the President under subsection (b) or (c)(2) of section 251 (whichever is applicable).

"(h) DATES FOR SUBMISSION OF REPORTS AND ISSUANCE OF ORDERS.—The provisions of section 251(e) shall apply to reports submitted and orders issued in accordance with this section.".

(3) The table of contents set forth in section 200(b) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901 note) is amended by striking the item relating to section 275 and inserting in lieu thereof the following new items:

"Sec. 275. Alternative sequestration procedures.

"Sec. 276. Effective dates.".

(b) EFFECTIVE DATE.—The amendments made by this section shall become effective on the date of the enactment of this joint resolution.

SEC. 612. URANIUM ENRICHMENT CRITERIA.

Pursuant to the provisions of section 161 v. of the Atomic Energy Act of 1954, the Congress disapproves the uranium enrichment criteria submitted to Congress pursuant to such section on July 24, 1986. Notwithstanding any other provision of law, the Secretary of the Department of Energy shall not implement the uranium enrichment criteria as submitted to the Congress.

SEC. 613. COST-OF-LIVING ADJUSTMENTS IN CERTAIN FEDERAL BENEFITS.

(a) IN GENERAL.—Benefits which are payable in calendar year 1987, 1988, 1989, 1990, or 1991, under programs listed in section 257(1)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), including any cost-of-living adjustment in such benefits, shall not be subject to modification, suspension, or reduction in such calendar year pursuant to a Presidential order issued under such Act.

(b) DEFINITION.—For purposes of this section, the term "cost-of-living adjustment" means any increase or change in the amount of a benefit or in standards relating to such benefit under any provision of Federal law which requires such increase or change as a result of any change in the Consumer Price Index (or any component thereof) or any other index which measures costs, prices, or wages.

SEC. 614. LIMITATION ON RECOMMENDED INCREASES IN THE PUBLIC DEBT LIMIT.

(a) IN GENERAL.—Section 1105(c) of title 31, United States Code, is amended—

(1) by striking "The President" the first place it appears and inserting in lieu thereof "Notwithstanding any other provision of law, the President",

(2) by inserting "(other than action that would require an increase in the borrowing authority or an increase in the limit imposed by section 3101(b) of this title by more than the maximum deficit amount for the fiscal year for which the budget is submitted)" after "action" the first place it appears, and

(3) by adding at the end the following new paragraph:

"(2) For purposes of this subsection, the term 'maximum deficit amount' means with respect to a fiscal year—

"(A) the maximum deficit amount determined for that fiscal year under section 3(7) of the Congressional Budget and Impoundment Control Act of 1974, or

"(B) in the case of any fiscal year beginning after September 30, 1991, zero.".

(b) APPLICATION.—The amendment made by subsection (a) shall apply to fiscal years beginning after September 30, 1987.

SEC. 615. CIVIL SERVICE RETIREMENT AND DISABILITY FUND.

(a) INVESTMENT AND RESTORATION OF THE FUND.—Section 8348 of title 5, United States Code, is amended by adding at the end the following new subsection:

"(j)(1) Notwithstanding subsection (c) of this section, the Secretary of the Treasury may suspend additional investment of amounts in the Fund if necessary to ensure that the public debt of the United States does not exceed the public debt limit.

"(2) Any amounts in the Fund which, solely by reason of the public debt limit, are not invested shall be invested by the Secretary of the Treasury as soon as such investments can be made without exceeding the public debt limit.

"(3) Upon expiration of the debt issuance suspension period, the Secretary of the Treasury shall immediately issue to the Fund obligations under chapter 31 of title 31 that (notwithstanding subsection (d) of this section) bear such interest rates and maturity dates as are necessary to ensure that, after such obligations are issued, the holdings of the Fund will replicate to the maximum extent practicable the obligations that would be held by the Fund if the debt issuance suspension period had not occurred.

"(4) On the first normal interest payment date after the expiration of any debt issuance suspension period, the Secretary of the Treasury shall pay to the Fund, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Secretary to be equal to the excess of—

"(A) the net amount of interest that would have been earned by the Fund during such debt issuance suspension period if—

"(i) amounts in the Fund that were not invested during such debt issuance suspension period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to the Fund which occurred during such debt issuance suspension period solely by reason of the public debt limit had not occurred, over

"(B) the net amount of interest actually earned by the Fund during such debt issuance suspension period.

"(5) For purposes of this subsection and subsections (k) and (l) of this section—

"(A) the term 'public debt limit' means the limitation imposed by section 3101(b) of title 31; and

"(B) the term 'debt issuance suspension period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) SALES AND REDEMPTIONS BY THE FUND.—Section 8348 of title 5, United States Code, as amended by subsection (a), is further amended by adding at the end the following new subsection:

"(k) The Secretary of the Treasury may sell or redeem securities, obligations, or other invested assets of the Fund only for the purpose of enabling the Fund to make payments authorized by the provisions of this subchapter or chapter 84 of this title or related provisions of law. If the Fund holds any amounts which, by reason of the public debt limit, are not invested, the Secretary may nevertheless make such sales and redemptions if, and only to the extent, necessary to ensure that such payments are made in a timely manner.".

(c) REPORTS REGARDING THE OPERATION AND STATUS OF THE FUND.—Section 8348 of title 5, United States Code, as amended by subsections (a) and (b), is further amended by adding at the end the following new subsection:

"(l)(1) The Secretary of the Treasury shall report to Congress on the operation and status of the Fund during each debt issuance suspension period for which the Secretary is required to take action under paragraph (3) or (4) of subsection (j) of this section. The report shall be submitted as soon as possible after the expiration of such period, but not later than the date that is 30 days after the first normal interest payment date occurring after the expiration of such period. The Secretary shall concurrently transmit a copy of such report to the Comptroller General of the United States.

"(2) Whenever the Secretary of the Treasury determines that, by reason of the public debt limit, the Secretary will be unable to fully comply with the requirements of subsection (c) of this section, the Secretary shall immediately notify Congress of the determination. The notification shall be made in writing.".

SEC. 616. TRANSPORTING OF HAY.

Notwithstanding any other provision of law:

(a) The Secretary of Agriculture shall reimburse farmers or ranchers for the cost incurred by such farmers or ranchers for transporting hay during the period July 1, 1985, to June 1, 1986, as a result of a natural disaster caused by flood, excessive moisture, or drought;

(b) The Secretary shall reimburse such farmers or ranchers in an amount which does not exceed 80 percent of the cost of such transportation (but not to exceed $50 per ton);

(c) The Secretary shall carry out the provisions of this through the Commodity Credit Corporation.

SEC. 617. PROJECTED PAYMENT RATE.

Section 22(b)(1) of Public Law 99-349 is amended by deleting "40 percent of the projected payment rate" and inserting in lieu thereof "100 percent of the projected payment rate".

SEC. 618. DEFER LOAN REPAYMENTS AND FORECLOSURES.

It is the sense of Congress that with respect to farm and ranch borrowers who were adversely affected by drought disaster in 1985 or flood disaster in 1985 and 1986—

(1) the Secretary of Agriculture should exercise the authority provided under section 331A of the Consolidated Farm and Rural Development Act and instruct the Farmers Home Administration to defer loan repayments and forgo foreclosures in cases where such farm and ranch borrowers are unable to make loan payments in full due to no fault of their own; and

(2) the lending institutions of the Farm Credit System and commercial lending institutions are encouraged, insofar as practicable, to adopt lenient lending, forbearance, and foreclosure policies, and to the maximum extent possible participate and cooperate with Federal and State lenders in assistance programs, with respect to such borrowers who are under financial stress due to no fault of their own.

SEC. 619. SOYBEAN PRICE SUPPORT.

The Senate finds that:

(a) Soybean production and processing are two of the fastest growing sectors in agriculture, with production having increased seven fold over the last thirty years;

(b) Soybeans rank number two in value in the United States for all crops grown, and nearly 50 percent of all soybeans grown in the United States are produced on farms harvesting 50 acres or less;

(c) One-fifth of all United States cropland is planted to soybeans, and soybeans account for over 30 percent of all land in production in Appalachia, over 40 percent in the southeast, and over 50 percent in the delta States;

(d) The United States is the leading exporter of soybeans, exporting over 40 percent of the soybean crop each year, and over 15 percent of the value of all United States agricultural exports is due to the sale of soybeans, oil, and meal;

(e) It is widely speculated that the Secretary of Agriculture will announce a new formula price support loan of $4.77 per bushel for soybeans in August 1986, and that required budget cuts could push actual loan prices lower for 1987 soybeans;

(f) Trading of soybeans is currently hovering near the $5.02 loan rate, USDA soybean acreage figures for 1986 were higher than predicted by trade analysts thus putting further pressure on prices, and export sales are slow with foreign buyers anticipating lower soybean prices with the expected lowering of the loan rate;

(g) United States soybean stocks are likely to remain near the 1985-1986 record level of 14,000,000 metric tons (515,000,000 bushels) and world soybean stocks are forecast to reach a record 23,000,000 metric tons, and the anticipation of continued large supplies led the Secretary to announce a 12-month extension of 1985 price support loans in order to encourage continued on-farm storage, thereby relieving pressure on commercial storage;

(h) Although world soybean exports are forecast to show a slight gain, United States soybean exports are forecast to remain near current levels during 1986-1987, and Brazil and Paraguay are expected to capture the small amount of projected gain;

(i) Although drought conditions affect areas of the South, currently less than 5 percent of the United States soybean production lies within the drought area, and this has no significant impact on prices;

(j) Soybeans are an important crop grown on 550,000 farms in the United States, and a drop in prices, whether brought on by higher than expected production, level exports sales, a decrease in the loan rate, or a combination of these, will have a serious negative impact on net farm income;

(k) In the Food Security Act of 1985, Public Law 99-198, under section 801, the Secretary is directed to establish the price support rate for soybeans at $5.02 per bushel for 1986 and 1987, and the Secretary, at his discretion, may reduce the support rate no more than 5 percent per year nor below $4.50 per bushel in an effort to maintain domestic and export sales;

(l) Under section 801 the Secretary may authorize the use of a marketing loan to assist in the maintenance of the "competi-

*tive relationship of soybeans and domestic and export markets . . .";*

*(m) Under the authority of the Commodity Credit Corporation Charter Act, the Secretary has the authority to implement for soybeans a so-called producer option payment program, under which the Government will pay (in cash or certificate) a producer not to put his soybeans into loan or will pay a producer who has a loan to opt out of the loan; and in either case the producer would sell his soybeans at the world price, therefore, it is the sense of the Senate, That:*

*(1) the Secretary of Agriculture should institute a marketing loan program for soybeans as authorized in the 1985 Food Security Act, or a so-called producer option payment program; and*

*(2) The Secretary should maintain the formula price support loan rate for soybeans at $5.02 per bushel.*

*SEC. 620. SURETY BOND GUARANTEES.*

*Section 20(u)(4) of the Small Business Act is amended by striking out "$1,050,000,000" and inserting in lieu thereof "$1,200,000,000".*

*SEC. 621. WHEAT CROP LOAN LEVELS.*

*Section 107D(c)(1)(E)(ii) of the Agricultural Act of 1949 is amended by striking out "marketing year for such crop" and inserting in lieu thereof "the first five months of the marketing year for the 1986 crop and the marketing year for each of the 1987 through 1990 crops".*

*SEC. 622. DEPARTMENT OF THE TREASURY COSTS OF SOCIAL SECURITY SERVICES.*

*Subsection (g) of section 201 of the Social Security Act (42 U.S.C. 401(g)) is amended—*

*(1) in paragraph (1)(A)(ii), by inserting after "(ii)" the following:*

*"the sum derived by adding (I) the amounts required to be expended from the Trust Funds for such three-month period pursuant to paragraph (5), and (ii)", and*

*(2) by adding at the end of the subsection the following:*

*"(5) Notwithstanding any other provision of law, the Managing trustee is directed to pay from each of the Trust Funds to the Department of the Treasury, for allocation to the Fiscal Service of such Department, the amounts estimated by the Managing Trustee which will be expended by such Service during the three-month period referred to in paragraph (1)(I)(i) in connection with the nonpersonnel costs of administration of title II relating to such Trust Funds. Payments made pursuant to this paragraph shall be finally accounted for in coordination with the final accounting provided for in paragraph (1)(A) and shall be subject to annual audit. Proper adjustments shall be made in payments subsequently made pursuant to this paragraph to the extent prior payments were greater than or less than actual expenditures by such Services.".*

*SEC. 623. EXEMPT PROGRAMS AND ACTIVITIES.*

*(a) IN GENERAL.—Section 255(g)(1) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)) is amended by inserting after the item relating to Compensation of the President the following new item:*

*"Dual benefits payments account (60-0111-0-1-601);".*

*(b) APPLICATION.—The amendment made by subsection (a) shall apply to fiscal years beginning after September 30, 1986.*

*SEC. 624. OFFSETTING RECEIPTS UNDER BALANCED BUDGET AND EMERGENCY DEFICIT CONTROL ACT OF 1985.*

*(a) Congress finds:*

*(1) that United States competitiveness depends on the productivity and creativity that is promoted and protected by the proper administration of patent, copyright, and trademark laws;*

*(2) that the user fees paid by those applying for patents and registering claims for copyrights and trademarks are an important source of revenue for the proper administration of intellectual property laws;*

*(3) that under the current interpretation of the Gramm-Rudman-Hollings statute user fees are included in the baseline for purposes of sequestration;*

*(4) that this interpretation, by reducing taxpayer support as patent, copyright and trademark user fees increase, may discourage use of the intellectual property law system, and have adverse effects on creativity and innovation.*

*(b) The General Accounting Office is directed to conduct a study of the budgetary treatment of user fees in the Patent and Trademark Office and Copyright Office, and report to Congress within six months of the date of enactment to show how such budgetary treatment and user fee policy may affect the proper administration of patent, copyright and trademark laws.*

*(c) The General Accounting Office is further directed to include in such study an examination of offsetting collections credited to appropriation accounts, offsetting receipts, and governmental receipts dedicated to trust funds under the Balanced Budget and Emergency Deficit Control Act of 1985. The study shall identify the amount of spending that is supported by such collections and receipts and discuss the treatment of such spending under a sequester order.*

Mr. SIMPSON. Mr. President, I want to commend Senator PACKWOOD and Senator LONG for their work on the debt limit. Senator HEINZ managed the bill with great skill, and we appreciate that very much.

The debt limit extension consumed the dates of July 23, 24, 25, 28, 30, 31, and August 1 and 9. We had 8 days of consideration of that measure, and the time consumed was 41 hours and 10 minutes. There were 11 rollcall votes; 37 amendments and motions were considered.

I ask unanimous consent to have printed in the RECORD the statistics in connection with this bill.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEBT LIMIT

Measure: H.J. Res. 668.
Dates considered: July 23-24-25-28-30-31, Aug. 1-9.
(Total days considered): 8.
Time Consumed (as of 9:50 P.M.) *41* hr. *10* min.
Rollcall votes: 11.
Amendments plus motions considered: 37.
Disposition of amendments plus motions:
Agreed to 27.
Rejected: 1.
Tabled: 3.
Withdrawn: 1.
Not Acted on 5.

## DEPARTMENT OF DEFENSE AUTHORIZATION BILL

Mr. SIMPSON. Mr. President, I thank Senator GOLDWATER and Senator NUNN for the extraordinary efforts on the Department of Defense authorization bill. We all know exactly how we feel about those two fine gentlemen. They bring us great pride in this institution, and I commend them both.

BARRY GOLDWATER is a very special Senator. The tribute paid to him tonight by Senator NUNN is evidence of the comity and affection we have for one another.

Senator GOLDWATER put aside his deep, personal, physical discomfort and kept plugging away on an issue he wanted very badly, and Senator NUNN was there to assist him, and they did a perfect job together.

Mr. BYRD. Mr. President, I wish to associate myself with the remarks of the distinguished acting Republican leader.

Mr. NUNN and Mr. GOLDWATER make a good team, and that was demonstrated throughout the action on this bill. They were knowledgeable and skillful.

May I say that the debate on this DOD bill is the kind of high-level, substantive, probing, thoughtful debate that makes this Senate look like a deliberative body. There were very few quorum calls during the consideration of that bill.

Mr. SIMPSON. Mr. President, I concur in the words of the Democratic leader.

## COMMENDATION FOR ACCOMPLISHMENT OF THE UNANIMOUS-CONSENT AGREEMENT

Mr. SIMPSON. Mr. President, with respect to the unanimous-consent agreement, the occupant of the chair, Mr. STEVENS, has been here many years longer than I, and the Democratic leader longer than that. But in my 8 years here, I have never seen a more interesting challenge for us all than on that particular issue.

I want to commend Senator DOLE, Senator BYRD, and Senator CRANSTON particularly, because where we were headed on that was to an arena of continual discord and suspicion and distrust. That can certainly be destructive of a legislative body, regardless of who is in the majority or who is in the minority.

For a time during the last days before we came to this arrangement, we looked like a bunch of Wall Street lawyers on a leverage buyout as we ravelled around every word, every letter, and both doing it to each other—I did not say with each other.

Finally, in these exhaustive procedures, the Democratic leader—indeed, that would be the word—worked until 2 or 3 in the morning, going through the documents. Then they would come back to us, and we would do the same.

I think we see a theme—the theme is there, the essence is there—that we will accept each other's word in our deliberations as we propound unanimous-consent agreements, as in the

past. I know that the occupant of the chair, Senator STEVENS, is familiar with that, as is the Democratic leader.

The object is to give people a chance to vote, and that is what a legislature has to do. Sometimes we lose a vote, and that is tough, but that is what the game is about.

I thank Senator DOLE very much for a splendid job, as well as Senator BYRD, Senator CRANSTON, Senator KENNEDY, Senator LUGAR, Senator MATTINGLY, and Senator SASSER. They were the participants in the final shot, and they came to an accommodation for everyone, realizing the exigencies of the day and the pending recess time.

We do not have a Rules Committee over here that monitors our floor schedule. We do have a rule, though—it is called "Friday is coming" or "recess is coming," and that is a modified closed rule of some kind.

We had some brutal issues that confronted us, and we resolved that, and it was done with great skill by the participants. I was proud to be a part of it.

Mr. BYRD. Mr. President, will the distinguished acting Republican leader yield?

Mr. SIMPSON. I yield.

Mr. BYRD. Mr. President, I want to add to the Senator's comments. The distinguished acting Republican leader has enumerated the distinguished majority leader, together with others. I do not recall whether Senator PELL's name was mentioned, or Senator LUGAR, Senator WEICKER, Senator HARKIN, Senator KERRY, Senator MELCHER. There were a great number of Senators on both sides who participated in the effort.

I thank the distinguished acting Republican leader for his kind, charitable, and overly gracious remarks concerning me. I think we all rejoice that an agreement has been reached.

## ORDERS FOR MONDAY, AUGUST 11, 1986

Mr. SIMPSON. Mr. President, after consulting the Democratic leader, I ask unanimous consent that when the Senate convenes on Monday, August 11, 1986, the reading of the Journal be dispensed with; that no resolutions come over under the rule; that the call of the calendar be dispensed with; that following the recognition of the two leaders under the standing order, there be special orders in favor of Senators PROXMIRE and MELCHER for not to exceed 5 minutes each, to be followed by a period for the transaction of routine morning business, not to extend beyond 10 a.m., with Senators permitted to speak therein for not more than 5 minutes each; provided, further, that the morning hour be deemed to have expired.

The PRESIDING OFFICER. Without objection, it is so ordered.

□ 2200

## FEDERAL TECHNOLOGY TRANSFER ACT

Mr. SIMPSON. Mr. President, after conferring with the Democratic leader, I ask unanimous consent that the Senate now turn to Calendar No. 662, H.R. 3773, the Federal Technology Transfer Act.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Wyoming?

Mr. BYRD. There is no objection.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

H.R. 3773 to amend the Stevenson-Wydler Technology Innovation Act of 1980 to promote technology transfer by authorizing Government-operated laboratories to enter into cooperative research agreements and by establishing a Federal Laboratory Consortium for Technology Transfer within the National Science Foundation, and for other purposes,

The Senate proceeded to consider the bill which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike out all after the enacting clause, and insert the following:

That this Act may be cited as the "Federal Technology Transfer Act of 1986".

UTILIZATION OF FEDERAL TECHNOLOGY

SEC. 2. (a) Section 11(a) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(a)) is amended—

(1) by inserting "(1)" after "POLICY.—"; and

(2) by adding at the end thereof the following:

"(2) Each laboratory director shall ensure that efforts to transfer technology are considered positively in laboratory job descriptions, employee promotion policies, and evaluation of the job performance of scientists and engineers in the laboratory.".

(b)(1) Section 11(b) of such Act (15 U.S.C. 3710(b)) is amended—

(A) by striking "a total amount budget exceeding $20,000,000 shall provide at least one professional individual full-time" and inserting in lieu thereof "200 or more full-time scientific, engineering, and related technical positions shall provide one or more full-time evaluation positions";

(B) by striking "requirements set forth in (1) and/or (2) of this subsection" and inserting in lieu thereof "requirement set forth in clause (2) of the preceding sentence"; and

(C) by striking "either requirement (1) or (2)" in the last sentence and inserting in lieu thereof "such requirement".

(2) Section 11(c) of such Act (15 U.S.C. 3710(c)) is amended—

(A) by amending paragraph (1) to read as follows:

"(1) to prepare application assessments for selected research and development projects in which that laboratory is engaged and which in the opinion of the laboratory may have potential commercial applications;";

(B) by striking "the Center for the Utilization of Federal Technology" in paragraph (3) and inserting in lieu thereof "the National Technical Information Service, the Federal Laboratory Consortium for Technology Transfer,", and by striking "; and" inserting in lieu thereof a semicolon;

(C) by striking "in response to requests from State and local government officials." in paragraph (4) and inserting in lieu thereof "to State and local government officials; and"; and

(D) by adding after paragraph (4) the following:

"(5) to participate, where feasible, in regional, State, and local government programs designed to facilitate or stimulate the transfer of technology for the benefit of the region, State, or local jurisdiction in which the Federal laboratory is located.".

(c) Section 11(d) of such Act (15 U.S.C. 3710(d)) is amended—

(1) by striking all from "(d)" through "shall—" and inserting in lieu thereof the following:

"(d) DISSEMINATION OF TECHNICAL INFORMATION.—The National Technical Information Service shall—";

(2) by striking paragraph (2);

(3) by striking "existing" in paragraph (3), and redesignating such paragraph as paragraph (2);

(4) by striking paragraph (4) and inserting in lieu thereof the following:

"(3) receive requests for technical assistance from State and local governments, respond to such requests with published information available to the Service, and refer such requests to the Federal Laboratory Consortium for Technology Transfer to the extent that such requests require a response involving more than the published information available to the Service;";

(5) by redesignating paragraphs (5) and (6) as paragraphs (4) and (5), respectively; and

(6) by striking "(c)(4)" in paragraph (4), as so redesignated, and inserting in lieu thereof "(c)(3)".

(d) Section 11(e) of such Act (15 U.S.C. 3710(e)) is amended by striking "Center for the Utilization of Federal Technology" and inserting in lieu thereof "Secretary".

ESTABLISHMENT OF FEDERAL LABORATORY CONSORTIUM FOR TECHNOLOGY TRANSFER

SEC. 3. Section 11 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710), is amended by section 2 of this Act, is further amended—

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d) the following:

"(e) ESTABLISHMENT OF FEDERAL LABORATORY CONSORTIUM FOR TECHNOLOGY TRANSFER.—(1) There is hereby established the Federal Laboratory Consortium for Technology Transfer (hereinafter referred to as the 'Consortium') which, in cooperation with Federal laboratories and private sector, shall—

"(A) develop and, with the consent of the Federal laboratory concerned, administer techniques, training courses, and materials concerning technology laboratory employees regarding the commercial potential of laboratory technology and innovations;

"(B) furnish advise and assistance requested by Federal agencies and laboratories for use in their technology transfer programs (including the planning of seminars for small business and other industry);

"(C) provide a clearinghouse, at the laboratory level, for requests for technical assistance from States and units of local governments, businesses, industrial development organizations, not-for-profit organizations (including universities), Federal agencies and laboratories, and other persons, and—

"(i) to the extent that a response to such requests can be made with published information available to the National Technical Information Service, refer such requests to that Service; and

"(ii) otherwise refer such requests to the appropriate Federal laboratories and agencies;

"(D) facilitate communication and coordination between Offices of Research and Technology Applications of Federal laboratories;

"(E) utilize (with the consent of the agency involved) the expertise and services of the National Science Foundation, the Department of Commerce, the National Aeronautics and Space Administration, and other Federal agencies, as necessary;

"(F) with the consent of any Federal laboratory, facilitate the use by such laboratory of appropriate technology transfer mechanisms such as personnel exchanges and computer-based systems;

"(G) with the consent of any Federal laboratory, assist such laboratory to establish programs, such as technical volunteer services, for the purpose of providing technical assistance to communities related to such laboratory; and

(H) facilitate communication and cooperation between Office of Research and Technology Applications of Federal laboratories and regional, State, and local technology transfer organizations.

"(2) The membership of the Consortium shall consist of the Federal laboratories described in clause (1) of subsection (b) and such other laboratories as may choose to join the Consortium. The representatives to the Consortium shall include a senior staf member of each Federal laboratory which is a member of the Consortium and a representative appointed from each Federal agency with one or more member laboratories.

"(3) The representatives to the Consortium shall elect a Chairman of the Consortium.

"(4) The Director of the National Bureau of Standards shall provide the Consortium, on a reimbursable basis, with administrative services, such as office space, personnel, and support services of the Bureau, as requested by the Consortium and approved by such Director.

"(5) Not later than 1 year after the date of the enactment of this subsection, and every year thereafter, the Chairman of the Consortium shall submit a report to the President, to the appropriate authorization and appropriation committees of both Houses of the Congress, and to each agency with respect to which a transfer of funding is made (for the fiscal year or years involved) under paragraph (6), concerning the activities of the Consortium and the expenditures made by it under this subsection during the year for which the report is made.

"(6)(A) Subject to subparagraph (B), an amount equal to 0.005 percent of that portion of the research and development budget of each Federal agency that is to be utilized by the laboratories of such agency for a fiscal year referred to in subparagraph (B)(ii) shall be transferred by such agency to the National Bureau of Standards at the beginning of the fiscal year involved. Amounts so transferred shall be provided by the Bureau of the Consortium for the purpose of carrying out activities of the Consortium under this subsection.

"(B) A transfer may be made by any Federal agency under subparagraph (A), for any fiscal year, only if—

"(i) the amount so transferred by the agency (as determined under such subparagraph) would exceed $10,000; and

"(ii) such transfer is made with respect to the fiscal year 1987, 1988, 1989, 1990, or 1991.

"(C) The heads of Federal agencies and their designees, and the directors of Federal laboratories, may provide such additional support for operations of the Consortium as they consider appropriate.".

FUNCTIONS OF THE SECRETARY OF COMMERCE

SEC. 4. Section 11 of such Act (15 U.S.C. 3710), as amended by this Act, is further amended by adding at the end thereof the following:

"(g) FUNCTIONS OF THE SECRETARY.—(1) The Secretary, in consultation with other Federal agencies, may—

"(A) make available to interested agencies the expertise of the Department of Commerce regarding the commercial potential of inventions and methods and options for commercialization which are available to Federal laboratories, including research and development limited partnerships;

"(B) develop and disseminate to appropriate agency and laboratory personnel model provisions for use on a voluntary basis in cooperative research and development arrangements; and

"(C) furnish advice and assistance, upon request, to Federal agencies concerning their cooperative research and development programs and projects.

"(2) Two years after the date of enactment of this subsection, and every 2 years thereafter, the Secretary shall submit a report to the President and Congress on the use by the agencies and the Secretary of the authorities specified in this Act. Other Federal agencies shall, to the extent permitted by law, provide the Secretary with all information necessary to prepare such reports.".

COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS

SEC. 5. The Stevenson-Wydler Technology Innovation Act of 1980 is amended by redesignating sections 12 through 15 as sections 15 through 18, respectively, and by inserting after section 11 the following:

"SEC. 12. COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS.

"(a) GENERAL AUTHORITY.—(1) Each Federal agency may permit the director of any of its Government-operated Federal laboratories—

"(A) to enter into cooperative research and development arrangements (subject to such regulations or review procedures as the agency considers appropriate) with other Federal agencies, units of State or local government, industrial organizations (including corporations, partnerships, and limited partnerships), public and private foundations, non-profit organizations (including universities), or other persons (including licensees of inventions owned by the Federal agency); and

"(B) to negotiate licensing agreements under section 207 of title 35, United States Code, or other authorities for Government-owned inventions made at the laboratory and other inventions of Federal employees that may be voluntarily assigned to the Government.

"(2) Under arrangements entered into pursuant to paragraph (1), a laboratory may—

"(A) accept funds, services, and property from collaborating parties and provide services and property to collaborating parties;

"(B) grant or agree to grant in advance to a collaborating party patent licenses, assignments; or options thereto, in any invention made by a Federal employee under the arrangement, retaining such rights as the Federal agency considers appropriate;

"(C) waive, in whole or in part, any right of ownership which the Government may have under any other statute to any inventions made by a collaborating party or employee of a collaborating party under the arrangement; and

"(D) to the extent consistent with any applicable agency requirements, permit employees or former employees to the laboratory to participate in efforts to commercialize inventions they made while in the service of the United States.

"(3) Each agency shall maintain a record of all agreements entered into under this section.

"(b) DEFINITION.—As used in this section, the term—

"(1) 'cooperative research and development agreement' means any agreement between one or more Federal laboratories and one or more non-Federal parties under which the Government provides personnel, services, facilities, equipment, or other resources (but not funds to non-Federal parties) and the non-Federal parties provide funds, personnel, services, facilities, equipment, or other resources toward the conduct of specified research or development efforts which are consistent with the missions of the agency, except that such term does not include a procurement contract or cooperative agreement as those terms are used in sections 6303, 6304, and 6305 of title 31, United States Code; and

"(2) 'laboratory' means a facility or group of facilities owned, or otherwise used by a Federal agency, a substantial purpose of which is the performance of research and development by employees of the Federal Government.".

"(c) RELATIONSHIP TO OTHER LAWS.—Nothing in this section is intended to limit or diminish existing authorities of any agency.".

REWARDS FOR SCIENTIFIC, ENGINEERING AND TECHNICAL PERSONNEL OF FEDERAL AGENCIES

SEC. 6. The Stevenson-Wydler Technology Innovation Act of 1980, as amended by this Act, is further amended by inserting after section 12 the following:

"SEC. 13. REWARDS FOR SCIENTIFIC, ENGINEERING, AND TECHNICAL PERSONNEL OF FEDERAL AGENCIES.

"(a) CASH AWARDS PROGRAM.—The head of each Federal agency that is making expenditures at a rate of more than $50,000,000 per fiscal year for research and development in its Government-operated laboratories shall use the appropriate statutory authority to develop and implement a cash awards program to reward its scientific, engineering, and technical personnel for—

"(1) inventions, innovations, or other outstanding scientific or technological contributions of value to the United States due to commercial applications or due to contributions to missions of the Federal agency or the Federal Government; and

"(2) exemplary activities that promote the domestic transfer of science and technology

developed within the Federal Government and result in utilization of such science and technology by American industry or business, universities, State or local governments, or other non-Federal parties.

"(b) PAYMENT OF ROYALTIES.—Any royalties or other income received by an agency from the licensing or assignment of inventions under this section or under section 207 of title 35, United States Code, or other authority shall be retained by the agency whose laboratory produced the invention, except that beginning with fiscal year 1988, such royalties or other income shall be subject to appropriations, and shall be disposed of as follows:

"(1) At least 15 percent of the royalties or other income received each year by the agency on account of any invention shall be paid to the inventor or coinventors if they were employees of the agency at the time the invention was made. Payments made under this paragraph are in addition to the regular pay of the employee and to any awards made to that employee, and such payments shall not affect the entitlement or limit the amount of the regular pay, annuity, or other awards to which the employee is otherwise entitled or for which the employee is otherwise eligible.

"(2) The balance of any royalties or related income earned during any fiscal year after paying the inventors' portions under paragraph (1) shall be transferred to the agency's Government-operated laboratories with a substantial percentage being returned to the laboratories whose inventions produced the royalties or income. Such royalties or income may be retained by the laboratory up to the limits specified in this paragraph, and used—

"(A) for mission-related research and development of the laboratory;

"(B) to support development and education programs for employees of the laboratory;

"(C) to reward employees of the laboratory for contributing to the development of new technologies and assisting in the transfer of technology to the private sector, and for inventions of value to the Government that will not produce royalties;

"(D) to further scientific exchange to and from the laboratory; and

"(E) for payment of patenting costs and fees and other expenses incidental to promoting, administering, and licensing inventions, including the fees or costs for services of other agencies or other persons or organizations for invention management and licensing services.

If the balance for any laboratory after paying the inventors' shares under paragraph (1) exceeds 5 percent of the annual budget of the laboratory, 75 percent of the excess shall be paid to the Treasury of the United States and the remaining 25 percent shall be used for the purposes listed in subparagraphs (A) through (E), by the end of the fiscal year subsequent to the one in which they were received. Any funds not so used or obligated by the end of such fiscal year shall be paid to the Treasury of the United States.

"(c) ASSIGNED INVENTIONS.—If the invention was one assigned to the agency either (1) by a contractor, grantee, or the recipient of a cooperative agreement of the agency, or (2) by an employee of the agency that was not working in the laboratory at the time the invention was made, the agency unit that funded or employed or assigned the assignee shall, for purposes of this section, be considered to be a laboratory.

"(d) REPORTS.—In making their annual budget submissions, Federal agencies shall submit to the appropriate authorization and appropriations committees of both Houses of the Congress summaries of the amount of royalties or other income received and expenditures made (including inventor awards) under this section.".

EMPLOYEE ACTIVITIES

SEC. 7. The Stevenson-Wydler Technology Innovation Act of 1980, as amended by this Act, is further amended by inserting after section 13 the following:

"SEC. 14. EMPLOYEE ACTIVITIES.

"(a) IN GENERAL.—If a Federal agency which has the right of ownership to an invention under this Act does not intend to file for a patent application or otherwise to promote commercialization of such invention, the agency may allow the inventor, if the inventor is a Government employee or former employee who made the invention during the course of employment with the Government, to retain title to the invention (subject to reservation by the Government of a nonexclusive, nontransferable, irrevocable, paid up license to practice or have practiced the invention throughout the world by or on behalf of the Government). In addition, the agency may condition the inventor's right to title on the timely filing of a patent application in cases when the Government determines that it has or may have a need to practice the invention.

"(b) DEFINITION.—For purposes of this section, Federal employees include 'special Government employees' as defined in section 202 of title 18, United States Code.

"(c) RELATIONSHIP TO OTHER LAWS.—Nothing in this section is intended to limit or diminish existing authorities of any agency.".

MISCELLANEOUS AND CONFORMING AMENDMENTS

SEC. 8. (a) Section 10 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3709) is repealed.

(b)(1) Section 3(2) of such Act (15 U.S.C. 3702(2)) is amended by striking "centers for industrial technology" and inserting in lieu thereof "cooperative research centers".

(2) Section 4 of such Act (15 U.S.C. 3703) is amended—

(A) by striking "Industrial Technology" in paragraph (1) and inserting in lieu thereof "Productivity, Technology, and Innovation";

(B) by striking "Director' means the Director of the Office of Industrial Technology" in paragraph (3) and inserting in lieu thereof "'Assistant Secretary' means the Assistant Secretary for Productivity, Technology, and Innovation";

(C) by striking "Centers for Industrial Technology" in paragraph (4) and inserting in lieu thereof "Cooperative Research Centers";

(D) by striking paragraph (6), and redesignating paragraphs (7) and (8) as paragraphs (6) and (7), respectively; and

(E) by striking "owned and funded" in paragraph (6), as so redesignated, and inserting in lieu thereof "owned, leased, or otherwise used by a Federal agency and funded".

(3) Section 5(a) of such Act (15 U.S.C. 3704(a)) is amended by striking "Industrial Technology" and inserting in lieu thereof "Productivity, Technology, and Innovation".

(4) Section 5(b) of such Act (15 U.S.C. 3704(b)) is amended by striking "DIRECTOR" and inserting in lieu thereof "ASSISTANT SECRETARY", and by striking all from "a Director of the Office" and inserting in lieu thereof "an Assistant Secretary for Productivity, Technology, and Innovation.".

(5) Section 5(c) of such Act (15 U.S.C. 3704(c)) is amended by striking "the Director" each place it appears and inserting in lieu thereof "the Assistant Secretary".

(6) The heading of section 6 of such Act is amended to read as follows:

"SEC. 6. COOPERATIVE RESEARCH CENTERS.".

(7) Section 6(a) of such Act (15 U.S.C. 3705(a)) is amended by striking "Centers for Industrial Technology" and inserting in lieu thereof "Cooperative Research Centers".

(8) Section 6(b)(1) of such Act (15 U.S.C. 3705(b)(1)) is amended by striking "basic and applied".

(9) Section 6(e) of such Act (15 U.S.C. 3705(e)) is amended to read as follows:

"(e) RESEARCH AND DEVELOPMENT UTILIZATION.—In the promotion of technological innovation and commercialization of research development efforts by Centers under this section, chapter 18 of title 35, United States Code, shall apply.".

(10) Section 6(f) of such Act (15 U.S.C. 3705(f)) is repealed.

(11) The heading of section 8 of such Act is amended by striking "CENTERS FOR INDUSTRIAL TECHNOLOGY" and inserting in lieu thereof "COOPERATIVE RESEARCH CENTERS".

(12) Section 8(a) of such Act (15 U.S.C. 3707(a)) is amended by striking "Centers for Industrial Technology" and inserting in lieu hereof "Cooperative Research Centers".

(c) Section 4 of such Act (15 U.S.C. 3703), as amended by subsection (b)(2) of this section, is further amended by adding at the end thereof the following:

"(8) 'Federal agency' means any executive agency as defined in section 105 of title 5, United States Code, and the military departments, as defined in section 102 of such title.

"(9) 'Invention' means any invention or discovery which is or may be patentable or otherwise protected under title 35, United States Code, or any novel variety of plant which is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321 et seq.).

"(10) 'Made', when used in conjunction with any invention, means the conception or first actual reduction to practice of such invention.".

(d)(1) Such Act (as amended by this Act) is further amended by redesignating sections 11 through 18 as sections 10 through 17, respectively.

(2)(A) Section 5(d) of such Act (15 U.S.C. 3704(d)) is amended by inserting "(as then in effect)" after "Act" the second time it appears.

(B) Section 8(a) of such Act (15 U.S.C. 3707(a)) is amended by striking the last sentence.

(C) Section 9(d) of such Act (15 U.S.C. 3708(d)) is amended by striking "or 13" and inserting in lieu thereof "10, or 14".

AMENDMENT NO. 2683

(Purpose: To make various amendments)

Mr. SIMPSON. Mr. President, I send an amendment to the desk on behalf of Senator GORTON to the committee substitute.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. SIMPSON] for Mr. GORTON, proposes an amendment numbered 2683.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 33, line 15, insert "personnel," immediately after "funds,".

On page 33, line 16, insert "personnel," immediately after "provide".

On page 33, line 22, insert the following immediately before the semicolon: ", and subject to reservation by the Government of a nonexclusive nontransferable, irrevocable, paid up license to practice or have practiced the invention throughout the world by or on behalf of the Government".

On page 34, line 2, insert the following immediately before the semicolon: ", and subject to reservation by the Government of a nonexclusive nontransferrable, irrevocable, paid up license to practice or have practiced the invention throughout the world by or on behalf of the Government".

On page 34, line 11-12, strike "agreement" and insert in lieu thereof "arrangement".

On page 34, line 15, insert ", with or without reimbursement" immediately after "resources".

On page 36, line 9, strike "this section" and insert in lieu thereof "section 12".

On page 39, line 9, strike "may" and insert in lieu thereof "shall".

● Mr. GORTON. Mr. President, I am offering an amendment to the committee amendment to the bill. This amendment does two things. First, it incorporates a suggestion by the distinguished Senator from Maryland, the chairman of the Judiciary Committee's Subcommittee on Patents, Copyrights and Trademarks, which clarifies that the Government will retain a right to use an invention resulting from cooperative research for its own purposes, royalty free, and in perpetuity.

Second, the amendment corrects an error in drafting in section 7, the employee activities section of the bill. This section was intended to codify an Executive order which requires that agencies turn over to the inventor rights to patents in which the Government has no interest. The committee amendment inadvertently provides that the agency may turn over these rights. The Executive order, which dates from the Truman administration, says the agency shall turn over these rights. Because the objective of the bill is to codify this policy and therefore strengthen it, it is important that the bill track the Executive order correctly. This is what the amendment accomplishes.

Let me also note one error in the committee report which may be misleading. Section 5 of the bill defines cooperative research and development arrangments as not including a procurement contract or cooperative agreement as those terms are used in sections 6303, 6304, and 6305 of title 31, United States Code. The report, in its discussion of this section on page 11, inadvertently left out the word "not."

Mr. President, these amendments are largely technical and are not controversial. I urge their adoption.●

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2683) was agreed to.

AMENDMENT NO. 2684

(Purpose: To provide that in certain research and development arrangements, a Federal laboratory may consider reciprocity of treatment by foreign governments relating to such arrangements and licensing agreements)

Mr. SIMPSON. Mr. President, I send an amendment to the desk on behalf of Senator DOLE and Senator ROCKEFELLER to the committee substitute.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. SIMPSON], for Mr. DOLE and Mr. ROCKEFELLER proposes an amendment numbered 2684.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 34, line 2, strike out "and".

On page 34, insert between lines 2 and 3 the following:

"(D) in the case of any industrial organization or other person subject to the control of a foreign company or government, take into consideration whether or not such foreign government permits United States agencies, organizations or other persons to enter into cooperative research and development arrangements and licensing agreements.

On page 34, line 3, strike out "(D)" and insert in lieu thereof "(E)".

Mr. DOLE. Mr. President, this amendment which I am submitting today would clarify the authority of Federal Laboratory Directors with regard to granting foreign access to research information. It is my understanding that this language has been cleared by the necessary parties, and that it will be accepted. I believe this amendment also has the support of the administration.

U.S. industries are suffering from a serious trade imbalance, and it is important that we protect our interests where there is a lack of reciprosity. Foreign countries like Japan have become our very strong competitors in the world market, and perhaps we should not be quite so free with sharing our own research, especially in the high tech field.

Our universities and Federal laboratories have traditionally been very open, and there has always been easy access to the results of our basic research. The language which the Senator from Kansas is adding to this bill would give Federal Laboratory Directors the discretionary authority to deny foreign industrial organizations and persons subject to the control of a foreign company or Government access to U.S. research, when the foreign country in question does not grant similar privileges to American persons and industrial organizations.

It is only fair that Federal laboratory directors have control over the fruits of their endeavors, without the concern that foreign entities will take advantage of the foundation our laboratories have established. This type of information has been all too freely available, and foreign competitors have saved themselves a lot of time, energy, and expense by taking the results of our research and capitalizing on the free information they have obtained—to our disadvantage. It is time that we ask for reciprocal treatment.

I ask unanimous consent that a Washington Post article dealing with this problem be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

WHY SUBSIDIZE IMPORTERS? FOREIGNERS USE OUR UNIVERSITIES TO BURY OUR INDUSTRY

(By Michael Schrage)

Even as the trade deficit soars to a record $150 billion, the U.S. is funding a multibillion-dollar program that effectively sells the best of America's computer and engineering research to its Japanese and European competiiton for less than 50 cents on the dollar.

Not a bad deal—if you're a Hitachi, Daewoo or a Siemens AG looking for a technical edge in today's competitive global marketplace.

What kind of policy is it that subsidizes America's corporate rivals with millions of dollars worth of our vital research?

It's the foreign policy practiced by America's leading research universities.

According to National Science Foundation statistics, nearly half the engineering and computer science graduate students in this country are from overseas; nearly half of them will return to the countries and companies that sponsored them. There they will apply their newly acquired knowledge to kick the stuffing out of U.S. companies.

These best and brightest minds will have studied in America the latest in semiconductor technology; the best ways to create new design software; the intricacies of developing novel composite materials for automobiles and airplanes. Expressly selected by their governments or companies to learn at America's finest universities, many of these students will become the captains of overseas industries.

Now, it's terrific that U.S. universities define the state of the art in so many engineering disciplines and that this country encourages the international exchange of research and a free flow of information.

But let's not confuse a free flow of information with an unwitting policy of subsidizing the research and development efforts of Japan, Korea and Europe.

Take, for example, the University of Michigan at Ann Arbor, one of the finest engineering schools in the country.

According to the University's 1985 figures, there are 1,452 graduate students enrolled in Michigan's College of Engineering; 751—more than half—are foreign students.

"Out-of-state" students (which is what foreign students are considered) pay tuition

of approximately $7,916 per year—"less than half" of the yearly cost of training a graduate engineering student, according to a Michigan spokesman.

Who makes up that eight-grand per-student annual shortfall? Why, U.S. and Michigan taxpayers do. Ironically, so do American corporations like General Motors and Ford—which help fund Michigan's research in science and engineering. They help pay to train the very engineers who will end up competing with them back in Japan, Korea and Germany.

What entitles Japan or Korea to an American subsidy for higher education? More explicitly, why should a Michigan or an Illinois charge the government-sponsored grad student from Tokyo the same as the kid from Toledo? Should out-of-state and out-of-nation be treated the same way?

If, as many in the university community believe, the answer is yes—then let's have a rationale that goes a bit beyond "promoting the free flow of information."

The university structure was built with American tax dollars. The U.S. has chosen—rightly—to make its universities a resource for the world. But the world has changed dramatically in the last decade. The lines between pure and applied research have blurred; universities, now more than ever, are seen as a source of commercial innovation.

What is the compelling reason for American taxpayers to subsidize Cadillac-quality education for foreign students at Toyota-like prices? Especially since many of those students will end up competing directly with American companies?

"History shows that the Japanese students get more 'rubber on the road' [practical applications of what they've learned] when they get back home," said James Williams, dean of Carnegie-Mellon's College of Engineering.

The issue here is not banning foreign students or placing import quotas on them—it's eliminating a free ride for this country's economic competition. It's making countries and companies that can afford to pay for the value of a graduate education pay the full and fair price.

Tuition and fees aside, there are numerous ways foreign countries and companies could show their support for the U.S. research institutions they patronize. They could give donations or help fund research programs.

What of the Japanese, Korean and European donations to Michigan, for example?

"Virtually none," said M. Joseph Roverson, director of corporate relations for the University.

In fact, a "not intended for release" National Science Foundation inquiry of over 100 leading research universities reveals that total foreign contributions to universities accounted for less than 2 percent of their research budgets.

"It's very unlikely that the amount exeeded 1 percent," said an NSE researcher, who asked not to be named.

Even if one excludes funds for national-security related research, the percentage of foreign contributions is still disproportionately low compared to the numbers of foreign graduate students now in the U.S. There's the distinct aroma of foreign free-loading on the campus.

Now, there are institutions that benefit from foreign largesse. The Massachusetts Institute of Technology has 12 professorial chairs endowed by Japanese companies and has enjoyed millions of dollars in research support over the years.

"We get most of our graduate students sponsored by industries in Japan," said Eugene Chamberlain, an MIT associate dean and international students adviser.

However, even a MIT total foreign funding of research represents barely 2 percent of the total. Roughly 29 percent of MIT's grad students are from overseas.

But the MITs are the exceptions, not the rule. The fact remains that American universities are seemingly neutral in the global economic competition—as ready to subsidize a Korean or Taiwanese company as one in the U.S.

(One notable exception is Pittsburgh's top-flight Carnegie-Mellon, which declines to accept Japanese funds and "restricts" the number of Japanese grad students precisely because it is concerned about technology transfer.)

Believers in the subsidy argue that many of these foreign students remain in the U.S. and that American companies can reap the benefit of their training. This is certainly true.

However, how do U.S. industry benefits balance with the potential problems? Does the U.S. keep the best of these post-graduate engineers or do the best ones go back to the Thomson CSFs, Matsushitas and Hyundais?

Academics assert that foreign students have become an indispensable part of the university research establishment; teaching undergraduates and assisting in research. That may also be true. On the other hand, does charging a full price for an education mean that the number of foreign students will drop dramatically? Or will it more likely spark a sheepish recognition that overseas companies have been cream-skimming off the investments made by American taxpayers?

Foreign countries and companies should be required to pay a fair price for the educational benefits they receive from American universities. Moreover, countries which send thousands of grad students and "research associates" to the U.S. should be compelled to fund non-proprietary research projects in the U.S.

These suggestions should not imply a form of intellectual or academic protectionism; there should continue to be an international exchange of information. But U.S. policy makers and universities should recognize that while it is wise to encourage an international research effort for the betterment of all; it is foolish and counterproductive to let potential partners in that endeavor behave as parasites.

● Mr. GORTON. Mr. President, as I noted in my floor statement, I commend Senator DOLE for his leadership in the area of technology transfer and for his concern about research and development in this country. Senator ROCKEFELLER, as well, has been an active member of the Science, Technology, and Space Subcommittee with whom it has been a pleasure to work.

This issue of access to our universities and laboratories by foreign nationals, without reciprocal access to foreign research establishments, is extremely important. Senators DOLE and ROCKEFELLER's amendment is an improvement to the bill which clarifies the laboratory director's discretion to reject a potential collaborator for this reason. I am pleased to accept the amendment.●

● Mr. ROCKEFELLER. Mr. President, I am pleased to join the distinguished majority leader in offering this amendment to H.R. 3773, the Stevenson-Wydler legislation. Our purpose is to improve the access of Americans to technology developed with the help of foreign governments. Apart from the military, our Government places few restrictions on the ability of foreign companies and individuals to acquire technology developed in our Federal laboratories. But unless other countries are more willing to provide equivalent treatment for our companies and researchers, the flow of technical information will remain largely one way.

Under section 11 of this bill, Federal laboratory directors are empowered to approve cooperative R&D arrangements and licensing agreements with private industry. Where applications to enter into these agreements come from foreign parties, our amendment would permit the laboratory directors to take into account whether or not the countries involved permit U.S. agencies, companies, or other parties to participate in similar arrangements. The provision would apply to U.S. subsidiaries of foreign companies, as well as to other persons and organizations subject to the control of a foreign government. The amendment is fully consistent with the language of both Public Law 96-517 and the House version of the pending bill, which stipulates a preference for U.S. industry in the granting of licenses to inventions generated by Government laboratories.

At present, many U.S. corporations and researchers believe they are denied reciprocal access to foreign government-supported laboratories, particulary in Japan. Meanwhile, U.S. research laboratories—such as those connected with the National Institutes of Health, NASA, the Department of Energy, and many others—provide almost unlimited access to their work to interested parties in foreign countries. Without an amendment of this nature, H.R. 3773 could exacerbate the current imbalance in the international flow of information about technology, as we step up efforts to promote the transfer of technology from U.S. Government-operated laboratories to private industry.

If foreign companies seek to participate in cooperative research arrangements or apply for patent licenses, they would be permitted under H.R. 3773 to have access to literally billions of dollars of U.S. research results. This would occur regardless of whether their governments permit American companies to join similar Government-sponsored research projects or receive licenses to Government-held patents. Under our amendment, Federal laboratory directors could consider wheth-

er to require a quid pro quo before granting access for foreign applicants.

Let me emphasize, Mr. President, that we are not proposing to cut off foreign participation in Federal laboratories if the foreign governments refuse to offer reciprocal access. The provision is entirely discretionary on the part of the Federal laboratory directors; simply, they may take reciprocity into consideration when deciding whether to admit a foreign applicant to a cooperative research program or to allow the negotiation of a licensing agreement with a foreign party.

Americans are right to be concerned when they perceive that foreign scientists, engineers, and other researchers enjoy virtually unrestricted access to federally supported research while foreign governments systematically deny equivalent opportunities to our researchers. Because of this lack of reciprocal access to Government-developed technology, the flow of technology between the United States and other countries is largely outward: Our research results, licenses to patents, and other scientific know-how are put to good use by foreigners, while we often find ourselves shut out. Indeed, some of our leading edge technologies are routinely absorbed by foreign researchers and used to develop new products which compete successfully in our markets.

For example, according to a report by the Japan Economic Institute, the U.S. transferred to Japan six times as much electronics technology and almost eight times as much machine tool technology as it acquired from Japan in 1983. Altogether, 70 percent of Japan's worldwide technology imports that year came from the United States. While the Japanese bought technology from this country worth 191 billion yen, their exports of technology to us totaled 52 billion yen.

This asymmetry in the international flow of knowledge has real repercussions for our country's competitiveness in world markets. America's comparative advantage has always been superior technology—the fruits of our ability to innovate and invent. If our cutting edge technology is made fully available to our rivals in international trade, however, we stand to lose not only foreign markets but also jobs and income at home. We must recognize that the United States is no longer self-sufficient in technology: unless we insist on reciprocal access to technology developed elsewhere, major advances could pass us by.

I am encouraged that the Japanese Government intends soon to consider legislation to revise laws that presently prohibit acquisition of Government-owned patents by foreigners. Since Government laboratories develop some of Japan's most innovative technologies, access to such patents is extremely important to American companies. It's our hope that this legislation passes and is implemented in a way that improves U.S. access to Japanese technology and makes it possible for our researchers to work on cooperative research projects there.

H.R. 3773 will open up research conducted in Federal laboratories to private industry, domestic and foreign. It correctly seeks to encourage cooperative R&D projects and licensing agreements to help turn promising technologies developed under Government auspices into commercially viable products. This amendment, in my view, will strengthen the process of technology transfer which the Stevenson-Wydler Act hopes to facilitate. And by doing this, it will strengthen the international competitiveness of our industries. I urge my colleagues to consider and adopt it.●

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2684) was agreed to.

AMENDMENT NO. 2685

(Purpose: To make amendments regarding technology transfer)

Mr. SIMPSON. Mr. President, I send an amendment to the desk on behalf of Senator DOMENICI to the committee substitute.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. SIMPSON] for Mr. DOMENICI proposes an amendment numbered 2685.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 29, line 16, strike "(2)" and insert in lieu thereof "(3)"; on page 29, line 24, strike "(3)" and insert in lieu thereof "(4)"; on page 30, line 1, strike "(4)" and insert in lieu thereof "(5)"; on page 30, line 6, strike "(5)" and insert in lieu thereof "(6)"; on page 30, line 16, strike "(6)" and insert in lieu thereof "(7)"; and on page 29, insert the following immediately after line 15:

"(2)(A) The Consortium shall not engage in the direct transfer of technology, but shall furnish information and respond to requests for technical assistance only in the manner specified in paragraph (1)(C).

"(B) Each Federal laboratory or agency shall transfer technology directly to users or representatives of users, and shall not transfer technology directly to the Consortium. Each Federal laboratory shall conduct any transfer of technology only in accordance with the practices and policies of the Federal agency which owns, leases, or otherwise uses such Federal laboratory.".

On page 30, line 17, strike "0.005" and insert in lieu thereof "0.0025".

On page 31, line 11, strike "appropriate.'." and insert in lieu thereof the following: "appropriate.

"(8)(A) The Consortium shall use 10 percent of the funds provided in paragraph (7) to establish demonstration projects in technology transfer. To carry out such projects, the Consortium may make grants or awards to, or enter into agreements with, nonprofit State, local or private organizations or entities whose primary purposes are to facilitate cooperative research between the Federal laboratories and organizations not associated with the Federal laboratories, to transfer technology from the Federal laboratories, and to advance State and local economic activity.

"(B) The demonstration projects established under subparagraph (A) shall serve as model programs. Such projects shall be designed to develop programs and mechanisms for technology transfer from the Federal laboratories which may be utilized by the States and which will enhance Federal, State and local programs for the transfer of technology.

"(C) Application for such grants, awards or agreements shall be in such form and contain such information as the Consortium shall specify.

"(D) Any person who receives or utilizes any proceeds of a grant or award made, or agreement entered into, under this paragraph shall keep such records as the Consortium shall determine are necessary and appropriate to facilitate effective audit and evaluation, including records which fully disclose the amount and disposition of such proceeds and the total cost of the project in connection with which such proceeds were used.".

● Mr. DOMENICI. Mr. President, the amendment I am offering, which I understand is acceptable to the sponsors of the bill, would accomplish three things. First, it clarifies an ambiguity in the bill about the proper role of the Federal Laboratory Consortium. It provides that the Consortium shall not transfer technology directly, but that those interested in a technology shall continue to deal with the laboratory or the agency, depending on agency policy, as they do now, to obtain rights to that technology.

● Mr. GORTON. The Senator from New Mexico is correct that the Federal Laboratory consortium is not intended to transfer technology directly. The Consortium's function is that of a clearinghouse for information about technology in the Federal laboratories. His amendment is a good addition to the bill which clarifies this point.

● Mr. DOMENICI. The second provision in my amendment reduces the set-aside of funds for the Consortium by half. Instead of setting aside approximately $1 million per year for 5 years for the Consortium, my amendment would set aside approximately $500,000. The reason for this provision is twofold. First, this set-aside comes out of agencies' research and development budgets. Although small, any reduction in these budgets at this time should be approached cautiously. Second, the Federal Laboratory Consortium has been functioning for some time on a budget of approximately $500,000 per year in cash and in kind services. My amendment gives them a

secure source of funds, but keeps them at essentially a freeze level.

● Mr. GORTON. Mr. President, I am willing to accept this amendment. I believe the Federal Laboratory Consortium will prove to be of great benefit, not only to the Federal laboratories, but to the States as well. I appreciate the Senator from New Mexico's concern about its potential effect on agency research budgets, however, and his desire to go slowly in this area.

● Mr. DOMENICI. Mr. President, the third provision in my amendment takes the bill's efforts to improve technology transfer one logical step further—to the recipients. All of our efforts to improve the use of technology in the Federal laboratories is wasted if there are no working organizations or mechanisms outside the labs to locate and acquire this technology. My amendment directs the Consortium to transfer 10 percent of its funds to fund existing projects in technology transfer. The Consortium is to fund these demonstration projects through contracts, grants, or agreements with nonprofit State, local, or private entities whose primary purposes are to facilitate cooperative research between the Federal laboratories and outside organizations; to transfer technology from the Federal laboratories; and to advance State and local economic activity.

Mr. President, most of our States have active programs to promote economic development; many have programs to promote high technology industries. The States are experimenting with a wide variety of diverse programs, and this experimentation should be encouraged by the Federal Government. That is why my amendment funds demonstration projects, which should serve as models programs for other States.

In my State of New Mexico, there are several organizations which promote development in high technology. One, however, is especially devoted to technology transfer. The Rio Grande Technology Foundation is a nonprofit, privately funded organization whose purpose is to establish cooperative research centers at New Mexico's universities and Federal laboratories. It is distinct in its focus on the Federal laboratories, in its goal of linking the technological resources of the Federal, State, and private sectors, and in its reliance on private funding. This is the kind of organization which I believe could serve as a model program, and which should receive funding from the Consortium.

● Mr. GORTON. Mr. President, I could not agree more with my friend from New Mexico about the importance of recognizing the wealth of technological development programs going on at the State and local level. His amendment is an appropriate way to encourage this experimentation and I am pleased to accept it. I also agree with him about the unique nature of the Rio Grande Technology Foundation. I anticipate that the Consortium will create one or two demonstration projects, and that Rio Tech will be one of them.●

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2685) was agreed to.

AMENDMENT NO. 2686

(Purpose: To make various amendments)

Mr. BYRD. Mr. President, I send to the desk an amendment by Mr. PELL.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from West Virginia [Mr. BYRD], for Mr. PELL, proposes an amendment numbered 2686.

Mr. BYRD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add the following:

(e) The second sentence of section 2(10) of such Act (15 U.S.C. 3701(10)) is amended by inserting ", which include inventions, computer software, and training technologies," immediately after "developments".

(f) Section 3(3) of such Act (15 U.S.C. 3702(3)) is amended by inserting ", including inventions, software, and training technologies," immediately after "technology".

On page 43, line 5, strike "invention.'." and insert in lieu thereof the following: "invention.

"(11) 'Training technology' means computer software and related materials which are developed by a Federal agency to train employees of such agency, and includes software for computer-based instructional systems and for interactive video disc systems.'.".

On page 26, insert the following immediately after line 12:

(2) in paragraph (2), by inserting ", including software and training technologies," immediately after "technologies";

On page 26, line 13, strike "(2)" and insert in lieu thereof "(3)"; on line 14, strike "(3)" and insert in lieu thereof "(4)"; on line 16, strike "(4)" and insert in lieu thereof "(5)"; on page 27, line 1, strike "(5)" and insert in lieu thereof "(6)"; and on line 3, strike "(6)" and insert in lieu thereof "(7)".

On page 32, line 12, strike "reports.'." and insert in lieu thereof the following: "reports.

(3) Not later than one year after the date of enactment of the Federal Technology Transfer Act of 1986, the Secretary shall submit to the President and the Congress a report regarding—

"(A) any copyright provisions or legal or other barriers which restrict or limit the transfer of federally funded computer software to the private sector and to State and local governments, and agencies of such State and local governments; and

"(B) the feasibility and cost of compiling and maintaining a current and comprehensive inventory of all federally funded training software.'.".

AMENDMENT EXPANDING COVERAGE OF H.R. 3773

● Mr. PELL. Mr. President, I am offering an amendment, which I understand has the approval of the managers of the bill, to expand the coverage of H.R. 3773 to include the transfer of training technology which has been developed by the Federal Government and which could be of great benefit to the private sector and to the educational community.

Training technology is defined by the amendment to mean computer software for computer based instructional systems, such as interactive videodisc systems. Such systems combine visual representations of training problems with computerized instruction programs which offer a high degree of interactivity between the trainee and the system.

My amendment would add training technology to the innovations found suitable for transfer under the bill, and would make training technology subject to the clearinghouse function of the National Technical Information Service. The amendment also directs the Secretary of Commerce to report to the President and the Congress regarding legal barriers to such transfers, including patent and copyright issues, and also with regard to the feasibility and cost of compiling a current and comprehensive inventory of all federally funded training technology.

This is a no-cost amendment. But it fulfills to a substantial degree the purposes of S. 1662, the Training Technology Transfer Act which I introduced in 1985, and its predecessor, S. 2561, which I introduced in the 98th Congress. The amendment I offer today embodies the general intent of those bills, but omits their specific provisions for cataloging training technology and for promoting its transfer.

I should note that these bills originated out of a desire to utilize all available techniques to train civilian workers who were dislocated as a result of changes in the pattern of international trade. While that remains a major goal of this amendment, I am pleased to note that the prospective beneficiaries cover a far broader spectrum than originally anticipated. As a result, the prospective return on the original public investment in this technology could be even greater than first suggested.

Finally, I wish to note that the amendment is the product of extensive bipartisan dialog between my office and the Department of Commerce, and particularly the office of the Assistant Secretary for Productivity, Technology and Innovation, Dr. D. Bruce Merrifield. The amendment, I believe, gives legislative expression to mutually acceptable goals while omitting features of S. 1662 which were controversial.

I thank the managers of the bill for their courtesy and consideration in accepting the amendment.●

● Mr. GORTON. Mr. President, the Senator from Rhode Island has identified a weakness in the Federal Government's Technology Transfer Program. Training technology, because of its great potential for education, should be an area in which we have an aggressive transfer program. I am happy to accept his amendment.●

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2686) was agreed to.

AMENDMENT NO. 2687

(Purpose: To Make Various Amendments Regarding Technology Extension)

Mr. BYRD. Mr. President, I send an amendment to the desk on behalf of Mr. LEAHY.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from West Virginia [Mr. BYRD], for Mr. LEAHY, proposes an amendment numbered 2687.

Mr. BYRD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 41, strike lines 12 through 14 and insert in lieu thereof the following:

(5) Section 5(c) of such Act (15 U.S.C. 3704(c)) is amended—

(1) by striking "the Director" each place it appears and inserting in lieu thereof "the Assistant Secretary";

(2) by redesignating paragraphs (7) and (8) as paragraphs (9) and (10), respectively; and

"(3) by inserting immediately after paragraph (6) the following:

"(7) encourage and assist the creation of centers and other joint initiatives by State or local governments, regional organizations, private businesses, institutions, or Federal laboratories to encourage technology transfer, to stimulate innovation, and to promote an appropriate climate for investment in technology-related industries;

"(8) propose and encourage cooperative research among the Federal laboratories, State or local governments, regional organizations, colleges or universities, non-profit organizations, or private industry to promote the common use of resources, to improve training programs and curricula, to stimulate interest in high technology careers, and to encourage the effective dissemination of technology skills within the wider community;".

On page 29, line 11, strike "and"; on line 15, strike the period and insert in lieu thereof"; and"; and insert immediately after line 15 the following:

"(I) when requested, assist colleges or universities, businesses, non-profit organizations, State or local governments, or regional organizations to establish cooperative programs to stimulate research and to encourage technology transfer in such areas as technology program development, curriculum design, long-term research planning, personnal needs projections, and productivity assessments.".

● Mr. LEAHY. Mr. President, our Nation faces two important challenges for the future. We must compete with the Soviet Union to maintain a strong defense and to keep a secure peace, and at the same time we must compete with many other nations to ensure a healthy economic future. Meeting both challenges will depend on Americans continuing to be the world's best researchers, the world's brightest inventors, and the world's most skilled workers.

When I introduced the Technology Education and Extension Act last year, I addressed some of the benefits of the sharing of information between higher education and industry. The bill we are considering today is designed to improve the transfer of commercially useful technology from Federal laboratories.

Before describing my amendment, I want to thank the distinguished managers of the Federal labs bill for their cooperation in working with me and my staff to make the goals of the Technology Education and Extension Act part of the mission of the Office of Productivity, Technology and Innovation at the Department of Commerce and of the Federal Laboratory Consortium.

Our economic future depends on encouraging the efficient dissemination of skills and information within our communities. The Federal laboratories bill reported by the Commerce Committee took steps to encourage the Federal labs to participate with regional, State, and local governments to do that and to transfer technology. My amendment takes the committee proposal one step further.

It puts the Federal Laboratory Consortium in a position to help area colleges and universities, private businesses, State and local governments, and others to develop cooperative programs. I want to make clear that such joint programs may include any combination of the groups referred to in the amendment. Thus, one such program may combine the resources of a college and a Federal lab, while another would combine the efforts of one or more local businesses and nonprofit groups, a State university, and a regional authority. These programs will stimulate research and encourage technology transfer in such areas as industrial program development, curriculum design, long-term research planning, personnel, and productivity.

The amendment makes the Department of Commerce an equal partner in this effort to encourage technology transfer and to promote an appropriate climate for investment in American technology-related industries.

I understand my amendment has been accepted by the distinguished floor managers.

In closing, Mr. President, I would like to thank Senator HOLLINGS and Patrick Windham of his staff for their invaluable help in our continuing effort to promote technology extension.●

● Mr. GORTON. Mr. President, my fellow members of the Committee on Commerce, Science, and Transportation and I share the Senator from Vermont's concern about the contribution our Federal resources could make to local economies. That is precisely the concern that led us to report this bill, and I am pleased to accept his amendment.●

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2687) was agreed to.

AMENDMENT NO. 2688

(Purpose: To require agencies to make a separate determination of the mission of each of their laboratories)

Mr. BYRD. Mr. President, I send an amendment by Mr. BUMPERS to the committee substitute.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from West Virginia [Mr. BYRD] for Mr. BUMPERS proposes an amendment numbered 2688.

Mr. BYRD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 34, line 20, strike the term "agency" and in lieu thereof insert "laboratory".

On page 35, between lines 3 and 4 insert the following: "(c) For the purposes of this section, an agency shall make a separate determination of the mission or missions of each of its laboratories."

On page 35, line 4, strike "(c)" and insert in lieu thereof "(d)".

● Mr. BUMPERS. Mr. President, I am pleased to offer this amendment to H.R. 4337, the Federal Technology Transfer Act of 1986. My amendment is a simple clarification of the bill to ensure that agencies give special consideration to certain Government laboratories. The amendment requires that agencies make a separate determination of the mission of each laboratory to determine whether the laboratory should participate in the cooperative research provisions of the bill. I am further pleased that the distinguished managers of the bill, Senators DANFORTH and HOLLINGS, have agreed to accept my amendment.

Let me first state that I am especially gratified to be a cosponsor of S. 1914, which this bill incorporates. This legislation, which amends the Stevenson-Wydler Technology Innovation Act of 1980, will most certainly be a boon to academic institutions and pri-

vate industry in the United States through greater cooperation in and participation with the wide range of Government sponsored research. More importantly, the bill will be a springboard to economic development in many areas of our Nation.

This legislation will assuredly be a stimulant to innovators, whether they be employed by the Government or other institutions, to turn their ideas into commercial enterprises to provide jobs, income, and a better way of life for us all. As ranking minority member on the Senate Small Business Committee, I am particularly enthused about the unique opportunities this legislation will offer with respect to the creation of new, specialized small businesses.

The Federal Government is spending about $18 billion this year in research and development at some 700 Government laboratories. This effort employs a full one-sixth of our Nation's brightest and best scientific minds. In order to encourage the proper transfer of Government-sponsored research to the private sector, and to provide incentive for promising scientists and engineers to work in Government programs, the Federal Government should allow individual laboratory directors to engage in cooperative efforts to solve Government's problems and make the solutions available to the private sector.

This bill has been carefully crafted to allow for a cooperative approach to commercial uses of Government-sponsored research, while ensuring that the official mission of the laboratory is carried out with the best and most motivated minds. It will provide for extended cooperation between Government laboratories, State offices charged with technology transfer, universities, charitable organizations, and the private sector.

As a nation, we cannot afford to have the public and private sectors working in an environment alienated from one another. This bill will greatly facilitate a nationwide approach to research and development. We all recognize that the future economic health and development of our Nation rests firmly on our ability to more efficiently and cleanly manage our resources. We must make technological advancement. Unless we allow our Nation's institutions to pool their resources and talent, we will fall short of the demand for commercial innovation. This legislation represents a simple, important first step down that road.

The amendment I am offering clarifies the bill's language to ensure that all Government agencies take a look at each laboratory on a separate basis to determine whether the laboratory's mission is consistent with the provisions of the bill. My particular concern is with laboratories that are operated by regulatory agencies, but are not involved with the enforcement of regulations. The amendment is to make it clear that regulatory agencies consider each laboratory on an individual basis. Those that are not involved in the enforcement of regulations should be encouraged in the cooperative research agreements outlined in the bill.

Laboratories of this kind should not be excluded from the provisions of the bill, both now and in the future. I offer this amendment because of the great opportunities that will be provided by this legislation for the State of Arkansas and for the entire mid-South region. The National Center for Toxicological Research [NCTR], in Pine Bluff, AR, is such a laboratory that needs to benefit from the cooperative research and other provisions of this bill.

NCTR's parent agency is a regulatory agency—the Food and Drug Administration [FDA]—but NCTR is not involved in enforcement of that agency's regulations. It is important to note that NCTR is the only such Government laboratory separate and distinct from the enforcement functions of its parent. My amendment would require the FDA and the Department of Health and Human Services to consider NCTR's participation in cooperative research programs separate from the other FDA labs concerned with regulatory enforcement.

I fully expect NCTR to be included in the cooperative research agreements authorized by this legislation. I will be exercising vigorous oversight to ensure that FDA considers NCTR as a unique situation and will fully expect that NCTR will be encouraged by FDA to participate actively in the programs established. I have received assurances from the Commerce Committee that they, too, will exercise such oversight.

We in Arkansas are excited about the possibilities this legislation will provide with respect to NCTR. NCTR is the only Federal laboratory of its kind in the mid-South, and is the largest research lab in its field. It is by far the most unique and capable Federal research facility in the Nation. Started in 1972, the center serves not only the FDA, but also does research and development in connection with the Department of Defense, the Department of Energy, the Department of Commerce, and many other Federal entities.

NCTR is engaged in four primary areas of research. The largest area is biomedical research, which encompasses subjects from preventing birth defects to the relationship between diet, nutrition, and human disease. The next largest area is the development of computer hardward and software technology related to toxic substances. The center also performs research and development in analytical chemistry and environmental engineering.

NCTR is in a special situation to promote economic development in Arkansas and throughout the mid-South. With all of the jobs that we in Arkansas have lost as a result of competition from abroad, we know that technological development can help us regain the competitive edge necessary to secure comparative advantages in world trade. With the space, equipment, talent and experience at NCTR, we want to encourage this vital research to be made available to the public for commercial purposes.

It is also important to note that the Arkansas Science and Technology Authority—the agency of the Arkansas State government charged with technology development and promotion—is just 3 years old. The Arkansas Science and Technology Authority and NCTR promise to be very effective partners in the application of research. I commend the leaders of these institutions for being in the forefront of the cooperative agreement approach of solving Government's problems and their enthusiasm for the application of this research for the private sector.

Once again, I am pleased to cosponsor this legislation and to offer this technical amendment. NCTR must be considered separate from the other enforcement laboratories under FDA, and, again, I expect that this consideration will lead to participation in the great opportunities of this legislation by NCTR. The Federal Government can do much to better the quality of life in our Nation if given the proper incentives, resources, and encouragement. This legislation provides the opportunity for the Federal Government to get in step with the State governments, academic institutions, and private enterprises toward a cooperative approach to the crucial questions we face together as a Nation. I urge the Senate to adopt my amendment and H.R. 4337.●

● Mr. GORTON. Mr. President, I thank the Senator from Arkansas, Mr. BUMPERS, for his amendment. The amendment helps clarify the bill to require agencies to take a look at the special considerations of each laboratory when they implement the cooperative research provisions. Clearly, the special case of the National Center for Toxicological Research in Pine Bluff, AR, indicates that it is a prime candidate for participation in cooperative research, and I believe it should be included in these agreements. We on the Science, Technology, and Space Subcommittee will exercise vigorous oversight on the inclusion of the National Center for Toxicological Research.●

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2688) was agreed to.

The PRESIDING OFFICER. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute, as amended.

The committee amendment, as amended, was agreed to.

● Mr. DANFORTH. Mr. President, it is significant that the Senate is considering this legislation. To a great extent, the United States and its people enjoy our present stature because of our success in transforming science into technology. By allowing Government-operated laboratories to enter into cooperative agreements with industry, universities, and others, and by strengthening the organizations that transfer Federal technology, this bill will improve the abilities of these labs to transfer technology to the private and non-Federal public sectors. Technology transfer is an important process throughout the innovation cycle, and the Federal labs are the gatekeeper of large amounts of technology. This legislation should lead to the development of many new products and processes as new linkages are formed between the Federal labs and the rest of our economy.

I am pleased to support this bill. It was referred to the Senate Committee on Commerce, Science, and Transportation and considered with S. 1914. The committee ordered H.R. 3773 reported favorably, with an amendment in the nature of a substitute. The language of the amendment reported by the committee is that of S. 1914, with minor amendments. I am a cosponsor of S. 1914, which includes most of S. 65, which Senator DOLE and I introduced earlier in the 99th Congress.

Technological innovation is a complex process normally involving many resources and personnel. It invariably requires technology transfer. Technology transfer may occur as the scientist transfers information to the engineer converting the information into a working model; as a potential investor is informed of the state of the art in a specific technology; as a market analyst is informed of the potential uses of a technology; or as a producer provides know-how to the end user of the resulting product. If the United States is to maintain its premier position in this ever-growing technological world, it is absolutely necessary that we facilitate the technology transfer processes visualized by this legislation.

Linkages among scientists, between scientists and engineers, between inventors and entrepreneurs, between entrepreneurs and customers are essential. We must not only permit these linkages; we must encourage them.

This legislation helps accomplish this goal. It provides for royalty sharing with the inventor as an incentive for the inventor to be a champion in pushing potentially commercially significant technology from the Federal labs. This is important because the process of moving an innovation into the marketplace requires a champion. This bill also institutionalizes the Federal Laboratory Consortium to provide needed infrastructure to facilitate technology transfer and linkage development. It also clears away any legal impediments to cooperative research at the Federal laboratories.

Mr. President, I am pleased to join my fellow Senators from both parties in sponsoring this bill, and join them in urging the full Senate to pass it.●

Mr. GORTON. Mr. President, American businesses face an unprecedented challenge to their ability to compete, both at home and abroad, against foreign competition. On few issues is there as much of a consensus about the seriousness of the problem; and on few issues is there as little of a consensus on the solution.

Last year the President's Commission on Industrial Competitiveness identified a broad range of problems and made recommendations ranging from increasing support for basic research, to reducing the Federal deficit, to strengthening U.S. trade laws, to encouraging investments in worker training. The extent of this list indicates the difficulty of dealing with the entire issue of industrial competitiveness in any one piece of legislation. The problem is far too large for that, and demands steady action on a number of fronts.

The bill we are considering today, the Federal Technology Transfer Act of 1986, is aimed at one of those fronts: the use of the almost $20 billion in federally funded research and development done in the Federal laboratories each year. The Federal Technology Transfer Act of 1986 is designed to improve the transfer of technology out of the Federal laboratories and into the marketplace. It has three major provisions:

First. It opens up the Federal laboratories to industry, universities, and others for cooperative research;

Second. It creates the Federal Laboratory Consortium for Technology Transfer; and

Third. It improves the incentives for Federal scientists to put in the time and effort to explore the commercial possibilities of their inventions by requiring agencies to share at least 15 percent of the royalties received from patents with the inventor. In addition, it strengthens the existing cash award system to reward employees contributing to the missions of their agencies.

The bill also contains other amendments to the Stevenson-Wydler Technology Innovation Act of 1980 to bring it into conformity with existing practice.

The Federal Government will spend approximately $18 billion in fiscal year 1986 on research and development at over 700 Federal laboratories. These laboratories employ one-sixth of the Nation's scientists and engineers. Although their main purpose is to serve Government needs, these laboratories also have produced over 28,000 patents. Many of these inventions may have commercial applications. Over the years, however, only approximately 5 percent of Federal patents have been licensed.

Senator DOLE has led the Senate in the enactment of several laws to improve the use of Government-funded research. One of the first was the Dole-Bayh Patent and Trademark Amendments of 1980—Public Law 96-517. The new patent policy led to increased efforts by universities to report, license, and develop inventions. In 1984, Congress extended the new policy to Federal laboratories operated by universities and nonprofit corporations—Public Law 98-620.

Also in 1980, Congress enacted the Stevenson-Wydler Technology Innovation Act of 1980—Public Law 96-480. The act makes the transfer of Federal technology to industry, States, and localities a national policy and the duty of each laboratory.

Despite these advances, there is broad agreement that we can and should improve the flow of technology from these laboratories to the private sector. The National Governors' Association, for example, issued a report in 1983 critical of the lack of cooperation or collaboration between the Federal laboratories and industry or universities.

In addition, in 1982, the White House Science Council created a Federal Laboratory Review Panel, chaired by David Packard. The panel surveyed both the Government-operated and contractor-operated Federal laboratories. In its 1983 report, the panel concluded that "Federal laboratories should encourage much more access to their facilities by universities and industry," and that "R&D interactions between Federal laboratories and industry should be greatly increased by more exchange of knowledge and personnel, collaborative projects, and industry funding of laboratory work." * * *

This bill implements that recommendation. It also uses the cooperative research being done at universities, including royalty-sharing, as a model for the Federal laboratories.

Mr. President, I urge my colleagues to support this legislation. It contains no authorizations and requires no new Federal spending. There will also be no indirect drain on Federal funds, because the Federal laboratories are allowed to contribute personnel, facilities, and equipment to a cooperative agreement, but not funds. And, unlike the House bill, the stream of royalty

income flowing through the agencies to the laboratories in the Senate bill is subject to appropriations; therefore, no entitlements are created.

The Federal Laboratory Consortium is funded through a set-aside of money from each agency. This set-aside is small—0.005 percent of an agency's R&D budget, for a total of $900,000 in 1986; it is temporary—5 years; and it gives the Consortium the money it needs to fund one staffer in the District of Columbia and to set up an electronic mail system. The Consortium is a respected, existing organization which already receives discretionary funds from many agencies.

The provision requiring an agency to share at least 15 percent of royalties with an inventor has proved to be the only controversial provision in the bill. It has been criticized as unfair, but the Senate bill addresses this criticism by incorporating the House bill's cash award system in addition to royalty sharing, specifically to reward productive employees and laboratories which do not work in commercial areas. It also allows the royalty income, after the inventor's 15 percent has come off the tops, to be used by the laboratories to reward other employees.

Royalty sharing has also been criticized as inflexible and bad management, but this has not proven to be true in the experience of universities, which have been required to share royalties with inventors since 1980. Their experience has led universities to increase the share going to inventors, because the incentives lead to more invention reporting and more technology transfer. The Federal labs are more like the universities in their inability to reward employees with raises and promotions easily than they are like private industry, which can, indeed, have a completely flexible management system.

Royalty sharing has also been criticized as setting a dangerous precedent for the private sector. The bill has no effect on the private sector, however. Any precedent set by revenue sharing was set already with the universities in the Dole-Bayh Act in 1980.

All-in-all, Mr. President, the arguments against royalty sharing are unconvincing. And they are far outweighed by the potential gain from giving Federal employees a stake in the outcome of their work.

I would like to express my gratitude to Senator DOLE, who has done more for technology transfer than any other single Member of Congress. I am also grateful to Senator MATHIAS and his staff for their expertise and suggestions. Senator DANFORTH, the distinguished chairman of the Commerce Committee, was the original cosponsor of S. 65, Senator DOLE's bill which is at the heart of the legislation we are considering today. Senators DANFORTH, HOLLINGS, RIEGLE, PRESSLER, GORE, ROCKEFELLER, and INOUYE cosponsored S. 1914, the substance of which we are considering today, and contributed to the unanimous, bipartisan support the bill enjoyed in the Commerce Committee.

Mr. President, I believe this is a sound piece of legislation. It takes extremely valuable national assets, the Federal laboratories, and makes them more accessible to our businesses, our universities, and our State and local governments. It involves no increased Federal spending or regulation. It will not solve the problem of lagging international competitiveness in one blow, but it is a solid step in the right direction, and I urge its enactment.

Mr. President, the latest issue of Business Week contains an especially timely article on technology transfer. I ask unanimous consent that the article appear following my statement.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From Business Week, Aug. 11, 1986]

BUILDING BRIDGES BETWEEN PUBLIC AND PRIVATE R&D

For Richard A. Cortese, it's a dream coming true. The president of Alpha Microsystems has long—and longingly—admired the Jet Propulsion Laboratory. After all, that National Aeronautics & Space Administration lab in nearby Pasadena, Calif., is a technological powerhouse. But even though his little computer company is just 45 mi. away in Irvine, Cortese never figured he stood much change of tapping JPL's technology storehouse.

But thanks to Rimtech, a nonprofit company that aims to push JPL technology into the commercial arena, Alpha Microsystems and other Southern California companies are getting a crack at pulling JPL's space-age developments into their businesses. "The JPL expertise may give us a leg up on the competition," says Cortese, who wants to learn about JPL's techniques for compressing computer data. That could boost the capacity of Alpha's tape-based storage system for personal computers.

Rimtech—which is short for Research Institute for the Management of Technology—is a new twist in the way the country's national labs interact with industry. For an entry fee of $25,000, Rimtech helps find solutions to specific problems. It asks a company to list its technical hurdles, then checks with JPL researchers to see if they can help. The Company also markets JPL technology to likely prospects. "We see ourselves as a catalyst," explains Rimtech President Steven M. Panzer.

The new program at JPL is the latest step in an effort to better utilize the enormous scientific resources of the federally funded labs. In addition to such venerable institutions at Los Alamos, Lawrence Livermore, and Brookhaven, there are 700 more lesser-known lights. Collectively, they spend more than one-third of the government's annual research and development budget—$55 billion in fiscal 1986. Their work has produced some important commercial technologies; clean rooms for the semi-conductor industry and nuclear magnetic resonance imaging, to name just two.

That's why Congress told the national labs in 1980 to get more bang for the tax buck by identifying R&D with commercial potential and passing it on to industry. Most labs, however, still aren't adept at spinning off R&D. Technology transfer has often meant little more than publishing research results and hiring someone to stage seminars. "It's catch-as-catch-can," admits Ronald W. Hart, director of the National Center for Toxicological Research.

SALES INCENTIVES

NASA, for example, spends $11 million a year to peddle its technology to industry. But since it began charging for technology licenses only in 1981, it collects a paltry $100,000 a year in royalties. Even lab officials admit they haven't been very effective at transferring technology. Partly that's because their researchers have little incentive to think along commercial lines, since they don't share in patent royalties. Eugene E. Stark, chairman of an action group called the Federal Laboratory Consortium for Technology Transfer, concedes that "at best, we're only at 20% of the optimum level of transferring technology."

But Washington is about to crack the whip again. This month, Congress will probably send President Reagan new legislation aimed at fostering even tighter links between the labs and industry. The ticket to mobilizing the labs in defense of U.S. interests, Congress believes, is to make them more businesslike—and what better way to do that than to apply the profit motive? A key provision of the House bill, passed last December, will give each lab director the authority to sell licenses to his facility's work—and allow the lab to bank the royalties. An amendment in the Senate version would compel the labs to pay at least 15% of all royalties to the researchers who patented the technology.

Some labs are already implementing new mechanisms for technology transfer. In New Mexico, both Los Alamos National Laboratory and Sandia National Laboratories have emulated a recent university practice and set up "incubator" operations to nurture enterpreneurs. Tennessee's Oak Ridge National Laboratory even has its own for-profit venture capital group. "We've spun off seven companies in the last year," boasts E. Jon Soderstrom, director of technical applications. And if Rimtech is successful at JPL, NASA plans to roll out similar programs at all of its labs.

AN ACTIVE VENDOR

The National Bureau of Standards has long been effective at transferring its technology. That agency's secret: encouraging industry to assign researchers to temporary duty in NBS labs. As many as 900 industry-sponsored researchers have augmented the NBS staff of 1,400 professionals "Technology is in the minds of people," observes Alfred S. Joseph, chairman and founder of startup Vitesse Electronics Corp. in Camarillo, Calif. "You can either send your people to the labs, or you can bring the federal-lab people out."

Industry, however, is hardly without blame for the poor results of technology transfer. Many companies are ignorant of the new openness of federal labs. Others remain unaware that Washington had changed the rules governing licenses to permit exclusive deals. As a result, says Robert H. Pry, a technology consultant who advises Washington, "you have to do a lot of evangelism just to get them interested."

Foreign companies don't need prodding. Overseas businesspeople are flocking to the national labs. Some lab officials confide

71-059 O-87-34 (Pt. 14)

that the number of visitors from offshore, especially Japan, is frightening: They far outnumber the representatives from U.S. companies. So unless more executives like Cortese take advantage of such programs as Rimtech, promising new technologies may go begging in America, while foreigners become the first to reap the benefits of U.S. tax-supported research.—By Scott Ticer in Los Angeles.

Mr. DOLE. Mr. President, in fiscal year 1986 the Federal Government will spend approximately $18 billion on research and development at over 700 Federal Laboratories. Over the years these laboratories have produced well over 28,000 Federal patents, yet only 5 percent of these patents have been licensed to date. This legislation addresses this problem by amending the Stevenson-Wydler Technology Innovation Act of 1980 in an effort to promote technology transfer to the private sector by authorizing government-operated laboratories to enter into cooperative research agreements and by establishing a Federal laboratory consortium for technology.

DOLE LEGISLATION

As I am sure many of my colleagues are aware, I have long been a promoter of more private sector involvement with our Government's research facilities. Six years ago, I was pleased to join our former colleague, Birch Bayh, in working to eliminate much of the tangle of bureaucratic brambles that impeded the ability of universities and small businesses to transform federally assisted research into a patented invention. Specifically, with the enactment of Public Law 96-517, we established, for the first time, a rule in favor of university and small business ownership of inventions developed. Now, university and industry collaborative research is at an all-time high, and whole new technologies have flourished as a result.

Despite my efforts on the Bayh-Dole Act and the Stevenson-Wydler Act, I soon discovered that the Federal laboratories still faced problems and disincentives in trying to transfer technology. Last year, I returned to the field to propose the next logical step with the introduction of the Uniform Patent Procedures Act—a bill that extended the principles of the 1980 law to large business contractors and repealed all existing laws which were inconsistent with those principles. It established a clear and consistent presumption in favor of invention ownership for all contractors and eliminated once and for all the hodgepodge of agency patent requirements built up over the years. It had the further effect of luring research investments from large business with their specialized skills, technological expertise, and healthy respect for the dollar.

On the first day of the 99th Congress, I also introducd a second bill, S. 65, designed to enable Federal laboratories to enter into the kinds of successful joint university research and licensing arrangements that have resulted from Public Law 96-517. That bill expressly permitted agency heads to authorize lab directors to undertake a wide range of cooperative R&D arrangements. The labs would negotiate and issue patent licenses, assign ownership rights, and require outside parties to pay royalties for the right to use Government inventions. It provided for direct payment of at least 15 percent of royalties so received to lab investors and allowed labs to keep royalties they receive after payments to investors. This bill further permitted lab inventors to own their inventions if the Government had an insufficient interest in seeking its own patent.

COMMITTEE BILL

Mr. President, I am happy to report today, that the committee reported bill incorporates nearly all of the initiatives I identified in my two previous legislative efforts. As reported, this legislation will improve the technology transfer provisions of the Stevenson-Wydler Act by bringing them into conformity with actual practice and by eliminating some waivers. It will create a Federal laboratory consortium for technology transfer and permit laboratories to enter into cooperative research agreements and negotiate patent licensing agreements. It will also create a system of cash rewards for scientists, engineers, and others and will give 15 percent of the royalties received from an invention to the inventor with the balance distributed amongst the laboratories.

CONCLUSION

Mr. President, America's future demands the liberation of her brightest intellects and broadest imaginations. Over and over, throughout our history, our system of free enterprise, with its incentives and rewards for the new and innovative, has replaced what was adequate for one generation with what is superior for the next. Far better than Government, that system can explore new realms of possiblity. But it cannot compete with foreign challengers with one hand tied behind its back. This legislation will help untie a few knots. I urge my colleagues to join me in supporting it.

● Mr. HOLLINGS. Mr. President, I am pleased that the Senate is considering this important legislation. By allowing Government-operated laboratories to enter into cooperative agreements with industry, and by strengthening the organizations that transfer Federal expertise to the business community and the States, this bill will improve the contribution that Federal labs make to the Nation's industrial modernization, economic development, and overall competitiveness. And it will do this without spending any new Federal dollars.

The bill also enjoys strong bipartisan support, both in the Senate and in the House. In fact, H.R. 3773 passed the House unanimously late last year. Many Senators from both parties have been involved in writing our version. It incorporates many provisions first offered by Senators DOLE and DANFORTH in their bill, S. 65. Later a distinguished group of members, including many colleagues from the Commerce Committee, introduced S. 1914. In March, the Commerce Committee reported that bill without objection, changing the bill number to H.R. 3773. Other Senators have helped us write the noncontroversial amendments that we propose adding to the bill today. Finally, both our bill and the similiar House bill have been written in consultation with executive agencies. The Commerce Department has played a particularly valuable role.

Mr. President, this bill makes a great deal of sense. The Federal Government's laboratories are a tremendous national resource, employing one-sixth of the Nation's scientists and engineers. Of course, their primary function is to perform research in support of essential Federal missions, from defense and energy to health, food, and natural resources. At the same time, however, hearings and research by the Commerce Committee's Science Subcommittee show that these labs also have unique facilities, expertise, and inventions which could help the private sector if they only had legal authority to cooperate with private industry, universities, and the States. For example, the Federal laboratories have patented over 25,000 inventions, many of which could lead to valuable commercial products if Government laboratories and industry were allowed to work together more closely. Moreover, Federal scientists and engineers could provide advice and technical assistance to State and local governments on a wide range of issues.

A few Federal laboratories have the necessary legal authority now, particularly several of the Energy Department facilities run by contractors. Already we are seeing beneficial results. For example, scientists at Los Alamos National Laboratory have invented a process that identifies viruses and bacteria in minutes, rather than the days and weeks now needed. A private company is not working with Los Alamos to develop the product commercially. In addition, the National Bureau of Standards and Oak Ridge National Laboratory are working with the steel industry to modernize steelmaking. The bill that we introduce today would extend this legal authority to over 300 Federal laboratories operated by the Government itself rather than by contractors.

The legislation would allow agencies with Government-operated laboratories to allow these labs to enter into cooperative agreements with corpora-

tions, universities, and State and local government—at the partner's expense—for the purpose of developing new technologies, products, and companies. The labs could waive patent rights to resulting inventions, if that seemed the best way to encourage commercialization of a product, or they could negotiate royalty requirements and reserve such rights as they deem appropriate.

In addition, the new bill also would strengthen the laboratory organizations that provide information and assistance to industry and to State and local officials. These organizations include the small Federal Laboratory Consortium, the one nationwide group that links laboratory technical information specialists to each other.

I want to put to rest one particular concern about cooperative agreements. Some people fear that allowing Government labs to work with private industry may lead the labs to neglect their fundamental Government responsibilities. Believe me, if I thought for a moment that this bill would compromise Federal programs, I would oppose it. But this bill provides the proper safeguards. No agency is required to work with industry—the bill simply permits agency heads, at their discretion, to allow some cooperation with industry. The agency head determines the level of cooperation, the kinds of projects, and what royalties to collect. At the same time, Federal labs would continue to perform their Government responsibilities.

Mr. President, this bill will not magically solve the Nation's economic problems or instantly rejuvenate all industries. It is not a panacea. Many other steps can and should be taken to help American industry regain its technological lead and international competitiveness. This legislation, however, is a concrete and valuable step toward better utilization of the tremendous technology and expertise present in our national laboratories. It will not cost the taxpayers a dime, and it may actually make some money for the Government.

This is an important, innovative bill. I was pleased to join my colleagues from both parties in sponsoring it, and I am pleased today to join them in urging the full Senate to pass it.●

● Mr. RIEGLE. Mr. President, today the Senate is considering an important bill to let our Federal laboratories contribute more fully to American industrial innovation and to State economic development. Recent economic developments clearly show the need for this vital amendment.

As I pointed out when we introduced the original version of this bill, over the last decade this country has become less competitive in world markets for high technology products. The American share of the world market for 8 out of the 10 leading high technology exports has fallen. As developing countries begin to mass produce high technology as well as low technology products, we must push even harder to maintain an advantage in the newest and technologically most advanced product markets. Unfortunately, we are failing to do so.

Federal scientists and engineers have not been as helpful to American industry as they might be—not because they have failed to come up with new ideas, but because Government restrictions have prevented many innovations from being commercially developed. Last year, the Federal Government spent nearly $18 billion on research and development in our national labs. Historically, less than 5 percent of the patents granted to personnel in Federal labs were developed into commercial products. We must do more to foster inventiveness and promote technology transfer.

Congress has acted to help America get more of its money's worth from Federal-funded technology. The original Stevenson-Wydler Act set technology transfer from labs to industry and the States as a national priority. The Bayh-Dole Act of 1980 set a valuable precedent for Federal technology in general by allowing nonprofits and small for-profit businesses to retain ownership of inventions and receive royalties, the incentive needed to persuade companies to invest the money needed to move Federal technology from the laboratory shelf to the commercial marketplace. In 1984, this right was extended to one type of Federal laboratory—labs operated by nonprofits under contracts with the Government. In recent years, the Department of Energy has used separate authority to allow some corporations that operate several other labs under contract to commercialize Federal inventions.

Most Federal laboratories, however, fall into another category; they are operated by Government employees. Inventions at these labs can currently be licensed to private sector firms, with the Government receiving the royalties. The problem, however, has been that these innovations often need a great deal of development before they can be commercialized. Many of these Government-owned, Government-operated facilities lack legal authority to enter into cooperative research arrangements with industry and the States in order to refine these inventions and make them commercially valuable.

The bill before us today would remedy this problem. It would further encourage technology transfer in several ways.

First, agencies could allow their lab directors to enter into cooperative research and development arrangements with industrial organizations and State governments. This provision is discretionary. It does not require labs to work with anyone, but it does allow them to cooperate with American industry to pursue opportunities created by their work. The agencies and labs themselves would decide when, and under what conditions, to work with industry and the States. National security controls on classified information would, of course, be maintained. The national labs would be enabled to receive funds and property from their partners in return for royalties. The labs could negotiate royalties and retain Federal rights to the inventions.

Second, this bill would improve currently existing technology transfer organizations. It would strengthen existing technology transfer offices at the laboratories—the Offices of Research and Technology Applications [ORTA's]. In addition, it would provide modest funding to support the already existing Federal Laboratory Consortium, a volunteer organization helping to transfer technology from the labs to private businesses with a small set-aside from the National Bureau of Standards. This limited amount of funding would begin in fiscal year 1987 and end automatically in fiscal year 1991.

These provisions contain no new authorization and require no new Federal spending. In fact, the Government could receive a stream of new income from negotiating royalties when unused patents are brought to the market.

Mr. President, this is a valuable and important step toward better utilizing the taxpayer's investment in Federal technology. The bill enjoys broad bipartisan support, and I urge our colleagues to support it.●

The PRESIDING OFFICER. The question is on the engrossment of the committee amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

So the bill (H.R. 3773) was passed.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## CENTRAL VALLEY PROJECT

Mr. SIMPSON. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 3113.

The PRESIDING OFFICER laid before the Senate the following mes-

sage from the House of Representatives:

*Resolved*, That the House disagree to the amendments of the Senate to the bill (H.R. 3113) entitled "An Act providing for the coordinated operation of the Central Valley project and the State water project in California", and ask a conference with the Senate on the disagreeing votes of the two Houses thereon.

*Ordered*, That Mr. UDALL, Mr. MILLER of California, Mr. COELHO, Mr. LEHMAN of California, Mr. YOUNG of Alaska, Mr. CHENEY, and Mr. PASHAYAN be the managers of the conference on the part of the House

Mr. SIMPSON. Mr. President, I move that the Senate insist upon its amendments to H.R. 3113 agree to the conference asked by the House, and that the Chair be authorized to appoint conferees on the part of the Senate.

The motion was agreed to and the Chair appointed Mr. MCCLURE, Mr. DOMENICI, Mr. WALLOP, Mr. MURKOWSKI, Mr. EVANS, Mr. JOHNSTON, Mr. FORD, Mr. METZENBAUM, and Mr. MELCHER conferees on the part of the Senate.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

---

## INSULAR AREAS REGULATION ACT

Mr. SIMPSON. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 2478.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

*Resolved*, That the House agree to the amendment of the Senate numbered 1 to the bill (H.R. 2478) entitled "An Act to amend the Revised Organic Act of the Virgin Islands, to amend the Covenant to Establish a Commonwealth of the Northern Mariana Islands, to amend the Organic Act of Guam, to provide for the governance of the insular areas of the United States, and for other purposes.".

*Resolved*, That the House agree to the amendment of the Senate numbered 2 to the aforesaid bill, with the following amendment: In lieu of the sum named in said amendment, insert: *$1,200,000*

*Resolved*, That the House agree to the amendment of the Senate numbered 4 to the aforesaid bill, with the following amendment: In lieu of the matter inserted by said amendment, insert:

*SEC. 9. (a) Section 506 of the Education Amendments of 1972, Public Law 92-318 (86 Stat. 235) is further amended by inserting, "the Northern Marianas College", after "the College of Micronesia" in subsection (a).*

*(b) Section 5 of the Act of August 30, 1980, c. 841, 26 Stat. 417 (the Second Morill Act), as added by section 506(c) of Public Law 92-318 (86 Stat. 235) is amended by striking out "and Micronesia, and Guam" and inserting in lieu thereof "Guam, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands (other than the Northern Mariana Islands)".*

*(c) Subsection (c) of section 1361 of Public Law 96-374 (94 Stat. 1367) is amended by striking out "American Samoa and in Micronesia" and inserting in lieu thereof "American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands (other than the Northern Mariana Islands)".*

*(d) Section 22 of the Act of June 29, 1935, c. 388, 49 Stat. 439, as amended (7 U.S.C. 329) is further amended—*

*(1) by striking out "and Guam" wherever it appears and inserting in lieu thereof "Guam, and the Northern Mariana Islands";*

*(2) by striking out "$8,100,000" and inserting in lieu thereof "$8,250,000"; and*

*(3) by striking out "$4,360,000" and inserting in lieu thereof "$4,380,000".*

*(e) The first sentence of section 3(b)(2) of the Act of May 8, 1914, c. 79, 38 Stat. 372, as amended (7 U.S.C. 343), is further amended by striking out "and Guam" and inserting in lieu thereof "Guam, and the Northern Mariana Islands".*

*(f) Section 10 of the Act of May 8, 1914, c. 79, 38 Stat. 372, as added by section 1(i) of Public Law 87-749 (76 Stat. 745) and as amended (7 U.S.C. 349), is further amended to read as follows: "The term 'State' means the States of the Union, Puerto Rico, the Virgin Islands, Guam and the Northern Mariana Islands.".*

*SEC. 10. The Act of March 24, 1976 (Public Law 94-241; 90 Stat. 263), is amended by adding the following new sections at the end thereof:*

*"SEC. 3. Pursuant to section 701 of the foregoing Covenant, enactment of this section shall constitute a commitment and pledge of the full faith and credit of the United States for the payment of $228 million at guaranteed annual amounts of direct grant assistance for the Government of the Northern Mariana Islands for an additional period of seven fiscal years after the expiration of the initial seven-year period specified in section 702 of said Covenant, which assistance shall be provided according to the schedule of payments contained in the Agreement of the Special Representatives on Future United States Financial Assistance for the Government of the Northern Mariana Islands, executed July 10, 1985, between the special representative of the President of the United States and the special representatives of the Governor of the Northern Mariana Islands. The islands of Rota and Tinian shall each receive no less than a 1/8 share and the island of Saipan shall receive no less than a 1/4 share of annualized capital improvement project funds, which shall be no less than 80 per centum of the capital development funds identified in the schedule of payments in paragraph 2 of part II of the Agreement of the Special Representatives. Funds shall be granted according to such regulations as are applicable to such grants.*

*"SEC. 4. (a) Section 704(c) of the foregoing Covenant shall not apply to the Federal financial assistance which is provided to the Government of the Northern Mariana Islands pursuant to section 3 of this Act.*

*"(b) Upon the expiration of the period of Federal financial assistance which is provided to the Government of the Northern Mariana Islands pursuant to section 3 of this Act, payments of direct grant assistance shall continue at the annual level provided for the last fiscal year of the additional period of seven fiscal years until Congress otherwise provides by law.*

*"SEC. 5. Should the Secretary of the Interior believe that the performance standards of the agreement identified in section 3 of this Act are not being met, he shall notify the Government of the Northern Mariana Islands in writing with the intent to resolve such issue in a mutually agreeable and expeditious manner and notify the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate. Should the issue not be resolved within thirty days after the notification is received by the Government of the Northern Mariana Islands, the Secretary of the Interior may request authority from Congress to withhold payment of an appropriate amount of the operations funds identified in the schedule of payments in paragraph 2 of part II of the Agreement of the Special Representatives for a period of less than one year but no funds shall be withheld except by Act of Congress.".*

*SEC. 11. The final rule of June 18, 1986, amending part 697 of title 29 of the Code of Federal Regulations shall have no effect. The minimum rates of wages paid to the employees in American Samoa shall be those in effect July 1, 1986, until new rates are established by another industry committee acting pursuant to the Fair Labor Standards Act of 1938.*

*SEC. 12. (a) In awarding assistance grants, consolidated under the provisions of title V of the Act entitled "An Act to authorize certain appropriations for the territories of the United States, to amend certain Acts related thereto, and for other purposes" (91 Stat. 1159, as amended), to the Trust Territory of the Pacific Islands, American Samoa, Guam, the Northern Mariana Islands or the Virgin Islands, the Administrator of the Environmental Protection Agency may, in his discretion, adjust or otherwise modify maintenance or level of effort requirements.*

*(b) In awarding grants to the Trust Territory of the Pacific Islands, American Samoa, Guam, the Northern Mariana Islands and the Virgin Islands under section 201(g)(1) of the Clean Water Act (33 U.S.C. 1251 et seq.), the Administrator of the Environmental Protection Agency may waive limitations regarding grant eligibility for sewerage facilities and related appurtenances, insofar as such limitations relate to collector sewers, based upon a determination that applying such limitations could hinder the alleviation of threats to public health and water quality. In making such a determination, the Administrator shall take into consideration the public health and water quality benefits to be derived and the availability of alternate funding sources. The Administrator shall not award grants under this section for the operation and maintenance of sewerage facilities, for construction of facilities which are not an essential component of the sewerage facilities, or any other activities or facilities which are not concerned with the management of wastewater to alleviate threats to public health and water quality.*

*SEC. 13. (a) Section 29 of the Organic Act of Guam (64 Stat. 392) as amended, is further amended—*

*(1) by striking "at such places" and all thereafter in subsection (b) and inserting in lieu thereof "according to the laws of Guam."; and*

*(2) by adding the following new subsection at the end thereof:*

*"(c) The Government of Guam may by law establish an Office of Public Prosecutor and an Office of Public Auditor. The Public*

Prosecutor and Public Auditor may be removed as provided by the laws of Guam.".

SEC. 14. (a) Subsection (l) of section 212 of the Immigration and Nationality Act (8 U.S.C. 1182) is amended to read as follows:

"(l)(1) The requirement of paragraph (26)(B) of subsection (a) of this section may be waived by the Attorney General, the Secretary of State, and the Secretary of the Interior, acting jointly, in the case of an alien applying for admission as a nonimmigrant visitor for business or pleasure and solely for entry into and stay on Guam for a period not to exceed fifteen days, if the Attorney General, the Secretary of State, and the Secretary of the Interior, after consultation with the Governor of Guam, jointly determine that—

"(A) an adequate arrival and departure control system has been developed on Guam, and

"(B) such a waiver does not represent a threat to the welfare, safety, or security of the United States or its territories and commonwealths.

"(2) An alien may not be provided a waiver under this subsection unless the alien has waived any right—

"(A) to review or appeal under this Act of an immigration officer's determination as to the admissibility of the alien at the port of entry into Guam, or

"(B) to contest, other than on the basis of an application for asylum, any action for deportation against the alien.

"(3) If adequate appropriated funds to carry out this subsection are not otherwise available, the Attorney General is authorized to accept from the Government of Guam such funds as may be tendered to cover all or any part of the cost of administration and enforcement of this subsection.

"(b) After consultation with the Secretary of State, the Secretary of the Interior, and the Governor of Guam and within ninety days after the date of the enactment of this Act, the Attorney General shall issue regulations governing the admission, detention, and travel of nonimmigrant aliens pursuant to the visa waiver authorized by the amendment made by subsection (a).

"(c) Each year the Attorney General shall submit a report on the implementation of section 212(l) of the Immigration and Nationality Act to the Committees on the Judiciary and Interior and Insular Affairs of the House of Representatives and the Committees on the Judiciary and Energy and Natural Resources of the Senate.".

SEC. 15. (a) Section 308 of the Immigration and Nationality Act (8 U.S.C. 1408) is amended by adding at the end the following new paragraph:

"(4) A person born outside the United States and its outlying possessions of parents one of whom is an alien, and the other a national, but not a citizen, of the United States who, prior to the birth of such person, was physically present in the United States or its outlying possessions for a period or periods totaling not less than seven years in any continuous period of ten years—

"(A) during which the national parent was not outside the United States or its outlying possessions for a continuous period of more than one year, and

"(B) at least five years of which were after attaining the age of fourteen years.

The proviso of section 301(g) shall apply to the national parent under this paragraph in the same manner as it applies to the citizen parent under that section.".

(b) The amendment made by subsection (a) shall apply to persons born before, on, or after the date of the enactment of this Act. In the case of a person born before the date of the enactment of this Act—

(1) the status of a national of the United States shall not be considered to be conferred upon the person until the date the person establishes to the satisfaction of the Secretary of State that the person meets the requirements of section 308(4) of the Immigration and Nationality Act, and

(2) the person shall not be eligible to vote in any general election in American Samoa earlier than January 1, 1987.

SEC. 16. (a) Section 341 of the Immigration and Nationality Act (8 U.S.C. 1452) is amended—

(1) in the heading, by inserting "OR U.S. NON-CITIZEN NATIONAL STATUS" after "CITIZENSHIP",

(2) by inserting "(a)" after "SEC. 341.", and

(3) by adding at the end the following new subsection:

"(b) A person who claims to be a national, but not a citizen, of the United States may apply to the Secretary of State for a certificate of non-citizen national status. Upon—

"(1) proof to the satisfaction of the Secretary of State that the applicant is a national, but not a citizen, of the United States, and

"(2) in the case of such a person born outside of the United States or its outlying possessions, taking and subscribing, before an immigration officer within the United States or its outlying possessions, to the oath of allegiance required by this Act of a petitioner for naturalization,

the individual shall be furnished by the Secretary of State with a certificate of non-citizen national status, but only if the individual is at the time within the United States or its outlying possessions.".

(b) The item in the table of contents of such Act relating to section 341 is amended to read as follows:

"Sec. 341. Certificates of citizenship or U.S. non-citizen national status; procedure.".

(c) The Secretary of State may not impose a fee exceeding $35 for the processing of an application for a certificate of non-citizen national status under section 341(b) of the Immigration and Nationality Act filed before the end of fiscal year 1987.

SEC. 17. The Act of June 12, 1906 (34 Stat. 259, 43 U.S.C. 391), is amended by inserting a comma after "State of Texas" and adding "American Samoa, Guam, the Northern Mariana Islands and the Virgin Islands.".

SEC. 18. (a) Section 9(a) of the Organic Act of Guam (64 Stat. 387) is amended by adding the following new sentence at the end thereof: "The Government of Guam may by law establish a Civil Service Commission to administer the merit system. Members of the commission may be removed as provided by the laws of Guam.".

SEC. 19. (a) There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this Act.

(b) Pursuant to the terms of the Organic Act of Guam (64 Stat. 384), as amended; the Joint resolution to Approve the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union With the United States of America (90 Stat. 263), as amended; the Puerto Rican Federal Relations Act (64 Stat. 319), as amended and supplemented; and the Revised Organic Act of the Virgin Islands (86 Stat. 497), as amended and supplemented and an Act to authorize appropriations for certain insular areas of the United States, and for other purposes (92 Stat. 487), as amended; there shall be paid into the treasuries of Guam, the Northern Mariana Islands, Puerto Rico, and the Virgin Islands respectively the full amounts which are to be covered into the treasuries of said islands or paid pursuant to said laws as amended and supplemented and such amounts shall not be reduced, notwithstanding Public Law 99-177, Public Law 99-366, or any other provision of law.

"SEC. 20. (a) Section 105(b)(2) of Public Law 99-239 is amended to read as follows:

"(2)(a) Except for programs or services provided by or through other federal agencies or officials to the Federated States of Micronesia or the Republic of the Marshall Islands, or for which residents thereof are eligible pursuant to the Compact or any other provision of this joint resolution, appropriations made pursuant to the Compact or any other provision of this joint resolution may be made only to the Secretary of the Interior. The Secretary of the Interior shall coordinate and monitor any programs or activities, including such activities for which funding is made directly to such other agencies, provided to the Federated States of Micronesia or the Republic of the Marshall Islands by agencies of the Government of the United States and related economic development planning pursuant to the Compact or pursuant to any other authorization except for the provisions of sections 161(e), 313, and 351 of the Compact and the authorization of the President to agree to an effective date pursuant to this resolution. Funds appropriated to the Secretary of the Interior pursuant to this paragraph shall not be allocated to other Departments or agencies, except that the Secretary of the Interior shall be able to reimburse Departments or agencies for purposes authorized by this joint resolution.

"(b) The programs and services specified in section 105(h)(1), sections 105(i) (1) and (2), section 111(a), the services of the National Health Service Corps pursuant to section 105(k), and the Technical Assistance and National Historic Preservation Act grants pursuant to section 105(l), of Public Law 99-239 shall be provided on a nonreimbursable basis.".

SEC. 21. (a) Section 373 of title 28, United States Code, is amended to read as follows:

"§ 373. Judges in Territories and Possessions

"(a) Any judge of the District Court of Guam, the District Court of the Northern Mariana Islands, or the District Court of the Virgin Islands who retires from office after attaining the age and meeting the service requirements whether continuous or otherwise, of subsection (b) shall, during the remainder of his lifetime, receive an annuity equal to the salary he is receiving at the time he retires.

"(b) The age and service requirements for retirement under subsection (a) of this section are as follows:

| "Attained age: | Years of service: |
|---|---|
| 65 | 15 |
| 66 | 14 |
| 67 | 13 |
| 68 | 12 |
| 69 | 11 |
| 70 | 10 |

"(c)(1) Any judge or former judge who is receiving an annuity pursuant to this section may elect to become a senior judge of the court upon which he served before retiring.

*"(2) The chief judge of a judicial circuit may recall any such senior judge, with the judge's consent, to perform, for the court from which he retired, such judicial duties for such periods of time as the chief judge may specify.*

*"(3) Any act or failure to act by a senior judge performing judicial duties pursuant to recall under paragraph (2) of this subsection shall have the same force and effect as if it were an act or failure to act of a judge on active duty; but such senior judge shall not be counted as a judge of the court on which he is serving as a recalled annuitant for purposes of the number of judgeships authorized for that court.*

*"(4) Any senior judge performing judicial duties pursuant to recall under paragraph (2) of this subsection shall be paid, while performing such duties, the same compensation (in lieu of the annuity payable under subsection (a) of this section) and the same allowances for travel and other expenses as a judge on active duty with the court being served.*

*"(5) Any senior judge performing judicial duties pursuant to recall under paragraph (2) of this subsection shall at all times be governed by the code of judicial conduct for United States judges approved by the Judicial Conference of the United States.*

*"(d) Any judge who elects to become a senior judge under subsection (c) of this section and who thereafter—*

*"(1) accepts civil office or employment under the Government of the United States (other than the performance of judicial duties pursuant to recall under subsection (c) of this section);*

*"(2) engages in the practice of law; or*

*"(3) materially violates the code of judicial conduct for United States judges,*

*shall cease to be a senior judge and to be eligible for recall pursuant to subsection (c) of this section.*

*"(e) Any judge of the District Court of Guam, the District Court of the Northern Mariana Islands, or the District Court of the Virgin Islands who is removed by the President of the United States upon the sole ground of mental or physical disability, or who is not reappointed (as judge of such court), shall be entitled, upon attaining the age of sixty-five years or upon relinquishing office if he is then beyond the age of sixty-five years, (1) if his judicial service, continuous or otherwise, aggregates fifteen years or more, to receive during the remainder of his life an annuity equal to the salary he received when he left office, or (2) if his judicial service, continuous or otherwise, aggregated less than fifteen years but not less than ten years, to receive during the remainder of his life an annuity equal to that proportion of such salary which the aggregate number of his years of his judicial service bears to fifteen.*

*"(f) Service at any time as a judge of the courts referred to in subsection (a) or of any other court of the United States, as defined by section 451 of this title, shall be included in the computation of aggregate years of judicial service for purposes of this section.*

*"(g) Any retired judge who is entitled to receive an annuity under subsection (a) shall be entitled to a cost of living adjustment in the amount payable to him computed as specified in section 8340(b) of title 5, except that in no case may the annuity payable to such retired judge, as increased under this subsection, exceed 95 per centum of the salary of a United States district judge in regular active service.".*

*(b)(1) Subsection (a)(1)(B) of section 376 of title 28, United States Code, is amended to read as follows:*

*"(B) a judge of the District Court of Guam, the District Court of the Northern Mariana Islands, or the District Court of the Virgin Islands;".*

*(2) Subsection (a)(2)(B) of section 376 of title 28, United States Code, is amended to read as follows:*

*"(B) in the case of a judge of the District Court of Guam, the District Court of the Northern Mariana Islands, or the District Court of the Virgin Islands, (i) an annuity paid under subsection (a) of section 373 of this title or (ii) compensation paid under paragraph (4) of subsection (c) of section 373 of this title;".*

*(c) The amendments made by this section shall not affect the amount payable to a judge who retired in accordance with the provisions of section 373 of title 28, United States Code, in effect on the day before the date of enactment of this Act.*

*SEC. 22. (a) The first proviso of section 2(a)(2) of Public Law 94-204 (89 Stat. 1146) as amended by section 1411(a) of Public Law 96-487 (94 Stat. 2498) is amended to read as follows: "Provided, That the interest on proceeds received prior to January 2, 1976, shall be calculated and paid at the rate of the earnings on Individual Indian Moneys in the custody of the Secretary of the Interior pursuant to sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9) and invested by him pursuant to the Act of June 24, 1938 (25 U.S.C. 162a), from the date of receipt to January 2, 1976. Effective January 2, 1976, the interest so calculated shall be added to the principal amount of such proceeds. The interest on this total amount and on proceeds received on or after January 2, 1976, shall be calculated and paid as though such proceeds and previously calculated interest had been deposited in the escrow account from January 2, 1976, or the date of receipt, whichever occurs later, to the date of payment to the affected Corporation.".*

*(b) Section 2(e) of Public Law 94-204 (89 Stat. 1146) as added by section 1411(b) of Public Law 96-487 (94 Stat. 2498) is amended to read as follows:*

*"(e) The Secretary shall calculate the amounts payable pursuant to this section and notify the affected Corporation of the results of his calculations. The affected Corporation shall have thirty days in which to appeal the Secretary's calculations after which the Secretary shall promptly make a final determination of the amounts payable. The Secretary shall certify such final determinations to the Secretary of the Treasury and each determination shall constitute a final judgment, award, or compromise settlement under section 1304 of title 31 of the United States Code. The Secretary of the Treasury is authorized and directed to pay such amounts to the appropriate Corporation out of funds in the Treasury: Provided, That if the lands from which the proceeds and interest entitlement are derived have not been conveyed to the selecting Native Corporation at the time the Secretary makes his final determination, the Secretary of the Treasury is authorized and directed to pay such amount into the escrow account where it will earn interest and be disbursed in the same manner as other proceeds and interest.".*

*Resolved,* That the House disagree to the amendment of the Senate numbered 3 to the aforesaid bill.

● Mr. McCLURE. Mr. President, each year the Congress endeavors to pass an omnibus territories measure containing legislative provisions on matters concerning the territories of the United States. Although it has been the practice of Congress to pass such a measure annually, in 1985 the House passed the year's omnibus territories measure, H.R. 2478, with only 3 weeks left in the session and the Senate had insufficient time for consideration and passage in the 1st session of the 99th Congress. On April 24, 1986, the Senate passed the measure with amendments which would, in addition to making technical modifications, concur in the original nine House provisions and would add six additional provisions that had come to light during the few months since House passage. On August 1, 1986, the House passed amendments to the Senate amendments which would, in addition to making certain technical changes, delete two of the Senate provisions and add nine new provisions.

These House amendments represent a considerable amount of effort on the part of House and Senate staff who, in working with the various authorizing committees, administrative agencies, and territorial governments and representatives, have developed a consensus on a variety of provisions of interest to the territories. Rather than describe all 22 provisions which would be approved by the House amendments, I have listed a description of the 9 new provisions as well as a description of the 2 provisions that the House deleted from the 15 provisions passed by the Senate on April 24, 1986.

The nine new provisions which would be added by the House amendments are new section 11, and sections 15 through 22.

Section 11 requires that the Labor Department call a Special Industry Committee on minimum wages in American Samoa pursuant to the Fair Labor Standards Act [FLSA]. It is the intent of the FLSA that the minimum wage in American Samoa shall be increased to the national minimum wage at a rate that "will not substantially curtail employment." However, the previous Special Committee's recommendation, effective July 7, 1986, have already resulted in the loss of 700 jobs. This provision would void the July 7 final rule and require a reexamination of the wage increase in American Samoa by a new Special Industry Committee. House and Senate Labor Subcommittee staff are willing to agree to this provision because it does not amend the FLSA nor does it alter the intent of FLSA that the minimum wage shall apply in American Samoa.

Section 15 grants U.S. national status to certain long-term alien residents of American Samoa who were born outside of the United States to one U.S. national parent. This provision makes treatment of nationals con-

sistent with the treatment of citizens in regard to their being born outside the United States to one parent who is a national or a citizen, respectively. It is estimated that there are some 400 such persons in Samoa, almost all of whom were born in Western Samoa to one Western Samoan and one American Samoan parent. These persons would be eligible to become U.S. nationals.

Section 16 is closely related to section 15 and is technical in nature. It would authorize the issuance of certificates of U.S. nationality by the State Department to U.S. noncitizen nationals in order to improve record keeping with regard to the status of American Samoans.

Section 17 authorizes American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands to receive assistance from the Bureau of Reclamation. All of the insular areas have critical water resource needs and it is intended that the authority granted by this section will enable the Bureau to assist in meeting those needs. It is noteworthy that, on occasion, the Bureau has detailed personnel to the insular areas under the Department of the Interior's technical assistance efforts.

Section 18 authorizes Guam to establish a Civil Service Commission to administer a merit system. The provision is similar to the provision authorizing offices of public prosecutor and public auditor which were previously included in the bill by Senate amendment. Because of uncertainty over Guam's authority to create independent agencies, this provision is enacted as Federal law at the request of the Delegate from Guam, Mr. BLAZ.

Section 19 has two parts. First, it authorizes whatever appropriations may be needed to carry out this act. This part was added at the request of the House Immigration Subcommittee to cover any additional costs associated with the three immigration related sections of the bill. Although it is open-ended, only minimal, if any, additional appropriations are expected to be needed. Second, this section would require the full amounts required to be paid to Guam, the Northern Mariana Islands, Puerto Rico, and the Virgin Islands under the laws establishing their relationships with the United States, shall be paid. It would supersede the Balanced Budget and Emergency Deficit Control Act of 1985 (Gramm-Rudman) which is temporarily withholding a portion of these payments. In an appearance before the Budget Committee, OMB Director Miller identified this problem as a technical deficiency in the Gramm-Rudman law. He noted that these payments "appear in the Federal budget as an incidental matter for convenience of administration rather than as a means of resource allocation". Gramm-Rudman failed to exempt these payments from sequestration although the full amount of payments will eventually be paid to the insular governments. In the case of Puerto Rico, tax collections are required to be placed in a trust fund, the unobligated balance of which can only be released to the Commonwealth. Discrepancies between advance estimate payments of tax collections for Guam and the Virgin Islands are reconciled and paid to these governments at the end of each fiscal year. In the case of the Northern Mariana Islands, the payments are guaranteed grants and can be obtained, ultimately, through court action. Failure to provide these funds is serious because they are each required under mutual agreements reached between the United States and these respective territories. In any case, sequestration of these funds cannot reduce the deficit because they will eventually be released. The effect of the delay is to exacerbate territorial deficit problems and sour Federal/territorial relations.

Section 20 would amend the law approving the Compact of Free Association (Public Law 99-239) to clarify how appropriations are to be made for certain programs and services required by that law. The Office of Management and Budget has taken the view that all programs and services provided to the Federated States of Micronesia [FSM] and the Marshall Islands [RMI] under the compact must be funded by appropriations to the Department of the Interior despite the fact that such an interpretation is illogical and contrary to congressional intent. This provision would make explicit congressional intent that only programs for which a specific authorization is included in Public Law 99-239 are to be funded through the Department of the Interior. Programs and services extended to the FSM and RMI under the compact for which the compact only provides eligibility to participate, shall continue to be funded and administered in the FSM and RMI on a nonreimbursable basis as they are in other areas of the United States through the normal appropriations process for such agencies. It is important to note the strong bipartisan support for this provision in both Houses of Congress. Without this provision it is likely that OMB will continue to misinterpret congressional intent regarding the extension of programs and services to Micronesia under the terms of Public Law 99-239.

Section 21 authorizes judges of the U.S. District Courts of Guam, the Northern Mariana Islands, and the Virgin Islands to receive the full salary of office if and when they elect to take senior status. In the 1984 omnibus territories bill the territorial judges—article 3 judges—were authorized to "elect" senior status. However, their retirement benefits were not adjusted equal to that of other lifetime senior judges—article 1 judges. This provision would authorize the same retirement pay for territorial judges who elect senior status as is provided to other senior status judges in the United States and Puerto Rico. There are four judges affected by this provision. The language was revised by the Administrative Offices of the Courts.

Section 22 does not relate to the territories but would provide for the payment and compounding of interest to Alaska Native corporations on the proceeds from Native lands committed to the Alaska National Interest Lands Conservation Act. This section was added at the request of Congressman DON YOUNG.

The House amendments would delete two of the sections of H.R. 2478, which would have been added to the bill by the Senate amendments of April 24, 1986.

The House dropped the Senate provision, section 11, which would have exempted aircraft flying between the Pacific territories and Honolulu from FAA noise regulations. The provision was deleted because the chairman of the House Aviation Subcommittee, Mr. MINETA, objected to a noise exemption for aircraft stopping in nonterritorial areas, such as Honolulu. Without the ability to stop in Honolulu, the exemption was considered to be of no value and it was agreed to drop it.

The House also dropped the Senate provisions of section 14 which would have amended the Immigration and Nationality Act to correct an inconsistency in the immigration law that allows alien crewmen on foreign vessels to get shore leave while denying the same alien crewmen shore leave if they work on U.S. vessels. This section was dropped because the House Immigration Subcommittee insisted that the provision be moved as a freestanding bill under its jurisdiction. The subcommittee has since passed such a measure and it is expected to be passed by the Senate Immigration Subcommittee shortly.

In addition to these changes the House amendments made modifications to section 10, approving the new 7-year financial assistance agreement between the United States and the Northern Mariana Islands. This agreement is sound and has the full support of the United States and the Northern Mariana Islands, the two governments that negotiated the agreement. There are certain provisions of the agreement, and of the House amendment modifying the agreement, on which it would be appropriate to comment.

The language of the House amendment states that these financial assistance funds shall be provided according to the schedule of payments contained in the agreement. It is, of course, in-

tended that the funds will be provided only if and upon fulfillment of the other provisions of the agreement by the Northern Mariana Islands, particularly the fulfillment of the performance standards provisions of the agreement.

This section of H.R. 2478, as amended by the House, remains consistent with the section as it was reported by the Committee on Energy and Natural Resources and with the intent as described in the committee report, Senate Report 99-262.

First, the agreement provides that the financial assistance payments for operations shall be subject to withholding if the Northern Mariana Islands fails to meet the performance standards of the agreement. It is congressional intent that the authorization for such withholding shall be by act of Congress—this is specifically intended to include acts of appropriation. Furthermore, it is also congressional intent that this process for the withholding of funds pursuant to this agreement is in no way related to the President's existing authority to defer funds under the Budget and Impoundment Act.

Second, the grants under the new financial assistance agreement, although covered by a pledge of full faith and credit, shall be subject to all regulations as are applicable to such grants.

Finally, concerns have been raised as to the amounts which would be paid after termination of this agreement, that is, in the eighth year. It is intended that amounts provided in the eighth year shall be as provided by Congress.

I would like to thank Senators WEICKER and JOHNSTON, two of my colleagues on the Committee on Energy and Natural Resources, and their staffs for their continuing interest and assistance on legislation regarding territorial matters. I would also like to acknowledge the efforts of staff of the House and of the several Senate subcommittees who assisted in the development of these amendments.

I urge my colleagues to join with me in adoption of these House amendments to the Senate amendments and in final passage of H.R. 2478.●

● Mr. MURKOWSKI. Mr. President, I commend the members of the Senate Energy and Natural Resources Committee and the House Interior and Insular Affairs Committee for pursuing this important legislation. A significant provision was included by the House of Representatives that will resolve an issue affecting Alaska's Native Corporations, and I commend the efforts of Representative DON YOUNG, Chairman MORRIS UDALL and Representative LUJAN for including this provision.

Section 22 of this bill amends section 2 of Public Law 94-204 to provide for expeditious payment of interest to Alaska Native Corporations. Section 2 was enacted in 1976 and was amended by section 1411 of the Alaska National Interest Lands Conservation Act in 1980.

Section 2 established an escrow account to collect and preserve for the ultimate Native landowners the proceeds that the Federal Government was receiving on lands selected by Native corporations, including revenues received from proportionate economic interests and property rights under section 14(g) of the Alaska Native Claims Settlement Act. In 1980 amendments, Congress pledged to pay interest on these proceeds, whether escrowed or not. These amounts were intended to constitute an interest in land within the meaning of the Alaska Native Claims Settlement Act. The bill now before the Senate will complete this long-delayed pledge.

The legislation directs the Department of the Interior to calculate any remaining principal amounts—including in-kind economic benefits—and the interest amounts owed and directs the Treasury Department to pay this amount to the affected Native corporation using 31 U.S.C. 1304 funds. These amounts may be calculated and paid on a corporation-by-corporation basis, or by such other methods as will expedite payment. After the Native corporation is notified of the Secretary of the Interior's initial calculation, this legislation allows the Native corporation 30 days to appeal to the Secretary for reconsideration of the amount owed and the administrative appeal does not affect existing rights to judicial review.

The fiscal year 1986 Interior and Related Agencies Appropriation Act (Public Law 99-450) appropriated the principal amount of the proceeds identified by the Secretary of the Interior, but did not appropriate funds for interest due to unresolved issues as to how the interest would be calculated. The Conference Report (H.R. Rept. No. 99-450) on the Appropriation Act required the Secretary to report to Congress on resolving the interest issue. The Conference Report directed that compound interest—"periodic addition of accrued interest to principal"—under prevailing Bureau of Indian Affairs interest rates, be paid to "make the Native corporations whole." The Secretary's report, dated July 18, 1986, ignores this directive and would award only simple interest for pre-1976 proceeds. That is not what Congress intended and this amendment would correct any latent ambiguity.

Consistent with the objective of making the Native corporations whole, this legislation directs the payment of compound interest on all the proceeds. For time periods prior to January 2, 1976—the date of enactment of Public Law 94-204—the interest rate shall be the monthly rate of earnings on invested funds of the individual Indian moneys account of the Secretary of the Interior, with monthly compounding of those rates. For time periods on or after January 2, 1976, the interest rate shall be the monthly rates of return actually earned on the Alaska Native escrow account, with monthly compounding of those rates.

This legislation fairly resolves the ambiguities in the section 2 interest methodology. Portions of section 2 suggest a fixed interest rate at the "time of payment"—which could mean either the time of payment receipt by the Government or the time of payment to the Natives—while other portions suggest a floating interest rate determined on a "semiannual" basis. This legislation provides for a floating interest rate reflecting the Government's rate of return on the Native's money, so that Natives will not be penalized or receive a windfall from a fixed interest rate.

While section 2 referred to "simple interest," it also described "semiannual computations," thereby suggesting that the simple interest would be reinvested or compounded every 6 months. Aside from these ambiguities, section 2(a)(2) provided a commitment to pay the money within 2 years; by 1982—a short time where there would be no great difference between compounded and simple interest rates. This deadline was not met. Compound interest now is required to "make the Natives whole," as Congress recognized in the 1985 conference report. The Government effectively earned compound interest on the Natives' money by foregoing compounded borrowing costs and denied the Natives the ability to earn compound interest, so only a compounded rate of return will make the Natives whole.

The legislation appropriately uses the judgment and settlement fund of the Treasury—31 U.S.C. 1304—since the bill settles an outstanding Federal debt, avoids litigation, and settles land-related claims under the Alaska Native Claims Settlement Act. The Treasury fund also allows a more expeditious certification of interest amounts and payment to the Natives because it avoids the need for individual appropriations each year. The money is desperately needed by many Native corporations. This bill fulfills the long-delayed legislative commitment to pay interest, and eliminates a greater Federal interest debt in the future.

Mr. President, I thank all those who have been involved in the resolution of this long outstanding debt to Alaska Native corporations. I remind my colleagues that the funds have been owed for over 15 years, and today Congress

finally is making a proper accounting, with interest.

I extend my warmest appreciation to Alaska's Congressman, DON YOUNG, and to Rich Agnew of his staff for responding so ably in securing this provision in the House of Representatives. DON has consistently shown his strong commitment to Alaska's Natives, and this measure is but one more example of DON's continuing legislative efforts on their behalf.

My senior colleague and friend, Senator TED STEVENS, has given his strong support to resolve the escrow account problem through his good work on the Interior Appropriations Subcommittee.

Mr. President, I cannot conclude my remarks without paying special tribute to my executive assistant, Mary McGuire, who, along with George Kriste, Frank Klett, and Steve Hillard of the Cook Inlet Regional Corp., worked for over 3 years to seek the return of funds owned to the Native corporations. Mary's relentless pursuit of this issue was an extraordinary effort which involved highly complex research and constant communication with the Federal Government to insure that funds were properly identified. Through Mary's efforts, $10.1 million was returned to the Native corporations by the Minerals Management Service from funds received in oil and gas production. Later, $7.8 million was appropriated for non oil and gas funds owed to the Native corporations. Now, with the legislation before the Senate, the complex question of interest payments on these funds will be resolved and systematically paid. Clearly, Mr. President, Mary McGuire's diligence and tireless work resulted in the successful resolution of this issue, and I am deeply grateful for her efforts.

Mr. President, I urge the Senate to pass H.R. 2478.●

Mr. SIMPSON. Mr. President, I move that the Senate recede from the amendment No. 3 and concur in the House amendments to the Senate amendments numbered 2 and 4.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Wyoming.

The motion was agreed to.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

---

## TITLE 17—UNITED STATES CODE AMENDMENT

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Senate now turn to H.R. 3108 making technical changes in the Copyright Act.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Wyoming?

Mr. BYRD. No objection.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3108) To amend title 17, United States Code, to clarify the definition of the local service area of a primary transmitter in the case of a low power television station.

AMENDMENT NO. 2689

(Purpose: To eliminate certain requirements of cable systems)

Mr. SIMPSON. Mr. President, I send an amendment to the desk on behalf of Senator Mathias and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. SIMPSON] for Mr. MATHIAS, proposes an amendment numbered 2689.

Mr. SIMPSON. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place add the following new section:

Sec. . (a) Section 111(d) of title 17, United States Code, is amended—

(1) in paragraph (3) by striking out "clause (2)" and inserting in lieu thereof "paragraph (1)";

(2) in paragraph (2) by striking out "clause (5)" and inserting in lieu thereof "paragraph (4)";

(3) in paragraph (2)(B) by striking out "clause (5)" and inserting in lieu thereof "paragraph (4)";

(4) by striking out paragraph (1); and

(5) by redesignating paragraphs (2), (3), (4), and (5) as paragraph (1), (2), (3), and (4), respectively. (b) Section 111(f) of title 17, United States Code, is amended by striking our "subsection (d)(2)" in the third undesignated paragraph defining a cable system and inserting in lieu thereof "subsection (d)(1)".

(c) Section 801(b)(2) of title 17, United States Code, is amended by striking out "111(d)(2)(B)" each place it appears and inserting in lieu thereof "111(d)(1)(B)".

(d) Section 801(d)(2)(D) of title 17, United States Code, is amended by striking out "111(d)(2) (C) and (D)" and inserting in lieu thereof "111(d)(1) (C) and (D)".

Mr. MATHIAS. Mr. President, my amendment to H.R. 3108 would amend section 111(d)(1) of title 17 of the United States Code to eliminate the notice of identity and notice of change requirements of the Copyright Act.

Under current law, cable systems must file with the Copyright Office prior to going into operation a statement of identify, and within 30 days of changing ownership a notice of change. The elimination of these requirements is in no way controversial, and would relieve the Copyright Office and cable system operators of the administrative burden of filing and processing duplicative information. Neither copyright owners, the Copyright Royalty Tribunal, nor the general public make use of this information.

Under section 111(d)(2) of the Copyright Act, cable system operators file with the Copyright Office semiannual statements of account. Those statements contain all the information required in the section 111(d)(1) notices as well as detailed information about the signal carriage complement and revenues of each cable system. The statements of account are kept in a public file at the Copyright Office so that copyright owners, the Copyright Royalty Tribunal and other interested parties have access to all information contained in the statements. It thus serves no useful purpose for cable system operator to file with the Copyright Office, and for the Copyright Office to maintain records of, section 111(d)(1) notices of identity and change of ownership. This amendment would merely eliminate section 111(d)(1) of the Copyright Act, and technically adjust other references in the act to conform with the redesignation of the remaining subsections of section 111(d).

This amendment was requested by the Copyright Office. It will assist the Office in promoting administrative efficiency and alleviate the burden on the Copyright Office's Licensing Division of maintaining records that are not utilized by the Office or the public. This change is supported by the Motion Picture Association of America, Broadcast Music, Inc., the National Association of Broadcasters, and the cable industry. I ask unanimous consent that letters from these organizations be printed in the RECORD following these remarks.

It appears that this amendment is both useful and uncontroversial, and I urge its immediate adoption.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

NATIONAL ASSOCIATION OF BROADCASTING,
*June 26, 1986.*

Mr. STEVEN J. METALITZ,
*Chief Counsel, Subcommittee on Patents, Copyrights and Trademarks, Dirksen Senate Office Building, Washington, DC.*

DEAR STEVE: On May 29, 1986, I received a letter from Ms. Dorothy Schrader, General Counsel of the Copyright Office suggesting the elimination of two reporting and filing requirements found in 17 U.S.C. Section 111(d)(1).

After consulting with counsel, I can inform you that we are in agreement with Ms. Schrader regarding the elimination of the Notice of Identity and the Notice of Signal Carriage.

I hope this information has been helpful. Please let me know if I can be of any further assistance.

Sincerely,

JOHN B. SUMMERS.

BROADCAST MUSIC INC.,
*New York, NY, June 30, 1986.*

Mr. STEVEN J. METALITZ, Esq.,
*Subcommittee on Patents, Copyrights and Trademarks, Senate Committee on the Judiciary, Senate Dirksen Office Building Washington, DC.*

Re: Elimination of Notice of Identity and Notice of Change Requirements in Section 111(d)(1) of the Copyright Act.

DEAR MR. METALITZ: We have been advised that the General Counsel of the Copyright Office has recommended the elimination of two reporting and filing requirements of 17 U.S.C. §111(d)(1).

On behalf of BMI, I wish to advise you that the Notice of Identity and the Notice of Signal Carriage. reports serve no useful function for our organization. We therefore, would have no objection to the elimination of these reports.

We believe that at a time when the Copyright Office must make every effort to reduce staff, the elimination of unnecessary paperwork should certainly be fostered.

We therefore, urge that the proposed legislation to eliminate these filings be adopted.

Very truly yours,

EDWARD W. CHAPIN.

---

NATIONAL CABLE TELEVISION ASSOCIATION
*Washington, DC, August 1, 1986.*

Hon. CHARLES MCC. MATHIAS,
*Chairman, Subcommittee on Copyrights, Patents and Trademarks, Committee on the Judiciary, U.S. Senate, Washington, DC.*

DEAR CHAIRMAN MATHIAS: The National Cable Television Association is pleased to provide you with its views on H.R. 3108, "the Low Power Television bill."

NCTA is the principal trade association of the cable TV industry and represents over 2,400 cable systems serving more than 75% of the 40 million cable homes in the United States. We also represent 56 cable programming services who create, package, and provide quality TV programming for cable subscribers.

H.R. 3108 is legislation that has been urged upon Congress by the low power television industry in order to dispel some confusion about whether or not carriage of local low power stations on cable systems triggers copyright royalty payment liability for those systems. Because low power television stations did not qualify for mandatory carriage under the old rules of the FCC that have since been invalidated by the District of Columbia Circuit Court of Appeal on First Amendment grounds, there is some uncertainty whether these low power stations might be considered "local" for purposes of copyright royalty liability.

As you recall from the deliberations on the Copyright Reform Act of 1976, cable was given a compulsory license to retransmit any domestic television broadcast signal, but only incurs copyrights liability if that signal is "distant." The then-existing must-carry rules were used as a conventient discription of which signals would be deemed "local," but, as the legislative history to the Act makes abundantly clear, neither the compulsory license nor the attendant copyright liability was made contingent upon must-carry. The two simply were deemed separate and unrelated concepts.

With this legislative history, NCTA has long believed that carriage of "local" low power television stations on cable systems triggers no liability. If the low power television industry and Congress feel that the clarifications of H.R. 3108 are desirable in order to facilitate carriage of low power stations on cable systems, NCTA certainly does not object. NCTA also has reviewed the technical amendments prepared by the Copyright Office which would reduce the reporting burdens on cable systems and the compilation burdens of the Copyright Office. NCTA supports these amendments.

Sincerely,

JAMES P. MOONEY.

---

MOTION PICTURE ASSOCIATION OF AMERICA, INC.,
*Washington, DC, June 1, 1986.*

DOROTHY SCHRADER, Esq.,
*General Counsel, Library of Congress, Washington, DC.*

DEAR MS. SCHRADER: This is in response to your letter of May 29 concerning the proposed elimination of the reporting and filing requirements of 17 U.S.C. Section 111(d)(1)—Notice of Identity and Notice of Signal Carriage.

MPAA supports the elimination of unnecessary and burdensome filing requirements and endorses your recommendation to the Chief Counsels of the House and Senate copyright subcommittees.

However, having expressed support for elimination of unnecessary filing requirements, I would like to take this opportunity to urge you to adopt appropriate regulations and/or procedures that would assign a permanent identification number to each cable system using the cable compulsory license. The reasons for this request and a suggestion for its implementation are set forth in the attached memorandum from my colleague, Allen Cooper.

A permanent cable system identification number would, in our opinion, be of great assistance to the Copyright Office and all parties who must refer to and assimilate statement of account information each year. I trust that you will give this request your careful consideration and conclude that the effort required to assign permanent identification numbers is both justified and appropriate in light of the substantial paperwork reduction that will be accomplished by elimination of the Notices of Identity and Signal Carriage.

Sincerely,

FRITZ E. ATTAWAY.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2689) was agreed to.

● Mr. MATHIAS. Mr. President, the Senate is now considering H.R. 3108, which makes a technical amendment to the Copyright Act to clarify the status of low power television. This new communications technology has great potential to expand television viewing opportunities, particularly in rural areas. H.R. 3108 is identical to S. 1526, which I introduced in July of last year.

H.R. 3108 will clarify that cable television systems may carry nearby low power television signals as local broadcasts, rather than as "distant" signals. When Congress revised the copyright law in 1976, low-power television was not yet in use to any significant degree. The compulsory copyright license for cable transmission of broadcast signals was based on Federal Communications Commission regulations then in force, and as a result the status of this new technology is not completely clear under the law. This minor change in the copyright law will assure that low-power stations can be carried on local cable systems without incurring distant signal copyright royalty liability. This legislation is strongly supported by the low-power television industry and by cable operators. It is also supported by the Copyright Office which assisted in its drafting.

Representative KASTENMEIER, Chairman of the Subcommittee on Courts, Civil Liberties and the Administration of Justice of the House Judiciary Committee, introduced H.R. 3108 in the House and guided it to passage by the other body by voice vote on July 28. I commend his initiative and leadership on this issue. I would also like to thank Senators LAXALT and HECHT for their cosponsorship and support of this change in the copyright law.●

● Mr. LEAHY. Mr. President, I compliment the senior Senator from Maryland, the Chairman of the Senate Subcommittee on Copyrights, Patents and Trademarks, for his effort at moving this legislation along. By clarifying the terms of section 111 of the Copyright Act, the Senator's legislation will help make the promise of the low power television industry a reality, especially in rural areas which are underserved by conventional television stations. Before we take final action on this legislation, however, I would like to ask the Senator from Maryland a couple of questions concerning the need for and purpose of the legislation.

Am I correct that this bill really makes only a technical clarification of the cable compulsory license contained in the Copyright Act? The need for this technical clarification arises from the fact that low power television stations had not been licensed in 1976 when the Copyright Act revision was enacted?

● Mr. MATHIAS. The Senator is correct. In 1976, when Congress enacted section 111 governing the retransmission of broadcast signals on cable television systems, low power television stations did not exist. It wasn't until 6 years later, in 1982, that the Federal Communications Commission first authorized the licensing of low power television stations. When Congress enacted the cable compulsory license it referred the FCC's "must carry" rules in existence at the time. This reference was made to distinguish between "local" and "distant" signals for purposes of determining the fees which a cable system would pay under the terms of the compulsory license. Since low power television stations did not exist at that time, they were, of

course, not part of the FCC's must carry regulations in existence in 1976.

● Mr. LEAHY. Does the Senator agree that in enacting section 111(f) which defines "local service area of a primary transmission" Congress was attempting to set down a policy which distinguished "local" from "distant" signals for purposes of copyright royalty payments? Therefore, treating the retransmission of a low power television signal within its own local service area as a "local" signal for purposes of section 111 affectuates the original intent of Congress in enacting section 111(f)?

● Mr. MATHIAS. Absolutely. Whether or not local retransmission of low power television signals falls within the black letter definition of the 1976 act, it was certainly the intent of Congress that such local transmission be treated as a local signal for purposes of calculating copyright payments.

● Mr. LEAHY. Then this bill does not create a new compulsory license in the Copyright Act for the retransmission of low power television signals?

● Mr. MATHIAS. This bill does not create a new compulsory license. It simply makes a technical clarification of the existing compulsory license for cable retransmissions of broadcast signals.

● Mr. HATCH. Program producers represented by the Motion Picture Association of America have opposed this bill because they believe that it broadens the current cable compulsory license, which they object to, in principle. Does the Senator believe that this bill, in fact, broadens the current cable compulsory license?

● Mr. MATHIAS. No. As I stated earlier, I believe that Congress intended in 1976 to treat all local retransmission of broadcast signals as "local" signals as distinct from "distant" signals for purposes of calculating copyright royalty payments. This bill merely affectuates that policy.

● Mr. HATCH. Program producers have also argued that low power television stations do not need this bill because they can obtain cable retransmission rights from program owners and transfer those rights to the local cable system operator. Therefore, they do not need to resort to compulsory licensing. Can we rely on the free market to insure that low power television station owners are able to secure cable carriage?

● Mr. MATHIAS. The Senator from Utah has raised an excellent point, but it really goes to the larger question of the continued need and vitality of the cable compulsory license and whether its current terms are fair and equitable. I would have no objection to exploring that question further in our subcommittee, but as long as we continue to make the benefits and burdens of compulsory licensing available for full power television, I think it is only fair and equitable to treat low power television in a consistent manner.

Mr. LEAHY. The Senator from Maryland has been at the forefront of efforts to have the United States adhere to the Berne Copyright Convention. I think it is generally agreed among experts who have examined the U.S. Copyright Law that the cable compulsory license is consistent with Berne. Is that the Senator's understanding, also?

● Mr. MATHIAS. It is.

● Mr. LEAHY. I was pleased to hear the Senator state earlier that we are not creating or expanding an existing compulsory license. I do not believe we should create any new compulsory licenses without a thorough inquiry into the question of compatibility with the Berne Convention. To do so would only complicate the United States adherence process. I have one last question for the Senator from Maryland. As the Senator is well aware, the U.S. Court of Appeals for the District of Columbia struck down the FCC's must carry rules in Quincy Cable against FCC. The court ruled that the existing rules violated the first amendment. The FCC is currently considering whether to adopt a new set of must carry rules which would pass first amendment muster. Do you believe that passage of this legislation would in any way affect the process underway at the FCC or impede the ability of the Commission or Congress to create a set of constitutionally valid must carry rules?

● Mr. MATHIAS. No, the legislation makes clear that if a cable system decides to carry a local low power television station, it does so on a may carry basis. Therefore, I think this legislation would have absolutely no effect on the ability to put in place a valid set of must carry rules.

● Mr. LEAHY. I thank the Senator from Maryland for his answers to our questions and for his leadership in steering this legislation through the Senate. As I said at the outset, I think the public interest will be well served by fulfilling the promise of low power television to expand the choices and viewpoints available to television viewers.●

The PRESIDING OFFICER. The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

So the bill (H.R. 3108) was passed.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## COLLEGE OF WILLIAM AND MARY

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Senate now turn to House Joint Resolution 630, to designate the College of William and Mary as official U.S. representative to the Tercentenary Celebration of the Glorious Revolution to be celebrated jointly in the United States, the Netherlands, and the United Kingdom, which is being held at the desk.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Wyoming?

The resolution will be stated by title.

The assistant legislative clerk read as follows:

A joint resolution (H.J. Res. 630) designating the College of William and Mary as the official United States representative to the Tercentenary Celebration of the Glorious Revolution to be celebrated jointly in the United States, the Netherlands, and the United Kingdom.

The PRESIDING OFFICER. The joint resolution is before the Senate and open to amendment. If there be no amendment to be offered, the question is on the third reading and passage of the joint resolution.

The resolution (H.J. Res. 630) was ordered to a third reading, was read the third time, and passed.

The preamble was agreed to.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SIMPSON. Mr. President, Senator MOYNIHAN has indicated it really was not as glorious as all that for the Irishman.

I thank my colleague from New York and friend.

## CONGRESSIONAL REPORTS ELIMINATION ACT

Mr. SIMPSON. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 992.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

*Resolved*, That the bill from the Senate (S. 992) entitled "An Act to discontinue or amend certain requirements for agency reports to Congress", do pass with the following amendment:

Strike out all after the enacting clause and insert: *That this Act may be cited as the "Congressional Reports Elimination Act of 1986".*

TITLE I—ELIMINATIONS

REPORTS BY MORE THAN ONE AGENCY

SEC. 101. (a) Section 218(a) of the Biomass Energy and Alcohol Fuels Act of 1980 (42 U.S.C. 8818(a)) is repealed.

(b) Section 3104 of title 5, United States Code, is amended by—

(1) striking out subsection (b);

(2) redesignating paragraphs (1), (2), and (3) of subsection (a) as subsections (a), (b), and (c), respectively; and

(3) striking out "paragraph (1) of this subsection" each place it appears in subsections (b) and (c) (as redesignated by paragraph (2) of this subsection) and inserting in lieu thereof "subsection (a) of this section ".

REPORTS BY THE DEPARTMENT OF COMMERCE

SEC. 102. Section 5 of the Central, Western and South Pacific Fisheries Development Act (16 U.S.C. 758e-2) is repealed.

REPORTS BY THE DEPARTMENT OF EDUCATION

SEC. 103. (a) Section 117(d) of the Higher Education Act of 1965 (20 U.S.C. 1017(d)) is repealed.

(b) Section 553(c) of the Higher Education Act of 1965 (20 U.S.C. 1119c-2(c)) is repealed.

(c) Section 605(b) of the Higher Education Act of 1965 (20 U.S.C. 1125(b)) is repealed.

REPORTS BY THE DEPARTMENT OF ENERGY

SEC. 104. (a) Section 7(b)(7) of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5906(b)(7)) is amended by—

(1) striking out subparagraph (A); and

(2) striking out the subparagraph designator "(B)".

(b) Section 11 of the Wind Energy Systems Act of 1980 (42 U.S.C. 9210) is amended by—

(1) striking out paragraph (5);

(2) inserting "and" at the end of paragraph (4); and

(3) redesignating paragraph (6) as paragraph (5).

REPORTS BY THE DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SEC. 105. (a) Section 505(f) of the Housing and Urban Development Act of 1970 (12 U.S.C. 1701z-4(f)) is repealed.

(c) Section 506(c) of the Housing and Urban Development Act of 1970 (12 U.S.C. 1701z-5(c)) is repealed.

REPORTS BY THE DEPARTMENT OF JUSTICE

SEC. 106. Section 2101(d) of title 18, United States Code, is amended by striking out the semicolon and all that follows and inserting in lieu thereof a period.

REPORTS BY THE DEPARTMENT OF TRANSPORTATION

SEC. 107. Section 13 of the Merchant Ship Sales Act of 1946 (50 U.S.C. App. 1746) is repealed.

REPORTS BY THE NATIONAL SCIENCE FOUNDATION

SEC. 108. Section 8 of the National Science Foundation Authorization Act, 1977 (42 U.S.C. 1883) is amended by—

(1) inserting "and" after the semicolon at the end of paragraph (3);

(2) striking out "; and" at the end of paragraph (4) and inserting in lieu thereof a period; and

(3) striking out paragraph (5).

REPORTS BY THE NUCLEAR REGULATORY COMMISSION

SEC. 109. Section 201(h) of the Energy Reorganization Act of 1974 (42 U.S.C. 5841(h)) is repealed

REPORTS BY THE OFFICE OF PERSONNEL MANAGEMENT

SEC. 110. (a) Section 5114 of title 5, United States Code, is repealed.

(b) The table of sections for chapter 51 of such title is amended by striking out the item relating to section 5114.

TITLE II—MODIFICATIONS

REPORTS BY MORE THAN ONE AGENCY

SEC. 201. Section 203(o) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484(o)) is amended—

(1) striking out "The Administrator" and all that follows through "shall submit" and inserting in lieu thereof the following: "The Administrator with respect to property disposed of under subsection (j) or (p) of this section, and the head of each executive agency disposing of property under subsection (k) of this section, or under section 13(d) or 13(g) of the Surplus Property Act of 1944 (50 U.S.C. App. 1622(d) or (g)), shall submit"; and

(2) by striking out "personal property so donated and of all real"; and

(3) by striking out "donations and transfers" and inserting in lieu thereof "disposals".

REPORTS BY THE DEPARTMENT OF AGRICULTURE

SEC. 202. The last sentence of the paragraph under the heading "GENERAL SALES MANAGER—(ALLOTMENT FROM THE COMMODITY CREDIT CORPORATION in title IV of Public Law 97-370 (15 U.S.C. 713a-10; 96 Stat. 1808) is amended by striking out "quarterly" and inserting in lieu thereof "annual".

REPORTS BY THE DEPARTMENT OF COMMERCE

SEC. 203. (a) Section 7(a) of the Marine Resources and Engineering Development Act of 1966 (33 U.S.C. 1106(a)) is amended by striking out "in January of each year" and inserting in lieu thereof "biennially in January".

(b) Section 16 of the Act of June 18, 1934 (48 Stat. 1002, chapter 590; 19 U.S.C. 81p) is amended by—

(1) striking out "containing a full statement of all the operations, receipts, and expenditures, and such other information as the Board may require" in subsection (b) and inserting in lieu thereof "on zone operations"; and

(2) striking out subsection (c) and inserting in lieu thereof the following:

"(c) The Board shall make a report to Congress annually containing a summary of zone operations.".

REPORTS BY THE DEPARTMENT OF EDUCATION

SEC. 204. Section 653(c) of the Education of the Handicapped Act (20 U.S.C. 1453(c)) is amended by striking out "The Secretary shall make an annual" and inserting in lieu thereof "Every three years, the Secretary shall make a".

REPORTS BY THE DEPARTMENT OF TRANSPORTATION

SEC. 205. Section 107 of the Federal Aviation Act of 1958 (49 U.S.C. 1307) is amended by—

(1) striking out "each January 31 thereafter" in subsection (b) and inserting in lieu thereof "each April 1 thereafter"; and

(2) striking out "each January 31 thereafter" in subsection (c) and inserting in lieu thereof "each April 1 thereafter".

REPORTS BY THE DEPARTMENT OF THE TREASURY

SEC. 206. (a) Section 201(f)) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1821(f)) is amended by—

(1) striking out "Secretary of the Treasury, in cooperation with the"; and

(2) striking out the comma after "the Secretary of State".

(b) Section 6103(p)(5) of the Internal Revenue Code of 1954 (26 U.S.C. 6103(p)(5)) is amended by striking out "quarter" and inserting in lieu thereof "year".

GENERAL SERVICES ADMINISTRATION

SEC. 207. Section 203(j)(4)(E) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484(j)(4)(E)) is amended by striking out "$3,000" and inserting in lieu thereof "$5,000".

REPORTS BY THE UNITED STATES MERIT SYSTEMS PROTECTION BOARD

SEC. 208. Section 7701(i)(2) of title 5, United States Code, is amended by striking out "calendar" and inserting in lieu thereof "fiscal".

Mr. SIMPSON. Mr. President, I move that the Senate concur in the House amendment.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Wyoming.

The motion was agreed to.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

□ 2210

## ORDER FOR STAR PRINT—S. 2481

Mr. BYRD. Mr. President, on behalf of Mr. METZENBAUM, I ask unanimous consent that S. 2481 be star printed.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

## THE CALENDAR

Mr. SIMPSON. Mr. President, I would like to inquire of the minority leader if he is in a position to pass the following calendar items: Calendar Order Nos. 738, 745, 746, 747, 748, 749, 757, 758, 760, 761, 763, 765, 766, 767, 777, 778, 779, 780, 781, 782, 783, 784, 786, 787, 788, 789, 790, 791, 792, 793, 800, 801, 802, 803, and 805?

Mr. BYRD. Mr. President, of the calendar orders numbered by the distinguished acting Republican leader, I have to say that not all of those are clear on this side. I can state that the following calendar orders were included in those identified by the distinguished acting leader. They are as follows: 745, 746, 747, 748, 749, 777, 778, 779, 780, 781, 782, 783, 784, 786, 787, 788, 789, 790, 791, 792, 793, 800, 801, 802, 803, and 805.

Mr. SIMPSON. Mr. President, I would then ask unanimous consent

that the calendar items just identified by the Democratic leader be——

Mr. BYRD. I am now cleared on 735, also.

Mr. SIMPSON. To include calendar order No. 735—well, that is not cleared on our side.

Mr. President, I find that 735 is acceptable for clearance on our side.

Mr. President, I would then ask unanimous consent that the calendar items just identified by the Democratic leader, together with calendar item No. 735, be considered en bloc and passed en bloc, and that all the committee-reported amendments be considered and agreed to en bloc.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. There is no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

## NATIONAL SOFTWARE AWARENESS WEEK

The joint resolution (S.J. Res. 332) to designate the week of November 16 through 22, 1986, as "National Software Awareness Week," was considered, ordered to be engrossed for a third reading, read the third time and passed.

The preamble was agreed to.

The joint resolution, and the preamble, are as follows:

S.J. RES. 332

Whereas the security of our Nation is a basic and fundamental responsibility of the United States Government;

Whereas computer software is vital to the economic security and defense of the United States;

Whereas the application of software engineering has brought about significant technological advances and innovations in computer science, space science, mathematics, medical science, defense, and government;

Whereas software engineering is recognized as a professional occupation; and

Whereas is is the intent of the Congress of the United States to ensure there are no impediments to the technological advances in software development, and that a climate is maintained to nurture innovation in the software industry: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the week of November 16, 1986, through November 22, 1986, is designated as "National Software Awareness Week" and the President is authorized and requested to issue a proclamation calling upon the people of the United States, all Federal, State, and local government agencies, and the software industry to observe such week with appropriate programs and activities.

## NATIONAL COMMUNITY EDUCATION DAY

The joint resolution (S.J. Res 338) to designate November 18, 1986, as "National Community Education Day," was considered.

Mr. RIEGLE. Mr. President, I am pleased that the Senate has agreed today to designate November 18, 1986 as National Community Education Day. Community education is a philosophy which encourages all members in a community to work together to enhance the education process. It recognizes that the community has a wealth of resources that can enrich the educational process. It strives to create what the National Commission on Excellence in Education's study "A Nation at Risk" calls a learning society. I believe the concept of community education is as important and relevant today as it was when it was originated over 50 years ago in my hometown of Flint, MI.

Community education recognizes that no school is an island, that schools must build bridges with the larger community to make the education process valuable and meaningful for the students and the communities they serve. Community education promotes programs for learners of all ages, backgrounds and needs. It encourages the full use of school facilities for recreation and human services as well as formal schooling. It seeks citizen involvement in meeting the needs of the community.

It has helped to improve the performance of students and has helped open up classrooms for adult education programs to fight illiteracy and teach job skills. The program also reaches out to alienated and isolated groups in our society, to strengthen the connection between learning and living.

Community Education Day has been observed in many States since 1982. This year's theme is "Schools and Communities Learning Together." We hope that this day will provide communities and schools across the country the opportunity to show how community resources can enrich public education. It is designed to give educators a chance to reach out to members of the community to invite them to participate in the education process. It will focus on parents as partners in education, and will make an effort to involve nonparents in education as well.

The concept of community education is supported by groups involved in every aspect of public education. This year, the National School Volunteers Program is cosponsoring community education day with the National Community Education Association. Other supporters include the National Education Association, the National School Board Association, the American Association of School Administrators, the National School Public Relations Association, the Council of Great City Schools, the American Association of Adult and Continuing Education, the National Association of Elementary School Principals, the National Coalition for Parent Involvement in Education, and the Home and School Institute. Each of these organizations is contributing its resources to promote community education across the country. They recognize the importance of strengthening the bond between local residents and their schools to meet the community's needs.

Mr. President, community education has proven it can help build strong bridges between public schools and their communities. I believe these bridges are essential to improving education so that it can help all citizens meet the challenges of the future. I hope that Community Education Day will help strengthen existing community education programs and will encourage other cities, towns, and communities across the country to develop their own programs.

Mr. DOMENICI. Mr. President, I am pleased to be a cosponsor of National Community Education Day. I believe that learning is a lifelong process and that the most effective education takes place when the public schools and the community work together.

In New Mexico we have a number of examples of this interaction. The National Laboratories at Los Alamos provide demonstrations and discussions to attract young students into learning about science. Local school districts make facilities available after hours for continuing education and community activities. All of these programs indicate how much we value education.

Educators have long recognized the need for an educated community, a community in which the school is recognized, valued, and supported by everyone. The success of the old one-room schoolhouse is now clearly understood as the product of a totally supportive community that was willing to pay in cash, goods, and services for the education of the next generation.

The recent Department of Education publication, "What Works," reaffirmed what we all suspected, that a child's education is greatly enhanced when parents become involved to support and extend what the child learns in school. I think research would show that the community's support also has a positive effect on making young people feel that education is a very valuable commodity.

Our period of history is being referred to as the Information Age. That description is far too passive. Its not enough to have information available to us, we must develop the skills for analyzing and using that information effectively. Schools can teach us the skills for analyzing information but only the interaction of schools and the community can define how that information can be used effectively. In recognizing this cooperative effort with "National Community Education Day," we are laying the foundation for

our next period of history, the Education Age.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill (S.J. Res. 338) was ordered to be engrossed for a third reading, read the third time, and passed.

The preamble was agreed to.

The joint resolution, and the preamble, are as follows:

S.J. RES. 338

Whereas public education is a community enterprise, and everyone in the community has a stake in the mission of educating adults as well as the community's children;

Whereas local citizens have a right and a responsibility to be involved in deciding how the educational resources of the community should be used;

Whereas education reform should, in the words of A Nation at Risk, "focus on the goal of creating a Learning Society";

Whereas education is a lifelong process;

Whereas each community should promote the use of community resources in schools and colleges, citizen involvement in educational decisionmaking, the use of community resources to provide educational opportunities for learners of all ages and educational backgrounds, and interagency cooperation to assure effective use of limited resources; and

Whereas the goal of community education is a sharing, learning society; Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That November 18, 1986, is designated as "National Community Education Day", and the President is requested to issue a proclamation calling upon the people of the United States to observe such day with appropriate ceremonies and activities.

## ADULT LITERACY AWARENESS MONTH

The joint resolution (S.J. Res. 358) to designate the month of September 1986 as "Adult Literacy Awareness Month," was considered, ordered to be engrossed for a third reading, read the third time and passed.

The preamble was agreed to.

The joint resolution, and the preamble, are as follows:

S.J. RES. 358

Whereas the incidence of illiteracy and functionally illiteracy among the Nation's adult population has critical effects on our economy, our social institutions, and our security; and unquantifiable personal implications and limitations for millions of Americans;

Whereas estimates of illiterate or functionally illiterate Americans range from twenty-three million to over fifty million individuals lacking effective communications skills;

Whereas adult illiteracy has not been the focus of general awareness and understanding;

Whereas illiteracy is not limited to any region of the Nation, nor to any social, economic, or ethnic group, but is widespread and present in every community;

Whereas adult illiterates are family members, providers, and citizens of a community, and are motivated to improve their skills and lives by seeking remediation when it is provided;

Whereas Americans traditionally have responded to the call to air their fellow citizens when they are aware of and understand a problem, and can help resolve the problem of adult illiteracy by volunteering to serve as tutors, providing inkind services, and supporting in numerous ways efforts to combat illiteracy;

Whereas the problem of adult illiteracy is amendable to solution if there is maximum private initiative, public-private cooperation, and community action to provide assistance to those in need;

Whereas the Federal Government is beginning to recognize the critical need to address adult illiteracy and the private sector is beginning to address the problem through a number of initiatives;

Whereas one thousand four hundred newspapers will focus on the problem of adult literacy beginning the month of September 1986; and a major broadcast network and public broadcasting have joined together in an awareness and information campaign called Project Literacy US (PLUS) which will begin on-air programming in September 1986;

Whereas more than seventy major national organizations including those involved in education, religion, business, labor, employee associations, agriculture, veterans, service clubs, trade and professional associations have pledged to support PLUS at the local level and among their membership; and

Whereas others in communications—television, magazine publishers, book publishers, broadcasters, and advertising agencies—will support and encourage efforts to raise awareness of the problems of adult illiteracy in September of 1986 and beyond: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the month of September 1986 is designated as "Adult Literacy Awareness Month" and the President of the United States is authorized and requested to issue a proclamation to that effect, calling on the American people and organizations of every kind to observe the month with activities to increase awareness of the problem of adult illiteracy and engage in programs to address the need to remediate illiteracy and functional illiteracy among adults in our Nation.

## EMERGENCY MEDICAL SERVICES WEEK

The joint resolution (H.J. Res. 529) designating the week of September 21, 1986, through September 27, 1986, as "Emergency Medical Services Week", was considered, ordered to a third reading, read the third time, and passed.

The preamble was agreed to.

## NATIONAL TOURISM WEEK

The joint resolution (H.J. Res. 642) to designate the week beginning May 17, 1987, as "National Tourism Week", was considered, ordered to a third reading, read the third time, and passed.

The preamble was agreed to.

## RELIEF OF SHYN-FANN TYAN-NOREM AND BIN-TI YAO TYAN-NOREM

The bill (S. 306) for the relief of Shyn-Fann Tyan-Norem and Bin-Ti Yao Tyan-Norem, was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S. 306

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That, for the purposes of the Immigration and Nationality Act, Shyh-Fann Tyan-Norem and Bin-Ti Yao Tyan-Norem shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act, upon payment of the required vias fees. Upon the granting of permanent residence of such aliens as provided for in this Act, the Secretary of State shall instruct the proper office to reduce by the required number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas and conditional entries which are made available to natives of the country of the aliens' birth under section 203(a) of the Immigration and Nationality Act or, if applicable, from the total number of such visas and entries which are made available to such natives under section 202(e) of such Act.

## RELIEF OF BHASKARBHAI S. PATEL

The Senate proceeded to consider the bill (S. 330) for the relief of Bhaskarbhai S. Patel, which had been reported from the Committee on the Judiciary, with an amendment:

On page 1, line 7, strike "fees.", and insert "fee."

So as to make the bill read:

S. 33

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That, in the administration of the Immigration and Nationality Act, Bhaskarbhai S. Patel shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fee. Upon the granting of permanent residence to such alien as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by the proper number, duirng the current fiscal year or the fiscal year next following, the total number of immigrant visas and conditional entries which are made available to natives of the country of the alien's birth under section 203(a) of the Immigration and Nationality Act or, if applicable, the total number of immigrant visas and conditional entries which are made available to natives of the country of the alien's birth under section 202(e) of such Act.

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

## RELIEF OF MARY PATRICIA McLAUGHLIN

The bill (S. 363) for the relief of Mary Patricia McLaughlin, was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S. 363

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That, notwithstanding any provision of the Immigration and Nationality Act, in the administration of such Act, Mary Patricia McLaughlin shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fee. Upon the granting of permanent residence to such alien as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by the proper number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas which are made available to natives of the country of the alien's birth under section 203(a) of the Immigration and Nationality Act or, if applicable, the total number of immigrant visas which are made available to natives of the country of the alien's birth under section 202(e) of such Act.

## RELIEF OF PRAVINCHANDRA AND KAMALA BHUVA

The bill (S. 527) for the relief of Pravinchandra and Kamala Bhuva, was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S. 527

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That, notwithstanding paragraph (14) of section 212(a) of the Immigration and Nationality Act, for purposes of such Act, Pravinchandra and Kamala Bhuva shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fees. Upon the granting of permanent residence to such aliens as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by the proper number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas which are made available under section 203(a) of the Immigration and Nationality Act to natives of the countries in which the aliens were born or, if applicable, the total number of immigrant visas which are made available under section 202 of such Act to natives of the countries in which the aliens were born.

## RELIEF OF MADARIAGA FAMILY

The bill (S. 773) for the relief of Dr. Oscar Raul Espinoza Madariaga, his wife Maria Inez, his son Felipe Andres, and daughter Claudia Paola, was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S. 773

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That, notwithstanding section 212(e) of the Immigration and Nationality Act, for the purpose of such Act, Doctor Oscar Raul Espinoza Madariaga, his wife, Maria Inez, his son, Felipe Andres, and daughter, Claudia Paola, shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fees. Upon the granting of permanent residence to such aliens as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by the proper number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas which are made available to natives of the country of the aliens' birth under section 203(a) of the Immigration and Nationality Act or, if applicable, the total number of immigrant visas which are made available to natives of the country of the aliens' birth under section 202(e) of such Act.

## RELIEF OF ESQUIVEL FAMILY

The bill (S. 1708) for the relief of Fernando Esquivel, Marcos Antonio Esquivel, and Nieves Julio Esquivel, was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S. 1708

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That, in the administration of the Immigration and Nationality Act, Fernando Esquivel, Marcos Antonio Esquivel, and Julio Esquivel shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fees. Upon the granting of permanent residence to such aliens as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by the proper number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas which are made available to natives of the country of the aliens' birth under section 203(a) of the Immigration and Nationality Act or, if applicable, the total number of immigrant visas which are made available to natives of the country of the aliens' birth under section 202(e) of such Act.

## RELIEF OF KIL JOON YU CALLAHAN

The Senate proceeded to consider the bill (S. 1878) for the relief of Kil Joon Yu Callahan, which had been reported from the Committee on the Judiciary, with an amendment to strike out all after the enacting clause, and insert the following:

That, notwithstanding the provisions of section 212(a)(23) of the Immigration and Nationality Act, Kil Joon Yu Callahan may be issued a visa and admitted to the United States for permanent residence if she is found to be otherwise admissible under the provisions of that Act: Provided, That this exemption shall apply only to grounds for exclusion of which the Department of State or the Department of Justice had knowledge prior to the enactment of this Act.

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

## RELIEF OF LYNNE CLEAVER AND LEIGH ALISON CLEAVER

The bill (S. 1957) for the relief of Lynne Cleaver and her child Leigh Alison Cleaver, was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That, in the administration of the Immigration and Nationalilty Act, Lynne Cleaver and her child Leigh Alison Cleaver shall be held and considered to have been lawfuly admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fees. Upon the granting of permanent residence to such aliens as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by the proper number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas which are made available to natives of the country of the aliens' birth under section 203(a) of the immigration and Nationality Act or, if applicable, the total number of immigrant visas which are made available to natives of the country of the aliens' birth under section 202(e) of such Act.

## RELIEF OF EDWIN AND GEOVANNA RIOS

The bill (H.R. 483) for the relief of Edwin Rios and Geovanna Rios, was considered, ordered to a third reading, read the third time, and passed.

## RELIEF OF ENRIQUE MONTANO UGARTE

The bill (H.R. 1693) for the relief of Enrique Montano Ugarte, was considered, ordered to a third reading, read the third time, and passed.

## RELIEF OF LEONARD LESLIE GAMBIE

The bill (H.R. 1757) for the relief of Leonard Leslie Gambie, was considered, ordered to a third reading, read the third time, and passed.

## RELIEF OF JUAN RICARDO McRAE

The bill (H.R. 3093) for the relief of Juan Ricardo McRae, was considered, ordered to a third reading, read the third time, and passed.

## RELIEF OF BRADY FAMILY

The bill (H.R. 3154) for the relief of John Patrick Brady, Ann M. Brady,

and Mark P. Brady, was considered, ordered to a third reading, read the third time, and passed.

## RELIEF OF ALEXANDER LOCKWOOD

The bill (H.R. 3323) for the relief of Alexander Lockwood, was considered, ordered to a third reading, read the third time, and passed.

## RELIEF OF MOUNTAHA BOU-ASSALI SAAD

The bill (H.R. 3365) for the relief of Mountaha Bou-Assali Saad, was considered, ordered to a third reading, read the third time, and passed.

## RELIEF OF MILANIE C. ESCOBAL NORMAL AND ANGELA DAWN NORMAN

The bill (H.R. 2577) for the relief of Milanie C. Escobal Norman and Angela Dawn Norman, was considered, ordered to a third reading, read the third time and passed.

## NATIONAL PEARL HARBOR REMEMBRANCE DAY

The joint resolution (S.J. Res. 322) to designate December 7, 1986, as "National Pearl Harbor Rememberance Day" of the occasion of the anniversary of the attack on Pearl Harbor, was considered, ordered to be engrossed for a third reading, read the third time and passed.

The preamble was agreed to.

The joint resolution, and the preamble, are as follows:

S.J. RES. 322

Whereas on the morning of December 7, 1941, the Imperial Japanese Navy and Air Force launched an unprovoked surprise attack upon units of the Armed Force of the United States stationed at Pearl Harbor, Hawaii;

Whereas over two thousand four hundred citizens of the United States were killed in action and one thousand one hundred and seventy-eight were wounded in this attack;

Whereas President Franklin Delano Roosevelt referred to the date of the attack as "a date that will live in infamy";

Whereas the attack on Pearl Harbor marked the entry of this Nation into World War II;

Whereas the people of the United States owe a tremendous debt of gratitude to all members of our Armed Forces who served at Pearl Harbor, in the Pacific Theater of World War II, and in all other theaters of action of that war; and

Whereas the veterans of World War II and all other people of the United States will commemorate December 7, 1986, in remembrance of this tragic attack on Pearl Harbor: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That December 7, 1986, the anniversary of the attack on Pearl Harbor, is designated as "National Pearl Harbor Remembrance Day" and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States—

(1) to observe this solemn occasion with appropriate ceremonies and activities; and

(2) to pledge eternal vigilance and strong resolve to defend this Nation and its allies from all future aggression.

## NATIONAL REYE'S SYNDROME AWARENESS WEEK

The joint resolution (S.J. Res. 345) to designate the week beginning November 9, 1986, as "National Reye's Syndrome Awareness Week", was considered, ordered to be engrossed for a third reading, read the third time and passed.

The preamble was agreed to.

The joint resolution, and the preamble, are as follows:

Whereas over 30 per centum of individuals with Reye's syndrome die, and between 15 and 25 per centum of survivors of the disease suffer injury to the brain;

Whereas medical research has shown a relationship between the use of salicylate (commonly known as aspirin) by children who are recovering from viral illnesses and the development of Reye's syndrome in such children;

Whereas warnings against the use of aspirin by such children have been issued by the Surgeon General of the Public Health Service and officials or officers of the Centers for Disease Control, the American Academy of Pediatrics, and the National Reye's Syndrome Foundation;

Whereas most people, including health professionals, are unfamiliar with the symptoms of Reye's syndrome, and such unfamiliarity often results in misdiagnosis and improper treatment;

Whereas current records with respect to the incidence of Reye's syndrome are inaccurate because comprehensive records are not maintained throughout the United States;

Whereas the inaccuracy of such current records is evidenced by the fact that more incidences of Reye's syndrome are reported annually to the National Reye's Syndrome Foundation that are reported to the Centers for Disease Control;

Whereas the National Reye's Syndrome Foundation, which is supported by thousands of parents, is a volunteer organization with affiliates throughout the continental United States;

Whereas the purposes of the National Reye's Syndrome Foundation include providing support to individuals afflicted with Reyes' syndrome and to the families of such individuals;

Whereas such purposes further include efforts to increase the awareness and understanding of Reye's syndrome by disseminating available information about the disease and by supporting research that can develop a cure for, and preventive measures against, the disease; and

Whereas research with respect to developing a cure for, and preventive measures against, Reye's syndrome should be increased: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the week beginning November 9, 1986, is designated "National Reye's Syndfome Awareness Week", and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

## NATIONAL KIDNEY PROGRAM DAY

The Senate proceeded to consider the bill (S.J. Res. 367) to designate July 31, 1986, as "National Kidney Program Day", which had been reported from the Committee on the Judiciary, with an amendment:

On page 2, line 4, strike "July 31, and insert in lieu of "September 24"

So as to make the joint resolution read:

S.J. RES. 367

Whereas, the tens of thousands of Americans suffering from irreversible kidney disease are treated by Medicare's End Stage Renal Disease (ESRD) Program;

Whereas, this program has assured that every American suffering from otherwise fatal kidney failure has access to lifesaving dialysis or transplantation therapy;

Whereas, ESRD beneficiaries may remain economically productive and are able to continue to make irreplaceable contributions to family, community and country;

Whereas, this extraordinarily successful program has a special significance as an example of the power of partnership between Government and the healthcare industry in dealing with catastrophic illness; and

Whereas, this partnership has achieved economy in health services without compromising quality of care or social responsibility: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the President is authorized and requested to designate the day of September 24, 1986, as National Kidney Program Day and call upon the Federal, State, and local government agencies and the people of the United States to observe such day with the appropriate programs, ceremonies and activities.

The amendment was agreed to.

The joint resolution was ordered to be engrossed for a third reading, read the third time, and passed.

The title was amended so as to read: "Joint resolution to designate September 24, 1986, as "National Kidney Program Day".

## NATIONAL SPINA BIFIDA MONTH

The joint resolution (S.J. Res. 368) to designate the month of October 1986, as "National Spina Bifida Month," was considered, ordered to be engrossed for a third reading, read the third time and passed.

The preamble was agreed to.

The joint resolution, and the preamble, are as follows:

S.J. RES. 368

Whereas spina bifida is a birth defect in the spinal column which occurs in one of every one thousand births in the United States;

Whereas spina bifida is the most common crippler of newborns, resulting when one or more bones in the back (vertebrae) fail to

close completely during prenatal development;

Whereas while the cause of spina bifida is not known, it appears to be the result of multiple environmental and genetic factors;

Whereas although most of the March of Dimes and Easter Seal poster children have spina bifida, many people have not heard of the defect;

Whereas only a few cities in the United States have proper care centers and specialized professionals that can provide the most effective, aggressive treatment for children and adults with spina bifida; and

Whereas an increase in the national awareness of the problem of spina bifida may stimulate the interest and concern of the American people, which may lead, in turn, to increased research and eventually to the discovery of a cure for spina bifida: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the month of October 1986, is designated "National Spina Bifida Month" and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such month with appropriate ceremonies and activities.

## NATIONAL DRUG ABUSE EDUCATION DAY

The joint resolution (S.J. Res. 386) to designate October 6, 1986, as "National Drug Abuse Education Day," was considered, ordered to be engrossed for a third reading, read the third time and passed.

The preamble was agreed to.

The joint resolution, and the preamble, are as follows:

S.J. RES. 386

Whereas drug abuse in the United States is a major health problem that damages our social institutions and threatens our most valuable human resource—our young people;

Whereas the 1984 National Strategy for Prevention of Drug Abuse and Drug Trafficking stated that "prevention has come to the forefront as the essential element in the long-range goal of eliminating drug abuse"; and

Whereas President Reagan has called drug abuse one of the gravest problems facing the Nation and has further warned that if we, as a Nation, fail to act we run the risk of losing a great part of a whole generation: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That (a) October 6, 1986, the first school day of Drug Abuse Awareness Week as established in Senate Joint Resolution 354, is designated as National Drug Abuse Education Day. The purpose of National Drug Abuse Education Day is to focus national attention on the rapidly escalating threat that drug abuse poses to the Nation's health, by calling on the President of the United States to proclaim a national day.

(b) As a part of National Drug Abuse Education Day, the President shall—

(1) call upon every elementary and secondary school, and all institutions of higher education to devote the day's curriculum to instruction of the physiological, psychological, social, and legal consequences of drug use and abuse; and

(2) call upon students, parents, community groups, and local law enforcement agencies to actively participate in programs sponsored in conjunction with National Drug Abuse Education Day.

SEC. 2. For purposes of this Act, the term "drug" shall include—

(1) any substance listed in section 102(17) of the Controlled Substances Act (21 U.S.C. 802(17)); and

(2) alcohol.

## CONVEYANCE OF CERTAIN FEDERAL LAND

The Senate proceeded to consider the bill (S. 565) to direct the Secretary of Agriculture to convey, without consideration, to the town of Payson, AZ, approximately 31.14 acres of Forest Service lands, which had been reported from the Committee on Energy and Natural Resources, with an amendment to strike out all after the enacting clause, and insert the following:

That, notwithstanding any other provision of law, the Secretary of Agriculture is authorized and directed to convey, without consideration except for administrative costs associated with the preparation of title and legal description, to the Town of Payson, Arizona, and parcel of land comprising approximately 30.96 acres, known as North Rumsey Park, in the Town of Payson, County of Gila, Arizona.

SEC. 2. Title to any real property acquired by the Town of Payson pursuant to this Act shall revert to the United States if the town attempts to convey or otherwise transfer ownership of any portion of such property to any other party or attempts to encumber such title, or if the town permits the use of any portion of such property for any purpose incompatible with the purposes of specified in section 3 of this Act.

SEC. 3. Real property conveyed to the Town of Payson pursuant to this Act shall be used for public open space, park and recreational purposes.

SEC. 4. There are reserved to the United States all minerals that may be found in the lands described in section 1, together with the right of the United States, its permittees, lessees, or grantees, at any time, to prospect for, mine and remove such minerals.

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

The title was amended so as to read "A bill to direct the Secretary of Agriculture to convey, without consideration, to the town of Payson, AZ, approximately 30.96 acres of Forest Service lands."

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the various items were passed or agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

□ 2215

## NATIONAL SOFTWARE AWARENESS WEEK

Mr. BYRD. Mr. President, I want to take note of the passsage of Calendar Order No. 745, Senate Joint Resolution 332, by Mr. BYRD, a joint resolution to designate the week of November 16, 1986 through November 22, 1986 as "National Software Awareness Week."

## EXECUTIVE CALENDAR

Mr. SIMPSON. Mr. President, I would like to inquire of the minority leader if he is in a position to confirm the following nominations on the Executive Calendar: Calendar No. 958, Thomas Lynch Adams, Jr.; Calendar No. 959, Kenneth M. Carr; Calendar No. 961, Mary McNally Rose; Calendar No. 962, Justin W. Dart, Jr.; Calendar No. 963, Carol Fraser Risk; Calendar No. 964, Louis G. DeFalaise; and all nominations placed on the Secretary's desk under the Coast Guard.

Mr. BYRD. Mr. President, all nominations identified by the distinguished acting Republican leader have been cleared by all Members on this side, and we are ready to proceed to confirm those nominations.

## EXECUTIVE SESSION

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Senate go into executive session in order to consider the nominations just identified, and that thay be considered en bloc and confirmed en bloc.

There being no objection, the Senate proceeded to the consideration of executive business.

The PRESIDING OFFICER. The nominations will be stated.

The nominations considered and confirmed are as follows:

ENVIRONMENTAL PROTECTION AGENCY

Thomas Lynch Adams, Jr., of Kentucky, to be an Assistant Administrator of the Environmental Protection Agency.

NUCLEAR REGULATORY COMMISSION

Kenneth M. Carr, of California, to be a member of the Nuclear Regulatory Commission for the term of 5 years expiring June 30, 1991.

DEPARTMENT OF EDUCATION

Mary McNally Rose, of Maryland, to be Deputy Under Secretary for Management, Department of Education.

Justin W. Dart, Jr., of Texas, to be Commissioner of the Rehabilitation Services Administration.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Carol Fraser Fisk, of Virginia, to be Commissioner on Aging.

DEPARTMENT OF JUSTICE

Louis G. DeFalaise, of Kentucky, to be U.S. Attorney for the Eastern District of Kentucky for the term of 4 years.

IN THE COAST GUARD

Coast Guard nominations beginning Brian R. Aldrich, and ending Adolph L. Keyes, which nominations were received by the Senate and appeared in the Congressional Record of July 22, 1986.

The PRESIDING OFFICER. Without objection, the nominations are considered and confirmed en bloc.

NOMINATION OF JUSTIN DART

Mr. WEICKER. I am pleased to support the nomination of Justin Dart for Commissioner of the Rehabilitation Services Administration. Mr. Dart has had an impressive career in the disability field and his credentials reflect an abiding commitment to improving the lives of our Nation's disabled citizens.

Justin Dart has received numerous awards for his work in the disability area, including the American Coalition of Citizens with Disabilities Award for the individual who has contributed the most to the advancement of the rights of disabled Americans, and the Outstanding Achievement Award of the National Council of Independent Living Programs.

A distinguished member of the National Council on the Handicapped since 1982, Mr. Dart has ably served as vice chairperson of this council, which is responsible for making policy recommendations to the President and the Congress.

Justin Dart has long been involved in the independent living movement and in promoting the employment of handicapped individuals. His work in the State of Texas as well as his national involvement in these areas make him a uniquely qualified candidate for the position of Commissioner of the Rehabilitation Services Administration and I am gratified that he has now been confirmed.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the nominations were considered and confirmed en bloc.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the President be immediately notified that the Senate has given its consent to these nominations.

The PRESIDING OFFICER. Without objection, it is so ordered.

## LEGISLATIVE SESSION

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

## ORDER FOR RECESS ON THURSDAY, SEPTEMBER 18, 1986, FOR JOINT MEETING TO HEAR AN ADDRESS BY THE PRESIDENT OF THE REPUBLIC OF THE PHILIPPINES, CORAZON AQUINO

Mr. SIMPSON. Mr President, I ask unanimous consent that the Senate stand in recess at 10:30 a.m. on Thursday, September 18, 1986, and proceed to the House Chamber for a joint meeting at 11 a.m. to hear an address by the President of the Republic of the Philippines, Corazon Aquino.

The PRESIDING OFFICER. Without objection, it is so ordered.

## ORDER FOR STAR PRINT—S. 2000

Mr. BYRD. Mr. President, I ask unanimous consent that S. 2000 be star printed. S. 2000 was introduced by Senator ROCKEFELLER and myself during the last session. Companion legislation has been sponsored in the House by the chairman of the Energy Conservation and Power Subcommittee [Mr. MARKEY]. The Senate and House legislation will permit the restructuring into a wholly owned subsidiary of a natural gas public utility in West Virginia. The restructuring is desired by both the West Virginia Public Service Commission and the subject company, Cabot Corp. It is also desirable from the standpoint of West Virginia's public utility customers.

Our revised S. 2000 is a legislative remedy I believe available and of valid interest only to West Virginia. It has been drafted so as to address only the Cabot situation, and it does not extend beyond that remedy. The star print I offer today bears this out. It differs from the original text of S. 2000 by limiting its application to a previously organized single subsidiary of a nonutility holding company. The subsidiary must have been created by July 1 of this year, and the operations of the single gas subsidiary must not extend beyond the State of its incorporation.

Of particular importance, this measure is drafted to preserve the integrity of the Public Utility Holding Company Act of 1935. S. 2000 neither creates new exemptive authority under the act, nor diminishes the act's proscriptions and public purpose. Rather, S. 2000 removes a single, anomalous circumstance from the ambit of the act's operation. I am confident I have brought before my colleagues today a proposal so narrow in scope and application that we will achieve corrective legislation without undermining of congressional intent in this field of law.

## A RESOLUTION TO RECOGNIZE AND HONOR WILLIAM SMITH "BILL" MONROE

Mr. BYRD. Mr. President, I send a resolution to the desk on behalf of myself, Mr. SASSER, and Mr. GORE, and ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated.

The assistant legislative clerk read as follows:

S. RES. 463

Whereas September 13, 1986, is the seventy-fifth birthday of the father of bluegrass music, William Smith "Bill" Monroe;

Whereas Mr. Monroe has been an innovator, creator, shaper, performer, and promoter of a genre in music which was developed in a particular region of the United States, the upper South;

Whereas Mr. Monroe's music is national in scope, is a part of American culture, and is now being shared internationally;

Whereas since 1938, Mr. Monroe and his "Blue Grass Boys", a band that has served as a training ground for most of the leading musicians in bluegrass music, have provided entertainment and sustenance to Americans from all walks of life;

Whereas Mr. Monroe has been a member of the Grand Ole Opry since 1939, a member of the Country Music Hall of Fame since 1969, and has gone from pioneer to patriarch of this popular and important style of American music; and

Whereas as a musician, showman, composer, and teacher, Mr. Monroe has become a cultural figure and force of signal importance in our time: Now, therefore, be it

*Resolved*, That the United States Senate recognizes and honors William Smith "Bill" Monroe for his many contributions to American culture and music, and his many years of helping the American people to enjoy themselves, and extends its best wishes to "Bill" Monroe on the occasion of his seventy-fifth birthday.

SEC. 2. The Secretary of the Senate is authorized to transmit a copy of this resolution to William Smith "Bill" Monroe.

Mr. BYRD. Mr. President, as I suppose as the U.S. Senate's foremost admirer and lover of Bluegrass music, and as a friend of Bill Monroe, as one who has been listening to Bill Monroe's Bluegrass music for almost close to 50 years, as one who has been listening to the "Grand Ole Opry" for more than 50 years, I would like to say that Erma and I join with the two Senators from Tennessee who are cosponsors of this resolution, and all Senators on both sides of the aisle in wishing Bill Monroe not only a very happy 75th birthday, but also best wishes for many, many more happy birthdays.

Mr. President, I hope Bill Monroe will be able to continue with his Blue Grass Boys, Bluegrass songs, and Bluegrass music to inspire the Nation, old and young, with that music from the Tennessee hills, and may God's blessing continue to be on him as he provides this great recreational music for all the people in the hill country. May we all continue to be inspired by him.

I hope that I may be able to learn a few more tunes from Bill Monroe and the Blue Grass Boys before I lay down my fiddle and bow.

Mr. SIMPSON. Mr. President, I join in these expressions of congratulations to Bill Monroe, and would say that even though I believe he is mandolin player, and the Democratic leader is a fiddler player, I am sure that music is important. I believe one of the greatest pieces was Uncle Pen if I recall. We even caught that in Wyoming where we had a bluegrass group called Joe Bananas and the Bunch, Music with Appeal.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution (S. Res. 463) was agreed to.

The preamble was agreed to.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. SIMPSON. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SIMPSON. Mr. President, does the Democratic leader have any further business?

Mr. BYRD. I thank the acting majority leader. No, I do not.

## NATIONAL PEARL HARBOR REMEMBRANCE DAY

Mr. LAUTENBERG. Mr. President, I urge the passage of this resolution to designate December 7, 1986, the 45th anniversary of the attack on Pearl Harbor, as "National Pearl Harbor Remembrance Day."

The resolution also authorizes and requests the President to issue a proclamation calling upon the people of the United States to observe this solemn occasion with appropriate ceremonies and activities, and pledge our strong resolve to defend this Nation and its allies from all future aggression.

I would like to commend the New Jersey members of the Pearl Harbor Survivors Association, particularly Lee Goldfarb, the State chairman, and the approximately 10,000 members throughout the country, for their active interest and support in commemorating this 45th anniversary through a Presidential proclamation of National Pearl Harbor Remembrance Day.

On December 7, 1941, "a date which will live in infamy," while talks between Japanese and American diplomats were going on in Washington, the United States was attacked by the Imperial Japanese Navy and Air Force. Pearl Harbor was caught totally unprepared. The blow was deliberately planned for Sunday morning, when the ships of the Pacific Fleet were moored in perfect alignment, and their crews were ashore, having breakfast, or relaxing on board. There was no advance warning.

About 360 Japanese planes attacked Pacific Fleet units at the naval base, and Army aircraft at Hickam Field and other nearby military installations. The surprise attack, launched entirely without provocation, took the lives of 2,403 Americans, and wounded 1,178. Some of those lost were civilians.

Fortunately, no aircraft carriers were tied up at the base during the attack. When the assault ended nearly 2 hours later, the Pacific Fleet had lost eight battleships, three light cruisers, three destroyers and four other vessels. The attack also destroyed about 170 U.S. planes. The Japanese had concentrated on ships and planes, leaving repair facilities, the submarine base, and fuel oil storage facilities relatively undamaged.

In short, the attack had dealt the Pacific Fleet and Hawaii's air defense a devastating blow. In less than 2 hours, the Japanese had crippled the Pacific Fleet and undermined the American strategic position in the Pacific.

The unification of the country under the impact was swift. It was the first time in U.S. history that we had been attacked first, and it wiped away the last vestige of isolationist sentiment. The entire country stood behind the President and gave him wholehearted support. The attack united United States public opinion against Japan, and propelled the United States into World War II. On 4:10 p.m., Monday, December 8, 1941, the United States declared war on the Japanese Empire.

As "Remember Pearl Harbor" became the American war cry throughout World War II, so today we must "Remember Pearl Harbor." We must recall and pay tribute to those who died in that tragedy, and we must remember so that we will never be caught short or unprepared again.

Mr. President, I urge my colleagues to approve this bill.

## TRIBUTE TO THE LATE LONIS C. BALLARD

Mr. HEFLIN. Mr. President, I rise today to pay special tribute to a former retired air force major and distinguished Tuskegee airman, the late Lonis C. Ballard (1916-86). Memorial Services were held for him today at the Church of the Resurrection, Alexandria, VA, where he was eulogized by Dr. Luther H. Foster, president emeritus, Tuskegee University, and many others.

Commissoned as a 2d lieutenant in the Air Force, Lonis C. Ballard rose to the rank of Major and served with distinction at Maxwell Field, AL; Scott Air Force Base, IL; Lackland Air Force Base, TX, and Tuskegee, AL. A registered physical therapist who served as physical training officer, he kept the Tuskegee Air Force cadets in excellent physical condition by conducting and participating in a rigorous exercise program on the campus of what was then called Tuskegee Institute.

Among his many volunteer activities, Lonis Ballard lent his deep bass voice to the choir of St. Andres Episcopal Church in Tuskegee, where his wife was the choir director. He was also chairman of the Macon County, AL, March of Dimes, Vice-President of the United Negro College Fund in Tuskegee, State Athletic Director for Elks, and founder and president of the Tuskegee Little Theatre (community).

As a Federal employee for over 35 years, Lonis Ballard served as officer, coordinator, chief assistant to the administrator, and Director of Veterans Administration Hospital, Tuskegee, AL; St. Elizabeths Hospital, Office of the Surgeon General, Office of Economic Opportunity, Office of Equal Health Opportunity, and Office of Equal Opportunity, Health Services and Mental Health Administration, Public Health Service, Department of Health Education and Welfare—all in Washington, DC.

Lonis Ballard authored a number of significant articles, papers, and monographs, and produced and directed rehabilitation training films in the field of physical therapy,

In spite of his many community and organizational responsibilities, Lonis Ballard found time to be a caring, loving, attentive husband and father, and included his family in all of his activities.

He is survived by his lovely wife, Ruth Booker Ballard, of Falls Church, VA (Former Deputy Director of Health and Social Services, Department of Health, Education and Welfare); a daughter, Lisa Maria Ballard, of Arlington, VA; three sisters—Mrs. Alberta Blackwell and Mrs. Maude Bell of Philadelphia, PA, and Mrs. Dorothy Webb of Houston, TX; and two brothers—Charles Ballard, of Philadelphia, PA, and Harold Ballard, of Houston, TX.

Lonis will long be remembered by his family, friends, and all who knew him for his pioneering humanitarian efforts and a career of distinguished service to mankind.

## "RETURN TO FLANDER'S FIELD"

Mr. WARNER. Mr. President, I recently read a commentary in the Washington Post which I would like to share with the Senate.

The author, David M. Abshire, is presently the U.S. Ambassador to NATO.

As a founder and former president of the Georgetown University Center

for strategic and international studies, a member of the President's foreign intelligence advisory board, and former assistant Secretary of State, David M. Abshire's experience in the area of foreign affairs is extensive.

He draws on this experience in addressing the pertinent issue of the U.S. military commitment in Europe.

I would like to commend his remarks to the attention of the Senate and for that reason, Mr. President, I request unanimous consent for Mr. Abshire's commentary, "Return to Flanders Field" to be reprinted in the CONGRESSIONAL RECORD.

There being no objection, the commentary was ordered to be printed in the RECORD, as follows:

[From the Washington Post, May 26, 1986]

RETURN TO FLANDERS FIELD

(By David M. Abshire)

BRUSSELS—As a schoolchild I learned the poem "In Flanders Field." Today, as U.S. ambassador to NATO, I will be standing at a ceremony in Flanders. The wreath will be laid, shots fired, "Taps" played. Why did these men fight and die?

If we are to prevent World War III, we must understand how we could have prevented World Wars I and II. In my opinion, two great villains are responsible: uncertainty and miscalculation. Unclear alliances, secret agreements and differing perceptions led to tragic miscalculations.

In the summer of 1914, not one European leader believed that a worldwide catastrophe would result from his decisions. There had been earlier Balkan crises in 1908 and 1912. They had been resolved without major power conflict. Russia had backed down. Some commentators said trade relationships made war impossible. The kaiser believed that Britain would not respond to the violation of Belgian neutrality. But there were too many ambiguous commitments and secret agreements, and war came.

Many historians argue that World War II was a product of Hitler's calculated actions. I disagree. Hilter wanted conquest without war, at least without major war. Having seen the democracies back down over Germany's rearmament, Austria's annexation, the Sudetenland, Czechoslovakia and then Munich, Hitler reasoned quite naturally that they would back down again over indefensible Poland. In 1939 the history of 1914 was repeated through a series of miscalculations stemming from a lack of clear commitments by democratic alliances.

NATO represents unambiguous commitments and credible deterrence. Dean Acheson once said that NATO was "not an improvisation. It was born out of the facts and lessons of history." The founders of the Atlantic Alliance were determined to avoid the mistakes that had catapulted the world into two wars. If ambiguous commitments led potential aggressors wrongly into believing they could successfully use or threaten to use military power, then an unambiguous commitment would be the centerpiece of their new alliance.

The idea of war in this year of 1986 is remote. After 40 years of peace in Europe, influential Americans—some neoconservatives on the right, some revisionist historians on the left, some in a quandary over Gramm-Rudman-Hollings budget cuts—want to set off a process that would take us out of Europe.

"Time to let Europe build its own defense," one reads on the op-ed page of The Wall Street Journal. In the wake of the initial lack of European support for the U.S. action against Libya, a country outside the NATO area of defense, a distinguished editor writes, "what starts with the withdrawal of American tourists ends in the withdrawal of American soldiers." Another commentator ominously notes: "The cost of defending Japan is fuzzier to calculate, but it would be hard to figure less than $150 billion for Europe and Japan together. And guess what? That's just about the size of the deficit." Others say NATO can't act, that it is a constraint on our other commitments around the world.

Today I will gaze on those white crosses in Flanders Field. Fifteen million died in World War I. Fifty million in World War II. Oh, but it would never happen again, say our new isolationists. Some left-wing revisionist historians say there is no threat anyway, that we caused the cold war in the first place. Some neoconservatives say the Soviets stalk us elsewhere, that there is no danger in Europe. Reduce the commitment to Europe, toss out Article V of the North Atlantic Treaty; the Pacific basin is what counts anyway.

The Soviets have been unsuccessful in splitting Europe from America. But their purposes remain constant. Having been dealt setbacks from the Berlin crises to the deployment of intermediate-range missiles, the Soviets know that their huge conventional superiority in the 1990s, when nuclear weapons will not have the deterrent value of earlier years, will give them new opportunities. They may reason that blackmail could work, that they could achieve their purposes without war, or without much of one. They would be encouraged in this by the fraying of the American commitment.

This same fraying would introduce precisely those elements of ambiguity and uncertainty that had such deadly effects in 1914 and 1939. "If ye break faith with us who die, we shall not sleep, though poppies grow in Flanders Fields." The writer of these lines, Canadian Dr. John McRae, treated patients who were rolled down a bank into his station. He could not have known the consequences of a war in our time. Even to us they are scarcely imaginable.

## NEW YORK'S APPROACH TO DRUG PROBLEM

Mr. BIDEN. Mr. President, I have read with great interest an August 5 article in the New York Times by Todd Purdum and an article printed this morning in the Washington Post by William Raspberry on a program in New York City that has sent a loud and clear message to drug traffickers and users throughout New York City.

This program utilizes the civil and administrative forfeiture provisions of a law which I introduced as part of the Comprehensive Crime Control Act of 1984. In April 1980, as chairman of the Senate Judiciary Subcommittee on Criminal Justice, I chaired hearings on the subject of the Government's efforts to seize and forfeit the assets of those involved in the drug trade. Since that time, I have been actively promoting the use of forfeiture as a means of attacking the drug trade, and I am still convinced that the use of forefeiture laws remains the most effective and the most underutilized law enforcement tool in the Federal narcotics control arsenal. I am encouraged to see that the Department of Justice is beginning to recognize the versatility and usefulness of the forfeiture provisions enacted in the 1984 crime bill.

Under the New York program, which I might add is less than 2 weeks old, 43 persons arrested for buying illicit drugs have also had their cars confiscated. This is permissible under the provisions of the 1984 crime bill, in which we sought to make the use of forfeiture of assets a more viable tool for law enforcement.

The effectiveness of New York City's forfeiture policy cannot be overstated. New York, like so many other cities who have taken a strong stand against the drug trade, faces a voluminous court calendar and scarce prison space. In these times of public skepticism about our criminal justice process, the value of this program lies in the immediate message it sends throughout New York City. As Sterling Johnson, New York City's special narcotics prosecutor, has commented: "Under this program a $10 vial of crack can cost upward of $10,000 to $15,000." This program also sends another message: The drug trade, both buying and selling, will not be tolerated. As William Raspberry noted:

> Drug abusers aren't victims; they are coconspirators in crime, and its about time they were treated as such.

I applaud the efforts of the mayor and police commissioner of New York City, the city's district attorney and special narcotics prosecutor and the U.S. attorney for Manhattan in this program, and I hope other cities will look to this program as an example of the effectiveness of laws aimed at the assets of the drug trade.

Mr. President, I ask unanimous consent that the two articles I mentioned previously be printed in the RECORD.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

[From the New York Times, Aug. 5, 1986]

NEW YORK POLICE NOW SEIZING CARS IN ARRESTS FOR POSSESSION OF CRACK

(By Todd S. Purdum)

When law-enforcement officials stopped 43 people whose cars were cruising last week in areas of Manhattan where drugs are widely sold, they not only arrested them on charges of possessing crack. They also seized their cars.

In the latest wrinkle in the battle against the potent cocaine derivative, the police and Federal drug agents have expanded their use of a 16-year-old Federal law that allows the confiscation of property used in drug transactions. In the four-day period that ended Saturday, 30 cars were taken, the ma-

jority from middle-class suburban communities in New Jersey.

"If you come to New York to buy crack, bring car fare and be prepared to take the bus back," Police Commissioner Benjamin Ward said yesterday afternoon as he and other officials announced the seizure of the vehicles, which ranged from a 1971 Chevrolet van to a 1986 two-door Pontiac Fiero.

GOAL SUGGEST BY MAYOR

In the past, the 1970 civil statute used as the basis for the seizures has been applied mostly to drug dealers, according to Rudolph W. Giuliani, the United States Attorney in Manhattan, who appeared with Mr. Ward yesterday at a news conference at a Manhattan garage where the vehicles are being stored. But he said a recent review of the law had confirmed that it could be applied equally to any property used as an instrument in drug transactions.

Mayor Koch said that he thought officials should set a goal of confiscating 5,000 vehicles during the program and that the city would provide some garage space if Federal space proved inadequate.

No individual took credit for the new policy yesterday, and a Police Department spokeman, Officer Fred Elwick, said it was the result of a recent brainstorming session among city and Federal officials, who in recent weeks have been grappling with strategies for fighting the spread of crack.

Officials acknowledged that the vehicle seizures would likely be challenged by about 50 percent of the people whose cars are taken, but they said they hoped that the new policy would be a potent deterrent, particularly to the suburban drug buyers—many of them young people using their parents' cars—who drive across the George Washington Bridge to buy crack in Upper Manhattan.

All of those arrested in the four-day sweep last week were charged after agents and officers saw them engaged in "blatant transactions, in plain sight," the officials said. They said those arrested ranged in age from 16 to 39, and the average age was about 25.

Even if the arrested people are acquitted of the drug charges, they may not get their cars back, according to Robert Strang, a spokesman for the Federal Drug Enforcement Administration. That is because under the civil statute used to seize the vehicles, the Government must only produce a preponderance of evidence that the car was used in a drug transaction, not prove it beyond a reasonable doubt as in a criminal case.

"When they come home without momma's car or without daddy's car, the criminal-justice system is going to be the least of their worries, and it's about time," said Sterling Johnson, the special state narcotics prosecutor for New York City, who also appeared at the news conference with Mayor Koch and Robert Stutman, special agent in charge of the Drug Enforcement Administration's New York office.

IT'S NOT FAIR

Some of the people whose cars were taken expressed anger at the new policy when reached by telephone yesterday.

"It's not fair," said Giuseppi Martino of Hackensack, N.J., whose 1985 Pontiac Trans-Am was confiscated as he drove it alone in the Washington Heights section of Manhattan. "I still owe an $8,000 bank loan on it. I'm going to fight to get it back," said Mr. Martino, who was charged with criminal possession of a controlled substance.

Tara Treanor, a 20-year-old waitress from Glen Rock, N.J., whose 1982 Chervolet Cavalier was seized, also said she thought the penalty was "too steep, especially for first offenders."

"I'm not happy about it," said Ms. Treanor, who faces the same charges as Mr. Martino. "But I think it'll teach people a lesson. It certainly taught me one. I'm not going back until I go to court. I don't think I'll even go to bars in the city."

Rhea Brecker, an assistant United States Attorney and the head of the narcotics unit in Mr. Giuliani's office, said people whose cars were seized could choose one of two avenues of appeal.

The first, she said, is an administrative procedure in which the person whose property is seized writes the Justice Department to request a hearing. A departmental hearing officer then reviews the case, and his ruling is final, Ms. Brecker said.

Alternatively, a person could opt to post a bond for 10 percent of the car's value, or $2,500, whichever is less, and take the case to Federal court for adjudication. The trial procedure is usually more expensive and time-consuming, officials said.

Mr. Giuliani said the civil standard that governs the confiscation of cars only requires the Government to produce a preponderance of evidence that the property was used as an instrument in a drug transaction.

---

CAN THEY GET THEIR CARS BACK?

(By William Raspberry)

The price of crack has escalated sharply in New York. Not only might it cost you upwards of $50 for a "snow pack" of the highly addictive smokable cocaine derivative; it might also cost you your car.

New York City policy and officers of the federal Drug Enforcement Agency, using a federal law authorizing the seizure of vehicles used to transport contraband, have started confiscating the cars of street purchasers of the drug.

In one four-day period over last weekend, they netted 30 automobiles, ranging from an old van to a Porsche and a pair of nearly new Mercedes Benzes. All but three of the cars bore New Jersey plates.

A DEA spokesman said there was no effort to target New Jersey cars. "It just happened that way." The cars, whose drivers ranged in age from 16 to 39, reportedly had crossed the George Washington Bridge from affluent Jersey communities to purchase the drug from upper Manhattan street venders. Many of the transactions were "blatant," officials said.

The law under which the cars were seized has been used almost exclusively against dealers and traffickers in narcotics, but officials say their research convinced them that it was equally applicable to street purchasers.

Its potential deterrent effect is unarguable.

As Police Commissioner Benjamin Ward said at a press conference called to show off the booty, "If you come to New York to buy crack, bring carfare and be prepared to take the bus back." Added the city's special narcotics prosecutor, "When they come back home without Mommy or Daddy's car, the criminal justice system will be the least of their worries".

But is it fair?

The astonished victims clearly don't think so. A 20-year waitress who lost her 1982 Chevy said the penalty was "too steep," especially for first offenders. A Hackensack man whose 1985 Pontiac Trans-Am was seized said it was grossly unfair. "I still owe an $8,000 loan on it, and I'm going to fight to get it back."

He might have a tough fight on his hands. Under the seizure law, the government must present only a preponderance of evidence—not proof beyond reasonable doubt—that the vehicle was used to transport contraband.

Nor does it matter whether the person caught with the drugs actually owns the car. I recall a Washington case in which a man involved in a fight went home and returned to the scene with a sawed-off shotgun in his wife's car (his was in the shop). The DEA determined the weapon to be contraband under the federal statutes and took her car.

Given the relatively small haul (100 vials of crack, an ounce of cocaine and 47 unidentified pills) the confiscation of 30 cars might seem excessive. But it does make the point, as no official proclamation or occasional sweep ever could, that the authorities are serious about moving against crack.

Only against crack? Doesn't that imply some level of condonement for abuse of other substances—cocaine, heroin or PCP? Should exceptions be made for marijuana? For first offenders? In cases involving cars borrowed from innocent friends or relatives?

In short, there are problems with the New York approach.

But there are pluses too, the chief one being to deny the fiction that drug abusers are somehow "victims" of drug peddlers. That is the theory that has Maryland prosecutors looking to file murder charges against the man who allegedly provided Len Bias his fatal dose of cocaine. Well, drug abusers aren't victims; they are co-conspirators in crime, and it's about time they were treated as such.

The draconian approach adopted by New York—Mayor Ed Koch says the city should set a target of 5,000 confiscations—won't solve the drug problem. The most likely results will be the creation of a new breed of go-between suppliers and an escalation in the sale price of the drug.

New York City has already raised the potential price to a level that at least some prospective users will find unacceptable. As the dismayed waitress put it, "I think it will teach people a lesson. It certainly taught me one."

At a minimum, New York has served notice that it is serious—at least about the deadly crack.

---

## THE EFFECTS OF GRAMM-RUDMAN-HOLLINGS ON DEFENSE SPENDING

Mr. MOYNIHAN. Mr. President, there are two articles in the Washington Post of August 6 which merit special attention by the Members of the Senate.

Both articles refer to a meeting attended by Senator GOLDWATER, Senator NUNN, President Reagan and others yesterday at the White House. The two Senators, the chairman and ranking member of the Armed Services Committee, went to the White House to express their concerns about the fate of defense programs given the constraints of the budget process.

Senator NUNN is reported to have told the President: "We're going over the cliff as far as defense is con-

cerned." Later, in answer to a reporter's inquiry about the response his comments received, he said, "I would say they listened. I'm not sure they heard. There's a distinction." Senator GOLDWATER reported after the meeting that President Reagan and Defense Secretary Weinberger were "shocked at some of the things we might have to do."

There ought not be such "shock" any longer. One would have hoped that the message had gotten through.

Last October 3, even before formal consideration of Gramm-Rudman-Hollings began, I took advantage of the hour of Morning Business to make some preliminary remarks on the proposition we were about to discuss. I said:

In the name of forcing reductions in "bloated Federal programs," or however they are called, we are going to be asked to cut . . . defense procurement not subject to prior contracts. . . .

We are going to cut back on the FBI and its efforts to combat terrorism. We are going to cut back the CIA. . . .

We are preparing to cut our defense, cut our counterintelligence; we are cutting the National Security Agency; we are cutting the CIA. . . .

Four days later, on Monday, October 7, I warned of large cuts to come in defense readiness:

We are putting in place a measure which, in the long run, will bring draconian, automatic reductions in the defense and foreign policy activities of the United States.

I elaborated—

We would start cutting [foreign aid] and defense, and would do so arbitrarily in response to a formula which is implicit in this legislation but has never been avowed, has never been subjected to the test of inquiry, question and response . . .

[T]his would be . . . disabling to American foreign policy which is the first instance depends very much on the strength of the American Government.

I returned to the floor later the same day to offer the thought again—

That the world's largest debtor nation with a declining defense budget is not going to be seen as the world's most powerful nation. That will be an interesting legacy of these days of nondebate on this floor. . . . We are putting in place the decline of the United States.

And again on October 8 I went to the floor and attempted to explain the course I saw the Senate charting for the Nation:

We will wonder what happened to that vaunted and strong America which was to have commenced at the outset of this decade . . . there will be very sharp cuts which fall almost entirely in the field of national defense and foreign relations.

You will find yourself retreating from the world. You are going to find yourself being driven from places in the world by virtue of a self-inflicted weakness which will originate in decisions being made in this Chamber in the next few days.

The next day the amendment was passed by the Senate on a 75-to-24 vote. The day following I observed that we had just witnessed a most remarkable event in American party politics.

A majority of Democrats agreed to dismantle the domestic policies of Franklin D. Roosevelt, in return for a majority of Republicans agreeing to dismantle the defense policies of Ronald Reagan.

The Senate began debate on a slightly modified proposal on November 4. I returned to the Senate floor with Senator HART, offering an amendment to require OMB and CBO to estimate just how much defense spending would have to be cut under this scheme, and directing the Department of Defense to report to Congress just how these cuts could be achieved. We were gambling, I said:

With the defenses of this Nation in a manner that just cannot be described in my view as responsible.

I tried to warn the Senate that we are at risk of:

Returning to the readiness situation that President John F. Kennedy encountered when he became President in 1961. At that time, a long period of decline in conventional forces had left us with no serious military capacity save that of nuclear war. * * * It took Kennedy and Johnson a long time to build away from that condition.

Is it possible that in one measure, never heard in committee, never debated in anything more than the context of the debt ceiling, that had to be passed, we are going to return to that situation?

If we do, we shall have a lot to answer for.

On March 1, defense programs were cut across-the-board by 4.9 percent. Congress reaffirmed those cuts on July 17. On August 15, we will hear once more from CBO and OMB how much defense must be cut. If we are $30 billion over the deficit target for fiscal year 1987 of $144 billion, defense will be cut about 8 percent.

I am not sure the White House has ever come to grips with this devastating effect of Gramm-Rudman-Hollings—a law endorsed by the administration.

I am quite certain that Gramm-Rudman-Hollings will bring nothing but harm to the defenses of the Nation. Funding for defense programs continue to face an uncertain future until the administration and Congress commit to a serious and responsible plan to reduce the deficit.

I ask unanimous consent that the two stories from the Washington Post be printed in the RECORD at this point.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

[From the Washington Post, Aug. 6, 1986]

REAGAN PLEADS FOR HILL SUPPORT

(By Lou Cannon)

President Reagan appealed to congressional leaders yesterday to rescue his embattled legislative programs, and, while he won a pair of narrow victories, White House officials and key senators warned that major administration goals are in danger on Capitol Hill.

Republican leaders told Reagan that he could lose his attempt to sustain a veto of legislation to protect the textile industry. Senate Majority Leader Robert J. Dole (R-Kan.) said it is becoming increasingly harder to meet the deficit-reduction targets of the Gramm-Rudman-Hollings law. Sen. Sam Nunn (Ga.), ranking Democrat on the Senate Armed Services Committee, met with Reagan and said that "we're going over the cliff as far as defense is concerned."

Public and private surveys indicate that Reagan is at near-record levels of voter approval. He is popular with members of Congress, too, but his popularity is not necessarily translating into support for his policies.

Sen. Strom Thurmond (R-S.C.) summed up the president's predicament after a morning meeting at the White House where the president made an emotional plea to sustain the veto of the textile bill. Thurmond bluntly responded that the veto was "ill-advised" and a blow to a domestic industry that has lost 350,000 jobs.

"I hope we can override," Thurmond said afterward. "I think President Reagan has made the best president in the 32 years I've been in the Senate, but I hope we can override."

After this meeting Reagan, joined by Defense Secretary Caspar W. Weinberger and Budget Director James C. Miller III, lunched with Nunn and Senate Armed Services Committee Chairman Barry Goldwater (R-Ariz). The message from Nunn and Goldwater was that Reagan's defense buildup is endangered because of his efforts to invoke cutbacks mandated by the deficit-reduction law.

But Nunn emerged from the meeting dissatisfied with the response. Asked whether the president and his advisers had responded to his plea to evoke contingency provisions of the law and reconsider the entire budget, Nunn said, "I would say they listened. I'm not sure they heard. There's a distinction."

A White House official said later that the administration is "fighting too many wars on too many fronts" in Congress during an election year in which domestic political considerations have become increasingly dominant. Another official said the administration's greatest problem could be the budget because the House is "quietly passing" appropriations bills that undermine deficit-reduction targets.

Rep. Dick Chency (Wyo.), a member of the House Republican leadership, said, "There's so much on the platter right now that we spent an hour and a half at the White House today and never even talked about the budget or tax reform, which are pretty big items." But Cheney, while saying that the textile bill's fate is "too close to call," predicted that the President will prevail on most issues.

House Minority Leader Robert H. Michel (R-Ill.) expressed concern after the leadership meeting that a presidental defeat on the textile bill might be interpreted as a sign that Reagan's leadership is slipping.

The multiplicity of administration concerns was reflected yesterday in Reagan's private meeting with congressional leaders. After asking Congress to uphold his textile veto, the president pleaded for Senate passage of a $100 million package to aid the Nicaraguan rebels and asked the Senate to resist further cuts in his Stragegic Defense Initiative (SDI).

Reagan was quoted by White House spokesman Larry Speakes as saying that SDI is "indispensable" in the process of "se-

curing an arms control agreement" with the Soviet Union.

The Senate yesterday gave Reagan twin one-vote victories in defeating attempts to cut fiscal 1987 funding for SDI from the $3.9 billion the Armed Services panel has approved to $3.2 billion and then $3.5 billon. The administration also won a one-vote victory, 15 to 14, when the Senate Appropriations Committee agreed to attach the aid package for the Nicaraguan rebels to the military construction bill.

In a speech by satellite television to the Knights of Columbus convention in Chicago, the president said congressional delays in aiding the Nicaraguan rebels are risking lives at a time that Soviet-bloc nations are increasing military support for the Sandinista government.

"We need that assistance now," Reagan said. "Further delays is risking the lives of the Nicaraguan patriots."

Reagan also reported to Congress yesterday his view that abandoning the unratified SALT II arms control treaty would not necessarily prompt a bigger arms buildup by the Soviet Union. The president said May 27 that he would no longer be bound by the limits of the pact because of Soviet violations.

---

[From the Washington Post, Aug. 6, 1986]

SENATE SANCTIONS BATTLE DELAYS DEFENSE DEBATE

(By Helen Dewar and Edward Walsh)

The Senate erupted in a bitter partisan dispute over South Africa sanctions and aid to Nicaraguan rebels last night, sidetracking debate over defense policy shortly after President Reagan's already scaled-back "Star Wars" missile defense program narrowly survived two attempts at further cutbacks.

Couched in the elaborately polite language used on the Senate floor, Majority Leader Rober J. Dole (R-Kan,) and Minority Leader Robert C. Bryd (D-W,Va.) traded charges of bad faith in attempts to deal with the two explosive foreign policy issues.

As a result, the fiscal 1987 defense authorization bill containing Reagan's Strategic Defense Initiative (SDI), was stalled while the two leaders and their allies sought an elusive agreement to allow the sanctions legislation and the aid package for the counterrevolutionaries, or contras, to be voted on before Congress recesses Aug. 15.

At the center of the dispute was jockeying over Dole's attempt to force Democratic liberals to allow a vote on contra aid in exchange for action on South Africa sanctions. Expressing "surprise and disappointment," Dole accused Democrats of a "violation of the spirit" of earlier plans for dealing with the two issues. Byrd bristled at what he said was Dole's suggestion that Democrats had "sneaked" the sanctions measure onto the floor to force an early vote on it, thereby leaving the contra aid package in abeyance.

"I've had enough of this business of the majority leader acting as traffic cop, defining who can offer amendments." Byrd said.

Only minutes before the dispute broke out, the SDI program, already slashed by the Senate Armed Services Committee, escaped even deeper cuts when the Senate rejected two proposals for further reductions in back-to-back 50-to-49 votes.

Reagan's $5.3 billion request for SDI in fiscal 1987 already has been cut to $3.9 billion by the Armed Services panel. The first proposal defeated yesterday would have cut the amount to $3.2 billion; the second would have trimmed it to $3.5 billion.

After the two votes, Sens. J. Bennett Johnston (D-La.) and Daniel J. Evans (R-Wash.), leaders of the SDI cutback effort, indicated they would not offer additional amendments, contending the closeness of the votes sent a powerful message about the need for further reductions.

The committee proposal provides for a 28 percent increase over current SDI spending after adjustment for inflation. The defeated proposals would have reduced the after-inflation increase to 3 percent and 15 percent, respectively. Reagan had proposed to increase spending more than 70 percent.

Action on the antimissile shield came as both houses debated fiscal 1987 defense authorization bills that are sharply reduced from levels proposed by Reagan—$295 billion in the Senate and $292 billion in the House, compared with $320 billion proposed by the president.

It was accompanied by stern warnings to Reagan and Defense Secretary Caspar W. Weinberger from Armed Services Chairman Barry Goldwater (R-Ariz.) and the panel's ranking Democrat, Sen, Sam Nunn (Ga.), that the administration's military buildup faces what Nunn called a full-scale "budget disaster."

Additional cuts that will be required by the Gramm-Rudman-Hollings budget control act could force cutbacks that would "devastate our current military capabilities and contribute to major future deficiencies," Nunn told the Senate before delivering the same message personally to Reagan, Weinberger and Office of Management and Budget Director James C. Miller III.

In the meeting with Reagan, Goldwater laid out what he described as severe cuts that could be required next year and Nunn urged a joint effort by the White House and Congress to revise defense plans for the next five years and reexamine requirements of the Gramm-Rudman-Hollings law.

Both Goldwater and Nunn said they believe that additional revenues will be required for defense needs, and Nunn said major benefit programs, including Social Security, should be put on the bargaining table for budget cuts. Reagan has adamantly opposed tax increases and Social Security cutbacks.

Asked how Reagan and Weinberger had responded, Goldwater said they were "shocked at some of the things we might have to do." Nunn said, however, that he saw no change in thinking at the White House and added, "I would say they listened. I'm not sure they heard."

The votes on the SDI cutback proposals were largely along party lines. Maryland senators supported the cutbacks; Virginia senators opposed them.

The House, in action on its version of the defense authorization bill for fiscal 1987, which begins Oct. 1, voted overwhelmingly yesterday for a major restructing of the Defense Department.

---

## DEATH OF THE HONORABLE W. AVERELL HARRIMAN

Mr. MOYNIHAN. Mr. President, some days ago, 23 U.S. Senators traveled to New York City to attend funeral services for W. Averell Harriman. His death, though not unexpected, was even so a shock.

For this Senator, Averell Harriman's death brings especially rich memories. My first job in politics was as an aide to the then Governor in 1955. And it was there in Albany that I met my wife Elizabeth, also a member of his staff. He was a part of our lives for a third of a century, and of the Nation's for more than half a century. And as much as we are diminished by his death, we are enhanced by his life.

Mr. President, as a measure of respect for this great New Yorker and revered American, I ask unanimous consent that the homily delivered at the service by Bishop Paul Moore, as well as four articles from the New York Times, "The Lives of Averell Harriman," "U.S. Leaders Laud Harriman," "Ex-Gov. Averell Harriman, Advisor to 4 Presidents, Dies," and "Harriman: A Tribute" by James Reston be printed in the RECORD.

There being no objection, the materials were ordered to be printed in the RECORD, as follows:

HOMILY ON THE OCCASION OF THE BURIAL SERVICE FOR W. AVERELL HARRIMAN

(By The Rt. Rev. Paul Moore, Jr., Bishop of New York)

A great and extraordinary person has departed this life—one of the last giants of our day. A man in love with life and the living of it—with history and the making of it.

We gather here to give thanks for him, not only on our own behalf but on behalf of the millions, perhaps the billions of human persons whom he has touched; who are alive today because of his efforts for peace throughout the world, who are sane today because of his work for mental health, who have a roof over their heads because he believed every citizen has a right to a home. Many are free today because of his belief in human rights, and we breathe a nuclear-clean atmosphere because he worked through the test ban treaty many years ago.

To read his life story, even in summary, is a staggering experience: to see history through the eyes of one who was there, with common sense and deep commitment to justice and peace and freedom; who was there at almost every dangerous lurch of events in this strange century of ours.

We do not describe a plaster saint but we do paint a picture of a man filled with the obligation of his nobility. He was one to whom was given, and he gave and gave and gave so much more to us all. Would that everyone, however great or small his heritage, could be such a steward of his talents. He spread himself across this whole earth: Asia, Africa, Russia again and again, he lifted up a broken Europe to her feet. He was tough yet balanced with the most abstruse problem, the most wily adversary.

Where did he learn the resilient pragmatism of his trade? Why did one so rich who loved to play so hard feel such a mighty drive to service? Whence came the patience to wrestle down the unwieldy institutions of society until he won a victory for the people of the world? He wrestled, indeed, like Jacob with the Angel, but the angels with whom he wrestled were angels of darkness, of Fascism, Communism, lust for power, and greed.

Where did he learn that to work for justice, all ideology and personal bias must be set aside in humility, lest that ideology block the way for those very people it was created to save? From what deep springs

came that intensity—that force—which made him so often succeed? From his father, from his sister, to be sure. But I woud like to think that it may well have been also in Groton chapel that his mind and heart were set, perhaps unconsciously, by some divine osmosis. And that there he found the Anglican way of balance, decency, order, and dedication to the persecuted children of God; that it was in that beautiful place that the spirit we see took its deep roots.

Today we also, as always at a time like this, speak of a person who was loved and who loved, who had so many friends and who sought out especially young friends, a person himself young in heart through all the years; one who leaves behind a sorrowing family and friends.

He is gone and we face death here in its darkness and mystery and terror. We experience the paradox of love and pain—that the pain of separation is as deep as the love for the one who has gone. But who would trade the love to ease the pain? This passion—this suffering and love is the heart of the Cross. Pain, love, dying are all one in the rhythm of creation, and you can find your Lord most present in the heart of darkness; for He has been there long before. And believe me, on the other side of the darkness is new life and new joy for him who leaves us and for us all.

We pray that Averell will go from strength to strength in the life of perfect service. We pray that God will comfort his family, but above all, we give thanks and celebrate his life. And we dedicate ourselves anew to the great causes for which he fought and to the people of this suffering world whom he served so well.

THE LIVES OF AVERELL HARRIMAN

Averell Harriman could have devoted his life to his beloved polo and in other ways squandered the millions he inherited from his railroad-baron father. But if some Americans were born richer, none have been less idle.

As a leading diplomat, entrepreneur, politician and philanthropist, he was in the thick of things for an astonishing eight decades. Having dealt with Stalin, he became above all a voice for sanity in coping with that dictator's successors. And still he became America's fourth-ranking player at polo.

Mr. Harriman's wealth gave him independence and patrician self-assurance, qualities that contributed to his success as a gray eminence under four Democratic Presidents. He was also aloof and a dull public speaker, and failed, despite election to one term as Governor of New York, in two bids for the Presidency. So at 69 he undertook a fresh career as an Assistant Secretary in President Kennedy's State Department, running younger New Frontiersmen ragged.

He became something of a legend in what others would call the advanced years, as negotiator of the Laos accords, of the landmark treaty banning atmospheric nuclear tests and in the first probes for peace with North Vietnam. His great influence had been established in World War II by his clearheaded prescience about the aggressive expansion of Stalin's empire. Precisely because he had no illusions about Moscow and carried that armor in American politics, he could take the lead in efforts to curb the arms race and to negotiate with other adversaries.

In an age that overrates charisma, Mr. Harriman's dogged virtues stood out. He had respect for intelligence and a shrewd eye for talent. If scarcely a great Governor, he nevertheless assembled an impressive team, including talented rookies like Daniel Patrick Moynihan and the late Jonathan Bingham.

He generously donated Arden House, his boyhood home north of New York City, to Columbia University, and most recently gave the university new resources to finance the rebuilding of its Russian Institute.

To the end, this well-born capitalist waged a compassionate politics and feared ignorant passion in the global competition with Communism. He served when he could have played and he served abundantly.

[From the New York Times, July 27, 1986]

U.S. LEADERS LAUD HARRIMAN

President Reagan, Senator Edward M. Kennedy and other leading political figures paid tribute yesterday to W. Averell Harriman.

Mr. Reagan said, "The world has lost one of her most respected statesmen; the death of Averall Harriman closes a chapter in diplomatic history which only someone of his talent and statute could have written."

"Nancy and I offer our sympathy to his wife, Pamela, and to his family," the President continued. "On behalf of my predecessors whom he served with such loyalty and dedication, I join all who mourn his passing."

Senator Kennedy said Mr. Harriman was "one of the greatest Americans of his time."

"Business leader, Governor, Statesman, Ambassador, he was the Renaissance man of American public life," Mr. Kennedy, a Massachusetts Democrat, added. "In many respects, we could not have had the 20th century without him.

"I remember when my brother, Jack, first became President, he announced that the torch had passed to a new generation of Americans," Senator Kennedy continued, "then he turned around and realized that Averall Harriman still had it."

"There was no mission President Kennedy would not have given him," he observed. "The young President and the elder statesman made a remarkable couple, and his skillful negotiation of the Test Ban Treaty of 1963 stands as a monument in our quest for nuclear arms control. America has lost a extraordinary leader and the Kennedy family has lost a wonderful friend and counselor."

A LIFE NOBLY LED

Former Secretary of State Dean Rusk said, "He was one of the finest diplomats this country has had in the entire postwar period; one cannot grieve after a life so long and so nobly led."

Like Mr. Harriman, Mr. Rusk served in the Truman, Kennedy and Johnson Administrations. He said Mr. Harriman was "a very skillful and patient and determined negotiator; he was especially good at troubleshooting during sudden crises."

The national chairman of the Democratic Party, Paul G. Kirk Jr., said, "The United States and Democratic Party have lost a statesman, a diplomat, a benefactor and a friend."

Governor Cuomo said Mr. Harriman left "a monumental record of public service" and added' "New York will remember him as a Governor who led an administration deeply concerned with problems of mental health, civil rights and aging. Nationally, he will be remembered as a participant in many of the events and decisions that have shaped our history."

EXPERIENCE MADE HIM WISE

Former Secretary of State Cyrus Vance said, "He was a great patriot and one of our outstanding statesmen—we will all miss him terribly."

Mr. Vance said that Mr. Harriman "was extraordinary for what he did for his country. His vast experience made him very wise; and so when you wanted good judgment you always looked to Averell, because he had plenty of common sense based on superb intelligence."

"He was warm and friendly, but he could be strong and sharp," Mr. Vance said, "He was very human; if you were his friend, there was nothing he wouldn't do for you."

The State Department said in a communique: "Few diplomats in American public life have served their country in as many important capacities or taken part in so many history-shaping events. His loss will be deeply felt.

"Secretary and Mrs. Shultz wish to express their heartfelt condolences to Mrs. Harriman and to the rest of the Harriman family. With them go the condolences of the many thousands of State Department and Foreign Service personnel past and present who had the honor of knowing and working with Ambassador Harriman. While we all mourn his passing, we are comforted and uplifted by the knowledge that his was a long life, nobly spent in the best tradition of American diplomacy."

In tribute to Mr. Harriman, Mayor Koch order flags flown at half staff in the city.

[From the New York Times, July 27, 1986]

EX-GOV. AVERELL HARRIMAN, ADVISER TO FOUR PRESIDENTS, DIES

(By Alan S. Oser)

W. Averell Harriman, the durable Democrat who was Governor of New York from 1955 to 1959 and served four Presidents in key diplomatic roles, died early yesterday at Birchgrove, his home in Yorktown Heights, N.Y. He was 94-years old.

Mr. Harriman, who had been in failing health for about a month, died of kidney failure complicated by pneumonia, according to a family spokesman, Robert M. Shrum.

Mr. Harriman, a patrician heir to a railroad fortune, first went to the Soviet Union as a businessman in 1926, and in subsequent decades he played a major part in the development of Soviet-American relations. As Ambassador in Moscow during Wordl War II, he had a rough-and-tumble relationship with Stalin, going on to carry out crucial negotiations with Communist governments in later years.

He served also as Secretary of Commerce in the Truman Administration and held a variety of important positions in business and finance.

PERSISTENT ON WAYS TO SUCCESS

Patience, persistence, and resourcefulness, a grasp of detail and a shrewd sense of how to get things done were among the qualities that helped Mr. Harriman win his high government appointments in the administration of four Democratic Presidents—Roosevelt, Truman, Johnson and Kennedy—and to get his work done, decade after decade, with a striking degree of success.

He also benefited from much hard work and, notably as Ambassador in Moscow, from an independent-mindedness that was

nourished by the awareness that he did not need his salary. As he put it: "Fortunately, I'm not dependent on my job to eat and, therefore, have a certain independence.

That is a great advantage."

And there was his sheer gusto: Neither age nor shifting political winds could wither the enthusiasm of William Averell Harriman for affairs of state. His lanky, somewhat stooped figure was present in the highest councils of the nation and the world for four decades, so long that to many Americans he was the country's superdiplomat.

AMERICAN PLENIPOTENTIARY

It was in the later years of his life, when he had already distinguished himself in business, diplomacy and politics, that he blossomed as the American plenipotentiary supreme. By the time most of his contemporaries of World War II diplomacy had died or retired, he was just beginning to amaze his countrymen with his durability and seemingly inexhaustible vitality.

Mr. Harriman was 70 years old when he negotiated Geneva accords on a civil war in Laos; 72 when he led the American team that negotiated the 1963 Moscow treaty banning above-ground nuclear tests; and 76 when he went to Paris to start the negotiations to end the Vietnam War. To his chagrin, the election in 1968 of a Republican, Richard M. Nixon, compelled him to turn that task over to other hands.

All this came in the 1960's, with Presidents Kennedy and Johnson. But he had already had a long period of diplomatic work under Presidents Roosevelt and Truman.

"In the last 10 years," Mr. Harriman said in 1952, "I guess I've seen most of the important political characters—Benes, de Gaulle, Chiang, Adenauer, de Gasperi and the rest. I've seen Stalin more than any other foreigner has, you know. Some name did come up the other day—someone I'd never met. I've forgotten who it was, for the instant. Oh, yes, Nehru." Later he also met Jawaharial Nehru, the Indian leader.

Among other things, he had been in those years Roosevelt's lend-lease chief in Britain as well as the United States Ambassador to the Soviet Union, from 1943 to 1946, and to Britain, later in 1946, and Truman's advisor on postwar foreign policy and coordinator of the Marshall Plan recovery effort in Europe.

In the Democratic Presidential hiatus of the Eisenhower years, Mr. Harriman tried his hand at politics. His Presidential aspirations were snuffed out at two Democratic Party conventions, but he managed to win election, by a thin margin, to his term as Governor of New York.

While he was Governor, and known to some as "Honest Ave," be followed faithfully in the liberal footsteps of his great predecessors in that office but left an impression of plodding colorlessness.

And yet, much earlier, in the years after World War I, he had won a reputation as a shrewd, driving shipping magnate and a vigorous Wall Street financier. He had gone on to be the chairman of the board of the Union Pacific Railroad, from 1932 to 1942, before serving as an innovative, though unimposing, Secretary of Commerce from 1946 to 1948.

THE LOOK OF A LEADER

There was no lack of the physical attributes for political popularity or boardroom leadership. He was a slim and handsome 6 feet 1, with deeply intent brown eyes, a square jaw and a demeanor of seriousness that made his sudden broad smile all the more disarming.

His style was not of the outgoing warmth generally associated with the successful politician, but it fitted the successful negotiator perfectly. First there were his almost legendary patience and tenacious perseverance. "Persistence is the key," he once said. One official described how that applied during the test-ban negotiations in 1963: "He just keeps on talking in that low monotone."

Then there was a crafty instinct for dealing with those at the source of power. An associate described the talent harshly: "Averell's a power snob." Another put it more generously: "He wants to know the right people all the time, not the 'right people' socially but the 'right people' to get things done. He thinks if you sit down and talk things over sensibly you can work out almost anything."

There was also a painstaking mastery of the issues. Mr. Harriman awed his associates with his grasp of detail—a grasp as firm on the other side's point of view as on the American.

There were a no-nonsense, businesslike attitude, candor, even bluntness when called for, and an uncanny ability to maintain the personal respect even of those with whom he differed. A member of Congress once said of him: "Averell's nonprovocative. You just never get mad at him." Stalin, who argued vigorously with Mr. Harriman as Soviet-American relations deteriorated at the close of the war, expressed his respect with the gift of a white stallion that the Ambassador had admired in a Soviet military film.

Finally, Mr. Harriman had a resolute grasp of the principles of policy and an unswerving and rather grand notion of America's role in the international firmament. "We must have our hand out in friendship but our guard up," he would say, meaning that in practice the national interest lay in reaching accommodation, wherever possible, with a Soviet Union whose postwar international motives he distrusted.

On the personal level, Mr. Harriman had few of the conventional attributes of the diplomat. He was indifferent to clothes, bored by purely social gatherings to the point of occasional rudeness and sometimes absent-minded on personal matters. He was fluent in no foreign language, not even French, the language of diplomacy. "My French is excellent, except for the verbs," he once remarked, and it was said that this was about as close to making a joke as he ever came.

This "last tall timber of the New Deal," as Theodore H. White called him, was born in New York on Nov. 15, 1891, into one of America's wealthiest families. He was one of six children of the railroad baron E.H. Harriman, who began as a $5 a week office boy, rose to head the Union Pacific Railroad and left a fortune estimated at $70 million to $100 million. His mother was Mary Williamson Averell, a banker's daughter. The family lived in Arden House, a 40-bedroom Renaissance-style chateau on 20,000 acres overlooking the Hudson River between Tuxedo Park and West Point.

His strong-minded father impressed on him the virtues of a healthy body, strong nerves, an ability to mix with others and public service. "Great wealth is an obligation," his father declared. "Whatever you have to do with, you should try to improve it."

This view emerged later from the mouth of the son: "It is as indefensible for a man who has capital not to apply himself to using it in a way that will be of most benefit for the country as it is for a laborer to refuse to work. It is the duty of everyone rich or poor, to work. I love work—I cannot see how anyone can prefer to remain idle."

At Groton and Yale, young Harriman received C's but distinguished himself athletically. As a rower at Yale, he was made coach of the freshman crew and then of the varsity. Polo, bowling, handball, badminton, pool, skiing and croquet were passions at various times. At one time he was the fourthranked polo player in the country.

He taught himself skiing in middle age and became so proficient that when Soviet security agents were shadowing him while he was Ambassador in the 1940's, a champion skier had to be assigned to him when he went out on the slopes. And the croquet games at the Harriman home in Sands Point, L.I., became widely celebrated.

While he was a senior at Yale, Mr. Harriman was elected to the board of directors of Union Pacific. He went to work for the railroad as a trackwalker after graduation from Yale in 1913 and became a vice president a year later. But he was restless under the shadow of his father's reputation, so he bought a rundown shipyard in Chester, Pa., in 1917 and quit the railroad to run it.

After World War I his company took over the facilities and prewar trade routes of the Hamburg-American Line in a deal that was called the biggest in the history of American shipping. By the age of 29, Mr. Harriman was one of the most powerful figures in American shipping—shy, astute and hard-working, shipping writers called him—and he had dreams of establishing an international maritime empire.

He was also active on Wall Street, forming the investment house of W.A. Harriman & Company in 1919 and, with his brother, E. Roland Harriman, the private bank of Harriman Brothers & Company a year later. Later these merged with Brown Brothers to become Brown Brothers Harriman & Company, in which he was a general partner before becoming a limited partner when he went into government service full time.

His investment ventures of the 1920's had a strong international tone. One that arrested the attention of Wall Street was a deal with the young Bolshevik Government in the Soviet Union giving the Harriman interests a 20-year concession to exploit a manganese mine in the Caucasus.

Two years later, in 1926, he visited the Soviet Union and had a four-hour audience with Trotsky, whom he found brisk, businesslike and penetrating. But he also found the Soviet Union to be no place for foreign investment. Convinced that the xenophobic Stalin would win out in the power struggle to come, he recommended withdrawal from the Soviet venture, and a settlement was negotiated. "We got our money out with a small profit," he said.

His grandiose shipping aspirations gradually expired, and in 1926 he sold his ships. Six years later he was a railroad man again with his election as chairman of the board of Union Pacific.

Until 1928 Mr. Harriman was a faithful Republican, but that year brought a change. There have been various explanations of his turn to the Democrats. Some said he greatly admired Alfred E. Smith, the New York Governor who ran for President that year.

Others have pointed to Mr. Harriman's sister Mary, an intellectual who was the wife of the sculptor Charles Cary Rumsey

and a close friend of Frances Perkins, Secretary of Labor in the Roosevelt Administration. The theory was that Mrs. Rumsey had something to do with arousing her brother's social conscience and redirecting his political allegiance.

Years later he himself gave several reasons for his shift. He objected to Republican isolationism, he said, and favored support for the League of Nations. He also favored a change in protectionist tariff policies and restraints on speculative expansion in stock investments.

"I have frequently said, and it has usually gotten a laugh, that I've had a lot more fun out of life since I've been a Democrat," he said.

JOB NEGOTIATIONS AT CROQUET GAME

The New Deal found work for a man of great wealth, broad experience and wide connections in business and finance. It is said that Harry Hopkins, the New Deal official, recruited him during a game of croquet. The first important job, in 1934, was as state chairman of the National Recovery Administration, which prepared and enforced codes of fair competition for business to encourage economic recovery. He later was named the agency's administrative officer.

In these years he was also a member of the Business Advisory Council of the Department of Commerce, and in 1937 he was named chairman. His public comments at the time expressed his strong belief that business must show a sense of public responsibility.

"People in this country, I believe, are ready to listen to businessmen with more confidence than they are to the politican," he said. "But when business people don't offer any hope, don't offer any solution, why, they turn to the politician for the political cure."

In early 1941, when the United States was only months away from entering World War II, Mr. Harriman became chief of the materials branch of the production division in the Office of Production Management. From there Mr. Hopkins sent him to Britain just before the passage of the lend-lease bill.

In a matter of months he was flying everywhere from Moscow to the Middle East to expedite, shipments of war aid to the British: "By my direction he was shown everything," Winston Churchill, then the British Prime Minister, wrote in his memoirs. So began a vigorously peripatetic international career.

With Lord Beaverbrook of Britain he went to Moscow in 1941 to arrange lend-lease shipments to the Soviet Union, the new ally of the West. In August 1942 he returned there, this time with Churchill, to talk about opening a second front in Europe. A year later he was named Ambassador to Moscow.

During the war Mr. Harriman twice flew in planes that mistakenly came under Allied fire. "I once mentioned to Stalin that I had been shot at by the British and the Russians," he recalled. "Stalin rather liked that."

The Soviet leader learned to stand for some unaccustomed backtalk from Ambassador Harriman to his own blunt criticism of American policy. On one occasion, the American Ambassador to China, Maj. Gen. Patrick J. Hurley, was witness to an agrument that waxed so hot that he interposed, "Come, come, gentlemen, things can't be as bad as all that."

The combatants stopped only long enough to turn to General Hurley with a disdainful, who-let-him-in expression and then returned to the fray. Later Mr. Harriman told General Hurley, "That was nothing compared to what usually goes on."

As Ambassador, Mr. Harriman showed a willingness to make independent decisions without instructions from Washington.

When the Russians wanted him to forward to Washington a proposed draft for an Allied reply to a Japanese surrender statement, he declined, telling Stalin that its language seemed to give the Soviet Union a veto over the selection of personnel for the Allied High Command that would rule Japan. Stalin changed the language.

In the aftermath of the war, the Ambassador became convinced that the Soviet Union intended to extend its control over neighboring countries in violation of the Yalta agreement, as the United States understood it.

As James V. Forestal, who was to become the first Secretary of Defense, recalled it, Mr. Harriman said "that the outward thrust of Communism was not dead and that we may have to face an ideological warfare just as vigorous and dangerous as Fascism or Nazism."

Mr. Harriman therefore advocated a policy of strength and firmness and, according to Truman, an abandonment of any illusion that the Soviet Union was likely to act in accordance with the principles of international relations to which the rest of the world held.

Some later critics said Mr. Harriman's viewpoint helped set the cold war in motion. In any event, it proved persuasive to Truman and guided his position, for example, in the wrangling over Poland's postwar government. The West strove for a broadly representative interim government pending free elections, while Stalin insisted that the pro-Soviet Lublin regime hold power. Mr. Harriman told Truman, "I am afraid Stalin does not and never will understand our interest in a free Poland as a matter of principle."

Mr. Harriman placed great emphasis on the importance of the United Nations, then being formed, in keeping world peace. "It is a fact that the Russian ideology is completely different from ours," he said, "but if we both adopt the attitude of live and let live as to internal affairs and we both respect the right of all people to choose their own way of life, this barrier needn't be insurmountable."

In 1946 Truman acceded to Mr. Harriman's request, to be relieved of the Moscow post but only a month later asked him to go to London as Ambassador. He was welcomed warmly by the British, but scarcely seven months later he was back in Washington as Secretary of Commerce.

At Commerce, Mr. Harriman headed a committee that produced a study that helped bring about the passage of the Economic Cooperation Act, the basis of assistance to postwar Europe.

But in the public aspects of the post, he was less than a success. He acquired a reputation as a dreadful public speaker, talking in a slow monotone and sounding unsure of himself.

In the spring of 1948 Truman had a new assignment for his loyal lieutenant. He was given the title Special Representative in Europe for the Economic Cooperation Administration, in effect making him the White House watchdog over the Marshall Plan in Europe. During the next several years Mr. Harriman traveled widely and supervised the disbursement of billions of dollars in American goods and money to American allies, past, present and potential.

Later Truman made Mr. Harriman a special assistant on foreign policy and head of the Mutual Security Administration. But hardly anyone, until the 1950's thought of him as a likely political candidate.

When Truman withdrew from consideration for renomination to the Presidency in 1952, Mr. Harriman came forward as an uncompromising New Deal-Fair Deal liberal. At the Democratic convention in that year he allied himself with Senator Estes Kefauver of Tennessee in an attempt to stop the nomination of Adlai E. Stevenson. They failed.

So Mr. Harriman, still ambitious, still dogged, turned two years later, to New York State, where uncompromising New Deal liberalism had a strong appeal. With the support of state Democratic chieftains, and especially the Tammany Hall leader, Carmine G. DeSapio, he won the 1954 gubernatorial nomination over the antiboss candidate, Franklin D. Roosevelt Jr. For that he paid a price: Independent voices as well as the Republican opposition charged that he was the captive of the bosses.

The charge did not die even after the election, in which Mr. Harriman squeaked through against his Republican opponent, Senator Irving M. Ives by 11,791 votes out of five million cast.

"HONEST AVE" DROPS THE "W."

According to one colleague, Adrian S. Fisher, the election changed Mr. Harriman. "I think in Harriman's life being elected rather than appointed was the equivalent of meeting a payroll," he said. "Where he was jumpy before, he's now self-confident. His diffidence in speaking is completely gone."

Nevertheless, as the Governor—who had adopted the sobriquet "Honest Ave" and dropped the "W." in front of Averell—he never succeeded in inflaming the imagination or stirring the affection of the New York public.

Once he was said to have telephoned his close assistant, Milton Stewart, during dinner and reprimanded him in exceptionally strong language for something. Those at the table kept an embarrassed silence, and soon the Governor placed a second call to Mr. Stewart. Everyone expected an apology, but instead Mr. Harriman grumbled into the telephone, "Milt, I just wanted you to know I meant everything I said."

Mr. Harriman himself always felt that he compiled a good record as Governor, and four years later, running for re-election, he set it out before the voters in rigorous if tedious statistical prose: programs to help the aged; an increase of 77 percent in state aid to education; a quadrupling of the number of authorized Regents' scholarships; a change in emphasis in mental health from custodial care to research and treatment aimed at reducing the mental-hospital population, which fell by 4,000; pioneering advances in privately financed middle-income housing; legislation providing increased benefits to workers, and steps to strengthen small business.

Despite all that, Nelson A. Rockefeller won a smashing half-million vote victory over Mr. Harriman in 1958. Commentators were not inclined to attribute the defeat to Mr. Harriman's performance as Governor. There were Mr. Rockefeller's electric qualities as a campaigner to consider, as well as the public's sour reaction to a Democratic convention in Buffalo that seemed to fall under Tammany Hall's domination.

The defeat came on top of Mr. Harriman's second failure, in 1956, to capture the Presidential nomination. Truman, whose relations with Mr. Stevenson had cooled, announced support for Mr. Harriman a few days before the Democratic convention. But Governor Harriman could not get the support of the South, and Mr. Stevenson was nominated on the first ballot.

With the gubernatorial defeat in 1958, Mr. Harriman declared his political ambitions ended and the "W." returned to his stationery. He sent out on a tour to India and then to the Soviet Union, where his reception was the most enthusiastic received by an American in some time.

"Within 48 hours of my arrival no less than three members of the Cabinet offered me everything from a bear hunt to a nonaggression pact," he said. But that did not prevent what he described as a blunt and brutal talk with Prime Minister Nikita S. Khrushchev about Soviet-American problems.

As the Presidential campaign of 1960 neared, Mr. Harriman announced for Senator Kennedy, who, after his nomination, named the former Ambassador one of his foreign policy advisers. In that capacity Mr. Harriman toured Africa.

After the election Kennedy hesitated to give Mr. Harriman a Government post, fearing, as Arthur M. Schlesinger wrote in "A Thousand Days," that "at 69 and slightly deaf he was too old for active service." But there was wide-spread enthusiasm for him on the New Frontier, and Kennedy relented with the proviso that Mr. Harriman be persuaded to wear a hearing aid. He was persuaded.

For his part, Mr. Harriman suffered from no self-doubts. "I am confident that before things end up, I will be in the inner circle." he told a friend. "I started as a private with Roosevelt and worked to the top. And then I had to start as a private all over again with Truman and work to the top. That is what I intend to do again."

Thus Mr. Harriman took on the relatively vague job of Ambassador at Large among the vigorous young folk in the Kennedy camp. His first task, in 1961, concerned Laos, where a conflict with cold war overtones was going on among rightists, neutralists and a pro-Communist faction. Mr. Harriman went to see the neutralist leader, Prince Souvanna Phouma, in New Delhi and reported favorably on the Prince's desire for a coalition government with international guarantees of Laotian neutrality.

The White House was impressed, and in time the United States moved away from its support of the rightist anti-Communist leader, Phoumi Nosavan, which had been fostered in the Eisenhower period, toward support of a neutral regime.

BALANCED TICKET AT GENEVA

The tortuous 14-nation negotiations at Geneva on Laos involved putting together a government of national union that the Russians, the Chinese and the Americans, as well as the Laotians themselves, could agree to. Mr. Harriman was effective at that. "He's putting together a New York State balanced ticket; he's doing a good job," Kennedy remarked.

The pleased President made Mr. Harriman Assistant Secretary of State for Far Eastern Affairs. In that post he acquired the nickname "the Crocodile" because he tended to bite off abruptly proposals that seemed to him foolish or irrelevant. And he sought persistently to bring along youthful and audacious people. "Do you know what this department needs?" he was said to have declared at the age of 71. "Young blood!"

In 1963 another promotion came—to Under Secretary for Political Affairs, the No. 3 post in the State Department. In that year he was also named to head the American team that negotiated with the Soviet Union the treaty banning all nuclear tests except those conducted underground.

Mr. Harriman never claimed credit for the success of the negotiations. He said that he knew after speaking to Mr. Khrushchev on the first day that the Russians had decided that a test-ban treaty would be advantageous, and that the problem then was merely to agree on the working. But it was widely agreed that his deft touch moved the negotiations smartly along and made basic agreement among the Soviet Union, Britain and the United States possible within five days.

After Kennedy was assassinated in November 1963, Mr. Harriman stayed on with President Johnson, supporting his controversial determination to press on with the Vietnam War and undertaking numerous Presidential missions. Meanwhile, at his own request, Mr. Harriman reverted to the title of Ambassador at large.

As the 1960's wore on, he played a larger role in the Vietnam problem. He traveled to Moscow for two meetings with Prime Minister Aleksei N. Kosygin during one American "peace offensive," trying to persuade the Soviet Union to coax Hanoi toward the negotiating table. But that effort failed. From there he went to Belgrade, Bonn, Brussels, Rome and London, explaining Johnson's decision to escalate the war in the absence of peace talks.

When he returned, Johnson placed him in charge of coordinating the American effort to get talks started, and in 1966 he traveled throughout the world to emphasize this American aim. But he remained faithful to the Johnson view that Vietnam was a critical test of the non-Communist world's ability to stop so-called wars on national liberation.

He was far from a hawk in the end, however, and as chief of the United States delegation at the Paris peace talks in 1986 he strove for accommodation. The South Vietnamese no less than the North Vietnamese frustrated the efforts, and finally Mr. Harriman was among those who felt that the Nixon Administration dog has been wagged by the Saigon tail for too long.

After the new Administration has replaced him in Paris, those views made him popular within the peace movement that kept up pressure on the Republicans for military withdrawal.

Mr. Harriman remained active in foreign affairs late in his life. In June 1983, he went to Moscow to confer with Yuri V. Andropov, then the Soviet leader. At their meeting, in Mr. Andropov's office at the headquarters of the Central Committee of the Soviet Communist party, Mr. Andropov said his country had a "sincere and fervent desire" to restore normal relations with the United States. He contended that the Reagan Administration was to blame for a situation that "cannot but give rise to alarm," and he called for a return to peaceful coexistence.

Reporting on the talks afterward, Mr. Harriman said he had been frank in voicing his view "that it was possible for the Soviet Government to take steps which can improve relations."

Mr. Harriman married three times. His first wife was Kitty Lanier Lawrence, the daughter of a New York banker. The couple were divorced in 1929 and a year later Mr. Harriman married the former Marie Norton, who has been the wife of Cornelius Vanderbilt Whitney. Mrs. Harriman operated an art gallery in New York, and she and her husband acquired a notable collection of paintings. She died in 1970.

The following year Mr. Harriman married Pamela Digby Hayward. She was the widow of Leland Hayward, the theatrical producer, and was the mother, by a previous marriage to Churchill's son, Randolph, of Sir Winston's grandson, who bears his grandfather's name.

The home in which Mr. Harriman grew up, Arden House—named after the forest in "As You Like It"—was donated to Columbia University. Years earlier, the family had donated 10,000 acres in its 20,000-acre estate to New York State as a park, leading the town nearby to change its name from Turner to Harriman.

In 1982 Mr. Harriman donated $10 million, to which his family's Gladys and Roland Harriman Foundation added $1.5 million, to the Russian Institute of Columbia University, to promote American studies of the Soviet Union.

Mr. Harriman did so, he said, because the popularity of Soviet studies had declined in recent years and American ignorance of the Soviet Union was "very dangerous."

The university renamed the institute the W. Averell Harriman Institute for the Advanced Study of the Soviet Union.

Mr. Harriman is survived by his wife; two daughters by his first marriage, Mary Harriman Fisk and Kathleen Harriman Mortimer, both of Manhattan; six grandchildren and six great-grandchildren.

A funeral service is to be held at noon Tuesday at St. Thomas Episcopal Church, 53d Street and Fifth Avenue. Burial will be later in the day at the Harriman family estate in Harriman, N.Y.

A memorial service is to be held on Sept. 16 at noon at the National Cathedral in Washington.

---

[From the New York Times, July 27, 1986]

HARRIMAN: A TRIBUTE

(By James Reston)

Averell Harriman lived long enough to fight the central political battles of the age and still retain the respect and admiration of both his colleagues and his critics.

For more than half a century, as Governor of New York, Secretary of Commerce, Ambassador to Great Britain and the Soviet Union—to mention only a few of his responsibilities—he was a model of the public servant, ranking in the memory of this capital with George Catlett, Marshall, Dean Acheson, George Kennan and a few others who have devoted their lives to the ideals of the Republic.

He was both a politician and a statesman, with qualities of character that enabled him to fight for his party without losing sight of the larger interests of the nation. Unlike so many of his contemporaries, he knew that simplicity and concentration produce lucidity and decision.

Thus, he devoted most of his public life to the great struggles of the economic Depression, the fight against Fascism in the Second World War and the tangles of U.S.-Soviet relations in the postwar atomic age.

The issue of Soviet-American relations was his enduring concern over the last 40 years, and even at the end he established a center for Soviet studies at Columbia Uni-

versity to keep the cold war, as he saw it, in historical perspective.

It should probably be noted that he did not follow the prevailing fashions of his class and time. He came out of a great conservative railroad tradition, but joined Franklin Roosevelt's New Deal in what he regarded as an essential crusade to modify and preserve the capitalist system.

Likewise, he came out of his stewardship in Moscow, as Mr. Kennan did, with a clear determination to contain the spread of Soviet power and Communist influence, though always with the conviction that war between these atomic giants must and could be avoided.

He worried about the tendency among his fellow countrymen to think of the Soviet leaders as comparable to the Nazis. Even in his declining years, he was presiding with his wife over seminars in his Georgetown house where men and women of different political and philosophical persuasions debated the issues of the arms race.

It irritated him to hear it said, on the one hand, that the Soviet Union was so strong as to threaten the existence of the United States, and on the other, that it existed mainly by borrowing and stealing modern technology and therefore was so weak that it would be overwhelmed by the rush of science in the computer age.

Not long before he died, his wife, Pamela, formerly the daughter-in-law of Winston Churchill, published one of his favorite Churchillian passages, in which Churchill had proposed that Communism should be "strangled in its cradle," and had warned the world against Moscow's imperialistic designs and materialistic philosophy. Nevertheless, like Tocqueville, Mr. Harriman believed that the United States and the Soviet Union had emerged as the presiding giants of the world and had to keep negotiating until they found some common ground in their common interest.

If Averell Harriman's eloquence had matched his thought, he might have been chosen to represent his party in its bid for the Presidency. But it would be a mistake to say that he was a pioneer in the ideas of his age. He was a servant and a collector of the best thought he could find. Though fiercely partisan, he never forgot that after the political battles were over, those engaged, in them would have to go on working and living together.

This is a rare quality in Washington. For all too often, officials here cannot bear public criticism without private resentment. Averell Harriman was not like that. He spoke his mind and when his dander was up, he could be almost recklessly frank; but his storms of thunder and lightning soon passed and he could forgive even the press for what he often regarded as its impudent condemnation of his ideas.

In short, he was a gentleman who did not apologize for his old-fashioned concept of noblesse oblige. He was particularly fond of Walter Lippmann's definition of the ideal standards of a public man, and tried to live by them.

"Those in high places," Lippmann wrote shortly before Mr. Harriman came to Washington, "are more than the administrators of government bureaus. They are more than the writers of laws. They are the custodians of a nation's ideals, of the beliefs it cherishes, of its permanent hopes, of the faith which makes a nation out of a mere aggregation of individuals . . ."

When we have said that, it will be understood why those who knew Averell Harriman best admired him most, and why he will be remembered here and in Albany as a symbol of the best in our public service.

## LT. COL. CHARLES A. SEWELL

Mr. MOYNIHAN. Mr. President, the Senate will be saddened to learn of the death of Lt. Col. Charles A. Sewell, the chief test pilot for the Grumman Corp. and former Marine aviator who flew 330 combat missions over Korea, Vietnam, and Laos.

Colonel Sewell died Monday when the small single-engine World War II Avenger bomber he was flying crashed shortly after takeoff from Danielson Airport near Brooklyn, CT.

A sometime flight instructor of our gallant colleague from Ohio, Senator GLENN, Colonel Sewell led an extraordinary military career, earning the Legion of Merit, two Distinguished Flying Crosses, 15 Air Medals and two Purple Hearts.

As chief test pilot at Grumman, Colonel Sewell was the first to fly the X-29, the experimental aircraft with swept-forward wings that maneuvers at twice the speed of sound. Col. Michael Myers of the test pilot school at Edwards Air Force Base called Colonel Sewell "one of the outstanding people in aviation test flight."

Mr. President, Charles Sewell is mourned today at Grumman headquarters on Long Island, and indeed all over New York State and the Nation. He was a man of rare talent and bravery, and he will be greatly missed.

As a small measure of respect for this exceptionally inspired aviator, I ask unanimous consent that the account from today's Newsday be printed in the RECORD. Our hearts go out to his wife Bonnie and family, and our prayers are with them.

[From the Newsday, Aug. 5, 1986]

CRASH KILLS GRUMMAN TEST PILOT

BROOKLYN, CONN.—Charles A. Sewell, who was the first to fly an odd-shaped experimental fighter that dives and turns at more than twice the speed of sound, was killed yesterday in the crash of a single-engine World War II bomber he was ferrying to Florida for a friend.

"Im going to crash," Sewell's voice boomed out over a loudspeaker at the small rural airport the Grumman Corp. chief test pilot had taken off from—and was desperately trying to return to. Moments later, the crippled Avenger plunged into dense forest a mile from the runway and burned.

"The engine malfunctioned and beyond that, who knows?" said William M. Simmons, the mechanic who worked on the plane before it took off and watched it disappear over a ridge. "I knew when it went up that something was wrong."

Authorities said they did not know what caused the failure of Grumman-designed Navy bomber several minutes after takeoff from Danielson Airport in eastern Connecticut, near the Rhode Island border. But witnesses reporting seeing black puffing from the engine as the propeller-driven plane taxied and then billowing as the plane rose several hundred feet above the treetops

On the runway, said Ed Vicent, a pilot who flies out of Danielson, "The plane fired up full throttle, and an enormous amount of smoke came out of the engine—black smoke. As he taxied, the smoke should have leveled off, but it didn't. As the plane went off, I started seeing intermittent puffs. It shouldn't have been doing that."

Witnesses said that after making what appeared to be an otherwise normal banking maneuver, the plane—piloted by a man known for his uncanny ability to solve potentially deadly flight problems—began to lose altitude and dipped out of sight.

Another witness saw the smoking, sputtering craft try to turn again toward the field. Suddenly, about 100 feet above the treetops, the plane plunged into the woods, where it burned furiously for nearly three hours.

"The plane sheared off the tops of several trees in the immediate vicinity of the crash site and plowed into the ground upside down," said Jeffrey Otto, chief of the Mortlake Fire Co., one of four volunteer departments that sent about 30 fire fighters to the scene.

Thwarted by the intense heat and dense foliage, fire fighters said it took nearly 20 minutes to reach the site.

Gumman officials and pilots across the country were stunned at the death of Chuck Sewell, 56, a heavily decorated former Marine and member of the elite Society of Experimental Test Pilots. He was the first to fly the X-29, an experimental plane with forward-swept wings.

"He was one of the outstanding people in aviation test flight," said Col. Michael Meyers of the Edwards Air Force Base test pilot school. "We'll really miss him."

The World War II plane Sewell died in was owned by a friend, Richard Foote, who collected and flew vintage aircraft. After a stopover at the Grumman plant at Calverton, L.I., Sewell was to have flown the plane to New Smyrna Beach, on Florida's east coast. The trip was unrelated to Sewell's work for Grumman.

Sewell had logged more than 10,000 hours of flying time on 140 types of aircraft, including the X-29.

As a highly decorated Marine Corps pilot, he flew 110 missions over Korea, where he was shot down behind enemy lines and escaped by swimming miles before being rescued, and 220 more over Vietnam and Laos. Mild-mannered and soft-spoken with a Texas drawl, he earned the Legion of Merit, two Distinguished Flying Crosses, 15 air medals and two Purple Hearts. After 20 years as a fighter pilot, the Fort Worth native went to work for Grumman.

Sewell is survived by his wife, Bonnie; a son, Richard of Port St. Lucie, Fla., and a daughter, Cynde Bell of Melbourne, Fla. Funeral arrangements were incomplete last night.

## EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-3579. A communication from the Director of the Office of Management and Budget. Executive Office of the President, transmitting, pursuant to law, a report on

the reapportionment of the appropriation for operation of Radio Free Europe/Radio Liberty, Inc.; to the Committee on Appropriations.

EC-3580. A communication from the Comptroller General of the United States, transmitting, pursuant to law, a report on the Department of Defense's system for management of technical data; to the Committee on Armed Services.

EC-3581. A communication from the Secretary of the Air Force, transmitting, pursuant to law, a report on the decision to cancel the precision location strike system production program; to the Committee on Armed Services.

EC-3582. A communication from the Secretary of Defense, transmitting, pursuant to law, a report on the Impact of Foreign Exports on the Defense Industrial Base of the United States; to the Committee on Armed Services.

EC-3583. A communication from the Comptroller General of the United States, transmitting, pursuant to law, a report entitled "Financial Audit—Federal Deposit Insurance Corporation's Financial Statements for 1985 and 1984"; to the Committee on Banking, Housing, and Urban Affairs.

EC-3584. A communication from the Secretary of the Treasury, transmitting, pursuant to law, the annual report on the operations of the Exchange Stabilization Fund for fiscal year 1985; to the Committee on Banking, Housing, and Urban Affairs.

EC-3585. A communication from the Administrator of the National Oceanic and Atmospheric Administration, Department of Commerce, transmitting, pursuant to law, a report on export potential of ocean thermal energy conversion components, facilities, and plantships; to the Committee on Commerce, Science, and Transportation.

EC-3586. A communication from the Secretary of Transportation, transmitting, pursuant to law, a report on certain actions taken with respect to Manila International Airport; to the Committee on Commerce, Science, and Transportation.

EC-3587. A communication from the Secretary of the Interior, transmitting, pursuant to law, the Secretary's 20th anniversary report on the National Historic Preservation Act; to the Committee on Energy and Natural Resources.

EC-3588. A communication from the Deputy Associate Director for Royalty Management, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of overpayment of certain offshore oil lease revenues; to the Committee on Energy and Natural Resources.

EC-3589. A communication from the Deputy Associate Director for Royalty Management, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of overpayment of certain offshore oil lease revenues; to the Committee on Energy and Natural Resources.

EC-3590. A communication from the Deputy Associate Director for Royalty Management, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of overpayment of certain offshore oil lease revenues; to the Committee on Energy and Natural Resources.

EC-3591. A communication from the Deputy Associate Director for Royalty Management, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of overpayment of certain offshore oil lease revenues; to the Committee on Energy and Natural Resources.

EC-3592. A communication from the Deputy Associate Director for Royalty Management, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of overpayment of certain offshore oil lease revenues; to the Committee on Energy and Natural Resources.

EC-3593. A communication from the Secretary of Health and Human Services, transmitting, pursuant to law, a report on the implications of raising the retirement age in the next century on individuals who, because they are engaged in physically demanding employment or are unable to attend their working careers for health reasons, may not benefit from improvements in longevity; to the Committee on Finance.

EC-3594. A communication from the General Counsel of the Department of the Treasury, transmitting, a draft of proposed legislation to amend the Tariff Act of 1930 to increase the effectiveness of the Customs Service in enforcement matters, and for other purposes; to the Committee on Finance.

EC-3595. A communication from the President of the United States, transmitting, pursuant to law, and unclassified version of a report on U.S. interim restraint policy and on representative Soviet and U.S. forces with and without SALT I and II; to the Committee on Foreign Relations.

EC-3596. A communication from the District of Columbia Auditor, transmitting, pursuant to law, a report entitled "Review of the Use of General Obligation Bond Proceeds During Fiscal Year 1985"; to the Committee on Government Affairs.

EC-3597. A communication from the District of Columbia Auditor transmitting, pursuant to law, a report entitled "District of Columbia Statehood Constitutional Convention and Statehood Commission"; to the Committee on Government Affairs.

EC-3598. A communication from the Director of Benefits, Farm Credit Banks of Texas, transmitting, pursuant to law, the report for the plan year ended December 31, 1985, for the Farm Credit Banks of Texas Pension Plan; to the Committee on Governmental Affairs.

EC-3599. A communication from the Deputy Assistant Secretary of Defense (Administration), transmitting, pursuant to law, a report on a new Privacy Act system of records for the Department of the Navy; to the Committee on Governmental Affairs.

EC-3600. A communication from the Deputy Assistant Secretary of Defense (Administration), transmitting, pursuant to law, a report on a new Privacy Act system of records for the Defense Intelligence Agency; to the Committee on Governmental Affairs.

EC-3601. A communication from the Secretary of the American Battle Monuments Commission, transmitting, pursuant to law, the annual report of the Commission under the Freedom of Information Act for calendar year 1985; to the Committee on the Judiciary.

EC-3602. A communication from the Chief Immigration Judge, Executive Office for Immigration Review, Department of Justice, transmitting, pursuant to law, a report on the suspension of deportation of certain aliens under sections 244(a)(1) and 244 (a)(2) of the Immigration and Nationality Act; to the Committee on the Judiciary.

EC-3603. A communication from the Chief Justice of the United States, transmitting a draft of proposed legislation to preserve the authority of the Supreme Court Policy to provide protective services for Justices and Court personnel; to the Committee on the Judiciary.

EC-3604. A communication from the Secretary of Education, transmitting, pursuant to law, final regulations for the National Direct Student Loan Program; to the Committee on Labor an Human Resources.

EC-3605. A communication from the Secretary of Education, transmitting, pursuant to law, notice of final priorities for Educational Media Research, Production, Distribution, and Training; to the Committee on Labor and Human Resources.

EC-3606. A communication from the Secretary of Education, transmitting, pursuant to law, notice of final priorities for rehabilitation long-term training—rehabilitation counselors; to the Committee on Labor and Human Resources.

EC-3607 A communication from the Secretary of Education transmitting, pursuant to law, notice of final priorities for experimental and innovative training; to the Committee on Labor and Human Resources.

EC-3608 A communication from the Secretary of Education, transmitting, pursuant to law, notice of final priorities for rehabilitation long-term training workshop and facilities; to the Committee on Labor and Human Resources.

EC-3609 A communication from the Assistant Secretary of Education (Special Education and Rehabilitative Services), transmitting, pursuant to law, notice of the appointment of members of the Commission on Education of the Deaf; to the Committee on Labor and Human Resources.

EC-3610 A communication from the Secretary of Health and Human Services, transmitting, pursuant to law, the annual report on the status of handicapped children in Head Start Programs; to the Commission on Labor and Human Resources.

## PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-835. A joint resolution adopted by the Legislature of the State of California; to the Committee on Commerce, Science, and Transportation.

"ASSEMBLY JOINT RESOLUTION No. 72—

"Whereas, The Legislature has declared telephone service to be a modern necessity of life in California, as it is throughout this country; and

"Whereas, The cost of telephone service for California businesses and residents is a matter of particular state and local concern; and

"Whereas, The Federal Communications Commission has attempted to usurp the traditional ratemaking authority of California and the other states by prescribing accounting methods and rules for intrastate telephone service in violation of the letter, spirit, and intent of the specific delegation of authority to the states made by the Communications Act of 1934; and

"Whereas, This usurpation by the Federal Communications Commission is intended to, and will, raise local telephone rates for California businesses and residents, as well as for businesses and residents in other states; and

"Whereas, The Public Utilities Commission has regulated intrastate telephone service in California effectively without interference from the federal government; and

"Whereas, The preservation of the power of the several states to affect rates and practices of public utilities, including telephone corporations, is a fundamental element of the federal structure of the United States, which ought to be preserved against the depredations of federal agencies; now, therefore, be it

*"Resolved by the Assembly and Senate of the State of California, Jointly,* That the Legislature of the State of California respectfully memorializes the Congress of the United States to investigate the usurpation of state authority by the Federal Communications Commission and to amend the Communications Act of 1934, as necessary, to preserve state authority over intrastate telephone service to enable the states to protect the interests of their residents and ratepayers; and be it further

*"Resolved,* That the Legislature hereby supports the position of the Public Utilities Commission before the Federal Communications Commission, and in the federal courts, that the Communications Act of 1934 does not deprive the states of the power to regulate accounting methods and other details of the utility regulation process that directly affect local telephone rates; and be it further

*"Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Chairperson of the Committee on Commerce, Transportation, and Science of the United States Senate, to the Chairperson of the Committee on Energy and Commerce and to the Chairperson of the Subcommittee on Telecommunications, Consumer Protection, and Finance of the United States House of Representatives, and to the Public Utilities Commission."

---

POM-836. A resolution adopted by the Nevada Commission on Nuclear Projects regarding the Department of Energy's implementation of the Nuclear Waste Policy Act; to the Committee on Energy and Natural Resources.

POM-837. A resolution adopted by the Linn County, Oregon Board of Commissioners relating to assurances of compliance; to the Committee on Governmental Affairs.

POM-838. A petition from a citizen of Washington, D.C. relating to the confirmation of the nomination of William H. Rehnquist as Chief Justice of the United States; to the Committee on the Judiciary.

## INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. MATHIAS (for himself, Mr. SARBANES and Mr. STEVENS):

S. 2734. A bill to amend chapter 83 of title 5, United States Code, to provide civil service retirement credit for service performed under the Railroad Retirement Act, and for other purposes; to the Committee on Governmental Affairs.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BYRD (for himself, Mr. SASSER and Mr. GORE):

S. Res. 463. A resolution to recognize and honor William Smith "Bill" Monroe, the father of bluegrass music, on his seventy-fifth birthday; considered and agreed to.

## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTION

By Mr. MATHIAS (for himself, Mr. SARBANES, and Mr. STEVENS):

S. 2734. A bill to amend chapter 83 of title 5, United States Code, to provide civil service retirement credit for service performed under the Railroad Retirement Act, and for other purposes; to the Committee on Governmental Affairs.

RAILROAD SERVICE RETIREMENT CREDIT ACT

● Mr. MATHIAS. Mr. President, I today introduce legislation which will provide retirement credit under the Civil Service Retirement System (CSRS) for certain employees covered by the Railroad Retirement Act. This bill provides a fair resolution to an inequitable situation involving certain employees who worked for the railroads, and later for the Federal Government.

Since 1911, the Federal Government has employed a small number of individuals recruited from the railroad industry to implement Government programs on rail transportation. These experts, all highly knowledgable in the construction, maintenance, repair and operation of railroads, have been employed in five agencies of the Federal Government—the Interstate Commerce Commission, the Federal Railroad Administration, the National Transportation Safety Board, the National Mediation Board, and the Railroad Retirement Board. In creating these agencies, Congress has indicated that they should look to the railroads for the specialized personnel to fill those positions that demand an intimate understanding of the railroad industry. Within the entire Federal service there is now a group of 458 employees who fit this description.

But those who embark on this dual career face a serious disadvantage in their retirement years. During their railroad service, these employees contributed to and were vested in the railroad retirement system, which was established by Congress to ensure that employees on our Nation's railroads would be amply provided for in their retirement years. When these experts were recruited into the Federal Government, however, they also contributed to and became vested in the CSRS. The two federally established retirement programs required substantially equal contributions and, with roughly equivalent service, one could reasonably assume that benefits at retirement would be approximately equal and not adversely affected by the movement from the railroad industry into Federal employment. This is not the case. The annuity income from railroad retirement and civil service retirement combined is significantly less than had all of the work been covered continuously under either of the two systems. In addition, the economic inequities are now compounded by the changes to windfall benefits under the Social Security Amendments of 1983.

Mr. President, this is an anomalous situation that needs immediate attention. Just as railroad retirement is portable between railroad jobs, and civil service retirement portable between civil service jobs, railroad retirement should be portable to the civil service in this limited situation. It does not benefit the Federal Government to maintain a situation in which there is an adverse effect for having left the railroad to accept Federal employment.

If enacted, this legislation would rectify a situation that, while inadvertent, is no less distressing to the employees involved. Those covered by this bill constitute a finite number, and all were hired prior to January 1, 1984. More equitable treatment will be achieved if service years in the railroad industry are made portable to an employee who is vested in the civil service retirement program. The bill I propose would create such equitable treatment.

The number of persons who will be affected by this legislation is relatively small, and the cost, in comparison with the benefit to these employees, will be negligible. Therefore, I join those who introduce this legislation today with me in urging my colleagues to support this much needed change.

Mr. President, I ask unanimous consent that the text of my bill be included in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2734

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the "Railroad Service Retirement Credit Act of 1985".

SEC. 2. SERVICE CREDIT COMPUTATION.

Subsection (b) of section 8332 of title 5, United States Code, is amended—

(A) by striking out "and" at the end of paragraph (14);

(B) by striking out the period at the end of paragraph (15) and inserting in lieu thereof "; and"; and

(C) by inserting after paragraph (15) the following new paragraph:

"(16) in the case of any individual who first becomes an employee of the Department of Transportation, the Interstate

Commerce Commission, the National Mediation Board, the National Transportation Safety Board, or the Railroad Retirement Board on or before December 31, 1983, service performed on or after December 31, 1935, as an employee subject to the provisions of the Railroad Retirement Act of 1935, the Railroad Retirement Act of 1937, or the Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.), if such employee—

"(A) acquires 5 years or more of creditable civilian service (other than service performed on or after December 31, 1935, as an employee subject to the provisions of such Railroad Retirement Acts); and

"(B) makes a deposit to the Fund in an amount equal to the excess of the amount which would be required under section 8334(c) of this title, but for section 8334(g)(7) of this title, over the total amount contributed by such employee under such Railroad Retirement Acts.".

SEC. 3. DEPOSITS.

Section 8334(g) of title 5, United States Code, is amended—

(1) by striking out "or" at the end of paragraph (5);

(2) by striking out the period at the end of paragraph (6) and inserting in lieu thereof "; or"; and

(3) by adding at the end thereof the following new paragraph;

"(7) service creditable under paragraph (16) of section 8332 (b) of this title, except to the extent provided in subparagraph (B) of such paragraph.".

SEC. 4. INELIGIBILITY FOR ANNUITY UNDER RAILROAD RETIREMENT ACT OF 1974.

Section 2 of the Railroad Retirement Act of 1974 (45 U.S.C. 231a) is amended by adding at the end of the following new subsection:

"(i) An individual who is entitled to an annuity under subchapter III of chapter 83 of title 5, United States Code, is not eligible to receive an annuity under this section on the basis of the same service.".●

● Mr. SARBANES. Mr. President, I am pleased to join my colleague Senator MATHIAS in introducing the "Railroad Service Retirement Credit Act of 1986". Mr. President, a small group of individuals who left the private railroad industry have contributed years of practical knowledge and experience to guarantee the safe and efficient operation of America's rail service. During the early 1900's Congress deemed it was in the public interest to provide uniformity in the rules and regulations relating to rail operations and safety and decided that the Federal Government, not the rail carrier, should have that responsibility. Railroad safety rules and regulations were enacted and over the course of time five agencies: and Interstate Commerce Commission [ICC], the Federal Railroad Administration [FRA], the National Transportation Safety Board [NTSB], the National Mediation Board [NMB], and the Railroad Retirement Board [RRB] were established to enforce and approve any future changes in the rules and regulations. In order to ensure that the agencies hired competent personnel with the necessary technical experience and knowledge to carry out their goals, the Congress directed the five agencies to recruit only those individual with expertise in railroad construction, repairs, operation, testing, and inspection. It was within the rail industry that the expertise and technical experience were found, thus many railroad employees were encouraged to join the Federal service. The expert knowledge of former railroad employees has been vital to the Government's supervision of our rail service, and it is conceivable that the objectives of the five oversite agencies may not have been accomplished without such capable and experienced personnel.

Ironically the dedicated civil servants who have played a crucial role in overseeing the safe operation of our rail service, unknowingly made an enormous sacrifice when they chose to leave the private railroad industry to join public service. Under current law these employees are unable to combine their service under the Railroad Retirement System with their service under the Civil Service Retirement system and subsequently their basic annuity will be less than the annuity they would receive had they worked exclusively with either the railroad industry or the Civil Service. To remedy this situtation our bill will allow the employees of the ICC, FRA, NTSB, NMB, and the RRB, to combine their years of service in the Federal Government with their years of railroad service for pension computation under the Civil Service Retirement System. Mr. President, the bill we are introducing today would correct an injustice to the individuals who have contributed so much to the safety of our rail transportation, and I urge my colleagues to support it.●

## ADDITIONAL COSPONSORS

AMENDMENT NO. 2610

At the request of Mr. ANDREWS, the names of the Senator from Hawaii [Mr. INOUYE], the Senator from South Dakota [Mr. ABDNOR], the Senator from North Dakota [Mr. BURDICK], and the Senator from Oklahoma [Mr. NICKLES] were added as cosponsors of amendment No. 2610 proposed to S. 2638, A bill to authorize appropriations for military functions of the Department of Defense and to prescribe military personnel levels for such Department for fiscal year 1987, to revise and improve military compensation programs, to improve defense procurement procedures, to authorize certain construction at military installations for fiscal year 1987, to authorize appropriations for national security programs of the Department of Energy for fiscal year 1987, and for other purposes.

## SENATE RESOLUTION 463—RECOGNIZING WILLIAM SMITH "BILL" MONROE ON HIS SEVENTY-FIFTH BIRTHDAY

Mr. BYRD (for himself, Mr. SASSER, and Mr. GORE) submitted the following resolution; which was considered and agreed to:

S. RES. 463

Whereas September 13, 1986, is the seventy-fifth birthday of the father of bluegrass music, William Smith "Bill" Monroe;

Whereas Mr. Monroe has been an innovator, creator, shaper, performer, and promoter of a genre in music which was developed in a particular region of the United States, the upper South;

Whereas Mr. Monroe's music is national in scope, is a part of American culture, and is now being shared internationally;

Whereas since 1938, Mr. Monroe and his "Blue Grass Boys", a band that has served as a training ground for most of the leading musicians in bluegrass music, have provided entertainment and sustenance to Americans from all walks of life;

Whereas Mr. Monroe has been a member of the Grand Ole Opry since 1939, a member of the Country Music Hall of Fame since 1969, and his gone from pioneer to patriarch of this popular and important style of American music; and

Whereas as a musician, showman, composer, and teacher, Mr. Monroe has become a cultural figure and force of signal importance in our time: Now, therefore, be it

*Resolved*, That the United States Senate recognizes and honors William Smith "Bill" Monroe for his many contributions to American culture and music, and his many years of helping the American people to enjoy themselves, and extends its best wishes to "Bill" Monroe on the occasion of his seventy-fifth birthday.

SEC. 2. The Secretary of the Senate is authorized to transmit a copy of this resolution to William Smith "Bill" Monroe.

## AMENDMENTS SUBMITTED

## DEPARTMENT OF DEFENSE AUTHORIZATION ACT, FISCAL YEAR 1987

### MELCHER AMENDMENT NO. 2672

Mr. MELCHER proposed two amendments to the bill [S. 2638] to authorize appropriations for military functions of the Department of Defense and to prescribe military personnel levels for such Department for fiscal year 1987, to revise and improve military compensation programs, to improve defense procurement procedures, to authorize certain construction at military installations for fiscal year 1987, to authorize appropriations for national security programs of the Department of Energy for fiscal year 1987, and for other purposes; as follows:

On page 229, between lines 14 and 15, add the following new section:

"SEC. . REQUIREMENT FOR RETURN OF UNOBLIGATED FUNDS TO THE TREASURY

Notwithstanding any other provision of law or of this Act, the authorization for appropriations is reduced by an amount equal to twenty (20) percent of any funds appropriated to or for the use of the Department of Defense that remain unobligated as of September 30, 1986. Twenty percent of any funds appropriated to or for the use of the Department of Defense that remain unobligated as of September 30, 1986, shall be made available for the programs authorized by this Act."

---

## SIMON AMENDMENT NO. 2673

Mr. SIMON proposed an amendment to the bill S. 2638, supra, as follows:

On page 78, line 17, strike out "$100" and insert in lieu thereof "$250".

On page 80, line 5, strike out "$7,300,000" and insert in lieu thereof "$18,300,000".

---

## CHILES (AND OTHERS) AMENDMENT NO. 2674

Mr. CHILES (for himself, Mr. BENTSEN, Mr. BRADLEY, Mr. GRASSLEY, Mr. GLENN, and Mr. RIEGLE) proposed an amendment to the bill S. 2638, supra, as follows:

On page 186, between lines 9 and 10, insert the following:

SEC. 963. GOALS FOR INCREASED USE OF MULTIYEAR CONTRACTING AUTHORITY IN FISCAL YEAR 1988

(a) IN GENERAL.—The Secretary of Defense shall take appropriate actions to ensure that the Department of Defense increases the use of multiyear contracting authority in fiscal year 1988.

(b) MULTIYEAR PROCUREMENT GOAL.—The total amount obligated under multiyear contracts (authorized by section 230(h) of title 10, United States Code) for Department of Defense procurement programs eligible for multiyear contracting during fiscal year 1988 should be an amount that is not less than 10 percent of the total obligational authority used by the Department of Defense for procurement programs of the Department during such fiscal year.

(c) APPORTIONMENT OF GOAL.—The Secretary of Defense shall specify the percentage of obligational authority of each military department and Defense Agency that is to be used for multiyear contracts to achieve the goal prescribed in subsection (b).

(d) BASELINE REPORT.—Not later than January 1, 1987, the Secretary of Defense shall submit to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a written report which contains (1) a list of all procurement programs which the Secretary determines to be Defense SAR procurement programs eligible for multiyear contracting, (2) the Secretary's assessment of the feasibility and desirability of the multiyear procurement goal prescribed in subsection (b), and (3) whether the Secretary expects to achieve the goal prescribed in subsection (b) for fiscal year 1988 and, if the Secretary does not expect to achieve such goal, the reasons why such goal will not be achieved.

(e) DEFINITIONS.—As used in this section:

(1) The term "SAR" means Selected Acquisition Report as defined in section 139a(b)(1) of title 10, United States Code.

(2) The term "Defense procurement program eligible for multiyear contracting" means a procurement program of the Department of Defense (A) which satisfies the conditions of clauses (A) through (F) of section 2306(h)(1) of title 10, United States Code, and (B) under which production of fully configured end items is planned for a period exceeding 3 fiscal years.

---

## MOYNIHAN AMENDMENT NO. 2675

Mr. MOYNIHAN proposed an amendment to the bill S. 2638, supra, as follows:

At the end of the bill, add the following new section:

SEC. . Notwithstanding any other provision of law, the United States Government shall not expend any funds to subsidize the sale or transfer of goods or services to a Communist government or subdivision thereof.

---

## LEVIN (AND OTHERS) AMENDMENT NO. 2676

Mr. LEVIN (for himself, Mr. CHAFEE, and Mr. KENNEDY) proposed an amendment to the bill S. 2638, supra, as follows:

On page 19, line 19, insert the following new section:

(f) COMPLIANCE WITH THE ABM TREATY.—

(1) The Congress finds—

(a) that the President's Commission on Strategic Forces declared in its report to the President, dated March 21, 1984, that "One of the most successful arms control agreements is the Anti-Ballistic Missile Treaty of 1972"; and

(b) that the Secretary of State has stated that the "ABM Treaty requires consultations, and the President has explicitly recognized that any ABM-related deployments arising from research into ballistic missile defenses would be a matter for consultations and negotiation between the Parties";

(c) that the Secretary of State declared on October 14, 1985, that "our research program has been structured and, as the President has reaffirmed, will continue to be conducted in accordance with a restrictive interpretation of the treaty's obligations";

(d) that the President has determined that the Krasnoyarsk radar is a violation of the ABM Treaty; and

(e) that the Krasnoyarsk radar therefore erodes the integrity of the ABM Treaty and is a matter of serious concern.

(2) The Congress therefore declares—

(a) that it fully supports the declared policy of the President that a principal objective of the United States in negotations with the Soviet Union on nuclear and space arms is to reverse the erosion of the Treaty between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, signed on May 26, 1972; and

(b) that action by the Congress in approving funds in this Act for research in the Strategic Defense Initiative does not express or imply an intention on the part of the Congress that the United States should abrogate, violate, or otherwise erode such treaty, and does not express or imply any determination or commitment on the part of the Congress that the United States develop, test, or deploy ballistic missile strategic defense weaponry that would contravene such treaty.

---

## NUNN (AND OTHERS) AMENDMENT NO. 2677

Mr. NUNN (for himself, Mr. THURMOND, Mr. BYRD, Mr. STENNIS, Mr. STEVENS, Mr. LAXALT, Mr. DECONCINI, Mr. EXON, Mr. COHEN, Mr. GLENN, Mr. GRAMM, Mr. MATTINGLY, Mr. ABDNOR, Mr. PRESSLER, Mr. ANDREWS, Mr. BIDEN, Mr. ROCKEFELLER, Mr. CHAFEE, Mr. HOLLINGS, Mr. ZORINSKY, Mr. COCHRAN, Mrs. KASSEBAUM, Mr. DOMENICI, Mr. DURENBERGER, Mr. LEVIN, Mr. CHILES, Mr. WILSON, Mr. SYMMS, Mr. PRYOR, Mr. PROXMIRE, Mr. RUDMAN, Mr. WARNER, Mr. PELL, Mr. MOYNIHAN, Mr. HART, Mr. INOUYE, Mr. JOHNSTON, Mr. CRANSTON, Mr. SPECTER, and Mr. SIMPSON) proposed an amendment to the bill S.2638, supra, as follows:

At the end of the bill, insert the following new division:

DIVISION E—BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION PROGRAM

This division may be cited as the "Barry Goldwater Scholarship and Excellence in Education Act".

SEC. 5101. STATEMENT OF PURPOSES

The Congress finds that—

(1) Senator Barry Goldwater has served his country for 56 years as a soldier and statesman, including service in the United States Senate for a period of 30 years;

(2) Senator Goldwater has a distinguished record as Chairman of the Select Committee on Intelligence of the Senate and as Chairman of the Committee on Armed Services of the Senate; and

(3) Senator Goldwater has long maintained a special interest in the education of America's youth, particularly in the fields of science and mathematics; and

(4) it would, therefore, be a fitting tribute to the leadership, courage, and vision of Senator Goldwater to establish in his name a scholarship program to foster and encourage excellence in science and mathematics.

SEC. 5102. DEFINITIONS

In this division:

(1) The term "Foundation" means the Barry Goldwater Scholarship and Excellence in Education Foundation established under section 5103(a).

(2) The term "Board" means the Board of Trustees of the Barry Goldwater Scholarship and Excellence in Education Foundation established under section 5103(b).

(3) The term "fund" means the Barry Goldwater Scholarship and Excellence in Education Fund provided for under section 5108.

(4) The term "institution of higher education" means any such institution as defined by section 1201(a) of the Higher Education Act of 1965.

(5) The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, and, considered as a single entity, Guam, the Virgin Islands, American Samoa, the Trust Territories of the Pacific Islands, and the Commonwealth of the Northern Marianas.

(6) The term "eligible person" means a citizen or national of the United States or a permanent resident alien of the United States.

SEC. 5103. ESTABLISHMENT OF THE BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION FOUNDATION

(a) There is established, as an independent establishment of the executive branch of the United States Government, the Barry Goldwater Scholarship and Excellence in Education Foundation.

(b) The Foundation shall be subject to the supervision and direction of the Board of Trustees. The Board shall be composed of 13 members, as follows:

(1) Two members from the Senate, one appointed by the majority leader and one appointed by the minority leader of the Senate.

(2) Two members of the House of Representatives, one appointed by the majority leader and one appointed by the minority leader of the House of Representatives.

(3) Eight members, not more than four of whom shall be of the same political party, to be appointed by the President, by and with the advice and consent of the Senate, at least one of whom shall be a representative of the aerospace industry and at least one of whom shall be a representative of a private foundation concerned with aerospace education.

(4) The Secretary of Education, or his designee, who shall serve ex officio as a member of the Board but shall not be eligible to serve as chairman.

(c) The term of office of each member of the Board shall be six years, except that (1) the members first taking office shall serve as designated by the President, four for terms of two years, five for terms of four years, and four for terms of six years, and (2) any member appointed to fill a vacancy shall serve for the remainder of the term for which his predecessor was appointed and shall be appointed in the same manner as the original appointment for that vacancy was made.

(d) Members of the Board shall serve without pay, but shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred in the performance of their duties.

SEC. 5104. BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION AWARDS

(a)(1) The Foundation is authorized to award scholarships and fellowships to eligible persons for study in the fields of science and mathematics. Such scholarships and fellowships shall be awarded to persons as provided in this division who meet the minimum criteria established by the Foundation.

(2) Scholarships shall be awarded to outstanding undergraduate students who intend to pursue careers in mathematics and the natural sciences.

(3) Fellowships shall be awarded to outstanding graduate students who intend to pursue advanced degrees in mathematics and the natural sciences.

(4) The Foundation shall also award scholarships to eligible persons selected on the basis of nationwide competitions.

(b) Recipients of scholarships and fellowships under this division shall be known as "Barry Goldwater Scholar."

(c)(1) The Foundation is authorized to award honoraria to outstanding educators, teachers, and persons who have volunteered to assist in secondary schools who have made significant contributions to improve the quality of instruction in mathematics and sciences in the secondary school as follows:

(A) To two such persons selected at large from each State.

(B) To one such person selected from each county in each State.

(2) The Board shall establish a schedule of honoraria to be awarded under paragraph (1).

(3) The Board shall adopt regulations which provide that persons affiliated with secondary schools on military reservations and with the dependent overseas school system shall be appropriately represented among those persons who receive awards under this division.

SEC. 5106. STIPENDS

Each person awarded a scholarship or fellowship under this division shall receive a stipend which shall not exceed the cost to such person for tuition, fees, books, room and board, or such lesser amount as may be prescribed by the Board.

SEC. 5107. SCHOLARSHIP CONDITIONS

(a) A person awarded a scholarship under this division may receive payments authorized under this division only during such periods as the Foundation finds that the person is maintaining satisfactory proficiency and devoting full time to study or research and is not engaging in gainful employment other than employment approved by the Foundation pursuant to regulations of the Board.

(b) The Foundation is authorized to require reports containing such information in such form and to be filed at such times as the Foundation determines to be necessary from any person awarded a scholarship under this division. Such reports shall be accompanied by a certificate from an appropriate official at the institution of higher education, approved by the Foundation, stating that such person is making satisfactory progress in, and is devoting essentially full time to study or research, except as otherwise provided in subsection (a).

SEC. 5108. BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION FUND

(a) There is established in the Treasury of the United States a trust fund to be known as the Barry Goldwater Scholarship and Excellence in Education Fund. The fund shall consist of amounts appropriated to it pursuant to section 5112.

(b) It shall be the duty of the Secretary of the Treasury to invest in full the amounts appropriated to the fund. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired (1) on original issue at the issue price, or (2) by purchase of outstanding obligations at the market place. The purposes for which obligations of the United States may be issued under the Second Liberty Bond Act are hereby extended to authorize the issuance at par of special obligations exclusively to the fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month next preceding the date of such issue, borne by all marketable interest-bearing obligations of the United States then forming a part of the public debt, except that where such average rate is not a multiple of ⅛ of 1 percent, the rate of interest of such special obligations shall be the multiple of ⅛ of one percent next lower than such average rate. Such special obligations shall be issued only if the Secretary determines that the purchases of other interest-bearing obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States or original issue or at the market price, is not in the public interest.

(c) Any obligation acquired by the fund (except special obligations issued exclusively to the fund) may be sold by the Secretary at the market price, and such special obligations may be redeemed at par plus accrued interest.

(d) The interest on, and the proceeds from the sale or redemption of, any obligations held in the fund shall be credited to and form a part of the fund.

SEC. 5109. EXPENDITURES FROM THE FUND

(a) The Secretary of the Treasury is authorized to pay to the foundation from the interest and earnings of the fund such sums as the Board determines are necessary and appropriate to enable the Foundation to carry out the purposes of this division.

(b) The activities of the Foundation under this division may be audited by the General Accounting Office under such rules and regulations as may be prescribed by the Comptroller General of the United States. Representatives of the General Accounting Office shall have access to all books, accounts, records, reports, and files and all other papers, things, or property belonging to or in use by the Foundation pertaining to such activities and necessary to facilitate the audit.

SEC. 5110. EXECUTIVE SECRETARY

(a) There shall be an Executive Secretary of the Foundation who shall be appointed by the Board. The Executive Secretary shall be the chief executive officer of the Foundation and shall carry out the functions of the Foundation subject to the supervision and direction of the Board. The Executive Secretary shall carry out such other functions consistent with the provisions of this division as the Board shall prescribe.

(b) The Executive Secretary of the Foundation shall be compensated at the rate specified for employees in grade GS-18 of the General Schedule under section 5332 of title 5, United States Code.

SEC. 5111. ADMINISTRATIVE PROVISIONS

(a) In order to carry out the provisions of this division, the Foundation is authorized to—

(1) appoint and fix the compensation of such personnel as may be necessary to carry out the provisions of this division, except that in no case may an employee other than the Executive Secretary be compensated at a rate to exceed the maximum rate provided for employees in grade GS-15 of the General Schedule under section 5332 of title 5, United States Code;

(2) procure temporary and intermittent services of experts and consultants as are necessary to the extent authorized by section 3109 of title 5, United States Code, but at rates not to exceed the rate specified at the time of such service for grade GS-18 under section 5332 of such title;

(3) prescribe such regulations as it considers necessary governing the manner in which its functions shall be carried out;

(4) receive money and other property donated, bequeathed, or devised, without condition or restriction other than it be used for the purposes of the Foundation, and to use, sell, or otherwise dispose of such property for the purpose of carrying out its functions;

(5) accept and utilize the services of voluntary and noncompensated personnel and for travel expenses, including per diem, as authorized by section 5703 of title 5, United States Code;

(6) enter into contracts or other arrangements, or make grants, to carry out the provisions of this division, and enter into such contracts or other arrangements, or make such grants, with the concurrence of two-thirds of the members of the Board, without performance or other bonds and without regard to section 3709 of the Revised Statutes (41 U.S.C. 5);

(7) make advances, progress, and other payments which the Board considers necessary under this division without regard to the provisions of section 3324 of title 31, United States Code;

(8) rent office space in the District of Columbia; and

(9) make other necessary expenditures.

(b) The Foundation shall submit to the President and to Congress an annual report of its operations under this division.

SEC. 5112. APPROPRIATIONS AUTHORIZED

There are authorized to be appropriated to the Department of Defense $40,000,000 to be transferred to the Treasury for the fund.

---

## BYRD AMENDMENT NO. 2678

Mr. BYRD proposed an amendment to the bill S. 2638, supra, as follows:

At the end of the bill add the following new section:

PROHIBITION AGAINST USING FUNDS AUTHORIZED FOR THE ADVANCED TECHNOLOGY BOMBER AND THE ADVANCED CRUISE MISSILE PROGRAMS FOR ANY OTHER PURPOSE; AND LIMITATION OF THE B-1B BOMBER FLEET TO 100 AIRCRAFT

SEC. . (a) It is the sense of Congress that—

(1) the capabilities inherent in the technologies associated with the Advanced Technology Bomber and the Advanced Cruise Missile program are a critical national security asset for maintaining an adequate and credible deterrent posture;

(2) such technologies and programs should be developed as rapidly as feasible in order to produce and deploy advanced systems which will complicate the military planning of the Soviet Union and as a consequence enhance the deterrant posture of the United States;

(3) such technologies and programs should be funded at the levels authorized in this Act; and

(4) all the funds appropriated for such programs should be fully used for such programs.

(b) None of the funds appropriated pursuant to an authorization of appropriations in this Act to carry out the Advanced Technology Bomber program or the Advanced Cruise Missile program may be used for any other purpose.

(c) None of the funds appropriated pursuant to an authorization of appropriations in this or any other Act may be used for research, development, demonstration, procurement or any other purpose related to B-1B bombers beyond the 100 such bombers previously authorized.

---

## GLENN (AND McCLURE) AMENDMENT NO. 2679

Mr. GLENN (for himself and Mr. MCCLURE) proposed an amendment to amendment No. 2678 proposed by Mr. BYRD to the bill S. 2638, supra, as follows:

Strike out subsection (c) of the amendment and insert in lieu thereof the following:

(c) None of the funds authorized to be appropriated under this Act may be used for the purpose of assembly or intergration of more than 100 B-1B aircraft.

(d) The Defense Science Board shall conduct a study to determine the most operational and cost-effective mix of strategic bombers consistent with national security objectives. The study is to be completed by February 1, 1987, and submitted to the Committee on Armed Services of the Senate and House of Representatives.

---

## BYRD AMENDMENT NO. 2680

Mr. BYRD proposed an amendment to the bill S. 2638, supra, as follows:

At the end of the bill, add the following:

SEC. . IMPORTS THAT THREATEN NATIONAL SECURITY.

(a) IN GENERAL.—Subsection (b) of section 232 of the Trade Expansion Act of 1962 (19 U.S.C. 1862) is amended—

(1) by striking out "Upon request" and inserting in lieu thereof "(1) Upon request",

(2) by striking out ", Secretary of Commerce,",

(3) by striking out "Secretary of the Treasury" and inserting in lieu thereof "Secretary of Commerce",

(4) by striking out "within one year after receiving an application from an interested party or otherwise beginning" and inserting in lieu thereof "by no later than the date that is 6 months after the date on which the Secretary receives a request for an investigation under this section or on which the investigation otherwise begins", and

(5) by adding at the end thereof the following new paragraphs:

"(2)(A) The Secretary shall immediately notify the Secretary of Defense of any investigation initiated under paragraph (1) with respect to imports of an article. Upon receiving such notice, the Secretary of Defense shall conduct a separate defense needs assessment with respect to such article.

"(B) By no later than the date that is 3 months after the date on which the investigation under paragraph (1) of imports of an article is initiated, the Secretary of Defense shall complete the defense needs assessment conducted under subparagraph (A) with respect to such article and submit to the Secretary a report on the assessment. Such report shall be submitted by the Secretary to the President with (and be considered a part of) the report that the Secretary is required to submit to the President under paragraph (1).

"(3)(A) The report submitted by the Secretary under paragraph (1) shall include a written statement by the Secretary of Defense expressing concurrence or disagreement with the findings and recommendations of the Secretary contained in such report and the reasons for such concurrence or disagreement.

"(B) The report submitted by the Secretary under paragraph (1), or any portion of such report (including the report submitted by the Secretary of Defense under paragraph (2)(B)), may be classified only if public disclosure of such report, or of such portion of such report, would clearly be detrimental to the security of the United States.

"(C) Any portion of the report submitted under paragraph (1) which—

"(i) is not classified in accordance with subparagraph (B), and

"(ii) is not proprietary information described in paragraph (5)(A),

shall be published in the Federal Register.

"(4)(A) The President shall take action, or refuse to take action, under paragraph (1) with respect to any report submitted under paragraph (1) by no later than the date that is 90 days after the date on which such report is submitted to the President.

"(B) The President shall make a written statement of the reasons why the President has decided to take action, or refused to take action, under paragraph (1) with respect to each report submitted to the President under paragraph (1). Such statement shall be published in the Federal Register.

"(5)(A) Proprietary information which is provided by a person who has made a written request to the Secretary or the Secretary of Defense that such proprietary information not be disclosed to the public—

"(i) shall only be disclosed to those persons who are directly involved—

"(I) in investigations conducted under this section, or

"(II) in carrying out the provisions of this section, and

"(ii) shall not be disclosed in any statement or report which is required to be published under this section.

"(B) The Secretary is authorized to prescribe regulations that—

"(i) ensure compliance with the requirements of subparagraph (A), and

"(ii) impose sanctions against any person who violates the provisions of subparagraph (A).".

(b) CLARIFYING AMENDMENT.—Subsection (d) of section 232 of the Trade Expansion Act of 1962 (19 U.S.C. 1862) is amended by inserting "in the Federal Register" after "published".

---

## KASTEN (AND OTHERS) AMENDMENT NO. 2681

Mr. KASTEN (for himself, Mr. LEVIN, Mr. PROXMIRE, and Mr. RIEGLE) proposed an amendment to the bill S. 2638, supra, as follows:

On page 6, strike out lines 1 through 8, and insert the following new subsection:

(4) Funds may not be obligated or expended for the procurement of a lead minesweeper hunter ship or a partially outfitted hull of a minesweeper hunter ship from a foreign country until the Secretary of the Navy has certified to the Congress in writing (A) that purchase of up to two foreign built ships responds to an urgent national security requirement; (B) that no United States shipbuilder has demonstrated the capability, or that no shipbuilder can demonstrate the ability to acquire that capability to meet that requirement in a timely fashion.

---

## GOLDWATER AMENDMENT NO. 2682

Mr. GOLDWATER proposed an amendment to the bill S. 2638, supra, as follows:

At the end of amendment No. 2620 as adopted, add the following new section:

"On page 268, line 9, strike "$2,148,689,000" and insert in lieu thereof "$2,149,749,000".

In amendment No. 2633 as adopted, on page 1, line 6, strike "$8,866,000,000" and insert in lieu thereof "$8,370,800,000".

In amendment No. 2633 as adopted, on page 2, line 2, strike "'$15,334,573,000" and insert in lieu thereof "$14,908,873,000".

In amendment No. 2633 as adopted, on page 2, line 4, strike "$19,687,171,000" and insert in lieu thereof "$19,304,871,000".

In amendment No. 2638 as adopted beginning on page 1, line 9, strike all through page 3, line 15.

In amendment No. 2657 as adopted on page 2, line 6, strike the period and insert ", and those provisions contained in amendments numbered 2597, 2641, 2645, 2654, and 2655.".

## STEVENSON-WYDLER TECHNOLOGY INNOVATION ACT

### GORTON AMENDMENT NO. 2683

Mr. SIMPSON (for Mr. GORTON) submitted an amendment to the bill (H.R. 3773) to amend the Stevenson-Wydler Technology Innovation Act of 1980 to promote technology transfer by authorizing Government-operated laboratories to enter into cooperative research agreements and by establishing a Federal Laboratory Consortium for Technology Transfer within the National Science Foundation, and for other purposes; as follows:

On page 33, line 15, insert "personnel," immediately after "funds,".

On page 33, line 16, insert "personnel," immediately after "provide".

On page 33, line 22, insert the following immediately before the semi-colon: ", and subject to reservation by the Government of a nonexclusive, nontransferrable, irrevocable, paid up license to practice or have practiced the invention throughout the world by or on behalf of the Government".

On page 34, line 2, insert the following immediately before the semi-colon: ", and subject to reservation by the Government of a nonexclusive, nontransferrable, irrevocable, paid up license to practice or have practiced the invention throughout the world by or on behalf of the Government".

On page 34, lines 11-12, strike "agreement" and insert in lieu thereof "arrangement".

On page 34, line 15, insert ", with or without reimbursement" immediately after "resources".

On page 36, line 9, strike "this section" and insert in lieu therof "section 12".

On page 39, line 9, strike "may" and insert in lieu thereof "shall".

### DOLE AND ROCKEFELLER AMENDMENT NO. 2684

Mr. SIMPSON (for Mr. DOLE and Mr. ROCKEFELLER) submitted an amendment to the bill (H.R. 3773), supra, as follows:

On page 34, line 2, strike out "and".

On page 34, insert between lines 2 and 3 the following:

"(D) in the case of any industrial organization or other person subject to the control of a foreign company or government, take into consideration whether or not such foreign government permits United States agencies, organizations or other persons to enter into cooperative research and development arrangements and licensing agreements.

On page 34, line 3, strike out "(D)" and insert in lieu thereof "(E)".

### DOMENICI AMENDMENT NO. 2685

Mr. SIMPSON (for Mr. DOMENICI) submitted an amendment to the bill (H.R. 3773), supra, as follows:

On page 29, line 16, strike "(2)" and insert in lieu therof "(3)"; on page 29, line 24, strike "(3)" and insert in lieu thereof "(4)"; on page 30, line 1, strike "(4)" and insert in lieu thereof "(5)"; on page 30, line 6, strike "(5)" and insert in lieu thereof "(6)"; on page 30, line 16, strike "(6)" and insert in lieu thereof "(7)"; and page 29, insert the following immediately after line 15:

"(2)(A) The Consortium shall not engage in the direct transfer of technology, but shall furnish information and respond to requests for technical assistance only in the manner specified in paragraph (1) (C).

"(B) Each Federal laboratory or agency shall transfer technology directly to users or representatives of users, and shall not transfer technology directly to the Consortium. Each Federal laboratory shall conduct any transfer of technology only in accordance with the practices and policies of the Federal agency which owns, leases, or otherwise uses such Federal laboratory."

On page 30, line 17, strike "0.005" and insert in lieu thereof "0.0025".

On page 31, line 11, strike "appropriate.'." and inset in lieu thereof the following: "appropriate.

"(8)(A) The Consortium shall use 10 percent of the funds provided in paragraph (7) to establish demonstration projects in technology transfer. To carry out such projects, the Consortium may make grants or awards to, or enter into agreements with, nonprofit State, local or private organizations or entities who primary purposes are to facilitate cooperative research between the Federal laboratories and organizations not associated with the Federal laboratories, to transfer technology from the Federal laboratories, and to advance State and local economic activity.

(B) The demonstration projects established under subparagraph (A) shall serve as model programs. Such projects shall be designed to develop programs and mechanisms for technology transfer from the Federal laboratories which may be utilized by the States and which will enhance Federal, State and local programs for the transfer of technology.

"(C) Application for such grants, awards or agreements shall be in such form and contain such information as the Consortium shall specify.

"(D) Any person who receives or utilizes any proceeds of a grant or award made, or agreement entered into, under this paragraph shall keep such records as the Consortium shall determine are necessary and appropriate to facilitate effective audit and evaluation, including records which fully disclose the amount and disposition of such proceeds and the total cost of the project in connection with which such proceeds were used.".

### PELL AMENDMENT NO. 2686

Mr. BYRD (for Mr. PELL) submitted an amendment to the bill (H.R. 3773), supra, as follows:

At the end of the bill, add the following:

(e) The second sentence of section 2(10) of such Act (15 U.S.C. 3701(10)) is amended by inserting ", which include inventions, computer software, and training technologies," immediately after "developments".

(f) Section 3(3) of such Act (15 U.S.C. 3702(3)) is amended by inserting ", including inventions, software, and training technologies," immediately after "technology".

On page 43, line 5, strike "invention.'." and insert in lieu thereof the following: "invention."

"(11) 'Training technology' means computer software and related materials which are developed by a Federal agency to train employees of such agency, and includes software for computer-based instructional systems and for interactive video disc systems.'.".

On page 26, insert the following immediately after line 12:

(2) in paragraph (1), by inserting ", including software and training technologies," immediately after "technologies";

On page 26, line 13, strike "(2)" and insert in lieu thereof

"(3)"; on line 14, strike "(3)" and insert in lieu thereof "(4)"; on line 16, strike "(4)" and insert in lieu thereof "(5)"; on page 27, line 1, strike "(5)" and insert in lieu thereof "(6)"; and on line 3, strike "(6)" and insert in lieu thereof "(7)".

On page 32, line 12, strike "reports.'." and insert in lieu thereof the following: "reports."

"(3) Not later than one year after the date of enactment of the Federal Technology Transfer Act of 1986, the Secretary shall submit to the President and the Congress a report regarding—

"(A) any copyright provisions or legal or other barriers which restrict or limit the transfer of federally funded computer software to the private sector and to State and local governments, and agencies of such State and local governments; and

"(B) the feasibility and cost of compiling and maintaining a current and comprehensive inventory of all federally funded training software,'.".

### LEAHY AMENDMENT NO. 2687

Mr. BYRD (for Mr. LEAHY) submitted an amendment to the bill (H.R. 3773), supra, as follows:

On page 41, strike lines 12 through 14 and insert in lieu thereof the following:

(5) Section 5(c) of such Act (15 U.S.C. 3704(c)) is amended—

(1) by striking "the Director" each place it appears and inserting in lieu thereof "the Assistant Secretary";

(2) by redesignating paragraphs (7) and (8) as paragraphs (9) and (10), respectively; and

(3) by inserting immediately after paragraph (6) the following:

"(7) encourage and assist the creation of centers and other joint initiatives by State or local governments, regional organizations, private businesses, institutions of higher education, nonprofit organizations, or Federal laboratories to encourage technology transfer, to stimulate innovation, and to promote an appropriate climate for investment in technology-related industries;

"(8) propose and encourage cooperative research among the Federal laboratories, State or local governments, regional organizations, colleges or universities, nonprofit organizations, or private industry to promote the common use of resources, to improve training programs and curricula, to stimulate interest in high technology careers, and to encourage the effective dissemination of technology skills with the wider community;".

On page 29, line 11, strike "and", on line 15, strike the period and insert in lieu thereof "; and"; and insert immediately after line 15 the following:

"(I) when requested, assist colleges or universities, businesses, nonprofit organizations, State of local governments, or regional organizations to establish cooperative programs to stimulate research and to encourage technology transfer in such areas as technology program development, curriculum design, long-term research planning, personnel needs projections, and productivity assessments.".

## BUMPERS AMENDMENT NO. 2688

Mr. BYRD (for Mr. BUMPERS) submitted an amendment to the bill (H.R. 3773), supra, as follows:

On page 34, line 20, strike the term "agency" and in lieu thereof insert "laboratory".

On page 35, between lines 3 and 4 insert the following: "(c) For the purposes of this section, an agency shall make a separate determination of the mission or missions of each of its laboratories."

In page 35, line 4, strike "(c)" and insert in lieu thereof "(d)".

## DEFINITION OF LOCAL SERVICE AREA

## MATHIAS AMENDMENT NO. 2689

Mr. SIMPSON (for Mr. MATHIAS) proposed an amendment to the bill (H.R. 3108) to amend title 17, United States Code, to clarify the definition of the local service area of a primary transmitter in the case of a low-power television station; as follows:

At the appropriate place add the following new section:

SEC. . (a) Section 111(d) of title 17, United States Code, is amended—

(1) in paragraph (3) by striking out "clause (2)" and inserting in lieu thereof "paragraph (1)";

(2) in paragraph (2) by striking out "clause (5)" and inserting in lieu thereof "paragraph (4)";

(3) in paragraph (2)(B) by striking out "clause (5)" and inserting in lieu thereof "paragraph (4)";

(4) by striking out paragraph (1); and

(5) by redesignating paragraphs (2), (3), (4), and (5) as paragraphs (1), (2), (3), and (4), respectively.

(b) Section 111(f) of title 17, United States Code, is amended by striking out "subsection (d)(2)" in the third undesignated paragraph defining a cable system and inserting in lieu thereof "subsection (d)(1)".

(c) Section 801(b)(2) of title 17, United States Code, is amended by striking out "111(d)(2)(B)" each place it appears and inserting in lieu thereof "111(d)(1)(B)".

(d) Section 801(d)(2)(D) of title 17, United States Code, is amended by striking out "111(d)(2) (C) and (D)" and inserting in lieu thereof "111(d)(1) (C) and (D)".

## ADDITIONAL STATEMENTS

## REBUILDING THE AIR TRAFFIC CONTROL SYSTEM

● Mr. LAUTENBERG. Mr. President, the Washington Post has published an excellent series of two articles by Doug Feaver on the attempts by the Federal Aviation Administration to rebuild the Nation's air traffic control and aviation safety system. We are in the heart of the summer travel and violent weather season. The adequacy of our aviation safety system is of a paramount concern to millions of American travelers.

Here in the Congress, we are focusing on this issue as well. Recently, I joined the distinguished minority leader, Senator BYRD, in exploring the challenges facing air safety and the FAA at a hearing before the Aviation Subcommittee of the Committee on Commerce, Science, and Transportation.

Mr. President, soon we will be considering funding for the Department of Transportation and the FAA. The excellent reporting in the Washington Post provides some insight by which to make our decisions on air safety funding.

I ask that copies of the articles appear in the RECORD along with an article on wind shear detection technology from the August 2 New York Times.

The articles follow.

[From the Washington Post, Aug. 3, 1986]

AIR TRAFFIC CONTROL—SYSTEM UNDER STRESS

1981 STRIKE STILL A DRAG ON AIR TRAFFIC MONITORS

(By Douglas B. Feaver)

Five years ago this morning, almost 12,000 air traffic controllers walked off their jobs, seeking more money and a little respect from Federal Aviation Administration managers who for years had minimized suggestions that controllers jobs were stressful.

By midmorning, Drew Lewis, then secretary of transportation, was able to advise President Reagan that supervisors and nonstriking controllers were keeping the airplanes flying, although with many delays. It would be possible to do so for months, Lewis advised.

It was also possible for Reagan to deliver an ultimatum that still reverberates throughout the FAA and the airline industry: Controllers who didn't return to work would be fired. In all, 11,400 of about 16,500 controllers were dismissed, and the federal government began a massive program to replace thousands of people with unusual skills. The system would be back to normal by January 1984, the government promised.

It didn't happen. FAA Administrator Donald D. Engen says today that it will be another "12 to 18 months" before the term "normal" can be used, and although the system is handling more airplanes than it did before the strike, it is showing signs of stress.

A controller at Washington National Airport recently wrote, "the shortage of experienced controllers combined with the lack of time to allow developmentals [trainees] to gain experience before letting them work alone causes severe safety problems."

The comment was one of many expressing similar sentiments volunteered by controllers nationwide who responded to a General Accounting Office survey. Their opinions buttress concerns of aviation specialists who work closely with the intricate web of people, radios, data links, radar antennas and computers that make up the air traffic control system.

That system, they say, is:

Less safe than it once was.

Short of trained personnel despite a continually increasing number of flights. The FAA labels as critical the controller and experience shortages at seven of its 20 regional traffic centers.

Dependent on tired, overloaded computers. Replacements are taking longer to acquire than scheduled and costing more than planned, thus calling into question FAA claims that fewer controllers will be able to handle more planes because of increased automation.

Subject to unpredictable federal budget pressures that have made management more witchcraft than science.

The air traffic control system "is not unsafe," said the GAO's Charles Cotton, whose office supervised the survey and constantly studies the FAA. "However, the level of safety has diminished."

That opinion is shared at the National Transportation Safety Board, on Capitol Hill and by some safety consultants. It is contested by the FAA and the airlines, which have an enormous economic stake in continued growth, dependent in large part on a public perception that flying is safe.

William F. Bolger, president of the Air Transport Association (ATA), the airlines' lobbying group, said recently that "the air traffic control system is safe, but it could be better. We need a system that is able to accommodate growth."

Jim Burnett, chairman-designate of the safety board, said, "There has to be a stop in traffic growth at some point. I wonder if the FAA has the willingness to pinch the industry."

Everybody wants to help. Sen. Nancy Landon Kassebaum (R-Kan.), chairman of the Senate Commerce subcommittee on aviation, wondered whether "maybe . . . a moratorium" on traffic growth will be necessary.

FIVE YEARS AFTER STRIKE, AIR TRAFFIC SYSTEM SEEKS RETURN TO NORMAL

The ATA is pushing a program to divorce the FAA's air traffic control and airport operations responsibility from the Department of Transportation and place them in an independent federal authority that presumably would have more flexibility than an agency buried in a Cabinet-level department.

Last week, for the first time, congressional proponents of rehiring fired controllers got legislation as far as the House floor. It failed, but attracted 193 votes.

Senate Minority Leader Robert C. Byrd (D-W. VA.) says he wants a commission to study "the management of aviation safety by the FAA."

Engen, noting that "We certainly have had oversight," said, "Running this outfit is like taking a shower in Times Square. There are no secrets.

Seventeen percent of the controllers who answered the GAO survey said safety was

poor or very poor, which means that 83 percent said it was adequate or better. But those are nationwide figures. The look at specific FAA facilities shows a higher level of concern.

At the Washington Air Route Traffic Control Center in Leesburg, which handles flights from the Ohio River to the Atlantic and from New York to South Carolina, only 72 percent said safety was adequate or better. Ninety-two percent said they were handling "much more or somewhat more" traffic than they should be handling.

There are 19 other Air Route Traffic Control Centers in the 48 contiguous states. At the Chicago Center in Aurora, Ill., which feeds the world's busiest airport, Chicago O'Hare, only 69 percent of the controllers said safety was at least acceptable, and 81 percent thought they were working too much.

"TWO-FACED" MANAGEMENT

"Management is two-faced," a Washington Center controller wrote. "They want you to move heavy traffic at all costs, but come down on you if you try to use short cuts to move it. A disaster is waiting to happen . . . ."

Another controller wrote about how lucky the FAA has been to avoid "the Big One," shorthand for a collision between two loaded jets.

The GAO survey was made last year and the FAA insists that it has progressed since then in rebuilding the air traffic control system and in completing the training of more controllers.

The GAO is not so sure. "For the first six months of this fiscal year, they added a net of 30 controllers," the GAO's Joseph McGrail said, because of higher than expected retirements and slower than expected replacements rates.

It takes from 18 months to three years for a newly hired controller to become fully qualified. Early months of training are at the FAA Academy in Oklahoma City; the rest is at the center or tower that employs the controller. Much on-the-job training with an experienced controller is necessary to complete the job.

Transportation Secretary Elizabeth Hanford Dole has promised that the FAA will hire 500 new controllers by the end of September, for a total strength of 14,480, and 500 more controllers in fiscal 1987.

However, 216 of those 14,480 will be students who just entered the FAA Academy, and half of all students usually wash out before becoming full-fledged controllers. Another 1,465 or so of the 14,480 will not really be controllers, but "air traffic assistants" who handle many bookkeeping chores that controllers did before the strike.

Further, the GAO contends that the FAA is underestimating the number of senior controllers and supervisors who will retire because of the way anticipated changes in tax law will affect federal workers.

Top FAA officials say they think the GAO is being picky. They say the guarantees they have placed in the system to protect green controllers and airline passengers assure a level of safety at least as great as that before the strike.

"I can't define what the mystical margin of safety is . . . but I am satisfied the system is safe," said Walter Luffsey, the FAA's associate administrator for air traffic.

He points to a 23.7 percent decrease in "operational errors" in the first six months of this year compared with the same period of 1985. An operational error occurs when planes get closer to each other than they are supposed to; the minimum permissible distances between aircraft vary, depending on the flight situation.

One reason the errors are down, Luffsey and others agree, is a computerized error-catcher installed in the system two years ago. It alerts supervisors when two planes approach within error range of each other, and results in official inquiries. Its existence has programmed controllers to keep planes farther apart than standards require.

Controllers, call the device the "snitch patch" and universally dislike it, charging that insignificant but technical errors help them move traffic efficiently and should not be counted. Safety proponents think the device is a good idea.

TOWERS EMPTIER, SKIES FULLER

Concerns about safety have centered on the dramatic increase in traffic over the past five years. In 1980, the last full year before the strike, there were 9.9 million takeoffs and landings by airlines in the United States; last year, with about 5,000 fewer fully qualified controllers working, the number was 11.5 million, or 16,585 flights a day.

During the first five months of this year there were 5 million airline takeoffs and landings, an 8.7 percent increase over the same period a year earlier and a 19.1 percent increase over the same period in 1980, the last year before the strike. Those numbers do not include the thousands of private, business and military flights that also require services from the air traffic control system.

"I say the system is at optimum efficiency," Luffsey said. "We feel we're overdriving the system as far as we can, but we're working hard to improve capacity. There is not a direct-line relationship between people and capacity."

Engen asserts that the system is and will be safe because, no matter how many flights are scheduled, "We will not let it go critical."

The FAA has made two significant changes in the air traffic system since the strike. One is the emergency of a flight-metering program called flow control as the dictator of whether a plane will take off on time.

The other is administrative: Air traffic centers and towers are now responsible operationally to Washington, not to their regional headquarters. That makes it easier for central flow control in Washington to tell controllers in Denver what to do to alleviate a problem in Cleveland.

A flight from Washington National to Chicago O'Hare will be handled first by a controller in the glassed-in room on the top of the National tower. Immediately after takeoff, control is transferred to a radar-monitoring controller at National, then to a series of radar controllers at the Washington Center, the Cleveland Center, the Indianapolis Center and the Chicago Center. When the flight approaches O'Hare, it will be taken over by a controller in the radar room there, then finally by a tower controller.

Each time the plane changes controllers, it is "handed off," and the pilot switches radio frequencies to talk to the new controller.

AVOIDING TRAFFIC JAMS

Before the strike, a controller viewing his radar screen would accept or reject aircraft as they arrived at his "sector" of airspace. If he had too much traffic, he would deny the handoff, or "slam the door" as controllers say, and the rejected plane would be stuck in a holding pattern.

Holding patterns are not popular with pilots and can be dicey for controllers, especially if several planes get stacked on top of each other. The history of air traffic control is replete with near collisions resulting from communications foulups involving airplanes in holding patterns.

So planes are held on the ground until the FAA can be sure there is room for a flight to proceed undeterred, barring bad weather. That makes the industry unhappy. It wants a small number of airbone holds programmed into the FAA's planning so there are flights aloft to take advantage of gaps that sometimes appear in the FAA's traffic stream. "You've got to tweak the system a little bit," said the ATA's Paul Leonard.

Not on my watch, said Luffsey. "Airborne holding will not be planned for in the system," he said.

Once a plane is permitted off the ground, a big brother controller in an air route center's "traffic management unit" sorts out the airplanes to assure an even flow miles before flights reach a critical sector, such as the one handling all the traffic from the west destined for Washington National.

The 20 traffic management units are connected with central flow control, on the fourth floor of the FAA building at 800 Independence Ave. SW. Central flow controllers try to solve the same problems from center to center that the traffic management unit does from sector to sector within centers. If there is a line of thunderstorms between Chicago and Cleveland, for instance, traffic handled in regional centers in Minneapolis and Kansas City will be slowed down or held on the ground on the orders of central flow control.

It is an imperfect business, much of it done by guesswork and manual computation. The FAA is writing computer programs to predict problems and remove gaps, but there is a shortage of capacity in the present FAA computers.

CONTROLLERS SEE AIR TRAVEL AS LESS SAFE

The controllers who do all these things, said the GAO's McGrail, "are not ordinary people. They have a uniqueness of skills, and what they do requires a lot of conceptualization and an ability to deal in three dimensions. It has nothing to do with education."

FAA managers have had problems communicating with controllers for years. There was a brief, illegal strike in 1970, a decade of turmoil and the big strike in 1981. The 1981 walkout, McGrail said, "was a great opportunity for the FAA. They got a whole new work force, but there was no change" in the underlying personnel management problems that led to the strike. "I was really dismayed by that."

"It's like the late, late movie," said Rep. James L. Oberstar (D-Minn.), "You've seen it before." Oberstar is chairman of the House Public Works Subcommittee on Investigations, which periodically calls the FAA on the carpet.

Charles E. Weithoner, FAA associate administrator for human resource management, points out that while the FAA fired the controllers, it kept the managers. A management training program to improve employe relations has been instituted, the agency is in the midst of its second employe attitude survey, labor-management committees have been established at all FAA facilities and new ways to choose supervisors and managers are being tried.

Nonetheless, Weithoner said, "It will take us a number of years. . . . No cultural change is ever rapid." He said the "can-do" attitude of controllers and supervisors that followed the strike has been replaced with fatigue. Controllers "are all pressed hard. They're working overtime on the boards, and they're in traffic up to their eyebrows," he said.

In addition, the 4.3 percent federal budget cut forced this year by the Gramm-Rudman-Hollings deficit-reduction law has pinched the rebuilding effort. Luffsey said he would like to transfer some controllers from towers to the seven critical air route centers—Cleveland, Chicago, Indianapolis, Minneapolis, New York, Los Angeles and Oakland—but there is no money to pay for such moves.

"If I had unlimited money I could be very close to full recovery today," said Don A. Enders, manager of the Cleveland Center. The cuts this year, he said, have added six to nine months to the time it takes to complete the training of one controller. That is because Enders cannot pay overtime for qualified controllers to provide on-the-job training. He is authorized 329 fully qualified controllers and has 210, he said.

So the personnel problems continue, with a tired work force, old computers and money problems. And the traffic continues to grow.

"Yes, someday there's going to be a midair collision," FAA Chief Engen conceded. "There's nobody in this world who can prevent two pilots or two automobile drivers, both failing to do what they're supposed to do, coming together sometime . . . . Unfortunately, people make mistakes. A controller can make a mistake. That doesn't make the system unsafe."

---

REBUILDING FAA: HIGH COST, HIGH RISK—$12 BILLION LABOR-CUTTING PLAN WILL DEPEND ON UNTESTED COMPUTER

(By Douglas B. Feaver)

The government is engaged in a multibillion-dollar computer acquisition program that has fallen behind schedule and will cost billions more than planned.

It sounds like a Pentagon procurement. Instead, it's the Federal Aviation Administration's $12 billion replacement air traffic control system, a super computer-radar network that is supposed to permit more flights and increase safety while reducing the number of people required to control air traffic.

First, the rosy scenario:

Computers will monitor airplanes' progress, predict and resolve conflicts between them and provide fuel-efficient routes that avoid severe weather. Pilots will receive instructions over automatic data links, eliminating cumbersome voice communications. Humans, who make mistakes, will mostly monitor the system.

It is an ambitious high-tech public works project and Congress has for the most part enthusiastically supported it. There is a special 8 percent tax on airline tickets to pay for it, the classic user fee. The aviation industry loves its potential for feeding growth.

There's only one problem. Nobody has ever built a computer like this, and the FAA plans to buy it without first making sure it works.

The computer in question is the heart of the National Airspace System Plan (NASP), a multiproject FAA modernization program drafted in 1981. The General Accounting Office, in a series of reports over six years, says the FAA is seriously overestimating NASP benefits and not doing enough pre-contract award testing to mitigate risks and keep costs under control.

FAA MODERNIZATION PLAN CHALLENGED ON COST CONTROLS, TECHNOLOGY

A secondary question being raised by the GAO and others is whether the FAA is taking advantage of the best technology.

The planned FAA system is ground-based, requiring enormous investments in radar stations and data links, at a time when satellite-based precision navigation systems seem increasingly attractive and are being tried by the Air Force.

The debate comes at a time the FAA's labor-intensive air traffic control system is under considerable stress, still trying to recover from the 1981 strike in which 11,400 controllers were fired. One suspicion of the aviation industry is that the FAA, anticipating personnel savings from the NASP, has not hired as many controllers as it could have.

ADVANCED AUTOMATION SYSTEM IS KEY

The keystone of the FAA's planned air traffic control system of the future is the Advanced Automation System (AAS). It is scheduled to cost $3.2 billion and to be installed in the 1990s.

The FAA plans to purchase the basic AAS in two phases, then add bells and whistles as they become available. The emphasis is on automating as much of the labor-intensive air traffic controller process as possible.

In Phase I, already under way, IBM and Hughes Aircraft Corp. are developing competing designs for the AAS, including computer concepts and work stations for controllers. Then the FAA will choose the plan it likes better and award the Phase II contract, full production. The GAO's problem is that the design phase does not include what it regards as realistic testing of the computer system.

The GAO's Carl Palmer said in recent congressional testimony that government acquisitions usually involve four phases, not two, with successive approvals "based on demonstrated results and extended competition." By skipping some of those interim steps, he said, the FAA's process "represents an unacceptably high risk to the government."

The design competition contracts started out at $247 million, but the FAA subsequently changed some of the specifications, adding $121.8 million.

Phase II, the production contract that will go to either IBM or Hughes, was scheduled to be awarded in mid-1987. That decision has been delayed at least to January 1988.

The key to AAS is its software, the computer's instructions, which have to be written by humans and stored in code on magnetic tape. Because AAS is supposed to automate many functions now performed by people, writing the software is considered a daunting task.

Under the FAA's current plan, the AAS software will not be written until after the production contract is awarded; thus, the GAO argues, potential problems cannot be discovered and resolved before the taxpayers' money is on the table. Further, the more automated the system, the higher the imperative that it not break down.

"FAA requires the system to be operational or available to perform emergency mode functions 99.99999 percent of the time," Palmer said. "This requirement means that system outages cannot exceed 3 seconds per year." If ever there was a need to keep a contractor's feet to the fire and prove that a concept will work before buying it, this is the time, the GAO is saying.

EXTENSIVE TESTING CALLED EXTRAVAGANT

Frank L. Frisbee, the FAA's acting associate administrator for development and logistics, said that "to take the risk out, we would have to literally fly before we buy. To have two contractors develop 1.2 million lines of [computer] code, then throw away 1.2 million lines, is extravagant, and we think you don't substantially improve the product."

If the GAO is correct, however, a significant number of difficult and unanswered technical questions may result in further expensive delays.

Pressure from the GAO and the congressional appropriations committees is having an effect. After Frisbee and his boss, FAA Administrator Donald D. Engen, were interviewed for this article, department sources volunteered on background that the AAS acquisition strategy is under review, although the goal remains "to get it done as quickly and correctly as possible and not keep two contractors on board," one source said.

While the debate on the AAS warms up, other acquisitions in the FAA's air traffic rebuilding program have provided the GAO with ammunition.

Consider the FAA's experience with Host, for example.

Host is an interim computer system that is supposed to keep air traffic humming between the 20 air route traffic control centers in the 48 contiguous states from now until AAS goes to work. An interim system is regarded as necessary because the FAA's existing computers are 20 years old, run on vacuum tubes, are difficult to find parts for and do not have the capacity to handle everything the FAA would like to throw at them.

The idea is to feed the software from the existing system in Host, which is supposed to find it acceptable and purr along for several years, providing growth without changing any basic operational concepts.

The first Host computer, an IBM 3083, was scheduled to be installed at the FAA Seattle Center in May, with deliveries to the other 19 centers to be completed by June 1987. That schedule has been delayed by six months because the Host couldn't digest the old software. IBM and FAA specialists are busily adding sweeteners. The cost implications are not yet clear.

The Host production contracts is for $197 million, but the FAA can add options that could run it as high as $432 million, the FAA said. IBM won the contract in a design competition, but the competition did not include operational testing, as the GAO had recommended. GAO is now saying, "I told you so." The FAA's view is that it saved time when time was important.

COMPETITION SEEN TO LIMIT "DIALOGUE"

Jack Winters, IBM's federal systems division vice president, defended the FAA decision to award the production contract without operational testing because, he said, "I think it was very important to get a single contractor in place and open up the dialogue to make sure the system we were implementing was the system [the FAA] wanted. One of the problems in a competition is that the dialogue has to be constrained."

He said the same arguments would apply in favor of the FAA's current plan to award

the AAS production contract without operational testing.

There is enormous potential risk involved in building air traffic control computers, because a software glitch might result in air planes colliding or hitting fog-enshrouded mountains the computer says aren't there.

"We certainly understand the responsibility," Winters said. The potential liability cost in case of such an accident also is enormous. "We were concerned about that, and a prerequisite to us participating in the Host program was indemnification from the FAA," Winters said.

The ambitious FAA plan that includes Host and the AAS was constructed in 1981 by J. Lynn Helms, then FAA administrator. "What Helms did was pick up about 80 marbles off the floor, put them in a bag, tie it with a string and call it a plan," a source familiar with the process said.

The bag of marbles became a brown-bound book with pictures, charts and graphs and the title "National Airspace System Plan." It ended years of internal FAA debate about what to do and how and provided the documentation needed to buy support from the Air Transport Association, the airlines' lobbying group, and from Congress.

Warren G. Reed, director of GAO's information management and technology division, has a certain feeling of *deja vu*. "There is a great temptation to take shortcuts at the beginning" of a major procurement, he said, citing experience with computer fiascos at the Defense Department, the Internal Revenue Service and the Social Security Administration. Those experiences, he said, have resulted in the GAO's "insistence there should be real operational testing."

The House Appropriations transportation subcommittee said in a recent report that the costs of the FAA's overall modernization plan, officially estimated at $11.7 billion, could exceed $15 billion because of delays and cost overruns.

MESSAGE IS REACHING CONGRESS

That report reflects the fact the both House and Senate transportation appropriations subcommittees are beginning to hear the GAO. Rep. William Lehman (D-Fla.), chairman of the House Subcommittee, said, "I understand the politics of this and that there are big bucks involved. But the final analysis is that there is safety involved, too. We have to minimize risk, and one way to do that is to do more testing under actual conditions."

On the other hand, Rep. Normal Y. Mineta (D-Calif.), chairman of the House Public Works aviation subcommittee, which authorized the NASP, said, "There have been cases where the GAO has recommended more testing where I think that testing would have done nothing more than slow down the whole process. I think the procurement decision on the Host computer is that kind of decision." He said he supports more testing for the AAS, however.

Nonetheless, there is unusual political and technical agreement on the need for new radar antennas, computers and communications links to rejuvenate the air traffic control system. Even the FAA's harshest GAO critics concede the need, and the FAA wants to get on with the job.

"We have overcome the inertia it takes to get a project moving," Frisbee said. "We all should be careful in the way we treat that."

GUIDANCE PROGRAM STILL IN THE SHOP—CONTRACTOR CITES COMPUTER SOFTWARE NEEDS AS REASON FOR DELAY

One of the first major projects the Federal Aviation Administration was supposed to complete in its $12 billion reconstruction of the air traffic control and aviation communications network was the construction and installation of precision landing system for use in poor visibility.

As just one component in a new generation of technology the FAA is buying, this was regarded as a relatively small technical challenge, and it may yet prove that way. Nonetheless, the precision guidance system has run into delays.

Problems in writing software—the coded instructions computers, understand—have contributed to delays in other elements of the FAA modernization, and this is no exception.

The first new microwave landing system (MLS) was supposed to be installed about now, It has yet to clear the production line at Hazeltine Corp., which has a $79 million FAA contract to build 178 systems and install them at airports around the country, starting in Boston. The manufacturer's best estimate now is July 1987.

"The MLS works; it is rock-solid technology," said Frank L Frisbee, the FAA's acting associate administrator for development and logistics. "The fact Hazeltine hasn't gotten one off the production line I don't think is a criticism of MLS."

Donald L. Miller, a Hazeltine vice president, said that "the summary of the problem is that the software requirement was larger than we thought it would be. It is not a technical issue per se. We underestimated." Although MLS technology has existed for at least 20 years, it has not been mass-produced.

Hazeltine won the contract with a low bid that it concedes was an effort to "buy in," or significantly underbid its competitors to assure itself of a place in the market. The FAA has plans to buy 1,250 MLS systems and there is a potentially huge market worldwide because MLS will become the official international standard system in 1987.

The MLS is supposed to replace the existing precision guidance system, the Instrument Landing System (ILS), which the FAA regards as temperamental and difficult to install. "It's time to get out of the ILS," said FAA Administrator Donald D. Engen. "If a bird defaces an antenna you've got to recalibrate it."

The MLS the FAA wants is supposed to be quick and easy to install and virtually self-maintaining. Unlike the ILS—which can provide only straight-in landing guidance to aircraft—the MLS can give precision directions to pilots or autopilots making curved approaches to runways.

Washington National Airport provides a good example of how the system might be used for a noise-abatement approach. Planes landing to the south at National cannot follow the center of the Potomac River in foul weather because pilots cannot see the river. As a result, the pilots follow a straight-line radio beacon that takes planes and their noise over the Potomac Palisades.

With a functioning MLS, it would be possible to program a completely automatic approach that would keep the plane over the center of the river until just before touchdown.

One problem with MLS is that few aircraft in service have the necessary electronic receivers to make use of the guidance the MLS would offer. "We've adopted a selling campaign," said Engen. He and other FAA officials said they believe that once there are enough MLS units in place, their advantages will encourage airlines to buy the receivers.

[From the New York Times, Aug. 3, 1986]

CONCERN IS ON RISE OVER WIND SHEAR

PILOTS' CAUTION SAID TO CAUSE MORE WEATHER DELAYS—NEW DETECTORS SOUGHT

(By Dennis Hevesi)

Pilots, air traffic controllers and airline operators are warier than ever of thunderstorms and potentially disastrous wind shears, the sudden shifts of wind that can slam a low-flying plane to the ground, and their caution has led to more delays on landings and takeoffs, according to officials of the Federal Aviation Administration and the Airline Pilots Association.

Although there are no data to confirm, the assessment, the officials believe pilots have been more inclined to fly around storm systems.

The greater caution among airline personnel apparently stems from the crash last year of a Delta Air Lines jet that ran into a violent wind shear at the Dallas-Fort Worth airport, killing 136 of those aboard, the officials said.

According to F.A.A. statistics, the number of flights from January to June of this year rose 4.6 percent, to 4.5 million, over the corresponding period in 1985. At the same time, delays were up 29.9 percent over last year.

NEW WARNING SYSTEMS SOUGHT

While the F.A.A. does not specifically note what caused each delay, a spokesman for the agency, Bob Buckhorn, said that, in general, 70 percent of all delays are a result of weather conditions.

The concern about wind shear has prompted renewed calls for installation of a new generation of on-ground and on-board warnings systems.

Bill Cahill, a spokesman for the Port Authority of New York and New Jersey, which operates the three major airports in the metropolitan area, said, "My own personal sense is the reason there didn't seem to be a greater concern about wind shear prior to that incident in Dallas is that not very much was known about, wind shear."

Wind shears usually occur during thunderstorms. The most dangerous ones are produced by fast-decending microbursts of air that fall from a storm cloud and fan out in all directions. A pilot flying into a headwind can be buffeted by a sharp downdraft and then have to contend with a sudden tailwind. The loss of airflow over the wings, coupled with the downdraft, dissipates the lift needed to keep the craft flying.

CONCERN DATES FROM 1970'S

Wind shears can last as little as one minute and affect an area as small as two miles in width.

The search for solutions began in the 1970's. On June 25, 1975, a wind shear caused the crash of an Eastern Airlines jet on an approach to Kennedy International Airport, killing 112 people. Official concern mounted in 1982 with the crash of a Pan American Boeing 727 taking off from New Orleans, killing 153 people.

"As a result of the Dallas accident with Delta last year, " said a spokesman for the F.A.A., Ben Kocivar, "I sense a greater sensitivity on the part of airline operators, pilots and controllers making them more reluctant to fly into a really bad weather situ-

ation. As a result, you probably have gotten more delays."

John Mazor, an official of the Airline Pilots Association, which represents 39,000 pilots flying for 47 United States carriers, concurred. "It is fact," he said, "that after any kind of an accident there is an increased awareness, increased sensitivity to whatever it was that was related to the accident."

Pointing out that the F.A.A. does not have precise criteria or an ironclad policy on when a runway should be closed, Mr. Kocivar said: "Basically, the information about weather is transmitted by the controller to the pilot. It's the pilot's decision about what he does about it."

This leaves gaps in the system, Mr. Mazor said, "The air traffic controller's manual says that one of the things he should be doing is passing on pertinent weather information to the pilots," he said. "However, that is a secondary duty and if the controller has to concentrate on directing the air traffic, one of the first things that he's going to drop in order to concentrate on that is weather information."

Another problem, he said, is that the latest system for wind-shear detection has not been installed at major airports.

The F.A.A.'s existing system uses six or more sensors to measure wind speed and direction around an airport and one near the center of the field. If a sensor measures a hazardous difference in direction, an alert flashes on a display in the control tower. The trouble with the system is that the sensors are so far apart that a wind shear can slip between them.

The next generation detection system makes use of the Doppler effect, which—like the shift in the perceived pitch of a train's whistle as the train moves closer or farther—enables a sensor to record the motion of an object as it comes toward or speeds away from a fixed point.

When the radar beam in a Doppler system hits stormy air, the beam is reflected back at a differing wavelength, depending on whether the air is advancing or receding. The system displays a picture of the wind shear on a terminal in the airport tower.

Concurrently, aircraft manufacturers are hastening the development of on-board wind-shear detection systems. According to the May 29 issue of Aviation Daily, an industry newspaper, the McDonnell Douglas Corporation of Long Beach, Calif., expects that by 1988 the F.A.A. will certify its in-flight wind-shear system for its current line of twin-jet commercial craft.

The director of flight guidance and control for McDonnell Douglas, John McDonnell, said the system would detect the difference in wind speed on the ground and at the aircraft's elevation and alert the pilot, who can elect to go around or complete the landing. On takeoffs, it will give both sight and sound warnings to indicate that the aircraft has entered a wind shear.

A separate wind-shear computer, he said, will be tied into the plane's autothrottle and autopilot mechanisms, and be capable of automatically flying the plane at the correct pitch and speed to penetrate the wind shear.

A spokesman for McDonnell Douglas, Don Hanson, said: "The other manufacturers are working on their own systems. It is something that all manufacturers of commercial planes are trying to do."

In 1984, the on-ground Doppler system worked very well during a 45-day test by the National Center for Atmospheric Research at Stapleton International Airport in Denver. It is currently being tested at the Huntsville, Ala., airport. Experiments last year at the Memphis airport resulted in the detection of 92 potentially hazardous microbursts, according to Aviation Daily.

The cost of installing such a system at an airport has been estimated at $4.5 million.

BETWEEN TWO AIRPORTS

In its budget proposal for fiscal year 1987, the F.A.A. has requested funds to install Doppler systems at 14 airports across the country. The Port Authority of New York and New Jersey has protested the plan to install only one detection system between Kennedy and La Guardia Airports, and none at Newark.

Testifying before the Senate Subcommittee on Transportation Appropriations on May 14, the Port Authority's deputy director for aviation, Morris Sloane, said: The one radar to be used for the two airports would be located somewhere between them. These airports are 11 miles apart.

"Because of the height of the buildings and other terrain features," Mr. Sloane said, "it would be extremely difficult to site one radar between Kennedy and La Guardia that would provide the low-altitude coverage needed to detect microbursts."

An F.A.A spokesman, Dick Stafford, said on Thursday: "Granted it would be better to have it at both airports. But there's only 14 systems in for the first go-round. It's entirely possible that when we go down the line we would have individual Dopplers for both airports.●

## PROGRAM

Mr. SIMPSON. Mr. President, the Senate will convene at 9:30 a.m. on Monday, August 11, 1986. The two leaders will then have their time under the standing order of 10 minutes each. There are special orders in favor of the following Senators for not to exceed 5 minutes each; Senators PROXMIRE and MELCHER.

That will be followed by routine morning business, not to extend beyond the hour of 10 a.m., with Senators permitted to speak therein for not more than 5 minutes each.

At 10 a.m., under a previous unanimous-consent agreement, the Senate will then turn to the consideration of the Boren PAC issue.

At 1 p.m., under a previous unanimous-consent agreement, the Senate will turn to the consideration of H.R. 5052, the military construction appropriations bill.

For details on the unanimous-consent agreements, Senators may consult their CONGRESSIONAL RECORD.

Therefore, Mr. President, votes could occur on Monday, August 11, 1986. The Senate will likely be asked to remain in session into the evening, but votes will not occur prior to 6:30 p.m.

Mr. President, I think we all know what the unanimous-consent agreements are. It is going to be a very long week. The charm of it is that we will conclude without question. If we do not, then we will chew our way through the August recess, which is a pretty good inducement to keep going.

## ADJOURNMENT UNTIL MONDAY, AUGUST 11, 1986, AT 9:30 A.M.

Mr. SIMPSON. Mr. President, I move, in accordance with the previous order, that the Senate stand in adjournment until the hour of 9:30 a.m., Monday, August 11, 1986.

The motion was agreed to and the Senate, at 10:27 p.m., adjourned, to reconvene on Monday, August 11, 1986, at 9:30 a.m.

## CONFIRMATIONS

Executive nominations confirmed by the Senate August 9, 1986:

ENVIRONMENTAL PROTECTION AGENCY

Thomas Lynch Adams, Jr., of Kentucky, to be an Assistant Administrator of the Environmental Protection Agency.

NUCLEAR REGULATORY COMMISSION

Kenneth M. Carr, of California, to be a Member of the Nuclear Regulatory Commission for the term of 5 years expiring June 30, 1991.

DEPARTMENT OF EDUCATION

Mary McNally Rose, of Maryland, to be Deputy Under Secretary for Management, Department of Education.

Justin W. Dart, Jr., of Texas, to be Commissioner of the Rehabilitation Services Administration.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Carol Fraser Fisk, of Virginia, to be Commissioner on Aging.

The above nominations were approved subject to the nominees' commitments to respond to requests to appear and testify before any duly constituted committee of the Senate.

DEPARTMENT OF JUSTICE

Louis G. DeFalaise, of Kentucky, to be U.S. Attorney for the Eastern District of Kentucky for the term of 4 years.

IN THE COAST GUARD

Coast Guard nominations beginning Brian R. Aldrich, and ending Adolph L. Keyes, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of July 22, 1986.

# SENATE—*Monday, August 11, 1986*

The Senate met at 9:30 a.m., and was called to order by the President pro tempore (Mr. THURMOND).

## PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

God of truth and order, we are grateful for passage of the defense authorization bill—but we regret the cost in time and energy, emotional strain and frustration. Dear God, the Senate faces a week with an impossible load of work. Spare the Senators another week of inordinate hours and stress which threatens dignity, civility, health, and sanity.

Father, I honor the Senate and count it a great privilege to serve here. I love the Senators and respect them, but feel profound concern that it not neutralize its effectiveness by the weight of its own practices. Save it, Lord, from becoming like a powerful engine frozen because of the friction of its parts—powerless to maintain its own schedule or meet its own deadlines. Preserve it, gracious God, from becoming a musclebound giant, victim of its own rules, procedures and precedents.

Prove that you are real, alive and relevant to the political process. Grant to the Senate and its Members a special dispensation of grace, wisdom, love, and peace. Make this a profitable, productive week of satisfaction and fulfillment. In the name of Him who is incarnate love. Amen.

## RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The able and distinguished acting majority leader is recognized.

## THE CHAPLAIN'S PRAYER

Mr. RUDMAN. I thank the President pro tempore, and I also want to thank our Chaplain for his prayer. I think we ought to send a copy of that prayer to the Rules Committee.

## SCHEDULE

Mr. RUDMAN. Mr. President, the two leaders under the standing order each have 10 minutes this morning. There are special orders in favor of Senators PROXMIRE and MELCHER for not to exceed 5 minutes each.

Following the special orders, there will be a period for routine morning business not to extend beyond the hour of 10 this morning, with Senators permitted to speak therein for not more than 5 minutes each.

At 10 a.m., under a previous unanimous-consent agreement, the Senate will turn to consideration of the Boren PAC issue.

At 1 p.m., under that consent agreement, the Senate will turn to consideration of H.R. 5052, the military construction appropriations bill.

Votes will occur during today's session, but not prior to the hour of 6:30 p.m.

The Senate will likely be in session late into this evening.

## RESERVATION OF MAJORITY LEADER'S TIME

Mr. RUDMAN. Mr. President, I shall reserve the remainder of the leader's time and yield to the distinguished acting Democratic leader.

## RECOGNITION OF THE ACTING MINORITY LEADER

The PRESIDENT pro tempore. The distinguished acting minority leader is recognized.

## RESERVATION OF MINORITY LEADER'S TIME

Mr. PROXMIRE. I ask unanimous consent that the time of the minority leader be reserved for his use later today.

The PRESIDENT pro tempore. Without objection, it is so ordered.

## THE CHAPLAIN'S PRAYER

Mr. PROXMIRE. Mr. President, I join the distinguished acting majority leader, Mr. RUDMAN, in his praise of our Chaplain. I have been here many, many years, but he is the first Chaplain who always seems to be able to tie the prayer into what is going on here every day and call our attention to what should be expected by the good Lord in our carrying on our business here. He does it with such dignity and such good grace that I have to call attention to it.

## A GREAT DAY FOR ARMS CONTROL

Mr. PROXMIRE. Mr. President, this Senator takes special pride in the astonishing accomplishment of Representative LES ASPIN of Wisconsin's First District in winning a smashing victory in the House for his amendment to stop funding for nuclear weapons testing above 1 kiloton beginning on January 1, 1987. The Aspin amendment would provide this cutoff of funds for nuclear weapons testing on two conditions. First, the Soviet Union will have to agree to stop testing on January 1, 1987. Second, the Soviet Union will have to agree to the location of seismic monitoring stations throughout the Soviet Union in sufficient numbers to assure verification of compliance.

The Aspin amendment passed the House by a 234-to-155 vote, a remarkable 79-vote margin. Mr. President, that amendment did not just edge through; it was a smashing victory.

Mr. President, if the House can preserve this arms control victory in substantial part in conference with the Senate, it will constitute the best news for arms control since President Carter signed the SALT II Treaty in 1979. Why is this House vote so important? Because testing lies at the heart of the nuclear weapons technology arms race. Arms control derives pitifully small benefit from the reduction of the number of nuclear weapons by 50 percent or even 75 percent, if the nuclear technology races ahead so that each of the remaining nuclear weapons has 10 times its previous lethal force. Unless both powers stop nuclear weapons testing, the onrushing nuclear technology will overwhelm the significance of any limitation or reduction of nuclear weapons.

Why is testing so crucial to the advance of the nuclear arms race? Because research to make nuclear weapons more devastating cannot advance without testing. The testing is crucial.

Representative ASPIN, the House leadership that so effectively supported him, the 200 Democrats, and the 34 Republicans who voted with him, deserve the thanks of our country, and indeed of all mankind.

Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

□ 1000

Mr. BOREN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SIMPSON). Without objection, it is so ordered.

## ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. There will now be a period for the transaction of routine morning business.

## THE TELECOMMUNICATIONS POLICY ACT OF 1986

Mr. DOLE. Mr. President, I ask unanimous consent that the following Senators be added as cosponsors of S. 2565, the Telecommunications Policy Act of 1986: Mr. COCHRAN, Mr. CRANSTON, Mr. HECHT, Mr. HELMS, Mr. ROTH, Mr. RUDMAN, and Mr. WEICKER.

Mr. President, I would like to inquire about the attitude of the distinguished chairman of the Commerce Committee toward this bill which I introduced in June. It is my understanding that he shares my concerns about the process by which Federal telecommunications policy is currently being made.

Mr. DANFORTH. Mr. President, the distinguished majority leader is correct. Many in Congress, myself included, have questioned the conditions under which the restrictions should remain in place and have expressed concern with the Federal judiciary deciding matters of broad telecommunications policy.

On May 27, 1986, I indicated that I was considering introducing legislation that would modify these restrictions or change the forum in which modifications to the MFJ are made. In order to have the benefit of a wide range of viewpoints before beginning to draft a bill, I asked interested parties to comment on a series of questions relating to the need for such legislation, and the form that such legislation should take. In order to expedite the process, I asked that all comments be submitted by July 3.

On June 18, the distinguished majority leader significantly advanced this process by introducing S. 2565. Senator DOLE's bill not only was carefully drafted, it enjoyed the administration's support upon introducton. I asked the parties that were responding to my call for comments to expand their filings to include a discussion of S. 2565. Although there were only 2 weeks remaining in the comment period, many parties responded to this request. As a result, I believe that the Commerce Committee now has a good record upon which to base further action.

Mr. DOLE. Mr. President, am I correct in my understanding that a broad range of interests submitted comments in the committee's proceeding, and that the chairman has now had an opportunity to review those comments?

Mr. DANFORTH. Almost 60 parties submitted comments in the proceeding. A wide range of views were represented. My staff and I have had the opportunity to review the comments, and the conclusion I have reached is that a change of forum, as advocated by Senator DOLE, is both necessary and appropriate. It makes no sense to have issues involving matters of broad telecommunications policy decided by the judiciary or by a department whose sole responsibility in this matter should be antitrust enforcement. As a matter of both practicality and jurisdiction, questions regarding universal and affordable service, ratepayer protection, international trade, availability of new services, and other public interest concerns should be addressed by agencies of expertise.

However, the comments the committee has received indicate to me that certain modifications to S. 2565 are in order to insure that the congressional concerns about protecting ratepayers, enhancing competition, and promoting international trade are addressed.

My staff is drafting language to insure that the present Commission, or a future Commission, will have no doubt about congressional intent in this area. It is important that S. 2565 insures that on matters of telecommunications policy, trade policy, and antitrust policy, the FCC consults with the executive branch agencies of expertise, and guarantees that the congressional goal of maintaining universal, affordable, and up-to-date telephone service for all customers is met.

In addition, the newspaper publishers have expressed some concerns to me, and I believe that their concerns merit attention.

Mr. DOLE. When I introduced S. 2565, I noted that there were questions that remained to be resolved. It is the function of the committee process to perfect legislation, and I thank the chairman for his work on this issue. However, I do think that the fundamental thrust of the legislation is sound, and I hope that the committee holds to the concept of transferring jurisdiction over telecommunications policy from where it doesn't belong to where it does belong.

I have been stressing to colleagues that it is not inconsistent for them to cosponsor S. 2565, and then support the chairman's amendments in committee. Would the chairman agree with this assessment that the principal thrust of the bill and his amendments will not necessarily be mutually exclusive?

Mr. DANFORTH. It is my intention to move S. 2565 through the Commerce Committee. The majority leader and I are in agreement that the Federal judiciary should not be deciding matters of broad telecommunications policy. These decisions belong to Congress and the President. Although I cannot, at this time, precisely define the parameters of the amendments I will offer, I can assure the majority leader that they will not conflict with the basic concept that the FCC is a more appropriate forum than the Federal district court for making administrative decisions regarding removal or waiver of MFJ restrictions. Therefore, Mr. President, to those Senators who believe the FCC is the appropriate forum for the resolution of issues under the MFJ, I would say that I see no conflict in cosponsoring S. 2565 and then supporting my amendments in committee.

Mr. DOLE. One final question, Mr. President. What is the chairman's timeframe for action on S. 2565?

Mr. DANFORTH. The Commerce Committee staff is in the process of drafting. It is my desire to complete this drafting expeditiously, distribute the fruits of these labors to interested parties, and hold a formal committee hearing on S. 2565 and my amendments immediately upon our return from the August recess. This would leave sufficient time on the calendar for committee action and floor consideration before adjournment. I know that it is the majority leader's hope to pass a bill this year. I share that goal.

Mr. DOLE. I thank the distinguished chairman. It is no secret that there will be a number of items competing for time on the Senate's schedule in September. As always, those items which will not require extended debate will be given priority, so I would just like to offer any help I may be able to provide in moving this bill into the posture of "not requiring extended debate."

Mr. DANFORTH. The distinguished majority leader is famous for his ability to forge consensus. I appreciate his offer of assistance.

## CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Is there further morning business? If not, morning business is closed.

## CENTRAL INTERSTATE LOW-LEVEL RADIOACTIVE WASTE COMPACT

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to the consideration of S. 655, which the clerk will report.

The legislative clerk read as follows:

A bill (S. 655) granting the consent of Congress to the Central Interstate Low-Level Radioactive Waste Compact.

The Senate resumed consideration of the bill.

AMENDMENT NO. 1168

(Purpose: To amend the Federal Election Campaign Act of 1971 to change certain contribution limits for congressional elections and to amend the Communications Act of 1934 regarding the broadcasting of certain material regarding candidates for Federal elective office, and for other purposes)

The PRESIDING OFFICER. The question pending before the Senate is the amendment of the Senator from Oklahoma.

Mr. BOREN. Mr. President, I thank the Chair, and I welcome the opportunity to return to the subject that was discussed on the Senate floor last year. At that time, as my colleagues will

recall, there was a campaign reform proposal pending which would limit the amount of money which PAC's, political action committees, can contribute to congressional campaigns. An effort was made to table that amendment at that time. The tabling motion failed on a vote of 84 to 7. So this amendment now recurs for our consideration.

Mr. President, I can think of no more important subject to the Members of this body and indeed for consideration by the national agenda than the need to reform the way in which campaigns are financed in this country. We send observers to other countries where we have strong interests and alliances to make sure that the election process in those countries is carried out in a fair and impartial basis.

I have had the privilege at the request of the President, for example, to go to El Salvador to watch the election process there, to observe it, and report back to our colleagues on the fairness of that process. Recently I had an opportunity to be a part of the process of observing the elections in the Philippines.

Mr. President, it is appropriate that we show this kind of concern for elections in other countries. It is appropriate that we try to make certain that the people in other parts of the world have an opportunity to express themselves in fair and open elections.

But how much more important is it, Mr. President, that we turn our attention to the integrity of the election process here in our own country.

What is going on and what has gone on in this country over the past decade threatens the very integrity of that process.

As Archibald Cox has said, we are engaged in a struggle to determine whether or not we shall keep government of the people, for the people, and by the people or whether we shall have that government replaced by a government of the special interests, for the special interests, and by the special interests.

I do not think that any of our colleagues would say that what has happened in the financing of elections in the United States over the past several years has been good for the country or good for the political process.

We do not have a fair impartial election process. The whole cornerstone of this democracy is endangered.

And it is time for all of us to turn our attention to what we know is a mounting problem.

First, we are faced with a tidal wave of money pouring into the election process and influencing the election process. We run the risks that instead of elections being decided by the people themselves at the local level on the basis of the integrity and the policy positions taken by candidates, that elections more and more will be decided on the basis of which candidate has the funds to buy the access time necessary to get his or her message across to the people.

We must not allow the highest policymaking positions of this Government which should belong to the people themselves to be placed on the auction block and determined primarily by the impact on money available for the campaigns instead of the merits of the candidates and the issues of the election process.

What has happened? The facts are all too clear for all of us to see. In 1976 the average winning candidate for the U.S. Senate spent $600,000 on his or her campaign. In 1976, Mr. President, $600,000.

In 1984 in the last elections the average winning candidate for the U.S. Senate, the average, spent $2.9 million.

So in just 8 short years the cost of running a successful campaign to be elected to the U.S. Senate has gone from $600,000 to $2.9 million, in some cases well over $10 million in some individual elections.

Where is it going to end, Mr. President? Can anyone in this body say that this tidal wave of money pouring into congressional campaigns has been good for the country? Can anyone say that it has enhanced the ability of the average citizen at the local level to have an impact on the campaigns where the campaigns are supposed to be decided? Can anyone, Mr. President, say that it has helped the Senate of the United States as a deliberative body? Has it helped us that campaigns now cost an average of $2.9 million, requiring the time and attention of the Members of the Senate constantly to the money-raising process instead of being able to spend their time on the pressing issue of the day that determine the well-being of the next generation of Americans?

□ 1010

It is a shame and a disgrace, Mr. President, that we have allowed this situation to go on so long. How much longer will we let it happen? How long will we wait, Mr. President? How long will we close our eyes to this growing avalanche of money that threatens the integrity of the political process. Will we wait until the average Senate campaign costs $5 million or $20 million or $50 million?

It is obvious the problem is not taking care of itself. It is obvious that this spiral is now slowing down. Like the arms race, it is increasing every single day that we wait to act.

Mr. President, some of my colleagues say:

> Well, that is a serious problem, I understand it. We really ought to do something about it some day. Let us just wait until after the next election before we grapple with this problem.

Mr. President, there will always be another election. We are always within 2 years of an election. And if we continue to wait until after the next election and after the election after that, we will never come to grips with this problem until it is too late, until it will already have destroyed the confidence of the people themselves in the integrity of the political process.

Already millions of Americans do not even go to the polls and vote. And I am convinced that part of the reason is that they are not convinced that their own individual votes, their own individual ideas, any longer have any impact and influence on the Government, where money is having an undue influence in the outcome of campaigns.

Mr. President, it is not only the amount of money that should concern all of us that is going into campaigns, it is also where that money is coming from. The money is no longer coming from small, individual donations from citizens at the grassroots in the way in which the political process ought to work in this Government of the people and for the people and by the people. That is where the money should be coming from to finance campaigns; from that average citizen back home in the State or district that the Congressman or Senator is sworn to represent in the national interests.

What has happened? Over the past decade, the proportion of funds coming for campaigns from that individual contributor back home at the grassroots has been cut in half. Where, then, is all this money coming from, as the cost of campaigns has been skyrocketing?

Mr. President, it is coming from special interest groups, largely headquartered in the Nation's Capital. During that same period of time in which the costs of campaigns have been going out of sight, the amount of money given by political action committees, PAC's, special interest groups, has increased in just one decade—in 1974, from $12 million being given to congressional candidates and in 1984 that figure was $104 million.

Can anyone be naive enough to believe, Mr. President, that you can pump in $104 million of special interest money into the political process and not have that money spent in campaigns? Is there anyone naive enough to believe that there is not an indirect relationship between the skyrocketing costs of campaigns and the tens of millions of new money being pumped into campaign financing by special interest groups?

And what about the people back home? What is happening to the grassroots control of the election process itself?

Mr. President, in 1982, 98 Members were elected to Congress, the House

and Senate, by receiving more than 50 percent of all of their campaign contributions from political action committees instead of from the people back home. That was in 1982. In 1984, just 2 years later, the 163 Members elected to the House and Senate, virtually one-third of the membership of the Congress of the United States, had more than 50 percent of their campaign contributions come not from the people back home, not from the individuals at the grassroots, but from political action committees largely controlled here in Washington, DC.

What is going to happen to the concept of grassroots democracy if we allow this trend to continue?

Mr. President, I was in a group the other day and someone honestly came up to me and said:

Well, Senator, don't you think it is a good thing that all the money now is being raised here in Washington, half a million or more sometimes in a single night, because now Members of Congress do not have to inconvenience the people back home in their own Districts and in their own States by having to ask them to support their campaigns and contribute financially to their campaigns any more?

Well, Mr. President, I answered that comment by simply saying:

Thank God that the Constitution of the United States requires that the people back home have to vote in elections. Otherwise, I suppose those same special interests would rather just not inconvenience the people by having them involved in the election process anymore. It can all be decided here in Washington, DC. In addition to the tens of millions of dollars raised here to finance political campaigns and to determine which candidates will have access to the voters, just cast all the ballots here as well and we would not have to worry about grassroots input at all.

So, Mr. President, the tidal wave of money; that is a concern. It is a concern of what it is doing to this process, where that money is coming from, from special interest groups instead of people back home. That is a concern about the process; what it is doing in terms of foreclosing opportunity for new people to enter this process.

It is not surprising that it has been difficult to get the Congress of the United States to put this matter on the agenda; not surprising at all. It was reported just this week in the Washington Post that those who will be voting on this particular proposal have received $87 million in political contributions since those committees began to be active in 1972. It is an incumbent protection plan, the current system. Eighty percent of all the money contributed by political action committees—80 percent of it, Mr. President—goes to incumbents rather than to challengers.

And so that new person back home that wants to have an opportunity to bring their thoughts, their creative ideas, into the political process is discouraged from running for office. They might be able to raise money back home at the grassroots. They might be able to have support of the people. But what happens when they are overwhelmed with the out-of-State PAC contributions, the millions of dollars, 80 percent of which go to incumbents? It is distorting the political process, Mr. President, because it is also discouraging others, new people, from becoming involved in the political process.

In addition, Mr. President, the current system is fragmenting this country and fragmenting this Congress at a time in which we need to be building a consensus to deal with problems like the budget deficit and the trade deficit and when we need to be bringing people together to sacrifice as Americans, not as members of special interest fragmented groups, but as Americans, as one community to form a consensus to do something about the pressing problems of this country.

Can we be surprised, I would ask my colleagues, when we have difficulty forming a consensus to act in the national interest in this Congress, when our reelection campaigns are more and more and more being financed by the special interests instead of by all of the people?

People have asked me: "Senator, you take contributions from people back in your home State." I am proud of the fact that over 90 percent of my contributors come from my home State. That is where they should come from.

They say: "But how is it different? Obviously, every single individual that gives to you has to earn a living in some way."

In my State, some are in the oil business—fewer than used to be as we all know with the current economic conditions—some are in agriculture, they are farmers and ranchers; they are in small businesses; some are in real estate, and other occupations.

They say:

How is it different? You get a contribution from a farmer or from an oil man or from a realtor or from a union member, how is that different from receiving money from the PAC of the oil company or the political action committee of the agriculture group? How is it different?

It is essentially different, Mr. President, because of this: That individual citizen can look at my whole record and the whole record of all of my colleagues in the Senate. They can say: "You know, I am a farmer, but that Senator may only vote only half the time on issues that affect farmers, and I like what he or she does on national defense," or "I like the fact that they are honest and they bring an overall independence, which is protective to Government."

They can view the whole record, in other words, of the Member of the Senate.

Is that true of a political action committee? No. The political action committee has to take those two or three votes in a year's time, those two or three votes on that special economic issue, and see how the Senator voted on them, and then decide, "We will support candidates that have a 75 percent rating or more on that little issue of the special interest groups."

In other words, it becomes a mechanism for encouraging single-issue and single-interest politics in this country, further fragmenting us, further causing us to think of ourselves in our own self-centered identities with our own economic self-interests instead of thinking of ourselves as Americans seeking a consensus as to what is right in the national interest.

So, Mr. President, we badly need to change this system—this system is causing the money to flow in without limit, this system that is causing the people at the grassroots to have less and less say in electing their own officials to the public office, the system that is discouraging new people with new ideas from entering the political process, and this system that has continued to fragment us at a time in which we need to build a national consensus.

I know there are those who raise the phony argument that it is a fine thing that people are contributing to PAC's now, and that in fact it is causing more people to be involved in the political process. We have a brief study done by Professor Sorauf at the University of Minnesota—and I will be later inserting some comments from his study in the RECORD—in which he found the average person that donates to a political action committee is much less likely to read the newspaper, to watch broadcast reports of what is going on, and have a much lower familiarity with the issues and with the candidate than those who contribute individually. I can understand why, Mr. President, if you really care about something you are not going to delegate out your participation in the process to someone else. We would not delegate out our right to vote to some committee just because we have to, to realtors, bankers, oil men, or union members. We would not let some boss, or some small committee cast our vote for us in the election.

Mr. President, we should not let them cast our dollars in elections, either, in a way that will have the kind of impact on the ultimate result.

So we have before us a proposal that has won bipartisan support, wide support from a whole cross-section of the Members of the U.S. Senate, who are concerned about what is happening to this country, who are concerned about what is happening to this institution as Members more and more must devote their time to raising money for

campaigns instead of solving the real problems of the country.

I want to mention to my colleagues, those who join in cosponsoring this amendment, and the number continues to grow: The distinguished senior Senator from Arizona, Senator GOLDWATER, is the principal cosponsor. He understands from his long service here the threat to the institution; another one of the original cosponsors, the distinguished Senator from Mississippi, Senator STENNIS, who has served in this body longer than any other Senator now serving, a man of absolute integrity, who is concerned about what we are passing on to the next generation, the distortion of this system, the integrity of the election process itself if we do not take action; the distinguished minority leader, Senator BYRD, who is here on the floor this morning, who knows from his long service and his leadership responsibilities what has happened to the Senate of the United States; Senator HART, Senator KASSEBAUM, Senator LEVIN, Senator RUDMAN, Senator DECONCINI, Senator CHILES, Senator BINGAMAN, Senator BIDEN, Senator LEAHY, Senator ROCKEFELLER, Senator PROXMIRE, Senator MOYNIHAN—I believe I also mentioned Senator RUDMAN—who have joined together in a bipartisan effort to present this proposal to the Senate.

I will just take one moment before yielding time to my colleagues, and I see the distinguished Senator from Minnesota here who undoubtedly would like to also make some opening comments to mention again, and place into the RECORD a brief description of the provisions of this bill. It limits the amount that a House candidate can accept from a political action committee to $100,000, $125,000 if there is a runoff, and $150,000 if there are three contested elections. It limits what Senate candidates can receive to $35,000, and under a congressional district in the State, with an overall cap of any State of a maximum of $750,000. It reduces the amount that PAC's can give to candidates or that candidates can receive from $5,000 to $3,000. It also closes the loophole under which now PAC's can bundle together contributions. Once they have given their $5,000 they can give under law, they can go out, solicit so-called individual contributions which they raise, bundle up, and pass on to the candidate so that the PAC gets the credit for the contribution, and in this manner they get around the limits.

Once they have given the $5,000 they can go out and in one case it is estimated they raised $125,000 from individuals. They then took that $125,000, and in the name of the PAC gave it to a candidate for the Congress of the United States.

So the bundling which is going on because of misconstruction of the law by the Federal Election Commission must be stopped. Otherwise even the current PAC limits are totally meaningless.

It also provides that PAC's, so-called independent PAC's, when they make broadcasts on advertising they must carry disclaimers to show that these ads are not being carried on the air subject to any campaign spending limits.

It also tightens up the definition of what is an independent expenditure. We all know that there are independent groups—groups claiming they are independent. They go out, do the dirty work for a candidate, make the savage, negative attacks on candidates, and then claim that they are totally independent of the other candidate in the race. We know very often that is only a veil, only a cloak for collusion between the so-called independent groups and the candidates.

So we provide, if they have the same media consultant, if they have been consulting with one another, sharing advice, that they can no longer pretend to be independent committees.

We also provide that if a candidate is attacked, if a candidate is attacked by these so-called independent groups on stations that have voluntarily accepted advertising, they must make free, equal time available to respond to the candidate who has been the subject of the attack by those who have bought the time.

So, Mr. President, we have an opportunity. We can stand aside as we have been doing before and say let us wait until after the next election before we do anything about it. Let us wait until the problem is more serious. Let us wait until, instead of having one-third of all the Members of Congress receive half or more of all their campaign contributions from PAC's and interest groups in Washington instead of the people back home. Let us wait until the whole Congress is in that situation and let us wait until they have 90 percent of their money. We are always within 2 years of an election.

Mr. President, for the sake of this country, for the sake of the integrity of the political process, for the sake of the confidence of the American citizens in their own Government, for the sake of restoring their belief that their own vote back at the local level expressing their own views and opinions about the election process can make a difference, it is time for us to act. It is time for us to stop waiting until after the next election, to root out a cancer, a malignancy that is eating at the heart of the political process and the democratic process itself.

Mr. President, I reserve the balance of my time.

The PRESIDING OFFICER. Who yields time?

Mr. BINGAMAN. Mr. President, may I be yielded 6 minutes?

Mr. BOREN. Mr. President, I am happy to yield 6 minutes to my distinguished cosponsor, Senator BINGAMAN, of New Mexico.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I rise to commend the Senator from Oklahoma for his leadership on this very important issue. As he says, this is an issue that goes to the heart of all the deliberations we are engaged in here in the Congress. It underlies our action or inaction on every issue. It goes to the very heart of our democratic system, and I think it is crucial that it be addressed. Without not only his leadership on the issue but his persistence, I am persuaded that this is a subject which would not be before the Senate today; and, if it were not for the dogged determination that the Senator from Oklahoma has demonstrated in continuing to urge this on the leadership and bring this to the Senate's attention today.

In my opinion, Mr. President, the issue is vital because of the alarming increase in the influence that PAC's are having on our campaign process. We have a saying in this town which has become prevalent in recent years, that if it is not broke, do not fix it. The corollary to that should be if it is broke, do fix it. And this is clearly something that is broke. This is a problem that needs attention. As the Senator from Oklahoma said, this is a problem which should be fixed now instead of it being put off beyond this election, beyond the next election, and essentially indefinitely.

□ 1030

PAC contributions have an influence over the issues that get the attention and get the time of the Congress. PAC contributions have an influence over the actions that are taken in the Congress on specific issues.

There are two interconnected problems here, both of which were very ably discussed by the Senator from Oklahoma.

The first is the enormous cost of campaigns with all the disadvantages which go with those costs, with that increase in cost; and, second, the disproportionate amount of that cost being borne by special interest groups.

First, let me mention just a few things about the enormous cost. The facts are clear and I will not repeat those. We have seen a dramatic increase from 1976 until the last election in the amount that it takes to run a Senate campaign. The consequences that flow from that increased cost are also clear. Many who would seek public office are discouraged from doing so because of these enormous costs.

It is clear that Liz Holtzman, a former Congresswoman, considered a

race for the Senate this year and I thought made a very telling statement when she announced that she would not seek election to the Senate. Her statement was she had determined that if she sought election, she would spend all her time raising money and none of her time raising issues. I think that is an accurate assessment of what she was up against.

Officeholders who wish to remain in office are required to commit substantial amounts of their time and effort to fundraising on almost a year-round basis because of this enormous additional cost. It is time taken away from their other duties in this body; their other duties to their constituents.

Let me say a few words about the disproportionate amount of the cost now being borne by PAC's.

With few exceptions PAC's are established and continued in order to pursue very specific and narrow interests. These may be valid interests. I do not suggest that they are not. They may be meritorious interests and the position that the PAC takes may be the correct position on the issue. But it is clear that PAC's are not established to promote the general welfare of the economy. They are established to promote specific interests.

Again, with few exceptions, PAC's represent those with wealth and, as such, they generally have a bias toward maintaining the status quo.

One aspect of maintaining the status quo is maintaining those encompassed in office who are already there.

One simple example of that were the PAC contributions to the last Presidential race, Mr. President. In the 1984 Presidential race, PAC's spent $15.8 million in support of the incumbent and $803 million in support of the challenger. I think that nearly 20 to 1 disparity in spending is one example of the kind of bias toward the incumbent which clearly exists in the system we have.

A major reason that it is going to be difficult to pass this legislation is because of the tremendous benefit that incumbents receive from PAC contributions.

Mr. President, the ultimate solution to this problem probably involves some type of public financing of congressional campaigns, similar to the public financing we have for Presidential campaigns. But in the interim, Mr. President, I am persuaded that we need to take some action to begin to deal with the problem, and S. 1806, which is Senator BOREN's bill, the Boren-Goldwater amendment now before us, is clearly a step in the right direction.

Again, I commend the Senator from Oklahoma for his leadership in bringing this issue before the Congress. I am proud to be a cosponsor of the legislation and I urge my colleagues to support this amendment. I yield the floor.

Mr. BOREN. Mr. President, an editorial appeared in the New York Times this morning which I think puts the case very well. It said this bill would work important change.

Had it been in effect in 1984, calculates Common Cause, the public affairs lobby, PAC contributions to Senate candidates would have been cut in half.

Then they conclude:

A half-empty swamp is healthier than one that's overflowing. The public will soon find out which Senators want higher ground and which ones like the muck, slosh, and smell.

I ask unanimous consent that this editorial from the New York Times, which I have placed on all desks, appear in the RECORD in full at this point.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

[From the New York Times, Aug. 11, 1986]

THE MONEY CURVE FOR CONGRESS

Exponential growth is Washington, D.C.'s middle name. In two generations, the Federal Government has gone from worrying about millions to billions to trillions. In five years, the national debt has doubled. There's similarly steep growth evident in the money curve for Congress. Campaign contributions are flooding out of the PAC's, the political action committees that have sprung up on behalf of every imaginable special interest.

Does Congress care? A bipartisan bill sponsored by Senator David Boren, Oklahoma Democrat, and others offers an opportunity to control that soaring curve, with a Senate vote possible as soon as tomorrow. Its provisions are so reasonable and clear that senators of both parties should be embarrassed to duck and eager to vote yes.

Even in a sluggish economy, political influence is a growth industry.

Consider the curve line for the total number of PAC's. In 1975, there were 600. Now there are 4,100, an amazing array of interests. A supermarket chain is represented by the Piggly Wiggly Southern Good Government Committee. A beer distributors' group employs what is informally called the Six-PAC. The Michigan blueberry growers have a PAC. So does the American Horse Council.

Consider the curve line for the amounts the PAC's shovel into campaigns. At this point in the 1978 campaign, they had given $11 million. As of June 30, the 1985–86 total was $66 million.

Consider the weight of all those PAC dollars. In 1978, they comprised 12 percent of total campaign contributions. So far in this campaign, they account for 24 percent.

At present, each PAC can give each member $5,000 for each primary and general election. Frequently there are overlaps. Several PAC's interested in the same outcome can each give $5,000 to a candidate. There's no limit to the total amount of PAC money any one candidate can collect.

Senator Boren's bill would reduce the amount of the individual PAC contribution from $5,000 to $3,000. And it would limit the total amount a member could receive from the PAC's. House candidates could get only $100,000. The limit for Senate candidates would depend on state population. In view of the PAC's muscle, these proposals seem modest. The only sure reform is to wean politicians from private campaign money completely—with public money. One day, Congress will recognize that need, just as the country has already accepted public funding for Presidential campaigns.

Meanwhile, the Boren bill would work important change. Had it been in effect in 1984, calculates Common Cause, the public affairs lobby, PAC contributions to Senate candidates would have been cut in half. A half-empty swamp is healthier than one that's overflowing. The public will soon find out which senators want higher ground and which ones like the muck, slosh, and smell.

Mr. BOREN. Mr. President, I also ask unanimous consent to have printed in the RECORD at this point an excellent editorial from the Boston Sunday Globe, which makes the very same point, that we should make the change, that we should help Congress pay more attention, as the Globe says, to the larger message of the public good. It says the Senate should pass this amendment without delay and without crippling amendments. I ask unanimous consent that the editorial be printed in the RECORD at this point.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

[From the Boston (MA) Globe, Aug. 10, 1986]

CUTTING PACS

When lobbyists of ideologies and interests converge to battle a bill in Congress, the measure is probably one of outstanding merit. A measure that would change the financing of political campaigns, however, can also be killed by odd bedfellows.

The US Senate is scheduled to vote on the Boren-Goldwater amendment to campaign-finance legislation, a first step in freeing congressional politics from the hammerlock of political action committees.

Neither cosponsor is a zealot. Sen. David L. Boren (D-Okla.) found out that PACs screened him from his constituents and made him too attentive to lobbyists representing anonymous contributors.

Sen. Barry Goldwater (R-Ariz.), ending a long and distinguished career, is the ideological opposite of another congressional retiree, Speaker O'Neill. Yet, they agree on one profound fact. As O'Neill says, "The PACs are destroying this government. Too many guys have big money and no opponent."

The amendment would limit to $100,000 the amount each House candidate can receive from all PACs. Similar restrictions would be placed on Senate candidates, and the limit of each PAC contribution would be lowered from $5,000 to $3,000.

To the average citizen, these sums seem reasonable. They are. To the average lobbyist, the limits are an outrage. "If it ain't broke, don't fix it," says Charles Walker, a former Treasury official and now a leading lobbyist. "The presence of so many PACs," he says, "helps assure wide dispersal of financial power in the electoral process."

Walker's business clients are not the only ones enjoying the PAC status quo. In 1984, labor unions like the National Education Association and the United Auto Workers contributed almost as heavily as the National Association of Realtors and the American Medical Association.

PACs amplify the message of every special interest. The Boren-Goldwater amendment would help Congress pay more attention to the larger message of the public good. The Senate should pass it without delay and without crippling amendments.

Mr. BOREN. Let me also say, Mr. President, that over 150 newspapers across the country in 33 States have endorsed this proposal. I ask unanimous consent to insert into the RECORD at this point a list of those major newspapers across the country that have endorsed the proposal.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

Mr. BOREN. Finally, I see the distinguished minority leader, the distinguished Democratic leader, the Senator from West Virginia, is now on the floor.

Mr. President, last month, a compelling column on the subject of limiting PAC contributions was printed in the Charleston Gazette of West Virginia. The author was the distinguished minority leader, Senator BYRD, who is a cosponsor of this amendment.

In the Op/Ed piece, Senator BYRD states:

The PAC system tends to give special interests a disproportionate amount of influence in the decisionmaking process. Therefore it is with good reason that the focal point of growing public concern is on the floodtide of PAC contributions.

Mr. President, in our effort to take this first-step approach in reforming the congressional election system, we

must put the reins on the greatest growing concern—the millions of special interest dollars that influence the action and inaction in the Congress.

I ask unanimous consent that the article written by my distinguished colleague from West Virginia be printed in the RECORD followed by a column I wrote on the subject of campaign reform.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

PUTTING SOME LIMITS ON PAC'S

(By Robert C. Byrd)

Most of us have had some contact with the video games that were "the rage" across the country for several years. PAC-MAN was one of the most popular. The game could be won only if the player could control the movement of a screen figure in such a way as to keep it from being devoured by another figure—the PAC-MAN—with an apparently limitless appetite.

By coincidence, both the nature of this popular video game and its name are in many ways analogous to the circumstances in which our democratic system of government finds itself. The objectivity, independent judgment, and absolute allegiance to the well-being of our nation and the majority of its citizens—which our nation's founders demanded of their elected representatives—are being dangerously eroded by the influence of special interest money in the electoral process.

Spending for congressional campaigns is getting to be like the arms race. Each election year, candidates raise and spend greater and greater sums to get elected. And more and more of that money is coming from PAC's—or Political Action Committees—representing special interests.

It is time to call a halt to this spiraling explosion of ever-higher campaign cost and the receipt and use of PAC dollars by establishing a system of spending limits for congressional campaigns that is tied to a system of public financing. This would liberate candidates from having to go "hat in hand" to special interest groups to pay for their election races, and would prevent the voice of the average citizen from being drowned out by all of the special interest money.

Although many of the so-called special interests have goals which reflect the sentiments of most Americans, the PAC system tends to give special interests a disproportionate amount of influence in the decisionmaking process. Therefore, it is with good reason that the focal point of growing public concern is on the floodtide of PAC contributions.

Most PACs concentrate the influence of their particular special interests by collecting money from group members and making large contributions to candidates for office. Given the very high and increasing costs of running for public office in this age of television, many candidates conclude that they have no choice but to accept PAC contributions. Unfortunately, the effort it takes to raise sufficient campaign contributions to run an effective race for federal office saps a candidate's time and energy and interferes with official and family responsibilities.

This "money chase" has additional detrimental effects. Even for the most scrupulous elected officials, taking money for election campaigns and, certainly, actively asking for contributions for campaigns, can create some sense of obligation to the contributors. Respondents to polls indicate a belief that one of the principal purposes of PAC contributions is to secure access to the candidate once he arrives in Washington.

Our campaign financing laws and the orgy of mega-buck spending which they encourage unquestionably contribute directly to cynicism on the part of many citizens about the integrity of our government and its elected officials.

This is a problem which strikes at the vital underpinnings of our representative form of government. The problem must be addressed. We need to look at extending public financing of campaigns to congressional elections. Public financing is currently used in presidential elections and is the only sure way to minimize the "money chase" that so contorts the election process.

Meanwhile, stricter guidelines and lower limits must be imposed on contributions from PACs. On this front, I hope we will soon see definitive action. Sen. David Boren of Oklahoma and I are sponsoring legislation that places a population-based celling on the total amount of PAC contributions congressional candidates may accept and restricts the capability of PACs to exploit loopholes in the law and, thereby, elude even the current inadequate limitations on PAC contributions.

Ours is a government of representatives elected by the people—representatives who, in their official actions make judgments which, in their view, best serve the national interest and best reflect the wishes of the people who elect them. It doesn't always work as everyone would like.

We Americans continue to put our faith in that system. But, once that faith is undermined, America is in trouble. Our current system of campaign financing undermines that faith, and that is why it must be changed. It will not be easy to achieve the reforms that are badly needed.

It is an effort of such importance to our form of government that it must be faced. And it must be met successfully. That will occur only when the people across this nation demand it from their elected representatives. For the sake of all of us, I hope that occurs soon.

Mr. BOREN. Mr. President, I now take great pride in yielding to the distinguished Senator from West Virginia, the minority leader, such time as he may require.

Mr. BYRD. Mr. President, I thank the very distinguished senior Senator from Oklahoma for the leadership that he is showing on this very important, far-reaching matter—so vital to this institution and to our respresentative democracy. I thank him for allowing me to be a cosponsor of the legislation. I thank him for the courage that he has displayed in the statements that he has made and is making. I compliment him and thank him on the leadership that I know he will continue to provide as we continue our efforts to deal with this serious question.

Most of us have had some contact with the video games that were "the rage" across the country for several years. PAC-MAN was one of the most popular. The game could be won only if the player could control the movement of a screen figure in such a way as to keep it from being devoured by another figure—the PAC-MAN— with an apparently limitless appetite.

By coincidence, both the nature of this popular video game and its name are in many ways analogous to the circumstances in which our democratic system of government finds itself. The objectivity, independent judgment, and absolute allegiance to the well-being of our Nation and the majority of its citizens—which our Nation's founders demanded of their elected representatives—are being dangerously eroded by the influence of special interest money in the electoral process.

Spending for congressional campaigns is getting to be like the arms race.

I think the distinguished Senator from Oklahoma made the same allusion.

Each election year, candidates raise and spend greater and greater sums to get elected. And more and more of that money is coming from PAC's—or political action committees—representing special interests.

It is time to call a halt to this spiraling explosion of ever-higher campaign cost and the receipt and use of PAC dollars by establishing a system of spending limits for congressional campaigns that is tied to a system of public financing. This would liberate candidates from having to go "hat in hand" to special interest groups to pay for their election races, and would prevent the voice of the average citizen from being drowned out by all of the special interest money.

Although many of the so-called special interests have goals which reflect the sentiments of most Americans—I think that should be stated again, many of the so-called special interests have goals which do reflect the sentiments of most Americans—the PAC system tends to give special interests a disproportionate amount of influence in the decisionmaking process. Therefore, it is with good reason that the focal point of growing public concern is on the floodtide of PAC contributions.

Most PAC's concentrate the influence of their particular special interests by collecting money from group members and making large contributions to candidates for office. Given the very high and increasing costs of running for public office in this age of television, many candidates conclude that they have no choice but to accept PAC contributions.

Our campaign financing laws and the orgy of mega-buck spending which they encourage unquestionably contribute directly to cynicism on the part of many citizens about the integrity of our Government and its elected officials.

This is a problem which strikes at the vital underpinnings of our repre-

sentative form of goverment. The problem must be addressed. We need to look at extending public financing of campaigns to congressional elections. Public financing is currently used in Presidential elections and is the only sure way to minimize the "money chase" that so contorts the election process.

Meanwhile, stricter guidelines and lower limits must be imposed on contributions from PAC's. On this front, I hope we will soon see definitive action. Senator DAVID BOREN of Oklahoma and I are sponsoring legislation that places a population-based ceiling on the total amount of PAC contributions congressional candidates may accept and restricts the capability of PAC's to exploit loopholes in the law and, thereby, elude even the current inadequate limitations on PAC contributions.

Ours is a government of representatives elected by the people—representatives who, in their official actions make judgments which, in their view, best serve the national interest and best reflect the wishes of the people who elect them. It doesn't always work as everyone would like.

Mr. President, I must say that as one who has been in politics now for 40 years, as one who has been on this Hill for 34 years and in the Senate for 28 years, I am deeply concerned by what I see as a growing threat to our representative form of government and a growing threat to this institution. When my former colleague, Jennings Randolph, and I first ran for the U.S. Senate in 1958, we ran on a combined political funding war chest of less than $50,000. In 1982, when I ran for reelection to this body to serve my fifth term here as a Senator, I had to raise about $2 million. That is a lot of money as compared with the kind of money that is spent in some States with much bigger populations. But $2 million is a lot of money to have to raise in a race for reelection from a State of less than 2 million people—the State of West Virginia.

This kind of money cannot be raised in West Virginia. I suppose I probably raised—I am only speaking from memory now—but I think I raised about a quarter of a million dollars in West Virginia. This means that I had to raise seven times that amount outside West Virginia.

Mr. President, not all special interest groups are bad, by any means, and that is not what I am implying. I am sure that is not what the distinguished Senator from Oklahoma is saying. Many of these special interest groups do represent the beliefs of a majority of Americans on this issue or that issue or the other issue. But there is the appearance of evil here. Senators are having to go out and spend time when they ought to be here, voting; here, working in committees; here, looking after the mail from their constitutents; here, meeting with their constituents. Instead, they are forced to go out and spend hours and days and weekends traveling all over this country in order to raise money for their next campaign.

They are not violating the law in doing this. They are playing by the present rules. But the present law and the present rules are not conducive to the building of confidence of the people in the political process, confidence toward this institution, confidence toward those of us who are elected by the people to help to govern. This process is not conducive to the building of faith and trust on the part of the people toward their elected representatives.

It is just the opposite. It is destroying the faith and trust which are so important in a representative form of democracy. This is a major, major threat to our form of representative democracy and a major threat to this institution.

As a former majority leader and as the current minority leader, I know something about how Senators have to go out and spend their time in this grubby, demeaning task of trying to raise money for their reelection campaigns. They are forced to do it by necessity.

They are simply facing up to the realities of the era in which we live, the electronic age—computers, media consultants, expensive mailing lists, all of these things. And more and more, the time that they are taking away from their duties here is salvaging their responsibilities to their own families. But they have to do it. It is a case of survival. Self-survival is one of the first laws of nature and they are being forced to engage in this unceasing, ever-increasing demand for money, money, money—the money chase.

I am concerned that if something is not done about it, we are going to see things go from bad to worse, and the faith and confidence and trust that the people should accord to this institution, the legislative branch, are going to be undermined, eroded, and that will result in lasting injury to this institution that we all love.

I compliment the distinguished Senator. Something has to be done about this matter, and I hope that action will be taken soon. We Americans continue to put our faith in this system that has proved to be the best system in the world. It has all of its faults but nobody has ever been able to come up with another one that is as good. Once this faith of the people is undermined, America is in trouble. Our current system of campaign financing undermines that faith and that is why it must be changed. It will not be easy to achieve the reforms that are badly needed. This is not a condemnation of PAC's per se. It is not a condemnation of the people who work with PAC's and who work for PAC's. It is a condemnation of a process that is growing and that is a sinister process, sinister because of the time that it takes Senators to raise money, sinister because of the appearance of evil that it can carry, sinister because it ultimately will prove to be evil, and sinister because it is going to force a change in the makeup of the legislature, to the point where only those individuals who are filthy rich and able to spend money hand over fist can win campaigns of election to this body.

Not all of us are able to do that. Not very many of us are that fortunate. That is no criticism of people who have wealth. I wish I were able to be as well off. But we are talking about the institution now, and we are talking about this institution's place in the overall constitutional universe of government.

It is an effort of such importance to our form of government that it must be faced. And it must be met successfully. That will occur only when the people across this Nation demand it from their elected representatives. For the sake of all of us, I hope that that will occur soon.

Mr. President, Oscar Wilde said:

Yet each man kills the thing he loves,
By each let this be heard,
Some do it with a bitter look,
Some with a flattering word.
The coward does it with a kiss,
The brave man with a sword!

I say that Oscar Wilde could have very well added another element: Each man kills the thing he loves. We love this Senate. And money, money, the use of money, even in ways that are legal, as provided by the current laws, the forcing upon Members of this Senate as well as challengers and Members of the other body to expend the energy and time to go all over this country to do the grubby, demeaning, enervating work to raise money for campaigns, is going to kill this institution—and by "this institution" I mean the other body as well—and more deeply than that, the form of representative democracy for which other Americans have bled and died and given their all.

Yet each man kills the thing he loves,
By each let this be heard,
Some do it with a bitter look,
Some with a flattering word.
The coward does it with a kiss,
The brave man with a sword!

Money, money, too, can kill the thing we love.

□ 1050

Mr. BOSCHWITZ. Mr. President, will the minority leader yield for a question?

Mr. BYRD. Yes.

Mr. BOSCHWITZ. I heard my friend, the minority leader, speak about the fact that he raised $2 mil-

lion for his last campaign, 85 percent or more of which came from outside of his own State. He then spoke about the fact that he and his colleague, Jennings Randolph, in their first pass in 1958 raised only $50,000—between the two Senators, I gathered from the minority leader's comments. However, the Senator spoke a little later about the fact that this could become a club that was dominated by people who were extraordinarily wealthy, as is the Senator's present colleague, who spent more money really on his election than perhaps anybody else because he had no fundraising costs.

I might say to my friend, the minority leader, that I attempted to expand the amendment of my friend from Oklahoma including certain provisions that would ameliorate the advantages of a person with great individual wealth, and that that effort to broaden the amendment the Senator from Oklahoma is offering today was rejected by him. It would be my hope in view of the minority leader's words that when such an amendment is offered he would join with me and others in that effort. Of course, I understand that he will have to see the essence of it and how it is framed, and so forth. But I quite agree that limiting the amounts which can be raised or collected, will indeed, give an advantage to people who have expansive personal wealth, and it is unfortunate we are not able to deal with that simultaneously. One of my objections or criticisms to my friend from Oklahoma is that his amendment is too narrow.

Mr. BYRD. Mr. President, will the Senator yield?

Mr. BOSCHWITZ. I do not have the floor, Mr. President. I believe the Senator does.

Mr. BYRD. I am sorry. Mr. President, I regret that the distinguished Senator has made reference to a particular instance in which a colleague spent considerable amounts of money to be elected to this body. I regret that the distinguished Senator made that reference. I think it should be stated that many Members on both sides of the aisle have over the years been able to spend vast sums of money out of their own wealth, and I do not mean to cast any reflection on any of them. There are some Members of this body right now, I would imagine, on both sides of the aisle who have been financially able to do that and have done it. The present laws allow it. I did not mean by what I said to cast any aspirations on any particular Senator who is able to spend out of his own wealth the moneys used in a campaign.

The thrust of my remarks was directed toward the present laws, which allow practices which are growing and which are becoming more intensified—and will become more and more and more incumbent upon Members who are running for reelection and individuals who are challengers—to continue to have their hands out to PAC's representing special interest groups in order to get money to wage effective and, in their view, successful campaigns.

Mr. BOREN and Mr. BOSCHWITZ addressed the Chair.

The PRESIDING OFFICER. The Senator from Minnesota.

□ 1100

Mr. BOSCHWITZ. Mr. President, I say to my friend the minority leader that I am not casting aspersions on anybody, on any Senator, on either side of the aisle. That is not the purpose.

He brought up the fact that some Senators were able to spend a great deal of their personal funds. I, too, find that to be objectionable. There are certainly many on the floor who could be mentioned, not by way of aspersion or otherwise, but I only mentioned it by way of wanting to broaden the scope of the amendment of the distinguished Senator from Oklahoma so that we could have real reform, not just pick one area or another.

I will talk about the PAC's in just a few moments, when I make my opening statement.

I believe the Senator from Mississippi wishes to speak.

Mr. BYRD. Mr. President, it is up to the Chair to recognize Senators, and I am sure the Chair will do that, under the rule.

The PRESIDENT pro tempore. Who yields time?

Mr. BOREN. I yield to the Senator from West Virginia.

Mr. BYRD. Mr. President, as to the public financing of campaigns, reference has been made by Mr. BOSCHWITZ. I have my own ideas on that. I support public financing in congressional campaigns. I do not know what his proposal does. In due time, I will probably have my own, or I will join with others.

I am simply saying that I regret that personal reference has been made to a certain Senator. That Senator is not on the floor to speak for himself. I have always made it a practice in this body, if I had anything to say about a Senator or to a Senator, to wait until that Senator is on the floor, or to send for him to come to the floor.

I am simply saying that many Senators and many challengers spend huge amounts of their own money. They are not going outside the law in doing that. The present law allows that. That was not the gravamen of my thesis today. I will go into it some other time, when I talk about public financing.

Here, we are talking about PAC's. I am simply bemoaning that one of the spilloffs of the present system is that most Senators are forced to raise increasing amounts of money under this system. Of course there are Senators who do not have to depend on PAC's. They have vast wealth, and they are able to resort to the spending of their own moneys. That is allowable. The reason why any Member has to spend these astronomical sums is because of the system. A Member is forced to buy TV time.

My last race for reelection was the first time in which I had to have media consultants, but everybody else has media consultants now. So I was forced to do that. It costs a lot of money to have media consultants. I do not have that kind of money, and not many others have.

We all want to be reelected—or most of us do. There are those who choose not to run again, and that is certainly their decision to make, as to whether they choose not to run again. But most of us who feel we have something yet to offer and are dedicated to the institution and who want to run again certainly find it harder and harder and more and more difficult to meet all these necessary costs that are concomitant to present-day campaigning. So we have to get consultants, and we have to buy TV time and have a host of other things. These are things which drive these costs sky high.

I again compliment my colleague from Oklahoma. I will continue to work with him in the effort to bring about enactment of this legislation.

Mr. BOREN. I thank the Senator from West Virginia. I appreciate very much the statements he has made.

Mr. President, I think it is not coincidental that this concern is shared by those who are senior Members of this body, who care about the institution, who have a historical perspective about this institution, including the Senator from West Virginia [Mr. BYRD], the Senator from Mississippi [Mr. STENNIS]—to whom I referred earlier and who has served here longer than any other Senator—Senator GOLDWATER, and others.

I say to my good friend from Minnesota that I hope we will hear from him today the exact proposal he intends to offer later. I hope we will have the opportunity to look at it.

I have said all along that my proposal will not solve every problem there is with campaign financing, but it is an important first step.

Let us not continue to wait. We are already up to the average cost of a Senate race being $2.9 million, a 500-percent increase in 8 years. How long are we going to wait? We already have one-third of the Members of Congress who have received half of their campaign contributions not from the people back home but from special interst groups principally controlled by lobbyists in Washington. How long are we going to wait? How long is enough?

How bad is this cancer going to have to get before we do something to cut it out of the body politic before it destroys the integrity of the election process?

Mr. President, last year, when this legislation was considered and voted on by the Senate, criticism was raised about the constitutionality of the aggregate limits on what candidates could accept from multicandidate political committees [PAC's].

I have a legal opinion drafted by a Washington law firm defending this charge by concluding that this provision of S. 1806 and amendment No. 1168 should survive any constitutional challenge.

Let me also remind my colleagues, Mr. President, that the basis for this provision of my legislation was taken from the House passed bill which established such aggregate PAC limits for House candidates. This legislation passed that body October 17, 1979—after which point a threatened Senate filibuster killed its chances for final action.

Mr. President, I ask unanimous consent to have printed in the RECORD a legal brief by the firm of Wilmer, Cutler & Pickering, of Washington.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MEMORANDUM ON THE CONSTITUTIONALITY OF A LIMITATION ON THE TOTAL AGGREGATE CONTRIBUTIONS A CANDIDATE MAY RECEIVE FROM PAC'S

This memorandum considers the constitutionality of legislation limiting the total aggregate amount a candidate for elective public office may receive from political action committees, or "PACs," in support of the candidate's election campaign. Applicable Supreme Court decisions indicate that such legislation should survive any constitutional challenge that may be made to it.

I. CHARACTERISTICS OF AN AGGREGATE PAC CONTRIBUTION LIMIT

As commonly proposed, an aggregate PAC contribution limit would subject every candidate to a ceiling on the aggregate amount of contributions he or she could accept from PACs. Candidates could accept, for any election, total PAC contributions no greater than the amount specified by statute. The PAC contribution ceiling would be high enough to permit contributions by a number of PACs before the ceiling is reached. Each individual PAC (as well as individuals and other persons) would continue to be subject to any applicable limit imposed by campaign finance laws on the amount it may give any candidate in any election.

II. PURPOSE OF A PAC CONTRIBUTION LIMIT

The primary objective of an aggregate PAC contribution limit is to remove the threat to the integrity of the electoral system presented by the fact that special interests—organized as PACs—have become one of the principal sources of money used to finance election campaigns.

The number of PACs registered with the Federal Election Commission has increased from 608 in 1974 to 4,000 today. Published data show that this growth in numbers has produced a concentration of PACs representing various special interests. For example, there are today reportedly more than 100 insurance company PACs, more than 100 PACs sponsored by electrical utilities, and some 300 union-sponsored PACs. More than one-third of the approximately 4,000 PACs active in the 1984 congressional elections were concentrated in a handful of special interest sectors.[1]

Not surprisingly, the increase in the number of PACs has been accompanied by a large increase in PAC contributions to congressional candidates. In 1974 PACs gave $12.5 million to candidates for Congress. By the 1984 elections, their contributions exceeded $100 million—an eightfold increase in ten years.

PAC money also represents a far more important part of the average candidate's campaign treasury than it did ten years ago. Published data show that, in 1974, 15.7 percent of congressional candidates' campaign money came from PACs; by the 1984 elections, that proportion had increased to 30 percent. In the Congress elected in 1984, over 150 House Members received 50 percent or more of their campaign funds from PACs, including 20 of the 27 current committee chairs and party leaders. The 435 House winners in the 1984 election received 41 percent of their campaign funds from PACs. Senators also find that PAC contributions are becoming a more important source of campaign dollars. In the 1984 elections, 23 winning Senate candidates raised more than $500,000 each from PACs.

The concentrations of PACs aligned in support of particular special interests has increased the ability of those interests to bring pressure to bear on both candidates and officeholders. This phenomenon increasingly has been observed by officeholders themselves. For example, Representative David Obey has said that frequently

"[A]n issue affects an entire industry and all of the companies and labor unions in that industry . . . When that occurs, when a large number of groups which have made substantial contributions to members are all lobbying on the same side of an issue, the pressure generated from those aggregate contributions is enormous and warps the process. It is as if they had made a single, extremely large contribution."[2]

The growing practice of "double giving"—PACs contributing to competing candidates in the same race—provides further insight into the inappropriate role that PAC money is playing in Congress.[3] These patterns tend strongly to confirm that PACs are giving to gain lobbying influence with the successful candidate or current officeholder, rather than to express a political view.

A campaign finance system driven, as the foregoing shows, by special interest PAC money gives rise to the appearance and reality of corruption or undue influence. Candidates accept substantial portions of their campaign funds from special interests engaged in ongoing lobbying of Congress and then, if elected, vote on matters affecting those interests. Such a system necessarily diminishes the electorate's confidence in the integrity of its representatives. As Senator Barry Goldwater has testified:

"Unlimited campaign spending eats at the heart of the democratic process. It feeds the growth of special interest groups created solely to channel money into political campaigns. It creates an impression that every candidate is bought and owned by the biggest givers."[4]

And as Senator Robert Dole has said:

"When these political action committees give money, they expect something in return other than good government."[5]

Former Representative Jim Shannon has said:

"What's bothering me is when you start seeing guys acting against what you know are their philosophies and constituencies and instincts. When you see non-oil-state people acting for oil interests, you have to ask why."[6]

An aggregate ceiling on PAC contributions would reduce this threat to the American system in two ways: first, by restricting the potentially insidious impact on candidates of their receipt of large aggregated amounts from a number of PACs representing the same or related interest groups or industries; and, second, by encouraging candidates to turn for a larger portion of their financial support directly to individual citizens rather than to organized special interest lobbies.

The ceiling on aggregate PAC contributions would restore the integrity and effectiveness of existing—and constitutionally sound[7]—limits on contributions by any single PAC, person, or other individual to a candidate. Unlimited aggregate PAC contributions undermine the $5,000 per candidate ceiling applicable to an individual PAC's contributions to federal campaigns,[8] and dwarf the $25,000 maximum aggregate contribution that any individual may make in any year.[9] A recent study of PAC contributions to Senate Finance Committee members showed that, on average, each member Senator received $47,837 from energy-related PACs, $48,460 from insurance PACs, and $57,692 from labor PACs for his current or most recent election campaign.[10] Those figures further illustrate how multiple PACs respresenting the same special interest can and do provide very large sums to congressional candidates far in excess of the existing limits on giving by a single PAC. The potential impact on legislative decisions caused by such very large sums underscores the need for an overall cap on the amount of PAC money candidates may accept.

III. CONSTITUTIONALITY OF A PAC CONTRIBUTION CEILING

Courts have consistently recognized that preserving the role of the individual voter in the federal electoral process and preserving the integrity and appearance of integrity of elected federal officeholders are paramount governmental interests. In *FEC v. National Right to Work Committee*,[11] *Buckley v.*

[1] These were: 117 business/food PACs; 112 insurance PACs; 111 oil and gas PACs; 98 communications PACs; 295 banking PACs; 128 real estate and construction PACs; 101 business/transportation PACs; 274 labor PACs; 124 agricultural PACs; and 72 law firm PACs. (Data compiled by Common Cause from Federal Election Commission records.)

[6] *Id.*

[7] *See Buckley v. Valeo*, 424 U.S. 1, (1976) (per curiam).

[8] *See* 2 U.S.C. § 441a(2)(A) (multicandidate political committees).

[9] *See* 2 U.S.C. § 441a(a)(3).

[10] Common Cause, *Financing The Finance Committee* (March 1986).

[11] 103 S. Ct. 552 (1982).

*Valeo*,[12] and *California Medical Association v. FEC*,[13] the Supreme Court specifically affirmed the importance of preserving "the responsibility of the individual citizen for the successful functioning of th[e] [electoral] process"[14] and of preventing actual corruption and the erosion of public confidence in the electoral process through the appearance of corruption. Congress' power to legislate to protect federal election process from those evils is clear.

Challenges may nonetheless be made to the constitutionality of an aggregate PAC contribution limit on the ground that it would violate the First and Fifth Amendment rights of candidates and their supporters, as well as the First Amendment rights of PACs and their contributors. We believe that any such constitutional challenge would be baseless under existing precedents.

*A. A PAC contribution ceiling would not infringe the first amendment rights of PACs or PAC contributors*

PACs or PAC contributors may contend that the PAC contribution ceiling infringes their First Amendment rights of free expression by limiting their ability to propagate their views. Such a contention is foreclosed by the Supreme Court's ruling in *Buckley v. Valeo* upholding Congress' power to limit the amount of money that any single PAC may contribute to a federal candidate.[15]

In *Buckley v. Valeo* and *California Medical Association v. FEC*, the Supreme Court characterized campaign contributions as "speech by proxy" entitled only to limited First Amendment protection.[16] A contributor—whether an individual or a PAC—seeks only to pay for the speech of another, which contributor neither composes, nor publishes, nor controls. Congress constitutionally may limit such "speech by proxy" to preserve public confidence in government and protect the integrity of federal elections and elected officeholders. Even a " 'significant interference' with . . . associational freedoms" can constitutionally be imposed to achieve these goals where—as under an aggregate PAC ceiling—everyone remains free to "discuss candidates and issues."[17]

Moreover, the proposed PAC ceiling would accomplish the legislative purposes directly and with the least restriction on candidates and their supporters. Under the proposed legislation, PACs would continue to be free to contribute to candidates of their choice, subject to existing per-candidate limits, so long as the candidate has not yet received the maximum aggregate amount from PACs. In addition, both PACs and their contributors would remain free to express themselves by engaging in other election-related activities.

The Supreme Court's decision in *FEC v. National Right to Work Committee ("NRWC")*[18] further confirms these conclusions. In *NRWC*, the Supreme Court unanimously sustained the constitutionality of section 441b of the Federal Election Campaign Act, as amended, which prohibits all expenditures and all contributions by corporations, labor unions, and national banks in connection with federal elections.[19] The Court's ruling was expressed in broad terms that readily apply to a PAC contribution ceiling.

The Court began in *NRWC* by reaffirming that "[n]either the right to associate nor the right to participate in political activities is absolute,"[20] and that " '[t]he constitutional power of Congress to regulate federal elections is well established. . . .' "[21] The Court emphasized the importance of the anticorporation rationale that supports section 441b's total ban on corporate and labor union contributions and expenditures—a rationale that also supports the much lesser restriction of an aggregate PAC contribution limitation.[22] And the Court particularly emphasized the "considerable deference" due to Congress' "careful legislative adjustment of the federal election laws" to deal with the dangers posed by large aggregations of private wealth:[23]

"[W]e accept Congress' judgment that it is the potential for such influence that demands regulation. Nor will we second guess a legislative determination as to the need for prophylactic measures where corruption is the evil feared."[24]

The Court in *NRWC* specifically endorsed Congress' judgment that the "special characteristics" of corporations and similar entities "require particularly careful regulation" and that "the differing structures and purposes" of different entities "may require different forms of regulation in order to protect the integrity of the electoral process."[25] A PAC ceiling reflects an expert legislative determination that the "special characteristics" of PACs and the possible effects of predominantly PAC-financed elections "require particularly careful regulation."[26] Under *NRWC*, this determination and the PAC contribution cap that stems from it should withstand constitutional challenge.

Nothing in the Supreme Court's decision in *FEC v. National Conservative Political Action Committee ("FEC v. NCPAC")*[27] is to the contrary. In that case the Supreme Court held that 26 U.S.C. § 9012(f)(1) violated the First Amendment because it imposed a ban on independent expenditure by any "committee, association or organization" to further the election of a candidate who receives public financing for the general election campaign under the Presidential Election Campaign Fund Act.

In *NCPAC* the Court reaffirmed that preventing corruption or the appearance of corruption are legitimate and compelling governmental interests that justify campaign finance restrictions. However, it held that section 9012(f)(1)'s restriction on independent expenditures had not been justified by Congress' interest in preventing corruption or the appearance of corruption.

The Court's analysis helps to elucidate why a PAC contribution ceiling is constitutional. Such a ceiling applies only to contributions, not independent expenditures, and accordingly is not subject to the *FEC v. NCPAC* rationale, which was based in part on a perceived "fundamental constitutional difference" between contributions (which can corrupt) and independent expenditures (which the Court assumed were not equally corrupting). Moreover, with respect to a PAC ceiling, Congress has identified "precisely what the 'corruption' may consist of":[28] namely, the corrupting influence of aggregate special interest contributions on candidates who, as elected representatives, are required to vote on matters affecting their benefactors.

*B. Requiring candidates to abide by a PAC contribution limit would not violate their first amendment rights*

A PAC contribution ceiling may be challenged on the ground that it restricts a candidate's exercise of First Amendment rights by limiting the funds available to him or her to pay for campaign activities. In our opinion, such a challenge would lack merit.

It is established that First Amendment freedoms are not absolute. Where restrictions on speech or expressive activity are designed to obviate serious public evils other than a danger supposedly inherent in the ideas or information expressed, the accepted test of constitutionality is whether the regulation is necessary to achieve a "compelling" or "paramount" public purpose.[29] Even a statute that directly restricts a person's speech may be sustained if the statute is "a narrowly tailored means of serving a compelling state interest."[30]

A PAC contribution ceiling is constitutional because it is supported by "sufficiently important governmental interests and does not unfairly or unnecessarily burden the political opportunity of any party or candidate."[31] A principal purpose of the PAC ceiling proposal, as stated above, is to reduce the improper influence (or appearance thereof) of large special interest contributions on the political system. The Supreme Court found that anticorruption purpose sufficient in *Buckley v. Valeo* to sustain limits on the size of contributions by individuals and PACs, and in *Buckley* and *Republican National Committee v. FEC* to sustain the Presidential Election Campaign Fund Act.[32] The aggregate PAC ceiling is needed to preserve the effectiveness of the existing and constitutionally valid individual PAC contribution limits. The corollary purpose of the PAC contribution ceiling—to encourage broadly based campaign financing through contributions directly from citizens, thereby helping to ensure that candidates are responsive to the citizenry's concerns also should be recognized as a legitimate and compelling state interest. These governmental interests justify any incidental impact the PAC contribution ceiling might have on a candidate's First Amendment rights.

[32] 26 U.S.C. §§ 9001 *et seq.*

*C. An aggregate PAC contribution limit would not discriminate invidiously against unmonied voters or the candidates they support.*

A PAC contribution limit might be challenged on the ground that it discriminates against (a) citizens who can afford only to make small contributions and who contribute to PACs so that their voices will be amplified to an extent that they cannot achieve by direct contributions to campaigns; and/or (b) candidates with unmonied individual supporters but substantial PAC support. We believe such arguments also would be unsuccessful.

These two potential arguments are closely related. The argument available to unmonied citizens is that the ceiling will lessen their ability to magnify the impact of their contributions through PACs, thereby enhancing the relative ability of citizens with more resources to influence candidates through substantial direct campaign contributions. The argument that could be made by candidates with unmonied supporters is that the PAC ceiling leaves them with smaller campaign coffers than those of other candidates. In effect, both arguments assert that the PAC ceiling works an unconstitutional discrimination on the basis of wealth. Both versions of that contention are foreclosed by the Supreme Court's decision in *Buckley v. Valeo.*

In *Buckley,* the Court upheld the limit in the Federal Election Campaign Act on the amount a candidate may accept from any contributor against a challenge that the limit resulted in "an invidious discrimination" between incumbents and challengers.[33] The Court said: "To be sure, the limitations may have a significant effect on particular challengers or incumbents"; but, "[s]ince the danger of corruption and the appearance of corruption apply with equal force to challengers and to incumbents, Congress had ample justification for imposing the same fundraising constraints on both."[34] What the Court said there applies equally to an aggregate PAC contribution ceiling: The evils at which the PAC cap are directed require that all candidates be treated equally, including those candidates who might raise less money directly from individuals than other candidates.

This conclusion is also established by the Court's ruling in *Buckley* upholding the Presidential Election Campaign Fund Act. The Court there rejected an argument that the Fund Act's system of subsidizing candidates by providing public funds to match privately raised contributions in presidential primary campaigns is impermissibly biased in favor of wealthy voters and candidates.[35] The Court found that, to the contrary, "[t]he thrust of the legislation is to reduce financial barriers [to candidacies] and to enhance the importance of smaller contributions." [36] Candidates "with lesser fundraising capabilities" on the whole would gain from the availability of matching funds because they would "be able to increase their spending relative to candidates capable of raising large amounts in private funds." [37]

The proposed PAC contribution limit is clearly permissible under the *Buckley* rationale. Far from discriminating against unmonied voters or the candidates they support, a PAC ceiling would deny all candidates equally the opportunity to raise very large amounts from PACs. There is no reason to assume that individuals with access to relatively greater resources (who are, in any event, subject to a $1,000 per election contribution limit) cannot outgive unmonied individuals through PACs as well as directly to candidates. Similarly, there is no basis for the assumption that candidates who are able to appeal to individuals with greater resources are less capable than other candidates of appealing to PACs. Therefore, like the matching funds system upheld in *Buckley,* the PAC ceiling is at least as likely as not to assist unmonied donors and candidates with lesser fundraising capabilities, because they would be better able to compete with wealthy PAC contributors and with candidates capable of amassing huge war chests of PAC money. In view of the Court's ruling sustaining the Fund Act, a PAC contribution limitation ceiling cannot persuasively be attacked as discriminatory.

CONCLUSION

A limit on the total aggregate contributions a candidate may receive from PACs is a constitutionally permissible means of protecting the political process from corruption and the appearance of corruption.

Mr. BOREN. Mr. President, our bill also would close a loophole that increasingly is used by PAC's and other political committees to evade the current limits on campaign contributions. Under this loophole, PAC's and other political committees are raising contributions made out to a particular candidate instead of to the PAC or political committee and then turning over these checks or otherwise channeling them to that candidate without counting the contributions against the PAC's or political committee's contribution limits. This practice, known as "bundling," is a direct evasion of the existing statutory contribution limits.

In 1974, Congress enacted a series of limits of campaign contributions to congressional candidates designed to protect the integrity of the political process by preventing corruption or the appearance of corruption. In the case of what have come to be known as PAC's, for example, the law says that no individual PAC can give a candidate more than $5,000 for an election.

Thus, if a PAC raises individual contributions and uses those funds to make a contribution to a congressional candidate in the PAC's own name the PAC is limited to giving $5,000. Unfortunately, in an interpretation that makes no sense at all the Federal Election Commission has said that if the PAC instead raises or gathers together individual contributions in the name of a particular candidate and turns them over or channels them to the candidate, then the PAC can provide unlimited amounts to that candidate.

This incorrect interpretation of the law by the FEC has seriously undermined the contribution limits in the Federal Election Campaign Act. It has allowed a PAC to do indirectly what it cannot do directly and by doing so to get the kind of political credit and influence from providing large sums of money to a candidate that the $5,000 contribution limit is intended to prevent.

Not surprisingly, an increasing number of PAC's are taking advantage of the bundling loophole. For example, Alignpac, a PAC of insurance agents, contributed $1,000 in its own name to one Member of Congress. In addition, Alignpac provided that Member with $215,000 in bundled contributions—contributions that the PAC was required to disclose but did not count against its statutory limits. This bundled contribution was 43 times the amount that the PAC is allowed to contribute as an individual PAC.

Defense-related PAC's—such as Litton and General Electric—also have been taking advantage of the bundling loophole to deliver and get political credit for contributions beyond their individual PAC limits. And so has an arms control group, the Council for a Livable World, which has regularly used bundling to provide Members of Congress with large contributions.

Our amendment would overturn the Federal Election Commission's incorrect interpretation of the law legislatively, rather than waiting for the courts or the Federal Election Commission to make the correction. The provision in our bill requires that any PAC or other political committee that raises or otherwise gathers contributions made out to a particular candidate and then turns over or channels or otherwise directs the contributions to the candidate has to count those contributions against its statutory contribution limits.

Thus, in the case of the Alignpac situation, that PAC would no longer be able to turn over $215,000 to a congressional candidate but would be limited to $5,000.

Similarly, if a PAC did not directly turn over the checks to a candidate but arranged for the checks to be received by the candidate in a manner that made clear to the candidate that the PAC was responsible for arranging for the contributions, this too would be treated as a contribution by the PAC subject to the $5,000 limit.

This provision has a very simple purpose. It restores the integrity of the existing contribution limits in the Federal Election Campaign Act by preventing PAC's and other political committees from using "bundling" practices to circumvent these limits in a manner that was never intended to be allowed by Congress.

The Boren-Goldwater PAC limit amendment includes a response time provision designed to address the problem faced by candidates who are the targets of independent broadcast advertisements. The provision does not

[33] 424 U.S. at 30.
[34] *Id.* at 33.
[35] *Id.* at 107.
[36] *Id.* (footnotes omitted).
[37] *Id.* at 107-08.

limit such independent expenditures but rather awards free and equal air time to reply. Response time is a constitutionally sound way of restoring some measure of accountability to independent spending activities in a way that provides more opportunities for speech that informs the public of all sides of a political debate.

Under our response time proposal, radio and television stations would be required to provide free and equal response time to Federal candidates in cases where a broadcaster sells time to any person other than a candidate to broadcast material which either endorses or opposes a candidate. The provision would apply only if the broadcaster originally chose to sell the time—a decision which under existing law remains solely up to the broadcaster. If the broadcast advertisement endorses a candidate, other legally qualified candidates for the same office would be entitled at no cost to an equal amount of broadcast time. If the advertisement opposes a candidate, that candidate would be entitled at no cost to an equal amount of broadcast time.

A similar response time provision is contained in S. 1310—legislation introduced by Senator DANFORTH, Senator HOLLINGS, and Senator GOLDWATER. As Senator HOLLINGS noted:

> We all have seen how PACs can seriously damage the balance in a campaign through the expenditure of enormous amounts of money. In effect, a candidate budgets to fight one well-financed opponent but then ends up fighting many.

In short, the response time provision in both bills promotes fair play in increasingly complex Federal campaigns.

The response time provision in our bill is an extension of existing Federal communication standards which have been upheld by the courts and are consistent with the interpretation of the first amendment. The concept of response time builds upon responsibilities already placed on broadcasters—responsibilities designed to promote fairness and to ensure public access to all sides of the political dialog.

For example, the courts have upheld a Federal Communications doctrine that requires broadcasters to provide free time to individuals to respond to personal attacks on the airways. The purpose of this requirement and of the response time provision in our bill is the same.

The response time provision also builds on the Federal communication law that requires broadcasters to provide candidates for Federal office with reasonable access to the airways. Again, this law was enacted in recognition of the benefit to the public that results from the most fair and complete public airing of the dialog between candidates.

Congress has long recognized that an essential ingredient of our democratic system of government is a well-informed, voting citizenry. And citizens increasingly are turning to the airways for news and information.

The critical role of Federal elections requires that candidates for Federal office have the opportunity to fairly put their case to the American public. The response time provision fills in a gap—a gap that allows independent advertisements to undermine this opportunity. Promoting public access to a full and fair dialog between candidates—thus enhancing the prospects for good government—can only benefit the American public.

The central feature of our proposal is the provision establishing for the first time a limit on the total contributions a congressional candidate may accept from all political action committees [PAC's]. Under the amendment, a candidate for the House of Representatives could accept a maximum of $100,000 in PAC contributions, and candidates for the Senate would be limited to an amount ranging from $175,000 to $750,000, depending on the size of their State.

The congressional campaign finance system is in need of fundamental reform. Major changes are needed and none is more compelling than the need to come to grips with the dangerous and growing role being played by PAC's in congressional elections and the legislative decision-making process.

The last decade of congressional campaign financing has been marked by an explosion in the number of PAC's, the amounts PAC's contribute to congressional campaigns, and the influence PAC's wield in Congress. The number of PAC's has skyrocketed, from 608 in 1974 to over 4,000 in 1984. Over those same years, PAC contributions to congressional candidates have increased eightfold, from $12.5 million in 1974 to over $100 million in the 1984 elections. And the growth of PAC's is accelerating at a quickening pace: PAC contributions to 1986 Senate candidates totaled $24.2 million as of June 30, compared to a total of $14.6 million during the same time period in the 1984 election cycle.

The dependence of congressional candidates on PAC contributions to finance their campaign war chests has also grown dramatically: In 1974, 15.7 percent of all candidates' general election campaign contributions came from PAC's; today, that portion has nearly doubled to 29 percent. In the 1984 election, the 435 candidates elected to the House of Representatives received 41 percent of their total campaign contributions from PAC's, and more than 150 members received more than 50 percent of their total contributions from PAC's.

The growing number of PAC's has served to significantly increase the pressure a single special interest is able to exert on a candidate or Member of Congress. More than one-third of all PAC's active in the 1984 elections were aligned around the following special interests:

Banking—295 PAC's;
labor—274 PAC's;
real estate and construction—128 PAC's;
agriculture—124 PAC's;
food—117 PAC's;
insurance—112 PAC's;
oil and gas—111 PAC's.

Obviously, through their aggregate contributions, PAC's representing the same or similar interests can and do bring intense pressure to bear on a candidate or Member of Congress.

The purpose of the $5,000 limit on individual PAC giving in the Federal Election Campaign Act was to prevent corruption or the appearance of corruption by limiting the ability of a particular interest to influence Members of Congress through large PAC contributions. The law also contains provisions to prevent a single entity such as a corporation or a labor union that has many subsidiaries or affiliates from establishing many PAC's and thereby evading the corporation's or union's contribution limit.

Unfortunately, an alternative route of undermining the contribution limits still exists—the creation of numerous PAC's by separate entities with the same interest who make contributions to Members of Congress and who align themselves to lobby on behalf of that interest. The limitations on PAC's in the current law are too narrow to prevent the damaging effect on Congress and the public of large aggregate PAC giving by corporations, unions and other special interests who align around a legislative issue and work together on that issue. Thus, a special interest may unduly influence or appear to unduly influence Congress through aggregate contributions by PAC's representing that interest.

Certainly, the pressure brought to bear on a Member of Congress by PAC's representing a single special interest—PAC's that have made substantial contributions to that Member—is as intense and carries the same potential for abuse as a large contribution from a single PAC. As Representative DAVID OBEY has said,

> [A]n issue affects an entire industry and all of the companies and labor unions in that industry * * * When that occurs, when a large number of groups which have made substantial contributions to members are all lobbying on the same side of an issue, the pressure generated from those aggregate contributions is enormous and warps the process. It is as if they had made a single, extremely large contribution.

A recent Common Cause study demonstrates this point. The study found that the 20 Members of a Senate Committee received a total of $956,742 from energy-related PAC's, $969,213

from insurance PAC's, and $1,153,857 from labor PAC's in their most recent election campaigns. Members of Congress recognize, as Representative OBEY has said, that such contributions can have the same purpose—and the same effect—as a "single, extremely large contribution."

The phenomenon I have just described has become widespread in the past decade and threatens the integrity of the congressional decisionmaking process and our representative system of government. There is a growing awareness, both in Congress and in the general public, that PAC contributions can make a difference in the legislative process. PAC dollars often are given by special interests to increase their access to and influence on Members of Congress. PAC contributions, in other words, are generally made with a legislative purpose. As Senator ROBERT DOLE has said:

When these political action committees give money, they expect something in return other than good government. It is making it much more difficult to legislate. We may reach a point where if everybody is buying something with PAC money, we can't get anything done.

Other Members of Congress also are recognizing the dangers caused by the role PAC's are playing in financing congressional elections. Senator THOMAS EAGLETON has warned that the current campaign financing system, "virtually forces Members of Congress to go hat in hand, begging for money from special interests whose sole purpose for existing is to seek a quid pro quo. The scandal is taking place every day and will continue to do so while the present system is in place."

Congressman JIM LEACH has said:

A government of the people, by the people, and for the people cannot be a government where influence is purchaseable through substantial campaign contributions. It is simply a fact of life that when big money in the form of group contributions enters the political arena, big obligations are entertained.

And Senator GARY HART has noted:

It seems the only group without a well-heeled PAC is the average citizen—the voter who has no special interest beyond low taxes, an efficient government, an honorable Congress, and a humane society. Those are the demands the PACs have drowned out * * * But there is a direct correlation between the amount of money, the places where it is being given, the membership on committees that are attracting that kind of money, and the kind of low quality legislation we are passing.

The absence of an aggregate limit on total PAC contributions to a congressional candidate undermines the campaign limits already in place and makes it possible for candidates to rely largely on numerous PAC contributions to fund their campaigns and to neglect the need for broad constituent participation. A Member of Congress who owes his or her successful campaign to broad citizen support, rather than to extensive special interest assistance, is likely to feel more accountable to constitutents' interests. As Senator BARRY GOLDWATER has warned:

PAC money is destroying the election process. It is breaking down public confidence in free elections and it is ruining the character and quality of campaigns. As far as the general public is concerned, it is no longer "we the people," but PAC's and the special interests they represent who set the country's political agenda and control nearly every candidate's position on the important issues of the day.

And Senator JOHN STENNIS has observed:

We need a plan which brings the responsibility of these elections closer to the people at home, not further away. PAC's tend to push the election machinery away from the people at home for whom a Representative or Senator is being chosen. These PAC's step in at a key time with plenty of money and to a degree take over the election. There is no doubt about it; it can be done.

Courts have consistently recognized that preserving the integrity of the Federal electoral process, and preserving the role of the individual voter in the electoral process, are paramount governmental interests. The provision in our bill to limit aggregate PAC contributions, in my opinion, clearly meets these tests. I ask consent to include in the RECORD at the end of my statement a memorandum prepared by Wilmer, Cutler & Pickering that supports this conclusion.

The need for limits on aggregate PAC contributions to congressional candidates is urgent. Without these limits, we are allowing our current system of limits on campaign contributions to be eroded. Without aggregate PAC limits, we are permitting special interests increasingly to dominate our legislative and electoral processes. In short, unless we enact the limits proposed in this legislation, we are standing by while the individual voter becomes, effectively, a second-class participant in representative democracy.

Mr. President, I appreciate the patience of my colleague from Minnesota.

The distinguished senior Senator from Mississippi [Mr. STENNIS] has been on the floor throughout this debate. I should like to yield 10 minutes to him at this point, if the Senator from Minnesota has no objection, and reserve the remainder of my time after that.

I see him nodding in the affirmative, so at this time I yield 10 minutes to the distinguished Senator from Mississippi [Mr. STENNIS].

□ 1110

Mr. STENNIS. Mr. President, I highly commend and thank the Senator from Oklahoma for the splendid work and leadership that he has given on this highly important and rather very difficult subject matter.

Mr. President, this matter strikes at the very vitals, the very hard core of our Constitution. We are going to celebrate next year the completion of 200 consecutive years of the administration of these election laws that were boldly written in the face of the Constitution.

There has not been a serious or grievous failure of any kind connected with those election laws. They are bottomed totally on the fact that the election of individuals to carry out the functions of the Constitution will be chosen by the people of the district involved, whether it is statewide, or whether it is election districts within a State. They have the sole power, Mr. President, of making those choices, and I have no doubt that as soon as we remove from those people this power, which God forbid we will not, that provision of our Constitution will be corrupted and interrupted and will become a failure.

It is the very first article of the Constitution, the creation of the House of Representatives that states that its Members will be chosen every second year by the people, by the people of the several States. Over here now is amendment No. 17 passed in 1913. I remember that date. I remember when it happened. There was a change in the Constitution of the United States from the method of electing Senators by having the State legislators make the choice. We put that power in the hands of the people, the same people that had been selecting the Members of the House of Representatives, and it has rested there now those years and has been highly successful. There have been maybe a few irregularities here and there, but basically it operates as of course.

I think there is no doubt now, because it has been proven over and over, that this system of campaign finance that we wandered into and we are now using puts the people further and further and further away—I am talking about the real people now of the congressional district or a State—puts them further and further away from the mission that they have in choosing their own representatives in Congress, both House and the Senate.

Now you can take exception to that and you can point out cases where it does not take it away from them, but, by and large, the people have already caught on and have the feeling that is growing all the time, that in every election they are being actually left out, that the determining factor, the thing that makes the wheels turn—the money—the money is coming from other areas of the United States.

Mr. President, that cannot be successfully denied. We just made a mistake here in the method of financing these elections. We have to go back and find a better way.

I voted against the current law, but I was mainly against the idea of using Federal money to make some of the essential downpayments of a candidate's funds.

I do not favor that yet. But I will quickly take it to a degree as a better method than the one that we have now on our law books.

I think the demands, and I mean demands in its harshest and most strict terms, of the occasion are in this field of our self-government and it is the key field after all. The demand is that a better system be inaugurated, not for the immediate impending elections, of course—the Senator from Oklahoma wisely skipped over that election on to the one coming 2 or 4 years hereafter—to get back the living spirit and the responsibility of the people of these political districts so they will feel their responsibility and their opportunity to make these choices of the individuals representing them. That is who they represent, not anyone else; they represent the people.

Unless we rise to the occasion and in some way find a method that will serve the purpose of fairness, justice, and right, something that is in the hands and the control of the people so that the responsibility and the opportunity are in their control, then we are headed for unhappy experiences, we are headed for trouble, and we are headed for a pattern that will develop and will destroy our operation of self-government.

Already we are being tested as never before just on the sheer volume, the massive responsibilities of our Federal Government now, having to direct our interest and attention daily around the world, having to go into every function almost of home life. All those things tend to tax not only in money but tax our time, resourcefulness, ability, and know-how. We have enough burdens, more than we can adequately cover now.

We must not further complicate this matter by taking away from the people of the respective areas the responsibility, as I say, the opportunity of performing their part of this major function in selecting their own—I do not say rulers—I say servants, who serve in this body and in the House of Representatives.

So I am delighted to see the opportunity that is given by the leadership for a debate on both sides, for repeated debates, that is unusual and extraordinary, repeated chances to debate this matter in and out and forward and backward, a chance that the people would not otherwise have in finding out even more about the infirmities and what will develop into the failure of this system.

I do not have any doubt about it myself. I am proud of the fact that more and more people are taking recognition of this condition and I think that in that way an adequate remedy of some kind will be found and will be put into effect as soon as it reasonably can.

I thank the Senator again from Oklahoma and all others who are working on this important matter.

I imagine my time is up and I yield the floor, Mr. President.

The PRESIDING OFFICER. The distinguished Senator from Wisconsin.

Who yields time.

Mr. BOREN. Mr. President, I yield 5 minutes to the distinguished Senator from Wisconsin.

Mr. PROXMIRE. Mr. President, will the Senator make that 12½ minutes?

Mr. BOREN. I am told that we have only 16 minutes.

I ask the Chair how much time remains to this side.

The PRESIDING OFFICER. Sixteen minutes.

Mr. BOREN. I am told that is all we have and there are three or four others.

Mr. PROXMIRE. I will put my speech in the RECORD later.

I thank the Senator.

Mr. BYRD. Mr. President, do I not have some time remaining? Will the Senator from Wisconsin wait just a minute? I think I can get him time. I was going to say I believe I have some time under the leaders' order earlier.

The PRESIDING OFFICER. The leader has 10 minutes.

Mr. BYRD. I was going to yield some of that to the distinguished Senator but he now has left the Chamber.

I thank the Chair.

The PRESIDING OFFICER. Who yields time?

□ 1120

Mr. BOSCHWITZ. Mr. President, I say to the distinguished Senator from Oklahoma that I will be speaking for a while.

Mr. BOREN. Mr. President, I am happy to yield at this time, if it does not offend the Senator from Minnesota, 3 minutes to my friend from Illinois.

The PRESIDENT pro tempore. The distinguished Senator from Illinois.

Mr. SIMON. Mr. President, since I am on the Judiciary Committee, I am used to having you preside. It is good to have you there.

I support the amendment of the Senator from Oklahoma. I commend Senator BOREN for his leadership in this. I think it is a small, small downpayment on where we have to go.

This thing is just out of control. We have to do some things a lot more substantial than this bill, laudable as this particular amendment is.

In my last campaign for the Senate, counting both the primary and the general election, I spent—I say this with reluctance—I spent $5.3 million. My opponent spent more than I did.

Right next door to me over in the Dirksen Office Building is the office of Senator JESSE HELMS. Senator HELMS spent somewhere between $16 million and $18 million in a State that is one-half the size of the State of Illinois. And I do not say that critically of Senator HELMS. He is taking advantage of the system. But something is wrong with a system that permits these kinds of expenditures.

Now what is wrong? Here is what is wrong. Let us be candid about it. If I get back to my home to or in a hotel at midnight and there are 20 phone calls waiting, 19 of them from names I do not recognize, the 20th from someone who gave me $1,000 campaign contribution, I am not going to make 20 phone calls. I might make one. Which one do I make? Well, you are right.

And what it means is the financially articulate have inordinate access to policymakers. The person who may be out of a job, the person who is having a tough time getting by on a Social Security check, does not have as much access to Members of the U.S. Senate. It is one of the reasons, frankly, I have a lot of town meetings in my State, so people can have access.

I have never promised anyone a thing for a campaign contribution. But the system means that those who contribute have much greater access. And we all know it and we ought to face up to it.

Public financing, a bill that Senator MATHIAS and I have cosponsored—he is the chief sponsor—makes sense, calling for a checkoff just like we have a voluntary checkoff for the Presidency.

The PRESIDENT pro tempore. The Senator's 3 minutes have expired.

Mr. SIMON. I thank the Chair and I strongly support the amendment of the Senator from Oklahoma.

Mr. BOSCHWITZ addressed the Chair.

The PRESIDENT pro tempore. The distinguished Senator from Minnesota.

Mr. BOSCHWITZ. Mr. President, today we are back on the floor again discussing campaign finance reform and this time the target is political action committees or, as we know them better here, PAC's.

Mr. President, those calling for campaign reform today echo two basic phrases: One, there is too much money in the political system; and, second, that there is too much special-interest influence in the political system, as well.

They believe that if PAC's could only be controlled those issues would go a long way toward being resolved. The plan they are backing, offered by my friend from Oklahoma, Senator BOREN, is designed to both reduce the level of direct contributions a PAC can make to a candidate as well as set an

overall limit of PAC dollars that a candidate can receive.

With this plan in place, the supporters of the Boren amendment argue that $50 million will be squeezed out of the campaign process, and that is an important first step to be taken, they maintain.

But I believe that his plan, while well-intentioned, will only worsen the problems that he seeks to resolve.

Before I outline the problems I see in the Boren bill, let me make two very basic and important points. The first is that we remember campaign reform for the unintended effects that it so often has; not the initial premise of why the reform was made. PAC's boomed as a result of the 1974 and 1976 campaign reform. That reform was designed to curb the influence of wealthy individuals. We have to look beyond the intent of the reform that my friend from Oklahoma is addressing this morning and look at some of its other effects as well.

You will recall, Mr. President, back in the 1972 elections, the vast sums were given by individuals. One person gave, I believe, in the millions of dollars, many people gave hundreds of thousands of dollars. It was for that purpose that PAC's were suggested and that PAC's were part of the reform at that time, so wealthy individuals could not have an inordinate amount of influence on a particular candidate.

Second, Mr. President, you cannot put the genie back in the bottle. It is a sad fact, and I wish it were not the fact, but campaigns cost money and campaign reform is not going to make them cheaper. So with those thoughts in mind, let me discuss the Boren amendment.

My opposition to the approach of the Senator from Oklahoma is based on three basic points: First, I do not buy the premise that PAC's are, by definition, bad. I believe that PAC's have increased many people's participation in politics. In fact, more than twice as many people, 4.5 million, gave to PAC's in the 1983-84 election cycle as gave to Senate candidates.

Is that not an extraordinary fact? Twice as many people gave to PAC's as gave to Senate candidates. Yet, my friend from Oklahoma would have us think that PAC's look at special types of people. I heard him say this morning that these are individuals who give to PAC's do not look at broad range of issues. They do not read the papers as much as people who give to Senate candidates on a different kind of a basis. That is an elitist argument. Are we now to make a distinction on individuals and who gives to campaigns?

I would point out that 4½ million people, many of whom were never before invovled in the political process, now are involved because of the PAC system and because they are able to give to PAC's. This morning I received a telegram from an official of the PAC associated with the Honeywell Corp. in Minneapolis. I would like to read it.

Dear Rudy:

I am pleased to hear you are leading the opposition to the Boren amendment to limit political action committees. As you know, we believe * * *

As you know, we believe the Honeywell employees PAC has been important in increasing the political participation of our employees. Our PAC is managed by its employees, many of whom have had little or no involvement with the political process before they joined the PAC.

Thank you for your work on this important issue.

And that is the case over and over again, that people who were never involved in the political system before have become involved because they have given to PAC's.

My friend from Oklahoma would rather have a single individual give $1,000 than have 20 individuals give through a PAC. The average contribution to a PAC is about $50. He prefers that an individual sit down and write out a check for $1,000. Indeed, he wants to raise that to $1,500. I do not think that is necessary, either. He wants to raise that. Part of his amendment that we are discussing this morning is to raise the amount an individual can give.

The average contribution to a PAC is about $50 during the course of a year. This may be a series of contributions, not all at one time, often a withholding from a payroll check. Some 4.5 million people gave to political action committees, twice as many people as the number that gave directly to Senate campaigns.

In addition, I do not buy the implication implicit in the Boren amendment that Senators and Congressmen are for sale. I am certainly not for sale. I think I can speak for all of my colleagues when I say that they are not for sale either. I think the tax bill that we are now considering that would revolutionize the tax system in the United States is evidence of that. Some very long-term tax preferences, tax shelters, loopholes, call them what you will, all of them are being closed despite the best efforts of a number of people in the lobbying business. I think that is evidence that special interests are not ruling this place.

Last week we voted on the defense bill which restrained the growth of the Defense Department. The level of spending, various weapons systems, and the other moneys that are spent was the subject of a great deal of activity by various lobbyists. They sought to protect their particular interests. Many were unsuccessful.

So I do not buy the argument that it is implicit in the amendment of the Senator from Oklahoma that Senators and Congressmen are for sale. Unfortunately, that happens sometimes, but very seldom in our system, and that is a good thing. But I cannot adopt the argument that Senators or Congressmen are going to be that influenced by the amount of money that now can be given by a PAC. It is small. As the minority leader pointed out, the amount that he had to raise, the amount that a single PAC could give would be less than one-half of 1 percent of the total that he spent in his campaign.

But unfortunately too many people find it easy to label all PAC's as some kind of an evil, as a special interest bearer. Somehow the idea of a group of people giving $50 a year to a PAC which then turns around and contributes a thousand dollars at a crack to a candidate is viewed as worse than a single contributor writing out a check for a thousand dollars to his favorite candidate. The average PAC contribution to candidates is less than $1,000.

So I do not believe it is a good idea that a president of a large company sitting down together with his wife and his two or three children, can give more than a PAC, particularly under the new rules being suggested by the Senator from Oklahoma. Another thing about PAC's is at least they are easily traced.

You can find out who has given and who has not given, and because you can also find exactly how much special interest money, if that is what it is, goes to a particular candidate.

Let me read from a campaign practice report of May 1986 that was put out by the Congressional Quarterly. It talks about a particular instance where PAC money was not accepted by a candidate. The study of the candidates campaign receipts turned out to be harder to conduct than it would have been had the Senator accepted PAC money. Instead of studying a list of corporate or labor PAC contributors whose affiliations are required by law to be clearly indicated in their titles, the staff of the Congressional Quarterly had to comb through hundreds of pages of receipts to identify the interests of the Senator's individual donors. This included using a number of business directories; in some cases, they telephoned contributors to learn or verify their affiliation.

(Mr. STAFFORD assumed the chair.)

Mr. BOSCHWITZ. So I suggest, Mr. President, the fact that a particular candidate did not take PAC money did not indeed help his constituency find out whether or not he was being influenced by a particular group. The results show that the Senator here received money from people involved in a wide range of businesses with certain evident trends. The majority of his contributors lived in his own State, but sizable numbers of his larger con-

tributors are located in Texas, Louisiana, and Washington, DC.

In conclusion, this article says "But Larry Sabato, an expert on PAC's at the University of Virginia, does find one difference between PAC money and large contributions. Large contributions, such"—as the Senator received "* * * coming from private individuals and not PAC's, are harder to track. Special interests may come in many forms"—Sabato says—"the difference being that PAC money, since it's pooled * * * is easily identified by interest. Individual gifts are much more difficult to trace and, therefore, the special influence can be far more insidious than PAC money."

I suggest, Mr. President, that it simply is difficult to legislate away the idea of special interest money. It is just difficult to do. As a matter of fact, when it is PAC money it is far more easily identified as pointed out in this article.

My second concern about the amendment by the Senator from Oklahoma is even more important. If we recall, PAC's really became players after the last round of campaign reform in the middle seventies. It is only prudent to at least make an effort to see what else could well happen if the Boren amendment were to become law.

My friend says PAC's are bad and should be controlled, and his solution is to limit direct PAC contribution. If we do that Mr. President, then my friend from Oklahoma makes it plain that he believes $50 million—count them—$50 million are going to be squeezed out of the campaign pot.

Mr. President, it is very clear to me, and frankly I am surprised it is not clear to the supporters of the amendment of my friend from Oklahoma as well, that if you limit direct contributions it only follows that the money will flow instead into indirect contributions; namely, independent expenditures. And the Supreme Court has already ruled that these contributions cannot be limited. Indeed, my friend from Oklahoma pointed out that his amendment is constitutional because it does not limit spending. It only limits the amount that a candidate can receive from a certain group. But PAC's, having learned how to raise money and now are raising more and more money, as my friend from Oklahoma has pointed out. Well then indeed we are going to have some money left over. It is not unlikely that they are going to involve themselves in independent expenditures.

So what has my friend from Oklahoma really done? I hope my colleagues pay special attention to this point, because all he has really done is take dollars out of the reported, out of the controlled, out of the regulated channels and put those dollars into the uncontrolled abyss of independent expenditures.

That is the first step toward reform, he says. I think not.

Perhaps the proponents of my friend's amendment will argue that they have taken care of the independent expenditure problem by including language in their amendment which will force broadcasters to grant special free equal time in response to any independent media buy, either negative ads or positive endorsements. However, it is my understanding that commitments have been made by the proponents of the amendment to delete this provision from the amendment because it is unconstitutional—I share that feeling that it is unconstitutional, and it violates the first amendment. As soon as it is parliamentarily possible that will be achieved. Given that, I hope no one attempts to use the broadcasters provision as their defense in this argument.

Or if there is no such commitment by my friend from Oklahoma, I hope my colleagues will recognize what in fact they are voting for.

Some may also argue that limiting dollars any one PAC can give to a candidate will not have that profound an effect because 90 percent of the moneys now given to candidates, Mr. President, come in amounts of $3,000 or less. However, when coupled with the aggregate cap limit it is clear that many PAC's will have no outlet for the dollars they have raised other than independent expenditures. And independent expenditures will probably be the next round of reform that my friend from Oklahoma will then come to us with.

My final concern is also fairly simple. If we really are serious about campaign reform, then we must measure all proposals against the basic fairness yardstick of who comes out ahead. Who comes out ahead, the incumbent or the challenger? Clearly today the cards are stacked in favor of the incumbents. My friend from Oklahoma quite properly points out the PAC's give to incumbents at the rate of about 4-to-1 or not quite 4-to-1 over challengers.

So it is with all other moneys, I might say, in the political system, not just PAC's. Incumbents get more from individuals, they get more from all sources that wish to participate in the political process because they are incumbents, because by and large they have the upper hand in these races.

□ 1140

Furthermore, they have all the powers of incumbency, the frank, the large staff, and access to the press.

Clearly, the cards are stacked in favor of an incumbent.

I will ask then, What does the amendment of my friend from Oklahoma do to change that? Well, I think it makes the challenger's role even more difficult. Often a challenger's biggest single problem is raising his first dollars. All campaigns need seed money to get going, and until he has the initial base of funds for staff, media and so forth, it is difficult. Today, most of the seed money is provided by the national party committees, by the Republican Senatorial Committee, the Republican National Committee or its counterpart on the Democratic side, and by State committees.

But the Boren bill reduces the amount of these early dollars that can be received from the parties. It actually lessens the impact of parties. If the primary objection to PAC's is that they have a narrow band of interest, then certainly the parties should be allowed to increase their input. But when I suggested that to my friend from Oklahoma, he rejected that approach.

Really, Mr. President, the objection to PAC's is that they all have a narrow scope of interest. I challenge that as well.

On the labor PAC's, which, by and large, give money to my friends on the other side of the aisle and not much money to the Republicans on this side of the aisle, the breadth of their interest amazes me.

My friend from Minnesota, Congressman FRENZEL, is always annoyed that the scope of interests of PAC's which contribute to him seem to be broader than they ought to be. Very frankly, sometimes the only philosophy PAC's have is something like a horsetrader; they want to bet on a winner. They are not too much concerned about what the philosophy of the guy is, but they want to go back to the members of their PAC's and say, "Look at the 80 or 90 percent of the dollars we expended; see how well we did. We bet on the winner and had a high degree of success."

Most of the PAC's in the business community also have a very, very broad agenda. They do not have a single issue type of agenda.

Certainly, however, there are single-issue types of PAC's, and they play a very important part in our legislative community.

Interestingly, Mr. President, the number of PAC's is no longer rising, or is rising very slowly. Indeed, the number of PAC's went down in number in recent years.

The scope of most PAC's is very broad and represents the fact that they have brought 4.5 million contributors into the political process. As I mentioned earlier, 4.5 million contributors to PAC is twice as many contributors who contributed directly to Senate campaigns in the last election.

So the challenger's role, Mr. President, is not made easier. Parties are

limited and parties are where the challenger finds his original moneys in very many instances.

My friend from Oklahoma, and the minority leader, spoke also about the fact that challengers have more problems. This amendment is making those problems more acute.

In summary, Mr. President, let me outline what the Boren amendment will really accomplish if signed into law.

First, millions of dollars will be shifted from direct reportable and limited contributions, into independent, unlimited, and uncontrolled expenditures.

Second, political parties will be further limited as to assistance they can provide to their candidates, and they are clearly the best defense against wealthy candidates or single issue politics.

Third, the already sizable advantage of the incumbency will be further strengthened.

Fourth, Mr. President, the individual big contributor will gain a larger role. The president of a corporation and his wife will now be able to give as much as a PAC gives to an individual candidate. If he has a couple of kids or a couple of friends or some vice presidents in his corporation, they can really make a large contribution and by limiting PAC's, you simply will drive candidates to that kind of an end.

I must also say, that to me, it is not sensible to raise the individual contribution from $1,000 to $1,500, which is the equivalent of about 30 or 40 people who give to a PAC because PAC contributions are quite small.

However, I have several options which I believe would be a real force in campaign reform. If limiting the dollars a PAC gives to a candidate is judged a sound idea, we should also prohibit PAC's from giving to political parties as well. An amendment I will offer a little later will do just that.

If the Senator from Oklahoma thinks that PAC's should be limited—and I am not in entire disagreement with that, but I think there is a very narrow band of political reform he is addressing—then he should not allow the PAC's to just get around the rules by giving to the parties and then allow the parties to give to the candidates and build their influence in that way.

If limiting the dollars that PAC's can give to a candidate is just and sound, then we also ought to prohibit PAC's from giving to political parties. Otherwise, the efforts of my friend from Oklahoma will be frustrated. His bill, however, does not address that at all.

We should also do something about a wealthy candidate who spends his own money. I spoke about this somewhat earlier in my discussion with the minority leader as well.

My friend, the senior Senator from the State of Washington, Senator GORTON, has a very good proposal to increase contribution limits of parties and individuals for those candidates who face opponents who spend large amounts of their own money. This is not addressed at all by the Boren amendment. I will have an amendment for that problem a little later on.

Another issue that we should deal with is the disclosure of so-called soft money that national party committees receive and that they need not now disclose.

I believe it should be disclosed, and in my amendment, it will be required to be disclosed.

I also believe we should expand, not contract, the involvement of political parties. If PAC's are subject to any criticism, it is that some of them, and certainly not most of them, as I earlier stated, have very narrow political agendas. It is not so with political parties. That is why political scientists uniformly support strengthening the party role.

At this point, Mr. President, I ask unanimous consent that an article that appeared in the Washington Times be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

PAC's FILING SOME OLD ROLES OF PARTIES, ANALYST BELIEVES

(By Thomas D. Brandt)

One of the nation's premier election analysts, Richard Scammon, said yesterday that political action committees have taken over some of the old roles of political parties—to promote candidates, raise funds and identify issues.

But while some of the parties' lost power went to PAC's part went directly to the voters, he told the Woman's National Democratic Club in a luncheon speech.

The shift is partly due to the evolution of primary elections, which started spreading rapidly in the United States about the turn of the century as a reaction to dictatorial party bosses.

Mr. Scammon said that shift American politics more democratic by taking the selection of Republican and Democratic candidates away from party bosses and giving it to those who vote in primaries.

"The whole essence of a party, when you've only got two big ones, is to bring people of different viewpoints together on a common ground of agreement," Mr. Scammon said. But on complex issues such as trade or aid to Nicaraguan rebels forces, he said, it is often impossible to forge a partywide consensus so the "ideological roles, the action roles" have been assumed by PACs.

"This means that [now] the PACs represent strong views—anti-abortion, pro-abortion, anti-gun control, pro-gun control. In the state of Minnesota they've even got PACs prosnowmobile, anti-snowmobile. You've got ideological PACs . . . unions, dental associations," and so on, he said.

"The [PACs] do provide a lot of the wherewithal of campaigning," he said.

Mr. Scammon is director of the Elections Research Center and is a former director of "the U.S. Bureau of Census. He also is a visiting fellow at the American Enterprise Institute and senior elections consultant for NBC television.

Mr. Scammon, 70, who has studied elections firsthand in the United States and in dozens of foreign countries, does not share the alarm expressed by groups such as Common Cause over the growth of PACs.

But he favors public financing of congressional races, as is done for presidential elections.

"I'm not convinced that the PACs are totally evil, but I think the acceptance of public financing would be a bolstering up of the faith we have in our democratic system," he said.

"The idea that the PACs go out and buy somebody is pretty far fetched. What they do is find where their friends are and finance them," he said.

Mr. Scammon said if he ran a PAC, "I don't want to have to buy the fellows. If I can buy him, somebody else can. I want to find somebody who'll agree with me and then give him as much support as I can within the law, which is really not very much for each individual PAC." There are so many of them.

For several years, Common Cause has studied the impact of PACs on the electoral and legislative process. It has lobbied Congress to put more restrictions on PACs, which they believe give unfair advantage to incumbents. Common Cause also believes that PACs use their influence to shape legislation that may be against the public interest.

In the 1983–84 election cycle, special interest PACs, which include corporations, unions, professional and ideological groups, gave $113 million to House and Senate candidates. Most of this money, which compares to the $87 million provided in the 1981–82 cycle, went to incumbents.

Mr. BOSCHWITZ. In that article Dick Scammon, one of the leading political analysts in the country, points out that PAC's are fulfilling some roles that parties used to because PAC's indeed have grown more rapidly than parties and the party contributions are limited. He finds the shift to the PAC's not to be as threatening as my friend from Oklahoma believes. He said. "The idea that PAC's go out and buy somebody is pretty far-fetched." He said, "If I ran a PAC, I don't want to go out and buy a fellow. If I can buy him, somebody else can."

It is silly to think that that happens in the political process.

One additional proposal is to establish a bipartisan commission to review campaign financing and make recommendations. This is really perhaps the most important proposal and hopefully this will survive in this whole debate.

A commission would be formed, not for the purpose of delaying, stalling or doing anything else, but just as a recognition of the fact that Senators have a very hard time not only voting on their own pay, but Senators have a very difficult time voting constructively on campaign financing. As I said early there are many aspects of campaign financing that need attention

that are not addressed by either the amendments that I will file or that my friend from Oklahoma is filing. Realistically, it is very difficult to get people in office to pass ballot reform legislation that may affect their own reelection.

In addition, the commission would be much less likely to develop partisan solutions, or ones that have a proincumbent slant. If we really want to level off the playing field between the incumbent and challenger, this may be the only way to do it.

I might say, Mr. President, that I have made a number of efforts, and others have also, to broaden the amendments that are being offered here this morning by my friend from Oklahoma. Those efforts have resulted in some progress. I think the idea of a commission is indeed the best idea and the one that should survive this debate.

□ 1150

Mr. President, I ask unanimous consent that an article in the New York Times of August 7 be printed in the RECORD. That article is by Richard Moe, a Minnesotan and chief of staff to former Vice President Walter Mondale. This article calls for a commission as well.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the New York Times Aug. 7, 1986]

GET IT RIGHT FOR ONCE

(By Richard Moe)

WASHINGTON.—One of the features of every Congressional election cycle is the attention focused on the increased amounts of money spent on various campaigns, where it came from and what it all means for the integrity of the legislative process. Congress then attempts to grapple with the problem, but inevitably fails because there is no consensus on what should be done. The problem then gets worse next time around and the process starts anew.

The latest chapter in this biennial ritual was played out in December when the Senate sidestepped the issues raised by Senator David L. Boren's amendment limiting the amount political action committees, or PAC's, may give to candidates for Congress. After laying the matter aside with the promise of future action, Bob Dole, the majority leader, who has seen it all before, said the issue of Congressional campaign financing should be reviewed by "some kind of a commission."

He's right. It's likely that only a properly constituted commission, mandated by Congress and composed in part of its members, can hope to address this troublesome issue in a way that compels bipartisan agreement and thereby real action.

As luck would have it, the Senate has an opportunity to consider such a proposal when it revisits the campaign finance issue in the next few weeks. Nearly 30 Senators and 100 Representatives have introduced legislation to establish a 1-year, 11-person bipartisan commission charged with examining the campaign financing system, particularly its impact on the legislative process.

The case for such a commission is compelling. Campaign financing is an area where every Senator and Representative is an expert. Because each member's views are born of personal experience and seen through the prism of political survival, there is nothing approaching a consensus within either house—or even within either party. The result has been a decade of legislative stalemate.

Yet there have been dramatic changes in the way Congressional campaigns are financed since Congress last addressed the issue seriously in the mid-1970's. The average cost of a successful Senate campaign has more than quadrupled, to nearly $3 million, in only about eight years. House races now average about $500,000. The role of PAC's has exploded: in 1974 some 600 PAC's contributed $12.5 million to Congressional candidates, while a decade later 4,000 PAC's gave out more than $100 million. Fundraising is now a year-round affair—not just election year but every year.

What are the consequences of this huge infusion of money? How much more time are members spending on fund-raising? What do PAC's really get for their contributions? What are the effects of our legislative and political systems, including the public confidence essential to both?

Not surprisingly, members of Congress themselves are troubled by these questions. Growing numbers dislike what they have to do to raise ever more funds. Many worry about the time and resources devoted to fund-raising that could be devoted to legislating. And more than a few are troubled by the compromising effect that so much money can have on the way public policy is formed.

If there is an emerging consensus in Congress, it is that the present system of financing campaigns is gravely flawed and needs to be changed. But there are widely differing views on what a new system should look like. Some favor public financing, others argue for new limits on PAC's, while still others prefer greater tax incentives for individual giving or higher individual limits.

Whatever the answer, it is unlikely to be found through the normal legislative process. Congress usually enacts major new legislation only when it reaches a consensus on its own or when it is compelled by public opinion to act. Thus about the only alternative to a consensus-forcing commission is a major scandal, which some people believe is coming.

Before that happens, why not try to get serious people holding different views together in an environment detached from the urgency of immediate deadlines and the need for public posturing to see if common ground can be found? Such an approach worked several years ago on the financing of Social Security. It can work here as well.

Mr. BOSCHWITZ. Mr. President, campaign reform, as I noted earlier, is always popular but is never easy for people in office to legislate. I hope that, as the Senate takes up the bill this week, we look beyond the policies of the moment. Otherwise, we shall soon be back reforming the reforms of 1986.

The PRESIDING OFFICER. Who yields time?

Mr. BOSCHWITZ. Mr. President, how much time is remaining on this side?

The PRESIDING OFFICER. The Senator has 55 minutes remaining.

Mr. BOREN. Mr. President, how much time remains on this side?

The PRESIDING OFFICER. The Senator has 13 minutes remaining.

Mr. BOSCHWITZ. Mr. President, I yield 20 minutes to my friend from Texas [Mr. GRAMM].

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mr. GRAMM. Mr. President, I thank the distinguished Senator for yielding. I would like to try to begin by taking a broader look at this question than normally is given to it. I start out by asking the question: Why do people give to politicians? Why do people contribute?

I would like then to address this whole issue about how, all of a sudden, because of Common Cause and all of these self-appointed "public interest" groups promoting their agendas, if 100 hardware and implement dealers in Texas get together and each of them gives $10 and they contribute it to me, that is special interest, and how, if some individual gives $1,000, that is not special interest.

I would like to talk about how the political process works in terms of political power, about the fact that PAC's did not create political power, and eliminating their influence will not eliminate it. Then I would like to suggest that if somebody really wants to address this problem, the solution really has nothing to do with eliminating the ability of people to contribute, it has to do with trying to affect the things that Government does that encourage people to want to give for reasons that we deem not to be in the national interest.

Mr. President, when I ran for the Senate, I had about $10 million contributed to my campaign. I had about 80,000 individual contributors. So far as I am aware, that is more individual contributors than any nonincumbent candidate for the Senate in American history. In fact, if it were not for the distinguished Senator from North Carolina [Mr. HELMS], it would, I believe, be the largest number of individual contributions received by a candidate for the Senate in American history.

About 15 percent of my contributions came from PAC's. I find that, in this last election, the average Member of the Senate got 27.8 percent of their money from PAC's. I guess what that means is, I need to get out and work a little harder.

Mr. BOSCHWITZ. If the Senator would yield, I was close behind the Senator. I had 60,000 contributors to my campaign and raised about half as much as he did. That is 16 percent. I was down to the 15- or 16-percent level, too, with respect to PAC contributions.

Mr. GRAMM. I suggest to my colleague that maybe we ought to get out and get to work.

Mr. President, why did these people give to me? I am not going to speculate about why people gave to anybody else; why did they contribute to me? I think a lot of people gave to me because they agreed with me. They did not give to me because they like my face; they gave to me because they agreed with what I was saying. They looked at my record in the House and they liked the way I voted and they contributed. I like to think some gave because they love America and they thought my election might be good for America. But I would be naive not to think that a few people gave because they—mistakenly—thought maybe later, they might influence me.

In fact, when you get right down to it, why do people give? They give because they like the individual candidate; they give because they think the individual candidate is promoting their philosophy in the interest of the country; they give because they want to influence Government; they give because they hope their contribution will have some impact on public policy.

Mr. President, I submit to my colleagues that when somebody contributes to a campaign, that is democracy at work.

If you want to know who supports me, all you need do is walk down Main Street, America. You walk down the street and there is McDonald's and the employees of McDonald's who, through their political action committee, contributed to my campaign.

There is Sears, Roebuck & Co. There is the independent baker, there is the independent banker. I could go on and on listing companies and groups that contributed to my campaign. That is not special interest, Mr. President, any more than any contribution is special interest.

How do we bring together the concerns of all the special interest groups to make the national interest?

I submit, Mr. President, if we really wanted to do something about those people who contribute to try to influence Government, the way to do that is to try to do something about the reason they contribute. If Government controls the price of mustard seeds, we should not be shocked that people in the mustard-seed business are going to be active politically. Is that a problem with democracy? Because the Government sets the price of a commodity, should we be trying to limit the ability of citizens who believe in the principles of Jefferson to further their interests? I think not. Maybe we ought to look at the fact that the Government sets the price of mustard seeds.

I submit if we eliminated the ability of Government to set the price of mustard seeds, then the people who are in the mustard-seed business would be contributing because they want to affect general policy, not because they want to affect the mustard-seed business. But I do not see those who support this reform effort urging us to stop Government from doing all these things that create the special-interest demands. I do not hear that at all.

My point is that if people are in the political process through political action committees and other groups in trying to influence government policy, it is because the Government sets the prices of things. It is because Government exercises discretionary power, because Government grants favors. If we are concerned about that, Mr. President, what we ought to do is change the law: Limit the amount of Government intervention; limit the discretionary decisions that produce winners and losers, that give gifts, that fix things for special interests. That is the source of the problem. If one wants to argue that people are active politically because of special-interest concerns, deal with the concerns; do not limit the freedom of those who want to contribute.

How did political action committees suddenly become the main villain in the political process? If you read some of the editorials that are being written, if you read the "Dear Colleague" letter that was sent out, you might conclude that there is a problem and that it is getting worse.

□ 1200

Well, let me submit, Mr. President, that PAC's did not create political power. Political power is a zero sum game. If we voted to eliminate political action committees, we would not eliminate political power. Political power exists because government is powerful, because government spends money, because government sets policies that affect us and our children.

The truth is, those who scream the loudest about political action committees are the very special interest groups that lost power to political action committees. They are the groups that have powerful endorsements and big memberships that can be activated to go out and run political telephone banks. They are the groups that once exercised power, the political parties, the power brokers who operated from smoke-filled rooms, the media. Those are the people who complain the loudest about political action committees. Political action committees did not create a situation where government is a megaplayer in the economy. That existed before political action committees. The groups that complain the most about political action committees are the groups that feel they must now share power with another group, and they do not like it. They like having all the power themselves.

Well, if you believe in democracy, if you believe in the principles of Jefferson, you believe that you cannot do away with political power and the best that you can achieve is to disperse it in as many hands as possible. I submit, Mr. President, that political action committees, as another competitor in the political arena, have helped to strengthen democracy, not weaken it. And many of those who self-righteously preach against PAC's are the very groups that had the power before and now feel the heat of competition.

I submit, Mr. President, there is nothing more special interest about the political action committee of the hardware and implement dealers of Texas or America than there is about Common Cause. I submit, Mr. President, that Common Cause exercises its power by making its case very effectively through the media, whereas the hardware and implement dealers are too busy carrying buckets of nails and selling paint brushes to be that active politically. But what is wrong with them passing the hat and putting in a few dollars apiece and contributing to a candidate who believes in free enterprise, who wants to keep government's hand out of their cash register and out of their pockets.

Mr. KERRY. Will the Senator yield for a question?

Mr. GRAMM. I will be happy to yield at the end of my statement, but we are on a time limit, and I want to be sure I get my points across.

I submit, Mr. President, that there is nothing more special interest about the hardware and implement dealers than about Common Cause. But yet Common Cause and other groups like it have, through very effective use of the media, created the impression that somehow their involvement, their activism, their methods are not special interest but a group of hardware and implement dealers who get together and pass the hat and put in money and look at candidates, review their qualifications, decide who is best and contribute, somehow they are special interest. I do not buy it, Mr. President.

I remember when we were voting on whether to exempt the physicians from the general rulemaking of the Federal Trade Commission. Many of you remember that debate. I remember one of our public interest lobbies putting together meticulous data on who the American Medical Association PAC contributed to and how they voted. It is a very interesting thing, Mr. President. There was a quirk in the law where we eliminated the ability of the Federal PAC and the State PAC to both give. It occurred in the midst of an election cycle where I was in a special election. And as the result of a consent agreement, I was the last person who got a double contribution. By the time this contribution-vote

comparison was made, I had received more money from individual physicians contributing through their PAC than any other candidate in America and I had voted against exempting physicians from general rulemaking of the Federal Trade Commission. And guess what? When this study came out and ran in every newspaper in the country, miraculously, I was left out. And I was left out, Mr. President, because I did not fit the thesis that was being argued by this so-called public interest group.

The truth is, there is nothing more special interest about a group of individuals who get together and give as a group than there is about one individual giving. It is basically a falsehood and myth that is perpetrated by those who hope to tilt the balance of political power in their own favor by constraining their competitors.

Let me talk about that problem very briefly, if I may. Running for office is expensive. I remember when I first successfully ran for office, I did not know many people. I was a college professor. I was running against the aide of the former Congressman and against a fellow who had been on television as a weatherman. I was amazed, when I took my first poll, that the weatherman was better known in two-thirds of the district than the Congressman who had served for 32 years. The aide I was running against was a good-looking fellow who responded to voters who asked him, "How do you feel about this issue?" he would always say, "Well, how do you feel? What do you say? I'm not going to Washington, like PHIL GRAMM, to represent a philosophy or a viewpoint. I'm going there to represent you." And let me tell you, it sold like hotcakes.

But there was a difference. The people who were concerned enough to contribute their money looked at everybody's record, and they decided I would be most effective. They contributed to me. I went out, told my story, put the issues before the people and I was elected.

If you start limiting the ability of people to contribute and be involved, who are you going to elect? You will end up electing media personalities to the exclusion of every other group of citizens. You are going to prevent people who have something to say, but do not happen to be well known and do not happen to be especially charming, from reaching the public with an idea that they want heard.

That is the problem with this amendment. First of all, this amendment does not lessen political power. All it does is give more power back to the power brokers, more power back to the smoke-filled room, more power back to the media, more power back to those special interest groups that use different techniques to influence candidates and public opinion.

Is that good for the country? I say no, because it allows a smaller number of groups to exert political power.

Now, any time a Member of this body is willing to say we need to do something about the desire of people to give because they want to affect policy for their own individual interest and therefore we should go out and look at everything government does that would induce individual groups to want to line their own pockets by getting contracts or by getting benefits or by government setting a higher price for their commodity, all you have to do is let me know and I would be interested in joining in that effort. But I am not interested in joining a self-righteous crusade to try to limit the ability of people who have just as much right to be involved as Common Cause and the myriad of Ralph Nader groups. I do not accept for 1 minute that Mr. Nader has more public spirit than the average hardware store dealer in this country; that because his method of affecting public opinion is trying to use the media to make his case, his cause is any more notable than that of a group of hardware dealers who get together and say: "We have plenty of problems in the hardware business. The government is always trying to get its hands in our cash register, trying to regulate our business. Let's try to elect people who are promoting a business environment that is good for the hardware business."

I submit that if you take the hardware and implement dealers, the bakers, the bankers, Sears-Roebuck, Montgomery Ward, Burger King, McDonalds, Coca Cola and Pepsi Cola, their employees giving voluntarily, you have some special interests in there. But together they come a lot closer to producing the public interest than the self-righteous, self-appointed public interest groups that are trying to promote a single objective—more government.

Quite frankly, Mr. President, I think we ought to be running on the basis of a set of values. And let people decide if they support that set of values.

I am not worried about being bought by some special interest group, for a simple reason—I am not for sale. When people contributed to my campaign, 80,000 of them in the last campaign, they knew what I stood for. As a result, I assume that when they contributed, they were supporting that philosophy—and if they were not, they probably have been disappointed. I believe the vast majority shared the values I hold.

The issue here is, will we allow democracy to work? Will we allow people to be involved? Will we allow power to be competed for, to lessen the power that any single group has? That is the issue here. That is why I am against the Boren amendment.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. BOSCHWITZ. Mr. President, I thank the Senator from Texas for his statement. His reference to the hardware owners in Texas or my State or any other State are very well put.

I say to the Senator from Texas that in my statement earlier, I pointed out that 4.5 million people have given to PAC's and that is twice as many people as gave to Senate campaigns in 1984. So the Senator is entirely right, that the PAC's have broadened the political interests.

My friend from Oklahoma pointed out that a study showed that those people who gave to PAC's did not read the newspapers quite as often as people who individually gave to campaigns for other reasons. Maybe they are too busy selling hardware. Maybe they are too busy making the wheels of our economy go for the benefit of everybody.

The Senator is entirely correct, that unless you withdraw the things that almost compel people to give to the political process, we are not going to reduce the amount of money in the political process, the impact of money in the political process, and that our best route is broadening that and getting as many people involved as possible.

It is pleasing to note that 4.5 million members of the general community have contributed to PAC's and that is twice as many people as gave to the Senate campaigns in 1984.

I yield the floor.

Mr. BOREN. Madam President, I yield 3 minutes to the Senator from Massachusetts [Mr. KERRY], and I ask unanimous consent that his name be added as the 17th author of this proposal.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KERRY. Mr. President, I will speak more on this matter tomorrow.

I should like to comment on one of the comments of the distinguished Senator from Texas. His own Dallas Times newspaper has editorialized as follows:

> The power of PAC money threatens increasingly to turn Members of Congress into legalized political prostitutes. It drives them to sell to the highest bidders their one most easily and legally salable product—access. But, worst of all, it erodes the public's confidence in the integrity of the congressional system.

What I would like to ask him and about which I would enjoy having a colloquy with him, but we do not have time, is as to whether or not one can share the perception that that perception is part of the problem. It almost becomes the reality.

If people in the United States perceive, as they do, that that is the case, that what the Dallas Times Herald says is the way we are perceived, then

we have a problem. I think that is the perception across this country, but it is more than a perception.

The distinguished majority leader has said that when PAC's contribute, they expect something more than good government as a consequence of that contribution. He said that 16 percent of his money came from PAC's. In a $12 million race, 16 percent is almost $2 million. Studies show that if you have a 4-percent margin in a race in this country, everytime the 4 percent will be made up by money, and the person who spends more will win by a 4-percent margin. That is frightening.

I am one of three U.S. Senators who does not take PAC money. When I ran for the Senate in 1984, I did not take PAC money. We succeeded in making our race in Massachusetts one of the first PAC-free races, because no candidate took money. We pledged not to do so. That makes it more expensive. I wound up with a $500,000 debt and I still have some debt.

I cannot tell you how many lobbyists have come to me in Washington and said, "If you only took PAC money, we could wipe your debt out in a week or with one event." What does that mean? It means it is easy. It means it would be easier for me not to have a debt if I took PAC money. If it is easier not to have a debt and easier to get elected, we are changing the process, changing the relative importance of who has influence and who has not.

That is perversion of the process. Not that somebody's vote is inherently for sale. I do not believe that. Not that PAC's are not democratic, because it is good to bring people together. But when they bring that money under one roof and when they have a special interest in legislation and give you the money, it has changed the process from an individual giving you that money, and it is a change that we have to undo.

I am limited to $1,000 that I can receive in a contribution.

Madam President, I ask unanimous consent for 1 additional minute.

Mr. BOREN. I yield 1 additional minute to the Senator.

Mr. KERRY. The most I can get is $1,000 from an individual, but a PAC can give $5,000. That is an institutionalized difference in effect and clout. The $1,000 limit that I can receive from an individual was set back in 1974, when it might have been worth $1,000. The costs of campaigning have gone up, the price of television has gone up, and I am trying to pay for that with a limit of $1,000, when in fact it is worth $400 or $500, and the costs have gone up, but PAC's can give $5,000 to an individual.

It is very clear from the countless studies. Last year the National Rifle Association spent $1.5 million on current Members of the House, which approved the Volkmer bill, a measure which weakened gun control. Eighty percent of the 248 Members who voted with the NRA on a key vote received financial support from them. Eighty percent of the Members who did not, did not get any money.

The PRESIDING OFFICER. The Senator's 1 minute has expired.

Mr. KERRY. I will continue this tomorrow.

Mr. BOREN. Mr. President, it is my understanding that the distinguished minority leader was prepared to yield some of his time to the distinguished Senator from Wisconsin, who has been waiting patiently to join in this debate. At this time I yield 2 minutes of my time to the Senator from West Virginia; and I understand that the Senator from West Virginia would like to yield 10 minutes of his time, so that the Senator from Wisconsin may share his thoughts with us.

Mr. BYRD. Madam President, I have 10 minutes today under the standing leader's time. I did not use it.

I ask unanimous consent that I may yield to Mr. PROXMIRE.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOSCHWITZ. Madam President, reserving the right to object, will any of that time be reducing the amount of time that I shall have remaining on this side?

The PRESIDING OFFICER. The effect is to reduce by 5 minutes each the time of the Senator from Minnesota and the Senator from Oklahoma. The Senator is correct.

Mr. BYRD. Mr. President, that is not my desire to see that done.

I ask unanimous consent that the yielding of my time to the Senator from Wisconsin does not have that effect.

The PRESIDING OFFICER. Without objection, it is so ordered.

### TIME TO SLOW DOWN RUN-AWAY POLITICAL ACTION COMMITTEES

Mr. PROXMIRE. Madam President, what is wrong with political action committees? Answer: with the advent of political action committees we have formalized and legalized political corruption. Is that too strong? No way. It is true that long before political action committees came on the scene, political contributions were given for the purpose of winning access to policy-making elected officials. Even without political action committees, that will continue. It has always been true that political contributions have been a way of winning the support of elected officials for the economic advantage of those who make the contribution. So what's wrong with political action committees? Isn't this all that political action committees do? No: PAC's add a new and a specially corrupting dimension. Consider: a trade association representing real estate or banks or insurance or a labor union representing the interests of organized labor forms a political action committee. It raises money from its membership for a single purpose. It doesn't raise a nickle because it believes in the character or dedication or competence of a particular public official. It raises money to advance the special economic interest of the members of that trade association or union. And where does the money raised by the PAC go? The head of a homebuilders PAC put it precisely and succinctly. He said, "When I contribute from my PAC I buy legislation." It's that simple. It's that crude. It's that obvious that PAC contributions constitute an attempt—however subtle or sophisticated or gentlemanly to pay hard cash in return for support of a policy action that will benefit the contributing PAC. PAC contributions may go to the public official whose character make the membership of the PAC hold their collective noses. They may know the official is grossly incompetent. But they buy a piece of him because they know he can deliver. It may be a tax break. It may be an expenditure. It may be a change in regulations, or pressure on a regulator to go easy. But it is a way for a special interest group that can't win on the merits of its case to prevail against the public interest.

Can anyone argue that elected officials can't be bought this way? The answer to that is ha, ha, ha, and I might add ho, ho, ho. This is exactly the way elected officials are bought. If elected officials were not bought this way, PAC's would dry up and disappear. After all, no one voluntarily parts with thousands of dollars to a politician for whom you may have absolutely no respect unless there's a pay off. So PAC's pay out that cash, that legalized bribe because they believe it brings a return. And anyone who has been around the Congress or a State legislature or a city council knows that over time the payoff by public officials for the PAC contribution they receive is as real and sure and certain as the sunrise. Oh, sure sometimes the public action by the elected official may not come immediately. It may not come in a vote. It may come in a speech not delivered. The PAC payoff may come in a colleague not influenced. It may come in a calling off of a meeting that otherwise would result in advancing legislation. It may come in a minor change in one paragraph in a 240-page bill. It may come in a witness, not invited to testify before a committee. It may come in hiring a key staff member for a committee who is sympathetic to the PAC. Or it may come in laying off or transferring a staff member who is unsympathetic to a PAC.

Madam President, I have seen this happen. In 29 years, I have seen it happen not once, but again and again

and again. Not a week goes by that I do not see one of these forms of corruption happen.

This is the way policy is determined here in the U.S. Senate, and it is determined that way today.

PAC's are so effective because the myriad kinds of action they can win for the contributors are largely invisible. How often can anyone actually prove that any of these actions that advance the interest of a particular PAC flowed from the PAC contributions? In the eyes of both the elected officials and the contributing PAC's this is exactly the beauty of the PAC. Their contributions constitute gilded corruption that has no sight, no taste, no smell, no feel, no sound and, of course—no smoking gun or even an empty cartridge to prove the crime. This is one reason why it is so insidious. The other reason is that everybody does it or almost everybody.

For a candidate for the Senate who has little name recognition the acceptance of PAC contributions has become a virtual necessity. Most well established incumbents don't need PAC contributions. But if you're a well-established incumbent these days it's oh so hard to break the habit. Gathering these hundreds of thousands of dollars of campaign cash is a cinch. You don't have to go to PAC's. PAC's come to you. They come with their tongue hanging out and their wallets wide open. It is like sitting under an apple tree, loaded with apples in a windstorm. It's almost an embarrassment of riches. Let's face it. Ninety percent of the incumbents running for reelection take PAC contributions.

To summarize, PAC contributions are effective. They do win the preference special interests seek. They are subtle. They are invisible. They are almost universal.

Some defenders of PAC's agree with all this. But how do they defend their PAC's? They say—after all the law requires full disclosure. The voting public knows all about it. If the voting public really believes this is corruption, they would defeat those who accept PAC contributions. Wouldn't they? Why not? Because the voting public has no chance to do this. Oh sure there is disclosure of a sort. The PAC contributions are disclosed in newspaper stories once or twice a year. An occasional editorial may angrily protest them. A challenger may briefly and slightly embarrass an incumbent by charging the incumbent takes PAC money. But the incumbent has an easy answer. Everybody does it. And the public almost never sees the subtle connection between the PAC contributions and the behind the scenes influence on behalf of the PAC by the elected official. So it has become politically smart to take the PAC money. PAC money buys TV time that brings the candidate charging into every home looking like the perfect public interest champion. PAC contributions buy the billboards that tell the State over and over again that the candidates is "Mr. Integrity." PAC money buys the direct mail expressly designed to appeal to the special interest of the recipients. PAC money buys campaign workers in droves. All of this translates into many thousands of votes. Worst of all—it becomes politically stupid in most cases not to take this subtle, sophisticated, invisible and legalized big money payoff.

Mr. President, this is why the Boren amendment should pass. The Boren amendment doesn't kill PAC's. It does provide a realistic basis for bringing them under a degree of limitation and control.

I earnestly hope the Senate will take the opportunity.

Madam President, I congratulate my good friend from Oklahoma, and I yield the floor.

□ 1230

(Mr. BOSCHWITZ assumed the chair.)

Mr. BOREN. Mr. President, I am proud to yield 3 minutes to the distinguished Senator from Kansas, Senator KASSEBAUM, who was one of the original coauthors of this particular proposal.

The PRESIDING OFFICER. The Senator from Kansas is recognized.

Mrs. KASSEBAUM. Mr. President, I am proud to be a cosponsor of the Boren amendment. I have listened to some of the earlier debate on the floor this morning and would certainly agree with those who have said that PAC's have broadened political interests. I think this is very true. I think PAC's serve an important role. I certainly do not believe that an elected official's vote is for sale.

But where I come to strong support for the Boren amendment is in my belief that the campaign costs have simply gone beyond control. They sap our time and our energies and our talents. It seems to me the Boren amendment is the beginning and a first step in beginning to gain control.

We created them by an amendment to the Federal Election Campaign Act in 1974. That is why I think we bear some responsibility in beginning to take a step in the right direction. We have all heard the figures. And as the costs of running a campaign are increased, the need for contributions increases. And certainly the political action committees are very visible forums for those contributions and have really fallen over each other in their attempt to fill the tin cup that has been offered by Members of Congress.

We must accept part of the responsibility, but we must also understand that the influence of the fundraising cycle and the participation of PAC's is a cycle that is out of control. Reforms are necessary and this is the time to start.

Mr. President, over the past several Congresses, we have seen dozens of campaign reform proposals come and go. They have included efforts to expand or eliminate tax credits for political contributions, to mandating public financing of Federal campaigns to establish commissions to study the issue and to prohibit borrowing by candidates. No substantive reforms have succeeded.

At least a dozen major reform proposals have been offered in the 99th Congress by members of both parties. And certainly I know the Presiding Officer, the Senator from Minnesota [Mr. BOSCHWITZ] has some very good suggestions. But the Boren amendment is but one of them and I think it offers us the best opportunity at this point to make the step in the right direction.

I will be speaking further on this tomorrow. I appreciate the Presiding Officer's substituting for me and allowing me the opportunity to make these comments at this time.

I yield the floor.

Mr. BOREN. Mr. President, I thank the Senator from Kansas for her comments. They are convincing and very helpful. It is time for us to take this first step.

I reserve the remainder of my time.

Mr. DURENBERGER addressed the Chair.

The PRESIDING OFFICER. The Senator from Minnesota is yielded 5 minutes.

(Mrs. KASSEBAUM assumed the chair.)

Mr. DURENBERGER. Madam President, I appreciate the opportunity to speak briefly on this subject and I congratulate my colleague from Minnesota for his leadership on this issue and for taking on a very difficult task, which is to try to explain that it is not the tin cups that my colleague, who now occupies the chair, says are involved here, but a much more complicated subject than tin cups, special interests, lobbyists, and all this sort of thing, as I think all the rest of us well know.

Madam President, the current system of financing elections, with its increased numbers of PAC's and growing reliance on PAC contributions, did not simply spring from the woodwork of American politics. It did not, in effect, happen because of the nature of politics in this country. It arose directly out of the woodwork of American politics. It arose directly out of the 1974 amendments to the Federal Election Campaign Act and the Supreme Court's 1976 decision in Buckley against Valeo. These were supposed to be the reforms to end all reforms. Instead, as we heard on the floor today

from our colleague from Oklahoma and others, they encouraged a sevenfold increase in the number of PAC's, opened the flood gates to unlimited campaign spending by independently wealthy candidates and so-called independent groups, and sharply reduced political party contributions to congressional campaigns. Some "reform"!

Can it happen again? You bet it can. And it will happen if the Boren amendment is adopted. That is according to one of our most astute students of campaign finance laws. Having examined this legislation and its likely effects on campaign practices, Michael Malbin suggests that the most descriptive title for this amendment would be "The Rich People's, Independent Spenders, and Incumbents' Protection Act."

These are harsh words, but they underscore an important point. Effective campaign finance reform can only be accomplished by examining the whole system in a comprehensive manner, by looking at all sources of contributions. If we do, one fact immediately stands out. Rather than limiting PAC's, the most important need in campaign finance is to focus on strengthening political parties—especially at the State and local level.

Madam President, today we are considering an amendment that would significantly restructure Federal laws governing campaign finance practices for Federal elections. I had two amendments which I had hoped to offer today: One that would comprehensively restructure the financing of congressional campaigns; and a second that would strengthen State and local political parties. Under the unanimous-consent order entered into by the Senate on Saturday, I will not offer my amendments this afternoon. I hope, however, that whatever the outcome of the vote tonight, we will broaden our efforts to reform the campaign finance laws, and I will continue to play a role in that process.

As described by its chief sponsor, my distinguished colleague from Oklahoma, the amendment before us is supposed to enhance public confidence in congressional elections by restricting the role of narrow special interests and by increasing the role of individual contributors in electoral campaigns.

These are worthy goals which I know are shared by all the Members of this body and by our constituents back home. As is so often the case, the controversy centers not on the goals of this legislation but on the most effective means of obtaining these ends. If we have learned one thing during the past 15 years of continuous changes in our campaign finance laws, it is simply this: Beware of quick fixes. Beware of unintended consequences.

Madam President, my reelection campaign in 1982 goes down in political history as a monument to the biggest loophole in our campaign finance laws. This loophole is only exacerbated by the Boren amendment. This travesty of equal representation in the election process was created by the Supreme Court and has nothing to do with PAC's or lobbies. This gaping loophole in our laws permits wealthy candidates to spend unlimited amounts of their own funds on their campaigns.

And there are other problems which require citizen concern.

Madam President, it is outcomes like these which underscore the need for truly comprehensive reform—not the ad hoc approach represented by the legislation before us.

Madam President, though I am relatively new to elected service, I am no Johnny-come-lately to campaign finance. I was appointed by the Democratic Governor of Minnesota in 1974 to serve as vice-chair of Minnesota's first election and lobby law reform agency—the State Ethical Practices Board. I served as vice-chair until I became a candidate for the 1978 general election for the Senate in my State.

As a Senator, and as chair of the Intergovernmental Relations Subcommittee of Governmental Affairs, I have held several days of hearings on lobby reform legislation, and my subcommittee has issued three prints and publications on lobbying, PAC's, and campaign finance.

Madam President, one finding that emerged from these reports is very important: the current system of financing elections, with its increased numbers of PAC's and growing reliance on PAC contributions, didn't simply spring from the woodwork of American politics. It arose directly out of the 1974 amendments to the Federal Election Campaign Act and the Supreme Court's 1976 decision in Buckley against Valeo. These were supposed to be the reforms to end all reforms. Instead, they encouraged a sevenfold increase in the number of PAC's, opened the flood gates to unlimited campaign spending by independently wealthy candidates and so-called independent groups, and sharply reduced political party contributions to congressional campaigns. Some reform.

Can it happen again? You bet it can. And it will happen if the Boren amendment is adopted, according to one of our most astute students of campaign finance laws. Having examined this legislation and its likely effects on campaign practices, Michael Malbin suggests that the most descriptive title for this amendment would be "The Rich People's, Independent Spenders, and Incumbents' Protection Act."

These are harsh words, but they underscore an important point. Effective campaign finance reform can only be accomplished by examining the whole system in a comprehensive manner, by looking at all sources of contributions. If we do, one fact immediately stands out. Rather than limiting PAC's, the most important need in campaign finance is to focus on strengthening political parties—especially at the State and local level.

Madam President, today we are considering an amendment that would significantly restructure Federal laws governing campaign finance practices for Federal elections. I had two amendments which I had hoped to offer today: one that would comprehensively restructure the financing of congressional campaigns; and a second that would strengthen State and local political parties. Under the unanimous-consent order entered into by the Senate on Saturday, I will not offer my amendments this afternoon. I hope, however, that whatever the outcome of the vote tonight, we will broaden our efforts to reform the campaign finance laws, and I will continue to play a role in that process.

As described by its chief sponsor, my distinguished colleague from Oklahoma, the amendment before us is supposed to enhance public confidence in congressional elections by restricting the role of narrow special interests and by increasing the role of individual contributors in electoral campaigns.

These are worthy goals which I know are shared by all the Members of this body and by our constituents back home. As is so often the case, the controversy centers not on the goals of this legislation but on the most effective means of obtaining these ends. If we have learned one thing during the past 15 years of continuous changes in our campaign finance laws, it is simply this: Beware of unintended consequences.

Madam President, my reelection campaign in 1982 goes down in political history as a monument to the biggest loophole in our campaign finance laws. This travesty of equal representation in the election process was created by the Supreme Court and has nothing to do with PAC's or lobbies. This gaping loophole in our laws permits wealthly candidates to spend unlimited amounts of their own funds on their campaigns.

And there are other problems which require citizen concern. As far as PAC's go, there is one new and growing kind of PAC that raises disturbing questions about electoral accountability—the so-called candidate PAC's that funnel funds from one candidate's coffers to another.

Before I address the general issue of PAC's and parties in our political process.

ARE PAC'S THE PROBLEM?

Reforms that focus first and foremost on limiting the role of PAC's in

our electoral system are doomed to failure. They will fail because they deal with a symptom, and not the cause, of what ails our political process. The growth of PAC's is only a reflection of a fundamental change from corporate to entreprenurial politics. Capping PAC contributions without dealing with the broader implications of this tranformation will only drive PAC dollars to other, less accountable uses like independent expenditures, while doing nothing to strengthen our institutional decision making.

We used to run for office as members of a collective entity called political parties. The parties guided voters' decisions and provided most of the resources candidates required to run for office. They supplied the volunteers and the bumper stickers, they contacted the voters, nominated the candidates, and defined the issues.

But the parties have lost their dominant position in the electoral process. All of us—voters, candidates, and policymakers—are worse off for it. As candidates, all of us here now run as independent entrepreneurs. We're individually responsible for buying time on television, sending out letters by the million, hiring our own campaign staffs and consultants, coordinating our own volunteers and, above all, finding the money to pay for it all.

Combined with the skyrocketing costs of new technologies like television and direct mail, this new process has sent campaign costs through the roof. Spending on congressional campaigns rose fourfold between 1974 and 1984, rising from $72 million to $295 million in just 10 years.

And where are the parties in all of this? In 1984 Senate races, direct party contributions to Senate candidates comprised only 1 percent of total campaign contributions—1 percent. That's compared with 6 percent in 1974 and over 10 percent in 1972. Although campaign costs more than doubled during this period, the average size of party contributions to candidates actually declined by 40 percent—not counting inflation.

WHAT'S RIGHT WITH PAC'S

So the problem is much larger than PAC's and will not be solved by clamping down on PAC contributions. The Boren approach ignores the positive role that PAC's can play as one part of a balanced approach to campaign funding; it gives an unfair advantage to wealthy candidates; and it ignores the most effective means of reducing PAC influence—by strengthening our parties.

Although they are hardly perfect, in some ways PAC's have gotten a bum rap. In fact, they are the product of earlier reforms, and a real improvement over earlier fundraising practices. I have called PAC's the "united way of political giving" and I meant it. Consider the situation before 1974. At that time, campaign finance all too often was the province of a few big corporations and wealthy fatcats, who found ways to give nearly unlimited amounts of campaign funds with little or no disclosure.

In contrast, PAC's allow average citizens and small contributors to pool their resources and get involved in the political process. In fact, PAC's can act as a sort of half-way house to parties as a means of getting citizens involved in the process of self-government. As research by Prof. Frank Sorauf of the University of Minnesota has shown, people who donate to PAC's are more active, knowledgeable, and interested in the political process than the average citizen. And it's all done in the open, above board, with full disclosure.

So why do we hear more and more about the growing influence of PAC's in our elections? Because if you look at total campaign contributions, at all the money in politics, PACs are up; parties and individual contributions are down. In the Republican-controlled Senate, PAC's now provide about 18 percent of all campaign funds, up from 11 percent 12 years ago. In the Democratic-controlled House, PAC's now provide 31 percent of all campaign dollars, up from 17 percent in 1974.

Those are the totals. But PAC's are not a single entity. They are a mirror of American society and getting more divided all the time. We've all heard the numbers on the growth of PAC's. Their numbers have increased from 608—12 years ago to over 3,500 today. What does that mean? For any given PAC, that doesn't mean it is getting stronger. On the contrary, it means that each PAC's contributions are becoming less and less significant. And it means that on any given issue, we are more and more likely to find competing PAC's on every side.

Take health care, for example. I know of very few issues where the AMA, the American Hospital Association, the HMO's, the hospital and nursing home employees, and the health insurance companies are united. Far from it. They generally have very different views, and all have PAC's.

What is more, the real value of each PAC's contribution has declined by half since 1974. Adjusted for inflation, the maximum PAC contribution of $5,000 in 1974 is worth only $2,417 today. That's a 52-percent decline in only 12 years.

WHAT'S WRONG WITH PAC'S

The only problem with PAC's is that they accurately reflect the pluralism of our democracy. Most PAC's, it is true, represent narrow single interests in our society. There is nothing wrong with that. Such social and economic interests have a right to such representation in our political process if they choose to exercise it.

Each of us was elected to represent the interests of our State and our constituents. If you are like me, your PAC contributions mirror the social and economic makeup of your State. In my case that means agriculture, food processing, health care, transportation, and insurance.

Such representation is important, but it is not our only responsibility. As U.S. Senators, we also have a responsibility to represent the broader public interest as we understand it. That is where the problem may arise with PAC's, if we permit it to occur. For however worthy any single cause may be, this Nation cannot afford a political process that separates complex problems into tiny fragments, blindly hoping that the cumulative outcome will somehow total the general public interest. If we are to deal responsibly with the difficult issues that confront the Congress, we must assure that the electoral process enables us to place the collective interests of society above the growing multitude of special interest claimants.

THE ROLE OF POLITICAL PARTIES

That brings us back, to the political parties. Because the problem of representing the broader public interest can not be solved by limiting PAC's. It can only be solved in a positive way, by enhancing the role of parties.

This approach is nothing new. Our electoral system historically relied on the parties to perform this important representative function of combining disparate interests into broad coalitions, each representing a distinct public philosophy about the proper role of Government in society. Our political parties have never been rigid and disciplined collections of single-minded ideologues—they allowed ample room for expressing individual interests and opinions.

But the parties were by far the most important organizations in our electoral system, providing a framework of shared ideals within which different points of view could be debated. And because our parties were decentralized, they provided avenues for representing regional and local values within the Federal Government as well as other social and economic concerns.

In recent years, the broadly based system of representation provided by the parties has been eroded. Though still important, the parties' role in Government and elections has been diminished by the rise of new forms of campaign finance, heightened reliance on narrow single issue organizations, and new modes of political communication which flood your mail box and mine with carefully crafted appeals. These changes were documented in research conducted by the Advisory Commission on Intergovernmental Relations, which concluded that:

America's political system has changed substantially since 1960. Patterns of politics based upon lasting commitments to party and place—community, state, and region—have eroded. They are being replaced by an increasingly national political marketplace in which competing candidates, interest groups, and parties vie for media attention and rely upon modern marketing techniques to win support from an ever more volatile and skeptical public. The past 25 years have witnessed the final withering away of once powerful political machines, . . . the declining role of state and local party leaders at national political conventions, and the rise of television as possibly the most important force in modern politics. As strong party loyalties have waned, the role of independent politicians, voters, and issue-oriented activists has expanded in contemporary elections. There has been an explosion of organized interest groups, single issue politics, and new group-related sources of campaign finance.

The upshot of this new system—including PAC's, single issue groups, and grassroots mail campaigns—has been to encourage citizens and Congress alike to deal with complex issues on a parochial, ad hoc basis. They encourage us to look at every problem in simple terms of "what's in it for me, right here, right now?" They make it easy to avoid, if only temporarily, the tough but unavoidable decisions we all must make to reconcile our competing goals with the resources available, and to consider how our individual interests fit within a framework of the broader interests of society at large.

STRENGTHENING THE PARTIES: WHAT WE CAN DO

In such decisions, the parties play an irreplaceable role. They begin the process of building coalitions, of identifying areas of consensus, of focusing attention on priorities. Far from limiting the role of parties in our electoral process, as we have done in recent years, we should be raising and removing limitations on party contributions in campaigns.

If our goal is to limit the influence of PAC's and improve our legislative process, this is clearly the way to proceed. If parties are allowed to contribute more, candidates would rely less on PAC's. This would not only limit PAC influence, it would enable the parties once again to command serious attention from both voters and candidates.

Despite what we often hear, this is not a matter of partisan advantage or debate. Although many Democrats believe they have some catching up to do in terms of fundraising, leaders of both parties are in agreement on the basic goal of easing limitations on effective party competition. As former Democratic National Committee Director Eugene Eidenberg expressed it:

The political process should be regulated by government only to the degree necessary to insure the integrity and legitimacy of its results. I support the principle of political parties being free to make unlimited expenditures on behalf of their candidates.

Or, in the words of Republican National Committee Chairman Frank Fahrenkopf:

If the concern is really on the amount of money going to candidates from PACs, a simple logical solution is readily apparent. There should be no limit on the amount political parties can spend or contribute to candidates for public office.

Raising the limits on party contributions and expenditures would mark a beginning toward strengthening the parties. Such an approach does most to enhance the role of the national party committees, since this is where most of both parties' resources are concentrated. But there is also a need to strengthen parties at the grassroots. As the ACIR has documented, it is at the State and local levels that the decline of party influence has been the sharpest. And it is there that the foundations for stronger parties must be built.

Is there a role for Congress to play in revitalizing parties at the grassroots level? I believe there is. As a first step, we can end the discrimination against State and local parties under Federal law. Current Federal campaign finance laws subject State and local parties to stricter spending and contribution limits than the national committees. Therefore, at the appropriate time, I would urge consideration of an amendment that would equalize the treatment of all party committees and enhance the role of grassroots parties in four specific ways:

First, we should raise the maximum limit on individual contributions to State and local parties from $5,000 to $20,000 per year, the level permitted national party committees;

Second, we should increase State party contributions to senatorial candidates to $17,500 per election, again equaling the national committees' limit;

Third, we should ease restrictions on local party contributions to congressional candidates by assuming their independence from State party committees, unless proved otherwise; and

Fourth, we should place congressional elections on the same footing as Presidential elections by permiting unlimited expenditures for voter registration, phone banks, get-out-the-vote drives and similar party building efforts at the local level.

OTHER REFORMS

Rebuilding our parties at the grassroots is the most important reform we can undertake. But there are other problems that need to be addressed as well.

One new kind of PAC that may indeed be in need of immediate reform is the candidate PAC. Such PAC's are growing rapidly in number, and they raise unique questions of accountability.

Candidate PAC's take two forms. Some are formally established multicandidate committees, established by Members of Congress, for the explicit purpose of providing campaign contributions to other candidates for Congress. Such committees usually have impressive sounding names like "Salute America Committee," "Effective Government Committee," "Campaign for Prosperity," and "Fund for a Democratic Majority." In other cases, Members do not formally establish a PAC. They simply make substantial contributions to other candidates from funds in their own personal campaign committee, and then go out and raise more—ostensibly for their own election.

Such PAC's are becoming more and more common. The FEC estimates there were at least 23 formally organized congressional PAC's as of March, 1986, and they handed out more than $9 million to congressional candidates in 1984.

I believe there are two aspects of candidate PAC's which give cause for concern. First, they weaken public accountability. Citizens give contributions to a particular candidate with the expectation that those funds will be used on behalf of that candidate. What is more, for those who are concerned about the origins of campaign contributions, when campaign contributions are funneled through a candidate PAC or campaign committee, their origins are nearly impossible to trace. That is why DAN ROSTENKOWSKI, who handed out $140,000 to other House candidates in the last election cycle, has called for an end to the practice. In ROSTENKOWSKI's view, this practice is like washing money.

In addition to clouding public accountability, congressional PAC's distort the legislative process. According to some reports, such PAC's have been used to circumvent normal selection procedures for electing subcommittee chairs. One pioneer of this practice, Representative HENRY WAXMAN, has openly defended its use "to move legislation forward."

Madam President, I don't have a specific proposal in mind at this time for dealing with this situation. But it is clearly a growing phenomenon that deserves careful attention by the Congress in the near future.

A second issue that deserves immediate attention is independent expenditures. This is one of the most egregious loopholes in our campaign finance laws, thanks to the Supreme Court's decision in Buckley versus Valeo.

As the law now stands, there are no limits on independent expenditures by PAC's or single wealthy individuals, so long as the independent spender does not communicate with or coordinate his activities with any candidates in an election. The effects of this provision,

though unintended, can be substantial.

The most significant impact has been negative advertising. Of the $5.3 million spent independently by PAC's in 1981-82, $4.5 million was spent to oppose rather than in support of candidates. The grandaddy of them all was NCPAC, the National Conservative Political Action Committee, which spent 96 percent of its funds in 1982—over $3 million—on negative advertising. And this practice is not confined to PAC's. It is widely accepted that one former Member of this body, Chuck Percy, owed his defeat in no small part to the large amounts of negative, independent advertising paid for by Michael Gohlan.

Madam President, the point is not that independent expenditures are inherently negative. I was cochair of Americans for Change, which spent millions on behalf of Ronald Reagan's candidacy in 1980; we were not interested in negative advertising. Rather, my point is that this is a serious loophole in our present laws which is aggravated by the Boren amendment. Rest assured, once we cap PAC contributions to candidates, those funds will not simply dry up. They will find another outlet, and negative independent expenditures are likely to be it.

The third aspect of our present campaign finance laws that needs immediate reforming is unlimited campaign spending by wealthy candidates. This is another loophole opened up by the Supreme Court's Buckley decision.

Again, the result was never intended by Congress when it passed the Federal Elections Campaign Act in 1971. But its impact is very real. I ran against an opponent in 1982 who raised and spent $7.3 million, and $2 million was his own money. He could have spent $73 million if he had the money and could have found something to spend it on. As a result, the law's limits on party, PAC, and individual contributions applied only to me—even though I raised only about 60 percent as many funds as my opponent.

Madam President, it is outcomes like these which underscore the need for truly comprehensive reform—not the ad hoc approach represented by the legislation before us. By themselves, the PAC limitations in the Boren amendment would aggravate the inequality posed by wealthy candidates. By lowering the maximum PAC contribution from $5,000 to $3,000, and by placing an overall ceiling on all such contributions, they would make the playing field even more uneven. Had these provisions been in effect in 1982, I probably would not be here today. Although I raised only 24 percent of my total campaign funds from PAC's in that election, these limits would have capped that figure at about 6 percent. Since it costs my campaign committee 10 to 15 times as much to raise funds from small contributors—about 50 cents on the dollar—how is an average guy like myself expected to run against a millionaire under the Boren limits? It would be like David's slingshot before his battle with Goliath.

Fortunately, there are ways of dealing with this situation. SLADE GORTON has proposed legislation which would raise contribution limits for candidates faced with a wealthy opponent. There may be other solutions. The point is, unless the complex system of campaign finance is approached as a whole, we are bound to aggravate existing inequities and create new ones, thus perpetuating the cycle of "reforming the reforms."

Mr. President, we owe it to ourselves and our constituents to do better than that.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. BOSCHWITZ. Madam President, although he was elected in 1978, DAVE DURENBERGER has been involved in this issue of campaign finance reform for a long time. He was appointed by the Democratic Governor of Minnesota as vice chair of the State's first elected lobby law reform agency.

As Senator, and as chair of the Intergovernmental Relations Subcommittee, he held days of hearings and published two reports on this subject.

Madam President, I ask unanimous consent that Senator DURENBERGER's remarks to the Mainstream Republican National Leadership Conference be printed in the RECORD.

There being no objection, the remarks were ordered to be printed in the RECORD, as follows:

REMARKS BY SENATOR DAVE DURENBERGER TO THE MAINSTREAM REPUBLICAN NATIONAL LEADERSHIP CONFERENCE "GENERATIONAL POLITICS: A PARTY FOR POSTERITY"

I have been looking forward to this leadership conference with a special sense of anticipation because you're a special group of people. You're my kind of people.

The one thing we have in common is that we are, all of us, Republicans. We may differ in the reason for being Republican and the reason for being here today with what we presume to be similar kinds of Republicans. But we are all Republicans.

My own Republicanism is a gift from both my parents. I am here to share with you my concern that my gift to my four sons will not be very Republican.

It is that concern which is the heart of the special message I have for you this morning. I want to tell you about a new organization that has been formed and the message that it is tying to communicate across this land. The organization is called Americans for Generational Equity . . . A-G-E . . . or AGE. I am its chairman.

The purpose of AGE as an organization is to represent the interests of younger and future generations of Americans in the public policy process. It is an educational and research organization that looks into the future to see if the fundamental promise of America can be passed on to the next generation as it has been passed on to us.

It is sometimes a difficult message to communicate. We are not accustomed to looking at the generational aspects of public policy. And it is a message that is sometimes misunderstood or taken out of context because it deals with many of the most sensitive elements of our basic social contract.

So I thought I would start this morning by taking you out of our world . . . where political discussion is so loaded with symbols and slogans that it is hard to recognize a new message . . . and take you back a couple of centuries into another world . . . back into the world of the French Revolution . . . to create a metaphor to illustrate the concept of generational equity.

In the late 1960's, we had at the University of Minnesota a professor of political science who made the French Revolution his life's work. He was determined to find the cause of the French Revolution. And he did! After thorough study he published a learned thesis saying that it was all explained by the revenue policy of the French Kings.

In the early period of French national history—in the late 1500's and early 1600's before the economy was developed and well-regulated—the kings of France invented a unique policy to raise government revenue. They sold aristocratic titles. Whenever the King of France wished to embark on some new project, say a summer palace in the country-side or a small war in Central Europe, the King would go off and find the richest man in all of France . . . the richest man who was not a blue blood by birth . . . and would sell this rich man a noble birthright for a princely fee.

This revenue policy worked quite well for a very long time. Not only did it raise significant funds for the court, but it also had the effect of binding the most successful, free-thinking elements of the growing mercantile classes to the very traditional aristocracy of the old regime.

There was, however, a hitch in this revenue policy of the French court. A noble title in France was the badge of an office-holder in the French government. When you bought the title, you brought the office, as well. And holding an office in government meant that you were "en-titled" to an annual income from the King. So the King got his princely fee in the first year, but every year thereafter he was forced to pay some portion of it back as a salary to the new member of the aristocracy.

And the titles were hereditary, passed on from father to son to grandson, always, each-and-every year, requiring the payment of a salary to the entitled heir.

I am sure that all of you are way ahead of my story. You can see the pyramid effect of this policy. It's like a very early chain letter. Each year the King of France has to sell an ever greater number of titles to pay the salaries for those who bought an entitlement in the years before. And so on and so on.

The political science professor from the University of Minnesota actually gathered the data that allowed him to plot the path of this revenue policy over the reign of several kings. The result is very much like one of those exponential curves that you see so often. It starts off very slow in about 1600 and over a whole century rises only gradually. But then it begins to build momentum and all of a sudden, in the late 1700's, swoosh, off it goes . . . up into the stratosphere . . . like a jet fighter plane. It is just that kind of policy . . . policies that cannot

be sustained . . . policies that jump off the chart . . . that bring us together today.

Think for a moment about the recent growth in the annual interest payments on the national debt. Do you see the curve? Or add Star Wars on top of the defense buildup of the 1980s. Does the cost of the arms race all of a sudden jump off of the charts?

I said our professor found the cause of the French Revolution. As it happened the point where the professor's curve went critical . . . where it took off . . . coincided precisely with the outbreak of the revolution in France. It was not so much that the King could not raise sufficient revenue, but rather that everyone in France had become a marquis . . . a member of the ruling class. And when you have the King of France selling noble titles to the butchers and bakers and candlestick makers to keep the great-grandson of the first marquis of France in satin britches, you're bound to have a revolution. Or so said our professor . . . proved by publishing his curve in a well-respected journal.

I have used this example of the French Revolution because it describes the problem of generational equity. It describes a policy of borrowing from the future. The curve continually rises. Each year borrowing more from the next. That is the generational part.

And it describes an inequity, because the curve cannot be sustained. At some point it reaches a critical momentum and heads off in a vertical direction that reflects social, political and economic impossibilities.

Curves like this didn't die with the old regime in France. The purpose, in my mind, for the organization, Americans for Generational Equity, is to identify policies like this long before they reach the critical stage and to inform the Congress and the public so that steps might be taken to correct the path that we are on. AGE doesn't lack for work. Examples abound.

Take, for instance, the national debt. About two weeks ago your government announced that the national debt had officially passed the $2 trillion mark. It has more than doubled in the past five years. The debt curve went critical during the Administration of a Republican President who campaigned for twenty years against deficit spending. As Dave Stockman now tells us, the curve went critical in August 1981. We turned on the afterburners with an enormous tax cut and headed for the stratosphere.

In the most recent fiscal year, 1985, the budget deficit of the United States set an all-time record at more than $200 billion. In that year 77 percent of all federal expenditures were paid for by our taxpayers and 23 percent were borrowed from our children.

If you go simply by those who file forms, there are about 100 million individual taxpayers in this country. If you spread the $200 billion deficit out across that group, each taxpayer managed to avoid about $2,000 in additional taxes in 1985. But at what cost?

The government never actually repays its debt, so the cost of the 1985 borrowing is simply the interest that will be paid on that loan by future taxpayers. Let's say you're a twenty-year old just coming into the economy and that you pay taxes every year for the next fifty years or so. If interest rates average 10 percent over that period of time, your share of the interest paid on that $200 billion worth of borrowing for the 1985 budget will be $10,000. That's for just that one year of borrowing. It's also $10,000 for the $200 billion deficit of 1983 and $10,000 for 1984 and $10,000 for 1986. Pending our luck with the Gramm-Rudman process, perhaps $10,000 for each remaining year in this decade, as well.

So here is a problem of generational equity simply drawn. Each of us from this generation who were taxpayers in 1985 saved $2,000 by borrowing from the future. But at a lifetime cost of $10,000 for each taxpayer who joins our fold beginning in 1986.

I have given this part of the speech many times before. In fact, it was the debt and deficit of the United States Government that first led me into the thicket that we are now calling generational equity. But I find that many of my constituents have a hard time relating to this problem of debt.

So, I frequently illustrate the problem of generational equity by turning to trends outside the sphere of government altogether. I sometimes tell them about the largest body of freshwater in the world. It's not a lake. It's an aquifer . . . the Ogallala . . . an underground water formation that lies below eight states in the High Plains stretching from South Dakota to Texas.

That part which is under West Texas has been subject to intensive development for agricultural and other purposes. At the end of World War II the Ogallala in Texas held 500 million acre feet of water. That's an enormous amount of water. An acre foot is 325,000 gallons . . . enough water to flood one acre one foot deep.

And the Texas portion of the Ogallala was 500 million acre feet at the end of World War II. It's only 360 million acre feet today. By the end of the century . . . just 15 years from now . . . it is projected that water stored in that region will have fallen to 196 million acre feet. 60 percent of the resource will have been used up in just 60 years time.

It will take generations to restore. Today, the annual withdrawal rate is 6 million acre feet. The recharge rate . . . the rate at which rainfall soaks in to replenish the aquifer . . . is only 3 percent of that. Nature is putting back only 3 percent of what we take out each year. It will take 1,000 years to restore the water that we have mined from the region just since the end of World War II.

Think of that. The largest body of freshwater in the world built up over thousands of years drunk dry in a few decades time. If you were from West Texas, you would know that will mean the end of a whole way of life. In fact, the changes are already beginning. Each year thousands of acres are lost . . . back to dryland farming.

A policy that consumes the resource . . . that borrows from the future . . . a policy that cannot possibly be sustained . . . that has already passed the critical point . . . it is a too frequent picture when we look at the world's natural resources.

I could have substituted the topsoil of Iowa for the ground water of Texas. Same period of time . . . since the end of World War II. Roughly, the same percentage of loss . . . more than 50% of the topsoil in Iowa has been lost to wind and soil erosion since the end of World War II. And when I talk about the loss of half of our topsoil in a single generation, when I express the problem of generational equity in that way, you can be sure the concept grabs the attention of my constituents.

Being the chairman of an organization like Americans for Generational Equity, and an elected politician at the same time, can be a very difficult task . . . so my myths and misperceptions out there. One misperception is that the message is a criticism of where we are today. Folks don't believe that the nation is fundamentally on the wrong course. In fact, things don't seem that bad at all, so why make an issue of what might go wrong in the future?

Because we can. There were no actuaries or statisticians or policy analysts . . . no citizens for generational equity . . . to save King Louis of France from the logic of his revenue policy. But we have that vision. We can study and consider the likely effects of our policies on those Americans who will follow us.

And when we look, we find that there is a fundamental misunderstanding of the plight of the new generation . . . the baby boom generation . . . that is about to inherit the political and economic responsibility for the course of our nation.

There is an impression that they are all yuppies . . . .MBAs who go through life in BMWs making the tough choices . . . like whether to put this year's IRA in a bank deposit or a mutual fund. Again, a myth to be exploded. Boom has not been the economic byword of the new generation.

During the 1950's, the average American male passing from the age of 25 to the age of 35 saw his income rise by 188 percent. During the next decade, the 1960s, a man making the same transition realized a 108 percent gain in income. But the fellow who was 25 in 1970 gained only 16 percent by the time he had reached 35.

While incomes stagnated, the cost of living has risen dramatically, best reflected at the center of the family budget, housing costs. In 1949, the average 30-year old could meet the mortgage payment on the median-priced house with just 14 percent of his income. By 1984, the mortgage payment on the median-priced house had risen to 44 percent of the average 30-year old's income.

But perhaps the most threatening economic prospect facing the 78 million Americans born between 1947 and 1964 is their retirement.

And they know it. It is still thirty years away, but they can see it. They know where we're headed. When the public opinion polls say that the children of the Baby Boom generation don't believe that Social Security will be around to help them with their retirement, they are simply expressing an intuitive understanding of that same impossible policy curve that I have described this morning.

Social Security was begun in 1935 with a very modest tax on a very small part of the income of the American worker matched by an equal contribution from his or her employer. And it stayed a modest tax through its first few decades. By 1965, when we added Medicare and the Hospital Insurance Trust Fund, total old age taxes—both the employee and employer contribution—amounted to only 8.4 percent of taxable earnings. But the momentum for increases was gathering.

By 1975 the tax was 11.7 percent of total taxable earnings and it climbed again to 14.1 percent in 1985. Total payroll taxes will likely rise to 16 percent of taxable earnings during the next decade and perhaps to 20 percent by 2010.

But it is with the retirement of the Baby Boomers beginning at about 2020 that we see the staggering increases. The pay-as-you-go plan of Social Security stacking the huge numbers of the Baby Boom on the shoulders of the too small baby bust, will

produce, by most projections, numbers we know to be politically impossible.

One of the so-called pessimistic accounts . . . one which you might call realistic, if the past few years are the pattern of the future . . . projects payroll tax rates of 27 percent in 2020, 35 percent in 2030, 39 percent in 2040 and topping out at 42 percent in the year 2060 as the tail-end of the Baby Boom moves through the retirement system. I don't think anybody in this room believes that we can sustain a policy that calls for a tax of 42 percent on the incomes of American workers for the sole purpose of paying the public pensions and the hospital costs of the elderly.

Those numbers simply do not describe a political reality. They describe a generation inequity of huge proportions.

So what has all of this to do with being a Republican? I am sure you didn't expect to hear stories of the French Revolution, the debt of the United States, the depletion of the Ogallala Aquifer and the retirement prospects of the Baby Boom . . . all in one speech . . . perhaps not all in one week . . . and certainly not at an event like this. But you are precisely the group who can make the most of the message that links these seemingly unrelated stories.

Return to the debt of the United States for a moment and consider how we got all these programs we dare not cut. They came in the first instance from our view of ourselves as a nation and as citizens. We are a country of doers. When we see a problem—in health care or education or environmental protection—we think of it as an opportunity to do something. We don't turn the problem over to a bureaucracy or an aristocracy or even the Congress. We go out and invent a solution for ourselves. We organize some association of persons—a nonprofit or a charity or a neighborhood group—we get together a collection of folks who also think it is a problem, and we work together to find a solution.

And if that solution works, it catches on. People in other communities and in other parts of the country try to follow the example. They often turn to local or state government to get the effort underway. Pretty soon you have the problem under attack in various parts of the country and a network of people sharing ideas. America is one great community. If the problem gets solved, at home, we also want it solved down the block, in the next town, and down in Mississippi. We judge our nation and we judge ourselves that way.

And then a Congressman or a Senator will catch on to the idea and will go out to Washington and advocate that the whole nation have this particular solution. Maybe the whole nation doesn't even have the problem. So the problem gets redefined some. We attack the main issue and several issues that are closely related. Soon there is a caucus or coalition of members in the Congress who develop a stake in the solution. And when it gets defined broadly enough and you get a majority, a bill is passed and a national program to respond to the problem is put in place.

A government agency is established to carry out the program and an interest group grows up around it. The members of the group develop a stake in seeing the program continued. Whether the federal program works or not—even if it completely eradicates the original problem—the interest group will hang on because their program is their reason for being.

That's how we got 1,100 programs of domestic assistance, a tax code which is mostly loopholes and a public that doesn't want anything changed. We start with a problem. We apply our definition of good citizen. We form an association. Mix in a politician or two acting as an entrepreneur for the idea. And we end up with thousands of iron triangles driving a $200 billion wedge between spending and revenues.

Americans have always been that way. Americans have always organized as groups and associations to promote their interests. And they have always petitioned government for programs that would serve those interests. And for the whole of our history, the Congress has been responsive. The men and women who serve in Congress today are not less inclined toward the public interest or more inclined toward the special interest. We have no less spine than the stalwarts of the 19th century. In fact, I think Congress gets better all the time. We work harder at our jobs. We are better informed. We are more experienced in other facets of life.

So why is it that in this decade . . . with this President . . . with this Congress . . . that the deficit is all of a sudden out of control?

Well, there is a new element which has greatly changed the balance between the demands of the public organized as special interests and the willingness of the government to respond with spending programs or tax breaks. It is an institutional change . . . a sea change in American politics. It is the decline of the political party. We have lost the use of the only institution that can define and put into practice the interest of all Americans . . . the political party . . . seeking out . . . and speaking for . . . the majority of our citizens.

There are many reasons for the decline of the party but two are especially important in understanding the problems that we are discussing today. One is reform of the policy-making process in the Congress. And the second is the change in the technology of campaigns and elections.

The congressional process has been made responsive—one might even say extremely sensitive—to the will of the people by making it completely open to the people. There are no more backroom deals. No bourbon and branch water at four in the afternoon for our leaders.

We have greatly diminished the authority of our leadership, proliferated the number of subcommittees and staff and focused the spotlight—and now the TV camera—on every detail of the legislative process.

These legislative reforms have separated me from my party. Because of them, I am much more the legislative entrepreneur, much less the subsidiary of a larger corporate endeavor. I chair a full committee and three subcommittees in the Senate. Each is a platform from which I can launch my own legislative initiatives. Each staffed by professionals. Each followed closely by the other parts of the triangle, the interest groups and government agencies, who work closely with the subcommittees to protect our cherished programs.

Along with the reforms in the legislative process there has been a revolution in the technology of campaigns and elections and the means by which I and my colleagues in the Congress communicate with our constituents. Public opinion polling. Thirty second spots on TV and the radio. Direct mail.

Computer tape has replaced shoe leather as the most important hardware in a campaign. Parties, which had a near monopoly on the labor-intensive shoe-leather technology, have been replaced by the adman, the mailman and the PACman delivering high-tech products designed by the candidate and tailored for narrow and multiple audiences.

There is no shortage of ideas on how to balance the budget. In fact, there are at least 536 plans in nation's capitol to get us out of the fiscal mess that we're in. But what we don't have is a single instrument of policy that will bring us together on the one plan that is best for the nation.

Some were hopeful that the so-called Gramm-Rudman legislation would be the silver bullet that we had been looking for. But even the threat of automatic across-the-board cuts has moved us no closer to consensus. The first deadline in Gramm-Rudman has already been missed and the Republicans in the Senate are, if anything, more divided this year than at any time in the past. And we are not even communicating with the Republican in the White House about the budget.

Let me see if I can bring the two themes of this speech . . . generational equity and the decline of the political party . . . together now into a clear message for the people in this room. The message has four parts.

First, we need the discipline of a strong political party to solve the problems that face this nation.

Political parties have been the instrument to solve difficult national problems in the past. There was a time when a Republican was necessarily an abolitionist. And at another time in our history a Democrat was by definition a New Dealer. But today the labels Republican and Democrat tell you next to nothing about the views of a candidate or a voter. The party has lost its role in directing the course of national affairs and there is no other institution at the top of the pyramid of interests that can represent the grand interest—our shared interest as citiznes. We need to bring back the party to end the chaos of continuing deficits and to get on with the other reforms sought by our people.

The second part of this message is that we as Republicans need to lead the way in bringing the political parties back into the policy-making process. Trading in the political machines like Mayor Richard Daley for the independent, citizen-candidates like Ronald Reagan or Clint Eastwood may seem like a good deal for Republicans, but it also means losing the power to implement a consistent philosophy of government at every level from the town board to the county commission to the state capitol to the halls of Congress. And to keep the philosophy going from one administration or generation to the next.

We Republicans need to lead the way, because it will be the most difficult for us, particularly those of us who are Republican officeholder, to give up the advantages we enjoy under the current rules. After all, it has been the candidates of our party who have benefited most by the revolution in campaign and communications technology. So, the second part of the message is that political reforms . . . campaign and legislative reforms . . . must be at the top of our agenda.

The third part of the message is that the Republicans in this room have nothing to fear from a strong Republican Party. I have delivered this message before and had someone say, "Durenberger, if the Party had the power to discipline Republicans who strayed from the party platform, it's guys like you who would feel the lash first."

Well, I don't believe that for a moment. It is only when a party is weak that it tends to wander off in the direction of a political extremism. We Republicans have some problems in that respect, but let me use the example of the followers of Lyndon LaRouche right here in Illinois to illustrate the point. Does anyone here think those folks would have had a chance to capture the name of the Democratic Party . . . to force its gubernatorial candidate off the ballot . . . if the party had been working for the people of Illinois? Of course not.

If we would strengthen our party . . . make it once again the instrument we use to contest elections and make public policy . . . live by its discipline and follow its fortunes . . . do you doubt but what it would move toward the mainstream . . . toward the ideas represented in this room? That's the third part of my message today.

The fourth part of the message is that a strong Republican Party, a party carrying the political agenda we all share, can be a majority party. However, difficult its current economic condition, the Baby Boom is about to come of age politically. It is about to become the majority of the electorate. In elections this fall, voters who are under the age of forty will for the first time be more than half of the people going to the polls.

If we can adopt their vision . . . understand the impact of our policies and proposals on their future . . . we also will rise with that new majority.

We need to have a positive message about government. It is not just a necessary evil. It is easy to beat up on government until your street doesn't get plowed, your kid flunks out of school, your wife or husband dies from poor health care or an epidemic and the Soviets take control of the Middle East and the oil cartel. It's only when the going gets a little bit tough that people also come to understand the need for good government.

Our shared agenda . . . from education to environmental protection to arms control to women's rights to a sane fiscal policy for the nation . . . is the same agenda that motivates the new generation. They can see that too many of the policies we have today are just a way of borrowing from the future. And borrowing at a rate that cannot be sustained.

So the fourth part of my message is that generational equity needs to be at the heart of our political philosophy. Every good politician . . . and every good parent . . . knows has always known . . . the fundamental rule of generations in America. Pass on to the next generation choices better than our own.

To the extent that we renew that old value . . . and put it to work in the Republicanism that we all share . . . we can have a strong party . . . a majority party . . . that can be the instrument to serve the interests of all Americans . . . those in our generation . . . and those who follow.

Thank you very much for giving me the opportunity to share this special message with you today.

□ 1240

Mr. BOSCHWITZ. Madam President, I yield 6 minutes to the junior Senator from the State of Washington.

The PRESIDING OFFICER. The Senator from Washington is recognized.

Mr. EVANS. Madam President, the amendment which is now in front of us offered by Senators BOREN and GOLDWATER seeks a worthy goal. We would all like to broaden involvement in the political process. We would all like to reduce, if we could, what we consider unusual and detrimental influences.

Of course, what is someone's broad public interest is another person's narrow special interest. We have different descriptions depending on where we stand, who we endorse, and who we support.

Madam President, this is not as simple a subject as some would suggest. I think some would suggest that all PAC contributions are evil, that all PAC's are bad; that all individual contributions are beneficial, and that all individual contributors are good.

Madam President, I reject that suggestion. The last time we tried to amend or change campaign contribution laws we changed some things that have led to our current situation. In 1976, contribution limits were placed on individuals and political parties, and PAC's have grown simply meeting the demands of today's expensive financial reality.

Madam President, we never pass laws in this Chamber, whether they have to do with farm subsidies, international affairs or PAC contributions that we do not set in motion a whole new set of reactions. People react to the laws we pass. They find new ways of accomplishing the purposes they seek to accomplish, and the laws themselves simply guide them in new directions, or they open or keep open such vast loopholes that they do not carry out what was purported.

I had an interesting experience in 1983 after an 11-year hiatus from the last time I ran for public office. I came back into the political arena. The special election for the Senate in the State of Washington was only 60 days in length. During that period of time, we raised and spent more than $2 million. Not very much of that, certainly a minor share, was from PAC contributions. But it was a staggering amount of money considering that all of the previous races that I had run, four races for the State legislature, and three races for Governor combined did not cost that much money.

I began searching to find out why we were spending so much money. Was it just because we could raise it and, as a result, could have an infinitely more lavish and elaborate campaign? Not really so. We did the same things we had done before. We advertised. We went on television. We put ads in the newspapers. But by and large we did what we had done before. And that was to use people, thousands of people, as individual volunteers. They volunteered on the telephones, they volunteered on the doorbell, they volunteered to go out and raise small campaign contributions, and we had thousands of contributors to that campaign.

The fundamental reason that it cost so much compared with previous campaigns is we found compared with that last campaign 11-years earlier that television advertising had gone up by more than 400 percent. Newspaper and radio advertising had more than doubled.

Madam President, the reason campaigns cost so much today by and large is because those who rail against campaign contributions, those who editorialize on television and in the newspapers against the size of campaign contributions are the very ones who are ensuring that campaigns cost what they do today. Their charges to candidates have gone up far more than the cost of living in the same period of time. They represent, I suppose, the classic management of supply and demand. They also, as I think any Member of this Senate knows as a candidate, require payment in advance so they have no accounts receivable. They have no bad debts. They make sure they get their money. It does not keep them from charging extraordinary prices.

We have seen campaign contributions from PAC's go up in a staggering fashion. I am sure those who advocate these amendments or this amendment have set forth the increase. But let me just remind you that during the 10-year period since the 1974 election PAC's have grown from $12.5 million in congressional candidate contributions to 1984 where it was $110 million. Over this 10-year period total Senate campaign funds from individuals contributing under $100——

The PRESIDING OFFICER. The Senator's 6 minutes have expired.

Mr. BOSCHWITZ. How much more time does the Senator desire? He is doing so well.

Mr. EVANS. If there are 4 more minutes available.

Mr. BOSCHWITZ. How about 3? I ask unanimous consent.

Mr. EVANS. I will try to do better faster.

The PRESIDING OFFICER. The Senator from Washington.

Mr. EVANS. Individual campaign contributions fell from 38 percent to 28 percent while PAC's contributions rose from 11 to 18. But it still means today that three-quarters of the contributions are coming from other sources than PAC's. This amendment, and this proposal would suggest that we eliminate the evil of bundling PAC contributions so that someone can come in and say to a candidate, here on behalf of these various PAC's purportedly representing the same or similar interests is $50,000, $60,000, $70,000, or $80,000.

Madam President, what this amendment does not do is prevent precisely the same thing from happening through individual contributions. In fact, it makes it easier by increasing those contributions from $1,000 to $1,500. But that $1,000 to $1,500 can come from a husband, a wife, each child, the nephews, nieces, and the grandmothers and who else can contribute. They can ask other individuals to contribute also. There is nothing, to my knowledge, that would prevent one of those individuals from coming to a candidate and saying here are a number of individual campaign contributions. Whether that does or does not happen, it is a fact that many individuals today perfectly legally, especially when you consider what comes from members of the same family, can have extraordinary impacts on elections.

All I want to point out, Madam President, is that PAC's are not all bad. Individual contributions are not all good. I think there is change to be made. But we only hit the tip of the iceberg with the Boren amendment. I think we can do better. And I think we ought to do better.

AMENDMENT NO. 2690

Mr. BOSCHWITZ. Madam President, I send to the desk an amendment and ask that it be printed.

(The text of the amendment follows:)

AMENDMENT NO. 2690

(Purpose: To amend the Federal Election Campaign Act of 1971, to prohibit PAC contributions to national parties, require disclosure of soft money, and for other purposes)

At the appropriate place, add the following new section:

SEC. . (a) Section 315(a)(2)(B) of the Federal Election Campaign Act of 1971 is amended by striking out all after "party" and inserting in lieu thereof a semicolon.

(b) Section 304(b) of the Federal Election Campaign Act of 1971 is amended—

(1) in paragraph (2)—

(A) by striking out "and" after the semicolon in subparagraph (J);

(B) by inserting "and" after the semicolon at the end of subparagraph (K); and

(C) by adding at the end thereof the following:

"(L) for a national committee of a national party, all funds received, from any source, for purposes other than to influence a Federal election, except funds received in accordance with section 301(8)(E)(viii);";

(2) in paragraph (3)—

(A) by striking out "and" after the semicolon in subparagraph (F);

(B) by inserting "and" after the semicolon at the end of subparagraph (G); and

(C) by adding at the end thereof the following:

"(H) for a national committee of a political party, person or organization providing funds reportable under subsection (b)(2)(L) of this section;"; and

(3) in paragraph (4)—

(A) by striking out "and" after the semicolon in subparagraph (H)(v);

(B) by inserting "and" after the semicolon at the end of subparagraph (I); and

(C) by adding at the end thereof the following:

"(J) for a national committee of a political party, all disbursements from funds reportable under subsection (b)(2)(L) of this section;".

(c)(1) Notwithstanding any other provision of law, section 315 of the Communication Act of 1934 (47 U.S.C. 315), as amended by this Act, is amended—

(A) by striking out subsection (b), as added by this Act; and

(B) by redesignating subsections (c), (d), and (e) as subsections (b), (c), and (d), respectively.

(2) Section 315(a) of the Communication Act of 1934 (47 U.S.C. 315(a)), as amended by this Act, is amended by striking out, "subsection" and inserting in lieu thereof "section".

(3) Section 315(c) of the Communication Act of 1934 (47 U.S.C. 315(c)), as redesignated by subsection (a), is amended to read as follows:

"(c) For purposes of this section—

"(1) the term 'broadcast station' includes a community antenna television system; and

"(2) the term 'license' and 'station license' when used with respect to a community antenna television system mean the operator of such system.".

Mr. BOSCHWITZ. Madam President, one of my objections to the Boren amendment is that it is a very limited attempt at campaign finance reform that is being achieved if the Boren amendment passes.

As I noted earlier in response to the remarks made by the Senator from Kansas [Mrs. KASSEBAUM], because you restrict PAC's contributions to candidates, and because PAC's have learned how to raise money, we fear independent expenditures will be made by PAC's because those are in no way restricted. And, as a matter of fact, that probably is the result.

I pointed out in my remarks that it is the unintended result of campaign reform that we remember that PAC's arose because of the campaign reform of 1974 and 1978 when people gave hundreds of thousands and in some instances millions of dollars to campaigns.

□ 1250

It was an effort to restrict the impact on wealthy individuals that the campaign reform bills of 1974 and 1976 were passed. Now some of that is being undone by the Boren amendment because, as my friend from Washington just pointed out, the individual restrictions are raised to $1,500, and the PAC contributions are lowered.

I also pointed out that twice as many people gave through PAC's in Senate campaigns. So PAC's had the impact of broadening the participation in politics.

I ask unanimous consent, Madam President, that an article by Michael Malbin, which appeared in the Washington Post, entitled "Fixing Up the Boren Bill," be inserted in the RECORD at this point.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Dec. 2, 1985]

(By Michael J. Malbin)

FIXING UP THE BOREN BILL

Sen. David Boren's campaign finance bill is expected to come up for debate and a vote during the first week of December. Taken by itself, the Boren bill would cause as many problems as it would solve. But if the Oklahoma Democrat's ideas are joined with some other good ones on tax credits and political parties, Congress just might end up with a politically feasible package that would improve elections in this country.

Boren and his cosponsors believe candidates depend too much on political action committees (PACs) for their campaign contributions. Their solution is to limit how much candidates can accept from all PACs combined. Assuming both a primary and general election, the bill would limit House candidates to $125,000 in PAC receipts and Senate candidates to between $200,000 and $750,000, depending on the size of their state. The figures are close to the present average for the House, but would prevent further growth. (The bill does not have a cost-of-living escalator.) Senate races would be put on an immediate financial diet.

The bill has an obvious appeal. Almost nobody likes how much some candidates depend on PACs for campaign money. I am skeptical that the bill will reduce dependence as much as the sponsors say, but let us assume that it does. To achieve this result, the Boren bill would leave equally serious problems in its wake. These must be identified before Congress can think about corrections.

Why do I think that the bill will not achieve its stated objective? Because any limit on PACS will stimulate well organized groups to form ad hoc independent expenditure committees in competitive districts or states. The bill tries to address independent spending with a constitutionally dubious provision requiring broadcasters to give free time to attacked candidates. Even if the limit on broadcasters slips by the Supreme Court, however, there is no way Congress can stop groups from spending unlimited amounts on telephoning, mailing or other activities. If this happens, and PACs end up going around the campaigns, the bill paradoxically may end up making elections more dependent on the strategies of large and well-organized PACs instead of less.

Let us go along with the sponsors, though, and assume the bill would cut the role of PCAs. How would the lost money be replaced? The Boren bill would work most heavily against PAC money that comes to a campaign late. But late money—crucial in a close race—cannot possibly be raised in small contributions.

Without late money, underdogs cannot buy advertising for the final push against a front-runner. The underdog cannot hoard money, because the underdog has to work hard to reach the point where late spending might even make a difference. But this bill would dry up the one source of money the law still allows for large, last-minute gifts. About the only people who could raise large amounts late, therefore, would be rich candidates who are willing to open their personal checkbooks.

To top it off, the candidates catching up during a campaign's final days are much more likely to be challengers than incum-

bents. The bill as it stands, therefore, unintentionally turns out to be a Rich People's, Independent Spender's and Incumbents' Protection Act.

There is a way out of this box. If the main problem is that a PAC limit would dry up needed funds, the solution is to find replacement money. Ordinary public financing would not do the job because matching funds could not supply late money, and because most public financing bills include spending limits that favor incumbents. But two other approaches will work, if they are joined.

The first is to loosen up the limits on political parties. It would clearly be healthier if candidates relied more on parties than on PACs for late money. Unfortunately, the Republicans have a financial advantage over Democrats now, and Boren has said he would kill his own bill if a party amendment were added to it. I assume he reasons it would be better to help rich candidates and incumbents than give the other party a fund-raising edge.

Instead of threatening to pull the bill, it would be more sensible for Boren to see the Republicans and raise them one. Boren should think about accepting a party amendment if the GOP will adopt one promoted by the House Democratic Study Group: a 100 percent tax credit for individuals who give small contributions to candidates from their own state.

The Democratic Study Group bill would change the mix of contributions more than any other single approach I can imagine. Unfortunately, the odds against ever passing a 100 percent tax credit will go up unless Congress moves quickly. The House Ways and Means Committee removed the existing 50 percent credit in its version of tax reform. Today's broad 50 percent credit does little to stimulate giving and does not deserve to be law. A targeted 100 percent credit is a revenue-neutral replacement for the existing law.

So the Boren bill can be looked at two ways: by itself, or as part of a package. By itself, the bill would limit PAC receipts, decrease the supply of late campaign money and stimulate independent expenditures—a clear formula for trouble. A package could limit PAC receipts, stimulate small givers and make candidates depend more on their parties. That would be a bill worth supporting.

Mr. BOSCHWITZ. Madam President, the amendment I have submitted for printing addresses three other issues. First, it requires disclosure of all so-called soft money to the national party committees. Currently parties may receive unreported contributions to fund activities not directly benefiting candidates for Federal office. This soft money is not subject to the Federal election contribution law nor needs to be reported. The contribution of these funds would otherwise be prohibited by Federal election laws. This important campaign reform issues is not addressed in the Boren amendment.

A July 21 issue of U.S. News & World Report includes an article on soft money. That article states that in the last 5 years upward of $55 million in corporation and union money has flowed into Federal campaigns despite laws barring those groups from contributing to the Federal races. Soft money is used for so-called party building. Soft money may also be used for building buildings or for other things that are not associated directly to the candidates.

I ask unanimous consent that the article referred to in U.S. News & World Report be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From U.S. News & World Report, July 21, 1986]

"SOFT MONEY" HITS HARD IN 1986 RACES

(By Steven Emerson with Jonathan Rosenbloom)

The approach of another election is sparking fresh demands for a crackdown on massive funding of federal candidates by corporations and unions.

Laws dating back to 1907 have barred business and labor from contributing to federal races—prohibitions that were toughened by Watergate-era reform measures that imposed strict limits on campaign contributions as well as public disclosure of all donations.

Yet in the past five years, upward of $55 million in corporate and union money has flowed into federal campaigns. How? National political parties are relying on a lawyerly distinction between federal and nonfederal campaign activity to defend the collection of large and often undisclosed contributions from corporations, unions, and wealthy individuals.

These funds, called "soft money" in political circles, are given to state and local parties ostensibly for nonfederal use such as voter-registration drives. But much of this spending, only loosely regulated by the states, is also designed to help elect candidates for President and Congress.

"The post-Watergate campaign-reform legislation has totally unraveled," declares Ed Zuckerman, editor of the PACs and Lobbies newsletter.

For this year's elections, the Republican National Committee plans to pump at least $10 million, including some $2 million in soft money, into GOP coffers in 15 to 17 states with close Senate races. Is this money going to help these Republican senatorial candidates? "Absolutely," says Mark Braden, general counsel of the RNC, "but it's not going to count against our overall spending limit because the money is for generic Republican Party building efforts."

Both parties refuse to release figures from six key soft-money accounts—their building funds. Although earmarked for headquarters expenses, these funds handle millions of dollars free of auditing by any government agency.

U.S. News & World Report obtained copies of the contributor lists for two of these building funds. Donors were not always aware of the allocation, and some gave to both parties.

Among those recorded as contributors to the Republican National Committee's building fund in 1985 and 1986: Philip Morris ($10,000), Bethlehem Steel ($40,000), Sun Company ($20,000), American Express ($10,000), Burlington Industries ($10,000), Touche Ross ($20,000), American Financial Corporation ($55,000), Bell Atlantic ($10,000), Texaco ($10,000), Drexel Burnham Lambert ($24,120).

Among donors identified as recent contributors to the Democratic Congressional Campaign Committee's building fund are the Tobacco Institute ($20,000), Atlantic Richfield Company ($20,000), the International Brotherhood of Painters and Allied Trades ($50,000), Phillips Petroleum Company ($15,000), Communications Workers of America ($10,000), National Community Action Program of the United Auto Workers ($10,000), Chicago Mercantile Exchange ($15,000), Continental Airlines ($10,000), the Machinist Union's Non-Partisan Political League ($5,000), Toyota ($20,000).

Candidates have been equally creative in finding avenues for collecting and spending money outside the provisions of federal law. Undeclared presidential candidates have set up tax-exempt foundations to promote their views, subsidize their travels and even mobilize delegates for the 1988 conventions. Not subject to restrictive limits, donations to such supposedly nonpolitical foundations are considered to be deductible for tax purposes.

Officeholders who have created tax-exempt foundations include: Democratic Senator Bill Bradley of New Jersey, Democratic Governor Bruce Babbitt of Arizona, Republican Representative Jack Kemp of New York, Democratic Senator Gary Hart of Colorado and GOP Senators Bob Packwood of Oregon and Jesse Helms of North Carolina. The Freedom Council, a "nonpartisan" foundation set up by TV evangelist Pat Robertson, spent over $350,000 in Michigan alone on recruiting precinct candidates for GOP convention delegates.

"These new quasi-political, tax deductible foundations are outrageous," says Herbert Alexander, a political-funding expert and head of the Citizens' Research Foundation. An official of the Internal Revenue Service concedes that the agency rarely investigates the applications of tax-exempt foundations.

Presidential aspirants also have found it advantageous to sponsor political-action committees, purportedly created to raise campaign funds for other candidates. Records of the Federal Election Commission show that up to 65 percent of the money collected by Vice President George Bush and 89 percent of the funds raised by Representative Kemp have been used to pay fund-raising expenses, staff salaries and the cost of ferrying the candidates around the country for political appearances.

Says Ellen Miller of the Center for Responsive Politics, a nonprofit election-reform group: "If the corporations and fat cats aren't buying special influence with their soft-money contributions, why are both parties denying the pubic the right to know who foots the bill in the elections?"

Martin Franks of the Democratic Congressional Campaign Committee doubts that such contributions gain the giver any additional sway. "If you can afford to write out a check for $50,000," he argues, "then you already have influence."

In late June, the self-described citizens' lobby Common Cause filed a lawsuit against the Federal Election Commission for not curbing the use of soft money in federal elections.

Responded commission chief Joan Aikens: "The commission has found little evidence of abuse. The states have to spend money on voter registration, even though it may affect the outcome of federal races. Yet if the Congress wants to change the law, we will regulate soft money."

Mr. BOSCHWITZ. I am not charging that there are illegalities, but I am saying that these funds should be

fully disclosed and my amendment would do just that.

The second part of my amendment would prohibit political action committee contributions to political parties. Presuming the success of the Boren amendment which would limit PAC contributions to candidates, one result would be that PAC's would give to political parties, which, in turn, could give to the candidates. So if the purpose of the amendment that Senator BOREN has offered is to limit the role of PAC's, he is frustrating his own amendment unless we are able to pass my amendment that would limit political parties receiving large PAC contributions.

I do not believe that it is the intent of the Senator from Oklahoma to have that result.

The third part of my amendment strikes a section of the Boren amendment which would require broadcasters to provide free response time to opponents. That provision is of questionble constitutional merit. I believe the senior Senator from Connecticut will want to come down and talk about it, though he may not be here today. He will present his remarks tomorrow. I believe the Senator from Oklahoma has also agreed that it can be dropped from his package.

Those are the three things that the amendment will do.

Also, Madam President, I will offer other amendments tomorrow for printing. Under the unanimous-consent agreement we can only vote on two amendments, the amendment I have just offered for printing which I will offer tomorrow, and the amendment of the Senator from Oklahoma.

The other thing that I hope will come from this debate is that a commission be appointed and that the commission look in a nonpartisan way over the whole business of campaign expenditures. Very frankly, it is very difficult for Senators to vote on their own pay, and it is also equally as difficult to vote on this floor in a manner that would constructively limit or control or in some way improve the financing of campaigns.

It would also be my hope that political parties could be strengthened by yet another amendment which would increase their role.

I ask unanimous consent, Madam President, at this point to include in the RECORD statements of a number of political scientists with regard to expanding the role of the political parties in the process.

There being no objection, the statements were ordered to be printed in the RECORD, as follows:

THE FUTURE OF AMERICAN POLITICAL PARTIES: THE CHALLENGE OF GOVERNANCE

(Edited by Joel L. Fleishman)

THE CHANGING STYLES OF AMERICAN PARTY POLITICS

(By Gary R. Orren)

On the whole, however, the federalization of campaign finances has hampered political parties.

While the finance laws have hamstrung political parties, they have also encouraged the rise of other sources of funding and thus brought new competitors to the arena of election campaigns. The law has helped to foster the growth of PACs, which are the fastest growing source of money in congressional and senatorial campaigns. These committees directly compete with political parties for influence over public officials. Independent expenditure committees are another increasingly important source of competition for the parties. Unlike the parties, the amount they may spend is unrestricted.

---

STATE PARTIES IN AN ERA OF POLITICAL CHANGE

(By Robert J. Huckshorn and John F. Bibby)

Because of the restrictions on the amount of money that state and local party organizations can contribute to federal candidates under this legislation (the Federal Election Campaign Act of 1971 as amended), the state parties have been rather effectively excluded from a major role in financing the campaigns of federal candidates. At the same time, the FECA encourages the creation of political action committees (PACs)—a major competitor of the parties for political influence.

Financing Congressional Campaigns—In congressional and senatorial elections, the role of state and local parties has also been limited by the FECA. The act imposes expenditure and contribution limits on the support that can be provided by parties to candidates. As a result, congressional and senatorial candidates must rely heavily on nonparty sources for funds. Therefore, representatives and senators, once in office, feel little sense of obligation to their state and local parties, and the parties lack significant influence on the behavior of legislators in the halls of Congress.

---

POLITICAL MONEY AND PARTY STRENGTH

(By F. Christopher Arterton)

Party scholars who believe that the finance laws are detrimental to political parties raise some strong arguments to support their position. Where the law provides public funding in the presidential race, the money goes directly to the candidates rather than through the party committees. The act also limits parties in what they can spend on behalf of their candidates, while wealthy individuals and political action committees are able to spend unlimited amounts on independent expenditures. While the act does not directly encourage the growth of political action committees, it has provided the environment in which contributions by PACs are increasingly important in the receipts of congressional and senatorial candidates. Finally, the law restricts campaign budgets, either through the limitations on spending by presidential candidates or through sharply circumscribed contribution limits for all federal candidates. Since there is some evidence to support the contention of campaign managers that meager resources force them to rely more heavily upon the mass media, the act may have indirectly undercut the volunteer, person-to-person activities that have traditionally been the strength of party committees.

---

THE FEDERAL ELECTION CAMPAIGN ACT: AFTER A DECADE OF POLITICAL REFORM

(By Herbert E. Alexander and Brian A. Haggerty)

Report of a Conference Sponsored by Citizens' Research Foundation, April 2-3, 1981:

The well-publicized decline of major-party influence was blamed by conference participants on a variety of factors, direct and indirect, within and outside the federal election campaign laws. Thomas McCoy attributed a measure of responsibility for party decline to the FECA itself. "All the proponents of this act sit around talking about supporting and finding ways of strengthening the parties," he said. "This act does exactly the opposite. It's anti-political and anti-good sense." Ruth Hinerfeld, speaking for the League of Women Voters, likewise blamed the FECA for diminishing the role of the parties, though for her organization that consequence was unforeseen. "We never expected an insistence on limitations for contributions from all sources could inhibit grassroots political participation or the roles of the political parties in the American body politic," she said.

---

THE CASE FOR PAC'S: A PUBLIC AFFAIRS COUNCIL MONOGRAPH

(By Herbert E. Alexander, Director, Citizens' Research Foundation)

Advocates of such party-strengthening measures maintain that parties with more funds to help candidates—through direct contributions as well as the provision of services and the latest in campaign technologies—might well earn the respect, and even the loyalty, of party candidates. In fact, many candidates would prefer to accept campaign funds from their political parties rather than from PACs. Stronger parties, party advocates hold, would strengthen the political system by encouraging elected representatives not only to serve their constituencies, but also to serve the public interest as formulated by their parties in terms of reasonably coherent programs. Strengthening the parties could be accomplished without further restricting the activities of political action committees. In addition, to the degree that effective parties counteract the fragmentation many observers note in American politics, they will diminish the misguided tendency to blame PACs for that phenomenon.

---

APPLICATION AND ADMINISTRATION OF THE FEDERAL ELECTION CAMPAIGN ACT OF 1971, as Amended

(Remarks of Anthony S. Harrington, General Counsel, Democratic National Committee)

Hearings before the Committee on Rules and Administration, United States Senate, November 20, 1981:

The CHAIRMAN. What about Chairman Richards' suggestion that legal and accounting and administrative expenses should be exempted from the computation of contributions or expenditures?

Mr. HARRINGTON. I would say that I am pretty much 100 percent sympathetic with his views there, having seen it from the side of the lawyer, as well as the side of the political committees and candidates. It does

seem to me that we have imposed—with good reason, perhaps, but we have imposed—a substantial burden on candidates and campaigns. There are presently some exemptions in the law from the definition of contribution, the limits and the reporting requirements, but there remains some regulation. And I would say that it is certainly worth further consideration to remove the differences which I believe exist between the national political party exemption and other political committee exemptions, whereby the exemption applies for the national party across the board with respect to legal services and for other political committees only for services relating to campaign finance laws. I also do not believe it is an area that requires reporting; even if we are exempting them from the contribution limits, I do not believe that it requires reporting as well. So I would agree.

---

FINANCING PRESIDENTIAL CAMPAIGNS: AN EXAMINATION OF THE ONGOING EFFECTS OF THE FEDERAL ELECTION CAMPAIGN LAWS UPON THE CONDUCT OF PRESIDENTIAL CAMPAIGNS

(A Research Report by the Campaign Finance Study Group to the Committee on Rules and Administration of the United States Senate, January 1982, Institute of Politics, John F. Kennedy School of Government, Harvard University)

Finally, we turn to the goal of strengthening political parties. Our politics now are dominated by candidate organizations and interest groups, many of whom have no interest in or concern for parties. This report is not the proper forum in which to air fully the debate of the advantages and disadvantages of political parties. Suffice it to say that we believe the finance Act should not disadvantage parties as institutional actors in the political system, and that channeling money into electoral politics through political parties is preferable to the current trend toward greater outside spending.

Mr. BOSCHWITZ. One reason that the role of political parties should be expanded is that their agenda is very broad. If there is an objection to a legitimate PAC, it is that their agenda sometimes is limited. Of the 4,000 PAC's, and I have not made a study to see how many have a broad or how many a limited agenda, but I would imagine that most of the 4,000 have very broad agendas. So tomorrow, when we continue this debate, I will offer this amendment, and will also send to the desk for printing other amendments. I reserve the remainder of my time.

Mr. BOREN. Madam President, how much time remains to both sides?

The PRESIDING OFFICER. The Senator from Oklahoma has 4 minutes and the Senator from Minnesota has 9 minutes.

Mr. BOSCHWITZ. I would say to the Senator from Oklahoma that there is a unanimous-consent agreement that at 1 o'clock debate begins on the Contra issue.

The PRESIDING OFFICER. That has been extended to 1:10.

Mr. BOSCHWITZ. I would be perfectly willing, Madam President, to yield back the remainder of my time. Others on our side who wish to speak are not here yet on Monday morning.

Mr. BOREN. I would like to use my 4 minutes in concluding remarks. I yield myself the remainder of my time.

Madam President, the comments we heard this morning are encouraging to me because when we began this debate on campaign reform many, many months ago we were facing an uphill fight. I am encouraged to hear the Senator from Minnesota today speak of his amendment more or less as an amendment to mine, presuming its passage.

I would remind my colleagues, let us be very, very careful about where we are going. There is an old saying in the legislative process that a good way to kill a bill is to love it to death, to throw up a smokescreen and say it is a good start, but let us do all these other things in addition.

Madam President, I am not against any improvements that might be possible in the legislation which I and others have proposed. I said from the very beginning that it is only a step, it is a first step, an important first step, in the process of reforming the way we finance campaigns in the Senate. It is not the total solution. But let us remember, we do not get to those so-called additional protections in the amendment of the Senator from Minnesota unless we have first passed the basic proposal included in this legislation to see if we can move this country away from the tidal wave of spending that is going on, to begin moving us away from special-interest financing that is replacing the grassroots as a source of campaign money in this country.

So I would say, Madam President, there are many other amendments that could be offered on both sides of the aisle. Some of my colleagues on this side of the aisle have ideas of their own how we can improve and refine the present proposal. Some of these ideas I may be willing to accept and support myself. I want to see us do everything we can to effectively reform this process.

But I would simply say, Madam President, let us not wait to take this first step. That must come first. Then we can work on refining and improving the proposal before us.

General MacArthur once said that as he looked at the history of warfare, that the history of defeat time and time again was the history of those who waited too long, those who waited too long to prepare for the attack, those who waited too long to see the impending danger.

I would say, Madam President, let us not wait too long, let us take this first step. No one can say that it is good for the country, that it is good for the people of this country, that campaign spending has gone up 500 percent in the last 8 years. The average cost of a successful U.S. Senate race has gone from $600,000 to $2.9 million.

Let us not wait, Mr. President, to do something about it. No one can say that it is good that one-third of all the people elected to Congress last year received over half of all their campaign contributions—not from the people at the grassroots, but from special interests domiciled here, in Washington, D.C. It is time for us to take the first step to do something about it, to bring power back to the grassroots.

No one can tell us that a system is fair and open to new ideas and the creative talents of new people when massive amounts, 80 percent of the $104 million given by PAC's in this last election, went to incumbents with challengers being frozen out. I find it difficult, Mr. President, to understand how anyone can say to us that it is good for the country as we try to form a national consensus on problems like trade and budget deficits when campaigns are being financed more and more by special interests whose focus is not on our total interest but only on the votes that apply to that one interest. Let us not wait to take the first step.

The PRESIDING OFFICER (Mr. COCHRAN). The time of the Senator from Oklahoma has expired. The Senator from Minnesota is recognized.

Mr. BOSCHWITZ. Mr. President, I thank the Chair.

This Senator on this side of the argument is not trying to put up any smokescreens, as the Senator from Oklahoma suggests. We are not trying to delay the resolution on campaign finance reform. We are simply trying to do it in an intelligent, organized manner.

The Senator from Oklahoma said we have to stop this tidal wave of spending. Well, he does not do it in his bill. In my family, I have four sons. Under his bill, we will be able to expand our political contributions. We presumptively have similar interests and I, with my four sons and my wife, under his bill, will be able to expand our political contributions so we can given $18,000 to a particular candidate in the course of a primary and general election. On the other hand, a PAC that may represent thousands of people will only be able to give $6,000. Somehow, this is supposed to be campaign reform.

Mr. BOREN. Will the Senator yield?

Mr. BOSCHWITZ. No; the Senator will not yield.

Somehow, let me repeat, this is supposed to be campaign reform. Somehow, by increasing the amount that individuals can give by 50 percent and decreasing the amount PAC's can give by 40 percent, we are going to stop the tidal wave of spending. I submit, Mr. President, we are not going to stop the tidal wave of spending, that the

amendment of the Senator from Oklahoma simply is not going to achieve that; that there are too many loopholes to it; that it is going to direct the money of the PAC's into different types of expenditures, individual or independent expenditures, which are far more difficult to control and which are far more insidious than the present role of PAC's.

The Senator from Oklahoma says that one-third of those running for reelection get more than half of their contributions from PAC's. As a matter of interest, Mr. President, most of that group of one-third are Democrats. So perhaps it should be the role of this Senator and others on our side to say, yes, we should allow the amendment of the Senator from Oklahoma to go forward. It will be strict and penalize Democrats more than Republicans. And interestingly, in the past, historically, PAC's have given more to Democrats than they have to Republicans.

But we believe that campaign finance reform should be a full, complete, and broad type of reform that simply will not lead to further problems. We believe that an independent commission should be formulated, that will indeed put together a nonpartisan approach, a broad approach, to campaign reform.

We believe that 4.5 million people who give to PAC's—twice as many people, Mr. President, as gave to the Senate campaigns in 1984; let me repeat, twice as many people gave to PAC's as gave to Senate campaigns in 1984—those people deserve the right to participate in the political process and they should not be summarily disenfranchised.

We believe that PAC's, too, have a much broader type of agenda, by and large, than the Senator from Oklahoma would ask us to believe. Some PAC's, indeed, have a very narrow agenda. As I mentioned in my opening speech, PAC's, including the labor PAC's, always amaze me at how broad their agenda is. Most PAC's on the business side have a very broad agenda as well.

So we are sending up no smokescreens. We do not wish to delay, and we hope that a broad campaign finance reform that will help not only the incumbent but the challenger can be achieved. That is our purpose in speaking on the floor this morning. That is our purpose in participating in the debate. It probably would be politically much more acceptable, or much easier, to just say to the Senator from Oklahoma, yes, we are with you. It would receive the plaudits of many, I am sure. But we feel that if campaign finance reform is to take place, it should be done broadly, it should be done to the benefit of incumbent and challenger alike. It should be done for the benefit of the 4.5 million people who participate in the PAC process, who were brought into the political process by the formation of PAC's, which were formed as a result of campaign reform of about 10 years ago.

We feel that there is much to be done and that the Boren amendment addresses only a very narrow scope. And we feel that the Boren amendment is so riddled with loopholes and riddled with exceptions that it will do more damage than good.

Mr. President, I yield back the remainder of my time.

## MILITARY CONSTRUCTION APPROPRIATIONS, FISCAL YEAR 1987

The PRESIDING OFFICER. The clerk will state H.R. 5052.

The legislative clerk read as follows:

A bill (H.R. 5052) making appropriations for military construction for the Department of Defense for the fiscal year ending September 30, 1987, and for other purposes.

The Senate proceeded to consider the bill, which had been reported from the Committee on Appropriations, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the part of the bill intended to be inserted are shown in italic.)

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

TITLE I—MILITARY CONSTRUCTION

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 1987, for military construction functions administered by the Department of Defense, and for other purposes, namely:

MILITARY CONSTRUCTION, ARMY

For acquisition, construction, installation, and equipment of temporary or permanent public works, military installations, facilities, and real property for the Army as currently authorized by law, and for construction and operation of facilities in support of the functions of the Commander-in-Chief, [$1,200,070,000] *$1,262,570,000*, to remain available until September 30, 1991: *Provided*, That of this amount, not to exceed [$131,640,000] *$128,440,000* shall be available for study, planning, design, architect and engineer services, as authorized by law, unless the Secretary of Defense determines that additional obligations are necessary for such purposes and notifies the Committees on Appropriations of both Houses of Congress of his determination and the reasons therefor. [In addition, for construction at Fort Drum, New York, there is appropriated in advance to be available for obligation in fiscal year 1988, $221,000,000, to remain available until September 30, 1992, and to be available for obligation in fiscal year 1989, $214,000,000, to remain available until September 30, 1993.]

MILITARY CONSTRUCTION, NAVY

For acquisition, construction, installation, and equipment of temporary or permanent public works, naval installations, facilities, and real property for the Navy as currently authorized by law, including personnel in the Naval Facilities Engineering Command and other personal services necessary for the purposes of this appropriation, [$1,224,290,000] *$1,282,995,000*, to remain available until September 30, 1991: *Provided*, That of this amount, not to exceed $143,770,000 shall be available for study, planning, design, architect and engineer services, as authorized by law, unless the Secretary of Defense determines that additional obligations are necessary for such purposes and notifies the Committees on Appropriations of both Houses of Congress of his determination and the reasons therefor.

MILITARY CONSTRUCTION, AIR FORCE

For acquisition, construction, installation, and equipment of temporary or permanent public works, military installations, facilities, and real property for the Air Force as currently authorized by law, [$1,220,130,000] *$1,252,710,000*, to remain available until September 30, 1991: *Provided*, That of this amount, not to exceed [$127,260,000] *$117,260,000* shall be available for study, planning, design, architect and engineer services, as authorized by law, unless the Secretary of Defense determines that additional obligations are necessary for such purposes and notifies the Committees on Appropriations of both Houses of Congress of his determination and the reasons therefor: *Provided further, That of the amount available for study, planning, design, architect and engineer services, $324,000 shall be available for the design of Keesler Air Force Base facilities in support of the Aircrew Survival Training School consolidation.*

MILITARY CONSTRUCTION, DEFENSE AGENCIES

For acquisition, construction, installation, and equipment of temporary or permanent public works, installations, facilities, and real property for activities and agencies of the Department of Defense (other than the military departments), as currently authorized by law, [$541,563,000] *$505,110,000*, to remain available until September 30, 1991: *Provided*, That such amounts of this appropriation as may be determined by the Secretary of Defense may be transferred to such appropriations of the Department of Defense available for military construction as he may designate, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: *Provided further*, That of the amount appropriated, not to exceed [$78,200,000] *$88,200,000*, shall be available for study, planning, design, architect and engineer services, as authorized by law, unless the Secretary of Defense determines that additional obligations are necessary for such purposes and notifies the Committee on Appropriations of both Houses of Congress of his determination and the reasons therefor [: *Provided further*, That of the amount available for study, planning, design, architect and engineer services, $10,000,000, shall be available for site preparation construction in conjunction with the replacement hospital at Brooke Army Medical Center, Texas.]

NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

For the United States share of the cost of North Atlantic Treaty Organization Infrastructure programs for the acquisition of personal property, for the acquisition and construction of military facilities and installations (including international military headquarters) and for related expenses for the collective defense of the North Atlantic Treaty Area as authorized in military con-

struction Acts and section 2806 of title 10, United States Code, [$247,000,000] *$232,000,000,* to remain available until expended.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the Army National Guard, and contributions therefor, as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, [$115,724,000] *$133,271,000,* to remain available until September 30, 1991.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the Air National Guard, and contributions therefor, as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, [$140,000,000] *$148,925,000,* to remain available until September 30, 1991.

MILITARY CONSTRUCTION, ARMY RESERVE

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the Army Reserve as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, [$76,417,000] *$86,700,000,* to remain available until September 30, 1991.

MILITARY CONSTRUCTION, NAVAL RESERVE

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the reserve components of the Navy and Marine Corps as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, $44,500,000, to remain available until September 30, 1991.

MILITARY CONSTRUCTION, AIR FORCE RESERVE

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the Air Force Reserve as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, $58,900,000, to remain available until September 30, 1991.

FAMILY HOUSING, ARMY

For expenses of family housing for the Army for construction, including acquisition, replacement, addition, expansion, extension and alteration and for operation and maintenance, including debt payment, leasing, minor construction, principal and interest charges, and insurance premiums, as authorized by law, as follows: for Construction, [$367,680,000] *$423,830,000*; for Operation and maintenance, [$1,198,248,000] *$1,236,084,000*; for debt payment, $8,063,000; in all [$1,573,991,000] *$1,667,977,000*: *Provided*, That the amount provided for construction shall remain available until September 30, 1991.

FAMILY HOUSING, NAVY AND MARINE CORPS

For expenses of family housing for the Navy and Marine Corps for construction, including acquisition, replacement, addition, expansion, extension and alteration and for operation and maintenance, including debt payment, leasing, minor construction, principal and interest charges, and insurance premiums, as authorized by law, as follows: for Construction, [$171,392,000] *$169,912,000*; for Operation and maintenance, [$532,031,000] *$534,383,000*; for debt payment, $9,071,000; in all [$712,494,000] *$713,366,000*: *Provided*, That the amount provided for construction shall remain available until September 30, 1991.

FAMILY HOUSING, AIR FORCE

For expenses of family housing for the Air Force for construction, including acquisition, replacement, addition, expansion, extension and alteration and for operation and maintenance, including debt payment, leasing, minor construction, principal and interest charges, and insurance premiums, as authorized by law, as follows: for Construction, [$96,840,000] *$101,240,000*; for operation and maintenance, [$703,215,000] *$724,330,000*; for debt payment, $7,365,000; in all [$807,420,000] *$832,935,000*: *Provided*, That the amount provided for construction shall remain available until September 30, 1991.

FAMILY HOUSING, DEFENSE AGENCIES

For expenses of family housing for the activities and agencies of the Department of Defense (other than the military departments) for construction, including acquisition, replacement, addition, expansion, extension and alteration and for operation and maintenance, leasing, and minor construction, as authorized by law, as follows: for Construction, [$240,000] *$250,000*; for Operation and maintenance, [$16,230,000] *$17,040,000*; in all [$16,470,000] *$17,290,000*: *Provided*, That the amount provided for construction shall remain available until September 30, 1991.

*HOMEOWNERS ASSISTANCE FUND, DEFENSE*

*For use in the Homeowners Assistance Fund established pursuant to section 1013(d) of the Demonstration Cities and Metropolitan Development Act of 1966 (Public Law 89-754, as amended), $3,000,000.*

GENERAL PROVISIONS

SEC. 101. None of the funds appropriated in this title shall be expended for payments under a cost-plus-a-fixed-fee contract for work, where cost estimates exceed $25,000, to be performed within the United States, except Alaska, without the specific approval in writing of the Secretary of Defense setting forth the reasons therefor.

SEC. 102. Funds herein appropriated to the Department of Defense for construction shall be available for hire of passenger motor vehicles.

SEC. 103. Funds appropriated to the Department of Defense for construction may be used for advances to the Federal Highway Administration, Department of Transportation, for the construction of access roads as authorized by section 210 of title 23, United States Code, when projects authorized therein are certified as important to the national defense by the Secretary of Defense.

SEC. 104. None of the funds appropriated in this title may be used to begin construction of new bases inside the continental United States for which specific appropriations have not been made.

SEC. 105. No part of the funds provided in this title shall be used for purchase of land or land easements in excess of 100 per centum of the value as determined by the Corps of Engineers or the Naval Facilities Engineering Command, except; (a) where there is a determination of value by a Federal court, or (b) purchases negotiated by the Attorney General or his designee, or (c) where the estimated value is less than $25,000, or (d) as otherwise determined by the Secretary of Defense to be in the public interest.

SEC. 106. None of the funds appropriated in this title shall be used to (1) acquire land, (2) provide for site preparation, or (3) install utilities for any family housing, except housing for which funds have been made available in annual military construction appropriation Acts.

SEC. 107. None of the funds appropriated in this title for minor construction may be used to transfer or relocate any activity from one base or installation to another, without prior notification to the Committees on Appropriations.

SEC. 108. No part of the funds appropriated in this title may be used for the procurement of steel for any construction project or activity for which American steel producers, fabricators, and manufacturers have been denied the opportunity to compete for such steel procurement.

SEC. 109. No part of the funds appropriated in this title for dredging in the Indian Ocean may be used for the performance of the work by foreign contractors: *Provided*, That the low responsive and responsible bid of a United States contractor does not exceed the lowest responsive and responsible bid of a foreign contractor by greater than 20 per centum.

SEC. 110. None of the funds available to the Department of Defense for military construction or family housing during the current fiscal year may be used to pay real property taxes in any foreign nation *except where required by nation-to-nation agreements.*

SEC. 111. No part of the funds appropriated in this title may be used to pay the compensation of an officer of the Government of the United States or to reimburse a contractor for the employment of a person for work in the continental United States by any such person if such person is an alien who has not been lawfully admitted to the United States.

SEC. 112. The expenditure of any appropriation under this title for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

[SEC. 113. None of the funds appropriated by this title may be obligated and expended in any way for the express purpose of sale, lease, or rental of any portion of land currently identified as Fort DeRussy, Honolulu, Hawaii.]

*SEC. 113. (a) Notwithstanding any other provision of law, including but not limited to section 809 of the Military Construction Act, 1968, section 807(d) of the Military Construction Act, 1984, or any provision of an annual Appropriation Act restricting the use of funds for the sale, lease, rental, or excessing of any portion of land currently identified as Fort DeRussy, Honolulu, Hawaii, the Secretary of Defense (hereinafter referred to as the "Secretary") is prohibited to sell or convey, except to the State of Hawaii or the city and/or county of Honolulu and at the appraised fair market value as determined by the Secretary, all right title and interest of the United States in up to forty-five acres of land and improvements northwest of Kalia Road comprising a portion of Fort DeRussy, Hawaii, to the City and County of Honolulu or the State of Hawaii, upon such terms and conditions as*

*are acceptable to the Secretary. The exact acreages and legal descriptions of the property to be sold under this section shall be determined by surveys which are satisfactory to the Secretary. The cost of any such surveys shall be borne by the buyer.*

*(b) The Secretary is authorized to acquire land and design and construct such facilities as are necessary to replace those on the land to be sold pursuant to subsection (a). The Secretary is also authorized to relocate activities currently located at Fort DeRussy to such replacement facilities.*

*(c) The proceeds of the sale authorized to be conducted pursuant to subsection (a) shall be available without fiscal year limitation to acquire land and replace facilities authorized to be acquired or constructed pursuant to subsection (b) and to pay associated relocation costs. The remainder of the proceeds shall be converted into the Treasury as miscellaneous receipts.*

*(d) Any action under this section shall insure adequate parking for the Hale Koa Hotel—Armed Forces Recreational Area. Authority provided by subsections (b) and (c) shall extend to replacement and relocation of facilities at Fort Shafter to another site to accommodate relocation of Reserve facilities from Fort DeRussy.*

SEC. 114. None of the funds in this title may be used to initiate a new installation overseas without prior notification to the Committees on Appropriations.

[SEC. 115. None of the funds appropriated in this title for F-16 beddown projects in Misawa, Japan, may be obligated or expended unless there has been notification to the Committees on Appropriations that the approved Government of Japan budget for fiscal year 1987 includes projects associated with the F-16 beddown as an additive over the level of funding provided in Japanese fiscal year 1986 for the facilities improvement program.]

SEC. [116] *115.* None of the funds appropriated in this title may be obligated for architect and engineer contracts estimated by the Government to exceed [$500,000] *$1,000,000* for projects to be accomplished in Japan or in any NATO member country, unless such contracts are awarded to United States firms or United States firms in joint venture with host nation firms.

SEC. [117] *116.* None of the funds appropriated in this title for military construction in the United States territories and possessions in the Pacific and on Kwajalein Island may be used to award any contract estimated by the Government to exceed [$1,000,000] *$5,000,000* to a foreign contractor: *Provided,* That this section shall not be applicable to contract awards for which the lowest responsive and responsible bid of a United States contractor exceeds the lowest responsive and responsible bid of a foreign contractor by greater than 20 per centum.

SEC. [118] *117.* The Secretary of Defense is to inform the Committees on Appropriations and Committees on Armed Services of the plans and scope of any proposed military exercise involving United States personnel 30 days prior to its occurring, if amounts expended for construction, either temporary or permanent, are anticipated to exceed $100,000.

(TRANSFER OF FUNDS)

SEC. [119] *118.* Unexpended balances in the Military Family Housing Management Account established pursuant to section 2831 of title 10, United States Code, as well as any additional amounts which would otherwise be transferred to the Military Family Housing Management Account during fiscal year 1987, shall be transferred to the appropriations for Family Housing provided in this title, as determined by the Secretary of Defense, based on the sources from which the funds were derived, and shall be available for the same purposes, and for the same time period, as the appropriation to which they have been transferred.

SEC. [120] *119.* Not more than 20 per centum of the appropriations in this title which are limited for obligation during the current fiscal year shall be obligated during the last two months of the fiscal year.

(TRANSFER OF FUNDS)

SEC. [121] *120.* Funds appropriated to the Department of Defense for construction in prior years are hereby made available for construction authorized for each such military department by the authorizations enacted into law during the second session of the Ninety-ninth Congress.

SEC. [122] *121.* For transfer by the Secretary of Defense to and from appropriations and funds available during fiscal year 1987, or thereafter, for military construction or expenses of family housing for the military departments and Defense agencies, in order to maintain the budgeted level of operations for such appropriations and thereby eliminate substantial gains and losses to such appropriations caused by fluctuations in foreign currency exchange rates that vary substantially from those used in preparing budget submissions, an appropriation, to remain available until expended: *Provided,* That funds transferred from this appropriation shall be merged with and be available for the same purpose, and for the same time period, as the appropriation or fund to which transferred, and funds transferred to this appropriation shall be merged with, and available for the purpose of this appropriation until expended: *Provided further,* That transfers may be made from time to time from this appropriation to the extent the Secretary of Defense determines it may be necessary to do so to reflect downward fluctuations in the currency exchange rates from those used in preparing the budget submissions for such appropriations, but transfers shall be made from such appropriations to this appropriation to reflect upward fluctuations in currency exchange rates to prevent substantial net gains in such appropriations: *Provided further,* That authorizations or limitations now or hereafter contained within appropriations or other provisions of law limiting the amounts that may be obligated or expended for military construction and family housing expenses are hereby increased to the extent necessary to reflect downward fluctuations in foreign currency exchange rates from those used in preparing the applicable budget submission: *Provided further,* That for the purposes of the appropriation "Foreign Currency Fluctuations, Construction, Defense," the foreign currency rates used in preparing budget submissions shall be the foreign currency exchange rates as adjusted or modified, as reflected in applicable Committee reports on the Acts making appropriations for military construction for the Department of Defense: *Provided further,* That the Secretary of Defense shall provide an annual report to the Congress on all transfers made to or made from this appropriation: *Provided further,* That contracts or other obligations entered into payable in foreign currencies may be recorded as obligations based on the currency exchange rates used in preparing budget submissions and adjustments to reflect fluctuations in such rates may be recorded as disbursements are made: *Provided further,* That no later than the end of the second fiscal year following the fiscal year for which appropriations for Family Housing Operation and Maintenance have been made available to the Department of Defense, and no later than the end of the sixth fiscal year following the fiscal year for which the appropriations for Military Construction and Family Housing Construction have been made available to the Department of Defense, unobligated balances of such appropriations may be transferred into the appropriation "Foreign Currency Fluctuations, Construction, Defense": *Provided further,* That, at the discretion of the Secretary of Defense, any savings generated in the military construction and family housing programs may be transferred to this appropriation.

[SEC. 123. The Secretary of the Navy shall enter into negotiations with shipyards located on Sampson Street, San Diego, California, and on Fort George Island, Jacksonville, Florida, to determine what liability (if any) the United States has for damages suffered by such a shipyard resulting from facility improvements made by such shipyard during 1982 in good faith reliance on representations and assurances provided to officials of such shipyard by representatives of the Department of the Navy in 1981 and 1982 with respect to future work of the Department of the Navy at such shipyard.]

SEC. [124] *122.* For Military Construction for the strategic homeporting initiative, no more than $799,000,000 shall be appropriated or obligated through fiscal year 1991.

[SEC. 125. No part of the funds appropriated in this title may be obligated or expended for any purpose in connection with a replacement hospital at Brooke Army Medical Center, Texas, if such replacement hospital is designed to contain less than 450 beds.]

*SEC. 123. Of the total amount of budget authority provided for fiscal year 1987 by this Act that would otherwise be available for consulting services, management and professional services, and special studies and analyses, 10 per centum of the amount intended for such purposes in the President's budget for 1987, as amended, for any agency, department or entity subject to apportionment by the Executive shall be placed in reserve and not made available for obligation or expenditure: Provided, That this section shall not apply to any agency, department or entity whose budget request for 1987 for the purposes stated above did not amount to $5,000,000.*

*SEC. 124. (a) None of the funds appropriated in this Act may be available for any country if the President determines that the government of such country is failing to take adequate measures to prevent narcotic drugs or other controlled substances cultivated or produced or processed illicitly, in whole or in part, in such country, or transported through such country, from being sold illegally within the jurisdiction of such country to United States personnel or their dependents, or from being smuggled into the United States. Such prohibition shall continue in force until the President determines and reports to the Congress in writing that—*

*(1) the government of such country has prepared and committed itself to a plan presented to the Secretary of State that would eliminate the cause or basis for the application to such country of the prohibition contained in the first sentence; and*

*(2) the government of such country has taken appropriate law enforcement meas-*

*ures to implement the plan presented to the Secretary of State.*

*(b) The provisions of subsection (a) shall not apply in the case of any country with respect to which the President determines that the application of the provisions of such subsection would be inconsistent with the national security interests of the United States.*

*SEC. 125. Section 4, chapter III of Public Law 99-349, dated July 2, 1986, is amended to read as follows: Of the amounts available to the Department of Defense, not to exceed $5,000,000 shall be available for such claims arising from property losses caused by the explosion of Army munitions near Checotah, Oklahoma, on August 4, 1985, and claims determined by the Department to be bona fide shall be paid from the funds made available by this section without a determination of legal liability based on an act or omission of an agent or employee of the Federal Government.*

This title may be cited as the "Military Construction Appropriations Act, 1987".

## TITLE II—CENTRAL AMERICA

### PURPOSES

SEC. 201. The purposes of this title are to promote economic and political development, peace, stability and democracy in Central America, to encourage a negotiated resolution of the conflict in the region, and towards these ends, to enable the President to provide additional economic assistance for the Central American democracies as well as assistance for the Nicaraguan democratic resistance, subject to the terms and conditions of title.

### POLICY TOWARD CENTRAL AMERICA

SEC. 202. (a) It is the policy of the United States that—

(1) the building of democracy, the restoration of peace, economic development, the improvement of living conditions, and the application of equal justice under law in Central America are important to the interests of the United States and the community of American States;

(2) the interrelated issues of social and human progress, economic growth, political reform, and regional security must be effectively dealt with to assure a democratic and economically and politically secure Central America; and

(3) the September 1983 Contadora Document of Objectives, which sets forth a framework for negotiating a peaceful settlement to the conflict and turmoil in the region, is to be encouraged and supported.

(b) The United States strongly supports as essential to the objectives set forth in subsection (a)—

(1) a long-term commitment of economic assistance to the Central American democracies in amounts recommended by the National Bipartisan Commission on Central America;

(2) national reconciliation in Nicaragua and the creation of a framework for negotiating a peaceful, democratic settlement to the Nicaraguan conflict; and

(3) efforts to reach a comprehensive and verifiable final agreement based on the Contadora Document of Objectives, including efforts to encourage the Government of Nicaragua to pursue a dialogue with the representatives of all elements of the Nicaraguan democratic opposition for the purpose of achieving a democratic political settlement of the conflict, including free and fair elections.

### POLICY TOWARD THE GOVERNMENT OF NICARAGUA

SEC. 203. (a) United States policy toward the Government of Nicaragua shall be based upon that government's responsiveness to continuing concerns affecting the national security of the United States and Nicaragua's neighbors about—

(1) Nicaragua's close military and security ties to Cuba and the Soviet Union and its Warsaw Pact allies including the presence in Nicaragua of military and security personnel from those countries and allies;

(2) Nicaragua's buildup of military forces in numbers disproportionate to those of its neighbors and equipped with sophisticated weapons systems and facilities designed to accommodate even more advanced equipment;

(3) Nicaragua's unlawful support for armed subversion and terrorism directed against the democratically elected governments of other countries;

(4) Nicaragua's internal repression and lack of opportunity for the exercise of civil and political rights which would allow the people of Nicaragua to have a meaningful voice in determining the policies of their government through participation in regularly scheduled free and fair elections and the establishment of democratic institutions; and

(5) Nicaragua's refusal to negotiate in good faith for a peaceful resolution of the conflict in Central America based upon the comprehensive implementation of the September 1983 Contadora Document of Objectives and, in particular, its refusal to engage in a serious national dialogue with all elements of the Nicaraguan democratic opposition.

(b) The United States will address the concerns described in subsection (a) through economic, political, and diplomatic measures (including efforts to secure the cooperation of other democratic nations in such measures), as well as through support for the Nicaraguan democratic resistance. In order to assure every opportunity for a peaceful resolution of the conflict in Central America, the United States will—

(1) engage in bilateral discussions with the Government of Nicaragua with a view toward facilitating progress in achieving a peaceful resolution of the conflict, if the Government of Nicaragua simultaneously engages in a serious dialogue with representatives of all elements of the Nicaraguan democratic opposition; and

(2) limit the types and amounts of assistance provided to the Nicaraguan democratic resistance and take other positive action in response to steps taken by the Government of Nicaragua toward meeting the concerns described in subsection (a).

(c) The duration of bilateral discussions with the Government of Nicaragua and the implementation of additional measures under subsection (b) shall be determined, after consultation with the Congress, by reference to Nicaragua's actions in response to the concerns described in subsection (a). Particular regard will be paid to whether—

(1) freedom of speech, assembly, religion, and political activity are being respected in Nicaragua and progress is being made toward the holding of regularly scheduled free and fair elections;

(2) there has been a halt to the flow of arms and the introduction of foreign military personnel into Nicaragua, and a withdrawal of all foreign military personnel has begun;

(3) a cease-fire with the Nicaraguan democratic resistance is being respected; and

(4) Nicaragua is refraining from acts of aggression, including support for insurgency and terrorism in other countries.

(d) The actions by the United States under this title in response to the concerns described in subsection (a) are consistent with the right of the United States to defend itself and to assist its allies in accordance with international law and treaties in force. Such actions are directed, not to determine the form or composition of any government of Nicaragua, but to achieve a comprehensive and verifiable agreement among Central American countries, based upon the 1983 Contadora Document of Objectives, including internal reconciliation within Nicaragua based upon democratic principles, without the use of force by the United States.

(e) Notwithstanding any other provision of this title, no member of the United States Armed Forces or employee of any department, agency, or other component of the United States Government may enter Nicaragua to provide military advice, training, or logistical support to paramilitary groups operating inside that country. Nothing in this title shall be construed as authorizing any member or unit of the Armed Forces of the United States to engage in combat against the Government of Nicaragua.

### POLICY TOWARD THE NICARAGUAN DEMOCRATIC RESISTANCE

SEC. 204. (a) It is the policy of the United States to assist all groups within the Nicaraguan democratic resistance which—

(1) are committed to work together for democratic national reconciliation in Nicaragua based on the document issued by the six Nicaraguan opposition parties on February 7, 1986, entitled "Proposal to the Nicaraguan Government for a Solution to the Crisis in Our Country"; and

(2) respect international standards of conduct and refrain from violations of human rights or from other criminal acts.

(b) No assistance under this title may be provided to any group that retains in its ranks any individual who has been found to engage in—

(1) gross violations of internationally recognized human rights (as defined in section 502B(d)(1) of the Foreign Assistance Act of 1961); or

(2) drug smuggling or significant misuse of public or private funds.

(c)(1) It is recognized that the Nicaraguan democratic resistance has been broadening its representative base, through the forging of cooperative relationships between the United Nicaraguan Opposition (UNO) and other democratic resistance elements, and has been increasing the responsiveness of military forces to civilian leadership.

(2) The President shall use the authority provided by this title to further the developments described in paragraph (1) and to encourage the Nicaraguan democratic resistance to take additional steps to strengthen its unity, pursue a defined and coordinated program for representative democracy in Nicaragua, and otherwise increase its appeal to the Nicaraguan people.

(d) In furtherance of the policy set out in this section, not less than $10,000,000 of the funds transferred by section 6(a) shall be available only for assistance to resistance forces otherwise eligible and not currently included within UNO, of which amount $5,000,000 shall be available only for the Southern Opposition Bloc (BOS) and

$5,000,000 shall be available only for the Indian resistance force known as Misurasata.

ASSISTANCE FOR THE CENTRAL AMERICAN DEMOCRACIES

SEC. 205. (a) There are hereby transferred to the President for assistance to the Central American democracies (Costa Rica, El Salvador, Guatemala, and Honduras) in accordance with the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961, $300,000,000 of unobligated funds from the accounts specified in subsection (b). Amounts transferred under this section shall be administered in accordance with the terms and conditions of chapter 6 of part I of the Foreign Assistance Act of 1961. Notwithstanding any other provision of law, funds made available by this section—

(1) shall be in addition to amounts previously appropriated for the fiscal year 1986 and allocated for assistance to Central American countries, and

(2) shall remain available for obligation until September 30, 1987, except that not less than $100,000,000 shall be obligated on or before September 30, 1986.

(b) Amounts made available by this section shall be transferred from such accounts as the President may designate for which appropriations were made by title II of the Foreign Assistance and Related Programs Appropriations Act, 1986, title IV of the Agriculture, Rural Development and Related Agencies Appropriations Act, 1986, (as contained in Public Law 99-190), and title II of the Urgent Supplemental Appropriations Act, 1985 (Public Law 99-10).

(c)(1) The Secretary of State, the Administrator of the Agency for International Development, and the Director of the Office of Management and Budget, shall—

(A) develop a plan for fully funding the assistance to the Central American democracies (Costa Rica, El Salvador, Guatemala, and Honduras) proposed in the January 1984 report of the National Bipartisan Commission on Central America; and

(B) provide a report describing this plan to the President and the Congress no later than March 1, 1987.

(2) The report required by paragraph (1) shall include an analysis and recommendations, prepared in consultation with the Secretary of Agriculture, on how more effective use can be made of agricultural commodities from the United States in alleviating hunger in Central America and contributing to the economic development of the Central American democracies.

(d)(1) There are hereby transferred to the President out of funds appropriated by the Supplemental Appropriations Act, 1985 (Public Law 99-88), under the heading "Assistance For Implementation of a Contadora Agreement" such sums as the President may require, but not more than $2,000,000, to facilitate the participation of Costa Rica, El Salvador, Guatemala, and Honduras in regional meetings and negotiations to promote peace, stability, and security in Central America.

(2) Funds transferred under paragraph (1) shall remain available for the same period of time as such funds would have been available under the Supplemental Appropriations Act, 1985 (Public Law 99-88), but for the enactment of this title.

(e) The Congress reaffirms its support for the establishment of a Central American Development Organization, authorized by section 464 of the Foreign Assistance Act of 1961, as an effective forum for dialogue on, and the continuous review and advancement of, Central America's political, economic, and social development, including the strengthening of democratic pluralism and respect for internationally recognized human rights. Toward this end, not less than $750,000 of the funds transferred by this section should be used to establish the Central American Development Organization and its administrative apparatus so as to ensure that Central American development objectives are encouraged.

ASSISTANCE FOR THE NICARAGUAN DEMOCRATIC RESISTANCE

SEC. 206. (a)(1) The Congress hereby approves the provision of assistance for the Nicaraguan democratic resistance in accordance with the provisions of this title.

(2) There are hereby transferred to the President for the purposes of this section $100,000,000 of unobligated funds from such accounts for which appropriations were made by the Department of Defense Appropriations Act, 1986 (as contained in Public Law 99-190), as the President shall designate.

(b) Notwithstanding the Impoundment Control Act of 1974, not more than 40 percent of the funds transferred under subsection (a) may be available for obligation or expenditure in accordance with this title upon the date of its enactment; not more than an additional 20 percent of such funds may be so available no earlier than October 15, 1986, and 15 days after the transmittal to the Congress of the determination required by section 11(c); and not more than the remaining 40 percent may be so available no earlier than February 15, 1987, and 15 days after the transmittal to the Congress of the determination required by section 11(e).

(c) Funds transferred under subsection (a) shall remain available for the same periods of time, but not to exceed September 30, 1987, as such funds would have been available under the Department of Defense Appropriations Act, 1986 (as contained in Public Law 99-190), but for the enactment of this title.

COORDINATION OF AND ACCOUNTABILITY FOR ASSISTANCE TO THE NICARAGUAN DEMOCRATIC RESISTANCE

SEC. 207. (a) The Secretary of State (or his designee) shall be responsible for policy guidance, coordination, and supervision of United States Government activities under this title.

(b) Any agency to which funds transferred under section 6(a) are allocated shall establish standards, procedures and controls necessary to assure that such funds are fully accounted for and are used exclusively for the purposes authorized by this title. Such standards, procedures and controls shall be developed in consultation with the Comptroller General and the appropriate committees of the Congress, and shall include such safeguards as segregation of accounts, monitoring of deliveries, and requirements for the keeping of complete records available for audit by authorized representatives of the United States Government.

FUNDS FOR HUMANITARIAN ASSISTANCE

SEC. 208. (a) Of the amounts transferred under section 6(a), $30,000,000 shall be available only for the provision of humanitarian assistance to the Nicaraguan democratic resistance.

(b) Of the $30,000,000 made available only for purposes of subsection (a), $3,000,000 shall be available only for strengthening programs and activities of the Nicaraguan democratic resistance for the observance and advancement of human rights.

APPLICATION OF EXISTING LAWS

SEC. 209. (a) Except as otherwise provided in this title, funds transferred under section 6(a) shall be available for the purposes described in section 105(a) of the Intelligence Authorization Act for Fiscal Year 1986, and all the requirements, terms, and conditions of such section and sections 101 and 102 of such Act, section 502 of the National Security Act of 1947, and section 106 of the Supplemental Appropriations Act, 1985 (Public Law 99-88), shall be deemed to have been met for such use of such funds.

(b) The use of funds made available under this title is subject to all applicable provisions of law and established procedures relating to the oversight by the Congress of operations of departments and agencies.

(c) Nothing in this title shall be construed as permitting the President to furnish additional assistance to the Nicaraguan democratic resistance from funds other than the funds transferred under section 6(a) or otherwise specifically authorized by the Congress for assistance to the Nicaraguan democratic resistance.

(d) No limitation or restriction contained in section 10 of Public Law 91-672, section 8109 of the Department of Defense Appropriations Act, 1986, section 502 of the National Security Act of 1947, or any other provision of law shall apply to the transfer or use of funds transferred to the President under this title.

USE OF FUNDS AFTER A PEACEFUL SETTLEMENT

SEC. 210. If the President determines and so reports to the Congress that a peaceful settlement of the conflict in Central America has been reached, then—

(1) the unobligated balance, if any, of funds transferred under section 6(a) shall be available for the purposes of relief, rehabilitation, and reconstruction in Central American countries in accordance with the authorities contained in chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to economic support fund assistance);

(2) the President shall terminate any economic embargo of Nicaragua then in effect; and

(3) the President shall take such further actions as are appropriate to carry out the policy described in section 2(a)(1) of this title with respect to all Central American countries, including Nicaragua.

INCENTIVES FOR A NEGOTIATED SETTLEMENT

SEC. 211. (a) Assistance to the Nicaraguan democratic resistance under this title shall be provided in a manner designed to encourage the Government of Nicaragua to respond favorably to the many opportunities available for achieving a negotiated settlement of the conflict in Central America. These opportunities include the following proposals:

(1) Six opposition Nicaraguan political parties on February 7, 1986, called for an immediate cease-fire, an effective general amnesty, abolition of the state of emergency agreement on a new electoral process and general elections, effective fulfillment of international commitments for democratization, and observance of implementation of these actions and commitments by appropriate international groups and organizations;

(2) President Reagan on February 10, 1986, offered simultaneous talks between the Government of Nicaragua and all elements of the Nicaraguan democratic opposition in Nicaragua and between the Govern-

ment of Nicaragua and the United States Government;

(3) President Jose Napoleon Duarte of El Salvador on March 5, 1986, offered an additional dialogue between the Government of El Salvador and the insurgents in El Salvador if the Government of Nicaragua would simultaneously engage in a dialogue with all elements of the Nicaraguan democratic opposition; and

(4) The United Nicaraguan Opposition on May 29, 1986, reiterated its support for the six-party proposal described in paragraph (1) as a means to achieve national reconciliation and democratization.

(b)(1) In furtherance of the objectives set forth in subsection (a), and except as provided in subsection (e), assistance to the Nicaraguan democratic resistance under this title shall be limited to the following:

(A) humanitarian assistance (as defined in section 722(g)(5) of the International Security and Development Cooperation Act of 1985);

(B) logistics advice and assistance;

(C) support for democratic political and diplomatic activities;

(D) training, services, equipment and supplies for radio communications, collection, and utilization of intelligence, logistics, and small-unit skills, tactics and operations; and

(E) equipment and supplies necessary for defense against air attacks.

(2) The assistance described in paragraph (1) shall be limited, by type and value, to the matters specified in the classified annex to the communication from the President to the Speaker of the House of Representatives and the President of the Senate dated June 24, 1986.

(3) No weapons or ammunition shall be delivered under this title to the Nicaraguan democratic resistance prior to September 1, 1986.

(c) On and after October 15, 1986, an additional $20,000,000 of the funds transferred under section 6(a) may be made available for obligation and expenditure for assistance to the Nicaraguan democratic resistance 15 days after the President determines and reports to the Congress that—

(1) the Central American countries have not concluded a comprehensive and effective agreement based on the Contadora Document of Objectives;

(2) the Government of Nicaragua is not engaged in a serious dialogue with representatives of all elements of the Nicaraguan democratic opposition, accompanied by a cease-fire and an effective end to the existing constraints on freedom of speech, assembly, religion, and political activity, leading to regularly scheduled free and fair elections and the establishment of democratic institutions; and

(3) there is no reasonable prospect of achieving such agreement, dialogue, cease-fire, and end to constraints described in paragraphs (1) and (2) through further diplomatic measures, multilateral or bilateral, without additional assistance to the Nicaraguan democratic resistance.

(d)(1) Notwithstanding any other provision of this title, on or after October 15, 1986, funds transferred under section 6(a) may be obligaged or expended only if the President determines and reports to the Congress that the Nicaraguan democratic resistance groups receiving assistance under this title have agreed to and are beginning to implement—

(A) confederation and reform measures to broaden their leadership base;

(B) the coordination of their efforts;

(C) the elimination of human rights abuses;

(D) the pursuit of a defined and coordinated program for achieving representative democracy in Nicaragua; and

(E) the subordination of military forces to civilian leadership; and

(F) the application of rigorous standards, procedures and controls to assure that funds transferred under section 6(a) are fully accounted for and are used exclusively for the purposes authorized by this title.

(2) In making his determination under paragraph (1), the President shall take into account the effectiveness and legitimacy of the political leadership of those Nicaraguan democratic resistance groups receiving assistance under this title, including the ability of that political leadership—

(A) to reflect the views and objectives of the internal and external Nicaraguan democratic opposition;

(B) to function as the spokesman for the Nicaraguan democratic opposition with Central Americans, international organizations, and the United States Government;

(C) to represent the Nicaraguan democratic opposition in dealing with the Government of Nicaragua;

(D) to provide command and control for the military forces of all resistance groups receiving assistance under this title and to establish the goals for their military operations;

(E) to determine the distribution of and maintain accountability for assistance provided under this title; and

(F) to provide the legal mechanisms necessary for the enforcement of standards of conduct applicable to all members of the resistance groups receiving assistance under this title.

(e) On and after February 15, 1987, the restrictions in subsection (b) shall cease to apply and the remaining funds transferred under section 6(a) may be made available for obligation and expenditure for assistance to the Nicaraguan democratic resistance 15 days after the President determines and reports to the Congress that—

(1) the Central American countries have not concluded a comprehensive and effective agreement based on the Contadora Document of Objectives;

(2) the Government of Nicaragua is not engaged in a serious dialog with representatives of all elements of the Nicaraguan democratic opposition, accompanied by a cease-fire and an effective end to the existing constraints on freedom of speech, assembly, religion, and political activity leading to regularly scheduled free and fair elections and the establishment of democratic institutions; and

(3) there is no reasonable prospect of achieving such agreement, dialog, cease-fire, and end to constraints described in paragraphs (1) and (2) through further diplomatic measures, multilateral or bilateral, without additional assistance to the Nicaraguan democratic resistance,

unless the Congress has enacted a joint resolution under section 12 disapproving the provision of additional assistance (other than assistance described in subsection (b)(1) within the limits of funds previously made available).

(f)(1) Notwithstanding subsection (e), no assistance (other than the assistance described in subparagraphs (A) through (C) of subsection (b)(1)) shall be provided at any time to the Nicaraguan democratic resistance under this title if—

(A) the President determines that—

(i) the Central American countries have concluded a comprehensive and effective agreement based on the Contadora Document of Objectives; or

(ii) the Government of Nicaragua is engaging in a serious dialog with representatives of all elements of the Nicaraguan democratic opposition, accompanied by a cease-fire and an effective end to the existing constraints on freedom of speech, assembly, religion, and political activity leading to regularly scheduled free and fair elections and the establishment of democratic institutions; or

(B) the Congress enacts a joint resolution under section 12 disapproving the provision of additional assistance (other than assistance described in subparagraphs (A) through (C) of subsection (b)(1)).

(2) The prohibition contained in paragraph (1) shall not apply—

(A) with respect to assistance described in subparagraph (D) of subsection (b)(1) if the Government of Nicaragua fails to observe an applicable cease-fire; or

(B) with respect to assistance described in subparagraph (E) of subsection (b)(1) if the Government of Nicaragua acquires additional equipment or materiel to carry out air attacks.

CONGRESSIONAL PRIORITY PROCEDURES

SEC. 212. (a)(1) A joint resolution described in subsection (e) of section 11 shall be one without a preamble, the matter after the resolving clause of which is as follows: "That the Congress disapproves the provision of additional assistance to the Nicaraguan democratic resistance pursuant to title of the Military Construction Appropriations Act, 1987, except as provided in section 11(b) thereof within the limits of funds previously made available.".

(2) A joint resolution described in subsection (f)(1)(B) of section 11 shall be one without a preamble, the matter after the resolving clause of which is as follows: "That the Congress disapproves the provision of additional assistance to the Nicaraguan democratic resistance pursuant to title of the Military Construction Appropriations Act, 1987, except as provided in subparagraphs (A) through (C) of section 11(b)(1) and paragraph (2) of section 11(f) thereof.".

(b) A joint resolution described in subsection (a)(1) or (a)(2) shall be considered in the House of Representatives and in the Senate in accordance with the provisions of paragraphs (3) through (7) of section 8066(c) of the Department of Defense Appropriations Act, 1985 (as contained in Public Law 98-473), except that—

(1) references in such paragraphs to a joint resolution shall be deemed to be references to the respective joint resolution set forth in subsection (a)(1) or subsection (a)(2);

(2) references in such paragraphs to the Committee on Appropriations shall be deemed to be references to the appropriate committee or committees of the respective House of Congress; and

(3) references in such paragraphs to the eighth day and to fifteen calendar days shall be deemed to be references to the fifth day and to five calendar days, respectively.

(c) The provisions of this section are enacted—

(1) as exercises of the rulemaking powers of the House of Representatives and Senate, and as such they are deemed a part of the Rules of the House and the Rules of the Senate, respectively, but applicable only with respect to the procedure to be followed

in the House and the Senate in the case of joint resolutions under section 11, and they supersede other rules only to the extent that they are inconsistent with such rules; and

(2) with full recognition of the constitutional right of the House and the Senate to change their rules at any time, in the same manner, and to the same extent as in the case of any other rule of the House or Senate, and of the right of the Committee on Rules of the House of Representatives to report a resolution for the consideration of any measure.

COMMISSION ON CENTRAL AMERICAN NEGOTIATIONS

SEC. 213. (a)(1) There is established the Commission on Central American Negotiations (hereafter in this section referred to as the "Commission"), which shall be composed of five members appointed as follows:

(A) One individual appointed by the Speaker of the House of Representatives;

(B) One individual appointed by the Minority Leader of the House of Representatives;

(C) One individual appointed by the Majority Leader of the Senate;

(D) One individual appointed by the Minority Leader of the Senate; and

(E) One individual, who shall serve as Chairman of the Commission, selected by majority vote of the other members of the Commission.

(2) No officer or employee of the United States may be appointed as a member of the Commission.

(3) The appointments referred to in subparagraphs (A), (B), (C), and (D) of paragraph (1) shall be made within 5 calendar days following enactment of this title, and the selection of a chairman referred to in subparagraph (E) of paragraph (1) shall be made within 10 days following enactment of this title.

(b) The purpose of the Commission is to monitor and report on the efforts of the Nicaraguan democratic resistance to coordinate and reform and on the status of any negotiations on the peace, stability, and security of Central America, including negotiations conducted between or among—

(1) the Government of Nicaragua and all elements of the Nicaraguan democratic opposition, including the Nicaraguan democratic resistance;

(2) the governments of Central American countries;

(3) the Government of the United States and the Government of Nicaragua;

(4) the governments of the Contadora and Support Group countries and the governments of the Central American countries; and

(5) the Government of El Salvador and the insurgents in El Salvador.

(c)(1) The Commission may appoint and fix the pay of not more than seven staff personnel, but at such rates not in excess of the rate of pay for GS-18 of the General Schedule under section 5332 of title 5, United States Code.

(2)(A) Each member of the Commission shall be entitled to receive the daily equivalent of the annual rate of basic pay in effect for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code, for each day during which such member is engaged in the performance of duties as a member of the Commission.

(B) While away from his home or regular place of business in the performance of duties for the Commission, a member or staff personnel of the Commission shall be allowed travel expenses, including a per diem in lieu of subsistence, not to exceed the expenses allowed persons employed intermittently in Government service under section 5703 of title 5, United States Code.

(3) For purposes of pay and other employment benefits, rights, and privileges and for all other purposes, any employee of the Commission shall be considered to be a congressional employee as defined in section 2107 of title 5, United States Code.

(d)(1) A majority of the members of the Commission shall constitute a quorum.

(2) All decisions of the Commission shall be by majority vote.

(e) The Commission may make such reports in connection with its duties as it deems necessary to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate, except that—

(1) not later than 5 days after receipt by the Congress of a report by the President under section 14 the Commission shall prepare and transmit to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a report addressing all the matters which are required to be included in reports of the President by paragraphs (1), (3), and (4) of section 14; and

(2) not later than September 30, 1986, the Commission shall prepare and transmit to the Congress a report on whether the Nicaraguan democratic resistance groups receiving assistance under this title have agreed to and are beginning to implement measures described in subparagraphs (A) through (F) of section 11(d)(1) and an evaluation of the factors described in section 11(d)(2).

(f)(1) Salaries and expenses of the Commission, but not more than $400,000, shall be paid from the contingent fund of the Senate out of the Account for Miscellaneous Items, in accordance with the provisions of this section.

(2) Funds made available to the Commission by paragraph (1) shall be disbursed on vouchers approved by the Chairman, except that no voucher shall be required for the disbursement of the salary of an individual appointed under subsection (c).

(3) For purposes of section 502(b) of the Mutual Security Act of 1954, the Commission shall be deemed to be a standing committee of the Congress and shall be entitled to use of funds in accordance with such section.

(g) The Commission shall terminate not later than 90 days after transmittal of the reports required by subsection (e).

PRESIDENTIAL REPORTING REQUIREMENT

SEC. 214. The President shall prepare and transmit to the Congress with each determination required by section 11 a report on actions taken to achieve a resolution of the conflict in Central America in a manner that meets the concerns described in section 3(a). Each such report shall include—

(1) a detailed statement of the status of negotiations toward a negotiated settlement of the conflict in Central America, including the willingness of the Nicaraguan democratic resistance and the Government of Nicaragua to negotiate a settlement;

(2) a detailed accounting of the disbursements made to provide assistance with the funds transferred under section 6(a) and a detailed statement of how the accountability standards, procedures and controls established under section 7(b) and 11(d)(1)(F) are being implemented so as to assure that all such funds are fully accounted for and are being used exclusively for the purposes authorized by this title;

(3) a discussion of alleged human rights violations by the Nicaraguan democratic resistance and the Government of Nicaragua, including a statement of the steps taken by the Nicaraguan democratic resistance to remove from their ranks any individuals who have engaged in human rights abuses; and

(4) an evaluation of the progress made by the Nicaraguan democratic resistance in broadening its political base and defining a unified and coordinated program for achieving representative democracy in Nicaragua.

REQUESTS FOR ADDITIONAL ASSISTANCE

SEC. 215. The provisions of subsections (s) and (t) of section 722 of the International Security and Development Cooperation Act of 1985 shall apply—

(1) with respect to any request described in section 722(p) of such Act submitted by the President to the Congress on or after the date of enactment of this title, and

(2) with respect to any request by the President for additional economic assistance for the Central American democracies to carry out recommendations contained in the report required by section 5(c)(1)(B) (in which case references to a joint resolution in subsections (s) and (t) of section 722 of such Act shall be deemed to be references to a joint resolution without a preamble, the matter after the resolving clause of which is as follows: "That the Congress approves the additional economic assistance for the Central American democracies that the President requested pursuant to title of the Military Construction Appropriation Act, 1987."),

except that, for purposes of consideration in a House of Congress of a joint resolution under subsection (s) or (t) of such section, amendments to such a joint resolution may be in order but only if such amendments are germane.

LIMITATION ON PARTICIPATION OF UNITED STATES GOVERNMENT PERSONNEL IN DELIVERY OF ASSISTANCE

SEC. 216. (a) United States Government personnel may not provide any training or other service, or otherwise participate directly or indirectly in the provision of any assistance, to the Nicaraguan democratic resistance pursuant to this title within those land areas of Honduras and Costa Rica which are within 20 miles of the border with Nicaragua.

(b) As used in this section, the term "United States Government personnel" means—

(1) any member of the United States Armed Forces who is on active duty or is performing inactive duty training; and

(2) any employee of any department, agency, or other component of the executive branch of the United States Government;

but does not include any officer or employee of the United States General Accounting Office of any employee of the Inspector General of the Department of State and the Foreign Service who is carrying out inspections, investigations, or audits with respect to assistance for the Nicaraguan democratic resistance pursuant to this title.

*TITLE III—EMERGENCY RESERVE FOR AFRICAN FAMINE RELIEF*

*SEC. 301. Title II of Public Law 99-10 is amended, under the heading "Emergency Reserve for African Famine Relief", by strik-*

*ing out "$225,000,000" and inserting in lieu thereof "$525,000,000".*

*SEC. 302. Of the funds appropriated under title II of Public Law 99-10, as amended by this Act, $300,000,000 shall remain available for obligation until September 30, 1987, notwithstanding any other provision of law or this Act.*

Mr. MATTINGLY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. To whose time will the quorum be charged?

Mr. MATTINGLY. To be equally divided.

The PRESIDING OFFICER. Is there objection?

Mr. MATTINGLY. I ask unanimous consent that it be charged to my time.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

□ 1310

Mr. MATTINGLY. Mr. President, I ask unanimous consent that the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MATTINGLY. Mr. President, I am pleased to recommend to the Senate, H.R. 5052, as amended, which provides appropriations for military construction for fiscal year 1987. This very important bill makes it possible for our aircraft to have a place to land, our ships a place to dock, our tanks a place to train and be maintained, and most important, our outstanding military personnel to have the quality of life they deserve.

Mr. President, this bill is the first of the regular appropriations bills to be considered by the Senate. This bill, and the others to follow, will start the real budget process moving. It has taken us over 7 months to get here with the first appropriation bill. I think we need to keep that in mind as we proceed.

Mr. President, just bringing this bill to the floor has required an enormous amount of time and effort. I want to commend the majority leader, Senator DOLE, and the minority leader, Senator BYRD, for their outstanding leadership in getting the Senate to agree to the unanimous-consent agreement under which we are proceeding today. I believe this agreement proves the importance of the legislation we begin to debate this afternoon.

Mr. President, title I of this legislation provides for the military construction accounts; provisions for military and economic aid to Central America and the freedom fighters in Nicaragua will be referred to in titles II and III. I recommend these provisions to the Senate as part of the military construction appropriations bill for fiscal year 1987.

In accordance with the agreement, my initial statement will address title I, the military construction portion of the bill.

Mr. President, the committee recommendation for title I provides $8.2 billion for accounts in the military construction appropriations bill for fiscal year 1987. The bill is $1.9 billion under the President's January 1986 budget request. The bill before us meets the targets for budget authority and outlays as included in the budget resolution.

The bill provides no real growth, nor inflation factor, for military construction. However, I believe that while reductions have been made, the bill provides for a balanced program which will allow the Department of Defense to meet its most urgent and vital requirements in the military construction area.

This legislation continues the course taken for the past several years with regard to military construction funding.

Mr. President, I ask unanimous consent that a chart be included in the RECORD at this point which shows the budget request, committee recommendation and conference agreement for this legislation since fiscal year 1984.

There being no objection, the chart was ordered to be printed in the RECORD, as follows:

MILITARY CONSTRUCTION APPROPRIATION BILLS—FISCAL YEARS 1984–87

| Fiscal year | Budget request | Committee recommendation | Conference agreement |
|---|---|---|---|
| 1984 | $8,655,127 | $7,240,336 | $7,104,237 |
| 1985 | 10,318,200 | 8,535,964 | 8,405,206 |
| 1986 | 10,340,200 | 8,720,353 | [1] 8,081,465 |
| 1987 | 10,137,200 | 8,224,081 | [2] 8,220,000 |
| Totals | 39,450,727 | 32,720,734 | 31,810,908 |

[1] As adjusted by Gramm-Rudman-Hollings budget provision.
[2] Budget allocation for fiscal year 1987.

Mr. MATTINGLY. Mr. President, what the chart shows is that under the leadership of myself and the Senator from Tennessee the Appropriations Subcommittee on Military Construction was cut $7.6 billion from the budget requests. I make this point only to show that budgets can be reduced and the Defense Department does take its fair share of cuts. The military construction accounts have taken a 20-percent reduction from the budget requests during fiscal year 1984–87. I know that there is much left to be accomplished in military construction for the Defense Department; but in these times of budgetary constraint, I believe that no account is a sacred cow—except maybe in the Dairy Program as included in the fiscal year 1987 farm bill—and military construction programs have been constrained. I believe that the committee recommendation provides for the military construction needs of our country, but we have indeed the frills.

Mr. President, this bill provides for about 1,200 different projects around the world which support our military forces. The projects vary from barracks and dining halls to target ranges to support the strategic defense initiative. There are a few large items to which I want to make special reference. These include $141 million for facilities to support the Navy's strategic homeports; $321 million for the Army's new light divisions' being stationed at Fort Drum, NY and Forts Wainwright and Richardson, AK; and $168 million for projects to support the Trident submarine base being constructed at Kings Bay, GA.

It would take hours to even highlight all of the important projects in this legislation—hours we can use for other purposes. The committee recommendation—in the form of the bill and report—has been available for nearly 2 weeks, and I am sure, Mr. President, that all of our colleagues have reviewed it carefully.

Mr. President, I am particularly pleased about some other provisions included in the military construction part of the bill.

One, which I have proposed and that has been included for several years, involves section 124. It provides the President with the authority to withhold these military construction dollars to be spent in any country which is failing to take adequate measures to prevent drugs or other controlled substances cultivated, produced or processed illicitly from being sold illegally within the jurisdiction of that country to U.S. personnel or their dependents or from being smuggled into the United States.

Mr. President, I ask unanimous consent that an article from the Wall Street Journal in reference to illegal drugs be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

U.S. SHOULD GET TOUGH ON COUNTRIES THAT ARE BIG SOURCES OF ILLEGAL DRUGS

(By Walter S. Mossberg)

WASHINGTON.—When American lives are threatened by the behavior of foreign nations, Ronald Reagan is usually quick to take action.

He justified the U.S. invasion of Grenada as necessary to rescue American medical students from a pro-Cuban Communist regime and bombed Libya to retaliate for Libyan-supported terrorist attacks on Americans.

Yet the U.S. continues to maintain amicable relations with several nations that help cause more death and mayhem in America than all the terrorist groups and all the Communist dictators combined. They are the "friendly nations" from which vast quantities of deadly and illegal drugs, primarily cocaine, are relentlessly shipped to the U.S.

RELATIONS UNAFFECTED

The other day Mr. Reagan went on television to declare again that the drug epidemic

in the U.S. is "a threat to our national security." Yet Mexico, Colombia, Bolivia, Peru and other drug-tafficking countries, where some officials are paid to overlook narcotics trade, have failed to snuff out shipments of the poison to this country with little, if any, cost to their relations with the U.S.

According to the latest U.S. intelligence estimate, covering 1984, Colombia was the principal site for the processing and distribution of cocaine bound for the U.S. Bolivia and Peru were the major growing areas for the raw material, coca leaf, Mexico was believed to be the source of 32% of the heroin used in the U.S. 20% of the marijuana and a major transshipment point for cocaine.

Yet the administration is seeking large foreign-aid increases for Bolivia, Colombia and Peru, and it has worked hard to arrange a new financial rescue package, including a large bridge loan, for Mexico. The linkage between aid and good behavior that the U.S. enforces elsewhere apparently doesn't apply to these countries.

Of course, the narcotics issue can't be the sole determinant of U.S. policy toward its neighbors, particularly in the case of Mexico, where there are many other pressing issues. A total aid stoppage might do more harm than good. But there is real danger that U.S. policy imposes too few costs on the governments involved for tolerating the drug trade.

The U.S. hasn't let the drug issue control its stance on trade, military cooperation or other aspects of relations with the four countries. Last week, Secretary of State George Shultz even attended the presidential inauguration in Colombia, where almost nothing was said publicly about the drug problem.

"We have tried for years to get the State Department to be tough on them," says a Republican Senate aide involved in the issue. "But there are those in the government who haven't had the stomach for it." Adds a Democratic staffer in the House: "They aren't serious. When they decide on aid, narcotics isn't the only issue. There are competing interests and narcotics usually comes out at the bottom of the list."

Rayburn F. Hesse, special assistant for policy in the State Department's Bureau of International Narcotics Matters, argue that even without totally withdrawing aid, U.S. pressure and concerns has yielded important progress in each of the nations "They haven't solved the problem yet but . . . if a country is cooperating on narcotics, we cooperate with them," he explains. "If we cut off aid, we in effect shut off all political access," and thus the opportunity to continue cooperative anti-drug ventures.

Mr. Hesse cites as success the recent U.S.-aided military operation against cocaine facilities in Bolivia, Colombia's eradication of some of its coca drop and Mexican permission to allow U.S. planes to help wipe out some opium fields. He notes that the Bolivian operation came only after the U.S. suspended about $7 million out of the current year's $58 million in aid to that nation.

But the administration can't take credit for that. The suspension was triggered by a law Congress passed over administration opposition. The measure required the cutoff if Bolivia didn't live up to an earlier pact promising partial elimination of its coca crop, which has been legal under Bolivian law.

WRONG FOCUS

And even when the administration does act, its focus is often wrong. U.S. and Bolivian forces merely destroyed some cocaine-processing labs, leaving undisturbed the coca crop that is Bolivia's main contribution to the U.S. drug problem. The U.S. has cheered Colombia for eradicating some of its coca crop but concedes that cocaine processing, not coca growing, is the bigger problem there.

Thus Bolivia is still tied with Peru as the main sourced of coca leaves for the cocaine used in the U.S. And, despite the destruction of some labs, Colombia still is the major processing center. Mexico has lapsed badly from earlier U.S.-backed success in eradicating drug supplies.

The governments of these nations may not be sufficiently powerful or incorruptible to win an all-out fight with the criminal warlords who run the drug trade. But, by settling for temporary and incremental gains, the U.S. isn't pressing them hard enough to test their resolve.

Mr. MATTINGLY. Mr. President, this bill provides funding for facilities in over 25 different countries totaling well over $1 billion.

Mr. President, I call upon the President of the United States to use this provision in order to bring the problem of illegal drugs under control.

Another provision I have included for several years makes a 10-percent reduction for consultants and studies utilized by the Department of Defense in association with this bill. Mr. President, getting a firm hold on the number of consulting services and studies used by the Federal Government is undoubtedly a most difficult task. I believe that the savings are worthwhile, however, and a further help in solving our budgetary problems.

In that regard, Mr. President, the bill before us makes a $25 million general reduction for the Davis-Bacon Act provision changes adopted last week as part of the defense authorization bill. The amount reduced in this bill is but a fraction of what can be saved through more Davis-Bacon changes. I only hope that more substantial changes will be made in the future.

Mr. President, I believe that the bill before us provides for a balanced military construction program, and I urge the full support of my colleagues for this legislation.

Mr. President, before the ranking member of the subcommittee begins his statement, I want to thank him for his cooperation in preparing the military construction bill. While we share differing views on the Central American issue, Senator SASSER and I, this year as in the past, have agreed on the importance of the accounts in the bill and are providing the moneys necessary for the Department of Defense.

Mr. President, that concludes my opening remarks in title I.

Mr. SASSER. Mr. President, I join the distinguished Senator from Georgia, the chairman of the subcommittee, in recommending approval of title I of this legislation.

Mr. President, title I of the military construction appropriation is a very important piece of legislation. We are providing funding for almost 2,000 military construction projects worldwide, as the distinguished chairman earlier indicated.

Relative to the defense bill, the Milcon bill is very small in comparison. But the dollars appropriated by this legislation are vital to force readiness, sustainability, power projection, and probably as important if not more important than any of the others, the morale of our military manpower.

The bill before us provides for some very high priority initiatives.

We are continuing to fund the east coast base for the Trident II submarine at Kings Bay, GA. The Trident II, when deployed, will be the Nation's most survivable counterforce nuclear deterrent in our arsenal.

We are providing funds to continue the homeporting initiative of the Department of the Navy. There is no gainsay in the fact that this initiative has been very controversial. But last week, the Senate expressed its will with regard to homeporting during debate on the authorization bill.

□ 1320

We are providing funding for the construction of new facilities at Fort Drum, NY, to accommodate the 10th Light Infantry Division. The formation of Light Divisions to respond to crises around the world in a timely manner has been a high priority of the Army. The committee is fully supportive of this initiative, which I believe will strengthen conventional deterrence in critical locations around the world.

There are dozens of other very important projects provided in this bill which are too numberous to mention here. Suffice it to say that the subcommittee has provided, I believe, the proper balance between the need to exercise budgetary restraint and the need to provide for adequate facilities which are necessary to preserve our national security.

Mr. President, I continue to be concerned that our NATO allies and Japan are failing to provide a fair share of the common defense burden. This is an interdependent world. Our allies are as threatened by the Soviets and communism as the United States, perhaps even more so. But they continue to let Uncle Sam substantially assume the burden of protecting the free world.

In a few moments, I will offer an amendment which deals with the whole question of burden sharing—what is fair and what is equitable. So I will defer further comments on this matter until the amendment is called up.

Mr. President, I regret that the leadership and the administration have seen fit to burden this bill with the

Contra legislation. There is no obligation on the Senate to approve the Contra legislation on the military construction appropriation merely because the House did so.

Before yielding, Mr. President, I want to state my intention to offer an amendment at the appropriate time during the debate which would strike titles II and III, which relate to Central America.

I will make that motion for two reasons. First, I do not believe the military construction bill is the appropriate legislative vehicle for the Contra legislation.

Second, and most important, I believe the administration's Nicaraguan policies are fatally flawed and, if approved by the Senate, will ultimately lead to a wider war in Central America—a war that could ultimately involve American troops.

So, later in the debate I will urge my colleagues to strike those sections of the bill which relate to the Contra issue, so that the appropriate committees of the Senate and officials of the administration can go back to the drawing board and devise a policy toward the Sandinista government in Nicaragua which can achieve a broad consensus that will have bipartisan support not just in Congress but among the citizenry of our country, and a policy which does not divide our country and set us one against another on this very vital issue.

Mr. President, I would be remiss if in closing I did not express my appreciation to the distinguished chairman of our subcommittee. As usual, he and I have found substantial common ground, particularly on title I of this bill. Even though we differ on the Contra issue, as he stated earlier, we have not let those differences impact upon our primary duty to bring before the Senate the best military construction appropriation bill possible.

I want to express my appreciation and commendation to the chairman of the subcommittee for the splendid work he has done in this regard.

I yield the floor.

Mr. MATTINGLY. Mr. President, I thank the ranking minority member for his kind remarks.

Mr. President, I ask unanimous consent that the committee amendment in title I of the bill be agreed to en bloc and that the bill as thus amended be regarded for the purpose of amendments as original text, provided that no point of order shall be considered to have been waived by agreeing to this request.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MATTINGLY. Mr. President, I know of just a couple of amendments on the military construction section of this bill. I believe Senator SASSER has an amendment on burden sharing which can probably be addressed at this time.

The PRESIDING OFFICER. The Senator from Tennessee.

AMENDMENT NO. 2691

(Purpose: To prohibit the expenditure of funds for construction projects in Europe and Japan until the Secretary of Defense submits a report containing certain information to Congress)

Mr. SASSER. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from Tennessee [Mr. SASSER] proposes an amendment numbered 2691.

Mr. SASSER. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 20, between lines 23 and 24, insert the following new section:

SEC. 126. None of the funds appropriated in this Act may be obligated or expended in connection with construction at any military installation in Europe or Japan until the Secretary of Defense has provided the Committees on Appropriations of the Senate and the House of Representatives with a report containing details of the specific actions proposed to be taken by the Department of Defense during fiscal year 1987 to encourage other member nations of the North Atlantic Treaty Organization and Japan to assume a greater share of the common defense burden of such nations and the United States.

Mr. SASSER. Mr. President, last week—in fact, late Saturday evening—the Senate passed one of the largest defense authorization bills in the history of the United States.

Despite the need for budgetary restraint and the cuts and reductions the Congress will have to make in the President's defense request, the United States will still spend more than 6 percent of our gross national product on defense activities during the coming fiscal year.

Roughly half of our military budget is devoted to the defense of Europe.

We have on station in Europe 340,000 American troops, almost 70 percent of our forward deployed forces.

It has been calculated that the American taxpayer spends $400 million per day to pay for the defense of Europe, a total on a yearly basis of $140 billion.

Let us think about that for a moment, Mr. President. At that rate of spending, the defense of Europe has cost us over $1 million just since this amendment was called up a moment ago.

Mr. President, that is not the end of it. We spend another $25 billion for the defense of northwest Asia, primarily Japan and Korea.

We spend another $50 billion on rapid deployment capabilities for the defense of the Persian Gulf.

Quite simply, we are protecting Europe's and Japan's oil supplies. It appears to this Senator that our allies have been getting almost a free ride in that regard.

In the military construction bill alone, over the past 5 years, we have provided over $1 billion for facilities in the Persian Gulf-Middle East region. Our allies have provided not one thin dime, not one thin dime, in that long multithousand mile oil lifeline from the Persian Gulf to the Japanese islands. The Japanese get over 90 percent of their oil out of the Persian Gulf. Not a single Japanese naval vessel is defending that oil pipeline or oil lifeline until within less than 100 miles of the Japanese home islands. It is defended all the way, Mr. President, by the U.S. Navy, nuclear aircraft carriers, battle groups, all to the tune of billions of dollars, paid for by the taxpayers of the United States.

□ 1330

Mr. President, it costs every man, woman and child in the United States almost $1,000 a year for national defense. Yet our allies are spending less than one-fourth that amount per capita.

So it is clear that Uncle Sam, at least in the judgment of this Senator, is being played for a sucker.

Our European allies and our Japanese allies are letting us pay for their defense while they crowd us out on the international trade markets.

So, Mr. President, I say the time has come to make it clear to our allies that the free ride is over. It is time that they pay a larger share for the common defense of the free world.

For several years we included language in the military construction appropriations bill expressing the sense of the Senate that the executive branch should seek a more fair allocation of defense burdens.

I am sorry to say that language never accomplished its intent.

For the past several years we have required an annual report from the Secretary of Defense assessing the free world's defense burden. Every year that report says the same thing.

It says that the allies are doing better but somehow inexplicably the gap continues to widen between what they spend and what we spend.

So, I am forced to the conclusion, Mr. President, that the executive branch of our Government does not share the same commitment that we share here in the U.S. Senate and in the House of Representatives on this particular issue.

Oh, sure, the Secretary of Defense and the Secretary of State will give lip service to the proposition that defense

burdens need to be more adequately shared. But the question comes what are they actually doing to bring about more equitable burden sharing in the common defense of the free world.

Included in this bill before us today is more than $500 million, one-half billion dollars, for construction at United States military bases in Europe and in Japan.

My amendment simply states that the Department of Defense cannot sign a single contract for the construction of those projects until Congress is provided a report which outlines specific actions and steps to be taken by the Department of Defense to encourage more equitable burden sharing.

The time has come when we must take this type of legislative action to get the attention of the executive branch of Government that we have to have on this issue.

Now, I think it is important to emphasize that this amendment does not preclude the Department of Defense from designing projects or advertising for bids. It does prevent, however, any contract from being signed until the specific report on how we intend to increase our allies' contributions to the common defense is received.

So, if the Department of Defense wants to continue to modernize facilities overseas, it must come forward with the report to Congress in a time limitation.

I am not attempting to halt overseas military construction by this amendment. Quite the contrary.

What I am attempting to do is to get the attention of the Department of Defense and the executive branch of Government and send a clear message that more must be done by the United States to encourage our allies to contribute more, to act in a more fair and equitable manner, as we try to provide for a common defense.

The report mandated by my amendment would provide Congress with a clear indication of the executive branch's commitment on this issue.

For the first time, Congress will have in writing a report from which we can judge the adequacy of the administration's actions to achieve equity in defense spending.

I would say to my colleagues that in my home State of Tennessee constituents are asking me, "How can we continue to pay more and more for defense when our allies do not pay more and more?"

It is time that Congress begins to go on record that the status quo is unacceptable. Let me just quote a few statistics, Mr. President: The population of Western Europe is larger than that of the Soviet Union, a little known fact. The gross national product of Western Europe is 1.5 times that of the Soviet Union, a little known fact.

Western Europe pays less than half per capita for defense——

The PRESIDING OFFICER. The time of the Senator on this amendment has expired.

Mr. SASSER. I ask unanimous consent that I be allowed additional time from the bill not to exceed 2 minutes.

The PRESIDING OFFICER. The Senator has the right to take time from the bill.

The Senator is recognized.

Mr. SASSER. So it is time, Mr. President, that Congress goes on record that the status quo is unacceptable.

It is time that the executive branch begins applying pressure on our allies to shift their priorities just as we have done here in the U.S. Senate.

I would say to my colleagues that if the executive branch does not begin to apply more pressure we in Congress will have to find a more direct legislative way of doing so.

So, I hope that my amendment will send a message, first, to our allies, and second, to the executive branch of our own Government that patience here on Capitol Hill among the elected representatives of the people of the United States is running out.

Mr. President, I will urge the adoption of this amendment.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. MATTINGLY. Mr. President, I rise in support of the amendment being offered by the distinguished Senator from Tennessee. I believe that this amendment is another indication of Congress concern that Japan and our NATO allies must provide assistance in the matter of burden sharing.

For the past several years, the committee had included a similar general provision on burden sharing which I had supported.

In addition, though, I had included, sponsored, and introduced and we passed into law an amendment which limited the obligations from the NATO infrastructure account. The NATO infrastructure amendment has not been included this year because I believe NATO has now improved their construction program and the United States will recoup all the prefinanced funds within the next 5 years.

But as this legislation is required, so was it required to try to get the NATO infrastructure account recouped when it was owed to this country; and there was a great reluctance upon not only some of our people, but also on the other countries, of not wanting to repay the debt.

The intent of this amendment, I am certain, is not to hold up any necessary construction but it is merely designed to put down on paper a plan of action by which the Defense Department can show Congress what direction is being taken to encourage our allies to increase their share of the common defense burden.

While I support this amendment, I will ask the distinguished Senator from Tennessee if he would be willing to make a slight modification. I would like to see a date certain, say November 15 of this year, for the report and by including that date that we could assure that no projects would be delayed.

Mr. SASSER. If the distinguished Senator from Georgia will yield, I welcome his suggestion. I think that would be a constructive modification.

And does the Senator have a date that he would suggest?

Mr. MATTINGLY. I believe November 15 of this year would be an acceptable date.

Mr. SASSER. In that context, Mr President, I then ask unanimous consent to modify my amendment to insert on line 8 after the word "report" add the language "by November 15, 1986."

The PRESIDING OFFICER. The Senator has that right.

Without objection, the modification is agreed to.

The modified amendment is as follows:

On page 20, between lines 23 and 24, insert the following new section:

SEC. 126. None of the funds appropriated in this Act may be obligated or expended in connection with construction at any military installation in Europe or Japan until the Secretary of Defense has provided the Committees on Appropriations of the Senate and the House of Representatives with a report by November 15, 1986, containing details of the specific actions proposed to be taken by the Department of Defense during fiscal year 1987 to encourage other member nations of the North Atlantic Treaty Organization and Japan to assume a greater share of the common defense burden of such nations and the United States.

□ 1340

Mr. MATTINGLY. Mr. President, I thank the Senator for his cooperation. This side offers no objection to the amendment.

The PRESIDING OFFICER. Do the Senators yield back their time on the amendment? The Senator from Georgia has 7 minutes remaining.

Mr. MATTINGLY. Mr. President, I yield back my time.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2691), as modified, was agreed to.

Mr. SASSER. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. MATTINGLY. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2692

(Purpose: To make adjustments to various projects to be provided appropriations during fiscal year 1987)

Mr. MATTINGLY. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Georgia [Mr. MATTINGLY] proposes an amendment numbered 2692.

Mr. MATTINGLY. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment reads as follows:

On page 2, line 11, strike "128,440,000" and insert in lieu thereof "129,440,000".

On page 2, line 17, strike the punctuation after the word "therefor" and after the stricken lines insert the following: ": *Provided further,* That of the amount available for study, planning, design, architect and engineer services, $1,000,000 shall be available for the design of facilities at Fort Benning, Georgia necessary due to the establishment of the U.S. Army School of the Americas at Fort Benning".

On page 3, line 5, strike "1,282,995,000" and insert in lieu thereof "1,282,985,000".

On page 3, line 12, strike the punctuation at the end of the section and insert the following: ": *Provided further,* That of the amount available for study, planning, design, architect and engineer services, $200,000 shall be available for the purpose of providing community impact assistance funds as necessary in support of the Gulf Coast Strategic Homeporting Initiative.".

On page 3, line 17, strike "1,252,710,000" and insert in lieu thereof "$1,250,620,000.

Mr. MATTINGLY. Mr. President, the amendment I have sent to the desk provides for a few changes from the committee recommendation.

The amendment, in total, makes a reduction of $1.1 million from the recommendation.

I ask unanimous consent that a list of the individual changes be printed in the RECORD at this point.

There being no objection, the changes were ordered to be printed in the RECORD, as follows:

| | |
|---|---|
| Project/account adjustments in Mattingly amendment: | |
| Army: Planning and design | +$1,000,000 |

| Total change to the bill | −1,100,000 |

Mr. MATTINGLY. Mr. President, in addition to the project changes, language is included to provide specific funds for design of the facilities at Fort Benning, GA, to support the U.S. Army's School of Americas which, on August 6 of this year, was permanently established at Fort Benning. Senator NUNN joins me in support of this part of the amendment.

Mr. President, this amendment also includes the proposed amendments noted in the unanimous-consent agreement for the other Senators who had reserved time. This has been cleared and will merely allow for a more simple procedure.

Mr. President, I believe that this amendment is agreeable to the other side of the aisle and I ask for its adoption.

Mr. SASSER. Mr. President, I have no objection to this amendment. It provides for the needs of a number of our colleagues that were pointed out to us just over the past weekend. I think it is a constructive amendment. It provides for projects that, in my view, are necessary. So I have no objection.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment.

The amendment (No. 2692) was agreed to.

Mr. MATTINGLY. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SASSER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

● Mr. BOREN. I want to express my appreciation to the chairman and ranking minority member of the Subcommittee on Military Construction, of the Committee on Appropriations, for a job well done under extremely difficult circumstances. To meet the fiscal year 1987 budget allocation, a cut of nearly one-fifth of the budget request had to be made. This subcommittee had one of the most difficult tasks to be faced by appropriating committees this year.

The report language addresses the need for the new warehouse at Tinker Air Force Base, one of the six Air Force logistics centers, which was authorized and appropriated in the House for fiscal year 1987. This facility will consolidate the base supply and mobility activities located in seven scattered sites cutting the time for gathering supplies for deployments from 4½ hours to 30 minutes. I appreciate the willingness for serious consideration of this project once it is authorized.

I commend the approval by the committee in the fiscal year 1987 report language that the sewage treatment project at Vance Air Force Base is necessary and would save taxpayers dollars by the cooperative effort with the new facility for the city of Enid. The city of Enid is ready and now must wait until the Air Force comes through with their share. I urge the Air Force training command to expedite their approval for the appropriation which is a mere $1,350,000.

In the report language the committee recognizes the need for the ramp space at Altus Air Force Base for the additional C-5B's that are now being delivered. I am proud of the job that Altus is doing as a MAC training base and add my appeal that the Air Force follow the instruction to include this project in the next budget.

Mr. President, I thank the committee for making the technical correction to the appropriation language in the fiscal year 1986 supplemental for the expeditious payment to victims of the truck accident with the resulting ammunitions explosion in Checotah, OK. This should enable the Army to settle this matter in the near future.

Oklahomans demonstrate their pride of country through the community support of the military bases, the Army ammunition depot, and the role of the Guard and Reserve located in our State. I know they join me in appreciation of the work of the Congress in helping to fulfill the military missions assigned to these forces in Oklahoma.

Mr. NICKLES. Mr. President, I would like to note that the Military Construction Subcommittee and the Appropriations Committee itself appropriated over $24 million for military construction projects in the State of Oklahoma. Important projects such as land acquisition at Altus AFB, maintenance, storage, and treatment buildings, as well as an addition to the terminal facilities at Tinker AFB were funded. In addition, an antiarmor weapons range at Camp Gruber and storage buildings at armories for the Army National Guard were approved in order to keep our active duty personnel and reservists up to date.

While the $10 million warehouse at Tinker AFB was deferred without prejudice due to lack of a Senate authorization, the committee report notes that this is an important project

and that therefore careful consideration should be given to the project in the conference on this legislation.

While two add-on projects, the sewage waste treatment system at Vance AFB and the additional ramp space at Altus AFB were not appropriated, we are pleased to note that the committee added legislative report language to the effect that the Air Force should include these vitally needed projects in the next available budget cycle. This is because the wastewater treatment system at Vance is badly needed in order to satisfy a court mandate and to save the taxpayer money by sharing a new sewage system with the city of Enid. The Altus ramp expansion is also sorely needed to provide space for the C-5 aircraft, which currently are operating under a wing-to-wing spacing exemption for parking its aircraft at that base.

Mr. MATTINGLY. Mr. President, I believe that completes action on title I, the military construction title of this bill.

Mr. President, if Senator SASSER is in agreement, I would propose we yield back any remaining time on title I and proceed to title II, as agreed upon in the unanimous-consent agreement on this bill.

Mr. SASSER. That would be acceptable, Mr. President. I have no objection.

The PRESIDING OFFICER. Is all time yielded back on title I? All time is yielded back.

The question is on agreeing to title I, as amended.

Title I, as amended, was agreed to.

Mr. MATTINGLY. Mr. President, I move to reconsider the vote by which title I was agreed to.

Mr. SASSER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

TITLES II AND III

Mr. MATTINGLY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MATTINGLY. Mr. President, I ask unanimous consent that the order for quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MATTINGLY. Mr. President, titles II and III of the military construction appropriations bill contain the recommendations of assistance to the Central American democracies and to the Nicaraguan democratic resistance.

These provisions are in accord with the recommendations of the National Bipartisan Commission on Central America and of the President. The legislation recommends $300 million in economic and development assistance to the Central American democracies of Costa Rica, El Salvador, Guatemala and Honduras. It also provides $100 million in humanitarian and other assistance to the Nicaraguan resistance forces.

The legislation that has been reported to the Senate in title II of this bill is identical to the legislation that passed the House of Representatives on June 25 of this year. The recommendations on aid to the resistance forces closely follow the outline of Senate Joint Resolution 283, which passed the Senate on March 27 of this year by a bipartisan vote of 53 to 47.

Title III of the bill was added by the subcommittee because under the funding methods proposed by the House, the emergency famine relief and the Public Law 480 food aid accounts could have been depleted. The Senate language restores these funds.

My preference, as I told my colleagues during the Appropriations Committee and subcommittee markup of this legislation, would have been to have had the House of Representatives act on the freestanding resolution (S.J. Res. 283) that the Senate had passed and not have the military construction appropriations bill used as a vehicle to provide assistance to Central America. However, that was not the case and we find ourselves confronted with the issue on the Milcon bill operating now under the terms of one of the most complex unanimous-consent agreements that the Senate has ever approved. In my view, it is unfortunate that the Senate finds itself in a position of once again having to debate a matter that has already been thoroughly aired in this body. The time of the Senate could be better spent on many other issues.

Unique though it may be to consider this sort of legislation on a military constuction appropriations bill, we must not fail to act, Mr. President. In deciding this issue and in passing this legislation, we will be deciding the level of freedom and human dignity that will be enjoyed by millions of people living in Nicaragua and throughout Central America. To me, that is the critical issue involved and we should not loose sight of it.

Indeed, we should pass title II with no changes because to change it would put us in a situation where these changes would become conference items with our House colleagues and, in essence, we would be starting the whole process all over again.

That is probably what the opponents of the assistance package would like. But the issue is too important for us to allow it to become a ping-pong game between the House and Senate without ever coming to a final resolution. That is why I will ask my colleagues to support a tabling motion to all amendments to title II.

The President has endorsed this package although it certainly contains elements that he would probably prefer not to have in it. The House of Representatives has endorsed the package after much debate and great effort and certainly, every Member who voted for it is probably not in total agreement with every recommendation. But a majority of the House has approved this method of assisting the Central American democracies.

Now the matter once again comes before the Senate and I urge my colleagues to exercise some legislative self-restraint; forget about the TV; support the proposal that is before us; and finally act decisively and reaffirm the vote we took in March.

The $100 million in assistance to the democratic resistance would be released in three increments over a period of 6 months; $30 million of the $100 million would be available only for humanitarian aid; $40 million of the $100 million would be available upon enactment; $20 million would become available on October 15 but only if the resistance forces have made internal reforms in their organization; only if the Nicaraguan Government refuses to negotiate; only if the President reports to the Congress that the funds should be released; and only if the Congress has not enacted a resolution expressing disapproval of such additional assistance. These same criteria would apply to the release of the final $40 million in February 1987 and the limitations on assistance would be lifted.

The legislation before us contains the provision that was included in the earlier version passed by the Senate in March of this year. That section prohibits assistance to any group that retains in its ranks any individual who is engaging in drug smuggling; violates human rights; or misuses funds. No evidence has been presented that the leadership of the larger resistance groups is engaged in drug trafficking or that such activity is widespread within their forces. However, in order to emphasize the importance that the Congress places on this issue, the legislation before us contains a provision that would result in the halt of any assistance to any group that keeps such individuals within its ranks. This provision not only serves as a strong impetus for the resistance forces to rid themselves of anybody engaged in such activity, it also serves as a strong deterent and self-policing mechanism.

This legislation incorporates many of the suggestions that were made by Senators during our consideration of Senate Joint Resolution 283 in March. Included in the proposal before us is the amendment offered by Senator DIXON that prohibits United States troop activity in Nicaragua for the purpose of providing training or any other support to resistance groups.

In addition, the language originally suggested by Senators KASSEBAUM, RUDMAN, and COHEN relating to the need for the resistance groups to broaden their leadership base and implement other reforms has been included in the proposal before us.

In other words, Mr. President, we have before us a balanced proposal that gradually elevates the type of assistance available to the resistance but only if the combination of continued diplomatic, political, and economic measures have failed to bring about the results that we seek.

Those results, the policy goals of the legislation, are contained in the first section of title II. We seek to "promote economic and political development, peace, stability and democracy in Central America—and—to encourage a negotiated resolution of the conflict in the region, and toward these ends * * *."

I urge the Senate to support the legislation before us because, in my opinion, it represents our last, best chance to secure peace in that troubled region and national reconciliation in Nicaragua.

Mr. PELL addressed the Chair.

The PRESIDING OFFICER (Mr. HATFIELD). The Senator from Rhode Island is recognized.

Mr. PELL. Mr. President, once again the Senate is debating an administration request for assistance to the Contras fighting to overthrow the Sandinista government in Nicaragua. Although discussion of this issue has become an annual, sometimes biannual, ritual in both Houses of Congress, what we are considering today represents a serious departure from the previous norm. We are not merely considering a measure to give more boots and food to a ragtag bunch of people who do not like the Sandinistas. We are far beyond that with the proposal that is now before us. We are being asked to finally put in place a policy of escalating military action against the Government of Nicaragua.

We are being asked to take the wraps off a policy which commits our Nation to the military overthrow of the present Government of Nicaragua. We are being asked to commit the U.S. Goverment far beyond the $100 million that is in this proposal. We are being asked to commit ourselves to a military policy from which there will be little room for turning back. We have reached a historic watershed in United States policy toward Nicaragua in this long hot summer of 1986. In essence, this issue in today's context has to be cast as one of war or peace.

I have spoken many times these past years about my concerns regarding our Nation's suport for the Contras but they bear reiteration under this new circumstance we face. It could very well be the last time that issues such as the makeup and the character of the Contras—our terrorists—waging brutal warfare against their own people, are relevant. The issues of the resumption of bilateral discussions with the Sandinistas, and the need to support the Contadora peace process are also on the verge of becoming irrelevant. If we approve the administration's proposal, we will be far beyond these issues, because the United States will be committed to pursuing a Contra victory that cannot be achieved unless U.S. forces are directly engaged. I fear that future issues for discussion before this body will have a familiar ring, echoing the trauma of Vietnam. War powers, massive U.S. troop involvement, no-win strategies, military quagmire, domestic turmoil, national frustration, and other remembrances permanently implanted on our national psyche are on the verge of being vividly revived.

Before some of you slough this off as idle, alarmist talk, I remind my colleagues of my warnings of deeper U.S. military involvement in Central America back in 1982. In June of that year, I proposed an amendment which would have withheld funds for the improvement of several airfields in Honduras. The funds were in a virtually unnoticed line item in the military construction bill, which to me represented much more than mere modernization of airstrips in friendly Honduras. I argued that it signaled the beginning of intense United States military pressure on Nicaragua. I further argued that approval of the measure would involve the United States in a deepening military role in the Central American region. Sorry to say, I have been proven right. The measure prepared the way for the joint military exercises which continue today. They have evolved into a U.S. military presence which now has become a U.S. military permanence—involving thousands of troops—which is on the verge of turning Honduras into a United States military reservation. I lament the fact that only 29 of my colleagues agreed with me back in 1982. But we still have time, albeit very little, to step back and reconsider what we are doing.

I would like my colleagues to dwell for a moment on certain elements of administration policy in Nicaragua in an effort to understand for whom and for what you are voting. First of all, the Contra military leadership still is dominated by members of former dictator Somoza's National Guard. The report of the Arms Control and Foreign Policy Caucus has found that 12 of the 13 principal military leaders of the FDN Contra force are former guardsmen. It is especially important to note that the Department of State, while differing on what constitutes the "High Command," confirmed my contention, based on the caucus report, that the FDN leadership is largely in the hands of former Guard officers. This past March, in response to my letter requesting information on Contra leaders, the State Department confirmed that 9 of the 13 names listed by the caucus were members of the FDN leadership. While service in the National Guard need not be viewed as itself disreputable, the leaders I have cited have presided over the murder, pillage, and rape of the very people they profess to want to liberate—just as they did when they worked for Somoza.

□ 1400

Despite declarations that they are improving their human rights conduct, there is ample documentation that the Contras continue to commit barbaric, inhumane acts against civilians—noncombatants—resulting in deaths, maimings, and destruction of property. Amnesty International recently reported that the Contras have been responsible for "a persistent pattern of abuses * * *." Amnesty has testimony from witnesses attesting to "execution-style killings in which captives were bound and tortured and their throats slit by FDN forces." An Americas Watch report refers to mutilation and murder of civilians who the Contras believe are Sandinista activitists. A report commissioned by the Washington Office on Latin America and conducted by the former assistant attorney general of the State of Missouri, with the assistance of the Witness for Peace organization, reported indiscriminate kidnappings, rapes, assassinations, and other forms of violence.

The testimony of victims who have survived Contra atrocities offer graphic examples of how the Contras—our terrorists—fight their battle for the so-called freedom of the Nicaraguan people. If the definition of a terrorist is one who employs wanton, indiscriminate violence against civilians in an effort to influence government policy, then the Contras are indeed our terrorists, fulfilling the definition, and I, for one, do not believe that we in Congress, want to fund terrorism.

U.S. support for the Contras brings to mind our involvement, through the CIA incidently, three decades ago when we conspired to overthrow the Arbenz government in Guatemala. We achieved that objective and at the same time condemned the people of Guatemala to over 30 years of brutal military rule characterized by killings, torture, and other forms of human rights abuse. Let us not condemn the people of Nicaragua to that fate of Guatemala or to relive the Somoza era.

Mr. President, we are proud of our standing in the world as a Nation where the rule of law prevails. We, as a Nation, have carried this principle

into our international relations and are looked upon as a leader in the world community of nations. The United States long ago accepted the principle that our action in world affairs should be subject to the scrutiny of the International Court of Justice, which we were instrumental in establishing 41 years ago.

I well remember the brave hopes and aspirations we had at the conference in San Francisco 41 years ago when we were setting up the organization that we through would provide for the rule of law and peace in the years to come.

The United States was one of 45 nations to abide by compulsory jurisdiction of the court in legal disputes. Our adherence to the rule of law and our belief in the value of truth in the competition of ideas are what distinguishes and differentiates the United States from the totalitarian regimes that have rejected the compulsory jurisdiction of the Court. Our standing in the world community, however, was given a severe jolt last year when the United States, in the face of a suit initiated by Nicaragua, canceled our acceptance of the compulsory jurisdiction of the World Court, causing us to join the totalitarian nations in their blatant disregard for the rulings of the International Court of Justice.

This past June 27, the International Court of Justice, at the Hague, rejected "the justification of collective self-defense maintained by the United States in connection with the military and paramilitary activities in and against Nicaragua * * *." The Court further decided that the United States by "training, arming, equipping, financing, and supplying the Contra forces or otherwise encouraging, supporting, and aiding military and paramilitary activities in and against Nicaragua, has acted, against the Republic of Nicaragua, in breach of its obligation under customary international law not to intervene in the affairs of another State." Here we stand, the United States, condemned by the World Court and suffer damage to our international prestige because the administration refused to participate and defend its actions.

We must bear in mind that very World Court came into being originally, in great part, as a result of American leadership. Now we thumb our nose at them.

As Richard Gardner, professor of international law at Columbia University and former U.S. Ambassador to Italy, pointed out in an op-ed piece in the New York Times, the decision was inevitable because the administration waived its opportunity to present its case. Nevertheless, the decision has been rendered and in the eyes of the international community, the United States stands condemned. As this point, Mr. President, I ask unanimous consent that the article by Ambassador Gardner, which appeared in the New York Times on July 2, 1986, be printed at this point in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

A REAGAN FIASCO IN THE WORLD COURT

(By Richard N. Gardner)

Suppose you had a lawyer who failed to shield you from an impending lawsuit by neglecting to exercise in a timely manner your right to refuse the court's jurisdiction? And, having missed that opportunity, suppose your lawyer then failed to present the merits of your case to the court, thus helping to assure a judgment against you? That is essentially what our Government had done in the case we lost last week to Nicaragua in the International Court of Justice.

Nicaragua brought its case to the court in April 1984, nearly three years after we started organizing, training and financing a 10,000-man contra army for operations inside Nicaragua. We could easily have blocked the Sandinistas' suit well before it came to the court by refusing to accept the court's jurisdiction in cases involving armed conflict—on the reasonable grounds that the security interests involved are too great, the factual issues too hard to resolve and the law on the subject insufficiently developed. But we failed to do so, and now we stand condemned before the world of breaking international law and violating Nicaraguan sovereignty.

To be sure, the International Court of Justice is not the same as a domestic court. Its decision that we should stop aiding the contras and pay damages to Nicaragua cannot be enforced. Nevertheless, the court's judgment will influence public opinion and policy in other countries, undermining confidence in our foreign policy and tarnishing our reputation as a law-abiding nation.

Significantly, no member of the court was prepared to accept President Reagan's argument that we have a right to aid "freedom fighters" seeking to overthrow or force the liberalization of Communist regimes. But even the judges who voted against us acknowledged that our aid to the contras might be justified if it were shown to be part of a "collective self-defense"—if it were proved that Nicaragua was aiding leftist guerrillas in El Salvador and if our response was necessary and proportional.

The United States' refusal to come to court to make that case meant that the court heard only the self-serving arguments of the Sandinista witnesses, many of whom, to put it bluntly, lied through their teeth in denying Nicaragua's substantial involvement in the Salvadoran insurgency.

With such self-destructive behavior on our part, it is not surprising that we obtained scant support from the court, since it is difficult for judges to resolve factual issues in favor of a litigant who does not appear to present his case. In the larger court of international opinion, many will conclude that we have no case at all.

There is a new "realism" in vogue in our country today that considers international law a utopian dream and international institutions irrelevant or worse to the advancement of our national interests. That view, which is not shared by most other democratic countries, is itself unrealistic.

International law is a system of mutual restraints and concessions that nations accept because it serves their interests. The fact that the Soviet Union and its allies repeatedly violate international law does not mean that it does not exist; nor does it justify our doing the same. Democratic governments, unlike totalitarian ones, hold themselves accountable for their actions under a rule of law. When we exercise our lawful right to use armed force in individual or collective self-defense, as we must in some cases, we should be willing to justify our actions in legal as well as political terms.

To say that we cannot do so in the Nicaraguan case because we would compromise vital intelligence sources is simply not credible. We were willing to show satellite photographs of Soviet missile sites during the Cuban missile crisis, and we revealed intercepts of Libyan messages to help justify our recent air strike against that country. If our case against Nicaragua is a good one, we must also have nonsensitive evidence from Salvadoran sources.

The Administration could still salvage something from its errors by publishing a full statement of the international law basis for aiding the contras. Other nations have the right to expect this from the world's greatest democracy. The American people, who correctly like to think of themselves as a law-abiding nation, have the right to demand no less.

Mr. PELL. The U.S. Government missed the opportunity to work within the community of nations on the World Court case but there is still an opportunity, albeit slight, for the United States to be on the side of peace in Central America. I am referring to the Contadora process, which, sadly at this point, is all but forgotten. Although the process is on hold, it is still out there as a viable alternative to war in Central America. On June 6 a new draft was submitted by the Contadora countries. It includes provisions calling for the withdrawal of foreign military advisers, the halting of shipments of arms, strict reductions and limitations on troop strength and weapons, and the halting of the illegal flow of arms. The draft provides for a commission empowered to verify compliance and investigate reported violations. The draft also strongly supports democracy in Nicaragua and calls for elections, amnesty, and a dialog with the opposition.

Nicaragua announced its acceptance of this latest Contadora draft on June 20. The United States rejected Nicaragua's acceptance on June 22, as an effort to defeat the Contra aid request in the House. Costa Rica, El Salvador, and Honduras were unhappy with the new draft because they wanted to reopen discussion of the political chapter referring to democratization and national reconciliation; and Costa Rica and El Salvador had additional problems with verification measures.

Mr. President, the Contadora process, which has produced a draft that with a bit more work can become an instrument for peace in Central America, needs a strong boost, not a squelch, from the United States. There are those who say that Conta-

dora is dead and question even bringing it up at this late date. I would answer that it can be revived if the administration would only support it. I am realistic enough to know that this is not likely to happen. I also am realistic enough to know what will happen if the Senate approves more aid to the Contras. With a United States funded war against the Government of Nicaragua, Contadora will be relegated to being a footnote in history.

Daniel Ortega has been in the United States this past week, first for his visit to the United Nations and then for various appearances throughout the country. He has struck a conciliatory position with regard to many of the problems that exist in his country and especially with regard to the will of the Sandinista government to resume negotiations with the United States. Ortega said that the Sandinistas are willing to establish discussions with the Vatican regarding the serious problems that are said to have arisen between the Government of Nicaragua and the church. The Nicaraguan President also proposed talks with the publishers of La Prensa the opposition newspaper that has been closed down. We ought to test whether he is or is not serious, not just squelch them and ignore them.

Mr. President, we are facing what could be the last chance for peace in Central America. For the sake of peace, our Government should get its priorities straight and deal with the Contadora process in a serious way and should followup on the recent indication of willingness on the part of the Nicaraguan Government to resume negotiations with us and with those major elements of opposition within the Nicaraguan system. We are dealing with a war or peace issue here. This is the moment, maybe the last, to stand for peace.

Mr. SASSER. Mr. President, I want to commend the distinguished Senator from Rhode Island for a very thoughtful and perceptive statement he has made on the floor of the Senate.

I also want to express my appreciation and commendation to the distinguished Senator and ranking member of the Foreign Relations Committee for his farsightedness in 1982 in offering an amendment to preclude the construction of any further American military bases in the country of Honduras.

The distinguished Senator from Rhode Island saw at that time what many were not aware of. He sounded the alarm to his colleagues here in the Senate and to the country at large when he called attention to the fact the administration was engaged at that time, 4 years ago, in a backdoor military buildup in the country of Honduras.

Unfortunately, the amendment which he offered was defeated and, since that time, I say to my distinguished friend from Rhode Island [Mr. PELL], 10 new airfields have been constructed by the administration in the tiny country of Honduras. As a matter of fact, as we stand here debating this issue today, there are more airfields per capita in the country of Honduras than in any country in the world. So I commend our distinguished colleague for the perception and good judgment that he showed 4 years ago.

Mr. President, the United States of America is plowing new ground with the policy that we are now following with regard to the tiny country of Nicaragua and the government that controls that country. I think it should be said at the outset that I know of none of our colleagues, and certainly not this Senator, who shares any sympathies or has any illusions about those who constitute the Sandinista government of Nicaragua. There is no question in my mind that it is a Marxist-Leninist government. It is one that wishes the United States no good and one that seeks to emulate the model of Cuba.

Having said that, we are engaged in establishing a precedent with regard to our policy toward Nicaragua that has not been established before in the history of the United States. We are engaged in a policy of seeking the military overthrow of a government that we have recognized as the legitimate, legal government of the country of Nicaragua. As my distinguished friend from Rhode Island has pointed out, we exchange Ambassadors with the Government of Nicaragua. We maintain diplomat relations with them. It is well established in international law that when two governments engage in that sort of diplomatic discourse, one recognizes the other as the legitimate government of the country in which that diplomatic mission resides. What we are doing now is financing openly, on the floor of the United States Senate, or being asked to finance openly on the floor of the United States Senate a military operation and a military group that seeks to overthrow this government that we recognize as the legitimate government of Nicaragua.

This is a country, our country, which has traditionally prided itself on upholding the rule of law internally, domestically, here, and we have also stood for a rule of law internationally. Yet here we are, clearly violating that.

As my distinguished friend from Rhode Island has pointed out, we have even refused to subject our actions to the review of the International Court of Justice, something that is also unprecedented in our history.

Mr. President, perhaps we might be able to make a case for this policy if it had a chance of success. But this policy pursued by this administration toward the tiny country of Nicaragua is so fatally flawed that it has virtually no chance of succeeding.

I toured the Central American countries. I talked to the leaders of El Salvador, Honduras, Costa Rica, Guatemala. Not a single person in the leadership of those countries believes that there is a chance that the Contras maintain the military competence to succeed in a military victory in their efforts against the Sandinista government of Nicaragua.

In the unlikely event—and I want to emphasize the highly unlikely event—that the Contras could be successful, not a single leader of the governments of Central America believes that the Contras have the political savoir faire to govern that country; nor would they have the support of the majority of the people who constitute the country of Nicaragua.

So we are supporting a group that cannot succeed militarily and should they succeed militarily, they cannot govern the country. Yet we are committed to eliminating the Sandinista government from Nicaragua, it appears, at whatever cost to our international reputation.

It is interesting to note, Mr. President, that the recent U.S. Ambassador to the country of Honduras, Mr. John Ferch, who was forced out of that post by the administration just a few weeks ago, indicated in an interview with the Washington Post that he went to the country of Honduras laboring under the illusion that the administration wished a negotiated settlement of the problems plaguing that region of the world vis-a-vis the Sandinista government of Nicaragua. Mr. Ferch now tells the Washington Post that it is clear the administration is not interested in a negotiated settlement of the problems, but is driven by a need for a military defeat and a military eradication of the Government of Nicaragua, the Sandinista government of Nicaragua.

If that be the case, and competent military people in this country and the leaders of Central America are correct in that the Contras cannot succeed militarily, where do we go from there? The conclusion is irresistible that, at some time in the not-too-distant future, if this administration hews to the policy of deposing the Sandinista government militarily, military units of the United States will be fighting in Central America against Sandinista troops.

What do we wish for our country in Central America? Mr. President, the Sandinista government has indicated that they are willing to negotiate in a bilateral manner with the United States. They have stated that they are willing to negotiate on the question of whether there should be an exodus of foreign advisers from the country of

Nicaragua. They are willing to negotiate on the question of no Soviet bases and no Cuban bases in the country of Nicaragua. They are willing to negotiate on the question of limitation of weaponry in Central America, the importation of other foreign weapons. They are willing to agree that they will not be a party to the subversion of any of their neighbors or subversion of any country in Central or South America.

Last, Mr. President, they are willing to agree that a group of unbiased observers, made up principally of countries in the Contadora group, could have onsite inspection in Nicaragua to ascertain whether or not the Sandinista government was carrying out these commitments.

Faced with that proposition, the United States Government refuses to enter into bilateral negotiations with the Sandinista government of Nicaragua. So it is clear that we are not willing to settle for no Soviet or Cuban bases in Nicaragua; we are not willing to settle for an exodus of Cuban or Soviet advisers or other Eastern bloc advisers out of Nicaragua.

□ 1420

We are not willing to settle for a limitation on imported weaponry into Central America, and that includes the country of Nicaragua. We are not wiling to settle for an agreement that the Sandinista government will not constitute a threat to its neighbors in Central and South America. We are not willing to settle for onsite verification of these conditions. So what are we asking? It is clear that this administration has set its feet on the path that former Ambassador John Ferch, our ex-Ambassador to Honduras, stated, and that is a military defeat and a military eradication of the Sandinista government from Nicaragua.

Mr. President, I do not believe that the people of the United States are willing at this time to embark on a course of action that will inexorably lead to the commitment of United States troops in that region if the administration continues to use a policy of a military victory in Nicaragua. And if that is a policy of this administration—and that accusation has been made by this administration's own Ambassador to the country of Honduras—if that is the administration's policy, then they should say so. They should tell the American people that is what they wish to do, and we should conclude this business of back door military buildups in the country of Honduras, using funds out of the operation and maintenance fund of the Department of Defense rather than coming before the military construction subcommittee and saying we wish funds to build airfields so we may project American military power against the Sandinista government of Nicaragua.

They are not saying that, and I think this administration, and I think this President, has an obligation to tell the American people what the ultimate goals of our policy are against the Sandinista government of Nicaragua and what our ultimate policy will be in Central America.

Well, Mr. President, I am going to have more to say about this whole matter in coming days. Many of my colleagues will have much to say about it. Our views are not uniform. This body is fairly evenly divided on the question of what should be done with regard to our policy toward Nicaragua, and I expect we will hear much stimulating debate and this matter will receive much illumination this afternoon and tomorrow and Wednesday, and I think that is as it should be, because the more the American people learn about this matter, the more the American people I think will rise up and speak in one voice, and that is we do not want a policy pursued by our Government in Central America that is historically wrong, one that is an embarrassment to the American people internationally and one that could ultimately lead to the involvement of United States troops in that region of the world.

Mr. HARKIN. I would like to ask if the Senator will yield for a moment.

Mr. SASSER. I yield the floor to the distinguished Senator if he wishes.

Mr. HARKIN. I compliment the distinguished Senator from Tennessee on an excellent opening statement. The Senator is absolutely correct. The more the American people know of the various aspects of the Contras, who they are, where they came from, how they came to be, their involvement in drug smuggling, their involvement in gunrunning, the siphoning off of our hard-earned taxpayers' dollars to bank accounts in the Grand Cayman Islands and Lord only knows where else, the brutality, the terrorist activities they are engaged in throughout that world region, the more the American people know of this, the more the American people are going to insist that this Senate hold fast and that we do not approve any more funding, certainly no more CIA involvement, and certainly not military advisers engaged in that dirty little war in Central America. It is this Senator's intention this afternoon, under the time agreement announced last week, to lay out the case for the American people about who the Contras are, where they came from, how they came to be, and what their involvement has been over the last 6 years in that region. I intend to name names, name places, and to point the finger at those who have been responsible for leading us to this point in time, for supporting the Contras with money, with materiel, with support.

The Senator from Massachusetts, I know, is going to take his time to lay out the case to show the American people how the Contras have been involved in drug smuggling and gunrunning. I know others will also begin to tell the American people that these Contras are far from the equivalent of our Founding Fathers. They are more the equivalent of those terrorists who roam the world today, killing innocent people, terrorizing civilians, and seeking to impose their murderous will upon others.

So, Mr. President, very shortly, I intend to take my time to outline just who the Contras are and where they came from.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HARKIN. Mr. President, I ask unanimous consent that proceedings under the quorum call be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PELL addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. I suggest the absence of a quorum, the time to be equally divided between both sides.

Mr. MATTINGLY. I object.

The PRESIDING OFFICER. Is there objection?

Mr. MATTINGLY. I object.

The PRESIDING OFFICER. Objection is heard. The quorum call has been lifted.

Mr. PELL. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1430

Mr. HARKIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. HARKIN. Under the unanimous-consent agreement reached last week, how much time does the Senator from Iowa have now?

The PRESIDING OFFICER. The Senator from Iowa has 2 hours, and he has utilized 3 minutes of that time.

Mr. HARKIN. I thank the Chair.

Mr. President, as I indicated a moment ago, it is my intention today, in this opening debate on the issue of whether or not to fund the Contras, to

lay out who the Contras are and how they came to be, to dispel the myth that they are freedom fighters, individuals who are seeking only to replace the Sandinista government in Nicaragua with a truly democratic form of government, and that somehow these freedom fighters, these Contras, are the moral equivalent of our Founding Fathers. It is my intention to lay out for Senators and for the American people just how treacherous and murderous these Contras really are, who runs them, and how they came to be.

Mr. President, today, as we consider a proposal to provide $100 million in aid to the Contras, we are beginning to undertake a dramatic escalation of America's commitment to war in Central America.

As we begin the Contra debate, echoes of another debate—a debate that occurred a generation ago—still echo off the walls of this historic Chamber.

I hear the words of a former distinguished Senator from Idaho, Frank Church, who on another foreign policy matter 20 years ago stressed that:

> The [President] has stated that it is not our policy or our purpose to expand the war. If that expansion occurs, then it will be the choice of others—not our own.

The Senator offered assurances that our Nation was committed to the peaceful resolution of another foreign conflict—not in Nicaragua but in Vietnam.

I also hear the Senator from West Virginia, Jennings Randolph, speaking of the need for military pressure to force a negotiated solution to the foreign conflict in Vietnam:

> But it has been apparent from the start that we should not go to the negotiating table from a stance of weakness. We must first set up a system there through military strength where negotiations might be conducted on the basis of equity.

The distinguished Senator from Wisconsin, Gaylord Nelson, 22 years ago, during that debate, advised that America's engagement would be limited, that our objective was not to overthrow the government of another country:

> Our objective has not been to take over the Government . . . and has not been to provide military forces. . . . Our mission has been to supply a military cadre for training personnel, and advisory military personnel as well as equipment and material.

Mr. President, these promises were offered on this same floor nearly 22 years ago on the night of August 6, 1964, when the U.S. Senate debated the Gulf of Tonkin resolution.

That resolution was overwhelmingly approved the next day, but—and I am now quoting from the distinguished Senator from Oregon, Mr. Wayne Morse—"The Senators who vote for it will live to regret it."

What happened because of the Gulf of Tonkin resolution?

Mr. President, the result of the Gulf of Tonkin resolution and our involvement in Vietnam is carved in a black sculpture that occupies a hallowed space near the Lincoln Memorial. On that black granite structure are engraved the names of 58,312 Americans who lost their lives fighting in Vietnam.

Mr. President, this is a book put out by the Vietnam Veterans Memorial Fund listing the names of 58,132 young Americans who lost their lives in that tragic war in Vietnam: a telephone directory—no, bigger than a telephone directory—of young men who would be alive today, would be with their families, with their loved ones, enjoying the dreams in America, living out their lives as they should have been lived out, not snuffed short by that conflict in Vietnam.

Mr. President, are we about to go down that road again?

The distinguished Senator from Idaho, Frank Church, wrote in a Washington Post article, published just before his tragic death 2 years ago:

> If any lessons were learned from our ordeal in Southeast Asia, they have yet to show up in the Western Hemisphere, where our objective is not simply to contain, but to eradicate communism, regardless of the circumstances in each case.

But the most chilling warning, which still rings true today as we prepare to escalate our commitment to a new conflict, not in Vietnam, but in Central America, was uttered by Senator Morse. They are courageous words, spoken by a public official who expressed his views and his opposition to a policy of the President, even though that policy, at the time, received the support of the overwhelming majority of his colleagues.

> Mr. President, this problem in Asia cannot be settled by war. The problem in Asia requires a political and economic settlement. It requires a negotiated settlement. It requires a conference table settlement. It requires the application of reason, not bullets.
>
> I cannot understand what is happening to my country. I cannot understand what makes people think that way. There are not many at the grassroots of America who think that way.

□ 1440

I want to repeat that, Mr. President. Twenty-two years ago, Senator Morse said at that time of the Gulf of Tonkin resolution, "There are not many at the grassroots of America who think that way."

The same is true in America today. When I go back to my home State of Iowa or if I travel around the Midwest or the South, no matter where I go, the overwhelming majority of the American people say no, they do not want to go down that path of war in Central America. They do not want their hard-earned taxpayers' dollars, 100 million of them, going to fund the Contras. We need that help here at home. They believe that the answer lies as it did in Vietnam in a negotiated settlement, not a settlement by way of war.

Ten years later, after the loss of 58,132 Americans and hundreds of thousands of Vietnamese who were killed in that war, the conflict in Vietnam was finally settled. And where and how? It was settled at the conference table through negotiations, but not after puppet government after puppet government was established in South Vietnam under the ruse of setting up a Democratic form of government, not until, as I said, hundreds of thousands of Vietnamese were killed, 58,000 Americans, and after that country was laid to waste by day after day and month after month of carpet bombing where today the wounds of that war still scar the countryside of Vietnam. And yet we hear the same echos, we hear the same echo and we see the same thing happening today, under this, our present Gulf of Tonkin resolution, this resolution to provide the $100 million, this tremendous escalation, under this we are giving the President the right to make war without declaring war.

If it is this President's firm belief that the Government of Nicaragua represents a threat to this Nation, an imminent threat to our security, that small country of 2½ million people, about the size of my State of Iowa, with a per capita income of $800 a year, if the President thinks that that little beleaguered, impoverished country is really a threat to our freedoms and democracy in this hemisphere, then the proper thing to do is to submit a declaration of war and let Congress vote on whether or not we really want to go to war rather than doing it clandestinely as we are now doing it with the Contras.

Now, of course, Mr. President, I understand that Nicaragua is not Vietnam. Central America is far closer to our shores than Vietnam. However, the President's justification for American involvement in Central America sounds increasingly similar to those used a generation ago.

First, the President wanted to give the Contras money to interdict arms that were supposedly going from Nicaragua to El Salvador. Well, money went down there, Contras were hired, not one cache of arms was ever interdicted.

In fact, the very Contras that were supposed to be used to interdict the arms were not even put in that border area where the arms were supposed to be going across. They were put in another area.

Well then the Contras were given money and arms to pressure the San-

dinistas to democratize their regime. Now the purpose is much more grandiose. The purpose now is to defend the entire western hemisphere against a Communist onslaught funded and equipped by the Sandinista Government backed by the Soviet Union.

So it was with Vietnam. At times our involvement in Southeast Asia was part of an effort to preserve democracy in Vietman. At other times, we were attempting to thwart the Communists and stop the Chinese onslaught of Communism in that area or alternately we were to stop the Soviet goal of expansionism.

Confusion surfaced not just on the question of aims, but on the means used to implement policy.

At each step along the way, policymakers during the Vietnam era acted in precisely the manner in which policymakers for the Contra war are acting now.

Like their predecessors, the best and brightest of the Reagan administration lack the honesty or courage to tell the country just how ambitious their war aims are, and what the true cost in dollars and blood of achieving them is. Instead, this administration seeks incremental increases in involvement—from $14 million in 1984, to $27 million last year, to $100 million this year.

Where will it stop; $14 million, $27 million, $100 million. If the Sandinista Government is not overthrown next year will it be $200 million and then $500 million? How much more is it going to take? How many more lives?

The result I submit is that each investment cannot in itself bring success, but it can make it extremely difficult, perhaps impossible, for our Nation to extricate itself at a later date.

Today, Americans by the thousands walk past the black granite walls of the Vietnam Memorial. The names of 58,132 people who died in that war are etched on its surface.

I ask each Senator before casting his or her vote to go down to that mall and walk in front of that Vietnam Memorial.

As one walks past one will look at the names and one sees behind the polished granite one's own reflection.

The wonder of that monument is that it reminds one not just of those who died in Vietnam but also of those who, in the final analysis, since this is after all a representative democracy of ours, you also see one's own reflection, perhaps those of us who stood by and did not raise our voice in protest, perhaps even some of us who may have voted to continue that policy.

So I ask each of my colleagues just as I have looked at the Vietnam Memorial, I ask each of my colleagues to look into their own consciences and decide whether from their actions and votes today they want their children and the next generation of Americans to gaze into the walls of another monument to those who died in another aimless and unsuccessful war in Central America, not in Vietnam.

For although this aid package may very well pass, the Senators who approve it will likely, as I now use the words of Senator Morse, "Those Senators who approve it, I believe, will live to regret that vote."

So, Mr. President, who are the Contras? Are they really freedom fighters? Are they really a band of high-minded individuals gathered together to seek to overthrow or repress a Communist government and to install therein a democratic form of government respecting human rights, insuring justice, and peace, insuring reforms, both economic and political.

I think it is important for us to trace the history of the Contras and now it is my intention at this time to look into the past, the recent past, to trace what happened in Nicaragua just prior to 1979 under Somoza and then to trace as I said by name, activity, position, those who now run what is called the FDN or the Contras in Honduras.

In March 1985, President Reagan referred to the Contras as "our brothers." These freedom fighters, according to the President, "are the moral equivalent of the Founding Fathers and the brave men and women of the French Resistance."

It has been said that truth is the first victim of war. For someone to use this kind of language to identify and to characterize the Contras only indicates to this Senator that for this administration truth is such a precious commodity that it rarely uses it.

In 1983, the President's so-called freedom fighters had been engaged in such human rights abuses that the Central Intelligence Agency prepared a manual for them. That manual, "Psychological Operations in Guerrilla Warfare," is not a textbook on freedom, or a tome of human rights. It's the Contras little red book on how to kill—or I should use the Agency's word—neutralize people properly. It's a textbook on terrorism. Its purpose—to train the Contras in controlled terror. But do not take my word for it. The following passage from the manual prepared by the CIA tells the story:

> An armed guerrilla force always carries with it implicit terror because the population, without saying it out loud, fears the arms can be turned against them.

I searched my memory and I searched the history of our Revolutionary War and could not recall any of our Founding Fathers or their loyal soldiers with names like "Suicida" or "Krill." Nor did George Washington have offshore bank accounts in the Grand Cayman Island. And George Morris, the revolution's financier, never made money from exchanges on the black market. Nor did our revolutionary soldiers "neutralize" public officials, rape young women, or set up land mines to kill innocent people.

□ 1450

But again, do not trust my words, listen to what other Nicaraguan exiles, those who have taken up arms against the Sandinistas, say about their brothers, the Contras.

Most United States aid goes to the FDN, which commands the army fighting out of the mountains along Nicaragua's border with Honduras. Arturo Cruz is a former member of the junta, former director of the Central Bank of Nicaragua, former Nicaraguan Ambassador to the United States, and currently a member of the directorate of UNO—the United Nicaraguan Opposition. Two years ago, Cruz wrote in Foreign Affairs:

> The fact remains, however, that most of those persons in positions of military authority within the FDN are ex-members of the national guard who unconditionally supported Somoza, until the end, against the will of the Nicaraguan people.

Arturo Cruz went on to write that in the event of a complete Contra victory, there might well be a "reinitiation of the vicious cycle of extreme right wing oppression and exploitation."

Or listen to the words of Alfonso Robelo, also a former member of the junta, and now, along with Cruz a member of UNO:

> The military leadership—of the FDN—is made up of former members of the national guard. This poses a problem for the return to power of the guard as a military institution.

Or listen to Eden Pastora, former commander of ARDE And now exiled in Costa Rica, the famous commander Zero, who headed the Sandinistas in their final overthrow of Somoza.

> They—the FDN—are the objectives of a general staff of former Somozan guardsmen. For example, their staff includes Captain Lagos: the feared members of the National Security Office: Lieutenant colonels and captains of the Somozan guard. In other words, I don't think that they want a revolution full of love. They have lists of the people they kill. They have not even presented a single prisoner they have taken.

I continue to quote from Pastora:

> The people will not help the national guard. The national guard killed our people for 45 years. The guardsmen killed this guy's brother. They killed my father. Everybody in Nicaragua has a relative killed by the national guard. Therefore, the Nicaraguan people will not support the national guard. So they—the United States—are doing the National Directorate (Sandinistas) a big favor by trying to win through a general staff of former Somozan guardsmen. This must be clearly stated and understood.

But the problem with the Contras rests not just with the ex-guardsmen, but with Adolfo Calero and his cronies in the FDN leadership. This assessment is not mine, but that of Salvador

Icaza, formerly a human rights officer for the FDN. In a 1985 letter, Icaza—again, a human rights officer with the Contras—writes:

How can Adolfo Calero speak of democracy? The Nicaraguan Democratic Force continues to be what it was since its founding. Now Bermudez occupies the place of Suicida. * * * It is the same gang of former national guardsmen, Somocists and followers of the former regime, with the "spice" of having "tirelessly" struggled against Somoza's regime and belonging to the Conservative Party.

In short, according to Icaza, "Honest people have no place in the Nicaraguan Democratic Force."

There is no difference—only the names—between Calero and Somoza; between Bermudez and company and the Ortega Brothers and company; one is backed by the gringos; and the other by the Russians.

CONGRESSIONAL STUDY

Facts, not the fictionalized account of this administration, must guide Congress in determining whether we should invest our foreign policy, our money, and our sons on the Contras.

And the fact of the matter is that the primary Contra army is organized and commanded by former national guardsmen.

That is not just my conclusion. It is that of UNO leader Arturo Cruz, who conceded in a March 9 interview with the Washington Post that "the largest number in the inner staff" are ex-guardsmen.

It is the conclusion of one of the principal intellectual architects of the administration's Contra program, Robert Leiken of the Carnegie Institute. Mr. Leiken wrote in a March 13 New York Review of Books piece that "the FDN high cmmand, with one exception, is drawn entirely from the National Guard."

These facts are confirmed in greater detail by the report prepared by the respected Congressional Arms Control and Foreign Policy Caucus.

That report concludes that 12 of the 13 commanders of the FDN high command are today, as they have been since they were first organized in 1980, former officers in Somoza's National Guard. Of particular concern in this group of 13 are a number of high-ranking ex-guardsmen with controversial backgrounds: Captain Armando "The Policeman" Lopez, Maj. Ricardo "Chino" Lau—about whom I will have more to say later—Capt. Juan Gomez, and Capt. Justician "Tino" Perez.

Mr. President, I believe it is especially important this year to focus on the military rather than the civilian leadership of the Contras. Seventy percent of the President's aid request is for military aid, which will fall under the military leaders' jurisdiction, rather than that of the political leaders such as Arturo Cruz and Alfonso Robelo.

So I think it is important to find out who and what these military leaders are. Who are they? Who are these Contra leaders organized by the CIA, the same agency which authored the assassination manual, born out of Somoza's hated National Guard, the same force that terrorized Nicaraguans for 40 years, and first trained by the Argentine military, the same military responsible for disappearing over 6,000 a decade ago, given this pedigree, it should come as no surprise that the Contras, despite all the disclaimers of the Reagan administration, are terrorists, not freedom fighters.

For over 40 years the Somoza family had gathered around it individuals in Nicaragua who then formed what they called the Garde Nationale, the national guard. It became, among all of the nations in this hemisphere, perhaps, the most ruthless in keeping the Somozas in power. As Eden Pastora said, there was not one Nicaraguan who did not have a brother, sister, father, mother, or close relative who had not been killed by the national guard during that individual's lifetime.

When Somoza fell in July 1979, thousands of Nicaraguan national guardsmen, who had supported the Somozas for so many years, dropped their weapons, some took to boats, and they took off their uniform so they would not be recognized by the civilian population, and fled the country to El Salvador, Honduras, Guatemala, and many of them came to the United States.

During 1980, that is about 3 months after the fall of Somoza in July-August 1979, an individual by the name of Aristedes Sanchez, a wealthy business and party associate of General Somoza, who then operated out of Miami and Honduras, began to contact former officers of this national guard and put them on the payroll of what began to be called the 15th of September Legion. We may hear more talk about the 15th of September Legion. That commemorates the date of Nicaragua's independence from Spain in 1821.

Aristedes Sanchez began to pull these Nicaraguan guardsmen out of Honduras, El Salvador, Guatemala, and some who have come to Miami.

According to Edgar Chamorro, a former member of the Contra directorate, funds for the legion's payroll came from Argentine intelligence officials operating in Honduras and from personal funds amassed during Somoza's rule by Sanchez and his brother, plantation-owner and Somoza party legislator Enrique "The Cuckoo" Sanchez.

The Sanchez brothers continue their association with the Contra. Aristedes is a member of the Contra directorate, and Enrique, believe it or not, is the paymaster for the Contra army.

Founding legionnaires, as they were called—all of whom remain in the high command—including Col. Enrique Bermudez, who was, at the time, Somoza's military attaché in Washington. There are those who are saying that Bermudez was here in Washington, he was not really down there with Somoza.

□ 1500

Let no one be mistaken about this. Somoza never sent anyone to be his military attaché in Washington who was not the closest of his personal friends because this is where he got his support, and this is where he got his money. So the very fact that he sent Bermudez here means he was a very, very close friend of Somoza.

Other founding legionnaires, who remain in the high command, include Colonel Bermudez, the overall commander; Ricardo Lau, Somoza's top counterintelligence officer; Capt. "Tino" Perez, commander of the guard training center; Capt. Armando Lopez, who commanded units of the Managua police, which carried out arrests and attacks on Somoza's political opponents; and Capt. Juan Gomez, Somoza's personal pilot.

These are the individuals who made up the core group of the leadership of the FDN or the Contras. These are moral equivalents of our founding fathers.

Now, after Somoza's fall, and after the Sanchez brothers began to pull these disparate groups together, we had another involvement, an involvement by the Argentine generals. This involvement began within months of the overthrow of Somoza. Some Nicaragua exiles were sent to Argentina where they received military and intelligence training, military and intelligence training from the generals who brought a rein of terror perhaps unseen in this hemisphere ever to Argentina over a 10-year period of time.

We are just now beginning to see—because Argentina has returned to a democratic form of government—the dimensions of what happened in Argentina under the rule of the generals. Thousands of people disappeared. There was torture and death squads throughout Argentina during that period of time. These were the people who brought the Nicaraguan exiles, the old former Somoza guardsmen down to Argentina for training. At the same time Argentine personnel were sent on covert training support and intelligence missions to Central America primarily to Honduras.

The Argentine force included personnel from the army's intelligence battalion, paramilitary irregulars who had been used against opponents of the military junta in Argentina during their reign of terror. This military regime which ruled Argentina from 1976 to 1983 was responsible for the disappearance of at least 9,000 people, perhaps more that were never accounted for; never even mentioned by their families for fear of reprisal.

They were workers, professionals, students, clerks, housewives, journalists, actors, and artists. Some were members of the underground terrorist organization to the left. Many were simply political opponents of the regime who raised their voices in protest against what was happening.

In all there were more than 300 secret detention centers set up in Argentina by the generals for tortures which were commonplace on a daily basis. Atrocities, as I said, were commonplace, and tortures were varied, sadistic, and imaginative. Corpses were often mutilated or destroyed. We now know of incidents where airplanes of people would fly out over the ocean and the people were simply pushed out of the airplanes into the ocean.

So this Argentine military, the same military which killed 9,000 of their own countrymen, could rightly be called the fathers of the Contras because they first took them under their wings—again, the same Contras that are now being called our moral equivalent of our Founding Fathers.

Some Argentines came to Honduras to train and equip the Contras.

In late 1980, some of the Nicaraguan exiles trained in Guatemala but those who trained there had become just another bunch of hired guns in Guatemala's bloody underworld of politics and crime. Instead of fighting the Sandinistas, these people were called on for special operations, robberies, kidnapings, threats, extortion, and murder. The orders came through one man, Col. Ricardo Lau, a former Somoza National Guardsman.

Lau had spend much of his career connected to Somoza's Office of National Security, the OSN, a service better known for brutality than effectiveness. A top official at the CIA who knew the records called Lau a "Somoza hatchet man." A guardia who worked with him called Lau "a torturer."

According to another guardia officer, Lau "operated where they put on the hood and the 220 current."

While in Guatemala Ricardo Lau and other exiles found support from the godfather of the Guatemalan right, Mario Sandoval Alarcon, who a quarter centruy earlier helped the CIA bring down the government of Jacobs Arbenz.

The Handprint of LaMano Blanca, the white hand, the most famous of Guatemala's death squads, was the symbol which they used.

Sandoval became the godfather of right wing Salvadorans and Nicaraguans in 1980. One of his protégés was a young exiled major from El Salvador whose name was Roberto D'Aubuisson.

(Mr. WILSON assumed the chair.)

1980 was the year the death squads in El Salvador became the most ruthless. And the darling of those squads was Major D'Aubuisson.

D'Aubuisson's hit teams flew back and forth from Guatemala City to San Salvador. Their targets were carefully selected; they went after names, people whose faces everyone knew, the sensational cases of people they thought were Communists at the top of Salvadoran society: A Christian Democratic cabinet member; the Archbishop of San Salvador, Oscar Romero.

They worked with the intelligence branches of the Salvadoran National Guard and the Treasury Police.

But for the biggest operations they contacted outside talent, specialists taken from Guatemala and the right-wing underworld. The man to contact was Chino Lau, Ricardo Lau, the right-hand man of the man who now heads the Contra military operations, Col. Enrique Bermudez.

When D'Aubuisson was captured briefly by his political ememies in El Salvador in May 1980, an appointment book and other papers were found on one of his aides.

In the middle of his appointment book there is an entry under the date March 27, 1980. That was 3 days after the Archbishop of San Salvador, Oscar Romero, was shot while saying mass.

The seized notes recorded a contact with Orlando De Solo, one of the richest and most radical of El Salvador's rightists, in a room of the El Dorado American, a luxury hotel in Guatemala City.

Then there is the name of Juan Wright, another wealthy Salvadoran.

Then two notes: "Contributions to Nicaraguans $40,000" and "Contributions to NICA—$80,000."

An exiled Salvadoran colonel and head of intelligence who had been d'Aubuisson's boss prior knew several of the people involved in the murder. He has said that the notes in the major's book recorded the payoff for the murder of Archbishop Romero.

He also said that the next annotation is the most significant of all since it is the name of the Nicaraguan who contracted out his men to do the job. "Col. Ricardo Lao tel. 67-475."

Again, I point out Ricardo Lau is the right-hand man of Col. Enrique Bermudez, the chief of the staff of the FDN army. Ricardo Lau, according to a congressional study, still serves in the high command of the FDN.

So now we begin to see the picture unfold. Former Somoza Guardsmen leave the country after Somoza falls. They are brought together by Sandoval, in Guatemala. They begin to then hire themselves out as killers to go into San Salvador, to be involved in the death squad activities in El Salvador.

□ 1510

The contact person was always Ricardo Lau, the right-hand man of Enrique Bermudez, who is now the head of the Contra army.

Can anyone doubt that if they were to take back over the Nicaraguan Government what Lau's role would be? As Arturo Cruz once also said, if they were to take over, there would be a killing of flowering of youth of Nicaragua by these very men.

So we got to 1980 with these various groups beginning to get organized in Guatemala City.

At the beginning of March 1981, the first 20 Nicaraguans arrived in the Argentine capital.

Buenos Aires was numbed by 5 years of the dirty war that had brought it constant fear and disappearances.

The Guardias, Chino Lau among them, found little that was new in the Argentine courses.

"Mostly it was psychological: how to put pressure on an individual. Techniques like the good guy and the bad guy."

Meanwhile, in Honduras, the Argentines worked closely with Gen. Gustavo Alvarez, chief of security forces of the second poorest country in the hemisphere, in the training of the Nicaraguan exiles.

Alvarez had graduated from the Argentine Military Academy, class of 1961. In the two decades following his return from Buenos Aires, Alvarez worked his way toward the top of the Honduran military.

The fall of Somoza, the triumph of the Sandinistas, the panic that spread through the region in the following months brought out the worst in Alvarez.

The threat of Communists just across his country's southern border gave him a cause. More than that, it was a kind of license to kill.

To Alvarez, "Everything you do to destroy a Marxist regime is moral." In other words, the end justifies the means.

In 1981, his old friends from Argentina gave him a framework for his cause.

The Argentines chose Col. Osvaldo Ribeiro to run their program on the ground. Ribeiro had known Alvarez since his days at the academy 20 years earlier, Colonel Ribiero, the ex-Guardia, and the Argentines eventually decided on to oversee the troops in the field with an ex-Guardia, Emilio Echaverry, the son-in-law of an Argentine officer and a fellow graduate, with Alvarez, of the Argentine Military Academy.

Colonel Ribeiro, working with Bermudez and Chino Lau who by the spring of 1981 had moved the base of operations for the September 15 Legion from Guatemala City to Tegucigalpa, became a prominent figure in

the Honduran capital, disbursing huge sums of money, and according to the CIA, unsound military advice. For example, since his own experience was in urban rather than rural combat, he advised the Contras to mount a program of urban terrorism.

The Argentines also tolerated a practice of killing prisoners. A former Contra official describes the informal rule for dealing with captives: If a prisoner has ammunition when captured, let him live, since he has not fought to the last bullet; if a prisoner hasn't any ammunition, kill him.

All the terrorist training of the Argentines, along with the fine art of killing mastered by such ex-Guardia as Chino Lau, did not help the Nicaraguan exiles into transforming themselves into a credible counterrvolutionary force. In March 1981, Jose Francisco Cardenal, former Nicaraguan business leader and Contra leader, described his situation as follows:

Nicaragua cannot be liberated only by Nicaraguans, just as Somoza was not overthrown only by Nicaraguans. But we can't wait six months. By then the Sandinistas will be strong. The green light has to come soon from the United States.

I might also point out here, Mr. President, that the same Jose Cardenal paid a visit to my office just a couple of weeks, a Contra leader. He came to ask us not to give money to the Contras. He knows full well my opposition to the Contras. Why would he come to visit me? He came to visit me because he was convinced, and he was able to offer proof—which I will also talk about later on in the debate—about how these present Contra leaders are siphoning off money and putting it into their own bank accounts.

So I guess the best that can be said about this group is there is no honor among thieves.

The green light soon came. On March 9, 6 weeks after Reagan took office, he issued a finding for stepped-up covert action in Central America. Now, the Central Intelligence Agency, working through the Argentines, would direct and coordinate the fledging Nicaraguan exile group.

The first task was to merge the disparate groups under a single umbrella. On this point, let me quote from the affidavit of Edgar Chamorro, a former member of the UDN and later member of the FDN Directorate:

In 1981, the UDN underwent a transformation. During the first half of the year, Cardenal was contacted by representatives of the United States Central Intelligence Agency, and he began to make frequent meetings with them in Washington and in Miami. . . . He was told that the United States Government was prepared to help us remove the FSLN [the Sandinistas] from power in Nicaragua, but that, as a condition for receiving this help, we had to join forces with the ex-National Guardsmen who had fled to Honduras when the Somoza Government fell. . . .

Cardenal and other members of the UDN resisted joining with the ex-Guardsmen, who had organized into the 15th of September Legion. According to Chamorro, "We were well aware of the crimes the Guardsmen had committed against the Nicaraguan people while in the service of President Somoza, and we wanted nothing to do with them."

But the CIA "insisted that we merge with the Guardsmen. In fact, I continue to quote from Chamorro, "Lt. Gen. Vernon Walters himself arranged for all the bands to be incorporated within the 15th of September Legion, and for the military government of Argentina to send several army officers to serve as advisers and trainers." The same Argentine military responsible for the disappearance of thousands of their own countrymen.

In August 1981, the merger was consummated in Guatemala City at a meeting arranged by the CIA. Some UDN members resigned because they would not associate with the National Guard under any circumstances. Cardenal and Chamorro, both private businessmen in prerevolutionary days, stayed, believing CIA assurances that they, the civilians, would control the Guardsmen in the newly created organization.

The new organization was called the FDN, or Nicaraguan Democratic Force. It was to be headed, as promised, by a political junta, consisting of Cardenal, Aristedes Sanchez, a politician loyal to General Somoza and closely associated with Enrique Bermudez and Mariano Mendoza, formerly a labor leader in Nicaragua.

The political junta established itself in Tegucigalpa, taking up residence in a house rented for it by the CIA. Bermudez was assigned to head the military general staff. The name of the organization, the members of the political junta, and the members of the general staff, according to Edgar Chamorro, were all chosen or approved by the CIA.

CIA involvement—and the covert war—began in earnest in late November 1981, when the President requested $19 million to support a 500-man Contra forces to conduct operations "against the Cuban presence and the Cuban Sandinista support infrastructure in Nicaragua and elsewhere in Central America."

The hand of the United States was not, itself, supposed to touch the gun. According to NSC Directive 17, the Agency would "work with foreign governments as appropriate." The intent of the program, according to CIA Director William Casey, was to interdict arms transhipped from Nicaragua to the Salvadoran rebels.

CIA Director Bill Casey first waited until meeting with Argentine Chief of Staff, Gen. Leopoldo Galtieri, before formalizing the expanded Contra aid program. According to sources who attended the November 1 meeting in Washington, "the two hit it off very well. The Argentines said they'd be happy to manage a U.S. interdiction operation with U.S. money, weapons, uniforms."

A year earlier, the Argentines were pariahs in the eyes of the Carter administration, and I might add, most of the civilized world. The Congress had passed a law against selling them arms, the State Department regularly condemned them for atrocities and interfered with credits from international organizations.

But now, a year later, in late 1981, the United States and Argentina were the best of friends. Nothing had really changed, however. These were the same generals who had disappeared more than 9,000 Argentinians. These same generals were terrorizing innocent civilians.

Only the administration, which now speaks so loudly about its support for freedom in Nicaragua, had changed—sea change.

The first signal of this sea change occurred in March 1981, when President Roberto Viola visited Washington. Since April, Galtieri and his American counterpart, the Chairman of the Joint Chiefs of Staff, had carefully cultivated each other with reciprocal visits and dinners. In August, Galtieri visited military bases all over the United States in a jet supplied by his American friends.

There was detailed talk about a role for Argentine forces in a regional alliance against the Communists, there were joint maneuvers, there were consultations with the Reagan administration's top emissaries.

□ 1520

Jeane Kirkpatrick had come to Buenos Aires. So had Vernon Walters, then U.S. Ambassador at large and former Deputy Director of the CIA.

There was much talk of a South Atlantic Treaty Organization in which, of course, Argentina would be a major partner.

There was every sign of approval and mutual admiration.

This administration which pays such close attention to freedoms in Nicaragaua suffered a major blind spot when it came to Argentina.

1982: A YEAR OF TRANSITION

For the new-formed FDN, 1982 was a year of transition. From a collection of small, disorganized, and ineffectual bands of ex-National Guardsmen, the FDN grew into a well-organized, well-trained, well-equipped, and well-armed fighting force of approximately 4,000 men.

Attracted by regular salaries, courtesy of the CIA, former National Guardsmen who had previously sought exile in El Salvadore, Guatemala, and the United States joined the FDN. Argentine military officers,

funded by the CIA, trained the Nicaraguan exiles. A special unit created for sabotage, and specializing in demolitions, was trained directly by CIA personnel.

Arms, ammunition, equipment, and food were supplied the Contras, courtesy the CIA.

I make these points, Mr. President, about the CIA's involvement with the Argentine military, with the ex-National Guardsmen, with the training of these exiles in sabotage, to point out that this measure now before us, the funding of the Contras, is not just $100 million for the Contras. It also includes approval for the CIA once again to be involved with the Contras—approval which was taken away by Congress a little more than 1 year ago. So now we are being asked once again to let the CIA have the run of the mill with the Contras. We saw what they did in the beginning.

Composed of ex-National Guardsmen, trained by Argentine generals, and funded by the CIA, these heirs of George Washington and Abraham Lincoln escalated their "freedom fighting" by early 1982.

On the night of March 14, 1982, a commando team of Nicaraguan exiles, trained by the CIA, blew up two bridges in western Nicaragua, along the Honduran border.

The blowing of the bridges was an announcement that the scale of things was changing. The first forces of Nicaraguan exiles, along with Miskitos along the eastern coast, were trained under United States patronage.

Their war was set in motion.

The Sandinistas responded as if they were at war. And they were. They were the object of a secret war orchestrated by the CIA and funded, without their knowledge, by American taxpayers.

The day after the bridges were blown, the Sandinistas declared a state of emergency. Direct censorship began for the first time. Surveillance of the population increased. Sandinista mobs went into action with a vengeance against suspected counterrevolutionaries.

Six weeks after the bridges were blown, Daniel Ortega was in Moscow.

Throughout 1982, the FDN increased their numbers. Some Nicaraguans joined the force voluntarily, either because of dissatisfaction with the Sandinistas, family ties with leaders of the force, or promises of food, clothing, boots, and weapons.

According to Edgar Chamorro, many were recruited forcibly. FDN forces would arrive at an undefended village, assemble all the residents in the town square and then proceed to kill—in full view of the others—all persons suspected of working for the Nicaraguan Government, including police, local militia members, party members, health workers, teachers, and farmers from government-sponsored cooperatives.

It was not difficult to persuade those able-bodied men left alive to return with the FDN units to their base camps in Honduras. This was a widespread practice that accounted for many recruits.

Meanwhile, the CIA was not completely forthcoming to Congress, and the administration was even less clear about its goals.

An inquiry, Mr. President: The Senator from Iowa would like to know how much time he has used.

The PRESIDING OFFICER. The Senator has used 56 minutes of his 2 hours.

Mr. HARKIN. I thank the Chair.

In February 1982, the Agency reported to the intelligence committees that "economic targets" such as agricultural cooperatives were off limits to the Contras. The following week the U.S. press reported Contra strikes against cooperatives.

The administration was even less clear about its policy. In its official line, the administration proclaimed that its goal was a political settlement in which Nicaragua could keep its Marxist government only if it would quit aiding the lefist guerrillas in El Salvador.

To the Contras, CIA officials left no doubt about their real goal. "In private," according to Edgar Chamorro, "they always told us the objective was to overthrow the government in Managua."

To the President, the Contras have been, and will continue to be freedom fighters. But to the Defense Intelligence Agency, in a 1982 report, the main military force of the FDN, the 15th of September Legion, was a "terrorist group" responsible for assassinating government officials and a Cuban adviser.

Worried by the guerrillas' unsavory image, by late 1982 the CIA created a new seven-member National Directorate of prominent Nicaraguans with no ties with the National Guard or with Somoza. Edgar Chamorro was among the seven. Joining him in early 1983 was Adolfo Calero, a former Coca-Cola bottler and opponent of General Somoza.

The National Directorate was organized, selected, and directed by the CIA, and created as a civilian front for what was then, and is still today, an army controlled by ex-National Guardsmen.

Those military commanders, with the combination of Argentine training and National Guard mentality, remain, according to Edgar Chamorro, who served on the FDN directorate for 2 years, "one of the major obstacles for putting the Contra movement on a truly democratic path."

Soon, Bermudez, the chief Contra commander, cemented his authority by allying with Adolfo Calero and the former Coca-Cola bottler's top aid, a civilian Somocista named Aristedes Sanchez. Together, according to Chamorro, the three were referred to as the "Bermudez triangle" for countless sums of money would go into it, never to be seen again.

THE ARGENTINES AND HONDURAN DEATH SQUADS

That the Contras, and their military commanders, cannot be reformed—despite all the cosmetic efforts made first by the CIA and later by the State Department, aided by its cabal of neoconservative Democrats—is most clearly demonstrated by reports that the FDN was involved in death squad activities in Honduras.

There are those who say, well, yes, they are former national guardsmen; yes, in a previous life, they were bad, bad people. But they have reformed themselves. They are no more like they used to be. But let us look at what has happened in Honduras since they have been there.

According to a confidential Honduran military report completed last year, between 1980 and 1984, foreign agents in Honduras were responsible for more than 200 murders, kidnappings, and disappearances.

According to the study, many of the victims of the death squads were Salvadorans suspected of running arms between the Sandinistas and rebels in El Salvador. Others, including Nicaraguans and Hondurans, were marked as "spies" for Managua.

According to one Honduran military officer, "The [Contras] would pick them up, question them and sometimes torture and kill them."

This charge is echoed by the head of the Honduran Human Rights Commission, Ramon Custodio, who has said:

> We have found direct and indirect evidence that the Contras were responsible for some of the human rights violations that we have denounced.

Death squad activities, which have been commonplace in neighboring El Salvador and Guatemala, had been virtually unknown in Honduras until 1981. That year Gen. Alvaro Martinez became chief of staff of the Honduran military, and the United States, with the aid of the Argentines, escalated its support of the Honduran-based Contras.

At the same time, a special Honduran Armed Forces crack intelligence squad, the division of special investigations, was created to crush clandestine support networks for Honduran and Salvadoran leftist movements.

The Argentine military, who had waged their "dirty war" a decade earlier, trained the Hondurans in their techniques—safehouses, electric shock torture, disappearances.

□ 1530

To carry out this new dirty war, the Hondurans worked closely with the Contras. The mastermind of Contra killings—once again showing up in Honduras as he did in Guatemala City—was Maj. Ricardo "Chino" Lau, the FDN's chief of counterintelligence, a former head of Somoza's intelligence network in Nicaragua.

Chino Lau, the same Chino Lau, who, according to Edgar Chamorro, remains the best friend of Enrique Bermudez, the chief military officer of the Contras. Even after his announced resignation from the FDN, Lau was still the last person to talk to Bermudez at night and the first person to talk to him in the morning.

Ricardo Lau, one of the most notorious and brutal National Guardsmen under Somoza and head of Contra death squads in Honduras from 1981 to 1984, the best friend of Mr. Bermudez, remains today close to FDN military operations.

A freedom fighter he is not.

He is more like Jack the Ripper, not George Washington.

And the Contras, who, from 1981 until early 1984, were used by Honduran military commanders to carry out military intelligence operations that left 200 Hondurans dead, have not been brought to justice. No Nicaraguan has been prosecuted.

Instead they have been lauded as our brothers, praised as freedom fighters, and rewarded with millions of taxpayers' dollars and now, if the Senate so votes, about to be rewarded with $100 million.

THE "REFORMED" FDN

From late 1982 until last year, the FDN underwent a number of changes. The Argentines, who had been the Contras' godfathers since the days after the revolution, left the fold, angered because of United States support for the British during their war over the Falklands Islands.

The Contra army expanded from the small band of 500 to a force of 18,000. And the new FDN political leaders all had been active in the struggle against Somoza.

Yet little had really changed. The Contra army remained under the control of Enrique Bermudez, Somoza's military attaché, and he continued to surround himself with the same National Guard who had helped start the insurgency so many years before, including among them Ricardo Lau.

Although the ranks of the Contras grew, they still lacked a significant military victory, and they still failed to take any Nicaraguan territory.

And for all the shuffling of Contra political leaders, control over the operation remained in the hands of Bermudez, and now the Agency, not the Argentines, directed the secret war, not the Argentines.

The FDN, according to Edgar Chamorro—again, I keep quoting him because for 2 years he was a leader of the Contras—"was created by the CIA, it was supplied, equipped, armed, and trained by the CIA and its activities—both political and military—were directed and controlled by the CIA."

As for Calero and Bermudez, who now lead the Contra political and military operations, they were chosen because they "best demonstrated their willingness to unquestionably follow the instructions of the CIA. They, like the organization itself, became nothing more than executioners of the CIA's orders."

The CIA has left a lasting and troubling legacy. In 1983, it prepared a manual that advocated explicit and implicit terror against the civilian population. It urged neutralizing government employees and sympathizers, in violation of the President's 1981 Executive order prohibiting such practices.

In January 1984, the CIA hired Latin American operatives to mine Nicaraguan ports, in violation of international law, and so found by the International Court of Justice at The Hague.

Throughout this time, the CIA instructed FDN political leaders how to lobby Congress, and how to misinform the press and the American public, in violation of domestic laws against such practices.

While the CIA worked hard to improve the image of the FDN, they encouraged the Contras to use the same tactics the Agency attributed to Communist insurgencies elsewhere: killing, kidnaping, robbing, and torturing.

Finally Congress had had enough of the duplicity of the CIA, under the leadership of Director William Casey.

Congress barred Agency involvement with the Contras in late 1984, yet administration covert support and direction continued, thanks to the efforts of Col. Oliver North of the NSC. In violation of the congressionally imposed ban, throughout 1985, North served as a liaison between private U.S. groups and the administration, establishing links essential to maintaining the flow of dollars and guns to the Contras.

CRUZ, ROBELO AND UNO: THE NEW CONTRA

So failing to gain popular support either in Nicaragua or in Washington, the Contras continue to try to refurbish their image. In 1985, two prominent opponents of Somoza helped create a new political wing of the Contra, the United Nicaraguan Opposition.

Arturo Cruz served as Nicaraguan Ambassador to the United States during the first years of the revolution; Alfonso Robelo sat on the first junta in 1981. I know them both personally; in fact, it was this Senator who helped get Robelo out of Nicaragua, after he chose to leave the government.

Yet, despite their presence, and despite the efforts of so-called Contra reformers, former liberals who have or are now converts to the Contra cause, Enrique Bermudez, today as in 1980, remains in control. Today, as in 1983, Adolfo Calero has the final say over FDN political operations in Honduras.

And Calero's cronies, his brother Mario and his chief ally, Aristedes Sanchez, control Contra finances, and, I submit, are principally responsible for the mismanagement, misuse, and pilfering of U.S. humanitarian assistance funds.

The legacy left by the Argentines, by the ex-National Guardsmen, and the CIA have left an indelible mark on the Contras. They are, to put it quite simply, a Frankenstein monster.

This fact is apparent to the Nicaraguans, even to those who have left the Sandinista cause, the true democrats who seek an alternative to the current government in Managua.

Those who have left their farms to fight the Sandinistas have in many cases real grievances. Some of their land has been confiscated, and some have suffered persecution for their religious views or for resisting the draft.

But they are being used as an instrument of U.S. foreign policy and the Reagan administration.

And they are being used by the National Guardsmen and Somocista politicians who simply want to return to Managua and recover the power and money they lost in 1979.

For Nicaraguans, the Contra cause, to quote from Edgar Chamorro, offers nothing but a return to the past.

For Americans, continued commitment to the Contras offers a return to our recent tragic past—to Vietnam. So long as it seeks the overthrow of the Sandinistas, this administration, as the prospect of a Contra military victory becomes increasingly unlikely, will finally decide it has no option left but open, direct U.S. military action.

Mr. President, I am about to wrap up my comments regarding the development of the Contras.

□ 1540

Mr. President, I believe the statements I have made over the preceding hour and a few minutes outline who they are and where they came from; who supplied them and trained them; what kind of military force they are.

I have known Adolfo Calero since pre-Somoza days, and if you want to return Somoza to Nicaragua, return Calero. We may not be proud of some of the others. We may not be proud of Arturo Cruz. We may not be proud of Robelo and a few others.

I remember that Calero's chief gripe against Somoza was not that Somoza was destroying his country, keeping

the people in poverty and illiteracy, not helping his country to progress. His chief complaint was that Somoza was taking more money out of this Coca-Cola plant than Somoza should.

Now the same Adolfo Calero has joined with Enrique Bermudez and Ricardo Lau and all the rest of them now running those operations.

Mr. President, these Contras do not need $100 million. What they need is to be disbanded. What we need is to reach an agreement with the Governments in that region to disband this Contra force organized by the CIA and the Argentines, pulled together out of disparate national guard elements who left the Somoza government; who, in many cases, forcibly took young men into their ranks in Nicaragua.

We need to reach a negotiated settlement with all the Contadora countries to provide for the disbanding of the Contras, lest they become a force so powerful, with so much money, so engrained in that area that they become not a threat just to the Sandinista government but a threat to the Honduran Government, which, quite rightly, fears 10,000 to 20,000 armed Contras inside their borders, Contras who may find it impossible for a military victory in Nicaragua, but who just might find it possible to overthrow the Honduran military and set up their own government, a government they want to run in Honduras.

I think we have seen indications of this from many Hondurans who feel very frightened, and in fact that is exactly what may happen with these Contras.

Let there be not doubt about it. From our generals who have commanded the southern command, the military people with whom I have spoken, and others, there is not doubt in anyone's mind that even with $100 million, these Contras are not going to be able to overthrow the Government of Nicaragua—a government, I might add, with whom we have full diplomatic relations and exchange ambassadors.

I wonder what kind of message is sent to the rest of the world when the United States is funding a war to overthrow a government with whom we have full diplomatic relations.

They cannot overthrow the Government of Nicaragua. But what happens? One of two things.

We will then find, as we have in the past, that $14 million was not enough. Then it was $24 million for the Contras. That was not enough. Now it is $100 million, and that will not be enough, either.

I want to continue to make this point: that the $100 million we are debating here is not just $100 million. It is $100 million plus CIA involvement, which we barred over a year ago, plus the use of CIA contingency funds; which might mean that the $100 million will mushroom to about $500 million, and it also will result in the use of military advisers and personnel in that area.

Talk about a setup for sucking us into that war in Central America!

One-hundred million dollars will not do it. We are going to come back again next year, and it is going to be $150 million or perhaps $200 million, or we are going to come back and say that we need more personnel, we need more advisers. No, we are not going to go to war there. All we need is trainers and advisers. And once again, this Chamber will echo with the words of those who warned us on the Gulf of Tonkin resolution.

The time to end the mistaken policy of our Central Intelligence Agency, which ran amok from 1981 through 1984 in Central America; the time to put an end to this adventurism; the time to put an end to the tortures and the murders, the Ricardo Lauś, the Enrique Bermudeź, and everyone else associated with the Contras is now. The best way to do it is to defeat this proposal for $100 million, support the Contadora nations, and put the pressure of their neighbors upon Nicaragua to reform.

Again I point out that it was not until the United States, through the Central Intelligence Agency and the Argentines, grouped the Contras together into that force, until they began to actively mine harbors, blow up bridges, and actively kill people in Nicaragua—that was when the Nicaraguans began to clamp down. That is when they clamped down on the Contras. That is when they went to the Soviet Union for more and more military aid. That was their excuse, and we gave them the excuse to do so. Let us not give them any more excuses. Let us shut it down now, and let us say "no" to this request.

Mr. President, how much time have I consumed?

The PRESIDING OFFICER. The Senator has consumed 77 minutes of his allotted 2 hours.

Mr. HARKIN. Mr. President, I reserve the remainder of my time, and I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. BINGAMAN. Mr. President, I ask that I be allowed up to 10 minutes to make a statement on this amendment.

Mr. SASSER. Mr. President, I yield such time to the Senator from New Mexico as he may consume, not to exceed 15 minutes.

Mr. BINGAMAN. I thank the floor manager, the Senator from Tennessee, for his courtesy.

Mr. President, I rise to oppose the proposed $100 million in aid to the so-called Contras.

With this vote we will be making one of the single most significant and long-term decisions about the direction of American foreign policy in the Western Hemisphere. It is difficult for me to overestimate the importance of this vote, for it may mean a commitment, albeit in 4 or 8 years, to send our young men south to fight. With that in mind, I would like to share with you my reasons for so strongly opposing the proposed $100 million in aid to the Contras.

My reasons essentially fall into four categories: First, the recent ruling by the World Court; second, the existence of a viable means of negotiation in the Contadora initiative; third, the flaws in the current policy, which the legislation asks us to rubberstamp without significant alteration; and, fourth, the need for us to redefine American interests, and therefore American policy, in Latin America.

THE WORLD COURT RULING

On June 27, just 2 days after the House narrowly voted to grant the President's request, the International Court of Justice issued its rulings in the case of Nicaragua versus the United States. By a vote of 12 to 3, the World Court found that America's "training, arming, equipping, financing, and supplying the Contra forces * * *" violated international law.

□ 1550

Now, what does it mean that the World Court has labeled the policy of aiding the Contras. Illegal? Indeed, why should this Nation or this Senate listen to the World Court?

The World Court is comprised of distinguished jurists, and I point out they are jurists from countries which are Western-oriented or traditionally friendly toward the United States. Yet this body found our backing of the antigovernment Contras to be a violation of international law.

But, not only have we ignored international law by seeking to overthrow another government without declaring war, the administration has rejected the World Court's claim that it has jurisdiction in this case. In so doing, we have violated two charters which this body has previously approved: the United Nations Charter and the Statute of the International Court of Justice. I would ask my colleagues to consider another instance in which a government ignored the verdict of the World Court. It was, in that case, a ruling in favor of the United States and against the Iranian Government, which was, as you recall, holding Americans hostage.

This is the company that we are keeping with our decision to deny the World Court's jurisdiction.

There is one additional reason for the significance of the decision from The Hague. It is a clear indication

that we have lost the moral high-ground in the international community. Our refusal to act on the Court's ruling subverts our foreign policy efforts in other settings. These other settings include, in particular, our endeavors in the area of arms control, human rights, and international terrorism.

Of the World Court's 16 decisions involving our policy in Nicaragua, only one has earned unanimous endorsement. It was the call that the United States and Nicaragua seek to settle their dispute with diplomatic rather than military solutions. The Court specifically endorsed the Contadora initiative, proposed by Mexico, Colombia, Venezuela, and Panama.

THE CONTADORA INITIATIVE

It is this Senator's belief that the Contadora process offers a viable, nonmilitary approach to our differences with the Sandinista government. The Contadora initiative represents the effort on the part of four of the major Latin American countries to deal with the escalating conflict in Central America and the United States role in this conflict. The group has drafted four proposals for conflict resolution in the region in the past 3 years. While the latest of these proposals, the Declaration of Panama, which was reached only last month, is far from perfect as far as U.S. needs are concerned, it is a process through which we can work to achieve our ends in the region without resorting to military means.

My greatest reason for urging our commitment to Contadora is that it has the backing of the major powers in the region. I think it is telling that none of these countries involved in the Contadora deliberations endorse our backing of the Contras in Nicaragua.

The original Contadora countries have also incorporated the direct participation of the Central American countries which have a large stake in how conflict there is resolved. These countries recognize that Nicaragua's ties to Cuba and the Soviet Union are of serious consequence, but they do not see Central America solely as the front line against Communist expansion. To the Contadora countries, Nicaragua is as well symptomatic of the need for progress against poverty, unemployment, and international indebtedness. I believe that they have a more accurate understanding of the depth of the problem there than does the administration.

From the beginning, the administration has merely given lip-service to the work of the Contadora group. It has been unwilling, at almost every juncture, to engage in serious dialog unless Nicaragua ceases its support for the rebels in El Salvador. The evidence indicates, however, that Nicaragua has significantly reduced its direct support for the rebels since 1981, when the United States first made the demand that it do so. More recently the administration has sent special envoy Phillip Habib to Central America. But it is clear the President and other high-ranking officials have not given Mr. Habib the support he needs to be effective. As long as we continue to fund the Contras, we are blocking any possibility for a negotiated settlement.

Simply stated, Mr. President, we cannot have both aid. We cannot continue to both aid the forces trying to overthrow a government in the region and also sincerely work toward a diplomatic settlement with those governments as this legislation pretends to do.

For its part Nicaragua has not always been willing to participate Contadora negotiations. In recent months, however, the Sandinistas have exhibited a growing interest in entering negotiations. I believe they are presently in a weakened position, a position from which they might make genuine concessions. In other words, I believe the time is ripe to give the Contadora process genuine change.

THE ADMINISTRATION POLICY

Let me speak for a moment about the administration's policy.

In his initial request for Contra aid, the President stated that our support of the rebels would be a way of enhancing our bargaining position for working out a diplomatic solution to the Nicaraguan problem. I agree that military aid can be a way to improve leverage, but I question whether this is or ever was this administration's intention. The President has virtually admitted that our goal in funding the Contras is to overthrow the Nicaraguan Government.

If the President's objective was to improve our diplomatic posture with these military overtures, he would not today be asking us to provide more military aid to the Contras. Instead, he would be announcing our reentrance into the Contadora process. As John Ferch, whom the President recently fired as Ambassador to Honduras, said recently, the time is ripe for negotiations. Let me quote from Mr. Ferch. He said: "You've got them to the point where they're panicked so much they would negotiate some meaningful concessions." Mr. Ferch has had a long and distinguished career in the foreign service of some 27 years.

Mr. Ferch also said he has serious doubts about whether the American objective has really ever been one of seeking diplomatic leverage through military aid. Let me quote him again. He said: "Our goal is something different. It's a military goal." I am afraid, my fellow Senators, that Mr. Ferch is correct. It is clear to me that the administration is now seeking the overthrow of the Sandinista government by its increasingly larger role in the Contra war. What else does the President mean when he says he wants to make President Ortega holler uncle?

The course on which this administration is leading us is fraught with serious pitfalls. For one, our policy is downright counterproductive. If our objective is that the Sandinistas liberalize their policies, lessen their censorship, end the repression of certain Catholic leaders, and generally become more democratic, if that is our goal, we are giving them an excuse to be more repressive. The closing down of La Prensa, Nicaragua's only opposition newspaper, is a clear illustration of this.

If our goal is to weaken support for the Sandinistas within Nicaragua, our current policy is having the opposite effect. We are giving fuel to their shouts of impending invasion from the North and general anti-American rhetoric. If we vote to increase aid to the Contras, we will be providing more fuel to the Sandinistas' nationalist appeal.

Last, if our ultimate objective in Central America is to ward off the Communist threat, our current policy achieves quite the opposite result. For, when the Sandinistas not only cannot turn to the United States as an ally in their hemisphere, but have no choice but to see us as the uncontroverted enemy, they have no alternative but to continue to increase their dependence on the Soviets. If we continue to pursue this course by voting aye this week, we are saying to the Sandinistas, "You have no choice but to go even further into the Soviet fold. We will not allow you to even make an effort to be a nonaligned country." That is the message we will be sending.

In addition to being counterproductive, our policy of backing the Contras is flawed because we have no way of controlling how our support is used. In recent testimony before the House Foreign Affairs' Western Hemisphere Subcommittee, a high-level General Accounting Office official, who oversaw that committee's request of a review of how the $27 million we gave to the Contras last year was spent, said, and I quote: "We have concluded that the State Department does not have sufficient procedures and controls to ensure that program funds are being used for purposes intended by law."

When we debureaucratize that statement, what it says is, we don't know and we have no way of finding out how the Contras are spending taxpayers' money. We do not know whether they are buying drugs or guns, or laundering money, or buying houses for their personal use or what. In its audit, the GAO found itself unable to account for $15 million, that is $15 million, of $27 million the Contras had been given for 1986.

□ 1600

This year, we are being asked upfront to provide $70 million in direct military aid. Yet we have no control over what they do with the tanks, planes, and guns which we buy them. Of course, we can say these weapons are reserved for combat with Sandinista soldiers. But, clearly, as has been the case, they can be used against civilians and against innocent children. Our bombs can be used to blow up civilian clinics and farming cooperatives. Indeed, there are far too many cases like this already well-documented. So, what we are doing, is giving these men—whom the President calls freedom-fighters a blank check. In a time of this Nation's greatest fiscal restraint, when we are asking the elderly, veterans, youth who want to go to college, virtually everyone, to tighten their belts, the President is asking us to give a $100 million blank check to the Contras.

A NEW AMERICAN POLICY

We are at a crucial crossroads regarding U.S. policy in Central America. Since the Monroe Doctrine of 1823, we have realized our interests in the Caribbean Basin area. Over too much of that time, we have seen our role as one of simply preserving our economic dominance in these countries. In more recent decades, we have supplemented that view with the vision of our role as fighting encroaching Communist revolution in our hemisphere. While these are certainly important components of our interests in Latin America, they are not the only elements needed to formulate a workable and advantageous policy in this region.

Policies, like laws and armies, need to be updated. We need to, in effect, modernize our foreign policy in Central and South America.

Today, it is surrogate American troops we are sending into Nicaragua from our Costa Rican and Honduran bases. We are training, equipping, advising, and financing the Contra forces. If we are prepared to vote for a continuation of this, however, we had better be prepared to eventually send the real thing—American soldiers. Because the millions which we have already invested in the Contras and the $100 million we are being asked to approve today are only the downpayment on what will surely be a long-term commitment. If we vote yes on this measure this week, we had better be prepared to go home and say we are committed to overthrowing the Nicaraguan Government, even if it means sending our troops south to fight a war.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. MCCONNELL). Who yields time?

Mr. PROXMIRE. Mr. President, will the distinguished Senator from Tennessee yield me 10 minutes? Not now, necessarily, but as soon as he can.

Mr. SASSER. Mr. President, I yield to the distinguished Senator from Wisconsin 10 minutes.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. PROXMIRE. Mr. President, I wish to thank my good friend from Tennessee for yielding.

Mr. President, the United States stands condemned by the International Court of Justice. The Court has found our country of breaking international law by violating sovereignty. The Court may be wrong. But I think we should take that very seriously and we should certainly understand the basis for the charge, and we have not done that.

Late last month, just 36 hours before—I repeat, before—this finding by the World Court, the House of Representatives voted to send $100 million to aid the so-called Contras in their mission, which is to overthrow the Government of Nicaragua.

Now, I think there is a good chance that if that decision had come from the World Court in advance, there might have been a different vote in the House. At any rate, we have no excuse. We know now where the World Court stands.

Before the Senate acts on this expenditure that has passed the House, the Senate should insist it not be treated within the same short shrift given to the World Court. We must insist to a detailed justification from the administration of this major expenditure. We should have an answer, chapter and verse, of the basis in international law for this country's assistance to the Contras. The Senate should not act on this matter until we have had a point-by-point answer to the charges of our country's violation of international law by the World Court.

Frankly, Mr. President, I think the administration has given new meaning to arrogance in its shocking refusal to plead this country's case before the International Court of Justice. Here is a court that was established, in no small part, because of the vigorous support of the United States. Here is a court which supported this country's position in the Iranian hostage crisis. I think all of us recall how reassuring that was. It was not a matter just of loving our country and of patriotism. It was a matter that a relatively dispassionate court said we are right.

Above all, here is an instrument of justice struggling to establish a rule of law in a jungle of competing, warring nationalism in this increasingly dangerous nuclear world. Could the World Court ever threaten U.S. security? No way. No country has less to lose by the actions of the Court.

Consider: how does the World Court enforce its decisions? It relies on the only international enforcement arm on Earth, the Security Council of the United Nations. And how can this Security Council act? The Security Council can only enforce the decisions of the Court by majority vote and only then if one of the prominent members of the Security Council does not veto the majority decision.

Now, the United States, all alone, by itself, can veto any action the Security Council majority chose to take. If the Security Council majority decided to act against the United States in Nicaragua, the President of the United States can and would direct a representative of the Security Council to exercise our veto.

So our country stands immune from any international discipline. We stand above international law in that important sense.

But, Mr. President, there is one court the administration and both bodies of Congress ignores at its peril. That is the court of American public opinion.

Now, of course, American public opinion is strongly disposed to support our country in any foreign policy dispute. After all, this is our country. We are proud of it. We love it. Americans are patriotic. In any dispute between a popular President speaking for our country, on the one hand, and the World Court, on the other, it would be truly extraordinary for a great majority of our countrymen not to support our President.

Well, Mr. President, we have one of those truly extraordinary situations.

According to the most reliable professional public opinion polls, the American people oppose aid to the Nicaraguan Contras by the resounding margin of 2 to 1.

Now, Mr. President, let me explain to the Senate that just last month I returned from a 10-day tour of my State. I spent most of those 10 days at an event called Summerfest in the city of Milwaukee. I stood at the entrance of Summerfest shaking hands. I shake, on the average, at least 100,000 hands a year. I have done that for 30 years. I have shaken over 3 million hands. I shake a lot of those hands at events like Summerfest and the State fair and so forth. People came there not only from Wisconsin, but from Illinois, from Iowa, from Michigan, from Indiana, from all over the Midwest, but primarily from Wisconsin.

Mr. President, how did these people stand on the Contra aid? I did not bring that up. I did not have any Contra sign. It was shortly after the vote in the House of Representatives.

But I would say I have never seen, never seen an issue that is so unified by people on one side. I would say the opposition to Contra aid in my State is at least 40 to 1 or 50 to 1 among those constituents who felt deeply enough

about the issue to bring it up. And I was amazed at how many did. I can tell you, this is the most controversial, hotly disputed issue of foreign policy I have seen in a long time; perhaps in the last 10 years, since the Vietnam war.

Before the Senate acts on this Contra aid matter, we should demand from the administration a thorough, detailed justification of this $100 million expenditure that appears to be in direct contradiction of international law and the overwhelming opinion of Americans who will have to pay for it.

Mr. President, the American people are opposed to this for many obvious reasons. One reason is they are opposed to spending. I have learned that and I think other Senators who have been back to their States have learned that. They think the Federal Government is spending too much money. They can understand it if we spend money on helping farmers, although many of them dispute that. They cannot understand it when we are spending money in Nicaragua, money to overthrow a government which we recognize, money which the head of the National Security Council, Mr. McFarlane, and the administration itself, said it would be a waste of money if we do not spend $100 million, but $500 million.

Americans feel we are going to have to send troops in there. Of course, the President denies that. Presidents always deny that kind of thing. There is no question if we spend $100 million or $500 million, and then more, we are probably not going to make it, almost certainly are not going to make it, unless we send in American troops.

□ 1610

Mr. President, there is one particular reason why the people are so unified against Contra aid; that is, that almost everybody loves an underdog. Certainly in this case, little Nicaragua is an underdog. You compare the Nicaraguan Navy with our Navy, who are we trying to kid? They have a few patrol boats. We have the strongest Navy on the face of the Earth. Compare their Air Force with our Air Force. We have a superb Air Force, probably the best in the world, certainly competitive with the Soviet Union, and probably superior to the Soviet Union. They have nothing but a few little old helicopters from the Soviet Union. As far as their Army is concerned, they have a few worn-out old tanks but that is about it. We have, of course, an Army that is devastating.

Nobody likes a bully and we are viewed as a bully in South America. There is no question about that. We have the power. They do not have the power. Certainly they do not constitute the slightest remnant, not even a pitiful threat to this country.

Under those circumstances, Mr. President, in view of the overwhelming sentiment of my people, and a 2-to-1 sentiment according to the polls throughout the country—only in the southeastern part of the United States is there anything like that sentiment for this kind of intervention—Mr. President, I earnestly hope that we will not proceed with the Contra aid, and will recognize an event has occurred since the House acted. And that is an important event—that the International Court of Justice made it very clear that we are violating international law. We should insist on a thorough rebuttal of that from the administration. They did not give it to the International Court of Justice. They certainly ought to give it to the U.S. Senate.

Mr. President, I thank my good friend from Tennessee.

I yield the floor.

Mr. MATTINGLY. Mr. President, there has been some discussion by the Senator from Wisconsin about the World Court decision against the United States and I would like to comment briefly on the Court and the events that surrounded its judgment.

I find it somewhat ironic, Mr. President, that as we approach the 200th anniversary of our Constitution with all that that implies, that we find ourselves somehow having to defend our nations respect for the rule of law.

The World Court is the judicial arm of the United Nations. When the United States accepted its jurisdiction in 1946, we specifically reserved from court jurisdiction certain matters affecting national security and foreign policy. Certainly, no nation could realistically be expected to place all such responsibility in the hands of any international body.

In fact, the United States was one of the few nations to agree to Court jurisdiction. When the Court issued its puzzling ruling that it had jurisdiction over the matter brought before the Court by Nicaragua, 10 of the 15 judges came from countries that had refused to accept the compulsory jurisdiction of the Court.

Many people may perhaps view the World Court as similar to our Supreme Court or perhaps hold it in an even higher esteem. But the truth of things, Mr. President, is that there are significant differences between our highest Court and our judicial proceedings and the World Court operations.

For example, unlike our system of litigation where each side has access to evidence and related information held by the other, the World Court proceedings cannot provide such opportunities.

The United States claimed that Nicaragua was involved in support for the guerrillas in El Salvador who were trying to overthrow that Government. We had the Kissinger Commission conclusions as well as intelligence data and congressional proceedings to support that claim but there is no mechanism that would allow for the orderly transfer and use of all this data during Court proceedings.

There are appropriate times and places for World Court jurisdiction and the United States has stated that it will continue to accept them. It seems to me, though, that this case was clearly not one of them and to have pretended otherwise would have cheapened the deep and lasting respect that our Nation has demonstrated for the rule of law and true justice.

Mr. PROXMIRE. Mr. President, will the Senator from Georgia yield for a question?

Mr. MATTINGLY. Yes.

Mr. PROXMIRE. May I ask the Senator, is it not true that the Senator from Wisconsin simply said that we should have presented our case to the World Court? Certainly, they can have the other side because we did not go to the World Court to present our case. We did not do that. Why did we not do that? We had such an important case and we had such a persuasive case, we had the intelligence, we had the knowledge of what is going on, why did we not do that? And why, furthermore, may I ask my good friend from Georgia, should the administration come to the U.S. Senate and make the case before us that we were not violating international law? Have they done that?

Mr. MATTINGLY. To answer the first question, when the United States accepted the jurisdiction of the World Court in 1946, we specifically reserved from court jurisdiction, meaning the World Court, matters affecting our national security and our national foreign policy.

Mr. PROXMIRE. I recognize that. Nevertheless, certainly the World Court jurisdiction means nothing if you have a situation where the World Court says we are violating international law. We simply say, well, after all, this is our national security, and, therefore, we reserve for the Court of 1946, and therefore this decision by the World Court is not relevant.

Mr. MATTINGLY. The final answer, I would say is that questions involving security concerns are the province of political and not judicial authorities.

Mr. PROXMIRE. I thank my good friend.

The PRESIDING OFFICER. Who yields time?

Mr. SASSER. Mr. President, I assume the distinguished Senator from Massachusetts wishes to exercise the prerogative now of utilizing some of his time reserved to him under the previous order.

Mr. KERRY. Mr. President, I want to utilize up to 45 minutes of that

time. But I reserve of the 2 hours set aside for me the remainder of that until tomorrow or prior to the cloture vote. I request of the distinguished Senator whether or not, if I come close to time, he might yield me a little bit of time off the bill.

Mr. SASSER. Mr. President, I say to my distinguished friend from Massachusetts, we will do our dead level best to accommodate the Senator from Massachusetts. The concern now is that we are getting a little pressed for time. We will certainly do our dead level best to accommodate the Senator.

Mr. KERRY. I thank the distinguished Senator.

Mr. President, I ask for recognition at this time. I do so with the understanding that I will reserve my hour and 15 minutes of my time subsequent to this time.

The PRESIDING OFFICER. The Senator can only reserve 1 hour until tomorrow under the agreement.

Mr. KERRY. I thank the Presiding Officer.

Mr. President, there are those who have argued in the course of the last few weeks that the Senate has indeed expressed its will enough times, thereby questioning why it is that we need to have a lengthy debate. But I think that the opening statements thus far from the distinguished Senator from Tennessee who is manager for the Democratic side, the Senator from Iowa, the Senator from Rhode Island, the Senator from Wisconsin, and others have all begun to open a framework as to why it is that the U.S. Senate should probably be debating considerably longer than we have available to us.

This is a matter today of life and death, if not for Americans today, potentially in the near future. But it is certainly a matter of life and death for Nicaraguans, Costa Ricans, Hondurans, and for others who are caught up in the turmoil, the immediate turmoil, and the immediate consequences of the decisions that we make or do not make here in Washington.

□ 1620

As one who served in Southeast Asia during the years of the Vietnam war, I recall all too well the feelings of people there about the arrogance that they felt was expressed in our willingness to Vietnamize the war by which we were willing to see body bags, as long as they were not our body bags, as long as they did not come back to our homes, as long as it was not our mothers, fathers, brothers, and sisters who were suffering the grief of these losses.

That is what we are debating now, because thousands of people are being killed as a result of United States policy in Central America.

The Senate is facing what may be the watershed vote on whether or not a peaceful solution can be found to the Central American conflict. Let there be no mistaking that what we are being asked to do by our votes by this administration. It is to approve a program of lethal military aid in a manner that carries with it a promise of escalation and increased American involvement in the war against Nicaragua, and with it, obviously, the potential price tag to the American taxpayers of a half-billion dollars or so just over the next few months.

This is not a vote on simply another $100 million. It is a vote over a transition in our policy whereby we are once again unleashing the CIA, whereby we are once again involving American supply lines and advisers in a way that puts them into harm's way and may ultimately result in larger American involvement.

Mr. President, we are talking about a policy of war, not a policy of peace. We are talking about foregoing any possibility of really pushing a Contadora process to which the administration pays lip service; we are talking about prolonging the conflict, increasing the tensions, complicating if not terminating negotiations, isolating us from our friends, and dividing Americans.

And for what? This Senator asks for what, and this Senator asks why. Why will the United States, the greatest power on the face of this planet, avoid a more legal and a more temperate approach to the problem of Nicaragua, not only in the interest of seeking a solution, but in the interest of bringing America together rather than dividing it, in the interest of trying to build the kind of consensus on which in the 1950's and 1960's American foreign policy was built?

A New York Times editorial yesterday, I think, laid out the case against Contra aid very well. It said:

Yet many Americans remain passionately opposed to the contra war, and rightly so, for the President's promises remain unrealized.

Congress may vote dollars to the contras but the country has not rallied to their cause. It cannot sensibly do so in the face of a policy with such incoherent intent and such bloody effect.

Why the skepticism? A short answer is that the President is caught up in a web of contradictions. His purpose, unstated, is nonetheless evident: the destruction of a Marxist regime. Unwilling and unable to do what is necessary to achieve that goal, he refuses to pursue the alternate course, containing the Sandinistas within Nicaragua.

Mr. Reagan's best argument is supplied by the Sandinistas themselves. Since seizing power in 1979, they have indeed betrayed their democratic promises. They put off elections, stifled the press, harassed opponents and made common cause with leftist guerrillas in El Salvador. Most recently, after the House voted aid for the contras, the commandantes banished a Catholic bishop and suspended the only opposition newspaper, La Prensa.

These are sins against democracy. But which of these sins justify waging war? If tyranny and abuse of human rights are in themselves a casus belli, America would be at war in much of the world. Threats to national security may warrant war, but as a last resort. There are, short of that, a dozen ways for the United States to make its influence felt for democratic purposes.

Mr. President, I ask unanimous consent that the entire text of that editorial be reprinted in the RECORD at this point.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

WHY KILL NICARAGUANS?

President Reagan urges the Republican Senate to give him $100 million in aid for the "contra" rebels in Nicaragua and he's likely to prevail. The big test, after all, was in the Democratic House, where he won in June, after a speech in which he promised that the contras would clean up their act and American diplomacy would seek "real democracy." Yet many Americans remain passionately opposed to the contra war, and rightly so, for the President's promises remain unrealized.

Congress may vote dollars to the contras but the country has not rallied to their cause. It cannot sensibly do so in the face of a policy with such incoherent intent and such bloody effect.

Despite Mr. Reagan's popularity, the conservative mood and palpable provocations from Managua, the contra war has not caught on. Polls continue to show that a majority of Americans disapprove of arming the rebels, and doubt dire Administration warnings of a red tide sweeping up to the front porches of Harlingen, Texas.

Why the skepticism? A short answer is that the President is caught up in a web of contradictions. His purpose, unstated, is nonetheless evident: the destruction of a Marxist regime. Unwilling and unable to do what is necessary to achieve that goal, he refuses to pursue the alternate course, containing the Sandinistas within Nicaragua.

Mr. Reagan's best argument is supplied by the Sandinistas themselves. Since seizing power in 1979, they have indeed betrayed their democratic promises. They put off elections, stifled the press, harassed opponents and made common cause with leftist guerrillas in El Salvador. Most recently, after the House voted aid for the contras, the commandantes banished a Catholic bishop and suspended the only opposition newspaper, La Prensa.

These are sins against democracy. But which of these sins justify waging war? If tyranny and abuse of human rights are in themselves a casus belli, America would be at war in much of the world. Threats to national security may warrant war, but as a last resort. There are, short of that, a dozen ways for the United States to make its influence felt for democratic purposes.

Mr. Reagan's hostility to Nicaragua is surely animated by its ties to Havana and Moscow and its comradely help for guerrilas elsewhere. But the Sandinistas insist they are prepared to bargain on security issues. Why not test that willingness in the context of the draft Contadora treaty, fashioned by Latins, that has been on the table for years? It calls for a regional reduction of forces, a verifiable ban on foreign bases and advisers,

mutual respect for frontiers and advancement of democracy.

Speaking before the House vote in June, Mr. Reagan seemed favorable to this diplomatic course. He acknowledged abuses by the contras and proposed a monitoring commission. But however welcome, the commission seems unlikely to reform an army whose high command is dominated by former Somoza National Guardsmen scornful of any civilian authority.

The President insisted he favored any settlement or Contadora treaty "that will bring real democracy to Nicaragua." The tricky "real" aside, that seemed to hold some hope, but it quickly faded after the House vote. When Secretary of State Shultz met in Colombia last week with Central America's leaders, Contadora was barely mentioned. The only answer to the region's problems, insisted Mr. Shultz, is a democratic government in Nicaragua.

That is not a prescription for compromise, but for war without end, spreading ever more destruction and death over a country the United States claims it wants to save. If the President has a discernible purpose, senators might find it tolerable this week to vote yes. But he cannot send enough force to win this sordid war; he knows the American public would not stand for that. Alternatively, he might use the contras to strengthen his negotiating hand. But repeatedly, he shrinks from that.

His only policy amounts to "stay the course." Toward what? Without a sounder answer, for America to keep arming the contras is to make more Nicaraguan people suffer and die, for no good reason. Mr. Reagan can call that fighting for freedom if he likes; it still amounts to wanton, bloody war.

Mr. KERRY. Mr. President, what we are talking about is not just how many ex-Somocista guards make up the Contras, not just about whether or not the Contras can effect negotiations; we are not just talking about whether or not they are involved in extracurricular activities that involve gunrunning or drug smuggling.

We are talking about a fundamental flaw in the approach that utilizes the Contras as a realistic means of dealing with the Sandinistas.

I urge my colleagues to very carefully read an article that appeared recently in the Washington Post entitled "Contra See Aid Bringing Victory in Year."

The groundwork is being laid in that article, I suggest, Mr. President, for future involvement by the United States because as the Contra leadership begins to promise a victory that they have promised every year since their inception, they begin to lead us further into the process where in order to ensure that victory, we become involved.

Mr. President, we clearly have interests in Central America. I know it is fashionable in this debate to get caught up over the Contras and some would accuse those who oppose aid to the Contras of not taking note of the abuses of the Sandinistas. But I do not think that any Democrat or any individual, whether Democrat or Republican, who is opposed to this policy, is somehow myopic with respect to our interests in Central America.

Yes, we do have important interests in Central America, and it is important to set out those interests before we make a judgment about how we can best achieve those interests.

I think it is safe to say, Mr. President, that we all agree that we do not want Soviet missiles that could threaten the United States being based in Central America and Nicaragua.

We do not want, nor should we have to endure, Soviet or Cuban military advisors in Central America and particularly in Nicaragua.

We want the sovereign integrity of each nation in Central America protected.

We want, at a minumum, a neutral Nicaragua and at very best we would like to have a Nicaragua that is positively and definitely aligned with the United States.

We want, to a degree that we can achieve it and effect it anywhere in the world, a pluralistic, democratic society in Nicaragua.

So the fight, I think, Mr. President, is not over these goals. If I have left out a goal, I would certainly welcome anyone saying what goal there is beyond those I have described that would merit the United States setting itself up to a potential of military involvement.

The fight is not over these goals. Americans are in agreement about what our interests are in Central America.

The fight is over whether or not the Contras can, by any sense of the imagination, contribute anything toward the fulfillment of those goals, to the achievement of those goals, or to the protection of those interests.

I would suggest very respectfully, Mr. President, that it is such a fundamentally flawed policy that not only do they not contribute to the achievement of those goals, but support for the Contras contributes in fact to the detriment interests of the United States and builds and creates a self-fulfilling prophecy by which the very things we are trying to prevent will happen.

You can trace the history of Soviet involvement with the history of American intransigence in the negotiating process and see how it is that as America steps up our efforts, so it is that they ask for and receive greater quantities of weapons from the Soviet Union.

□ 1630

Why not the Contras? Why are the Contras, then, in light of those stated goals, not the way to proceed? I think there are uncounted numbers of reasons, but I am going to suggest as many as 13 to my colleagues?

No. 1, because the Contras violate American standards of behavior and decency at home and abroad. I shall describe later the ways in which I think they do so;

Because the Contras drag the United States itself and individual Americans into illegal activities both at home and abroad;

Because the Contras themselves are engaging in activities that break our law as well as international law and do injury to the United States;

Because far from being freedom fighters or a party to an internal armed conflict, they have been guilty of their own form of terrorism directed against the civilian population of Nicaragua;

Because, as many have said, they cannot win;

Because they undermine the negotiation process in general and the Contradora process in particular;

Because they increase the militarization of the region rather than diminishing tensions within countries who can ill-afford such a wasteful expenditure of scarce resources;

Because they isolate us from our own allies;

Because they afford cheap victories to our adversaries, particularly a cheap victory on a daily basis to the Soviet Union;

Because rather than focusing attention on economic mismanagement and on the abuses of the Sandinistas, which are real, they allow the Sandinistas to focus the energy of their nation on war and on opposing the colossus from the north;

And because they are the primary instrument of our policy in Nicaragua, the Contras place in jeopardy the long-term interests in the region and throughout Latin America;

Because, what is worse, the Contras bring with them an inevitability of greater American involvement;

Because, finally, Mr. President, and I think this is perhaps the most important thing of all, there are better alternatives by which we could pursue a sensible policy in Central America without dividing Americans, without being responsible for additional killing, and without laying the groundwork for the first instance in which the United States of America has ever overtly sought the overthrow of a government with whom we have diplomatic relations and are supposedly at peace.

Thus, I think, Mr. President, any proposal that suggests that the Contras are a viable alternative for our policy in Central America is a flawed and mistaken and tragic assumption.

Let me examine some of the reasons I have stated in greater depth and I shall not go into greater detail.

The Senator from Iowa has adequately drawn a picture of where the

Contras came from, how they were funded, how the CIA aided in their training through Argentina, how they were first set up to interdict weapons, and how, now, they sit in Honduras with a leadership that does not want to lead them into Nicaragua and that has not been able to provide a purpose and a democratic cohesion to their efforts. When one looks at the nature of the Contras in this country, it is possible to see why the United Nicaraguan Opposition, or UNO, as it is commonly known, which supposedly represents the exiled Nicaraguan community, increasingly within that exile community are those in opposition to the leadership of UNO itself.

During the months-long investigation which my office has been conducting into the Contra program, we have received considerable information from former FDN members and supporters regarding allegations involving drug trafficking, corruption, human rights violations, illegal gunrunning in the region. There has been considerable information regarding these allegations that has appeared in the news media nationally, information which later in this debate, conceivably tomorrow, I shall go into. But I did want to point out that just in the public statements, Mr. President, there is enough cause for concern.

There has been a trial in Costa Rica in which, in the course of the trial, in the course of the wiretapping, it became evident that members of the Contras were involved in drug trafficking. Yet we here in the Senate, notwithstanding the knowledge that the greatest priority of the President of the United States is now to stop people running drugs and the Vice President is at the head of his task force and Nancy Reagan is busy having people at the White House and they are talking up how we have to stop the demand in the United States—here we are with countless stories of drug running all across the United States—San Francisco, Miami, Washington. CBS News has run these stories; countless newspapers have. And Congress sort of sits here, willynilly, and says, Oh, we are now going to not just give them the $27 million of humanitarian assistance; by God, we are going to reward them and give them lethal aid because they are such nice people.

This is from CBS News with Dan Rather, Mike O'Connor reporting from Central America, saying that the wiretap shows drug dealers have ties to the highest leaders in Costa Rica. Edmundo Chamorro, brother of the top military man, was consulted about vehicles for obtaining favors for those awaiting narcotics sentences in Costa Rica. But the Contras were not charged. Chamorro says Gonzalez has left the movement and the Contras and the drug smugglers were not available.

It goes on through other articles, a mere smidgen of a book full of articles from around this country by reporters who have been pursuing this story. But Congress does not seem interested in pursuing the story.

"Contra Funds Traced to Drug Trade" is the headline in the Hartford Courant in an AP story. "Nicaraguans Engaged in Cocaine Trafficking."

Another story from the San Francisco Examiner: "Nicaraguan Exiles Cocaine Contra Connection." A big story about how Mr. Norwin Meneses who has been in contact with members of the FDN and directly how moneys from drug trafficking have been going to support the Contras.

Mr. President, these are not the moral equivalent of the Founding Fathers; these are the moral equivalent of mobsters and it ought to be incumbent upon Congress to find out what kind of people we are giving money to before we give it to them.

These are not the only things we know about the Contras. We know about gun running, about defrauding of the Government of the United States. A GAO report says that $27 million in humanitarian aid went to the Contras and only 40 percent can be accounted for. Much of the money has gone directly into Contras bank accounts and out of the country, making it difficult to trace.

The stories go on to show how thousands of items were billed where there were only hundreds of items purchased; how whole amounts of money were never distributed to directly benefit Contra fighters; how equipment that was supposed to be bought was never bought.

What do we do? We turn around and say, well, we will get the CIA involved. They are the guys who got us in here in the first place, they are the ones who got us to the World Court in the first place.

Mr. President, there is much more to be said on this, but I question whether the American people, who are watching program after program, whether it is budget cuts for people trying to send their children to college, or whether it is health money, money for the handicapped, aid to farmers, drought aid in the South, will be happy to know that once again, we are going to reward those who bilk the hard-earned money of the American taxpayers for personal gain.

That is the choice or part of the choice that we are making here also.

Then there is the issue of how these people behave out in the field, Mr. President. Let me read a story from the New York Times:

"A Nicaraguan Rebel Tells of Killings as a Device For Forced Recruitment."

Is that not a wonderful way to build up the Contras into a significant force about which the United States can be proud? How wonderful it is to call these people freedom fighters.

□ 1640

Let me tell you what they do, Mr. President. And I read from this article from Miami dated September 12, 1985:

A former director of the largest Nicaraguan rebel group says in a court affidavit that the rebels routinely forcibly recruited new fighters by publicly killing Sandinista officials and their sympathizers in many small Nicaraguan towns. In an affidavit to the World Court that is to be made public on Thursday, Edgar Chamorros, who was a leader of the Nicaraguan democratic force until last fall, said that the forced recruitment was widespread and that it was done with the knowledge and acquiesence of the Central Intelligence Agency. Rebel units "would arrive at an undefended village, assemble all the residents in the town square and then proceed to kill in full view of the others all persons working for the Nicaraguan Government, including police, local militia members, party members, health workers, teachers, and farmers on government cooperatives. It was easy to persuade those left alive to join," he added.

Mr. Chamorros' affidavit also states that two officials from the National Security Council assured the rebels 16 months ago that they would take over supervision of their military operations just after Congress voted to forbid further American aid.

Mr. President, there is far, far more to cover regarding these kinds of allegations than this Senator can cover in the brief time that we have for this debate. But suffice it to say that as a former prosecutor who spent a period of time trying to prosecute drug runners and murderers and others, as a Senator, I am disturbed when I see the repetition of these allegations, when I see people from different parts of the country corroborating what other people have said. And when I begin to see that repetition and that corroboration, then I suspect there is more there than mere smoke. Before we again reward these people with $100 million and allow them to go back and recruit some more people by killing, we ought to think twice.

I am recalling the words of the Roman historian Tacitus who said of the Romans' pillage and rape and murder in those days, "They made a desert and they called it peace."

I wonder, Mr. President, as we look back on Vietnam and the village of Bien Tre that we destroyed to save, whether that is our intention in Central America. Will we teach more and more Contras how to kill and destroy and by so doing we will liberate the Nicaraguans so that those who are left alive may, indeed, enjoy the pursuit of life and liberty?

I do not think that is in the greatest standards of behavior of the United States, Mr. President. That is not what I was raised to believe and I do

not think this Senate should so easily sit or stand and vote and make believe that by giving these people greater license and by arming them we are somehow solving the problems of this region.

Time and again this administration has pointed out that reforms were going to be undertaken; time and again very little has happened, Mr. President. Just last May, with great fanfare, an agreement was signed which would give the UNO troika, if you will, of Calero, Cruz, and Robelo equal power, but what has happened to that? As Time magazine points out most recently:

Political unity continues to elude the rebels. Last May Washington pressured the contra's three civilian leaders into announcing that they would share all decisionmaking. Since then Adolfo Calero, the member of the trio with the closest ties to the CIA and contra military, is rumored to have struck out on his own. As top Calero aid Aristedes Sanchez said——

And he pointed out in the Preston article in the Washington Post——

We are fighting two wars here, one in Nicaragua and the other in Miami.

The administration continues to maintain that there is not any corruption among the top leadership and American taxpayers' dollars previously made available have not been diverted. But who knows, Mr. President, who knows? And the wealth of evidence and documentation says otherwise.

The President on January 24 of this year submitted a report to Congress saying the Contras were cleaning up their human rights act, and he said since the submission to Congress of the previous report UNO has continued and expanded its effort to improve its front's record on human rights. Toward that end UNO has established an autonomous human rights commission

Well, Mr. President, according to Time magazine, last week a high-ranking Contra told Time that both Calero and Bermudez have decided to shut down the Contra's human rights office. "I think they fail to understand the importance of it."

Mr. President, do we really have a coherent policy with respect to Nicaragua? More importantly, are the goals that are sought by our ever-changing rationale of the administration achievable? The Contra policy has been subject to extraordinary contradictory statements from the administration since its inception in 1981. And when the arms interdiction program did not work as they first said, then they became the primary instrument for focusing efforts against the Sandinistas, to keep them preoccupied with their internal problems. Then our Contra policy changed and it became one of pressuring the Sandinistas to negotiate. But when the Sandinistas came to negotiate and did negotiate, lo and behold, the administration found yet another reason for saying we need the Contras. And then the rationale became something else when the Sandinistas decided that they would sign the September 1984 Contadora agreement.

Last year the administration promised the Senate bilateral negotiations. Where are those bilateral negotiations, Mr. President? In order to get $27 million of humanitarian aid, the President of the United States sent a letter to us in the Senate, to the majority leader, saying, "I am going to start bilateral negotiations if you guys will just give me $47 million," signed "Sincerely, Ronald Reagan." The majority leader stood up and explained that that meant that all Senators voting were going to have the assurance that the President was, indeed, going to have these negotiations.

We never had these negotiations, Mr. President. We have never resumed bilateral negotiations. And so we see the President again moving away from that promise and now we are going to turn around and reward the failure to fulfill that promise with not another gift of humanitarian assistance but instead lethal assistance. Not even the latest rationale has now made that much more sense, because after the Sandinistas made it clear they were willing to sign the June 6 Contadora agreement, the administration has found a new reason to turn away from that process by saying that the Sandinistas have to, in fact, become a democratic regime in totality and must implement all of those changes to pluralism and requirements of democracy before, in fact, the Contras will not be funded.

Well, Mr. President, that is the catch-22 of this process, and that is precisely what the administration has been seeking—a way of frustrating the Contadora proposals and the Contadora process. Because of the restraints on time, I cannot go into the whole history of Contadora and what has happened, but there are many who believe, and much evidence that has been made available, including evidence from a recently fired Ambassador to Honduras who said that, to his amazement, he found that the United States was not pursuing a policy of peace that he thought we were.

Mr. President, may I ask how much time I have remaining?

The PRESIDING OFFICER. The Senator has 1 hour and one-half remaining. I gather that means he has 30 minutes remaining.

Mr. KERRY. I thank the Chair.

Mr. President, no one will argue, as I said earlier in my remarks, that the Sandinistas have in fact lived up to their promises and their revolution.

They continue to harass their opponents with increasing frequency. They have suspended the publication of the only opposition newspaper in Nicaragua, La Prensa. They recently banished a Catholic bishop in the aftermath of the House vote, and they have made a miserable mess of their own economy and of much that has to do with civil rights and human rights.

But, Mr. President, as the New York Times said, these are offenses against the notion of democracy. These are not the reasons that a nation like ours creates a mercenary army and sets itself up in a position to take arms against a nation the size of 2.7 million people, a nation that is harbored in the confines of a territory smaller than the State of North Carolina, a nation that is incapable of carrying out the threat that the President has talked of on national television, of being in Harlingen, TX, in 2 days.

□ 1650

Mr. President, Ambassador John Ferch, to whom I referred earlier, who was in Honduras, stated that he always thought that the administration meant what it said about negotiating; that the United States wanted to put pressures on the Sandinistas so that we could negotiate, and he thought the time was ripe for diplomacy. He was fired because it finally dawned on him—and these are his words, not mine. He served with great distinction for 27 years in the Foreign Service. He was a Reagan administration Ambassador to Honduras—he said that it finally dawned on him that the Reagan administration was seeking a military solution in Nicaragua, despite public protestations that a negotiated settlement was the priority of the United States in the region.

I think we should heed the warning of our former Ambassador. He said: "The hundred million we are being asked to approve is nothing more than a downpayment on war."

He said that unless the administration seizes the moment and presses for negotiations, the $100 million would go fast. "It is really just the first step. The logic of it all means that the next stage is an expanded military operation."

Mr. President, that is what the Senate is being asked to vote on this week. We are voting on a down payment, a miniscule amount compared to what will be coming down the road in the months ahead. Will it be any easier a few months from now to turn off this spigot?

I have already heard my distinguished colleagues who support this aid talk of them as freedom fighters, talk about the need to prevent this Marxist-Leninist beachhead, why we must proceed forward.

I can already hear the rhetoric of next year and the rhetoric of the year after, when they come to us and say: "Wait a minute, my colleagues. Wait

just a minute. This is the U.S. Senate that voted $100 million in aid. This is the U.S. Senate that said to these people, 'We are your hope. We are behind you. We are going to give you the opportunity to turn the events in Nicaragua.' "

So, just as it was with the arguments about leaving Vietnam and about who lost China and about all the other recriminations of American foreign policy, we find that the time will come on this floor when people will say: "If you don't continue to give this money, then the blood of the Contras will be on your hands and the bloodbath of Central America will be on your hands"; and that hysteria will begin to grip us.

Now, before that happens, while we have the opportunity, we, in the Senate, ought to state, as we know, that there are many other alternatives than the funding of our own terrorist organization.

When do we reach the point when we will say to the administration that they do not really have a policy in Latin America or Central America and that the American people understand that today? That is why, after all those imposing advertisements of Russian helicopters, and after all those deep bass voices of advertisers on television talking of that great threat, and even after the President's discussions on national television—after all that has been said and done, the American citizen is further away from the policy of the President than when we started.

Opposition to this incipient war has grown, and the American citizens, once again, in 1986, as they were in the 1960's, are ahead of the U.S. Congress.

If my colleagues want to answer these questions and vote no, then I think that is simple; but if the vote is yes, then the Senate supports an ever-expanding military conflict.

Mr. President, I have not had the experience of many of my colleagues in the U.S. Senate. I am not prescient when it comes to issues of foreign policy, and I have much to learn. But some of what I have learned, I have learned in personal ways. I learned as the son of a Foreign Service Officer when I lived in other countries and talked to people in those countries. I learned as a soldier in another country when I saw what happens when you try to force your will on a group of people whose language you cannot speak and whose customs are different from yours.

Out of that also comes a sense of what this country is best at, what we are about.

It seems to me that one of the things we are about, and one of the responsibilities we have, as a consequence of the development of our policy through this century and before, is that we have a special place in the world; that other countries view us differently from other nations; that we have a burden that goes with our power; that people look to us for a responsible exercise of our power; and, most important, I think other nations looks to us to uphold the institutions that we helped to create. That is part of the tradition of the United States, a role that we assumed in the aftermath of World War II, most especially one that has been consistent with traditional American values and traditional respect for the rule of law and adherence to the basic principles.

I think it is this sense of our role and our affection as Americans for the rule of law and for how we protect individual liberties that has brought us to the point that we began to understand better than other people the business, if you will, of constructing a global order of extraordinary sweep as a means of demonstrating to the world that we have learned something from the lessons of history; that we fought World War I and World War II for something bigger than just ourselves; that we fought it to uphold those notions about democracy and freedom and individual liberties.

Part of what we created was the United Nations. Part of what we created was a sense that we were going to try to have a rule of law, of international law, and that all nations, ourselves included, were better off when we adhered to that law, and that it was adherence to that law that gave us strength.

Mr. President, it is interesting that the charter of the United Nations begins: "We the people of the United Nations," not unlike our own Constitution. That charter was a statement of contractual law by which we would voluntarily enter into if you will, to protect our interests. So we established that.

Throughout the 1950's and 1960's, we were most effective when we behaved in a way that acted in concert with that rule of law.

However, on May 13, 1985, for the first time in the history of the United States, our Government failed to appear before an international tribunal to respond to charges against us in connection with the charter of that tribunal.

We compounded the problem by notifying the court that we would not any longer be bound by any compulsory jurisdiction of the court. Why was this? Supposedly, there was a direct danger to the national security of the United States. No, there was not such a direct threat to our security. We did so because the Government of Nicaragua filed a suit against us for something that all Americans know was wrong: Because we had the gall to mine the harbors of Nicaragua, a country with which we were not at war. The kind of thing the United States has always condemned other nations for doing, we went ahead and did. Nicaragua, obviously, had standing in the World Court.

I ask my colleagues, does Nicaragua present the kind of threat that merited the United States turning its back on an institution of world order? Not if you believe former CIA Director and former Defense Secretary James Schlesinger, who wrote in the summer 1985 edition of "Foreign Affairs":

> While the Sandinista regime is a geopolitical nuisance which we wish would wither and disappear or moderate in behavior, it can scarcely be described as a major threat to the Republic. It remains an impoverished country, almost like an Albania situated in the Western Hemisphere.

□ 1700

Mr. President, I ask my colleagues to think back on the tradition of this country.

From President Woodrow Wilson we heard:

> Cooperation is possible only when supported at every turn by the orderly processes of just government based upon law, not upon arbitrary or irregular force. We hold, as I am sure all thoughtful leaders of republican governments everywhere hold, that just government rests always upon the consent of the governed and that there can be no freedom without order based upon law and upon the public conscience and approval.

From Franklin Roosevelt in his first inaugural address we heard:

> In the field of world policy I would dedicate this Nation to the policy of the good neighbor—the neighbor who resolutely respects himself and because he does so, respects the rights of others—the neighbor who respects his obligations and respects the sanctity of his agreements in and with a world of neighbors.

Or from Dwight David Eisenhower:

> In a very real sense, the world no longer has a choice between force and law. If civilization is to survive, it must choose the rule of law.

Again from President Eisenhower:

> There can be no peace in the world unless there is a fuller dedication to the basic principles of the United Nations Charter. If ever the United States fails to support these principles, the result would be to open the floodgates to direct and indirect aggression throughout the world.

From John F. Kennedy:

> World peace, like community peace, does not require that each man love his neighbor; it requires only that they live together in mutual tolerance, submitting their disputes to a just and peaceful settlement.
>
> The badge of responsibility in the modern world is a willingness to seek peaceful solutions.

Again from President Kennedy:

> Peace requires positive American leadership in a more effective United Nations, working toward the establishment of a worldwide system of law, enforced by worldwide sanctions of justice.

And Robert Kennedy, writing in a magazine in 1968 on the Kennedy administration's quarantine against Cuba;

> It was the vote of the Organization of American States that gave legal basis for the quarantine. . . . It had a major psychological and practical effect on the Russians and changed our position from that of outlaws acting in violation of international law into a country acting in accordance with 20 allies legally protecting their position.

Mr. President, one of the things that I remember in those years when I came back from Vietnam and opposed the war was the degree to which this country was divided, the degree to which that war was able to tear at the very fabric of our society.

We have an option now which we could exercise if we choose to do the things that Woodrow Wilson, President Kennedy, Dwight Eisenhower, Robert Kennedy, and all the others referred to. We have an opportunity to go to the very organizations that we helped to create and to appeal to them to assist, to hold Nicaragua to a standard of behavior.

I referred back to those years of Vietnam, Mr. President, because that taught us something about not having a consensus in our foreign policy. You cannot pursue policies of war and conflict without bringing the American people behind you. While there are many lessons from that war and nobody knows all of them, one of them on which we can certainly agree as Americans is that never again should we pursue that kind of policy without having brought the American people into the process, without giving Americans an opportunity to be able to decide and understand why it is their sons and daughters may have to go off and die somewhere. That is not what we have done in Central America, Mr. President, and this is not what we are doing.

I believe that there are many reasons to doubt whether or not Nicaragua would adhere to every single part of an agreement. I do not trust them. I will not take them at face value. That is why we negotiate agreement because we do not trust people and we do not take them at face value.

I do, Mr. President, think if this country had a Contadora agreement in which all the nations of the region had said, "We will adhere to this standard of behavior," we would be far better off in the world community if they did violate it to hold up that document and say to the world community, "Here is violation of article I, article II, article III, and we demand that Nicaragua be held accountable according to the standards of international law."

Mr. President, it is ironic that at the very time that Nicaragua said, "We will sign the agreement of Contadora," at the same time the President was saying we cannot do this because we will not achieve our goals, the very document that Nicaragua was willing to sign was a document that would have prohibited the buildup of any military, that would have prohibited them from bringing in Soviet helicopters, there would not be a Soviet helicopter in Nicaragua today legally under this document if we had permitted them to sign it.

If we had helped that process to completion, they would not be allowed to have any Cuban or Soviet advisers but we did not, we frustrated it.

Mr. President, not only did we frustrate it but I think Members of this Senate may recall, I do not know exactly where it is in my notes here, but a document of the National Security Council, in which the National Security Council gloated over the fact that they were able to frustrate the Contadora process.

There is an internal memorandum the NSC is quoted as being exultant over the fact that they were able to block the 1984 signing of the Contadora agreement.

Mr. President, last year the United States put an embargo on Nicaragua, an economic embargo.

At the same time, as we did that we were pointing out to Americans the dangers of the PLO in Nicaragua, of the Libyans, of the Bulgarians, of the North Koreans, of the Cubans, and the Russians. It is very interesting to note, Mr. President, that when we put that embargo in Nicaragua it was not the PLO or the Libyans or the Cubans or the Soviets who picked up the loss of trade with Nicaragua. No, Mr. President. It was our allies. It was Japan, and Italy, and the Netherlands, and others who turned around and supplied Nicaragua, not the people that we were supposed to be most fearful of. What that indicates is that our own allies do not support the kind of unilateral action that we took in Central America, and that is even the case of Margaret Thatcher, who has been probably the single biggest booster and supporter of most of the policies of the President. Even the Prime Minister stood up and she said she thought the economic sanctions was the wrong way for the United States to go.

Mr. President, if we were to pursue a policy whereby we were to go through the Organization of American States and go through the United Nations, we could build a consensus in this country, we could allow Americans to see that we are taking every step available to us in the efforts to be able to negotiate an agreement. Then, Mr. President, we would be able to hold that document up to the people of this country and say to them, "Look, Nicaragua persists." Then what would we do? Is it a mere document? Are we stuck with a piece of paper about which we can do nothing? No, Mr. President, because the fact is that we have ample recourse under the treaties that we have already signed and have in effect, and we have ample recourse under the Contadora agreement itself.

I would like to read a few of the documents.

Mr. President, may I ask how much time I have remaining?

The PRESIDING OFFICER (Mr. WARNER). The Senator has used 50 minutes.

Mr. KERRY. Thank you, Mr. President.

Mr. President, I am reading from the Inter-American Treaty of Reciprocal Assistance, known as the Rio Treaty. This is a treaty which we have signed which Central American countries have signed to which we are duty bound to uphold.

Article I of this treaty says to which we are a party, "The high contracting parties formally condemn war and undertake in their international relations not to resort to the threat or the use of force in any manner inconsistent with the provisions of the charter of the United Nations or this treaty."

We are in violation of this, Mr. President.

Article II: "As a consensus of the principles set forth in this treaty, the high contracting parties undertake to submit every controversy which may arise between them to methods of peaceful settlement and to endeavor to settle any such controversy among themselves by means of the procedures enforced in the inter-American system before referring it to the General Assembly."

So we could go to the Organization of American States with this complaint.

In addition, those parties have contracted to follow rule of law and a process for resolution of the conflict.

Article VI: "If the individuality or the integrity of the territory or sovereignty or political independence of any American State should be affected by an aggression which is not an armed attack or by an extracontinental or intercontinental conflict or by any other organization which might endanger the peace of America, the organ of consultation shall meet immediately in order to agree on the measures which must be taken." Those measures, Mr. President, include for the purposes of this treaty, the measures on which the organ of consultation may agree will comprise of one or more of the following: the breaking of diplomatic relations. That is what we did with Cuba in the 1962 missile crisis and that was effective and the Organization of American States unanimously voted to undertake that kind of action. "The breaking of consular relations, the partial or

complete interruption of economic relations or air, sea, rail, postal, telegraphic, telephone, or radiotelephonic communications and the use of armed force."

□ 1710

So, Mr. President, if there is a true threat to the security of the United States of America—if there is really this threat of Nicaragua moving up to Arlington, TX, if somehow their tanks, which cannot even cross their bridges because they are not strong enough to hold them, could ever get out of the country—we are entitled under our own treaties to take the act in self-defense.

So, Mr. President, we have adequate legal, diplomatic and other means available to us to be able to pursue this process.

What is most tragic about the lack of support for the Contradora process is not only the duplicity about which we indicate to the people of the world that we are willing to pursue negotiations that we are not really willing to see brought to fruition—that is one part of it—but the more significant part of it, Mr. President, is the fact that this treaty, if signed in its current form in the draft of June 6, 1986, has adequate means of verification, sets up a control commission with on-sight inspection in Nicaragua, permits a process by which we would gain the securing of each of the goals I set out and even sets forth a standard, though general, but a standard which Nicaragua is supposed to adhere to with respect to pluralism and democracy.

I think most Americans would believe that we would be far, far better off trying to enforce those kinds of standards rather than pursuing the policy we pursue today.

Mr. President, I refer back to my comments earlier about the United States blocking the treaty. I read: "On the day it was issued, U.S. Secretary of State George Shultz praised the treaty draft"—this is referring back to 1984. And at the time the treaty first came out, the Secretary of State said this is terrific. He called it "an important step forward." He noted its conditional acceptance by Costa Rica, El Salvador, Guatemala, and Honduras. And then he added, "Nicaragua, on the other hand, had rejected key elements of the draft, including those dealing with the binding obligation."

It came as a complete surprise to the State Department when, 2 weeks later, Nicaraguan President Ortega sent a letter to the Contadora countries agreeing to sign the Contadora agreement.

We inform you of the Nicaraguan Government's decision to accept in its totality, immediately and without modifications, the revised proposals submitted September 7 by the Contadora group.

The Nicaraguan acceptance included the sections dealing with binding obligations to internal democratization and to reductions in arms and troop levels referred to by Secretary Shultz:

A State Department spokesman, reflecting the Department's surprise and confusion at this turn of events said, "It is not at all clear to me that in the long run Nicaragua won't come to regret its precipitous acts."

The U.S. Government, losing its earlier enthusiasm for the agreement, was now calling it unsatisfactory and one-sided.

Immediately after Nicaragua agreed to sign, what did we do? The United States initiated "intensive consultation" with Costa Rica, Honduras, and El Salvador, who subsequently, having said they would sign it, expecting Nicaragua to say no, said,"Wait, We have got to get revisions in this draft." And a month later, the National Security Council could exult in that secret memo and I quote from the memo: "We have effectively blocked Contadora group efforts to impose the second draft of the revised Contadora Act." So, while publicly continuing to support the Contadora negotiations, the administration privately rejoiced. And I quote: "We have trumped the latest Nicaraguan-Mexican effort to rush signature of an unsatisfactory Contadora agreement."

If the American people knew that that unsatisfactory agreement was an agreement that said no Cuban advisers, no Russian advisers, no offensive weapons, no Soviet bases, democratization and pluralism at elections, indeed would have reduced the size of the army, Americans would question seriously whether it is necessary to send $100 million of lethal aid to the killings in Central America.

Later in the continuation of this debate, Mr. President, I will touch on some other aspects of this policy. I yield, and reserve further time to myself.

Mr. SASSER. Mr. President, I thank the distinguished Senator from Massachusetts for his very thoughtful and perceptive statement here on the floor of this Chamber this afternoon. The Senator from Massachusetts has long been a leader on this issue, calling the attention of the country to the mistaken policy of this administration vis-a-vis Central America.

We are not unmindful, when the distinguished junior Senator from Massachusetts speaks on matters of war and peace, that he knows whereof he speaks. He is a Member of this body who was three times decorated for valor in Vietnam. I would urge upon my colleagues to listen to his views with great care and interest when he speaks on matters of war and peace.

I yield 3 minutes to the distinguished Senator from Rhode Island.

Mr. PELL. Mr. President, I thank the Senator from Tennessee.

Earlier on this floor I spoke of the idea that we should test the intentions of the Nicaraguan Government and they should put up or shut up. If they talk about wanting to negotiate, we should give them a chance.

In this regard, I received a letter just a couple of days ago from the Embassy of Nicaragua, enclosing the proposal made in Chicago a little over a week ago, by President Ortega which pretty well goes along with the objectives that we have in mind.

I think if we went down his proposals point by point we would see that we are saying this is what we want Nicaragua to do. But when Nicaragua offers to do it we say, "Oh, no, we have in mind something different."

So for illumination at this point, I ask unanimous consent that there be printed in the RECORD a copy of the letter from Ambassador Tunnermann, with an enclosure entitled "The Chicago Proposals for Peace."

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

EMBAJADA DE NICARAGUA,
*Washington, DC, August 6, 1986.*

Hon. CLAIBORNE PELL,
*U.S. Senate, Washington, DC.*

DEAR SENATOR PELL: As you know, the International Court of Justice formally delivered its verdict on the Government of Nicaragua's case against the United States of America on June 27, 1986. After twenty-six months of argument, review of evidence and careful deliberation the Court ruled that "by training, arming, equipping, financing and supplying the contra forces or otherwise encouraging, supporting and aiding military and paramilitary activities in and against Nicaragua, (the United States) has acted, against the Republic of Nicaragua, in breach of its obligation under customary international law not to intervene in the affairs of another state".

After reviewing the merits of the case of each of the parties in the dispute, the Court ordered the United States to immediately cease and desist from all illegal activities and to pay reparations to Nicaragua for the damages it has suffered.

On July 29, President Daniel Ortega appeared before the United Nations Security Council to present the principal findings of the World Court and to appeal to the international community for its support and assistance in implementing the Court's ruling. President Ortega also responded to the Court's unanimous decision that called upon both parties to seek a peaceful solution to their disputes by formally stating before the U.N. Security Council that "Nicaragua is willing to immediately engage in negotiations with the U.S. Government in order to overcome the existing problems and normalize the relations".

A Security Council Resolution was later introduced by Congo, Ghana, Madagascar, Trinidad and Tobago and The United Araba Emirates that requested nothing more than compliance with international law and that the Court's ruling be upheld. Of the 15 different member states represented in the Security Council, only the United States voted against the Resolution.

It is my Government's firm conviction that a peaceful solution to our disputes and to the problems in Central America are not only possible, but imperative for the peace and development of the region. Yet for an alternative to succeed, it requires the active support of all the parties involved.

President Ortega reaffirmed Nicaragua's willingness to cooperate in this endeavour in Chicago where he made an urgent request to the United States' Government to agree to begin negotiations that would lead to a prompt signing of a new Treaty of Friendship, Commerce and Navigation requiring both to respect the legitimate security interests of each nation, and to solemnly commit themselves to respect international law, particularly the principles of non-intervention, the non-use of force and the peaceful settlement of disputes.

Mr. Senator, Nicargua, by taking its case to the International Court of Justice, through its proposals and active participation in the Contadora peace process, has committed itself voluntarily and irrevocably to respect and obey international law.

I am enclosing for your consideration the full text of President Ortega's speech before the U.N. Security Council which summarizes all the pertinent legal aspects of Nicaragua's case at the Hague, as well as the Security Council Resolution. In addition, I am enclosing the text of the recent "Chicago Proposals for Peace" announced by President Ortega during his recent visit to Chicago, as well as other materials.

Once again, if you or your staff persons should have any questions regarding the recent ruling by the International Court of Justice, my Government's position on Contadora or bilateral negotiations with the United States Government, please feel free to call us.

Sincerely yours,

CARLOS TUNNERMANN B.,
*Ambassador of Nicaragua*

---

THE CHICAGO PROPOSALS FOR PEACE

(1) The Government of Nicaragua is willing to immediately establish a constructive, frank and systematic dialogue with the Vatican in regard to the relationship between Church and State.

(2) The Government of Nicaragua, with a view to renewing the dialogue with the Bishops' Conference of Nicaragua is requesting a meeting with the Conference during August, and should it be necessary Nicaragua proposes the establishment of an economical mediation commission.

(3) The Government of Nicaragua urgently calls on the other Central American countries to immediately renew the Contadora sponsored negotiations, so that on Septemnber 15, the anniversary of Central American Independence, the Contadora Act can be signed.

(4) The Government of Nicaragua calls upon the owners of La Prensa newspaper to break all their ties with those who direct and finance the war of aggression waged against Nicaragua, thereby maintaining themselves within the boundaries of the law and legal institutions of the nation. Under such conditions the temporary measures that have been applied would be reconsidered.

(5) The Government of Nicaragua urges the U.S. Government to comply with the June 27 verdict of the World Court, in keeping with its solemn international obligations.

(6) The Government of Nicaragua urgently requests that the U.S. Government agree to begin negotiations that would lead to a prompt signing of a new Peace and Friendship Treaty requiring both to:

a) Respect the legitimate security interest of each nation, and,

b) Solemnly commit themselves to respect international law, particularly the principles of non-intervention, the non-use of force and the peaceful settlement of disputes.

(7) The Government of Nicaragua appeals to the other Central American countries to join us in an effort to make all of Central America an internationally acknowledged and protected demilitarized zone of peace, under the auspices of the Contadora and Support Group countries. At the same time Nicaragua proposes that the Governments of Honduras and Costa Rica join us in establishing joint border patrol forces with the participation of the Contadora and Support Group countries and under the United Nations supervision.

(8) The Government of Nicaragua extends a formal invitation to His Excellency, the President of the United States of America, Ronald Reagan to visit Nicaragua. During this visit President Reagan will be granted unlimited access to the Nicaraguan media, including the opportunity to personally deliver a message to the Nicaraguan people in a national televised address to the nation. Likewise, President Reagan would be free to meet with all sectors of Nicaraguan society that he so desires.

AUGUST 2, 1986,
Chicago.

Mr. PELL. Perhaps as we get into the debate and the voting tomorrow, these specific proposals will be brought to the attention of our colleagues and will illuminate the discussion to a certain degree.

Mr. SASSER. Mr. President, I thank the Senator from Rhode Island. At this juncture, I yield 10 minutes to the distinguished Senator from Illinois.

□ 1720

The PRESIDING OFFICER. The Senator from Illinois is recognized.

Mr. SIMON. Thank you, Mr. President, I thank my colleague from Tennessee whose work I had observed from a distance in the House but I never had a chance to work with him closely. I am one of many who appreciate his leadership, and a leadership that is above average also in that he is not a member of the Foreign Relations Committee but he has been in here leading the way on this.

Let me touch on a few areas very briefly. I will not be speaking about this, but I have had a chance to glance through this document. It must be 300 or 400 pages long. That is the decision in the World Court in our involvement over there. I frankly was not aware that the World Court really went into things as thoroughly as they did. For anyone who seriously wants to take a look at the international legal implications this is a document you ought to take a look at.

There are a number of questions that we are faced with in Nicaragua, one that I have been faced with because I support granting weapons to those who are fighting for freedom in Afghanistan, and people say how can you be consistent in opposing aid to the Contras. We are fighting Marxism in Nicaragua and at the same time you help and you believe in aid in Afghanistan. There is one major, major difference. In Afghanistan there was an invasion. In Afghanistan people are fighting for freedom from an outside force that has moved in. In Nicaragua, it is a revolution. We are aiding people who are trying to overthrow a government, and a very fundamental question that I am sure my friend from Rhode Island has struggled with who formerly chaired the Senate Foreign Relations Committee, is should we be involved in trying to overthrow governments in other countries? My conclusion is that we should not, that if we want to overthrow governments we do not like that is basically about two-thirds of the governments on the face of the Earth.

I spoke, I guess it was a year ago or so now, to a group of educators from around the world gathered here in Washington, and I spoke at the request of the State Department about our views and educational system. Before I began speaking, I asked the group, "Is there anyone in your group from Nicaragua?" Two men raised their hands. I said "I would like to talk to you afterwards." They came down in front. I asked them what they thought the United States ought to be doing in Nicaragua. Both of them said, "We do not like the Sandinistas, but do not send down your weapons that are killings us. Let us solve our own problems." And I think their advice is sound. I think we ought to be listening to them.

My fear is as we push Nicaragua, and the Government there we are not going to overthrow that Government. In fact, the Contras after having received more than $100 million in aid from us as of right now do not control one single village, nor one single town. They are across the border in Honduras, and a few of them are across the border down in Costa Rica. But I think we are making the same mistake, frankly, that we have made with Cuba.

I am not in love with the Sandinistas; I am not in love with Fidel Castro. But I think we have through our policy helped the Soviet Union by making Castro more of a puppet of the Soviet Union regime than is Rumania, than is Hungary, I have to believe. And I picked up this morning's New York Times, and I see we are going even further in that direction. I cannot believe it is sound public policy. It is easy when you are talking about Nicaragua, Cuba, or someplace like that to respond to the national passion rather than the national interest. What I hope we will do is respond

to the national interest. I think that interest is not to push the Nicaraguan Government closer to the Soviets but to pull them away from the Soviets.

I also have concerns about our involvement—we now have 5,600 National Guard troops down in Honduras. I am concerned about what we are doing to destabilize what is the finest Government that Honduras has probably ever had. You cannot have a sizable American presence in Latin America where we are regarded—sometimes rightfully, sometimes wrongfully—as an exploiter and a bully, without having that become a major issue domestically in that country.

And our presence I am afraid does not help that. Plus, what happens if our troops that are down there obviously helping the Contras if the Nicaraguan Government sends a bomb there where our troops are stationed? I think we could overnight get enmeshed in that thing much more than anyone now wants or believes possible. Who supports us? Virtually no one. Our Western European allies have sent $200 million in economic assistance to the Government of Nicaragua, and the Government that we are trying to overthrow. Of the countries of Latin America, there is not a single government in Central America that is not critical of the Sandinista Government but you do not find the governments down there supporting what we are doing.

Where are we going to be a year from now if we provide the $100 million? Well, I think we are going to be just about where we are right now, probably another 6,000 Nicaraguans killed, it is not going to help the United States any, and it is going to further tarnish our image.

What happens to all our money? Well, we know from the $27 million in "humanitarian aid"—I put that in quotes—that we voted here a year ago, not with my vote, but we know that $15 million of that we are not sure what happened to. When you talk about weapons it is going to be even harder to find out. It is not simply the $100 million. Part of this package is $300 million to some of the neighboring countries. Why? Because frankly it is our way of getting them not to holler too much about the $100 million we are giving the Contras.

Does that mean finally that we are just going to let Marxism move ahead? Absolutely not. Where does Marxism have appeal? Marxism has appeal not because of Castro, Ortega, or anybody else. It is desperate, hungry people who want food for their children, and who are going to go to anyone who comes along with a promise. If we were to offer economic assistance, half of this amount to their area, we would do a heck of a lot more to counter Marxism.

I remember reading the Kissinger Commission report, the headlines from that report where the weapons that went down there—but the Kissinger Commission report said among other things that the United States in that area of the world is offering 391 scholarships to young people to go to colleges in the United States, while the Soviets are offering 7,500 scholarships.

My friends, we can win a battle and lose the war. We ought to be fighting for the hearts and minds of these people down there and not sending down our weapons that are killing people. It is just not going to do us any good.

I would finally close with one story. I have used this on the floor before. But back some years ago our family long before I was in Congress drove down the Pan American Highway to San Jose, Costa Rica, and visited with Jose Figueres Ferrer, who was then the President of Costa Rica. We came into his living room of his home, and in the living room of his home was one autographed picture. This was right after Richard Nixon became President of the United States. That autographed picture was an autographed picture of Hubert Humphrey. I said to him, "Mr. President, I am curious. Why do you have this autographed picture of Hubert Humphrey there?"

His response was a significant one. He said, "We sense that Hubert Humphrey really cares about us."

And my friends, I think we have to care about the people of Central America, and then our policies are going to be right and we are going to be effective. We can send down all the weapons we want. As long as we basically view these people as some kind of pawns in an East-West struggle, we are not going to be effective. I think this is money that is not going to do this country any good. This is money that is going to hurt the people in that area of the world. I think it is money that is going to do harm for our global struggle against Marxism.

□ 1730

It is not well spent.

Again, I commend my colleague from Tennessee for his leadership.

I want to also commend Senator PELL, who has provided leadership on this and so many other issues, and who knows when I talk about foreign exchanges and the importance of that, he knows it better than any Member of this body.

Mr. President, I yield back the remainder of my time.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. SASSER. Mr. President, I thank the distinguished Senator from Illinois for his kind words, and thank him also for his very intelligent and perceptive observations.

I think the Senator from Illinois has been a leader in this whole issue. His observations have been very helpful to us during the course of these deliberations. I hope we will have an opportunity to hear further from the Senator from Ilinois on this issue.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. MATTINGLY. Mr. President, it is important to make a distinction between the Contra's of 1981, when they numbered a small band of 400 men, and today's force, which numbers 20,000 men and women, mostly peasants, Indians and other civilians.

This is the result not of U.S. policy, but of the Sandinista treatment of the Nicaraguan people.

Mr. President, let me bring to the attention of my colleagues a trip report submitted by three staff members of the Senate intelligence committee and dated March 18, 1986. I ask unanimous consent that a copy of the report appear in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MARCH 18, 1986.

Subject: Trip Report, Staff Visit to Central America, March 13-16, 1986.

Submitted by: Jim Currie, Larry Kettlewell, and George Tenet.

The attached "substantive report" is submitted in accordance with committee rules. It consists of two parts: (1) an unclassified section with attached documents obtained while on the trip and photographs taken there and (2) a classified annex.

TRIP REPORT: INTELLIGENCE COMMITTEE STAFF VISIT TO THE CONTRAS

FOREWORD

Three professional staff members of the Senate Select Committee on Intelligence (Jim Currie, Larry Kettlewell, and George Tenet) spent March 15 and 16 on a visit to both civilian and military headquarters and field units of the contra forces fighting against the current government of Nicaragua. These staff members did not go inside Nicaragua at any time during their trip. The material in this report is based upon their own observations, plus information supplied by both the contras themselves and other sources. All information that is not based upon direct, personal observation is so identified.

VISITING THE CONTRAS

*Civilian Headquarters*

Staff members devoted Friday, March 15, to visits to the civilian headquarters and support facilities of UNO, the Unified Nicaraguan Opposition. There were visits to three different sites, including the main civilian headquarters, the communications headquarters, and the logistics headquarters.

Staff members were told of UNO efforts to emphasize proper treatment of civilians and prisoners by troops under their direction. Staff was also told that approximately 1000 reports of Sandinista atrocities had been submitted to the headquarters of the Organization of American States over the past year and that the OAS has not even acknowledged receipt of these reports.

The facilities at each location were serviceable and appeared to be suitable to the accomplishment of the particular missions of each. The logistics headquarters records of weapons, ammunition, and other supplies. The records the staff viewed are detailed, showing quantities of each type of weapon in the warehouse, the quantity of ammunition on hand in the warehouse and committed to specific field units, with quarterly and yearly summaries.

The general observations made by the group were two: (1) The record-keeping was much better and more detailed than had been anticipated, both with regard to the ordnance and to rations. Though the staff group was always aware of the possibility of records having been "dummied" for the purpose of giving a false and enhanced impression, the group's judgment was that this was most unlikely. The records were too extensive for this to have been done easily, and there were all the signs of their having been compiled and used over a period of time (i.e., worn pages, erasures, different handwriting, different writing instruments). Furthermore, one member of the staff group observed at the UNO Command Headquarters one category of weapons in which the numbers were substantially the same as what had been observed in the logistics center records.

(2) The quantities of weapons and ammunition shown as on-hand revealed the types of anomalies that would be expected of an insurgent movement that has obtained weapons from many sources. The main assault weapon was the Soviet-designed AK-47, of which on paper there appeared to be an adequate number. The quantity of 7.62 × 39mm ammunition (AK-47) shown in the records was an impressive amount, though not enough for sustained combat operations over more than a few months. There were many "cats and dogs" shown in the records, that is, such a wide variety of weapons as to make the ammunition procurement and the operation of the logistics system quite complicated. There were also examples of small quantities of a particular weapon with large amounts of ammunition or large quantities of a particular type of weapon with little ammunition. The records showed obvious shortages of support-weapons, i.e., M-60 machine guns and ammunition and mortars of various calibers.

*Field Visits*

The staff group visited four areas in the field, devoting all day Saturday to this task. Places visited were the UNO Command Headquarters, a field hospital, the logistics center, and another hospital near the logistics center.

Command headquarters

The field headquarters consisted of wooden buildings and tents in an area which would be hard to approach on the ground without alerting the camp occupants. The buildings, which housed the headquarters and several of the staff sections, were constructed of rough-sawed boards which the staff was told the soldiers had made themselves from trees cut nearby and roughed out with a chainsaw. The staff observed the construction in progress on one building, with a soldier truing the board using a machete.

In the communications section, staff observed an operator receiving an incoming voice message of coded numbers off a one-time pad, transmitted from a task force in Nicaragua. Approximately 20 minutes later, what was said to be this same message, decrypted and typed, was handed to the FDN Commander as the SSCI staffers sat with him in a briefing. Earlier, the staff had observed an operator in the communications center sending a message in Morse code, and staff was told that operator proficiency of 17 words per minute is achieved using that method of communication.

There were perhaps 200 or so FDN troops in the camp at the time of the staff visit. While staff was there, it was able to observe the pre-launch preparations of a reconnaissance patrol which was being sent out to investigate a report of a Sandinista patrol in the area. The staff observed the patrol members, both men and women, being issued their basic load of ammunition, loading their gear, checking each other's equipment, and falling in for inspection. The patrol divided into two groups of perhaps 35-50 soldiers each, formed into ranks, and numbered off as someone the equivalent of an NCO called a roll.

Weapons carried by the patrol members were primarily AK-47 assault rifles, with Belgian-designed FALs making up the balance. The FALs, the group was told, are used to lay down a base of fire during initiation of contact. Other weapons in evidence were H & K 40mm grenade launchers, Chinese versions of the Soviet-designed RPG-7 (a light anti-tank weapon), and standard fragmentation hand-grenades. Each patrol member was carrying a field pack, personal first aid kit, and canteen. The area in which they were operating was quite dusty, but a random examination of half a dozen magazines taken from the assault rifles showed no evidence of dirt or corrosion. The individual rounds could be taken easily from the magazine and reinserted. Cleaning fluid in use appeared to be a mixture of diesel fuel and some other substance, but whatever it was, it appeared to work. Staff was able to observe cleaning rags stuffed in the stocks of numerous personal weapons, leaving the impression that weapons cleaning was a part of the individual soldier's routine.

Troops were observed close-up. Some, according to appearance and what they said, were as young as thirteen years of age. In response to a staff question, an FDN officer stated that individuals that young were not allowed to join the force unless accompanied by an older relative such as a father or brother. There were a number of young women in the group who were carrying the same weapons, equipment, and packs as the men. Most soldiers appeared to be in their late teens or early twenties, but given staff inexperience in judging the ages of Central American campesinos, the average age could well be higher.

There were two older men who serve as armorers for the group, and they were observed at work cleaning, repairing, and cannibalizing weapons for parts. There was a large pile—perhaps several hundred or more—of unserviceable weapons, largely Spanish copies of the West German G-3 assault rifle, plus assorted AKs, some U.S. Army M-1s, and at least one U.S. Army M-14. Staff was told that the G-3 has not proven serviceable under field conditions, and other sources confirmed that the Spanish copy wears out quickly because of the heavier powder load of the standard NATO round.

The visiting staff was then given an operations briefing at the command headquarters. Staff was shown a detailed operational map, with plots of Sandinista order-of-battle information, and overlays of current contra operations and locations. Other sources confirm the overall accuracy of the information presented to the staff.

Current operations inside Nicaragua, according to information given in the abovementioned briefing, are being conducted by 6000 soldiers of the Jorge Salazar Task Forces I, II, and III who have been inside Nicaragua for over a year, plus 3500 members of at least five other task forces that have succeeded in reinfiltrating into Nicaragua in recent weeks. These 3500 soliders are on their way toward ten well-defined objectives, which were indicated on the situation map.

One of the task forces, according to the briefing, has met with such substantial Sandinista opposition that it has taken an alternative route toward its objective; another has been unable to push through a Sandinista blocking force on the way to its objective, and fighting was going on there. Another had nearly reached its objective, according to the briefing. Staff was also told of a recent attack (unconfirmed by other sources) on a government-owned tobacco warehouse in the northwestern part of Nicaragua in which the contra forces succeeded in destroying a large quantity of tobacco.

SSCI staff were told that headquarters staff positions are not occupied permanently by the same officers, but are rotated among individuals who are back from the field, some of them recovering from wounds. Among the staff section chiefs was "Mike Lima," who lost an arm in the fighting.

Refugees, according to statements made at the Field Headquarters, are extensive in the area. Unconfirmed statements were that approximately 40,000 refugees are currently in the vicinity of the headquarters and that 18,000 of these had followed the contras out of Nicaragua when they withdrew this past year for lack of supplies.

Military training center

During the past six months, according to information given the staff by the FDN Commander and confirmed by other sources, the contras have constructed a training center at which several military courses are taught. This was accomplished during the time when supplies were in short supply and troops had to be withdrawn from Honduras. The SSCI staff visited this facility, which goes by the acronym "CIM." It is constructed on three terrain levels, and there was evidence of proper attention to perimeter defensive needs, such as a comprehensive system of trenches and foxholes appropriately sited to protect the facility.

The camp is well-appointed with various training aids and devices, including a rappelling tower about 40 feet high, which staff saw demonstrated, a small arms range, an obstacle course, what appeared to hand grenade pits, plus a drill field. There are some wooden buildings with the same construction as at the HQ, housing a communications section, a training library, a chaplain, and a training headquarters. The director of the CIM is known as "Commandante Mack," and he told the staff that he had been a sergeant in the Guardia Nacional before the revolution. He stated that he had received training at Lancera, the Columbian Jungle Warfare School.

Courses of instruction offered at the CIM, according to briefings and course materials obtained by staff, include what might be termed "Basic Officer Training," consisting of 250 hours of instruction in 5 weeks; "NCO Training," consisting of 300 hours in 6 weeks; "Basic Infantry Training," consisting of 200 hours in 4 weeks; and "Artillery

Training," meaning all indirect fire weapons, taught in 200 hours over 4 weeks.

Troops in training at the center, staff was told, numbered approximately 900 men and women, and consisted of both experienced and new recruits. Staff was able to observe perhaps 500–600 troops there. Other troops were engaged in small arms training being conducted at a nearby range. Trainees were for the most part clad in uniforms consisting of very heavy, olive drab fatigues, and all the men had their hair cropped short. Staff observed them engaged in physical training, which they were told was the prescribed course of instruction for a Saturday. Staff was told, and had confirmed from other sources, that this was the second group of trainees, and that this group was in its second week of instruction. The first training session had resulted in the graduation of 1200 soldiers.

Staff observed a bulletin board with UNO declarations posted, including the listing of UNO objectives. There were also a dozen or so sets of "orders" posted, listing court martials conducted against contra troops for specific violations of articles of war.

Staff observed evidence of close-order drill practice among the 500–600 trooops who assembled on the drill field. Upon command, for example, troops executed "open ranks" across a front of perhaps fifty individuals. NCOs and officers were clearly in charge of the trainees, and there was proper military courtesy (coming to attention and saluting) as appropriate. Altogether, the impression at the CIM was one of order, planning, and appropriate training.

Field hospital

The staff then visited a nearby field hospital, which consisted of one permanent structure and several tents. There was one person there identified as the doctor, plus several nurses. The hospital has one operating room and perhaps three dozen beds. In his briefing, the man identified as the doctor stated that people treated there include both combatants and civilians. The civilian patients include both dependents of contra troops and locals. There was one infant at the facility and a young boy of perhaps six who had an eye injury. Severl patients were being administered intravenous dextrose solution. Most of the combat wounds, according to the doctor there, were in the extremities; he said that those wounded in the chest or abdomen did not often survive to reach the hospital. He also stated that there were surprisingly few post-op infections, although he could not offer any explanation for this situation.

Logistics center and hospital

Staff members then visited the primary logistics center for the contras. The main impression there was of both organization and great need. The warehouses were well-organized, with supplies stacked or palletized and prepared for airdrop. The most evident need was for aircraft. There was at this location a DC–6 configured for cargo. It was in evident need of repair; one tire was so bad that it could not fly until a spare was obtained. A DC–3 was at the center, but confirmed information was that it had not been able to fly in a year. Other unserviceable aircraft, including two OV–2 push-pulls, were in evidence, as was one small twin-engine Beechcraft Queen Air which belongs to the UNO.

The runway at this facility is rock-surfaced and not suitable for extensive operations. The contras have four parachute riggers here and would require about thirty if resupply were to be attempted deep into Nicaragua to a substantial number of troops. Staff judgment based upon visiting this facility is that heavy aerial delivery capability is presently non-existent. This would have to be an area of prime attention if significant additional aid were to reach the contras.

The Hospital here is larger and better equipped than the previously-mentioned field facility, but it is still primitive by U.S. standards. There are two medical doctors here, one of whom stated that he had served with the Sandinistas during the revolution and had continued to serve with them until about three years ago. At that time, he stated, he raised objection to the Russian military advisors coming in and claiming to be medical personnel. He was accused of having a "counterrevolutionary attitude" and was told he would need re-education. He fled to the United States, he said, and then returned to work for the contras. He stated that he was a urologist by training.

Many of the humanitarian medical supplies furnished by the United States under the present program are stored here at this hospital, stacked under tents. On the shelves of the pharmacy are supplies of bandages, ointments, and antibiotics (outdated ampicillin), plus a large supply of Tylenol capsules. There was no way of determining which of these supplies were furnished through the present humanitarian assistance program and which had been acquired from other sources. There were perhaps a dozen beds at this facility, which has recently acquired an x-ray machine as part of the humanitarian aid program. The machine had just arrived and was not operational. As at the field hospital, the doctors here stated that soldiers with wounds other than in the extremities did not usually survive the trip out of Nicaragua to get to this point. There was also a fear that the Sandinistas might decide to take out this facility, which they could certainly do with their MI–24s.

PHOTOGRAPHS

Staff members took photographs of the facilities they visited and will make these a part of the record and of the trip report.

CONCLUSIONS

The contributing staff members do not take a position in this report as to the desirability of U.S. assistance to the contras and do not present this topic as one for them to comment upon here. They are unanimous in stating, however, that decisions about the desirability of such assistance should be made with the best and latest information at hand. Overall observations, based upon what was seen while visiting the contras are that, first, it is a well-organized fighting force, and not a "rag-tag bunch of refugees sitting around in camps getting fat off of U.S. largesse," as portrayed in some accounts. Second, the military appearance of the contras, and all of the outward signs that were observable by the visiting staff, indicate a clear understanding of the task at hand and motivation required to fight the Sandinistas. Military objectives were well-defined, reasonable, and presented in logical fashion. Third, there is an obvious need for continued external assistance if the contras are going to present a continuing significant military challenge to the Sandinistas. There is both lethal and non-lethal material in existence, but if the quantities indicated on the inventory reports are accurate, it will not last more than a few months. Fourth, at every facility visited there was a sense of order and organization that belies the press reports of chaos among the contras.

Finally, it should be pointed out that no Congressional delegation—staff or Member led—has ever been to all of the areas visited by the SSCI group, according to information given the visiting staff members.

Mr. MATTINGLY. The committee staff members spent 2 days at the civilian and military headquarters of the Unified Nicaraguan Opposition, the largest resistance organization. They visited civilian, logistics, and communications headquarters.

In reading the report, Mr. President, it becomes clearly evident that this is not a rag-tag operation. That these forces are not the ill-kempt, poorly led, and undisciplined force that some have made it out to be.

For example, the report notes that the records made available for inspection at the logistics headquarters were in good order. They were serviceable and appeared to adequately reflect the quantities of weapons and ammunition stored in warehouses.

Further, it was noted that the records were too extensive and comprehensive to have been doctored and prepared merely for show to visitors.

Troops were seen preparing for patrol and the visitors noted that standard weapons and equipment checks were carried out. Ammunition magazines inspected at random were free of dirt or corrosion despite the fact that the level of dust in the area was high. Weapons cleaning appeared to be a regular part of the individual soldier's routine. There were a number of women carrying the same equipment and weapons as the men. The average age of the soldiers appeared to be late teens or early twenties which would mean they were barely into their teens when Somoza was overthrown in 1979. They certainly were not members of his national guard.

The Intelligence Committee staff members visited a training center complete with weapons ranges, a drill field, and a communications section and a training headquarters.

They visited a field hospital and a logistics center and inspected the storage of medical supplies that had been provided under the Humanitarian Aid Program from the United States.

I urge that all my colleagues look at the conclusions in the report. The resistance forces are not a rag-tag outfit, they are well disciplined and organized. The soldiers appear to be well trained. Military objectives were well defined. Finally, the staff noted that at every facility they visited the prevailing sense of order was in direct contrast to the reports of confusion and disarray that appear so often in the press.

One press report that appeared earlier this year, Mr. President, by Fred Barnes in the New Republic, seemed though, to do a good job of capturing

the nature of the freedom fighters in Nicaragua.

According to Mr. Fred Barnes' account, two preconceived notions of his quickly disappeared after his visit to the Contra camps. First, the rag-tag reputation was undeserved.

And second, the resistance forces, contrary to many accounts, are not an army of former Somoza guardsmen. Fred Barnes notes that the foot soldiers are, quote, " * * * exactly the stoical peasant fighters that the 1960's radicals fantisized about * * *"

Many of the teen-aged soliders interviewed stated that they joined the Contra forces in order to avoid service in the Sandinista military. It is interesting to note that serving in these forces is far preferable to being conscripted into the Sandinista army.

Fred Barnes concludes his account by noting that, "The thousands of young men—and some women—who have flocked to the Contras in the last 2 years have * * * given the anti-Sandinista army a democratic face."

It seems to me, Mr. President, that these two first-hand accounts come closer to capturing the true nature of the Contras than do so many of the reports that have appeared. It is indeed true that former national guardsmen make up about 27 percent of the Contra forces but 25 percent of those forces, Mr. President, are former Sandinista soldiers. Most importantly, 53 percent are civilians who were unaffiliated with either and who have taken up arms as a direct result of the totalitarian stranglehold that grips their country.

It may be tempting, Mr. President, to dismiss the resistance forces as a bunch of disgruntled Somoza soldiers but the truth is quite the opposite and if we fail to recognize this fact we are missing an essential element of exactly what is taking place in Nicaragua.

Mr. President, let me comment briefly on the questions of drug trafficking.

Mr. President, the legislation before us makes it clear that no U.S. assistance will go to any organization that harbors drug traffickers within its ranks.

There is no dispute about this. There is no argument about this. There is no appeals process available to dispute this.

The U.S. position about this is clear.

This policy will do much to ensure that the resistance forces expel anyone identified as a drug trafficker. I believe that it will also serve to strengthen the resolve of the resistance leadership to establish strong self-policing and deterrent mechanisms in an effort to avoid even having the problem arise.

I have not seen any evidence that links the leaders of the resistance forces to a concerted effort that would use the resistance infrastructure in a drug smuggling scheme. There have been allegations made about individual cases and these have been investigated by the appropriate authorities. This is as it should be and as it will continue to be.

We have obtained assurances from the leadership of the primary resistance organization that they will not tolerate this sort of activity. The individual cases that have surfaced will heighten the awareness of everyone about this problem and about the need to ensure that every step is taken to ensure that it doesn't arise and those cases where it does, to eliminate it immediately and thoroughly.

The Secretary of State has made it clear that U.S. aid will immediately be terminated to any group or individual engaged in this activity, period, no argument, end of case. We have incorporated this into the legislation before us and by doing so, I believe that we have stated the U.S. position in the clearest and strongest possible terms.

Mr. President, I ask unanimous consent that a series of questions and answers related to the legislation before us appear at this point in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

QUESTIONS AND ANSWERS

*Question:* Why is there a need for U.S. funding for the Nicaraguan Democratic resistance?

Answer:

SITUATION ON THE GROUND

The Nicaraguan people's hope for freedom die hard. After two years with no U.S. military assistance and authorization for only $27 million in humanitarian aid they continue the fight.

The $27 million is gone. The resistance needs food, clothing and medical equipment. The battlefield situation, with the increasingly well-equipped Sandinista military, makes it essential that we be able to provide defensive equipment quickly and provide additional military equipment if negotiations fail.

Sandinistas have received steady and massive military aid from the Soviet bloc. Deliveries are up this year, and include more MI-17 HIP helicopters to complement the HIND gunships.

The U.S. does not seek a military victory, but we must give the resistance the help it needs to force the communists to accept full participation of opposition groups in free elections and an open democratic system.

SANDINISTA POSITION

Nicaragua will not negotiate unless pressured. As our aid to the democratic resistance begins to flow, it will provide incentive for Nicaragua to negotiate in earnest both domestically and regionally.

The Sandinista's recent closure of *La Prensa* and their treatment of Church leaders confirm that theirs is a repressive, brutal government unwilling to tolerate opposition.

We can expect further crackdowns against the opposition. The armed resistance is essential to prevent the consolidation of a communist totalitarian regime.

DETAILS OF THE LEGISLATION

The House-passed bill provides adequate Congressional oversight and mandates rigorous financial controls.

It requires strict observance of acceptable human rights practices by resistance groups receiving aid.

The major difference between House bipartisan amendment and Senate bill passed in March is inclusion of $300 million in economic aid for Central American democracies.

While military pressure through the resistance essential must also support democracies' efforts to address underlying causes of social unrest.

With this additional assistance we will approach levels recommended by National Bipartisan Commission; funding levels authorized but not fully appropriated.

*Question:* Will the CIA involvement in the program lead to new abuses like the mining of Nicaraguan harbors in 1983?

Answer: There are specific restrictions in the law on the types of assistance which may be provided.

The Secretary of State (or his designee) shall be responsible for policy guidance, coordination, and supervision of U.S.G. assistance to the resistance.

Any agency administering funds must establish the standards, procedures, and controls necessary to assure that all funds are fully accounted for and used exclusively for the purposes authorized.

Standards, procedures, and controls shall be developed in consultation with the Comptroller General and the appropriate committees of the Congress.

Safeguards shall include segregation of accounts, monitoring of deliveries, and requirements for keeping complete records available for audit by authorized representatives of the U.S. Government.

The entire program will be subject to normal oversight by the appropriate committees of Congress.

LATINS DO NOT SUPPORT US

*Question:* Do our Latin American allies agree with our policy?

Answer: Privately, many Latin American governments have told U.S. officials that they agree with the U.S. assessment of the Sandinista regime and with our policy of assisting the resistance.

These governments do not speak out publicly because they cannot breach Latin solidarity (on which all of them must rely at one time or another) and continue to function in their community.

Many Latin governments, e.g. Colombia and Venezuela, have condemned recent Sandinista acts of repression.

The Central American democracies have certainly made clear their agreement with our policy. Salvadoran President Duarte acknowledges that the resistance is a barrier to Sandinista support for the Salvadoran insurgents. President Azcona of Honduras and President Arias of Costa Rica have asserted that there can be no peace in Central America without democracy.

---

DEMOCRACY IN NICARAGUA CALLED ONLY 'REAL ANSWER'

BOGOTA, COLUMBIA.—Secretary of State George Shultz said he and three Central American presidents agreed yesterday the only "real answer" to their regional problems is a democratic government in Nicaragua.

Mr. Shultz, in Bogota for the inauguration of Virgilio Barcos, 64, as Colombia's

91st president, called Colombia a "standup country" committed to fighting the "unholy combination" of drug traffickers and Marxist guerrillas.

Several hours before being sworn in, Mr. Barco met with Mr. Shultz, who later told reporters, Mr. Barco shares the United States' determination to battle narcotics traffickers and terrorists.

A bomb scare last night delayed Mr. Shultz's flight home from Colombia, but no explosives were found, civil aeronautics officials said.

As Mr. Shultz sat in his car waiting for the all-clear sign, bomb-sniffing dogs checking Catam military airport began growling and barking at a suspicious cardboard box, which turned out to be a harmless carton of flares.

The day before Mr. Barco became president, guerrillas attacked two towns and killed five people, including three policemen trying to defuse a bomb left by rebels in Nemocon, east of Bogota.

The chief of police was killed when the guerrillas attacked the station house and leveled it with a bomb, police said. An army colonel also was killed in an attack on Belcazar, south of Bogota.

Before the simple inauguration ceremony—held amid one of the most impressive security operations ever seen in Bogota, with tanks parked at strategic locations and heavily armed troops patrolling the streets—Mr. Shultz lunched with Salvadoran President Jose Napoleon Duarte, Costa Rican President Oscar Arias and Honduran President Jose Azcona Hoyo. The foreign ministers of those Central American countries plus the foreign minister of Guatemala joined the lunch at the Bogota residence of U.S. Ambassador Charles Gillespie.

Mr. Shultz also met separately with Mr. Duarte, Venezuelan President Jaime Lusinchi, Peruvian Vice President Luis Alberto Sanchez and with outgoing Colombian President Belisario Betancur.

Mr. Shultz cited a "common conviction the only real answer in Central America is a Nicaraguan goverment based on the consent of the people, with freedom to speak, freedom to write." He said one leader at the meeting indicated there is a strong wedge between Nicaragua and the other four Central American countries represented because their governments are willing to face opposition and Nicaragua's is not.

A senior U.S. official, who asked not to be identified, said the only new idea mentioned during the day came from Mr. Barco, who suggested that the Organization of American States play a role in the search for regional peace.

The so-called Contadora process, the main effort to bring peace to the region, was not even mentioned during the meeting, the official said.

He said the omission was "highly illuminating" on current regional attitudes toward Contadora, which the United States officially still supports.

---

*Question:* Who is holding up the peace process the U.S. or the Sandinistas?

Answer: Nicaraguan intransigence in the Contadora process.

In early 1983, Colombia, Mexico, Panama, and Venezuela initiated the Contadora process to search for a negotiated settlement to the crisis in Central America. In September of that year, these four countries—known as the Contadora Group—and the five Central American states produced a Document of Objectives listing 21 points essential to a lasting peace. Since that time, the Contadora process has worked to incorporate these points into an effective treaty.

Nicaragua has repeatedly hampered efforts to conclude an agreement:

The Sandinistas disrupted a Contadora meeting in June 1985, causing a four-month hiatus in the talks.

In November 1985, Nicaragua went public with extensive, detailed objectives to the September 1985 Contadora draft that was similar to the September 1984 draft they had said they would accept.

In December 1985, Nicaragua requested a suspension in negotiations until May 1986. It was isolated at the OAS General Assembly when all other members voted in favor of continuing the negotiations.

At a Condadora meeting in February 1986, Nicaragua refused to address key areas of disagreement on the treaty.

Nicaraguan intransigence at an April 1986 meeting led the Contadora Group in frustration to call upon the Central Americans to resolve the outstanding issues of arms limits and maneuvers and to conclude the treaty on June 6.

During negotiations in May, Nicaragua refused to negotiate in earnest. It presented a list of arms it was willing to limit, most of which were not even in its inventory.

In an effort to influence the Congressional vote on aid to the democratic resistance, the Sandinistas announced on June 21 that they were responding positively to the new June 7, 1986, draft agreement. They knew this was a cost-free gambit, since the Central American democracies had already voiced their concerns about deficiencies in the new draft.

The United States has consistently supported the Contadora process and will support and abide by a comprehensive, verifiable, and simultaneous implementation of the 1983 Document of Objectives, as long as such an agreement is being fully respected by all the parties. In February 1986, Secretary of State Shultz met with the Contadora foreign ministers to offer to renew U.S. bilateral talks with Nicaragua simultaneously with the beginning of Sandinista talks with the United Nicaragua Opposition (UNO). The Secretary also said that the United States would adjust its policies in response to any real change in Nicaraguan behavior in our areas of concern.

*Question:* Is there religious persecution in Nicaragua?

Answer: The Sandinistas have attempted to undermine the Catholic Church's influence among the population through intimidation of religious workers, legal measures to circumscribe Church activities, censorship, and promotion of an alternate Church.

Soon after Somoza's overthrow, the Government of Nicaragua confiscated the Managua synagogue. Nearly the entire Jewish population has since left Nicaragua, after being subjected to threats and various forms of persecution.

The Sandinistas have attempted to discredit the Catholic Church heirarchy and to promote the so-called "Popular Church." Despite official efforts on its behalf, this church has failed to gain popular support.

In July 1981, the Sandinistas banned the televised masses of Archbishop Obando y Bravo.

In February 1983, Sandinista groups heckled the Pope during religious services in Managua.

In October 1983, Sandinista mobs attacked more than twenty Catholic churches.

In 1983 and 1984, several Catholic Church publications were censored, including the April 1984 Easter Pastoral letter on national reconciliation.

In early September 1985 the Sandinistas ended a long-standing policy of exempting those studying priesthood and drafted 11 seminarians.

On October 12, the Sandinistas seized the Church newspaper Iglesia, confiscated all printing equipment, and have refused to allow it to resume publication.

On October 15, State Security officers occupied the Church's Social Services Office. In April, the Ministry of Justice declared the Church's social services agency to be an "illicit organization" and granted the state ownership of all property "found in the possession" of the agency. Such property included furnishings, baptismal records, files, and the Cardinal's official seal.

Beginning in October, efforts were made to interfere with people wishing to attend Cardinal Obando y Bravo's masses; priests were interrogated and warned to avoid "political statements"; evangelical workers and ministers were interrogated; and foreign priests threatened with explusion.

On January 1, 1986, Radio Catolica was closed by the Sandinistas.

In August 1982, Sandinista groups took over more than twenty Protestant churches; some of the buildings remain in Sandinista control.

Evangelical minister Juan Pablo Pineda was murdered by Sandinista soldiers in October 1985, at the same time that other evangelicals were being rounded up for arrest and interrogation. The murder was not reported until January 9.

Beginning in late October, the leaders of the National Council of Evangelical Pastors (CNPEN) were arrested and interrogated.

One CNPEN leader, Rev. Boanerges Mendoza, was arrested again on November 15 for discussing his first arrest. He was not released until November 21.

In April, 1985, an entire Christian community from Yacalwas left for Honduras, escorted by members of the armed resistance, fleeing religious persecution. According to community members, the decision to leave was prompted by continuing arrests and murders of Christians by Sandinista authorities, and disappearances of many others.

Sandinista press continued throughout past year to attack Catholic Church hierarchy in media, labeling various Bishops and the Cardinal traitors and agents of the CIA. Sandinista Foreign Minister Miguel D'Escoto repeatedly attacked the Cardinal in public, threatening further action against him for his opposition to the regime.

In July the Bishop of Juigalpa, Pablo Vega was expelled to Honduras and Monsignor Carballo, Director of Information for the Archdiocese denied reentry into Nicaragua.

Mr. MATTINGLY. Mr. President, I yield the floor.

□ 1740

Mr. GORTON. Mr. President, would the distinguished Senator from Tennessee yield me 5 to 10 minutes of his time?

Mr. SASSER. Mr. President, I yield to the Senator from Washington such time as he may consume not to exceed 10 minutes.

Mr. GORTON. I thank the distinguished Senator.

The PRESIDING OFFICER. The Chair recognizes the Senator from Washington.

Mr. GORTON. I thank the Chair.

Mr. President, I speak to oppose title II to this military construction bill as I opposed its predecessor in 1985. I do not do so out of any feeling that the present Government of Nicaragua is dedicated to democratic institutions or to a pluralistic political system or because it may not present a potential threat to existing or struggling democratic governments in Central America.

I oppose this $100 million in aid, Mr. President, because it seems to me that it not only fails to help the cause of democracy in Nicaragua but in all probability, it postpones the day of democracy for the Nicaraguan people.

We have in this administration, a policy which calls for the development of democratic institutions in Nicaragua and the removal of any threat which the Government of Nicaragua may pose for other governments in Central America. That policy, it is now proposed, is to be accomplished through a relatively modest infusion of aid to the so-called Contras based in Honduras, Costa Rica, and, in a few cases, on the ground in Nicaragua itself. The more I hear and debate this issue, and the more I read about it, the more convinced I am that this is a self-defeating proposition. Whatever the difficulties of working with the Contadora process, it offers more hope of containing the Nicaraguan revolution within Nicaragua than does aid to the Contras in the amount here requested, or, for that matter, in any conceivable amount.

I question seriously the commitment of the Contra military leadership to democratic institutions, although they certainly have some personnel with such commitments. Far more importantly, Mr. President, is my concern that this $100 million, while it certainly will succeed in further disturbing the situation in Nicaragua, while it certainly will succed in the destruction of property and the substantial loss of life—many of those lives being those of noncombatants—will do nothing to weaken—and in all probability will strengthen—the Sandinista government in Nicaragua itself. Given the strength of the Sandinista movement within Nicaragua and the assistance which it is receiving from others, the aid proposed by the administration can do nothing but be a total and complete failure.

□ 1750

Because our policy will ultimately be a failure, but because in the meantime it will increase unrest within Nicaragua itself, it simply becomes an excuse for an ever greater degree of repression on the part of the Sandinistas. This policy insures the repression of the church and of what little remains of the political opposition there. I remind my colleagues that the editor of La Prensa, the only opposition paper in Nicaragua and the most recent victim of Sandinista repression, is opposed to aid to the Contras.

We have in consequence, Mr. President, a policy which is utterly and completely inadequate to meet the stated goals of that policy. We have a policy for which other Latin American governments, even governments in Central America most threatened by the Sandinistas, are unwilling to offer public support. We are often told that some of them at least support it privately.

I am convinced, Mr. President, that we cannot succeed in the development of democratic institutions or peaceful intentions in Nicaragua by pursuing this course of action. Other courses of action do, of course, run risks as well. But fundamentally, Mr. President, it is wrong to attempt to overthrow the government of Nicaragua or of any other country with means inadequate to meet that goal, without the slightest assurance that the goal will be met even if the government is overthrown, but with an attendant considerable loss of life. This, Mr. President, is not a policy which will succeed in meeting the goals of the administration. It is a policy which will succeed in killing and maiming people and in destroying property. It is not an appropriate course of action for the United States of America.

Mr. President, I yield the floor.

□ 1810

Mr. MATTINGLY. Mr. President, I ask unanimous consent that if I put in a quorum call it be evenly divided.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Georgia.

Mr. BUMPERS. No objection, Mr. President.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MATTINGLY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURENBERGER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURENBERGER. Mr. President, I ask the ranking minority member if he might yield me, say, 20 minutes off of his side of the bill?

Mr. BUMPERS. I am happy to yield 20 minutes to the Senator from Minnesota.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. DURENBERGER. I thank my colleagues.

I appreciate the difficulty of the managers of this bill in scheduling opportunities for all of us to be heard on this issue.

Unfortunately, there are times in the day in which we assume there are more people listening than other times of the day. This may very well be one of those times when people have disconnected their boxes around the Senate.

But I felt that I had to take that chance since the construction of the unanimous-consent agreement might make it difficult for me to say some of the things that I would like to say on this proposal.

Mr. President, let me begin by saying that in Greek mythology Cassandra was a prophet who was allegedly able to foretell the future and the power was a gift. But as we recall, it was accompanied by an unfortunate curse. The curse was that no one would believe her.

With somewhat the same sense of futility Cassandra must have felt when she told the Trojans that the wooden horse contained Greek soldiers, I rise to speak against the proposal to provide $100 million in lethal and humanitarian aid to the armed resistance in Nicaragua.

I do, however, Mr. President, with little expectation that I will be able to convince enough of my colleagues that this proposal is a mistake.

Every Member of the Senate who votes for this proposal does so because they are aware of the need to achieve peace and stability in Central America and they see this proposal as a means to that end.

The hope is based on the erroneous assumption that this proposal supports a larger U.S. policy objective.

the unfortunate truth is that $100 million is not a part of the United States Government policy because the United States Government does not have a policy with regard to Nicaragua.

The administration knows it. The American people know it, the Nicaraguans know it, and the Central Americans know it. Everybody knows it. The President has substituted this $100 million aid package for a policy. There is no inclination here to defeat that request, for if the Senate votes against that substitute, we will be left with responsibility to fill the policy void ourselves. Then, you vote no and you get a majority of the people in this place to vote no, then the consequence, as my colleague, the chairman of the subcommittee said earlier today:

To amend this would require a conference and that would start the whole thing all over again. We cannot afford to have a ping pong game between the House and the Senate.

□ 1820

So, the unfortunate consequence in a body structured as we are, with our recess periods and our lack of depth and experience and knowledge about the specifics of parts of the world to which many of us have not gone and visited and know a great deal, the problem for us in voting no is that we might have to come back here and decide what the United States policy ought to be with regard to Nicaragua. Nicaragua then becomes our problem—a problem—a problem which no one here wishes to take the responsibility for solving. If we vote the President his $100 million, we leave the problem where it should be—with the President. But make no mistake, whether we vote yes or no, the fact is that we will still be left without a policy in Central America.

Perhaps a year from now, by some stroke of incredible luck, by some cosmic coincidence, all the forces could come together to miraculously produce a solution in Nicaragua. But I see absolutely nothing in the proposal before the Senate that leads me to see why a vote for $100 million in aid will be the harbinger of such a miracle. This coincidence, this miracle we hope for, is a simple recognition by all parties of the need to recognize interdependence of Central Americans, Nicaraguans, and the United States. This relationship only can operate when we have established a political environment where there is a free exchange between and among all the parties and they all recognize that an economic relationship is necessary for the health of the region.

We drink their coffee and eat their bananas; we exchange manufactured goods, labor service, and products with each other; we set the price of world debt; we train their businessmen; the points of economic contact are almost infinite.

How does the FDN and their military training and equipment fit into this situation? I simply do not see how. Does $100 million in aid to the armed resistance bring us closer to reestablishing the economic health of Central America through political normalization? The answer is, in my view, no. The great tragedy of mistaking this vote for a policy decision is that we will never be forced to address the root cause of the problem. As long as Central America remains economically sick, social and political turmoil will continue, violence and insurgency will spread, conflict and insecurity will grow, and opportunity for Soviet/Cuban mischief will expand.

How did we get ourselves into this predicament?

In 1979–80, we came very close to setting out on the right path to avoid the political crisis we now face. Then, with our help, the Democrats have captured the revolution. With our economic help, they could have done it. We tried here in the Senate to provide that help by generating interest in investment in the private sector but we could not. Senator LUGAR, who is now the chairman of the Foreign Relations Committee, and a few of us saw that the real issue was the economic survival of Nicaragua. With the financial leverage we would have provided, the Democrats in the revolution would have had a good chance to prevail over the few Marxists. They would have had a power base. But U.S. foreign policy was unimaginative and was driven by a President who failed to recognize the opportunity and who was beset by other problems. And, on the floor of this Senate and in the other body, opponents of aiding any revolution which involved any number of Marxist-Leninists prevailed on this body until it was too late. We did not try to capture the revolution in the first couple months of this revolution.

But then we had a second chance. President Reagan came to office in 1981 and he could have politically trumped the Sandinistas by supporting the internal political opposition who were then still operating within the framework of the revolution. The Democrats were still there in 1981. The Sandinista revolution could have become our means for promoting change. We, rather than Castro, could have been the saviour—the patrone—the friend of the revolution and what it represented to the Nicaraguan people.

Instead, we chose to denounce all of the revolution—the whole revolution, every one of the revolutionaries—lock, stock, and barrel. The revolution became the enemy because some of its members were avowed Marxist-Leninists. In the eyes of the Reagan administration, it was totally evil. We lost the option of condemning those parts which were in fact represssive and supporting those elements of the revolution which were coincident with our view of democratic revolution. Elements which we supported in Guatemala, El Salvador, and Honduras. We abandoned our option of siding with the goals of the majority in Nicaragua who opposed Somoza—but who also opposed Daniel Ortega and his cabal of commandantes. This was the first in a continuing series of inconsistencies in our actions.

Instead of strengthening the church and the democratic opposition, we strengthened the armed resistance in the hills. We brought in the CIA and the Argentine surrogate trainers for the ex-national guard. Bermudez and the nationals became the symbol of U.S. involvement. We left the true Democratic revolutionaries—those who had opposed everything that the national guard stood for—totally stranded. The Sandinistas with good effect could now accuse anyone who criticized the revolution, inside or outside the country, with being also pro-Somoza, pro-Gringo, pro-CIA with being against all the principles of the revolution. The lines were drawn—there was no longer any common ground of principles where pro-U.S. and prorevolution democrats could meet to influence the course of the revolution from within. The opportunity for internal moderation evaporated. At our urging, the opposition boycotted the 1984 elections and effectively ended any hope for future internal dialog. External pressure became our only alternative.

Our characterization of the Sandinista revolution as a Marxist-Leninist instrument for domination of Nicaragua became a self-fulfilling prophecy, the purge of the democratic elements and the loss of Nicaragua to the Communist camp was assured by the obstinacy of our policy.

From then on, everything sadly went awry as we tried to square the inconsistency between the public rhetoric of anti-Sandinistaism with the reality of the situation in Nicaragua, which all of our constituents were seeing for themselves firsthand. The administration simply didn't know how to form a policy and take actions to support it which accommodated its total public opposition to the Sandinista government with the hard fact that that government possessed a degree of legitimacy. Some of this legitimacy stemmed from the fact that they were in physical control, but some also stemmed from the fact that they still represented the aspirations of many Nicaraguans.

This fundamental dichotomy, I would suggest, is the reason that the objectives of the armed opposition had never been clear to us or anyone else. What began as an arms interdiction effort—as the occupant of the chair, Mr. CHAFEE, and a few others who have been on the Intelligence Committee know—what began as an arms interdiction effort evolved into an instrument of leverage to achieve a negotiated settlement. It has now apparently developed into the means to achieve an alternative government by inciting the country to revolution or establishing a liberated zone within the country.

And I must say "apparently," because this all boils down to the fact that the U.S. Senate never had an understanding of U.S. policy objectives and still does not.

Policymakers have never accepted the fact that ultimately—and this is important, Mr. President—ultimately the Nicaraguans are the ones who must decide what will happen in Nicaragua.

The other Central American countries cannot march in and dictate a solution. They have neither the will nor

the ability. And everybody knows it. It is not possible for the United States to march in, either. The political price is too high at home and the practical affect in Nicaragua would be a disaster. The Contadora process, the great hope, has not worked because it is fundamentally flawed.

□ 1830

The Contadora process has not worked because it is fundamentally an attempt to impose outsiders' solutions on Nicaragua; Mazatlan suffered the same flaw. We dictated the terms. They had to accept. The process ended.

This does not mean the United States can pull the plug on Nicaragua—the security of Central America is too important to let nature take its course. We can only bemoan our mistakes. We cannot go back and rewrite the history of our involvement or retroactively pursue a rational policy. We must now deal with today and the issue before us.

I do not know what the answer is. But I do know what it is not. It is not voting in favor of the proposal before us.

We must not kid ourselves; $300 million does not buy us economic health in Central America. From the beginning, my deepest disappointment has been that no one in the administration has a genuine interest in the economic recovery. As soon as the Kissinger Commission priced the recovery at $800 million, interest in solving the real problems in Central America evaporated. Instead of stepping up to the problem, we are approaching it piecemeal by taking money away from famine victims. We cannot get economic recovery on the cheap—it may cost $800 million or $8 billion but no political solution will work unless it is pursued against a backdrop of long-term commitment of the resources for economic stability in the region.

What will $70 million in military aid buy for United States?

We do not know the answer to that. I do not even have the intelligence reports from the administration to make a good stab at answering that question. We are struggling with it in the Intelligence Committee trying to figure out what our rule is going to be in spending $70 million. I cannot get intelligence reports from this administration to make a good stab at answering this quesiton. You all expect me or us on the Committee to represent your interests in some way or those of your constituents in this process.

We never have had realistic assessments of the situation in Nicaragua because we do not have the sources.

We have never had balanced, unbiased reporting a President of the United States desperately needs to make policy decisions, the kind that we would like to have so we know what effect what we are doing or the alternatives might have on the outcome. What is the reality?

Most people are out here required to go to Chris Dickey or Shirley Christian or some other more recent chronology of the events to get intelligence estimates. I do not believe, Mr. President, that the policymakers in this administration really know what is going on. I do not say that as pejorative of their intelligence. It is just that they do not have the facts. They assign the intelligence function in the freedom fighting operations to the same people they assign the success of the tactical operations to. How do they expect to get the kind of intelligent intelligence when the people that have the success of this tactical operation are also the ones that are supposed to tell the President what is really going on?

Where are the objectives defined for the $70 million? What are we going to spend it on and why? Is it going for training and tactical support as well as weapons? Fine—but what purpose are the training, tactics, and weapons going to serve once the FDN crosses the Rio Coco? Are they going to take Managua? Fine—because you had better do what several others have done, and one of our colleagues, DAVE MCCURDY over in the House side speaks pretty good Spanish. You had better ask for a show of hands in the first Contra battalion or FDN battalion you can find to see how many of these farmers have ever been to Managua. It is the sad truth, Mr. President. Almost none of these poor campesinos have ever been in the western part of Nicaragua. They have never been to Leon, to Managua, to these cities that are at the heart of changing Nicaragua. But you better ask for a show of hands to see how many of those farmers have ever been to Managua to say nothing of Leon.

We are lead to understand that the United States plans to provide $100 million in humanitarian and military aid to the armed resistance focused on the FDN with the expectation that the resistance will provide the UNO—the political branch, the united Nicaraguan opposition—with sufficient leverage to force the Sandinistas to negotiate and if the Sandinistas refuse, provide momentum for their removal by force of arms. How vulnerable are the Sandinistas to this military pressure, how capable is the FDN of applying that pressure, and how likely is it that the FDN can become a rallying point for the population at large? I cannot get answers to these questions from the intelligence community. Here are the answers from other sources:

I am told that the Nicaraguan military at all levels is confident and shows no sign whatsoever of even a minimal need for security measures to protect themselves or thier installations from the population or the FDN:

I am told that there is only token guarding of the helicopter bases and that MI-8's are routinely parked along the roadsides in the north unguarded.

I am told the military camps in the north are lightly guarded, have no perimeter wire and unchallenged access can be achieved to ammo, POL, barracks, communications, and so forth.

I am told the BLI's on operations on the Rio Coco are unmolested and unconcerned about their own security.

I am told that one can travel alone night and day throughout the FDN triangle of control and not encounter a single roadblock, pass a single military checkpoint nor cross a single guarded bridge.

I am told there is virtually no evidence of FDN activity beyond the odd burned out vehicle or occasional story of an individual who has been killed.

I am told the military commander in the north has full knowledge of the numbers, general location, and intentions of the FDN in his region and generally let them "walk about" as they posed no threat, which they do not.

I am told that FDN ambushes when they occur are brief firefights or raids which resulted in few casualties to either side and had no military effect.

I am told the EPS are well trained, well equipped, confident, content, and not threatened by the FDN.

So if you wonder why there was no spring offensive, if you wonder why the helicopter gunships have not attacked and wiped out the Contras, the freedom fighters, the FDN, it is because they do not have to. They do not have to.

Does one conclude that the reality is that the FDN does not provide any military pressure whatsoever on the Sandinista government? Is the government apparently not concerned that the FDN is likely to become a threat in the future?

And what about the FDN? Are they likely to become a threat?

I am told that they and their dependents are better fed, better clothed, wear uniforms with insignia, and have quality boots and web gear.

I am told that there is no shortage of small arms or ammunition.

I am told that there are medical facilities for both troops and civilians.

I am told that morale is high and motivation is great to join the FDN.

However, I am told that the FDN are 99 percent Campesinos who come from the region just south of the Rio Coco. Campesinos' standard of living is mid-14th century—mud floors, beans and corn diet, mother, father, naked children, pigs and chickens all in cohabitation. The FDN provides the entrance to the promised land.

I am told that 99 percent of the FDN have never been out of Campe-

sino country. To them, the coastal plain is France and Managua is Paris.

I read that the FDN leadership has transitioned into a Pancho Villa mode with gold-plated 44 magnums, horses and giant flags in troops review, spit and polish, calisthenics and close order drill.

I am told that 14 sons of middle class emigres flew to Honduras to volunteer 3 weeks ago and were turned down as not fitting into the image of the peasant army.

I am told that even the old hands lack the most rudimentary understanding of ambush, logistics, fire and maneuver demolition, and so forth. That they themselves describe their tactics as "wait by the road, empty the magazines and run away."

I am told that there are 30,000 FDN in Honduras, 4,000 on the Rio Coco and 1,000 walking around in Nicaragua. When the troops go back into Nicaragua, they do so primarily to deliver food and visit their families. They start out as a unit and melt away. Reforming only for an ambush or raid.

I am told that the penetration south to the Rama Road achieved nothing.

I am told that the FDN are courageous but totally ineffective because they lack imagination and motivation and are undisciplined. They have no political objectives or will to win. It is inconceivable that a guerrilla organization uses lack of outside materiel support as an excuse for not accomplishing anything whatsoever. Every other guerrilla band with which I am familiar is self-sustaining.

I am told that Bermudez closed the FDN human rights office on Tuesday and refused to pay the $65,000 in salary owed the employees.

I am told that internal factions are forming around competition for a "piece" of the $100 million.

If the reality is that the Sandinistas are extremely vulnerable to military pressure then the FDN's failure to take any advantage of the opportunity tells us all something about what to expect from them in the future.

It appears to me that they are content with operating in Campesino territory—lack the fundamental capability to progress beyond a second-rate infantry organization and are led by individuals who are self-serving, militarily cautious if not incompetent and are not politically oriented toward any objective.

And, therefore, it appears to me the result of the $100 million will be a better trained, better equipped, second-rate infantry organization which will continue to operate in Campesino country with higher casualties to themselves, civilians and the EPS but the EPS will contain them. This fighting will be irrelevant and bring no pressure on the Nicaraguan Government which will continue to operate freely within their enclave on the coastal plain.

This tells me the formulation which this administration uses to justify $100 million in aid is wrong.

I may lack Cassandra's power to read the future, but anyone with common sense can see that we are making a serious mistake in voting for this commitment to a military solution without even the slightest knowledge or confidence in the objectives or ultimate outcome.

Mr. President, I see the Senator from Massachusetts and the Senator from Vermont on the floor. If they are going to speak, let me express my appreciation to the Senator from Arkansas for permitting me this time. I hope perhaps in the next day or so I might have time to finish this.

Mr. KENNEDY. Mr. President, I am just wondering whether the Senator from Minnesota would answer a very brief question.

Mr. DURENBERGER. I would be glad to.

The PRESIDING OFFICER. Who yields time?

Mr. KENNEDY. Mr. President, may I have recognition? May I have 15 minutes?

Mr. BUMPERS. Mr. President, I yield to the Senator from Massachusetts such time as he may use not to exceed 15 minutes.

The PRESIDING OFFICER. The Senator from Massachusetts has 15 minutes.

Mr. KENNEDY. I listened with great interest to the comments of the Senator from Minnesota. I think all of us in this body know his work on the Intelligence Committee.

I was just interested in whether he intended, over the course of the debate and discussion, to address the kind of limitation of restrictions on various intelligence activities, and if he is prepared to provide some guidance to this body on that issue given the fact that many of these restrictions are at the point of exploration, or can they be refuted?

Mr. DURENBERGER. Mr. President, let me say to my colleague that I am prepared within the parameters of some of the prohibitions involved in the committee to respond to specifics. I think in the general though—and I may talk to the Senator from Georgia about this—it probably is appropriate to respond to the Senator from Massachusetts by saying yes, the intelligence subcommittee is concerned about the parameters in which intelligence information and other information is available to Members of this body through the intelligence committees. And if it were possible to get a few minutes on tomorrow, I might take a little time to explain to my colleagues just what the oversight process is all about without again getting into all of the specifics to illustrate the difficulty that the Senator from Massachusetts, and all who are not the committee to say nothing of the difficulty that we have in providing some responsible oversight for the conduct of this kind of an operation.

□ 1840

Mr. KENNEDY. I appreciate the statement of the Senator. I do think one of the issues which will be addressed in the course of this debate will be just that. It does address an area which I think is of enormous importance.

When some of us think back to recent times, such as mining harbors, I think very few if any in this body were actually aware of the dimensions or scope of those activities, and not only with regard to Nicaragua but it had serious implications in terms of other countries around the world.

I appreciate the opportunity to have the Senator develop this. I know the Senator from Vermont and the Senator from Minnesota have been working on these issues as well as other of our colleagues. I hope we will have a chance to address that particular question because I think it is one of the most important parts of this discussion.

Mr. President, 22 years ago, on August 7, 1964, the U.S. Congress approved the most ill-advised piece of legislation in modern history—the Gulf of Tonkin resolution. I wonder what that vote would be today, knowing what that vote meant 22 years ago. First it was money, then it was advisors, then it was U.S. combat troops. It ended costing $156 billion, 58,000 U.S. men and women's lives and 153,000 American casualties. That resolution produced a divided country at home and a communist government in Vietnam. It all began for the purpose of keeping up the pressure.

Now, 22 years later, the Senate is again being asked to give carte blanche to an undefined, ill-advised Presidential request to send more money and more arms, all in the name of "keeping up the pressure." No combat troops, no U.S. casualties. None of that yet. But this action takes us down that road.

It is inevitable—but also instructional—that parallels are drawn between our experience in Vietnam 20 years ago and what is happening today in Nicaragua. There are obvious differences, but there are also important similarities that should at least cause us to pause before plunging ahead into a national commitment that the American people may not want and, if given the chance, might not choose.

As I look back at the history of our involvement in Vietnam, I see the following parallels to our experience today in Nicaragua:

First, in Vietnam we supported a government that did not share our most fundamental ideals and that could not capture either the minds or the hearts of the Vietnamese people. In Nicaragua, we are in an alliance with individuals who represent the worst in Nicaraguan history and who do not share our commitment to democratic values or human rights. We know that Contra troops have been guilty of enormous atrocities, and we now suspect that their leaders are also guilty of drug-dealing, gunrunning and corruption. These people are not partners the American people will support over time. More importantly, the Contras, have demonstrated no capacity to rally the people of Nicaragua to their cause.

Second, solemn Presidential pledges on Vietnam that American "boys" will not be sent to fight a war that the Vietnamese should be fighting were broken and U.S. involvement increased. It soon became clear that the Vietnamese could not do the job alone, and that American troops would be needed for the policy to have any hope of success. First, came military assistance. Then, came military advisers. Finally, came U.S. combat troops. That same progression is now beginning with respect to our involvement in Nicaragua. We have been providing military assistance to the Contras. We have also had military and CIA advisers in Honduras, working with the Contras. That involvement and those advisers will increase if we now provide them with an additional $100 million that President Reagan has requested for the Contras. It is already clear that the President's policy cannot succeed without the use of U.S. combat troops. The syndrome of the quagmire—slowly but surely sucking us deeper into an endless military conflict that we cannot escape—applies to Nicaragua as much as it did to Vietnam.

Third, the initial publicly-stated purpose of the policy in Vietnam was to apply pressure to force the Viet Cong and the North Vietnamese to the negotiating table. The logic then was that U.S. military pressure would increase so long as the other side refused to negotiate. That same argument and the same logic are at work here. The ostensible purpose of our aid to the Contras is to pressure the Sandinistas to negotiate with their internal opponents. But in Nicaragua, as was the case in Vietnam 20 years ago, the true objective is to achieve a military victory, an objective that cannot be achieved without the use of U.S. troops.

Fourth, during the early years of the Vietnam conflict, the American public—and the Congress—were deceived about the administration's real plans, about the extent of our involvement, the scope of U.S. military activities in Laos and Cambodia, and the reasonable prospects for success as determined by our Nation's top military and intelligence officials. That same atmosphere of deception and distrust already pervades the debate about Nicaragua—with good reason.

Although the Boland amendment adopted in 1982 specifically prohibited the United States from assisting in any effort to overthrow the government of Nicaragua, U.S. personnel in Washington and in Central America actively supported individuals and organizations whose only purpose was to overthrow the Sandinistas.

Although Congress in 1985 prohibited the United States from assisting "paramilitary forces" in Nicaragua, U.S. officials—in the White House and the intelligence community—continued to advise and assist the Contras;

Although Congress has a constitutional obligation to oversee the activities of our intelligence agencies, CIA officials reportedly instructed Contra representatives to deceive and mislead Members of Congress when lobbying on the Hill;

Although administration spokesmen continue to deny any plans to use U.S. troops to invade Nicaragua, U.S. troops have in fact conducted many rehearsals in Honduras for a possible invasion; and finally

Although the Pentagon steadfastly denies any plan for a permanent U.S. military presence in Honduras, its activities belie those denials. We have built airstrips, roads, barracks and motor pools in Honduras, and the infrastructure is now available for a long-term U.S. military presence.

Such deception is the inevitable product of a policy that does not have the support of Congress or the American people. The mistrust and suspicion that grew out of Vietnam—between Congress and the President, between the American people and their elected leaders—poisoned the politics of this country for nearly two decades. Not since the Depression has there been such a serious attack on the political and governmental institutions of the United States as there was during the war in Vietnam. The price that we paid for Vietnam in terms of loss of faith and confidence in our most precious institutions and the democratic process damaged the Nation nearly as much as the price we paid in lives lost and dollars spent. We must not let that happen again.

Fifth, as United States involvement increased in Vietnam and the policy became increasingly controversial, the stakes in the struggle were escalated out of all proportion, as was the rhetoric used to justify the policy. Initially, we were said to be in Vietnam as part of a nation-building enterprise, to help the South Vietnamese government eliminate the Viet Cong Communist insurgency. Next, we were there to defend South Vietnam against invasion by the north, to stop the spread of Communism throughout all of Southeast Asia, to halt Chinese expansionism. If we did not prevail in South Vietnam, the dominoes would fall and all of Southeast Asia would be lost. Finally, we were told that the entire Pacific was at risk, and that the United States could be driven back to Pearl Harbor as our line of first defense.

That same dynamic is already at work here. We are told today that, if the Contras are not successful in Nicaragua, all of Central America will be lost, Mexico will fall, and the shore of California will be lapped by a sea of red. We have seen escalation of the rhetoric before, and it is a necessary precondition for the use of U.S. troops.

Finally, in Vietnam, as the policy became increasingly controversial and as the domestic debate intensified, the defenders of the policy resorted to attacks on the patriotism and personal courage of the policy's critics. Those Americans who opposed the war in Vietnam were criticized as un-American, soft on Communism, neverous nellies, neoisolationists, and those young people who sought to avoid serving in what they regarded to be an immoral and unjust war were accused of being cowards and traitors. That was the climate that gave rise to the bumper sticker: "America. Love it or Leave it."

Today, that same flavor has already been creeping into the debate about United States policy toward Nicaragua. Those of us who have been critical of this administration's policies have been labeled "spokesmen for the Sandinistas" and "servants of Sandinista interests." Whenever anyone brings to light evidence of another Contra human rights abuse, or of Contra leaders being involved in corrupt or illegal activities, the critic is accused of being a Sandinista pawn or, an outlet for Sandinista disinformation.

We have seen it all before, and it is time to call a halt. Aid to the Contras is the first step toward a Vietnam in Nicaragua, and it is a step that America should not take. We lost the war in Vietnam, and the right wing is wrong to fight it in Central America.

President Reagan knows that the Contras cannot topple the Sandinistas. He knows that $100 million cannot bring peace to the region. He knows that he will be coming back next year for more funds, more advisers and deeper U.S. involvement. And I suspect he knows that his policy toward Nicaragua, to be successful, will require United States troops in Nicaragua.

Make no mistake about it. President Reagan will not rest until the Sandinistas are driven from power. One

moment he claims his policy is simply to interdict the flow of arms to El Salvador; the next moment, he says his real purpose is to pressure the Sandinistas into reforms. But the truth is that he will not stop until the Sandinistas cry uncle. That won't happen without United States troops and United States deaths in Nicaragua.

The President's policy has been an utter failure by any measure. The Contras have neither the popular support, the power, nor the ability to oust the Sandinistas. President Reagan has presented no military strategy, no timetables, and no estimates of casualties. In fact, no plan at all accompanies the President's request for $100 million.

The real issue we are debating today is not whether to keep up the pressure—it is, in fact, a vote to overthrow the Sandinista regime, something that cannot be done without U.S. troops.

A vote to send this military aid to the Contras is more than sheer folly; it is a dangerous vote; it will only lead to more death, more repression and more turmoil in the region.

□ 1850

Mr. President, may I have 7 more minutes?

Mr. LEAHY. A parliamentary inquiry: How much time does the Senator from Vermont have, Mr. President?

The PRESIDING OFFICER. The Senator from Vermont has 2 hours.

Mr. LEAHY. I yield such time as the Senator from Massachusetts needs.

Mr. KENNEDY. I thank the Senator from Vermont.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. In the 5 years since President Reagan endorsed the CIA's plan to overthrow the Nicaraguan Government, the Sandinistas have moved farther and farther away from the goal we all hope for—a democratic, free, and just Nicaragua. If there is any consensus to be found in the Senate today, it is that the Sandinistas have fallen short of their pledge to build an open, tolerant, pluralistic, democratic society in Nicaragua. They have violated the human rights of thousands of Indians inside Nicaragua. They have aligned themselves with the enemies of freedom throughout the world. They have made their country a host to sponsors of international terrorism—the Libyans, the Bulgarians, the PLO. They have established mechanisms of social control and political oppression, and they have supported the guerrillas in El Salvador. They have closed down the free press, and they have persecuted their critics in the Catholic Church.

This has been the real product of our pressure: More repression and more reliance on the enemies of freedom. Five years of U.S. pressure has not moved the Sandinistas toward democracy. And 5 more years of the same will be no different. We can only expect more death, more polarization, more repression and less and less democracy inside Nicaragua.

The logic that drew us into Vietnam is already at work here. This policy has no hope of success without sending United States combat troops to Nicaragua. As the commander of United States forces in Central America, General Paul F. Gorman, has stated, the Nicaraguan rebels are incapable of overthrowing the Sandinista government "in the foreseeable future," and it will take "years" before any Contra pressure can be expected to produce any significant change in the Nicaraguan Government. One hundred million to the Contras will not bring peace to Central America. It will only sustain an ill-fated misdirected policy which only push the region farther from peace and democracy.

Putting aside, for a moment, the fact that the administration's policies have failed and cannot be expected to work without U.S. troops, even with $100 million more, there are other compelling reasons to oppose this request.

For one thing, this policy and this appropriation are illegal. It is not, as President Reagan has so often stated, "totally consistent with the OAS and U.N. charters". United States military support for the Contras is in blatant violation of international law.

Article 2(4) of the charter of the United Nations prohibits the threat or use of force against the territorial integrity or political independence of any state, and article 18 of the charter of the Organization of American States says that, "no state * * * has the right to intervene, directly or indirectly, for any reason whatever, in the internal or external affairs of any other state." The United States is a party to these agreements and a decent respect for international law requires us to honor them. We have even breached our treaty obligations of the International Court of Justice. Rather than defend his policies in the World Court, President Reagan withdrew the United States from the Court's jurisdiction and made a mockery of our Nation's tradition of support for international law.

Our rejection of the World Court places us among the outlaw nations that show no respect for international law. The shameful decision to obey the Court only when it is in our own interests will haunt us for years to come. The next time we use the World Court to attempt to reign in another outlaw state—such as Iran—we will regret our actions regarding Nicaragua.

In fact, the administration has also violated U.S. laws. Despite a ban of U.S. aid—direct or indirect—to the Contras in 1984, National Security Council officials provided the Contras political advice, help with arms purchases, fundraising and the enlistment of military trainees.

The United States Government has also skirted the law prohibiting permanent installations in Honduras. It has avoided mandatory spending caps in that region by breaking up construction projects into smaller units, such as directing one continuous road-building project into a series of separate projects.

Second, support for the Contras has actually been counterproductive. It has helped the Sandinistas to consolidate support among the Nicaraguan people by identifying their revolution with Nicaraguan nationalism. It has inspired a wave of anti-Americanism in that country and throughout the hemisphere. It has provided the Sandinistas a convenient justification for the failure of their economic reforms and with a handy excuse to close down la Prensa and expel the nation's church leaders.

Third, while we deplore the misdeeds of the Sandinistas, their abuses do not justify the abuses of the U.S. backed Contras. We have heard pious pledges that the Contras' human rights abuses would cease, but that has not happened. Numerous, credible reports continue of outrages by the Contras.

Fourth, U.S. taxpayers dollars are being diverted. The money is not being spent for the intended purposes. The $27 million in humanitarian aid approved by Congress last year ended up in Contra broker's pockets and offshore banks. What money did get through has certainly not been used to promote a respect for personal life and liberty among the Contras. The Contras have continued planting landmines in roads traveled by civilians, kidnaping, raping, maiming—and the administration continues to deny such abuses occur.

Fifth, the current policy is leading to increased and direct involvement in the conflict of U.S. personnel. The United States now has a permanent military presence of over 1,000 soldiers stationed in Honduras. We have built airstrips, roads, barracks, and radar stations. After maneuvers we conveniently leave behind helicopters, weapons, and equipment.

Last March, United States helicopters and pilots were used to fly Honduran troops to an area near the Nicaraguan border where a reported conflict was occurring. If this current policy continues, we can expect more U.S. troops entering the fields of battle.

Sixth, the countries of Latin America do not support Reagan's aid to the Contras.

Last January, I visited each of the four nations that make up the Contadora Support Group—Argentina,

Brazil, Peru, and Uruguay. Each of the leaders of those nations expressed dismay that U.S. policy was prolonging the civil war and enabling the Sandinistas to create a totalitarian state.

The Contadora nations—with the support of 13 Latin American countries—have repeatedly called for an end to U.S. support for the Contras and a negotiated solution in the region.

This administration has never supported Contadora. It refused to support Contadora because the process is not aimed at the goal this administration has pursued relentlessly over 5 years—to overthrow the Sandinista government. We all recognize the difficulties of reaching an acceptable agreement. We all recognize the need to assure verification of any arms agreement and any guarantees of internal reforms. But those are all issues which can be resolved—but not while the administration refuses to put its full weight and support behind the process.

I urge the Senate to give negotiations a fair chance.

Finally, the people of the United States are not behind President Reagan and his so called freedom fighters. The most recent Harris poll shows that a decisive 62 to 33 percent of the American people oppose sending $100 million to the Contras; 54 to 39 percent oppose even just humanitarian aid. And a staggering 83 to 16 percent are concerned about the prospect that United States troops will be sent to fight in Nicaragua.

After 5 years of failed policy, it is time to change course. The United States must remain committed to the restoration of democracy in Nicaragua. But it is time we realized the Contras will never achieve that goal. Conceivably, we could work over the next few years to purge them of their Somoza ties and of their human rights abuses—but no amount of American aid can buy popular support for the Contras. No matter how harsh the administration's rhetoric, the Contras do not now have and will probably never have, the true support of the Nicaraguan people.

Unless we deny military aid, there will be no chance for a peaceful end to the cirsis. It is time for the United States to halt support for the Contras—and start negotiating with Nicaragua and the other nations of Latin America for an end to the violence.

Last March 5, a group of leading Nicaraguan businessmen issued a strong denunciation of the Sandinista government saying they feared for their lives and liberty. They called on democratic governments to "act vigorously to defend and protect our existence, before you have to lament a sin of omission." But no one listened.

Last February, a coalition of six democratic parties inside Nicaragua joined together in signing a significant peace proposal to the Nicaraguan Government. It called for a cease-fire, general amnesty for political crimes, abolition of the state of emergency, reestablishment of citizen's rights and guarantees, signing of agreements among the political parties for general elections, calls for fufillment of international commitments in favor of Nicaragua's democratization and invites the regional organizations to support their proposal. But no one listened.

Thirteen Latin American nations—including Nicaragua—are working with the Contadora framework to reach an end to the crisis. Their most recent proposal called for an end to support for the Contras, a removal of all foreign military advisers and installations from the region, a freeze on the procurement of armaments and respect for self-determination, territorial integrity, political pluralism and human rights. But the administration is not listening.

I welcome the appointment of Ambassador Habib as a special envoy to the region. But his hands are tied as long as the United States maintains its surrogate war on Nicaragua. It is possible to achieve a comprehensive and verifiable Contadora agreement—but not as long as the United States continues to undercut the process.

We should be providing our full support—diplomatic, economic, and political—to these efforts. We should be meeting with them and encouraging other nations to meet with them. The Contras will never topple the Sandinistas, but the people of Nicaragua—the true democratic opposition—just might.

Unless the administration—and the U.S. Congress—reverses course, we will revisit this issue each year, and each year, the administration will be back asking for increasing U.S. involvement. I urge my colleagues to vote for a change in U.S. policy in Central America—before it is too late.

□ 1900

Mr. LUGAR and Mr. LEAHY addressed the Chair.

Mr. KENNEDY. I thank the Senator from Vermont.

The PRESIDING OFFICER (Mr. STEVENS). The Senator from Indiana.

Mr. LUGAR. Mr. President, I yield myself such time as I may require.

Mr. LEAHY. Mr. President, parliamentary inquiry. Was not the Senator from Massachusetts speaking on my time?

The PRESIDING OFFICER. The Chair does not know what the arrangements have been. I have just taken over the Chair.

Mr. MATTINGLY. I say, Mr. President, that he was yielded time from the——

Mr. KENNEDY. From the Senator from Vermont.

Mr. LEAHY. I have 2 hours and I yielded from my time.

Mr. MATTINGLY. Yes, by Senator Kennedy was yielded time from the opponents, I believe.

Mr. KENNEDY. No. No. Mr. President——

Mr. LEAHY. Yielded from my time.

Mr. KENNEDY. Mr. President, I was yielded time, which I used completely, from the Senator from Arkansas as the floor manager. I had run out of time. The Senator from Vermont, who is making inquiry, was entitled to 2 hours of time. He was good enough prior to beginning his address to yield me such time as not to exceed 7 minutes I think.

The PRESIDING OFFICER. The Parliamentarian advises that the Senator from Vermont controls 2 hours of time and yielded a portion of that time to the Senator from Massachusetts but that did not constitute recognition of the Senator from Vermont. The Senator from Indiana also controls time. He sought recognition and was recognized.

Mr. LEAHY. I thank the Chair.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. LUGAR. I thank the Chair.

Mr. President, the Foreign Relations Committee has sought from the beginning of the 99th Congress, in a series of well-attended and well-reported hearings reviewing the overall direction of American foreign policy, to try to fashion a sense of bipartisanship in American foreign policy. I believe to a great extent we established a strong leadership, a bipartisanship in a large majority of tough foreign policy issues.

We passed the first foreign aid bill in 4 years with 75 votes on the Senate floor. We reasserted the committee's policy making powers by shaping and approving a number of funding authorization bills. We are monitoring closely the work of U.S. arms control efforts in Geneva in preparation for managing hopefully the ratification of a treaty on the Senate floor. We believe that we have worked successfully with President Reagan to bring constructive change to American foreign policy in South Africa and in the Philippines.

We have not achieved, however, the bipartisan success that we must have if we are to be successful in our foreign policy toward Nicaragua. We truly need to do better.

I believe there is a way to build the necessary consensus in Congress in due course and with the President to bring democracy to Nicaragua. This would further the democratic gains already achieved in El Salvador, Guatemala, Honduras, and Costa Rica, and enhance prosperity in all of Central America.

The Nicaraguan debate currently languishes in the Congress, although it has been revived with a vengeance this week, given the parliamentary situation that we have, and hopefully will reach conclusion when we vote on Wednesday or Thursday of this week. In the meanwhile the debate has gone back and forth between both Houses and the White House as we attempt to agree as Americans on what objectives are attainable and on the means we have and the willingness to obtain those objectives.

On March 27, we passed legislation on the Senate floor that authorized $100 million of military and humanitarian aid over 18 months of time to the forces fighting the Sandinista regime in Nicaragua. The $70 million of military assistance would not be available until attempts to bring the Contras and the Sandinistas to the negotiating table had failed. Having taken on such negotiations, all reasonable prospects of success had ended. The Senate bill provided a time limit of roughly 100 days for the negotiating track to succeed. The House of Representatives did not take definitive action at that time. It subsequently, of course, has taken definitive action and the legislation the House passed is before us. And as my distinguished colleague, the Senator from Georgia, pointed out this afternoon, we are hopeful of passing it in identical form so that once again we are not back and forth between the House and the Senate with another interminable delay of this necessary action.

The Senate legislation passed by a vote of 53-47 with 11 Republicans voting "no" and 11 Democrats voting "yes." A degree of bipartisanship was apparent, but I—and I suspect many other Senators—had hoped for a much broader consensus. I believe that many Democratic Senators along with Republicans shared that aspiration. Lengthy negotiations with Senate Democratic Leader ROBERT BYRD of West Virginia and Senator JAMES SASSER of Tennessee, who has been managing this legislation today, encouraged Majority Leader ROBERT DOLE and me to believe that over two-thirds of the Senate might be prepared to adopt a strong consensus policy. I hope that this will be the case in subsequent votes.

A growing problem for such consensus building is that Senators have been casting votes on the Nicaraguan issue for several years, in addition to earlier votes on El Salvador policies. Many Senators have been voting "no" for so long that it is very difficult for them to rationalize, and to explain to constituents, that they are now in favor of policies which involve risks and expenses in Central America.

Furthermore, the safest political course for any legislator has been to note that a majority of the American people are not aware of the contending parties in Central America, and want only to make certain that American military forces are not committed there. Every poll shows, by substantial majorities, American voters oppose military and even economic assistance to friendly forces anywhere in Latin America.

At the same time, however, American citizens and most of their legislators are unified on the proposition that neither Nicaragua nor any other Central American country should become a military base for the Soviet Union, a second Cuba in our hemisphere.

It is ironic that a few Senators who regard Contra aid as provocative and militaristic have no trouble saying they would advocate something far more drastic such as the use of American troops in certain cases. Yet, those who argue that the Contras have acted as a "spur" for the Nicaraguan Government to invite the intervention of the Soviets and their bloc allies into the country simply do not know their chronologies. Events in Nicaragua have unfolded according to a logic of their own. American policy tried to stake out its goals under the Carter administration, but could not compel the Sandinistas to forget their ideological commitments just because we were willing to forget ours.

In earlier years, the administration argued for Contra aid to interdict supplies coming out of Nicaragua to insurgent guerrilla forces battling the democratic government of El Salvador and Guatemala. This year, the administration's objective does appear to be clearly, a change of government in Nicaragua. Assistance to the Contras, the administration argues, will force the Marxist Sandinistas to negotiate the terms of a new constitution, and then agree to free and fair elections for a government which has the democratic consent of the governed.

Our country has been confused about our objectives and our prospects for success. Sharp divisions in the Congress reflect that public mood.

For too long, the United States took the path of least resistance in its Central American policies. This meant regarding as normal and acceptable, without comment or criticism, governments which had come to power by irregular means, ruled without reference to law or human rights, and which denied large segments of the community an opportunity to participate in both public life and the rewards of economic activity. The United States followed this unfortunate policy under the guise of anti-communism.

This was certainly the case for many years in Nicaragua. But one has to ask whether the way to make up for this record is to begin to practice non-intervention now, so that the Sandinistas, like Somoza, can benefit from a new era of American complicity. If we owe a debt to the Nicaraguan people, we should pay it in the currency of our own discomfort, not theirs.

The Nicaraguans have a long historical memory. So do their neighbors. It is the role of the United States in the past, rather than the present, which dominates the minds of Sandinistas, and to a very great degree, other Latin American countries. The Sandinistas broadcast rumors of imminent invasion daily. Other Central and South American nations that have no affinity for the Marxists in Nicaragua are nonetheless extremely sensitive to the possibility, however remote, of American military intervention. The presidents of the new South American democracies in Argentina, Uruguay, and Brazil have expressed to me their opposition to American military intervention and the severe political reactions within their countries that such American action would incite.

In due course, the United States opposed the Somoza regime, but many American liberals and church people who have taken a strong interest in Nicaragua believe that the Contras are composed of Somoza remnants who are eager to establish another repressive rightwing regime.

Furthermore, the liberals believe that the poorest people in Nicaragua are now receiving some long delayed attention. This notwithstanding, an estimated 500,000 Nicaraguans, not oligarchs but primarily Miskito Indians, farmers, and shopkeepers, have fled from the country. The less than 3 million who remain are growing poorer still.

Liberal humanitarians argue that continued U.S. pressure through aid to the Contras ensures a continuing decline in standard of living and continued abnormal allocation of scarce economic resources to a large Nicaraguan military establishment. Yet, the Nicaraguan Army is apparently larger than those of all its neighbors combined; and let the record show, it was organized and grew during the period in which the United States aided the Sandinistas. It continues to buy or borrow offensive and defensive Soviet bloc and Cuban arms.

Leaving aside, for the moment, any deficiencies in the specifics of the policy argued by President Reagan and a majority of Senators, the only other rival congressional policy is one which provides for a defensive quarantine of Nicaragua. The assumptions of this containment policy are that surrounding countries would be assisted in defending their borders, and that Nicaragua should assume a massive direct strike of American forces if the Sandinistas tried to base Soviet troops or offensive aircraft and submarines.

In the meanwhile, the Sandinistas would be left to stew in their misery with human rights suspended for ordinary people. This policy assumes disastrous internal experiences and pressure from Central American neighbors would lead toward Nicaraguan democratization and a rejoining of the family of democracies.

Some variations of this quarantine policy assume continued United States food and clothing appropriations for an estimated 15,000 Nicaraguan freedom fighters who now reside outside Nicaragua. Other variations simply leave the Contras to do the best they can without any further American Government ties.

This rival policy argument presumes that the Cubans and the Soviets would leave things alone. However, the reasons for any automatic Soviet laissez faire are not apparent. Even in the midst of difficult domestic times, the Soviets continue to subsidize Cuba at an annual cost of approximately $3 billion to $4 billion. For projects which cause anxiety for us, less than 2 hours flight time from our borders, Soviet support has been enthusiastic and generous to a fault.

Many supporters of the quarantine policy are not deeply wedded to the concept. After I returned from the Philippines with the American election observer group, and even more after Mrs. Aquino assumed power in the Philippines, the cry went up, "Let's have Philippine success in Nicaragua."

□ 1920

At the time, I tried to point out potentially similar pathways. The administration indicated that my "free and fair election ideas," derived from recent adventures in Manila, were interesting, but not especially welcome as a distracting avenue of action. Secretary George Shultz offered calm but firm advice that the President had a bill on which he wanted an up or down vote in the Senate.

So with the strong help of Secretary Shultz, Adm. John Poindexter, Majority Leader BOB DOLE, and the President's personal phone calls, we ground out a 53–47 vote in the Senate to save the President's legislation a few days after it had been defeated 222–210 in the House, and was absolutely dead in the water. Unfortunately, the House leadership saw no need to act further for a while. With March 31 past, no more money of any kind is available to the Contras. That remains the case today.

I am still convinced that our objective in Nicaragua should be to build the circumstances which will make it possible, some day, to observe a democratic election preceded by the restoration of civil liberties; true freedom of the press to cover the candidates, issues, and procedures of the election; and freedom for candidates to roam the whole country without harassment and intimidation. Prior to that time, a constituent assembly or constitutional convention should be elected in similar open circumstances to draft a democratic constitution similar to those of Costa Rica, Guatemala, El Salvador, or Honduras.

This is the kind of policy goal the American people can understand and support. It was clear after the events in the Philippines that the American people were genuinely excited about how the United States had helped encourage the resurgence of democracy in a troubled nation. After the strong public disagreements over the Vietnam war and the frustrations over Iran, the American people saw in our strong support for democracy in the Philippines a foreign policy that made them proud.

We must have equal pride in the idealism of our Nicaraguan policy. We want the Soviets, the Cubans, the East Germans, the Bulgarians, and their ilk to get out of Nicaragua and to stay out for our own valid national security reasons.

We also want a new government in Nicaragua that cherishes freedom, and that builds democratic institutions. We want to assist only those Nicaraguans who share our idealism, and our pride in a foreign policy that can be sustained through many years.

A democratic Nicaragua will not be a threat to its neighbors or a security threat in our hemisphere. A democratic Nicaragua would finally make it possible for economic progress to resume in all of Central America. Without threats of continued civil wars, the United States could initiate the second major facet of the Central American policy: the generous economic assistance to friends who are close neighbors and whose remarkable democratic achievements in the past 5 years alone merit our enthusiastic political and economic support.

Parenthetically, let me comment that we must adopt that second stage of economic assistance policy toward the Philippines in a timely and generous manner now. That democracy is a triumph for the Filipino people and for us. Both countries have won a major foreign policy victory. We must consolidate that gain.

All of the things which a democratic Nicaragua will accomplish need to be balanced against what will happen without it. To quote President Oscar Arias of Costa Rica, "There will never be peace in Central America as long as there is a Marxist regime in Nicaragua with the characteristics of the nine commandantes." This means that if there is no democratic Nicaragua, every other Central American democracy will feel the need to be more heavily armed and militarized than would otherwise be the case. A quarantine or the containment of a Marxist Nicaragua, therefore, is a far less simple solution for the other Central American democracies than the many advocates of that policy claim.

The steps we must take to set up the final stage of free and fair elections for a democratic Nicaragua are a balanced combination of diplomatic and military elements.

Even while we have been debating Central American issues in the Congress, extraordinarily talented and courageous presidents have been elected in four neighboring countries. Vinicio Cerezo, the new President of Guatemala, is determined to push for a Central American parliament. Oscar Arias, the new President of Costa Rica, is determined to press for democratic elections of all members of that Parliament, including those to be elected in Nicaragua. President Duarte in El Salvador and President Azcona in Honduras are equally eager to press for a democratization timetable in Nicaragua, in addition to sound verification procedures to monitor the reduction of Nicaraguan military forces and withdrawal of all foreign military elements.

These four Presidents have kept the United States informed of their plans and aspirations. We have been well represented in that planning by Assistant Secretary of State Elliott Abrams and special Ambassador Phil Habib, who had barely finished his own diplomatic observation in the Philippines when he was called by President Reagan to proceed to Central America.

On the day that President Arias was inaugurated in Costa Rica, I sat with Presidents Cerezo, Azcona, Durarte, and Febres Cordero of Ecuador, Vice President Bush and Phil Habib around a breakfast table in San Jose. The conversation on our mutual objectives was direct and constructive. Later, I visited with President Arias and his wife at their residence. I believe that I have a good understanding of what each wants to achieve.

If Nicaragua poses a security problem for the United States, the Sandinistas pose a more immediate and dangerous threat to Central American democracies. The democracies need peace to undertake desperately needed economic growth measures. They need security from insurgent guerrilla attacks.

The romance of revolutionaries attacking rightwing authoritarian governments is over. It is perverse nonsense when the governments are headed by distinguished democrats such as Duarte, Cerezo, Arias, and Azcona. They and not the Marxists are the ones legitimately fighting for religious and civil liberties, land reform, judicial reform, and economies which will merit new investment capital. The four have told President

Daniel Ortega of Nicaragua, face to face, that a Marxist totalitarian government at the throat of Central America will not do. The Central American Presidents have delivered that message in forceful and extended conversations.

There is no point in underestimating the task before us and our Central American allies. Marxist governments typically do not permit themselves to be voted out of office in free elections. They abolish civil rights, curtail a free press, harass religious expression, build ridiculously outsized armed forces, and deliberately subvert their neighbors. The Sandinistas themselves have coined the phrase "revolution without frontiers."

Unfortunately, every successive internal change in Nicaragua since 1979 has narrowed the space for political pluralism and dialog. This was emphatically the case even during the 18 months in which the Carter administration bent over backward to be helpful and comprehending. Today, of course, all measures are attributed to a supposedly imminent U.S. invasion, or to our assistance to the armed opposition.

Before Phil Habib took his first trip to Central America in the early spring of this year, he told me and others that he could not negotiate a successful formula for the future of Central America unless the Congress voted military assistance to the Contras. He still believes that, and so do I.

The Marxists in Nicaragua know that the Contras are a military threat. Given the fragile economic underpinnings of their regime, the Marxists face internal destabilization long before military defeat. They show no signs of embracing democracy and free and fair elections for the good of the people and the prosperity of their country. They must be compelled to face negotiations with the Contras and with neighboring states who insist upon democracy.

Let me underline the obvious, again. Military assistance to the Contras is the essential factor for any reasonable hope of successful negotiations.

The American people have been skeptical about the Contras. In addition to alleged ties with Somoza's national guard, public charges have been made that some Contra elements have engaged in drug dealing and other criminal activity. Secretary Abrams has been active in spurring Contra leadership reform. Senators NANCY KASSEBAUM, WARREN RUDMAN, SAM NUNN, and BILL COHEN were successful during Senate debate in demanding greater accountability by the Contras, and the unification of their efforts toward assurances of legal and democratic procedures.

If the Contras are not as strongly for democracy, for civil rights, and for legal procedure as we are, they will become irrelevant. The American people and the Central American democracies will not back any Nicaraguan freedom fighters who have any other agenda than a passion for democracy. The Contras need to know that. I am spelling it out clearly, again, today. I want to see much more evidence that the Contras can articulate loudly and clearly the Constitution that they want to cherish and for which they are willing to risk their lives with our assistance.

Even while Congress has debated these issues and while aid to the Contras has been cut off for the last 11 weeks, substantial progress has occurred in reform of the Contras, and in discussion by the Contadora countries, the support group, and Central American countries about the fate of Nicaragua.

The U.S. Government has taken the Senate legislation seriously. Phil Habib has been active and successful in bringing about new support for the U.S. positions.

Habib's success has, in fact, set off alarm bells among some Members of Congress and the administration sufficient to surface a Department of Defense publication entitled "Prospects for Containment of Nicaragua's Communist Government." The paper argues that a Contadora treaty might be signed soon that would be deficient in enforcement mechanisms against insurgency and military buildup, and which would leave Marxist Nicaragua unchanged internally despite all of the discussion of democratization.

The Defense Department report cites other treaties violated routinely by Marxist governments that should not have been trusted because they never intended to abide by any inconvenient treaty provisions. It estimates that in 3 years, with no Contras still available, the United States would be asked by Honduras and Costa Rica for assistance in containing the Nicaraguan menace. The upgrading of the military forces of friendly Central American countries would cost $1.5 billion. The estimated annual cost of U.S. containment forces would be $7.2 to $9.1 billion to quarantine Nicaragua.

□ 1930

Thus some Defense Department analysts began to argue that the Contadora process was getting out of hand and that Latin American countries, simply weary of the whole process might throw in all their cards, sign a document, and leave themselves and the United States open to an ongoing, expensive debacle.

Washington abounds with partisans who are convinced that diplomacy will not make it in Nicaragua. Many others are convinced that the Contras are unworthy of military support or incapable of effecting a successful military effort.

I contend that neither the Contadora process nor Phil Habib plus the Central American democratic presidents are likely to bring about free and fair elections in Nicaragua without military assistance to the Contras. And the Contras are unlikely to reach the bargaining table without very sophisticated alliances with the Central American countries and the most skillful of diplomatic efforts by Elliott Abrams, Phil Habib, and others.

Only a combination of diplomats, presidents, and Contras, has a high probability of getting the job done with a minimum of intervention by the United States in Latin American affairs, a very important requirement by Latins, and with a minimum of financial and military support commitments by the United States, a very important domestic political requirement.

I have congressional friends who want the Senate Foreign Relations Committee to investigate alleged drug dealing by the Contras. Others want to investigate Phil Habib for his alleged willingness to terminate aid to the Contras if a satisfactory Contadora treaty is signed.

Without demeaning any of these friendly suggestions, they are reminiscent of earlier demands on the Foreign Relations Committee. At that time, some wanted investigations of scandalous financial dealings by Ferdinand and Imelda Marcos. Others questioned whether U.S. Ambassador to the Philippines Stephen Bosworth, was so pro-opposition that President Marcos was being undercut even as Marcos claimed that he was trying to protect our bases against the Communist New Peoples Army.

My advice then and now is to keep all tracks clear for the main chance. The main chance is democracy through free and fair elections, freedom of speech, freedom of religion, freedom of the press, freedom to congregate and campaign, justice in the courts, and free enterprise. The United States must position itself for that chance just as we did in the Philippines.

I witnessed the November 3, 1985, presidential election in Guatemala. It was an election that could be replicated in Nicaragua with a few months of preparation. The heartbeat of Latin America is democracy, not Marxism. Every Latin yearns for the dignity of self-expression. That means the right to vote secretly and to know that the vote is correctly counted as a part of national decisionmaking for leadership and the proper democratic checks and balances on that leadership.

This belies the notion of many cynics of the right and the left that Central Americans are not "ready" for democracy, or that some sort of dictatorship, benevolent or well inten-

tioned, is preferable to the imperfections and difficulties of an open political system.

When Vice President BUSH, Ambassador Lou Tambs, Elliott Abrams, Phil Habib, and I marched behind the American flag into the San Jose soccer stadium for the Costa Rican Presidential inauguration, the stands erupted in a spontaneous demonstration for the United States of America. The applause continued for our 200-yard procession and was recorded by live television throughout Central America. By contrast, the Nicaraguan ambassador marching behind her flag was booed. That too was noted and recorded throughout Central America.

Outgoing President Monge and incoming President Arias both told me in separate conversations that people all over Costa Rica had watched on cable television the experiences of our election observer delegation in the Philippines, and my reports to the American people

They pointed out that Costa Ricans had come to a new appreciation of the willingness of the United States to support democracy, even against an authoritarian regime which claimed to be anti-Communist.

In that spirit, I count upon liberal friends in Congress who were enthusiastic about democracy in the Philippines to demonstrate a similar commitment for Nicaragua. We should demand of Managua nothing less than we did of Marcos.

Marcos with all his faults permitted lively opposition newspapers. Even in the highly flawed 1984 election, genuine opposition parties won 30 percent of the seats in the National Assembly, and the government faced a serious parliamentary opposition. The Catholic Church and its radio station, Veritas, were a major force rallying in democratic opinion. Marcos may have miscalculated monumentally, but he did call for a special election, and invited observers from the United States to validate his aniticipated landslide victory.

No such circumstances are presently available in Nicaragua. The opposition is fighting for its life. In the 1984 Nicaraguan elections, the major Presidential candidate of the opposition felt obliged to withdraw because of threats to his safety and that of his followers. The radio station of the Catholic Church has been silenced, and the principal daily, La Prensa, strongly censored, and finally closed. Ortega and Borge have suppressed civil liberties, and locked up and tortured more political prisoners than Marcos, whose country is 18 times as large as Nicaragua. Unlike Marcos, however, Ortega and Borge are unlikely to respond to any challenge which the United States raises to their democratic bona fides.

Those liberals who insist that it is naive or simply inappropriate to ask a Marxist government to open up its system are wrong. They are as wrong as those conservatives who argued only yesterday that a democratic system was a luxury which the Government of El Salvador, fighting for its life against Communist guerrillas, simply could not afford.

The American people do not support the idea of Americans engaged in war in Central America. The American people do support democracy. They should reasonably anticipate that this will require our support of Nicaraguans who are willing to fight for freedom and a democracy which they must define explicitly. It will also require support of diplomacy with democratic governments in Central and South America who want to assist negotiations now, and are willing to stand with us as guarantors of the new democratic order as it is established by Latin Americans for Latin Americans.

The United States of America has enjoyed success in working with those who cherish political freedom to regain that freedom from authoritortian governments of the right. It is equally important that we assist those who are striving for freedom against dictatorships of the left. I believe that this universal fight for democratic institutions deserves bipartisan support. I am certain that Americans want a commonsense sorting out of what we should do in Nicaragua. I hope that I have provided a good measure of that commonsense today in this overview.

□ 1940

Mr. President, I support titles II and III of H.R. 5052, which authorize the appropriation of $400 million to strengthen democracy where it exists in Central America for the good reasons I have suggested this evening, and to help bring it about in the troubled Republic of Nicaragua.

Titles II and III deal with the Central American issue in a fully comprehensive manner. It balances economic, social, military, and diplomatic instruments. It addresses both Central American interests and our own. With regard to the Nicaraguan problem, it provides not merely resources, but a mechanism to assure that our goals are effectively met.

In many ways this bill is the product of a growing consensus in the United States on Central America. We are far from the controversies that agitated this Chamber in the 97th and 98th Congresses—over the nature of the Nicaraguan regime; over the viability of the democratic center in El Salvador; over the possibilities of democratization in Honduras and Guatemala; over the relationship of the Central American drama to our larger security interests.

We have always been closer to that consensus in the Senate than the House. The fact that the bill before us today is the product of a House vote is highly significant. It seems to me we have reached a turning point in our perception of the situation in Central America, and in our willingness to act together as a united people, together with our allies and friends in Central America.

I recognize that in one important particular this legislation continues to be highly controversial—that provision which provides for $100 million in assistance to the Nicaraguan democratic resistance. But just because some issues are difficult does not mean that they can be wished or talked away. The Nicaraguan problem forces us, as representatives of the American people, to face up to serious political, strategic, and moral questions. Nonetheless, they cannot be avoided, since how we vote will determine the fate of the long-stifled democratic aspirations of the Nicaraguan people, and by extension, of the fate of democratic institutions in Central America.

Whatever our views on this particular bill, I am sure that no Member of this Chamber believes that we can afford the luxury as a free society, to be indifferent to the fate of our closest neighbors. That concern lies behind much of what I shall say today.

Let me remind my colleagues that the provisions of titles II and III are virtually identical to those found in Senate Joint Resolution 283. That resolution was approved by the Senate March 27 by a vote of 53 to 47.

Like Senate Joint Resolution 283, H.R. 5052 transfers $100 million in unobligated funds from the Defense Department to the President to assist the Nicaraguan democratic resistance. Like the legislation we approved in March, $30 million of this $100 million is available only for humanitarian aid. The remaining $70 million may be used as the President sees fit. Again like Senate Joint Resolution 283, the bill before us today gives the President maximum flexibility to use this $70 million. He may channel it through any agency of the Federal Government. He may spend it on whatever items he believes necessary to help the resistance forces.

Many Senators had a hand last March in crafting Senate Joint Resolution 283. Senators KASSEBAUM, COHEN, and RUDMAN, for example, added language requiring the various resistance groups to put forward a program for democracy in Nicaragua and to work together to achieve this end. Their language is found in section 211(d) of H.R. 5052. The distinguished Senator from Illinois [Senator DIXON] offered a floor amendment to Senate Joint Resolution 283 barring United States personnel from entering Nicaragua for military purposes. That amendment is now section 203(e) of H.R. 5052.

There are only two real differences between the legislation before us today and that which we approved last March. First, the House had added $300 million for the Central American democracies—Costa Rica, Guatemala, El Salvador, and Honduras. This money does not represent a new aid program. Rather, it makes up part of the shortfall in the aid the Congress and the President has promised these countries in previous years.

The second change between the legislation we approved in March and H.R. 5052 is the timing of the release of the funds. In March we legislated on the expectation that the aid package would be approved in mid-April. It is now, of course, early August. As a result of the delays in approving this package, the House has revised the timing on the release of funds. Untouched, however, are the conditions we in the Senate put on the release of these funds. Funds may not be released if negotiations are going forward between the resistance forces and the Sandinistas. Nor may funds be made available to groups that do not have effective human rights policies.

I do not propose to review the entire history of the Nicaraguan question, but several points seem to bear repeating here.

First, there is no question but that Nicaragua today is well advanced on the road to communism—with all that implies for a military and strategic alliance with Cuba and the Soviet Union. At home, this means the militarization of society, the suppression of free trade unions, of the church, of the press. Abroad, it means participation in an international terror network which includes Libya and the PLO.

Second, this has happened not because of the United States, but indeed in spite of it. It has been said many times before, but I cannot forebear from repeating it now—between 1979 and 1981 the United States gave Nicaragua over 100 million dollars' worth of assistance, what would indeed have been a down payment on a much larger program, in the hope that the new leaders of Managua would keep their promise to the OAS and their own people—of a society committed to pluralism, a mixed economy, and a nonaligned foreign policy.

Third, the completion of this process in Nicaragua will have profound implications for democratic neighbors, particularly Costa Rica, which has no army at all, and is now facing across an unfortified border a military machine which is larger than that of all of the other Central American nations combined. The Sandinistas are also engaged in the shipment of small arms, the training of cadres, and the coordination of politico-military actions for the guerrillas in El Salvador. While they claim that it is not possible to export revolution, their actions suggest that they believe otherwise.

Fourth, the Sandinistas have shown by their own actions that the only language they understand is that of force, or the threat of force. They have betrayed every well-meaning American or Latin American who has chosen to speak to them in the language of sweet reason and conciliation. Even the most optimistic advocates of a negotiated solution—the Contadora countries—have nothing to show for their efforts by frustration and evasion.

The one thing the Sandinistas fear above all others is the promise of the revolution they themselves betrayed—the democratic, popular, nationalist movement which ousted the Somoza dictatorship. This bill makes it possible for that hope to endure, flourish, and hopefully triumph at last.

There are those, I know, who believe that Nicaragua's international political order is of no particular interest to us; or that we have no moral right to criticize, much less attempt to improve it. I have heard often—from constituent letters, from visitors, and indeed from some Members of this Chamber—that we have no business trying to get involved in the affairs of this small country, which—so I am told—poses no threat to the United States.

I believe, however, that quite apart from humanitarian considerations, the internal order in Nicaragua is the crucial determinant of its international role.

As Mrs. Violeta Chamorro, publisher of La Prensa, the courageous independent daily finally shut down a few weeks ago by the Sandinistas, explained recently to the presidents of the Contadora countries:

> The external dimension * * * is no more than the reflection and the echo of an interior disturbance, revealed in popular discontent, emigration, and exile; which nourishes subversion and the war of those who seek through violent means what they cannot achieve peaceably. * * *
>
> Every demand for democratic participation in the development of Nicaragua's destiny has been relected with intimidation and force.
>
> Only the Sandinista Front has rights and guarantees in Nicaragua. But peace begins by giving back these rights that belong to all our people: by yielding power. By living together civilly and practicing democracy, the only system that allows for opposition-government relations, and that guarantees something essential * * * freedom.
>
> Without liberty first, there will never be peace. If not, she concluded, Nicaragua will keep on destroying itself, our youth will keep dying, and the danger of violent confrontation in Central America will increase.

How does this bill address those concerns?

First, it sustains the unified democratic resistance fighters and their families, and provides a counterweight to the Sandinistas' massive military might and repressive police apparatus.

Second, it provides the Sandinistas with some positive incentives to reopen serious discussions with the opposition, since it ties the type and amounts of assistance we disburse to the democratic resistance to the future conduct of the Nicaraguan Government. Thus, if Managua wishes to see us end our military assistance to the democratic resistance, this bill puts that instrument in their hands.

All they need do is restore political freedoms, demonstrate some progress toward the holding of free and fair elections, and refrain from acts of aggression against their neighbors. True, the bill also requires them to engage in a cease-fire and serious negotiations with resistance leaders, but this is no more than what President Duarte is offering the insurgents in El Salvador.

Third, because it staggers disbursement over several tranches, it gives the Sandinistas more than one opportunity to reconsider their policies and actions.

Fourth, it puts the Soviet Union, Cuba, Libya, and other allies of the Sandinistas on notice that the United States is not going to abandon the cause of freedom in Nicaragua—that they can no longer count upon the experience of Vietnam to stay our hand wherever they propose to intervene.

Let me now state what this bill is not.

It is not the beginning of "another Vietnam." Section 3(d) specifically states that "nothing in this title shall be construed as authorizing any member or unit of the Armed Forces to engage in combat against the Government of Nicaragua."

It does not provide the democratic resistance with a blank check. Quite the contrary, it establishes strict norms of accountability and human rights monitoring. In fact, this gives us the kind of leverage we need to assure that the most creditable members of the democratic opposition prevail within the ranks of the resistance.

It does not undermine the efforts of the Contadora countries to reach a negotiated solution in Nicaragua. I am aware that many leaders of these countries publicly oppose this legislation, but I must respectfully differ with them. If the purposes of this bill are attained—namely, a cease-fire in Nicaragua, a serious process of negotiation between government and opposition, and the ground established for free elections—then Contadora's own purposes, which are national reconciliation and pluralism, will be fully satisfied.

But without the leverage which this aid provides, it is frankly difficult for me to imagine how the Contadora vision can ever be fulfilled.

It does not neglect the needs of the four Central American democracies—El Salvador, Honduras, Costa Rica,

and Guatemala. Rather, it specifically appropriates three times as much to sustain and nourish social and economic development. By indirection it lets the Sandinistas know that this is the kind of positive relationship we are prepared to have with nations that are committed to open, free and representative institutions—a relationship we wanted to have, and in fact, still want to have with Nicaragua.

I am aware that serious charges have been raised concerning the alleged activities of some members of the democratic resistance. They will, of course, be fully investigated, and, if found to be true, lead to appropriate action.

But we must not confuse allegations with facts, or allow controversies over peripheral matters to deflect our attention from the main issue at hand, which is the political situation in Nicaragua and its implications for Central America and for us.

In this connection, I cannot forebear from mentioning that the sensational charges that the $27 million in humanitarian aid appropriated last year were somehow misappropriated, or never reached its destination, have been shown to be false.

Mr. President, it is not easy or pleasant to be forced to recur to such measures as this bill requires. But the choice is not really ours—and, in fact, never has been. The Sandinistas always had it within their power to determine the kind of relationship Nicaragua would have with its neighbors, and with the United States. They still do.

But until they understand that we mean business, they will have no incentive to rethink the consequences of their policies, their treatment of their own people, and their alliances with the enemies of freedom.

I urge my colleagues to join with me in support of this bill. It is a challenge we cannot fail to meet.

Mr. President, I yield the floor.

Mr. LEAHY. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator from Vermont has 1 hour and 53 minutes remaining at this time.

Mr. LEAHY. I thank the President.

Mr. President, I have listened carefully to the words of my good friend from Indiana. I know how hard he has worked on this and the fact that he has spent a great deal of time both in this capacity as the chairman of the Foreign Relations Committee and Senator from Indiana. I know he is not one to jump headlong into matters.

But I would say to my friend from Indiana, Mr. President, that there has been a lot of discussion of the Philippines, and eventually American policy toward the Philippines in helping to bring about democratic elections there was the right one. It was one unfortunately slow in coming. It was after the President of the United States had said at the elections, well, there was probably those on both sides who showed little or no inclination to do much to bring about the unraveling of democracy in the Philippines, and unraveling that could have endangered our bases, our interests, and the interests of democracy there. It was only after a heavy pressure by Members of the Congress, including my good friend from Indiana, and I like to think of myself and others, the President came to a policy which gives democracy a chance in the Philippines.

But I would say, Mr. President, that the analogy is not between Nicaragua and the Philippines. Let us not lose sight of the fact that we are having this debate now and today because the analogy is between Nicaragua and Vietnam. That is what the analogy is. That is why we are here. We cannot say the Contras are the only alternative in Nicaragua, not by any means. The Contras are what they are and they are the first step to U.S. military involvement in Nicaragua. That, and that alone, is the issue here today: Are we going to allow ourselves to be drawn into a situation of dangerous parallels to Vietnam?

Mr. President, my good friend from Maine is on the floor. I know he seeks time. I would ask that I be allowed to yield him 10 minutes from the bill without losing my right to the floor, and to have him then be able to yield back to me at the end of that time.

The PRESIDING OFFICER. The Senator has that right. The Senator from Maine is recognized.

Mr. SASSER. Mr. President, I have no objection to yielding 10 minutes off the bill to the Senator from Maine.

The PRESIDING OFFICER. May the Chair inquire: Did the Senator also include a unanimous-consent request that he retain his right to the floor?

Mr. LEAHY. The Senator from Vermont does include that, I will tell the distinguished Presiding Officer.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Vermont?

Hearing no objection, the request is granted.

The Senator from Maine is recognized for 10 minutes.

Mr. MITCHELL. I thank the Senator from Vermont and the distinguished Senator from Tennessee, the Democratic manager of the bill.

□ 1950

NICARAGUA: NO MILITARY AID TO THE CONTRAS

Mr. MITCHELL. Mr. President. I oppose military aid to the Contras.

The administration's policy in Central America lacks a coherent strategy. It has not worked. It is wrong.

For 5 years, the administration's policy has undermined American interests and ideals, and has violated international law.

The proposal now before the Senate represents the culmination of the failures of the last 5 years. It also represents a tragic step toward a wider war.

Let there be no mistake about the importance of the matter before us.

This proposal will arm the Contras for a wider war, a civil war against a government duly recognized by the United States, a government with which we still maintain diplomatic relations.

This proposal will extend and escalate a policy which has been condemned by the World Court.

This proposal will move, slowly but surely, toward a regional military conflict—a conflict which will ultimately induce direct American military intervention.

The United States has two related interests in Central America. One is our national security. The other is democracy in that region.

First and foremost in our consideration must be our security interest. Under modern application of the Monroe Doctrine, we should not and will not permit the presence of Soviet, or otherwise hostile forces on the mainland of the American continent. We cannot tolerate the buildup of hostile, offensive weapons in Central or Latin America.

The administration's policy has had the perverse result of an increased flow of Soviet bloc weapons to Nicaragua. Action produces reaction. Instead of working toward demilitarization of the region, we are contributing to a more rapid military buildup and escalation.

The administration is turning Honduras into a military camp. It is indifferent to Costa Rica's tradition of peace.

The administration claims only to want to pressure the Government of Nicaragua. But its objective plainly is the complete overthrow of that Government by military force. For that objective, $70 million in military aid—the amount contained in the pending bill—is certainly not enough. It is obviously only a down-payment. There will be more to come.

We are told that only American money is necessary. But the proposal now before the Senate also allows for CIA advisors. That's the way it happens. First, American money. Then, American advisors. And then, inevitably, American troops.

Make no mistake about it. Voting for military aid to the Contras is a vote for a wider war—and the risk of direct American military involvement in that war.

We should heed the words of John Ferch, for 27 years a career Foreign Service officer, who recently was fired

by the Reagan administration from his post as Ambassador to Honduras.

The administration's Contra aid package, he said:

is going to go so fast, it is really just the first step. The logic of it all means that the next stage is an expanded military operation.

"I always thought we meant what we said," Ambassador Ferch told the Washington Post after his dismissal. "We wanted pressures so we could negotiate." However, he said: "I'm beginning to think I accepted something that wasn't true. Our goal is something different, It's a military goal."

An expanded military operation in Central America will pose immediate risks to American lives. The House bill prohibits American personnel from providing assistance in Honduras or Costa Rica within 20 miles of the Nicaraguan border. Tellingly, the administration opposes the provision.

Our first interest in Latin America is our national security. But by stocking the fires around a powder keg, we are contributing to our own long-term insecurity.

The second interest of the United States in Central America—and it is related to the first—is to promote democracy in that region. We support the causes of individual human rights, democratic institutions and representative governments. This reflects the Monroe Doctrine, in which our Nation, fresh from its own revolutionary period, stood firmly in support of movements for freedom and independence in Latin America.

The administration's policy also undermines this interest. The administration opposes the antidemocratic character of the Sandinista government by supporting a rebel army whose character is no better. It is a policy which also provides the Sandinistas with a convenient excuse to curtail basic individual liberties, and deflects attention from their own shortcomings.

The administration's policy provides scapegoats for Sandinista sympathizers, and backfires by weakening the regime's opponents. A case in point is the current trade embargo against Nicaragua. The Overseas Development Council and the Center for International Policy recently reported that the trade embargo largely has irritated our allies; provided the Sandinistas with another excuse for their economic problems; and weakened private producers inside Nicaragua who depend on imports, and who generally oppose the Sandinista regime.

The administration's policy will not advance democracy in Nicaragua. On June 26 of this year, the Nicaraguan Government shut down the opposition newspaper, La Prensa. Nicaragua's President urged that Violeta Barios de Chamorro, the newspaper's owner, and widow of La Prensa editor Pedro Chamorro, whose assassination sparked the overthrow of Somoza, should be jailed. In an open letter of reply, Mrs. Chamorro defended the Nicaraguan revolution and condemned the treachery of the Sandinistas. However, she also firmly declared:

The grave crisis afflicting Nicaragua must be resolved among ourselves, without the interference of Cubans, Soviets or Americans. She labelled the Reagan Administration's support of the contras a "terrorist plan.

The Sandinistas are the antithesis of American ideals. But the Contras are not the modern equivalent of our Founding Fathers. Their leaders have never demonstrated a commitment to democratic principles. Their intention is to overthrow the Nicaraguan Government, but their tactic is to terrorize the Nicaraguan people.

Last month, a civilian passenger bus in Nicaragua was allegedly destroyed by a Contra landmine. Thirty-one civilians were killed. Fourteen were women. Twelve were children. Two were nursing infants.

The American people do not want to send $70 million in military aid to kill innocent women and children.

The American people do not want to send $70 million in military aid to a group who still cannot fully account for how the last $27 million in assistance was spent.

The American people do not want to send $70 million to Contra leaders who siphon off the money for their own enrichment—and who traffic in drugs and weapons, and plot bombings and assassinations.

The American people do not want money which previously had been earmarked to provide relief to starving people in Africa to be used instead to support a policy of failure in Central America.

The American people instead favor a search for a peaceful solution in Central America. They favor negotiations. They oppose an administration policy which uses military force as a first course of action, rather than as a last resort.

Opposition to the administration on this issue does not require that we ignore the antidemocratic character of the Nicaraguan Government, or the threat which the Sandinista military buildup poses to regional security. These are serious concerns, which we have sought constantly to address.

We have opposed the direction of the administration toward war, and worked instead to move concretely toward peaceful initiatives.

We have sought consensus at home, and consensus in Central America.

We have sought compromise alternatives, such as the 1985 Biden amendment and the 1986 Sasser substitute—which would have provided strict conditions on Contra aid, designed both to protect American interests and to lead to negotiations.

We have supported the Contadora process, led by Mexico, Venezuela, Colombia, and Panama—aimed at providing a regional peace accord.

Our best hopes for the future lie in working in true partnership with the other nations of Latin America. The United States must seek consensus, not the imposition of its will by force upon its neighbors.

At best, the United States will gain an illusory security by pursuing the course which the administration has charted. Just as American military intervention in Nicaragua earlier in this century planted seeds for the current conflict, the actions we take today will confront future generations.

For their sake, and ours, we should vote no on military aid to the Contras.

Mr. LEAHY. Mr. President, I yield such time as I may require from my own time under the previous unanimous consent agreement.

Mr. President, we should know precisely what it is we are speaking to here. We are really speaking of an historical analogy, of Vietnam to Nicaragua. The distinguished Senator from Maine [Mr. MITCHELL] has spoken of the money that is included in this bill for Nicaragua. He has talked about $70 million in military aid.

He has talked of the hundreds of millions of dollars that are going to be taken out of African famine relief.

He has talked of the $30 million in humanitarian aid.

Before anybody is distracted or fooled by those who say they would support humanitarian aid but not military aid, they should know what that humanitarian aid is.

Humanitarian aid is money that then becomes available for everything from rifles and bazookas to missiles. That is what it is.

Let us not fool ourselves by labels. This is not money for humanitarian aid. This is money for weapons of war and weapons to kill.

□ 2000

I am reminded of the fact that another Vermonter, President Calvin Coolidge, sent the Marines into Nicaragua in what now history shows us was a colossal mistake, a mistake that led eventually to the murder of Sandino and to the installation of the brutal Somoza regime. Mr. President, Calvin Coolidge was a native of my State of Vermont, but just because that Vermonter made a mistake does not mean this one has to make a mistake. I think I reflect the opinion of the people in my State in being against U.S. involvement in the war in Nicaragua.

When I spoke on this subject 4 months ago in opposition to U.S. involvement, there had been a vote in the Senate for it but a vote against it in the House of Representatives. Since then, the House of Representatives, in response to unprecedented lobbying

by the administration—last-minute phone calls from the President, arm twisting on a scale that I have not seen in my 12 years in the U.S. Senate—reversed its earlier vote to stay out of the war. At the same time, the World Court ruled that United States aid to the Contras is illegal under international law.

The United States military presence in Honduras continues, as do the heavyhanded policies of the Sandinistas discussed here tonight; and also as do all the actions of the Contras that bring shame on the United States for our involvement with that group—involvement that this country cannot even catalog, define, or control, but involvement that has led to terrorism and death of innocent civilians in a continuing involvement of our country, the greatest country in the world, in one of the most sordid exercises in my lifetime.

Four months ago, I said the issue we faced was no more and no less than whether the United States should take a major step toward direct engagement in the war in Central America. That issue has not changed. In fact, we are faced with the same issue today.

The American people have a right to know the full implications of what their Government is doing. It is, after all, their sons who may be ordered to fight and die in the jungles and mountains of Central America before this is over.

For the past 4 years, Congress has gone along with more and more military aid to the Contra forces who are fighting to overthrow the Government of Nicaragua. In the early days of this secret war, a secret war that was displayed on the front pages of our newspapers almost every day, we were told that the purpose of this aid was to interdict the flow of arms that was supposed to be coming into El Salvador. None were.

Soon it became apparent that blocking the flow of arms had very little to do with the rapidly growing Contra force.

Then it was suggested that our purpose was to force the Sandinistas back to pluralism, to make them cry uncle and, although never explicitly admitted, to overthrow the Nicaraguan Government itself. But that did not go over well with the American people, who were way ahead of their own Government in their commitment to justice and to honesty.

Then Contadora came along, and peace became our objective. Now, once again, as the recently fired Ambassador to Honduras has said, the goal is military victory.

The administration no longer suggests that if we keep the heat on the Sandinistas, they will negotiate away their own revolution. Indeed, the Sandinistas have repeatedly refused to modify their Marxist ideology. The only things that have not changed in all this time are the inability of the Contras to hold even 1 inch of the countryside and the overwhelming support of the Nicaraguan people for their own Government. To them, this war is just the most recent in a long history of military interventions into Nicaragua by the United States.

We should not lose sight and the American people should not lose sight of that part of our history, a very unsavory part of our history. The United States has intervened in that country before and always with disastrous results. Nothing indicates that it will be any different today. The same warnings that were given by Calvin Coolidge are being given today and with the same lack of any historical, factual, strategic or intelligence basis.

After 4 years of spreading terror among Nicaraguan communities along the Honduran border, the Contras now sit in their camps along the Honduran border, waiting for another $100 million from the United States. In 4 years, besides killing and wounding hundreds of civilians, the Contras have only demonstrated that they cannot possibly win this war by themselves.

What they have also demonstrated is that they can involve themselves in one scandal after another, whether it is a manipulation of currency, drug dealing or terrorism.

The American people fear that the Contras' failure will require a tremendous commitment of U.S. dollars but ultimately, also, of U.S. troops. That is a commitment which the people of this country are unwilling to give by a 2-to-1 margin. They are opposed to U.S. aid to the Contras. They are unwilling to see their sons fighting and dying in the streets of Managua or on the mountains of Matagalpa. There should be no mistake about it. If we decide to go down that road, this war will be our war for years to come.

Once again, a Vermont Senator may finally have to say, as the late Senator George Aiken said about United States troops in Vietnam in 1966, "Let's say we won and bring our boys home."

I remember shortly after I got out of law school watching the nightly news about Vietnam. My son, who was then just 3 or 4 years old, came to me in tears and climbed in my lap. The television was showing the battles of Vietnam. He said, "Daddy, promise me I will never have to go there to kill people." I wonder, if we go down this road, how many other parents will hear that from their children or how many of the children who might have felt that way at the time of Vietnam when they were children, will now find, as adults, that they are fighting in a war that makes no sense. A war that does nothing for the security of the United States, does nothing to bring glory to our country.

□ 2010

After 4 years of a policy that legitimizes the Sandinistas' efforts to obtain more Soviet weaponry and given them an excuse for internal repression, we are now facing what I believe may be Congress' most far-reaching foreign policy decision in over two decades.

The choice today is unmistakable. Either we forget the lessons of Vietnam and have the United States totally take over this war to overthrow the Sandinistas, or we adopt a new policy in Central America. Whatever we decide, this vote will be remembered as a major turning point in United States involvement in the Nicaraguan civil war.

I want to remind my fellow Senators and the American people who are listening to this debate of two things. The first is that the United States has been often called the conscience of the world. And the other point of course are the lessons of the Vietnam war.

Twenty-two years ago this month the U.S. Senate approved by a vote of 98 to 2 the Gulf of Tonkin resolution. That resolution put the United States in the middle of the Vietnam war. It was used to justify sending hundreds of thousands of United States troops to Vietnam during the next 10 years. Several of the Senators who voted for it will vote this week on the President's request for United States aid to the Contras in Nicaragua.

They, and those of us who were not Senators then but who saw what was done in the name of Tonkin Gulf, will be asked to vote to send American military advisers and trainers into this insurgency. American advisers and trainers. Those words bring back haunting memories for those of us who were college students at the time Vietnam began.

We will be asked to vote on allowing the President to send the CIA back into the war. Most importantly, we will be asked to vote on giving the Contras a commitment that they will have the money and equipment to carry on a bloody war for years to come. I am one Senator who will not cast that vote. I will not cast that vote and send us down that road.

I would like to quote from what the late Senator Wayne Morse said in his lonely fight against the Gulf of Tonkin resolution 22 years ago:

> Mr. MORSE. Mr. President, I rise to speak in opposition to the joint resolution. I do so with a very sad heart. But I consider the resolution, as I considered the resolution of 1955, known as the Formosa resolution, and the subsequent resolution, known as the Middle East resolution, to be naught but a resolution which embodies a predated declaration of war.

Article I, section 8 of our Constitution does not permit the President to make war at his discretion. Therefore I stand on this issue as I have stood before in the Senate, perfectly willing to take the judgment of history as to the merits of my cause.

I yield to no other Senator, or to anyone else in this country in my opposition to communism and all that communism stands for.

In our time a great struggle, which may very well be a deathlock struggle, is going on in the world between freedom on the one hand and the totalitarianism of communism on the other.

However, I am satisfied that that struggle can never be settled by war. I am satisfied that if the hope of anyone is that the struggle between freedom and communism can be settled by war, and that course is followed, both freedom and communism will lose, for there will be no victory in that war.

Because of our own deep interest in the struggle against communism, we in the United States are inclined to overlook some of the other struggles which are occupying others. We try to force every issue into the context of freedom versus communism. That is one of our great mistakes in Asia. There is much communism there, and much totalitarianism in other forms. We say we are opposing communism there, but that does not mean we are advancing freedom, because we are not.

Senators will note as I proceed in the presentation of my case in opposition to the resolution that I believe the only hope for the establishment of a permanent peace in the world is to practice our oft-repeated American professing that we believe in the substitution of the rule of law for the jungle law of military force as a means of setting disputes which threaten the peace of the world.

The difficulty with that professing or preaching by the United States is that the United States, like some Communist nations, does not practice it.

When the high emotionalism of the present crisis has passed, and historians of the future will disclose some of the provocative things that have occurred, I have no doubt that they will disclose that for quite some time past, there have been violations of the North Vietnamese border and the Cambodian border by South Vietnam, as well as vice versa.

I am also satisfied that they will disclose that the United States was not an innocent bystander. We will not receive a verdict of innocence from the jury box of history on several counts.

Our extensive military aid to South Vietnam was a violation of the Geneva acccords in the first instance. Our sending troops into South Vietnam, even under the semantic camouflage of designation as military advisers, was a violation of the Geneva accords. In fact, both of those two counts were also a clear violation of the spirit and intent of the peaceful purposes of the United Nations Charter itself.

Any violations of the borders of Cambodia and North Vietnam by the South Vietnamese were not conducted in a vacuum so far as U.S. assistance was concerned.

We assisted not only with materiel, but we advised on war plans, and our military presence in South Vietnam served as an ever-present strong back-stop to the South Vietnamese. I doubt if their military leaders acted at any time without the tacit approval of their American advisers.

Does anyone mean to tell me that with a population of 15 million, and military forces consisting of 400,000 to 450,000 South Vietanmese troops, of various types and various services, they are incapacitated, and that we must send American boys over there to die in what amounts basically to a civil war?

Mr. President, criticism has not prevented, and will not prevent me from saying that, in my judgment, we cannot justify the shedding of American blood in that kind of war in southeast Asia. France learned that lesson. France tried to fight it for 8 years, and with 240,000 casualties. The French people finally pulled down the French Government and said they had had enough.

I do not believe that any number of American conventional forces in South Vietnam, or in Asia generally, can win a war, if the test of winning a war is establishing peace. We can win military victories. We can kill millions of people, but not without losses of our own. Then, at the end of that blood march, we shall end with the same job to perform; namely, establishing peace, but in a war-wracked world, if we survive.

Mr. President, the formula is archaic. The formula will no longer work. The nuclear age has outmoded war as an instrument for establishment and maintaining peace. The issues and problems of southeast Asia cannot be solved by military force.

(Mr. DOMENICI assumed the chair.)

Mr. LEAHY. I also want to read from a speech by the mother of a Vermont veteran of that war, a Vermont veteran who did not return from Vietnam.

Louise Ransom of Williston, Vermont said this at the dedication of the Vermont Vietnam Veterans' Memorial in 1982. I remember this so very well because I was there and like so many of those who heard her speech felt the emotion of the moment. She said in part:

We remember how we awaited the letters home. In one Mike wrote: "There is not a man over here that wants to see this war go on any longer. This is not to say that anybody shrinks from doing a job. But everyone is as confused as I as to exactly what, if anything, we're accomplishing."

Then we remember our desperate prayers during those last few days in a surgical field hospital after we had learned of the critical wounds.

But this is our personal pain. We also remember our national pain:

Our anger at our government:

For covering up so many truths about the war, including how we got into it, and for lacking the courage to pull out, as Senator George Aiken so wisely said we should.

If our cause was so righteous and just, how did it happen that no member of Congress lost a son or a grandson there?

For not putting a stop to the huge profits made by Americans here and in Vietnam at the expense of our soldiers.

Most of all, we remember our disillusionment:

In the bleak fear that the lives of our beloved sons, husbands, brothers, and some sisters, may have been wasted by the nation we love—for no visible gain to its people.

In the perception that the war brought out the worst in us: our racism, our egotism, our intolerance and our unquestioning chauvinism.

In the knowledge that a whole generation has become cynical and lost faith in their government and in the American dream of freedom for all, for which our fore-fathers fought and died.

The true meaning of these deaths can only be determined by how we, the survivors, regard the monuments and the value we find for ourselves in what they stand for.

If we use them to glorify the Vietnam War, rather than as a tribute to its warriors, righteously feeling that now we have done our bit, (remembering that it is the veterans and not we that put up the monuments) and then wash our hands of the whole tragic business with no concern for its victims at home and abroad, we shall have failed.

But if we can strive mightily to seek creative and not military solutions to overwhelming world problems, if we can acknowledge in humanity the possibility of error in ourselves, and above all if we can learn to love one another as we love them, their sacrifice for us will not have been in vain.

Mr. President, the lessons of Vietnam were not lost on the generals and policymakers of that war:

General Westmoreland said, "the cardinal lesson of Vietnam is that we can't send troops to war and expect them to make good any foreign commitment unless American public opinion is behind it."

General Edward Meyer, retired Chief of Staff of the Army, said, "Armies don't fight wars. Nations fight wars. When the U.S. Army, which is genuinely a people's army, is committed, the American people are committed. And when the American people drop that commitment, then the Army cannot remain committed."

William Bundy, Assistant Secretary of Defense under President John Kennedy, said that "if there is one overriding lesson of Vietnam, it is that an administration must level with the Congress and the American people, accepting the burdens of a great debate in which objectives and strategy are clarified, with their costs and implications, and submitted for a clear vote of approval or rejection."

□ 2020

Mr. President, I came to the U.S. Senate in January 1975. I was 34 years old.

I saw the debate over Vietnam, the demonstrations, the dissension in our country and in my own State of Vermont.

When I came here in 1975 I made a promise to myself to do everything I could to prevent this country from repeating the tragic mistake of the Vietnam War. I intend to keep that promise. I intend to keep my promise by doing everything possible to oppose aid to the Contras this year and next year and in the future.

The Vietnam war was a watershed for the United States. At times like this, it is incumbent upon us to recall the lessons of that war. How can we prove to ourselves and to our country that those 59,000 Americans did not die in vain?

Mr. President, in the city of Washington, the most moving monument we have is the Vietnam Memorial monument—stark, black marble slabs, containing the names of 59,000 Americans who died in Vietnam. It would take a monument much bigger than that to contain the names of the millions of Vietnamese who died.

Since that monument went up, I have been drawn to it over and over again. I have gone to it in the rain, in the snow. I have gone there at night. I have gone on weekends and on work days.

One thing strikes me every time I go there: There are always people there. It makes no difference what time of day or night it is. And the reaction is the same. No matter how much they might have been talking or laughing or approaching sadly, their reaction is the same. They walk the whole length of it. Some look for a particular name of a father or a brother, a family member or friend. They are always silent—serious and somber.

I have to think that the same thought went through them as went through me, my wife, and my children when we went through there: How do we make sure this never happens again?

Of the thousands of letters I have received from Vermonters urging me to oppose any U.S. involvement in the war in Nicaragua, many contain the plea that Vietnam not be forgotten.

Many Vermonters have gone by that same monument and have come to my office or seen me back home in Vermont and said, "Let us not forget."

I would like to read from a newspaper article by William Boardman of Woodstock, VT. I ask unanimous consent that the entire article be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Valley News, Apr. 3, 1986]

IN NICARAGUA, AS IN VIETNAM, AMERICA'S ACTIONS ARE WRONG

(By William Boardman)

WOODSTOCK—In Nicaragua, as in Vietnam, the United States government has chosen to wage war on the simplest aspirations or ordinary people—for food, for shelter, for literacy, for health, for a life longer than 40 years.

In Nicaragua, as in Vietnam, the United States government justifies waging war on basic human needs by making rhetorical appeals for freedom and democracy for the native population—even as the U.S. government fights on the side of the violent elite which had for years forcibly subjugated and impoverished the large majority of its own people.

In Nicaragua, as in Vietnam, the United States government has chosen to defy American law and lie to the American people.

In Nicaragua, as in Vietnam, the United States government has exhibited an arrogant disdain for both freedom and democracy—by its willingness to destroy another country in order to save it, and by its unwillingness to defend its actions forthrightly and honestly to its allies or its own people.

In Nicaragua, as in Vietnam, the American news media have failed to get out in front of the emerging crisis. Too much reporting is superficial and capitol-bound, either repeating or reacting to government handouts, without getting out into the countryside for independent verification of any side's claims. In the dominant media (TV networks, major news magazines and papers), with the resources to cover any story in depth, these cowardly policies are shaped at stateside corporate headquarters, by men (mostly) ever-alert to doing the "responsible" thing that won't interfere later with a high government appointment. For more than five years now, the major American news media have failed to ask, much less attempt to answer the hard questions about Nicaragua and Central America, they have failed to inform the American people, and so have allowed demagoguery more power to determine our future. Nicaragua has not been a difficult place to cover in recent years, certainly not as difficult as Afghanistan, or El Salvador, or even South Vietnam circa 1954–1960. It is disgraceful and inexcusable that what reliable coverage there has been is largely the work of independent journalists with limited means.

In Nicaragua, as in Vietnam, whatever is really at stake for those making the fundamental decisions of war and peace—whether commercial, ideological, or other obsessions—it's clear that there is no serious interest among our leaders in fostering real political freedom for the people of a former western colony.

However, not all the parallels with Vietnam are neat and clean.

Indeed, some would surely object that Nicaragua was never a U.S. colony as Vietnam was French. That's as true as it is irrelevant. American colonialism has generally been more oblique than the classic European variety, but not less effective. Any country which was occupied for years by American Marines and subjected to an American puppet-dictatorship for more than 40 years has surely experienced a form of colonialism.

Perhaps the least neat, but most interesting parallel between Vietnam and our Central American situation is that the United States is now in a position analogous to that of North Vietnam. Of course the U.S. was never part of a single country with Nicaragua, but our willingness to wage a proxy guerrilla war against Nicaragua, to use neighboring countries as sanctuaries, and perhaps to use regular army troops are all in the Vietnamese pattern.

Like the Viet Cong, the U.S.-backed contras use terror as their primary weapon, assassinating teachers, doctors, and leading businessmen, destroying schools, hospitals, and business, all as part of a general campaign to tear apart the country's infrastructure.

Unlike the Viet Cong, however, the contras seem not to be committed revolutionaries, but merely mercenaries whose fighting fervor fades whenever the pace of their paychecks flags. There's no sign that contra commitment to the cause is anywhere close to the intensity that enabled the Viet Cong to build vast complexes of underground tunnels or to survive in the jungle for a generation.

In great part this is because, again unlike the Viet Cong, the contras have no substantial popular support, theirs is not an indigenous revolution. On the contrary, as their name implies, the contras are opposed to Nicaragua's only indigenous revolution. Worse than that, the contras have made no significant effort to appeal to the popular spirit of their native revolution, they have issued no manifestos promising such basic revolutionary staples as life, liberty, and the pursuit of happiness, or anything credibly resembling them. That's why the contras refused to take part in the 1984 Nicaraguan election—not because it wasn't reasonably free and open, but because they were afraid they would be humiliated by their lack of any significant constituency.

Like North Vietnam in the early years of the war there, the Reagan administration has so far been able to strike at Nicaragua pretty much with impunity. Using Costa Rica, El Salvador, and Honduras as sanctuaries, our government has fought proxy war on the ground, it has mined Nicaraguan ports (in violations of American and international law), it has provided varieties of tactical air support (most recently helicopter troop lifts), and it has waged brutal economic war against an impoverished peasant country of 3 million people with a per capita income of perhaps $700 a year.

The consequences of all this, but especially of the economic war, have been brutal, especially for the lives of essentially medieval peasants who had gotten their first glimpses of a better life from the Sandinistas. (On the other hand, one might acknowledge a certain Reaganomic consistency here, since the administration has sought to treat American poor people just as harshly.)

Nevertheless, none of the American-sponsored military or economic terror has moved the region any closer to calm, much less peace, social justice, or political democracy. Rather the effect seems to have been to spread instability, particularly to Honduras, where a near-permanent garrison of thousands of American troops are turning the country into a honky-tonk brothel reminiscent of Saigon. Perhaps even more dispiriting, Honduras is no longer in control of its own destiny semi-occupied by two foreign armies and subject to attack at will by a third—Honduras is well on its way to becoming the Cambodia of Central America.

But there is one important difference between the all-too-similar interventionist spirits of the early Kennedy years and the late Reagan ones. In 1961 the American people didn't think much about increasing the number of U.S. military advisers in Vietnam, much less resist the decision. Today a large proportion of our population, perhaps a majority, has learned the lesson of Vietnam differently from its government. Today Americans want to know what the government thinks it's doing with military force, and expects the government to convince us of the wisdom of its desires before it takes action, not after.

It's a hopeful, if ironic sign that a society can mature faster than its leadership.

That leadership's childish effort to inflate a common border raid into an invasion does not inspire confidence in its honesty or good sense (recall the 1970 Nixon "incursion" into Cambodia for Orwellian resonance). That behavior is even more disquieting when one remembers that Nicaragua has negotiated a border control agreement with Costa Rica, and offered the same to Honduras, only to have any peaceful settlement blocked by the United States.

This is not the mature behavior of a great power seeking peace, but a dangerously im-

mature intransigence with tragic potential out of all proportion to any realistic threat.

The President and other proponents of this aid have said over and over that this war is different—that no American men will be sent to fight in Nicaragua. We heard that, and yet how quickly we forget. How quickly we are prepared to say that those 59,000 American lives were lost for nothing. Let me remind you what we heard back then:

"Using United States ground forces in the Indochina jungle would be like trying to cover an elephant with a handkerchief. You just can't do it." That was Senate Majority Leader Lyndon Johnson in 1954.

In 1961, Under Secretary of State George Ball told President Kennedy that "to commit American forces to South Vietnam would be a tragic error. Once that process started there would be no end to it. Within 5 years we'll have 300,000 men in the jungles and never find them again." The President responded: "George, you're just crazier than hell. That just isn't going to happen."

"I would oppose the use of United States troops as the direct means of suppressing guerrillas in South Vietnam." That was the Chairman of the Joint Chiefs of Staff in 1964.

"We have no plans at present to send combat troops to South Vietnam." Robert McNamara, 1964.

"I don't feel expanded use of American ground troops to be an effective addition to the war." Arizona Senator Carl Hayden, in 1965.

"The commitment of American troops anywhere on Asian soil is a mistake." Senator Carl Hayden, in 1966.

□ 2030

Those words unfortunately either meant nothing or were quickly forgotten. Then we were in the war, and we began to hear "we do not want to widen it".

Lyndon Johnson said: "The United States seeks no wider war."

Then he said: "We still seek no wider war."

General Westmoreland said: "The United States could not win militarily in a classic sense because of our national policy of not expanding the war."

All of that was said before the secret bombing of Cambodia.

Years later, after the repeal of the Gulf of Tonkin Resolution, Senator Fulbright, who had played an important role in its passage, had this to say:

In Vietnam we fought a long, costly and ultimately futile war with no more cover of constitutional sanction than the dubious and later discredited Gulf of Tonkin Resolution. To my lasting regret I played a major role in securing the enactment of that Resolution, which I surely did not anticipate would be invoked as legal sanction for a full-scale war. If the Gulf of Tonkin Resolution was, as claimed, the "functional equivalent" of a declaration of war, it must stand as the only instance in the nation's history in which Congress authorized war without knowing that it was doing so—indeed, in the belief, as the legislative history shows, that it was acting to prevent war.

Mr. President, this time we will vote with our eyes open.

If this debate accomplishes nothing else, it will at least prevent any Senator from saying regretfully years later that they did not know they were committing this country to a costly and prolonged war in Central America.

Historical analogies are never perfect. Vietnam in 1964 was a country of 40 million people half way around the world. It had the steady support of neighbors like China and the Soviet Union. Nicaragua has less than 3 million people and is in our hemisphere. I for one do not believe the Soviet Union would risk a direct confrontation with the United States over Nicaragua.

The differences between the two countries are important. But the parallels between the Vietnam war becoming an American war and what is occurring today in Central America, are unmistakable. The most striking analogy involves the administration's justification for U.S. aid to the Contras. In the 1960's, U.S. leaders viewed the war in South Vietnam as a challenge from Peking and Moscow that threatened the security of the West.

In much the same spirit, President Reagan has called Nicaragua the first casualty in the Soviets' game of dominoes in Central America. He said—

If we don't want to see the map of Central America covered in a sea of red, eventually lapping at our own borders, we must act now. Nothing less than the security of the United States is at stake.

Mr. President, the security of the United States is not at stake because of Nicaragua. If it is we are in great trouble.

Another striking similarity is that in both Vietnam and Nicaragua the United States began by trying to fight a proxy war and assume an advisory role. In Vietnam, we saw how much wishful thinking that proxy war was:

The first U.S. trainers arrived in South Vietnam in 1955. Inevitably, the trainers became advisers and the advisers became the planners and supervisors of tactical missions.

Increased involvement brought greater danger, and in 1962 President Kennedy said that American advisers in South Vietnam would shoot back if fired upon.

By the end of 1963 we were truly running the war. There were 15,000 American troops in Vietnam and U.S. aid to South Vietnam exceeded $500 million. In 1964 after the Gulf of Tonkin Resolution, the American troop buildup began in earnest. It peaked at 543,000 in 1969.

By 1969, that same year, the United States military had already intervened in Nicaragua a dozen times.

In 1962, U.S. Marines arrived in Nicaragua to protect the U.S. imposed President, Adolfo Diaz, from rebel forces seeking his overthrow. The administration defended the intervention to protect American economic interests, and to stop Central America from becoming "a base for communist activity against the United States."

In what historians have called America's first Vietnam, the United States became embroiled in a 6-year war with the forces of Augusto Sandino, Nicaragua's first nationalist hero. One more time not only did we blunder in but we blundered in on the wrong side. At the height of the intervention in 1929, over 5,000 marines were deployed in this little backward country. During the first year of Sandino's rebellion, the marines suffered 66 casualties.

The battle against Sandino became not a question of our national security nor of what might help the people of Nicaragua or anywhere else in Central America. It became simply a question of face saving for the United States.

By 1928, a tide of criticism was rising in Congress and the public of U.S. policy. Protesters were marching on the White House with signs reading "Wallstreet and Not Sandino Is the Real Bandit."

Many people quoted Will Rogers when he said: "Why are we in Nicaragua and what the hell are we doing there?" That summed up popular sentiment. There was no significant threat to U.S. security, and American soldiers were being killed. After Sandino killed eight more Marines, they were withdrawn altogether.

I would like to read some of the things Senators were saying about the Marines in Nicaragua in 1928. Their words will sound hauntingly familiar. Those Senators were saying the same things about U.S. policy in Nicaragua 58 years ago that we are saying today. Senator HEFLIN's uncle, the late Senator J. Thomas Heflin, was an eloquent and resolute opponent of U.S. military intervention in Nicaragua in 1928. This is what he said:

[From the Congressional Record, Mar. 20, 1928]

DEMAND OF RETURN OF MARINES FROM NICARAGUA

Mr. HEFLIN. Mr. President, I have on my desk a copy of the Washington Post of last Friday, I believe, stating that a thousand more American marines are going to Nicaragua. I do not know just how many marines or soldiers we have in Nicaragua. We must have some 10,000 or more. We have been in a state of war in Nicaragua for more than a year. I want to remind the Senate and the country that the Constitution has not been changed and that Congress is still charged with responsibility and is the only body that has authority to declare war and to conduct war. Yet the President of the United States

is conducting a war in Nicaragua, and here sits the Congress supinely bowing submissively to this usurpation of the power of Congress.

I wonder if Congress has made up its mind to surrender the right that belongs to it under the Constitution and permit the President to continue these operations in Nicaragua against natives who are fighting each day to preserve the independence of their country free from foreign interference.

Mr. President, this performance in Nicaragua is enough to make our Nation hang its head in shame. Sandino crying for liberty, begging for the deliverance of his country from the invader, sounds like the cries our fathers made in the days of the Revolution when they were asking that the British forces be withdrawn.

I have here an editorial from some paper entitled "Americans In '76 and Nicaraguans in '28," which reads in part, as follows:

"They will not surrender," said Benjamin Franklin to a member of the House of Commons in the American Revolution, "so long as they have their woods and their liberty."

"I shall never recognize a government imposed by a foreign power," said Sandino, head of the Nicaraguan revolutionists, in answer to Admiral Seller's inquiry concerning what condition Sandino would accept to lay down his arms.

They asked him upon what conditions he would surrender and turn over his government to the invader. Here is his reply:

I demand the immediate withdrawal of the [American] invading troops.

He had just said:

I shall never recognize a government imposed by a foreign power.

That is good American doctrine. That is the doctrine that we have inculcated in our children from Revolutionary days to this good time, and now we are in Nicaragua pursuing a patriot who is fighting for the same principle, and we are asking him upon what terms he will surrender.

Continuing, this editorial reads:

It was Edmund Burke, in his speech on conciliation of the American Colonies, who quoted with commendation Franklin's words on the floor of the British House of Commons.

What American will now quote with commendation these words of Sandino's on the floor of the American Congress?

Franklin's countrymen were rebelling against the oppression of their mother country.

Sandino's countrymen are rebelling not against their mother country but rather against the authority imposed upon them by a foreign nation. Sandino's men are striving to rescue the sovereignty of Nicaragua from the grip of a foreign power into which that sovereignty has been betrayed by the weakling—the American puppet—Diaz.

If Franklin was justified in predicting that the American colonists would never lay down their arms so long as they had their woods and their liberty, what American nowdays may justly find fault with Sandino and Sandino's men because these Nicaraguan liberals dare to better the instruction provided for them by American revolutionists of 1776?

We are seeking this man out to kill him for fighting for principles that we fought for in 1776. Some day the American people are going to send to this body Senators who will take the American viewpoint and seek to preserve this Government and hold it true to its constitutional purpose and limitations.

I also want to quote from a recent article in the Washington Post about one of the Marines who spent 2 years fighting Sandino. He returned to Nicaragua this year, at the age of 77, on a very different mission.

[From the Washington Post, Mar. 2, 1986]

IN NICARAGUA, AN EX-MARINE'S CAMPAIGN OF CONSCIENCE

(By Colman McCarthy)

Some people have a conscience; others, a conscience has them. Bill Gandall, 77, a retired labor organizer who lives in Juno Beach, Fla., is in the second group. He spent eight days recently in Nicaragua as part of a delegation of North Americans that presented 15 ambulances to the Sandinista government. Gandall helped raise $200,000 for the ambulances, which were shipped from Japan to Managua.

It was Gandall's second stay in Nicaragua. The first came in 1928 when, as a teen-aged Marine, he spent two years fighting Augusto Ceasar Sandino, the leader for whom the Sandinistas are named. "We never caught him," Gandall recalls, "because no matter how we tortured, we could never get people to inform."

As a Marine in Nicaragua, Gandall remembers the fervent way the corps spread U.S. democracy: "I shot a guy at the polls" in the fraudulent election of 1928. After that, it was "taking part in rapes, burning huts, cutting off genitals. I had nightmares for years. I didn't have much of a conscience while I was in the Marines. We were taught not to have a conscience."

The teaching didn't last long. Gandall left the Marines in his early twenties and went into union organizing. "That woke me up," he says. Another jolt was realizing the uselessness and destructiveness of current U.S. military intervention in Nicaragua: "It's a disaster to support the contras because they are mostly led by former Somoza people. I saw some of the atrocities committed by them. They learned from the Marines and carried on our work."

The efforts of Gandall—a man prodded by his conscience to make reparations—are a positive contrast to the drive by the Reagan administration to rearm and refund the contras. As much as $130 million is expected to be requested. The significance of someone like Bill Gandall is that he represents the third—and usually hidden—side in the debate. He is one of a large number of North Americans who, while opposing the waste of money on the contras, is working to increase personal nongovernmental aid to the Nicaraguan government.

The breadth of the movement is seldom reported.

A freighter is now sailing from a port in New Brunswick, Canada, to Nicaragua loaded with 560 tons of clothing, medical supplies, corn, grain, books, fishing equipment and other goods. A major force behind the shipment is Bernard Sanders, the mayor of Burlington, Vt. About two years ago, wanting to go beyond mere complaining that funding the contras was neither moral nor practical, Sanders persuaded the citizens of Burlington to commit themselves to their own foreign-aid program.

The mayor, stating the obvious, which seems to keep being forgotten, said: "Instead of invading Nicaragua and spending tremendous amounts of tax dollars on a war there, money which could be much better used at home, it seems to me that it would be worthwhile for us to get to know the people of Nicaragua, understand their problems and concerns, and see how we can transform the present tension-filled relationship into a positive one based on mutual respect."

About the contras, a recent report documented "a pattern of indiscriminate attacks against civilian targets, kidnappings, rapes, assassinations, mutilations and other forms of violence."

According to Bill Gandall, that's the story of the Marines in 1928. The difference between then and now is that the United States paid American kids to brutalize Nicaragua. Now we pay Nicaraguans directly. Either way, Gandall's conscience won't be still.

The United States failed to eliminate Sandino during the 6-year occupation, but it did accomplish another objective—to create, train, and equip the Nicaraguan National Guard. American officials selected Anastacio Somoza as its leader.

Somoza transformed the National Guard into a political-military machine to achieve his own political ambitions. It was used to murder Sandino, and to maintain what would become the most corrupt and enduring dictatorship in Latin American history.

The Somoza family ruled Nicaragua single-handedly for over four decades with the open approval of the United States. Their brutal and corrupt regime decimated the country. By 1979, when the Sandinistas ousted Somoza in a guerrilla war that attracted broad popular support, the country was among the poorest in the hemisphere.

While belatedly congratulating the Nicaraguans for overthrowing a dictatorship the United States installed and treated as a friend, the President now supports an insurgency led by Somoza's former officers.

The President says "American troops have not been asked for and are not needed," but the Secretary of State was more honest when he said that sending U.S. troops "must realistically be recognized as an option given our stakes in the region."

The administration's actions speak for themselves.

Mr. President, I ask how much time remains to the Senator from Vermont?

The PRESIDING OFFICER. The Senator has 1 hour and 10 minutes remaining.

Mr. LEAHY. I thank the President.

In the past 4 years, the United States has built new airfields in Honduras, staged war games there involving tens of thousands of United States troops, and equipped and trained thousands of Honduran and Contra soldiers.

I recall someone from the administration testifying one time about how we have to do this. We have to do these things because the Cubans are sending doctors and teachers to Nicaragua who spend an hour every day teaching communism.

Mr. President, I asked a member of the administration how many doctors and teachers we are sending down there who spend an hour every day teaching about democracy?

I was told we do not have a program for that, it was too expensive.

□ 2040

With all that we have spent on military exercises to intimidate the Nicaraguan Government, to bolster either the Hondurans or others to back our policy, we could flood Central America with doctors and teachers, with agronomists and nutritionists. We could send people who could help remove the real enemies of the people of Central America, the enemies of illiteracy and hunger and poverty. To help create the kind of a middle class that is the best buffer against revolution, to remove the enormous gap between the haves and the have nots.

Mr. President, I think I know my colleagues in the Senate very, very well. Just about any of us would be a revolutionary if we were among the downtrodden and the poor and the deprived in those countries.

I remember when the Contras were nothing more than a gleam in the President's eye. And now, of course, they are a force of 20,000. I remember when United States military aid to Nicaragua's neighbors was $10 million a year. Now it exceeds $200 million.

I remember the time when we did not have military trainers or advisers in Central America—when United States helicopters were not ferrying soldiers to the Honduran-Nicaraguan border; when we were not conducting aerial reconnaissance missions over Nicaragua; when we did not have radar stations or Navy ships stationed there.

All that has changed.

The lessons of Vietnam are not that Central America and Southeast Asia are the same, nor that the United States should never fight another war. I hope we never have to. Rather, they have to do with when it is worth killing and being killed for your country, and how to bring democracy to a country battered by years of dictatorship.

Mr. President, the administration has not leveled with the American people about the full costs and implications of this war.

The American people remember Vietnam. They remember seeing on the evening news how that country was destroyed—the pictures of weeping mothers and fathers holding the bleeding, lifeless bodies of their children. They do not want that tragedy replayed in our own hemisphere.

Mr. President, I remember it well. I remember the effect it had on me and my family and my children.

The American people do not want their sons to fight it. They do not want their tax dollars used to pay the Contras to fight it for them.

If we approve the President's request for this aid, we will be responsible for the bloodshed that will follow.

Twenty thousand Contras and $100 million will not bring down the Sandinistas, any more than the $150 million that they will need next year. Mr. President, we will keep pouring the money in to overthrow the Government of Nicaragua. And we will find that it does not work and the killing will go on. Eventually, if history is any prelude—and it is, it is in this case—the American advisers will become American fighters. And for what? To enhance the security of the United States? Is the Sandinista army going to march into the United States? They cannot even feed their own people.

Are they going to march on Texas? I will put my money on the Texas National Guard. And I do not mean that facetiously.

Ultimately, if we are going to achieve the President's goal, we will have to send in American troops.

And if, with the help of U.S. troops, the Contras are able to seize power, does anyone believe that the Sandinistas will simply lay down their arms? Is it not more likely that they will go back to the hills—the hills they know so well—and continue to fight a government now imposed on them by the same foreign power that gave them the Somozas?

And how would a new government survive unless we sustain it economically and militarily, probably for decades?

There is another way.

Contadora has not succeeded, but contrary to the administration's claim, it has not failed. It has not succeeded because the United States has never become serious about supporting Contadora and about engaging in bilateral talks with Nicaragua. Our goal should be a regional settlement which provides for a complete termination of external support for insurgencies and noninterference in the internal affairs of the countries of the region.

Our national security is the first concern of those of us who oppose a military solution to this conflict. There should be no mistake—this is not a question of patriotism. Congress and the President should reach an understanding that the United States will act to prevent a Soviet or Cuban challenge in Central America. This includes a prohibition on Soviet or Cuban military bases and on the placement of advanced offensive weapons from the Soviet bloc. The United States should provide congressionally approved security guarantees to Nicaragua's neighbors.

The United States should provide full political, economic, and, where necessary, military support to the emerging democracies of the region. We cannot force the Sandinistas to change their domestic policies. That will be up to the Nicaraguan people, who have no more in common with the Soviets than their Guatemalan and Honduran neighbors do. The sooner they stop thinking of the United States as their enemy, the sooner they will lose patience with policies that restrict their freedom.

Mr. President, I have gone to a number of refugee camps in Central America. I spoke to the people who have been displaced. They have lost their families, because of this war, lost everything they have.

I remember talking to a woman whose family had been killed. I said, "Who did it?" She said, "I don't know." I said, "Did you try to find out? Was it the Contras or Sandinistas? She said, "No; you don't go back and ask questions like that."

I said, "Well, whose side are you on, the opposition, or the government?" She said, "All I wanted to do was live. All I wanted to do was raise my children. All I wanted to do was to have my family." She said, "I'm not interested in politics."

What do we say to the people of Nicaragua when their own government can say: "You must go without. We cannot give you the things you want because the United States is trying to destroy us. The United States is sending the CIA. The United States is supporting the Contras. We have got to rally together." Why do we have to continue to be the enemy in Nicaragua?

Mr. President, it was not easy for the United States to get into a war that cost the lives of tens of thousands of Americans and millions of Indo-Chinese. Vietnam was not a quagmire in the sense that we somehow stumbled blindly into it and were unable to get out, despite our best efforts.

□ 2050

It took enormous amounts of time, money, and the energies of a great many people to get half a million American troops into that war. The American people do not want their country to fight a war in Nicaragua and they never will.

Mr. President, the Senate of the United States should be the conscience of the Nation. Many throughout our 200-year history have thought of it that way. People across this country, Republicans, Democrats, Independents, Conservatives, Liberals, Moderates, all parts of the country, are crying out to us. Their consciences are speaking, and they are saying to us, the conscience of the Nation, speak for us; stop this war.

We are the greatest power in the world, not just because of our military power, not just because of our economic power, but because of the power of

our ideals, and the power of our example. We are the longest existing democracy on the face of this Earth. Our ideals shine as a beacon to countries throughout the world on both sides of the Iron Curtain and in the Third World. We have resisted terrorism in so many other parts of the world, let us show we will not support terrorism in our own hemisphere. This country that has shown the magnificence of a Marshall Plan can also find ways to bring people within our own hemisphere out of poverty.

Let's put an end to this hopeless struggle and get on with a policy worthy of the United States of America.

Mr. President, how much time remains to the Senator from Vermont?

The PRESIDING OFFICER. The Senator has 55 minutes remaining.

Mr. LEAHY. Mr. President, I withhold the balance of my time.

The PRESIDING OFFICER. Who yields time?

If no one yields time, the time will be charged equally.

AMENDMENT NO 2700

(Purpose: To strike out titles II and III of the bill.

Mr. SASSER. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Tennessee [Mr. SASSER] proposes an amendment numbered 2700.

On page 21, beginning with line 1, strike out all down through line 15 on page 51.

Mr. SASSER. Mr. President, the amendment that I just called up will be the pending business tomorrow, and I now yield the floor to the Senator from Connecticut who will be speaking on his own time under the unanimous-consent agreement.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Mr. President, first, I ask unanimous consent to be named as a cosponsor of the Sasser amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Mr. President, though the hour is getting late, I feel I would be remiss as we pursue this debate today on the Central American question if I did not take a few minutes to try to outline myself what I feel are the central questions before us.

We just heard a very empassioned and strongly felt set of views by the distinguished Senator from Vermont. We have listened earlier today to other Members of the Senate on both sides of this issue express their views. Over the next several days this body will try to address and deal with, in the time we have remaining under this unanimous-consent request, some 31 different amendments on this issue alone, and I think at least that number if not more on the question of sanctions on South Africa.

I see my good friend and colleague and chairman of the Foreign Relations Committee sitting across the way. He has a long week in front of him. So I am going to try to keep these remarks brief.

As he knows, this issue, particularly for this Member of the Senate, has been one that I have lived with during my first 5 years in the Senate; in fact, I first offered an amendment on this issue in December 1982 in opposition to Contra aid in Nicaragua. But I happen to feel that the amendment just offered by our colleague from Tennessee is the central amendment. To me, this will be the vote, by and large. All these other amendments that will be offered will try to improve one way or the other the particular question struck by this amendment.

With all due respect, in fact, I have a couple of amendments that I may raise on all of this. Yet those amendments do not address the central question, while that of the Senator from Tennessee's does. If I understand the unanimous-consent agreement properly, sometime around 10 or 11 o'clock tomorrow morning, August 12, we will fundamentally decide whether or not this country is going to go forward, finance, and fund this Contra operation.

So to me this is the central vote. The question of whether or not some of the Contras are doing things that we do not find particularly attractive, or that the Sandinistas do things that we find deplorable, are significant questions but they do not address the fundamental, central question of whether or not this policy, this particular choice of solutions, is in the best interests of the United States.

We have heard over the last 4 years, 4 or 5 years, a debate that has tried to frame this question in a way I think which does not really address what we have to decide as Members of this body.

Each and every one of us stood in this well not very far from where I am standing here this evening, and to one Vice President or another acting as the President of this Chamber raised our right hands and we took an oath. We swore to defend and uphold the Constitution of the United States, and to protect the interests of this country. That is our job here, whether we be Republicans, Democrats, conservatives or liberals. We have sworn to do whatever we can to see to it that our country, our Nation, would be safe, would be secure with its ideals and its values, and would be perpetuated in such a way that another generation yet unborn could serve in this Chamber and carry on the debates of their day.

□ 2100

My problem with this particular question of Contra aid is not over whether or not one likes the Contras, not over whether or not one can accept the Sandinistas, or to try to make choices between those two groups of people. The question should be fundamentally whether or not this particular approach advances the interests of the United States and its allies.

If it does, it ought to be pursued. If it does not, we ought to seek another course.

I have felt from the very beginning that this particular approach is not in our interest. For that reason, we ought to seek another course.

I do not reject the notion that military force is a legitimate way to extend your legitimate foreign policy interests. Time and time again, regrettably, we have had to use force in order to extend those interests. So we ought never to say that we would never use military force.

I do not subscribe or join those who would embrace that particular point of view.

But I do embrace the view that says that military force for a great power, a power that does embrace the values of democracy, liberty, that we so frequently talk about on the most meaningful holidays of this country, implies a responsibility that that great power ought to be very judicious—very, very judicious—in the exercise of the use of that military power; that if you use that power inappropriately, in an untimely fashion, or prematurely or too late, then great powers such as ours can be hurt—hurt seriously and deeply for years to come.

So the question is not whether or not we ought to use military power. I reject that at this particular juncture. I think there is a better way to proceed in Central America.

The question ought to be before us, how do we deal with this problem? How do we confront this problem that we perceive? What is that problem? Is the problem merely the emergence of a Marxist state in Nicaragua? Does that state and the leaders in that country pose such a serious threat to this country that they ought to be dealt with quickly and at great risk? Is that the only question?

If it is, I would suggest we are choosing the wrong means to deal with that. If, in fact, that is the problem, it is unclear to this Senator having listened to the various rationales that have been offered over the last 4 years as to in fact what is the central question to this administration; if during the summer of 1986 the question is: How do we get rid of the Sandinistas, Daniel Ortega, and all who have joined them, then it seems to me that in that little country we are choosing

the wrong means, that there are other alternatives to us and we ought to possibly exercise those means.

If the question is how do we bring peace and stability and improve the economic development of that country, to shore up democracies that are fragile, it seems to me we ought to be looking in another direction rather than merely casting fuel into a situation that could explode in our very face.

It seems to me we probably will be casting that fuel, and given the inclination of the Members as I judge it this evening, tomorrow at about 10 or 11 o'clock the Senate will vote to support Contra aid.

But I would suggest that once you start down that road, once you made that decision, as we all have learned painfully over the years, once you begin that process, it becomes so much harder to change that course for individual Senators and for the entire body in the Senate because of all the problems associated with retreating from policy.

Tomorrow morning I suggest we are going to start down that course, down that road, and my great fear is that it is going to lead to a situation that is going to become uncontrollable, that we are going to see countries that are struggling—Guatemala, a fragile democracy; Costa Rica, in desperate shape economically; El Salvador, trying to resolve its own internal conflict—countries that are struggling to join the democractic nations of the world, affected in a very, very adverse way.

This policy, it seems to me, is one that ought to be rejected; we ought to try and seek a better course. We might at some future date be able to deal with this. But in the interim, it seems to me that we ought to try to see if there is not a better way of resolving those concerns we have and of understanding the problems that we face in this region.

If the Senate supports and joins this decision to move forward on Contra aid, I would suggest it would be a fundamental break of 50 years of history in this hemisphere.

It was a little more than 50 years ago that Franklin Roosevelt initiated a Good Neighbor policy throughout Latin America. It was not a perfect policy. The Roosevelt administration supported Trujillo and supported other dictators throughout the hemisphere. But it was an effort to change what had been a history of almost a century of U.S. activity there characterized primarily by military intervention.

Franklin Roosevelt tried to change that course of history, to move us in a different direction. Every President, by and large, Republican and Democrat, one way or the other has tried to advance that fundamental notion that Franklin Roosevelt initiated some 50 years ago.

We can see it in the creation of John Kennedy's Alliance for Progress Program, the Food for Peace Program, the Peace Corps Program, efforts to try to resolve difficulties through diplomatic means, the Ford-Nixon administrations, all desperately trying to move the hemisphere forward, to try to shore up the alliances between one nation and another, obviously, with the United States being a central ingredient to all of that.

Even on the Panama Canal treaties, debated for 30 days in this body, today those who were the most severe critics of those treaties during their consideration in this body, the Reagan administration, the President himself, admit that in fact those treaties are working, and the interests of the United States are not being harmed but, in fact, enhanced.

I would suggest over these last 50 years we have moved in the direction that has improved the quality of life, that has strengthened our own interests, because we have sought means by and large that would improve the relationships rather than to risk and endanger or raise the prospects of war.

I think it is interesting to consider an event, Mr. President, going back some 24 years ago when President Kennedy assumed office and tried to deal with the newly established government of Fidel Castro in Cuba.

The Bay of Pigs is something all of us have read about and followed over the last 24 years. The Bay of Pigs did not work. It was a failure. There are a lot of reasons that people can argue why it failed. Nonetheless it failed.

We stood pretty much alone in that effort. Even had there been the backing and support of the U.S. military, there are many who would suggest that even with that support it would not have succeeded, and even had it succeeded there would have been significant damage. We would have paid for it.

Since that time, or in the following years, of course, we were confronted with a far more serious situation in Cuba, the Cuban missile crisis, that situation posing a far greater threat.

President Kennedy sought a different solution. In 1962 during the Cuban missile crisis, a far more serious and threatening situation for the United States, President Kennedy went out and sought the support of other nations in this hemisphere and around the world that would say to the Castro government that they would not tolerate missiles and, if necessary, would use military force to deal with them.

That situation was resolved by the missiles being removed. A shot was never fired. The United States had the broad-based support of countries throughout this hemisphere in that particular effort.

I think those examples, the examples of the Bay of Pigs and the Cuban missiles crisis, are extremely illustrative of an approach.

We have an opportunity, it seems, in Central America to deal with this issue by building a broad coalition of nations that would look for diplomatic and political means to resolve those difficulties and minimize those threats. That opportunity, I think, still exists. We ought to be taking every advantage of that opportunity to try to pursue that approach.

It is interesting to note that in the last 7 years we have seen more countries in Latin America embrace democratic forms of government: Argentina, Peru, Brazil, Uruguay, of course Colombia, Venezuela, and Guatemala. All have chosen that particular form of government, even with the fact that they are still very fragile, very delicate. They want to be moving in that direction, and hope to establish their own democratic tradition.

□ 2110

That to me is a unique opportunity, it seems, to try to build on that base, to shore up those democracies and to see to it that that form of government becomes the choice of other nations that have yet to move in that particular direction.

The general economy of this region is a shattered one. These nations are in an almost impossible debt situation; there is malnutrition, hunger, and disease, throughout this region. It seems to me that that ought to be, as well, a part of our goals. The issue should be for us not just how to deal with the Sandinistas, but how to deal with these broader questions as well.

Again, my hope would be that we would move in that direction.

We cannot formulate or write a policy as part of an amendment process during consideration of a bill on the floor of the Senate. We do not have that opportunity; it is not the place to do it. But we do have an opportunity at least to start that process, it seems to me, if we reject this present course, the one that is before us this evening, the one that will be before us tomorrow morning. That is to reject this request of $100 million, to reject this disasterous process, before we get into an abyss from which we are apt to spend years trying to extricate ourselves.

So, Mr. President, my hope would be that the Sasser amendment will be adopted, that we would start getting on the right track here, that we would say to this administration, Democrats and Republicans alike, that we are not rejecting the goals of trying to bring some peace and stability to Central America; it is a rejection of means.

We all share the common concerns the President has identified and

talked about, but just sharing those goals is not enough. It seems to me we also have to come to some terms about a policy, not a policy that passes the House of Representatives by 5 votes or 10 votes or one that squeaks by the Senate with 3 votes or 4 votes, but one that can enjoy a broad base of support here and across the country and which we can sustain for a period of years.

This issue will not be resolved, obviously, by the vote that is cast tomorrow or next week, but is one that we will have to deal with for many, many months to come. It seems to me the sooner we start to move toward a policy that makes sense, one that our allies throughout Central America and the rest of the world can embrace jointly with us, the better off we will be in achieving the kinds of goals, the success that the President has talked about and others have discussed as well.

Tomorrow morning, Mr. President, with the Sasser amendment being raised as, I believe, the first order of business, my hope would be that our colleagues will support that amendment, that we would build a majority for it, that we would say to the President that we are willing to be supportive in a bipartisan fashion on a policy for Central America. But the current administration policy is not the course we want to follow. This is not the cloak that we want to drape ourselves in. It is one that we will have, it seems to me, great difficulty in shedding in the months and years ahead once we begin that process of greater involvement.

Mr. President, I urge that tomorrow, our colleagues support this amendment and that we get about the business of trying to bring some peace and stability to this region and try to fashion a policy all Americans can be proud of.

Mr. President, I yield back the remainder of my time.

(Mr. LUGAR assumed the Chair.)

Mr. SASSER. Mr. President, I thank the Senator from Connecticut for his remarks this evening. I think they have been most illuminating. The observation of the Senator from Connecticut that once we initiate policy and once we are committed to a particular course of action, it makes it doubly difficult to pull back from that policy because of various and sundry commitments that have been made, is, I think, a very telling observation.

Mr. President, I yield the floor.

Mr. DODD. Mr. President, will the Senator yield?

Mr. SASSER. I have yielded, Mr. President.

Mr. DODD. Mr. President, a moment ago, I said I yield back the remainder of my time. I ask unanimous consent that I be allowed to reserve 12 minutes that I think I have remaining under the unanimous consent agreement.

The PRESIDING OFFICER. Without objection, it is so ordered.

## ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent that there be a period for the transaction of routine morning business not to extend beyond the hour of 9:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

## UNANIMOUS CONSENT AGREEMENT ADDITIONS

Mr. DOLE. Mr. President, if the distinguished minority leader is ready, the first thing I have is unanimous consent additions. I ask unanimous consent that the unanimous consent agreement of August 9 be amended to add four amendments as follows: HELMS' antiterrorist substitute—germane or relevant; HELMS' landing rights for political purposes—germane or relevant; two amendments by the distinguished minority leader, germane or relevant.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. Mr. President, reserving the right to object. The reason for these four amendments being added at this time is the two by Mr. HELMS were on the Republican list. We were not able to check the list on this side, but my staff member saw the list and knows the names were on there, so they were inadvertently left off the list. I asked for two amendments, germane or relevant, to be included on the list. They were left off inadvertently. So I have no objection.

I think this statement should be made for the RECORD so other Senators will not feel that the distinguished majority leader and I came in at this hour and are adding amendments. These were inadvertently left off the list, and I think it would be only fair to the authors thereof to include them at this time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Mr. President, I thank the distinguished minority leader.

## THE CALENDAR

Mr. DOLE. Mr. President, I inquire of the distinguished minority leader if he is in a position to pass or indefinitely postpone any of the following calendar items: starting with Calendar No. 757, then 758, 760, 761, 763, 765, 766, 767, 796.

Mr. BYRD. Mr. President, all of the items that have been identified by the distinguished majority leader have been cleared by all Members on this side and we are ready to proceed.

Mr. DOLE. Mr. President, I ask unanimous consent that the calendar items just identified be considered en bloc and passed or indefinitely postponed en bloc and that all committee-reported amendments be considered agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PROGRAM OF CLEANUP AND MAINTENANCE ON PUBLIC LANDS, PARKS, AND RECREATION AREAS

The Senate proceeded to consider the bill (S. 1888) to provide for a program of cleanup and maintenance on Federal public lands, national parks, recreation areas, and for other purposes, which had been reported from the Committee on Energy and Natural Resources, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italic.)

A bill to provided a program of cleanup and maintenance on Federal public lands, national parks, recreation areas, and for other purposes

S. 1888

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SHORT TITLE

SECTION 1. This Act may be cited as the [Public Lands] *"Federal Lands* Cleanup Act of 1985".

FINDINGS

SEC. 2. Congress finds that—

(1) [public lands,] *Federal lands,* parks, recreation areas, and waterways provide recreational opportunities for millions of Americans each year;

(2) the [public lands] *Federal lands* administered by the several Federal land management agencies contain valuable wildlife, scenery, natural and historic features, and other resources which may be damaged by litter and misuse;

(3) it is in the best interest of our country and its citizens to maintain and preserve the beauty, safety, and availability of these [public lands;] *Federal lands;*

(4) these land management agencies have been designated as the caretakers of these [public lands] *Federal lands* and have been given the responsibility for maintaining and preserving these areas and facilities;

(5) there is great value in volunteer involvement in maintaining and preserving [public lands] *Federal lands* for recreational use;

(6) the Federal land management agencies should be concerned with promoting a sense of pride and ownership among citizens toward these lands;

(7) the use of citizen volunteers in a national cleanup effort promotes these goals and encourages the thoughtful use of these [public lands] *Federal lands* and facilities;

(8) the positive impact of annual cleanup events held at various recreation sites has already been proven by steadily declining levels of litter at these sites; and

(9) a national program for cleaning and maintaining [public lands] *Federal lands* using volunteers will save millions of tax dollars.

DESIGNATION OF PUBLIC LANDS CLEANUP DAY

SEC. 3. The first Saturday after Labor Day of each year is designated as ["Public Lands] *Federal Lands* Cleanup Day". The President shall issue a proclamation calling upon the people of the United States to observe [Public Lands] *Federal Lands* Cleanup Day with appropriate ceremonies, programs, and [activities.] *activities: Provided, however, That the activities associated with Federal Lands Cleanup Day may be undertaken in individual States on a day other than the first Saturday after Labor Day if the affected Federal land managers determine that because of climatological or other factors, an alternative date is more appropriate.*

FEDERAL PARTICIPATION IN [PUBLIC LANDS] *FEDERAL LANDS* CLEANUP DAY

SEC. 4. (a)(1) In order to observe [Public Lands] *Federal Lands* Cleanup Day at the Federal level, each Federal land management agency shall organize, coordinate, and participate with citizen volunteers and State and local agencies in cleaning and providing for the maintenance of Federal public lands, recreation areas, and waterways within the jurisdiction of such agency.

(2) For purposes of this Act, the term "Federal land management agency" shall include—

(A) the Forest Service of the Department of Agriculture;

(B) the Bureau of Land Management of the Department of the Interior;

(C) the National Park Service of the Department of the Interior;

(D) the Fish and Wildlife Service of the Department of the Interior; [and]

*(E) the Bureau of Reclamation of the Department of the Interior; and*

[(E)] *(F)* the Army Corps of Engineers.

(b) Each Federal land management agency shall [plan] *plan for and carry out* activities on [Public Lands] *Federal Lands* National Cleanup Day which—

(1) encourage continuing public and private sector cooperation in preserving the beauty and safety of areas within the jurisdiction of such agency;

(2) increase citizen's sense of ownership and community pride in such areas:

(3) reduce litter on [public lands,] *Federal lands,* along trails and waterways, and within such areas; and

(4) maintain and improve trails, recreation areas, waterways and facilities.

Such activities shall be held in cooperation with appropriate State, county, and local government agencies.

[(c)(1) Before the first Public Lands Cleanup Day occurring after the date of enactment of this Act, each Federal land management agency shall prepare a plan for such day which shall include—

[(A) a listing of the sites to be involved in the cleanup activities;

[(B) an explanation of how the agency will coordinate and work with national and local civic groups and volunteers in the cleanup effort;

[(C) if applicable, an explanation of how the agency will utilize existing volunteer cleanup activities at these sites; and

[(D) a listing of the State, county, and local governmental entities to be included in the cleanup effort.

[(2) Within ninety days after the first Public Lands Cleanup Day occurring after the date of enactment of this Act, each Federal public lands management agency shall report to Congress with respect to the success of such agency in observing Public Lands Cleanup Day and in implementing the agency plan.]

*(c)(1) Within ninety days following the first Federal Lands Cleanup Day occurring after the date of enactment of this Act, each Federal land managment agency shall provide a summary report to Congress briefly outlining the types of activities undertaken; the sites involved; the nature and extent of the volunteer involvement; the cost savings realized from the program and the overall success of such agency in observing Federal Lands Cleanup Day.*

*(2) Such reporting requirements shall remain in effect for two years after the submission of the first report.*

The amendments were agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

The title was amended so as to read: "A bill to provide for a program of cleanup and maintenance on Federal lands."

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay on the table the motion to reconsider.

The motion to lay on the table was agreed to.

## RELEASE OF RESTRICTIONS ON THE CONVEYANCE OF CERTAIN LANDS

The Senate proceeded to consider the bill (S. 1911) to direct the Administrator of General Services to release, on behalf of the United States, certain conditions and reservations contained in a conveyance of land to the State of Utah, which had been reported from the Committee on Energy and Natural Resources, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italic.)

S. 1911

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. RELEASE OF CONDITIONS AND RESERVATIONS.

(a) RELEASE.—[Not later than thirty days after the date of enactment of this Act,] *Subject to subsection (c) of this section,* the Administrator of General Services shall execute such instruments as may be necessary to release the conditions and reservations set forth in subsection (b) as they apply to the land described in section 2.

(b) CONDITIONS AND RESERVATIONS DESCRIBED.—The conditions and reservations referred to in subsection (a) are—

(1) the condition that such land be used only as and for the conservation of wildlife, other than migratory birds, and that in the event such land is no longer used for such purposes, the title and immediate right to possession of such land shall revert to the United States;

(2) the condition that in the event the President of the United States, the Congress of the United States, the Secretary of Defense of the United States, or the Secretaries of the Army, Navy, or the Air Force, or either of them, make a determination that such land is needed for national defense purposes, the title and immediate right of possession to such land shall revert to the United States;

(3) the reservation to the United States of the right to enter upon such land at any time and prospect for, mine and remove uranium, thorium, and all other minerals determined pursuant to section 5(b)(1) of the Atomic Energy Act of 1946 (60 Stat. 781) to be peculiarly essential to the production of the fissionable material, and oil, gas, and other minerals in such land.

*(c) In consideration for the release authorized in subsection (a) of this section, the State of Utah shall pay to the United States the fair market value of the land described in section 2 of this Act or acquire land which shall be subject to the same conditions and restrictions as the land originally conveyed and which provides an equivalent wildlife conservation habitat as determined by the Secretary of the Interior.*

SEC. 2. LAND DESCRIPTION.

The land referred to in section 1(a) is approximately one hundred and fifty acres, more or less, in Salt Lake County, Utah, which comprises a portion of approximately one thousand two hundred and eighty acres of land conveyed by the United States to the State of Utah by quitclaim deed dated July 26, 1950, and recorded on August 1, 1950, in book 786, page 48, of the official land records of Salt Lake County, Utah. Such land is more particularly described as follows:

All that portion of the east half of section 14, township 1 south, range 2 west of the Salt Lake Meridian, Salt Lake City, Salt Lake County, State of Utah, lying easterly of that certain parcel of land conveyed by the United States of America to Utah Power and Light Company by quitclaim deed recorded as Entry Numbered 1182555 in the records of said county.

Excepting therefrom the rights of way of 1300 South Street, 5600 West Street, and 2100 South Street.

Said parcel contains an area of one hundred and fifty acres, more or less.

The amendments were agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay on the table the motion to reconsider.

The motion to lay on the table was agreed to.

## ACQUISITION OF PUBLIC LANDS

The bill (S. 2091) to amend the provisions of the Federal Land Policy and Management Act of 1976 relating to the acquisition of public lands, was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S. 2091

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That section 205 of the Federal Land Policy and

Management Act of 1976 (43 U.S.C. 1715(c)) is amended—

(1) in the first sentence of subsection (c) by striking out "Lands and interests" and inserting in lieu thereof "Except as provided in subsection (e), lands and interests"; and

(2) by adding at the end thereof the following new subsection:

"(e) Lands acquired by the Secretary pursuant to this section or section 206 in exchange for lands which were revested in the United States pursuant to the provisions of the Act of June 9, 1916 (39 Stat. 218) or reconveyed to the United States pursuant to the provisions of the Act of February 26, 1919 (40 Stat. 1179), shall be considered for all purposes to have the same status as, and shall be administered in accordance with the same provisions of law applicable to the revested or reconveyed lands exchanged for the lands acquired by the Secretary.".

Mr. DOLE. Mr. President, I move to reconsider the vote.

Mr. BYRD. I move to lay on the table the motion to reconsider.

The motion to lay on the table was agreed to.

## BOUNDARY MODIFICATION TO THE HUMBOLDT NATIONAL FOREST

The bill (H.R. 850) to modify the boundary of the Humboldt National Forest in the State of Nevada, and for other purposes, was considered, ordered to a third reading, read the third time, and passed.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay on the table the motion to reconsider.

The motion to lay on the table was agreed to.

## SUPPORT OF NATIONAL MARITIME MUSEUM IN SAN FRANCISCO, CA

The Senate proceeded to consider the bill (H.R. 1343) to authorize the use of funds from rental of floating drydock and other marine equipment to support the National Maritime Museum in San Francisco, CA, which had been reported from the Committee on Energy and Natural Resources, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italic.)

H.R. 1343

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That section 4(f) of the Act entitled "An Act to establish the Golden Gate National Recreation Area in the State of California, and for other purposes", approved October 27, 1972 (Public Law 92-589; 16 U.S.C. 460bb-3(f)) is amended by—

(1) inserting in the second proviso after the words "the administration of said parcels" the following "and of the AFDL-38 Drydock or other vessels or heavy marine equipment,"; [and]

(2) striking out "for the management of said parcels of property" in such proviso and substituting "for the management (including rental or lease) of said [properties".] *properties; and*

*(3) inserting in the first paragraph after the words "National Maritime Museum," the word "and" and deleting ", and for a coordinated public and private access system to and within the recreation area and other units of the national park system in Marin and San Francisco Counties".*

SEC. 2. (a) Section 4(e) of the Act of October 27, 1972 (16 U.S.C. 460bb-3; 92 Stat. 3486), is amended by deleting the phrase ", for a period not exceeding five years from the date of the enactment of this legislation," and by inserting after "sailing vessel Balclutha" the following new phrase "and other historic vessels of the National Maritime Museum."

(b) Notwithstanding any other provisions of law, moneys collected pursuant to section 4(e) of the Act of October 27, 1972 (16 U.S.C. 460bb-3; 92 Stat. 3486), since November 10, 1983, shall be deemed to have been collected in accordance with such section as amended by this Act.

The amendments were agreed to.

The amendments were ordered to be engrossed and the bill to be read a third time. The bill was read the third time, and passed.

Mr. DOLE. I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## AUTHORIZATION OF APPROPRIATIONS FOR CERTAIN HISTORIC SITE AND NATIONAL MEMORIAL IN PENNSYLVANIA

The bill (H.R. 1963) to increase the development ceiling at Allegheny Portage Railroad National Historic Site and Johnstown Flood National Memorial in Pennsylvania, and for other purposes and to provide for the preservation and interpretation of the Johnstown Flood Museum in the Cambria County Library Building, Pennsylvania, was considered, ordered to a third reading, read the third time, and passed.

Mr. DOLE. I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## TRUST LANDS FOR THE RENO SPARKS INDIAN COLONY

The bill (H.R. 3212) to decide that the United States holds certain lands in trust for the Reno Sparks Indian Colony, was considered, ordered to a third reading, read the third time, and passed.

Mr. DOLE. I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## EXCHANGE OF LAND FOR CAPE HENRY MEMORIAL SITE

The bill (H.R. 3556) to provide for the exchange of land for the Cape Henry Memorial site in Fort Story, VA, was considered, ordered to a third reading, read a third time, and passed.

Mr. DOLE. I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## NEZ PERCE (NEE-ME-POO) NATIONAL TRAIL

The Senate proceeded to consider the bill (S. 1542) to amend the National Trails System Act by designating the Nez Perce (Nee-Me-Poo) Trail as a component of the National Trails System, which had been reported from the Committee on Energy and Natural Resources, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italic.)

S. 1542

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the National Trails System Act (82 Stat. 919), as amended, is further amended as follows: Section 5(a) is amended to insert the following new paragraph:

"[16]*"(14)* The Nez Perce National Historic Trail, a route of approximately eleven hundred and seventy miles extending from the vicinity of Wallowa Lake, Oregon, to Bear Paw Mountain, Montana, as generally depicted in 'Nez Perce (Nee-Me-Poo) Trail Study Report' prepared by the Department of Agriculture and dated March 1982. The report shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Washington, District of Columbia. The trail shall be administered by the Secretary of [Agriculture."] *Agriculture. No lands or interests therein outside the exterior boundaries of any federally administered area may be acquired by the Federal Government for the Nez Perce National Historic Trail. The Secretary of Agriculture may designate lands outside of federally administered areas as segments of the trail upon application from the States or local governmental agencies involved if such segments meet the criteria established in this Act and are administered by such agencies without expense to the United States. So that significant route segments and sites recognized as associated with the Nez Perce Trail may be distinguished by suitable markers, the Secretary of Agriculture is authorized to accept the donation of suitable markers for placement at appropriate locations. Any such markers associated with the Nez Perce Trail which are to be located on lands administered by any other department or agency of the United States may be placed on such lands only with the concur-*

*rence of the head of such department or agency.".*

*AUTHORIZATION OF APPROPRIATIONS*

*SEC. 2. There are authorized to be appropriated $550,000 to carry out the purposes of this Act.*

The amendments were agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

Mr. DOLE. I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## STRENGTHENING THE POSITION OF CHAIRMAN OF THE JOINT CHIEFS OF STAFF

Mr. DOLE. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 3622.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

*Resolved,* That the House insist upon its amendments to the amendments of the Senate to the bill (H.R. 3622) entitled "An Act to amend title 10 United States Code, to strengthen the position of Chairman of the Joint Chiefs of Staff, to provide for more efficient and effective operation of the Armed Forces, and for other purposes", and ask a conference with the Senate on the disagreeing votes of the two Houses thereon.

*Ordered,* That Mr. Aspin, Mr. Nichols, Mr. Skelton, Mr. Mavroules, Mr. Dickinson, Mr. Hopkins, and Mr. Kasich be the managers of the conference on the part of the House.

□ 2120

Mr. DOLE. Mr. President, I move that the Senate disagree to the House amendments and agree to the conference requested by the House and the Chair be authorized to appoint conferees on the part of the Senate.

The motion was agreed to, and the Presiding Officer (Mr. LUGAR) appointed Mr. GOLDWATER, Mr. THURMOND, Mr. WARNER, Mr. HUMPHREY, Mr. COHEN, Mr. QUAYLE, Mr. WILSON, Mr. DENTON, Mr. GRAMM, Mr. BROYHILL, Mr. NUNN, Mr. STENNIS, Mr. HART, Mr. EXON, Mr. LEVIN, Mr. KENNEDY, Mr. BINGAMAN, Mr. DIXON, and Mr. GLENN.

## FALSE CLAIMS ACT AMENDMENTS

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate turn to the consideration of Calendar No. 742, S. 1562, a bill to amend the False Claims Act.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. Mr. President, there is no objection on this side.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1562) to amend the False Claims Act and title 18 of the United States Code regarding penalties for false claims, and for other purposes, reported with an amendment.

The Senate proceeded to consider the bill.

The PRESIDING OFFICER. The question is on agreeing to the committee amendment in the nature of a substitute.

The committee amendment in the nature of a substitute was agreed to.

AMENDMENT NO. 2701

(Purpose: To make technical and clarifying amendments)

Mr. DOLE. Mr. President, I send an amendment to the desk on behalf of Senator GRASSLEY and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE], for Mr. GRASSLEY, proposes an amendment numbered 2701:

Mr. DOLE. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 9, beginning with line 21, strike out through line 16 on page 42, and insert in lieu thereof the following:

That section 3729 of title 31, United States Code, is amended by—

(1) inserting "(a)" before "A person";

(2) striking out "$2,000," and inserting in lieu thereof "$10,000, unless the court finds:

"(A) the defendant furnished officials of the United States responsible for investigating false claims violations with all information known to such defendant about such violation within 30 days after the date on which the defendant first obtained the information;

"(B) the defendant fully cooperated with any Government investigation of such violation; and

"(C) at the time the defendant furnished the United States with the information about the violation, no criminal prosecution, civil action, or administrative action had commenced under this title, with respect to such violation, and the defendant did not have actual knowledge of the existence of an investigation into such violation;

in which case the court may assess not less than $5,000, or unless the court finds that the defendant is a partnership, corporation, association, or organization, the annual gross receipts of which did not exceed $1,000,000 at the time the action was brought, and which had not more than 80 employees at the time the action was brought, and the court finds the assessment of $10,000 will result in substantial hardship under the circumstances for the defendant, in which case the court may assess not less than $5,000";

(3) striking out "2 times the amount of damages" and inserting in lieu thereof "3 times the amount of damages unless the court finds the provisions of paragraphs (A) through (C), in which case the court may assess not less than 2 times the amount of damages, in addition to the amount of the consequential damages";

(4) striking out "not a member of the armed forces of the United States" the first place it appears;

(5) striking out "or" at the end of clause (5);

(6) striking out the period in clause (6) and inserting in lieu thereof "; or"; and

(7) adding at the end thereof the following:

"(7) knowingly makes, uses, or causes to be made or used, a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the Government.

"(b) Consequential damages as used in subsection (a) shall include damages which the United States would not have sustained but for—

"(1) the doing or commission of any of the acts prohibited by subsection (a); or

"(2) having entered into or made any contract or grant as a result of any material part of any false statement,

and which were reasonably foreseeable to the defendant at the time the alleged fraud was committed or at the time of the submission of the claim or statement.

"(c) For purposes of this section, the terms 'knowing' and 'knowingly' mean the defendant—

"(1) had actual knowledge;

"(2) acted in deliberate ignorance of the truth or falsity of the information; or

"(3) acted in reckless disregard of the truth or falsity of the information;

and no proof of specific intent to defraud is required.

"(d) For purposes of this section, 'claim' includes any request or demand whether under a contract or otherwise for money or property which is made to a contractor, grantee, or other recipient if the Government provides any portion of the money or property which is requested or demanded or if the Government will reimburse such contractor, grantee, or other recipient for any portion of the money or property which is requested or demanded.

"(e)(1) The Attorney General or his designee may apply for provisional relief to any district court having jurisdiction pursuant to section 3732 whenever he has reasonable cause to believe this section or section 3730, or 3731 may have been violated. If the court finds there is a reasonable likelihood that the United States will prevail after trial on the merits of its claims, the court shall enjoin the defendant from taking any action which the court, in the exercise of its discretion, finds reasonably likely to hinder or delay the United States in the collection of any judgment which may be obtained in such action.

"(2) In addition, the court may from time to time make such other orders as it deems appropriate, including requiring the defendant to post security for judgment, to seek the prior approval of the court before making any transfer without adequate and full consideration, paying an antecedent debt which has matured more than thirty days prior to the date of payment, or otherwise engaging in any transaction not in the usual and regular course of the defendant's business. Except as provided in this section, such application and proceedings by the Attorney General shall be governed by Rule 65 of the Federal Rules of Civil Procedure.

"(f) Any information furnished pursuant to clauses (A) through (C) of subsection (a) shall be exempt from disclosure under section 552 of title 5.".

SEC. 2. Section 3730 of title 31, United States Code, is amended to read as follows:

"§ 3730. Civil actions for false claims
